Report of Superintendent of Schools

To the School Board and Citizens of Mason:

I respectfully submit my fourteenth annual report as Superintendent of Schools.

SUPERVISION

There has been no major change in the general plan of supervision from that of previous years. The results of the standardized tests are used with more effectiveness as we gain in the understanding of the meaning of test results and methods of utilizing them to improve instruction. The outstanding illustration of this gain the past year is in the fields of Reading and Spelling. When tests showed weakness in the reading skills, and particularly in the knowledge of exact meaning of words, we shifted the emphasis in methods of teaching reading to meet the situation. This weakness carried over also into spelling abilities, and we have made a change in the spelling system, introducing a new type of textbook which is a combination of spelling and word study. These have been in use approximately two months, and the improvement in spelling is noticeable already by comparison with work of the preceding months. Standardized tests in the spring and next fall will indicate the extent to which we have overcome the weaknesses, and will point the way to future procedure.

TEACHERS AND SALARIES

The surplus of qualified teachers which existed during the years of the depression has very largely disappeared. There is almost a scarcity of good primary teachers and no more than the normal surplus of upper grade teachers. This situation has accelerated the rate at which teachers' salaries are being restored to their former levels, from the reduced salaries that prevailed in the past five years.

HEALTH

The annual medical inspection was made in November by Doctor McLean assisted by Mrs. Gilbert. The following defects were found:

10 per cent or more underweight	4
Defective vision	5
Posture	8
Defective teeth	11
Diseased tonsils	6
Adenoids	6
Enlarged glands	3

Corrections since the previous medical inspection were noted as follows:

Vision	1
Teeth	2
Tonsils	3
Adenoids	3

Total number examined—24

BUDGET FOR 1937-1938

The budget for the coming year has been prepared on the basis of the organization and costs for the current year. The only important change from last year's estimates are those for transportation and high school tuition. Cost of transportation is estimated on the basis of actual cost this year. High School tuition cost will decrease because of the expected graduation of three pupils now attending Townsend High School and one at Appleton Academy. The total reduction from last year's figure is more than \$500. State Aid has not yet been definitely announced but should be approximately the same as last year, \$1800. We should have a balance of approximately \$500 at the close of this year. Trust Fund income will probably be less than it has been, and we have estimated \$900 for this item. An appropriation of \$2,100 should be sufficient with the balance carried over and other income to meet all necessary expenses next year.

Respectfully submitted,

VERNON S. AMES,
Superintendent of Schools
