REPORT OF SUPERINTENDENT OF SCHOOLS

To the School Board and Citizens of Chesterfield:

I have the honor to submit herewith my fifth annual report on the schools.

TEACHERS AND PUPILS

It is pleasing to be able to report that all teachers who were in Chesterfield last year returned this fall and bid fair to remain with us during the year. More frequently we have had changes during the year than have we been able to keep the entire staff for two successive years. This is a decided step forward. I wish to testify here to the interest that teachers have in their work and the good results which they are obtaining.

Standard tests have been given in all the fundamental studies in grades four to eight inclusive. Either the teachers or I will be glad to show anyone the results and go over individual records with parents. The results are on graph cards made out last year and the advance is easily seen.

For the most part there has been a good record of attendance. Children and parents seem interested in the work and schools. The two rooms at Chesterfield have the best record of attendance for the year for the first fifteen weeks. It is planned to further stimulate the interest in school affairs by a spelling contest toward the end of the year. New spellers have been in use during the year in grades four to eight. These are a decided advantage. The material for reading in some schools is low. This needs to be brought up to standard for with the great advance in reading ability more material is necessary.

HEALTH TEACHING

The teachers are doing all possible to bring to the minds of children the importance of good health by the use of exercises, songs, charts, etc. They can and are doing much. It is planned to have a nurse examine the children instead of a physician as heretofore. I understand that a nurse cannot give a final diagnosis but where there is indication of trouble she can by a personal call give much more information to parents and much more emphasis to the case than can a report from a physician. A nurse for two weeks in the district will cost about the same as an examination by a doctor who spends a day or two.

BUILDINGS

The buildings are in need of the following repairs. Spofford needs attention about the roof. Chesterfield has had installed chemical toilets which make that building nearly complete in every detail necessary for sanitation. The old toilets were abominable and very dangerous. I think we have here just avoided a reprimand from the State Board of Health. West Chesterfield needs many minor and some major repairs. Money to the extent of \$175 was raised for this two years ago and is still available. It has not been used owing to inability to get workmen during vacation time and other indifferences. The detail for these repairs has been gone over often with the members of the board. The general appearance despite good janitor service is disreputable. This ought not to be neglected longer.

I take this opportunity to express my gratitude to the people of Chesterfield for their support of the schools in a way that looks to the future of the town. I am grateful to the teachers, pupils and school board for many things.

Respectfully submitted,

WILLIAM J. ENGLISH,

February 16, 1925.

Superintendent.
