REPORT OF
FOREST FIRE WARDEN AND DISTRICT CHIEF

After several successive years of drought, the rains of 1967 came as a welcome change. Our record of the past fire season is good. Our thanks to all who contributed to achieve this good record. Continued improvement in the matter of accurate, prompt detection and rapid effective suppression action can help to maintain this good, worthwhile record even though we do not have an abundance of rain as in the fire season of 1967.

It will help if we follow these simple suggestions:

1. No burning of debris and waste between the hours of 9:00 A.M. and 5:00 P.M. and then only with a written permit from the Forest Fire Warden.
2. Take debris and waste to the town dump.
3. Maintain a clean, safe dump.
4. Keep matches away from young children.
5. Be sure matches and smoking material are dead out when we discard them.
6. Set a good example for others in fire prevention.

ANNUAL REPORT OF
THE SUPERINTENDENT OF SCHOOLS

To the School Board and Citizens of Orford:

I hereby present my annual report for 1967.

CURRICULUM

High School - We have added a survey course in social studies to give the college preparatory seniors a brief introduction to such fields of study as political science, economics, sociology, and area studies. We dropped the course in Asia-African History and substituted one in World Geography. For the general students, we added a course in Business Mathematics so that these terminal students now have a two-year sequence in mathematics.

Although our library holdings are not very large in number nor broad in scope, all of our books are now properly catalogued.

We have improved our industrial arts offering by the purchase of some much needed equipment for the shop, including a lathe and a belt and disc sander. The emphasis on agriculture-related areas has been replaced by a limited industrial arts program. This year we were able to strengthen our woodworking program and next year we hope to be able to introduce some mechanical drawing as well as increase our program in metals.

We are still experiencing some difficulty (because of insufficient staff) in ability grouping in the English department where it is necessary to group both the college preparatory and general students in the same class at the ninth-grade level and probably at both the ninth and tenth-grade levels next year.

The students and coaches deserve a strong commendation for their excellent performance, especially in basketball. The basketball team has certainly been a source of great pride to the school and to the community as well. For the first time, we offered girls field hockey and this has provided a grand opportunity for athletic participation for our high school girls.

Elementary School - We have not made any significant changes in the elementary school program this year. A few minor improvements include offering a little more physical education in the upper elementary grades and we have added substantially to our library books and resources for our elementary students using, for the most part, federal funds available under Title II of the Elementary-Secondary Education Act.

SUPERINTENDENT'S REPORT - 2

Our two major weaknesses in the elementary school program continue to be the double grade in the primary level at Orfordville and the lack of a Kindergarten program.

In terms of curriculum, we have gained a little ground in the two problem areas of science and social studies in the elementary grades but to do the job right we should have more continuity of staff and substantially increased budgetary allocations.

Resource Teaching Program. - This year, our resource teaching program has reached 35 students in Grades Two through Eight. The basic emphasis on this Title I program (federally aided) has been in the field of remedial reading and is geared to help those pupils who need special assistance. Some very significant gains in reading have been made by the children in this program and it is proving to be a most valuable aid for them and for the school program.

SOME THOUGHTS FOR THE FUTURE

The major problem which the District is trying to resolve is the formation of a Cooperative School District. The planning Committee deserves a tremendous amount of credit for the work it has been doing during the past three years to bring about the formation of a cooperative in our area. With the passage of enabling legislation in Vermont and New Hampshire allowing the formation of cooperative interstate school districts, another possibility has been opened up. I am convinced that the most pressing needs of the schools will be met upon the formation of a cooperative school district which will provide better educational opportunities for our high school pupils and allow us to concentrate on providing an improved elementary school program for our younger children.

Another problem which the community will have to face in the foreseeable future is the modernization of the school buildings. Some of our buildings and facilities are obsolete and are not suitable for a modern curriculum program.

The rapidity of change in the school curriculum will continue and this means, simply, that the community will have to provide a higher level of financial support. A key to ongoing curricular development is the quality of the administrative leadership and teaching staff of the school. Careful attention in staffing and staff salaries must be given if we are to assure that our children have an up-to-date program taught by competent professionals.

SPECIAL REMARKS

We have been most fortunate to have had the services of some very dedicated and fine teachers in our schools over the years. I would like to take this opportunity to pay special tribute to three of them. Mr. Leroy Guptill retired from active teaching in June of 1967 after more than 30 years in the teaching profession, 20 of which were in service to the Orford children. Many of his former students will remember him throughout their lives as a fine teacher, one who really made a difference. For several years, the school has had two outstanding elementary school teachers, Mrs. Hazel Donnelly and Mrs. Dorothy Woodward. In serving as the nucleus of the elementary school teaching staff, they have spearheaded curriculum development in the upper elementary grades, oriented new and young teachers to teaching and to the school, and have given freely of their energy and time to assist our young people in every possible way.

CONCLUSION

Inasmuch as this is my last annual report to the district, I wish to express my personal gratitude to the community for its support of the schools. I realize that there have been some sharp differences of opinion over the best course of action for our educational program. Some of these problems have not been resolved through no fault of the people of Orford, particularly with respect to the results of the vote on the Cooperative School District which received heavy support in Orford. One side effect of some of the contested issues has been some updating and improvement in the elementary school program, materials, and resources which has resulted in a better program for the pupils - and that is what is important. I am confident that the community will work together and will soon resolve its school problems. I have made some wonderful friends in Orford and I hope these friendships will endure.

In conclusion, I wish to extend my gratitude to all members of the staff for their fine work in our schools. Special thanks should go to the members of the School Board, the Orford P. T. A., the Cooperative School District Planning Committee and all others who have assisted the Orford schools during the year.

Respectfully submitted,

WILLIAM G. ZIMMERMAN, JR.
Superintendent of Schools
