Report of Forest Fire Warden & District Chief

People cause fires. Our records show that the number of fires increase in an area as the population increases and our state is growing tremendously. This means that we all must be aware of fire causes and do our best to prevent their occurrence.

When we are very young the lighted matches is an adventure, burnt fingers and a dropped match is another fire. A little older we like to have woodland cookout, or go out by ourselves for a smoke but fire and forests get together for another statistic. We adults like to clean up in the spring, burn the old debris and the dead grass, result - escaped fires and much personal expense.

With new homes and summer cottages located in woodlands and with abandoned fields and forests crowding the back yard of our villages' streets, it is necessary that everyone be aware through the fire season, which comes with the disappearance of the snow, of the need to be careful with outdoor fires and fire sources.

The following action will help:

1. To teach our children the danger of lighted matches.
2. To never discard lighted smoking material from a car or while walking through fields or woods.
- 3 To safely dispose of rubbish preferable at the town dump. If you

The following action will help:

1. To teach our children the danger of lighted matches.
2. To never discard lighted smoking material from a car or while walking through fields or woods.
3. To safely dispose of rubbish preferably at the town dump. If you must burn -
 - a. You need a written permit from the town fire warden for all debris burning except when the ground is covered with snow. Cooking fires in outdoor fireplaces or in charcoal brasiers in your own back yard is permitted on notification of the warden.
 - b. The warden is forbidden by regulation to allow burning of household rubbish on grass by householders between 9:00 A.M. and 5:00 P.M.
4. Promptly report any fire out of control to your fire warden or fire department.

Help to keep our town out of the fire occurrence column and save your tax dollars for useful purposes.

REPORT OF THE LIBRARY TRUSTEES

The Brookline Public Library had a very successful year. The total circulation of books was 8,642. Of these, 2,949 were adult and 5,963 were juvenile, making an increase of almost 2,500 books over last year.

In February, people interested in the library started an organization called **THE FRIENDS OF THE LIBRARY**. The main purpose of this organization is to help our library in any way it can.

Mrs. Geraldine Phillips was appointed the new Librarian following the death of Mrs. Charlotte Wright on April 20, 1968. Mrs. Wright had been our Librarian for more than twenty years. Friends of Mrs. Wright have started a memorial fund.

During April, the library moved to its new rooms. We wish to thank everyone who participated in painting and helped in moving.

Story hours were held during the summer months by the **FRIENDS OF THE LIBRARY**. With the **FRIENDS** help, the library is now open on Monday nights from 7 until 9 p.m. In September, **THE FRIENDS** group started showing films once a month. These films included something of interest for all ages.

Open house was held on November 19, 1968, in order that the townspeople could see the new rooms.

The total number of books acquired during the year was 501. Almost 300 of these were donated. Fifty record albums, new drapes, two file cabinets, with films and books were also donated to the library.

Respectfully submitted,

REPORT OF THE POLICE DEPARTMENT

1968

I would like to extend my sincere thanks to the Board of Selectmen for the co-operation and support they have given to me and to my department during the year 1968.

As you will see by the police activity report, there is a never ending increase in police activity here as well as all over our country and according to all forecast this will continue for some time to come.

This year as in the past the officers have attended police schools, meetings and training sessions with other departments in order to keep abreast of the never ending change in laws and new and revised methods of police practice.

In closing I would like to thank our local newspaper "The Brookliner" for its support. Also I would like to express my gratitude to the members of my Department for their support, fine work and many hours of services. Last but not least I would like to thank the many townspeople through their support and co-operation have helped to make my job more pleasant and my department more efficient. THANK YOU

Respectfully submitted;

Alvin W. Taylor
Chief of Police

Annual Report of the Fire Department 1968

Building Report

During the past year the Fire Department has moved into the new fire House. The members of the Department have brought materials and furnished the labor to put in a Meeting Room and shelves for the Radio Room. The firemen worked many hours installing the fire alarm system. Most of the wire for the alarm system was donated. The landscaping was accomplished with the help of the following townspeople: Edward Veno donated the loam, Clarence Farwell the loading, Arthur Bent Jr. and Ralph Bent the hauling, Eddy Whitcomb donated his tractor for the leveling, Arvo Bedders the Hot Top which Clarence Farwell laid. The firemen seeded the lawn and planted the shrubs.

Equipment

During the past year the pump on the 1929 truck has been rebuilt, the only cost to the town being the bearings. Extensive repairs have been completed on the 1939 truck. All the fire engines are in good condition now.

The town has bought two Scott Air Paks. The firemen donated an Emerson Resuscitator. Three protective coats were bought with town funds. The chief and assistant chief purchased their own coats, boots, and helmets. Two firemen purchased boots of their own.

This year we are asking for new coats and boots. After twenty years use, the old ones are worn out. 500 feet of 1-1/8" hose is also needed.

Training

The firemen completed a course of "Ventilation" offered by the New Hampshire Fire Training Service.

The Department Answered 50 Calls

On behalf of the Department, I wish to thank the townspeople for being fire conscious and preventing fires. In closing I wish to thank the firemen for their co-operation and hours of service.

MELENDY POND REPORT OF 1968

The assessed value of the Melendy Pond area this past year was \$101,950 which produced \$4,689.70 in tax revenue for the Town. In addition to this income a small surplus was realized from leases as noted in the treasures' report.

On site improvements accomplished this past year include a bathing area developed for the Melendy Pond residents, and the beginning of a general survey of the entire area with the intention of mapping the lot lines and roadway limits.

Also legal service was sought with the intention of clarifying the status of Melendy Pond articles presented in the warrant over the past several years.

REPORT OF THE PLANNING BOARD 1968

After reviewing several areas in which we might strengthen the zoning code passed last year, the Board felt that perhaps given a year in which to function, any short comings would become evident. At that time we proposed to offer an article in the warrant seeking funds for a Town map which we felt could be well utilized as the Town continued to grow.

During the winter we were contacted by a group of citizens who were concerned over the latitude our ordinance allowed for the location of trailer parks. Since this group comprised a large cross section of our community we felt an amendment to our zoning code might be what the Town desired at this time, hence, we have offered the recently advertised amendment for the Town's consideration.

Conservation Commission Report

The Conservation Commission was not as active in 1968 as in the first year of operation. The principal area of interest has been in the preservation of the Nissitissit River. Members of the Commission have been active participants in the discussions and plans which have led to the formation of the Nissitissit River Land Trust, Inc.

The Trust was incorporated in December, 1968 and has as its object: "to engage in and otherwise promote for the benefit of the people of the surrounding area, the preservation of the Nissitissit River and its surrounding lands as a natural area or type of "wild river", to preserve the quality of the environment and the natural resources of the land, marshland, woodland and open spaces, and the plant and animal life therein, and the unique scenic and historic sites, and the maintenance of the waters of the Nissitissit River unpolluted and clear-running".

To concept of the trust was developed to overcome some of the difficulties of working with the conservation groups of three different towns and two different states through which the Nissitissit flows.

Land acquisition for the Trust has been given a good start with the donation of a 10 acre tract in Brookline by Jeff Smith of Hollis.

Membership in the organization is being actively sought, with details still to be worked out during the winter months.

Hopefully, with the work of organizing the Nissitissit River Land Trust now out of the way, other worthwhile conservation projects will be studied in the coming months.

REPORT OF COMMITTEE TO STUDY LIBRARY
USE OF THE OLD FIRE STATION

At the 1968 annual Town Meeting Mr. C. Thistleton moved, Mr. R. Key seconded, and the town approved a motion that the "Moderator appoint a committee to study the cost of using the fire station on Main Street as a library and report back to the next Town Meeting". The committee appointed consisted of the selectmen, library trustees, and Geraldine Phillips.

The committee met during November to analyze the proposal that the library use the old fire station and determined that building maintenance, heat installation, fuel, electricity, etc. would use a large amount of funds which could be better utilized on books and other directly beneficial items.

The committee recommends that the library not occupy or otherwise utilize the old fire station, however, as the Committee did not go into extensive investigation of the Fire Station, it is felt that the Town may wish to conduct further investigation.

ADMINISTRATIVE SCHOOL REPORT

To the Citizens of Brookline:

The responsibility of the school, in our democratic society, is to provide an educational program within which framework all students may become all they are capable of becoming. We are continually driving towards fulfilling this goal, as we move forward, only to pause a moment to review the past.

Our year began under the fine leadership of John A. Murphy, Jr., Superintendent of Schools. Mr. Murphy resigned from this position during the summer of 1968 when he accepted a position for advancement. The impact of Mr. Murphy and his untiring efforts will long be felt in Supervisory Union #40. Great strides in education were made during his reign as superintendent here.

After Mr. Murphy's resignation, Mr. Donald Desmarais, Hollis High School Principal, was appointed to fulfill the role of Superintendent until an interim superintendent could be located. Mr. Desmarais is to be congratulated for his outstanding efforts as acting superintendent for Supervisory Union #40.

In August, we were indeed fortunate to locate Mr. Lewis F. Foote, Retired Superintendent, to guide and direct us as Acting Superintendent for the period of August 1 to December 20. An Admirable job was done by Mr. Foote. In December, Supervisory Union #40 found their new Superintendent to again lead the districts toward fulfilling its educational philosophy.

Another of our fine leaders found his opportunity to further his education. Mr. Edward J. Lawton, Teacher Consultant for the past two years, resigned in August to pursue a Doctoral Program at the University of Virginia. Mr. Lawton worked closely with the elementary staff and should be congratulated for the improvements that he has made in the elementary program of our Union. In August, A Teacher Consultant was appointed replacing Mr. Lawton to continue his role.

Along with returning teachers at the Brookline Elementary School, the following have been added to our staff for the current year:

Mrs. Mary Richardson	Grade two
Mrs. Dencie Swarns	Grade three
Mrs. Francisca Gonzaga	Grade five
Mrs. Lois Langq	Grade five and six (Part-time)

Mrs. Margaret Robbins later replaced Mrs. Gonzaga who resigned her teaching position.

The addition of Mrs. Mary Dulac, school secretary, to our staff has been greatly appreciated by both myself and the teachers. Mrs. Dulac has done much to ease the burden of non-teaching paperwork which, previously, the teachers had to carry. Thus, she has been able to free them to devote more time to their primary responsibility - teaching children.

With the resignation in June, 1968 of Mrs. Lillian Barton, Mrs. Betty Hall has been added as Reading Consultant for the Schools of Supervisory Union #40. Mr. Harry Tong, our Music teacher, continues to instruct the school children in Music one half day per week, and Mrs. Charlotte Saxe, Speech Specialist, works with those students who exhibit certain difficulties in speaking. Mr. Edward Gardner continues as Guidance Counselor for Supervisory Union #40 Elementary students, while Mrs. Margaret McInnis remains our School Nurse.

No report on our staff would be complete without mentioning the continued concern and dedication of Mrs. Eliza Wright, school custodian.

The enrollment figure of 214 students represents an increase of eleven pupils from January of 1968.

Our sports program continues this year, and the hope is that it can be extended to include more children than were able to take part last year.

The release of the principal this year from teaching for part of the school day has enabled him to be of more direct service to his staff. This makes for happier relations among staff members which, in turn, has its effect on classroom performance.

To the citizens of Brookline, we express our sincere appreciation for your continued support.

AREA SCHOOL STUDY COMMITTEE REPORT

At the 1968 Brookline School meeting formation of an AREA School Study Committee was authorized to consider AREA School possibilities for Jr. and Sr. High students. The committee has asked a number of surrounding towns if they would consider an AREA school arrangement with Brookline. Of the region's town and cities, Hollis was the only one in a position to develop an AREA agreement for submission to the voters at the 1969 meeting. Since Hollis is also a good geographical choice and the Nashua School Board indicated to Brookline that the future of students in Nashua was uncertain, your AREA Committee decided to form a joint Hollis-Brookline Committee to prepare an AREA School agreement for the voters' considerations.

An AREA School plan is a tuition contract between participating school districts. The essential elements are:

1. The sending district (Brookline) pays the receiving district (Hollis) tuition calculated on actual operating costs plus a facilities (rengal) charge.
2. The receiving district agrees to provide facilities.
3. A contract is signed for a term of 20 years.
4. The State provides increased financial aid to the receiving district-10% more building aid and variable payments per student crossing town boundaries (\$50 to \$60).

The agreement submitted for your approval has been printed in its entirety and distributed to al voters. The following summary points out the important features of the proposed contract.

Summary of Authorized Regional Enrollment and (AREA) School Contract

- A The Hollis AREA School is the name.
- B. Tuition is calculated from actual operating expenses plus rental charge. Transportation is not included in determining tuition rate. All State and Federal aid reduce operating costs except Foundation aid and sweepstakes. Cost per pupil is determined from average daily attendance. Rental per student is calculated from the formula;

2% of the paid-up value of the building plus principal and interest payments less State aid, divided by the building capacity.

- C. All State AREA incentive aid reduces operating cost for tuition computation.
- D. The first year, Brookline grades 7, 8 and 9 would attend, the high school students continuing to go to Nashua, Each year the incoming 7th grade would be added until all six grades are attending. Total enrollment of the AREA school would be about 550.
- E. The AREA plan would begin July 1, 1969 and operate for a minimum of 20 years (required by State).
- F. All Brookline students must attend Hollis unless the parents pay the tuition elsewhere or special schooling, not available at Hollis, is required.
- G. Hollis agrees to provide facilities.
- H. There are two billing dates per year, January 1 and June 1.
- I. Two joint school board meetings per year are provided ro the purpose of information, advice and consulting.
- J. Hollis agrees to provide progress and attendance reports and that the same school regulations apply to both Hollis and Brookline students.
- K. The written agreement may be amended by vote of both school districts at an annual or special meeting by ballot if requested. In deciding how to vote on this plan you should be aware of all considerations both pro and con. We have, therefore, included in our report those factors which we have uncovered in our development of the proposed plan.

ADVANTAGES OF PROPOSED PLAN

1. 20 year guarantee replaces year-to year uncertainty.
2. Reduced transportation costs.
3. Less time lost to the student in transportation.
4. Greater participation in extracurricular activities possible.
5. Small school atomosphere.
6. Small (20 students average) classes.
7. Recognized high quality school.
8. More involvement by Brookline School Board than straight tuition plan.

DISADVANTAGES OF PLAN

1. 20 year contract does not permit a change to another school system if conditions were to warrant such a move.
2. Relatively high costs in Hollis School system.
3. No control over costs.
4. Smaller school may not have the curriculum possible in larger school (at present Hollis is certified as a comprehensive high school and a prime reason why this plan appeals to Hollis that the larger student body makes it easier to provide the desired courses)

In conclusion, your AREA Committee believes that this is a fair plan which considers the interests of both towns. Adoption of this plan will guarantee a high quality education for our children for the next 20 years. However, it will probably cost about 15% more to send our children to Hollis than to Milford or Nashua (if either of those districts would agree to operate with us under a similar plan).

School Board Report

The Brookline Elementary School has completed a year in the addition. It has been a successful year with all of our school operation together under one roof. The building has proved to be all that was expected.

The teachers approached the School Board in December to discuss salary proposals for the coming year. The majority of the School Board did not accept the proposal and made a counter proposal. A minority report is appended. The School Board amjoritites proposal has been used in the budget submitted in this report. The two proposals are as follows:

The School Board was notified in January by the Superintendent of Schools of Nashua that the Nashua School District, due to overcrowding problems, was asking Brookline to phase out the 10 - 12 Sr. High School students a grade per year, and look elsewhere immediately for a place to send 7 - 9. If no place can be found, our 7 - 9 students could attend one more year.

An "Area" planning committee was set up by the School District at the School District Meeting last March to study the possibility of setting up an Area School with Hollis or any other solution. This committee, consisting of a School Board member and two members appointed by the Moderator met with a similar committee from Hollis. The report of this committee is included separately in this report.

The School Board is still at this writing searching for alternate solutions for the problem of finding a place for the Jr. High students to go next year and to solve the problem for subsequent years. An alternative to the Area plan might be to send students to Hollis or another town on a straight tuition basis on a year or three year contract. An article to authorize this appears in the Warrant.

Much of the increase in the proposed budget is due to the increase in tuition cost. This has been experienced all over the state. The state averages has increased from \$549 to \$562 at the Jr. High level and from \$637 to \$695 per pupil for Sr. High. As a result our tuition to Nashua would have been \$98,938 had we continued to send all our high school pupils to Nashua.

This compares to a figure of \$117,092 included in this budget to send 7 - 9 to Hollis and 10 - 12 to Nashua. This is a difference of \$18,154 next year. We expect we can save between 5 and 7 thousand dollars on transportation to Hollis next year, with larger savings in future years.

The budget figures represent the maximum amounts we can estimate for our various alternatives. When we pick a plan it will be possible to reduce line items in the budget e.g. transportation if we go to Hollis, tuition if we go to Nashua, as estimated earlier in this paragraph.

This is a crucial year, when important decisions must be made which will affect our town for many years to come.

Minortiy School Board Report

At the meeting of the School Board with the Brookline Finance Committee to discuss the School District Budget, Mr. John McNabb, Chairman recommended a compromise proposal for teachers' salaries as follows:

Yrs. of teaching Experience	Finance Committee Recommendation
0	5800
1	6100
2	6400
3	6700
4	7000
5	7300
6	7600
7	7900

I feel strongly that we must be competitive with the other towns in our Supervisory Union and in the Nashua area, if we do not want to take a chance on slipping backward in the quality of our teaching staff. We know we are losing two teachers, who will have to be replaced. We will be competing with salary schedules from \$6000 to \$6500 base, in our immediate area.

The compromise proposal would cost the town \$2031 more than the majority Board Proposal. The teacher's proposal would cost the town \$3,729 more than the Majority Board Proposal. I strongly endorse the Finance Committee recommendation.
