FOREST FIRE PREVENTION IS EVERYBODY'S BUSINESS

New Hampshire faces a continuing challenge in its forest fire problem — 97 percent of all our forest fires being man-caused and preventable — a serious indictment of interest in our welfare and that of our neighbor. Both the State and the towns are striving diligently to effectively meet the challenge through education of the public to the threat fire presents to our woodlands; by maintaining a well trained corps of wardens and deputy wardens in every community and by providing ample opportunity for all who wish to dispose of unwanted waste materials. Careless and perverseness, however, continue to be the big hurdles.

Thoughtlessly discarded lighted cigars, cigarettes and matches from moving vehicles by hikers, hunters and fishermen; careless burning of debris during hazardous periods in dangerous locations; illegal burning; improperly extinguished debris, camp and cook fires all result in serious loss of property disruption of industry and farm work and unnecessary expenditure of town and state funds.

To meet the challenge successfully, the state, your community and your local forest fire warden need YOUR thoughtful and cooperative effort — The rules are simple.

1. If you burn, be sure to secure a written permit from your local forest fire warden when the ground is not covered with snow. Permits are required for open debris fires, home incinerators, outdoor fire places and camp fires. Your warden is instructed to permit burning if weather conditions, site and type of burning are safe.
2. Be sure that all lighted material — cigars, cigarettes and matches — are completely out before discarding them.
3. Make certain that your debris, camp and cook fires are completely out before leaving them.
4. Insist that others be careful and comply with burning requirements.
5. Call the warden promptly when fire is detected and aid him to extinguish it.

REMEMBER — the fire you prevent might be the one which could burn your property.

REMEMBER — FOREST FIRE PREVENTION IS EVERYBODY'S BUSINESS and our MOST IMPORTANT UNDERTAKING

TRUSTEE REPORT

Our library has over 2,500 books, 19 different magazines and 3 weekly newspapers for its borrowers, and is used more than any other public library in New Hampshire, according to the latest (1956) figures compiled by the State Library.

The statistics show that each person in the state borrowed about five books a year from the more than two hundred public libraries. In only twenty-six libraries did they borrow more than ten books each, while here in Washington the 187 official population borrowed an average of THIRTY-FIVE books and magazines each. The next highest per capita circulation was Piermont with 25.8 books.

During 1957 our library circulated over 4,000 books and magazines, with nearly 700 of these taken out by the 37 young people who use the library.

Such figures as these justify the library's existence. The librarian and the trustees welcome any suggestions that you may have to make the library more useful to us all.

REPORT OF PLANNING COMMITTEE

The Planning Committee has studied the East Washington cemetery situation and Mr. Preston Rolfe has drawn a plan for the new Maynard section.

We did not think it advisable to purchase any of the Cutting land east of the present cemetery.

Recommendations will be made to the voters on March 11th.

The bank balance of the Planning Committee is \$145.67.

SUPERINTENDENT'S REPORT

To the School Board and Citizens of Washington:

I am pleased to present my fourth annual report for your consideration.

Mrs. Vivian McClenning found our northern winters a little too severe and after long deliberation decided to resign and take up residence in Florida. To find a replacement for a one room school is next to impossible today, but the Board was extremely fortunate in obtaining the services of Mrs. Madeline Basto, a former resident of Washington, who agreed to try it for a year.

Mrs. Basto has worked extremely hard and has the school organized on a very efficient basis and the pupils of the Washington Center School are being offered educational opportunities which are rare in a one room school.

The registration at the beginning of the school year are as follows:

Grade I 6	Grade V 6
Grade II 1	Grade VI 4
Grade III 2	Grade VII 3
Grade IV 3	Grade VIII 3

It is expected that three will graduate and at least four will enter the school next year, thus slightly increasing the enrollment.

The number of pupils attending high school is increasing Six are attending the Hillsboro-Deering Cooperative School while one is attending Keene High School.

The above enrollment, although now slightly reduced, is too much of a load to request a teacher to carry and some consideration should be given to relief.

There are various ways in which this relief could be given, but my recommendation is that consideration should be given to the possibility of sending the seventh and eighth grade pupils to a school which has a departmental set up. Thus the work load would be reduced for the teacher and equally as important, if not more so, the Washington pupils would be able to start their high school career on an equal basis with the other members of the freshman class. It has been quite firmly established that pupils coming from a one room school

find the work much more difficult than those who have had the experience of working in the departmental system.

It has been a pleasure to work with a school board so vitally interested in the education of its youth and an equally interested citizenry and I wish to express my appreciation for their cooperation.

Respectfully submitted,

NORMAN R. HARTFIEL
Superintendent of Schools.
