## REPORT OF HEALTH OFFICER

---

To the Selectmen of the Town of Westmoreland:

The following report covering the period from December 5, 1930 to date is respectfully submitted.

18 cases of scarlet fever were quarantined at the North End.

4 houses and the North End school house were infected. All quarantine has now been removed, all the houses and the school house have been disinfected and fumigated.

During the scarlet fever epidemic the North End school children were inspected frequently for early symptoms. All public gatherings involving all parts of the town were discontinued until danger of contagion was over. Four suspected cases were visited and discharged.

31 cases of mumps have been reported in the South Village section and are still being reported. Most of these have been light cases with rapid recovery.

No other contagious disease has been reported.

I wish to thank the Selectmen for their assistance and co-operation in the recent epidemic. Also Mr. Thompson, the school superintendent, and Mrs. Stone, teacher at the North End school.

RUTH C. WARWICK,

Health Officer.

## SUPERINTENDENT'S REPORT

---

To the School Board and Citizens of Westmoreland:

I submit herewith my third annual report as Superintendent of Schools.

### ORGANIZATION OF SCHOOLS

Only two of last year's teachers returned to Westmoreland this year. A regular teacher is employed at the East Westmoreland primary school in place of the Keene Normal school cadets of the three previous years. The new teachers are as follows: At the Corner school, Miss Mildred Neal of Acworth; at the Village school, Miss Marion Carey of Keene teaches in the upper grades room, and Miss Florence Anderson of Nashua in the primary room; Miss Marion L. Bassett of Fremont teaches in the East Westmoreland primary room.

There follows a tabulation of the school organization:

### THE EAST WESTMORELAND SCHOOL

In accordance with the vote of the district the school building at East Westmoreland has been altered and enlarged to include two school rooms. These rooms are so arranged as

to receive the light from only one side of the room from the pupils' left. The two rooms are separated by a folding door partition which can be opened to permit using both rooms as one for school functions and community entertainments.

The equipment of the building is in keeping with its construction. Kaustine Chemical toilets have been installed. Each room is heated by a Kaustine school room heater. New desks, of the single unit movable type were furnished in the primary room. The windows are fitted with double roller shades which permit the admission of light from any part of the window. The material of the shades is of heavy canvas, a very durable material.

### THE OTHER BUILDINGS

During the past summer the Village and Depot schools were painted. At the Depot school new concrete steps were constructed and new doors were hung.

The Westmoreland Depot Parent Teacher Association has wired the Depot school, and installed electric lights there.

For the coming year I would recommend the installation of chemical toilets at the Depot school. New shades also are needed there.

Through the generosity of Mr. Charles Hussey, a set of the Macmillan Measured Library has been furnished the Corner school. This contains much reading material for all grades of the school. In communities where the children do not have access to a public library the value of a gift of this type cannot be overestimated.

I wish to express my appreciation of the kind cooperation of the School Board, parents, and teachers in carrying on the work of the schools.

Respectfully submitted,

LAURENCE O. THOMPSON,

Superintendent of Schools.

---

**MR. OMER G. THOMPSON**

In the midst of the many activities of a busy summer Mr. Omer G. Thompson passed away at his home in East Westmoreland. During his period of service as a member of the Westmoreland School Board he proved himself a tireless worker and an enthusiastic supporter of the schools. His coworkers join in this tribute to the esteem in which he was held by them.
