INDEPENDENT AUDITOR'S REPORT

To the Members of the Board of Selectmen Town of Walpole, New Hampshire

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Town of Walpole, New Hampshire as of and for the year ended December 31, 2011, which collectively comprise the Town's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the Town's management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the Town of Walpole, New Hampshire as of December 31, 2011, and the respective changes in financial position thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

Accounting principles generally accepted in the United States of America require that the budgetary comparison information on page 25 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational or economic context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

The Town of Walpole has not presented a management's discussion and analysis. Accounting principles generally accepted in the United States of America have determined that the management's discussion and analysis is necessary to supplement, but is not required to be part of, the basic financial statements.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Town of Walpole's financial statements as a whole. The combining nonmajor funds and individual general fund schedules are presented for purposes of additional analysis and are not a required part of the financial statements. They are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the basic financial statements as a whole.

TOWN OF WALPOLE, NEW HAMPSHIRE

Statement of Changes in Fiduciary Net Assets Fiduciary Funds

For the Year Ended December 31, 2011

Additions:	Private Purpose Trust
Investment earnings:	Ć 22.400
Interest	\$ 22,400
Deductions:	
Trust distributions	10,575
Change in net assets	11,825
Net assets, beginning	110,836
Net assets, ending	\$ 122,661

I. Summary of Significant Accounting Principles

I.A. Introduction

The accounting and reporting framework and the more significant accounting principles and practices of the Town of Walpole (the Town) are discussed in subsequent sections of this note. The remainder of the notes is organized to provide explanations, including required disclosures, of the Town's financial activities for the fiscal year ended December 31, 2011.

I.B. Financial Reporting Entity - Basis of Presentation

I.B.1. Entity Defined

The Town of Walpole is a municipal corporation governed by a board of selectmen consisting of three members elected by the voters. These financial statements present the financial position and activity of the primary government. Component units are organizations for which the primary government is financially accountable, or other organizations for which the nature and significance of their relationship with the primary government are such that exclusion would cause the financial reporting entity's financial statements to be misleading or incomplete. Based on the stated criteria, the Town's financial statements do not include any component units.

I.B.2. Government-Wide and Fund Financial Statements

Government-Wide Financial Statements

The government-wide financial statements include the statement of net assets and the statement of activities. These statements report financial information for the Town as a whole, excluding fiduciary activities. Individual funds are not displayed.

The statement of activities reports the expenses of a given function offset by program revenues directly connected with the functional program. A function is an assembly of similar activities and may include portions of a fund or summarize more than one fund to capture the expenses and program revenues associated with a distinct functional activity. Program revenues include: (1) charges for services which report fees, fines and forfeitures, and other charges for the Town's services; and (2) operating grants and contributions, which finance annual operating activities including restricted investment income. These revenues are subject to externally imposed restrictions to these program uses. Taxes and revenue from other sources not properly included with program revenues are reported as general revenues.

Fund Financial Statements

Fund financial statements are provided for governmental and fiduciary funds. Major individual, governmental funds are reported in separate columns with composite columns for nonmajor funds.

1.B.3. Measurement Focus, Basis of Accounting and Financial Statement Presentation

The financial statements of the Town are prepared in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP). The Town's reporting entity applies all relevant Governmental Accounting Standards Board (GASB) pronouncements. For 2011, the Town has implemented GASB Statement No. 54, which results in governmental fund equity being reported in different components, and the Expendable Trust Fund being reported within the General Fund.

The government-wide statements report using the economic resources measurement focus and the accrual basis of accounting generally including the reclassification or elimination of internal activity (between or within funds). Reimbursements are reported as reductions to expenses. Fiduciary fund financial statements also report using this same basis of accounting, although internal activity is not eliminated in these statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of the related cash flows. Property tax revenues are recognized in the year for which they are levied, while grants are recognized when grantor eligibility requirements are met.

The agency funds are custodial in nature and do not measure results of operations.

Governmental fund financial statements report using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized when they are both measurable and available. Available means collectible within the current period or soon enough thereafter to pay current liabilities. The Town considers revenues to be available if they are collected within 60 days of the end of the fiscal year. Expenditures are recorded when the related fund liability is incurred, except for general obligation debt principal and interest which are reported as expenditures in the year due.

Major revenues susceptible to accrual are property taxes, intergovernmental amounts, charges for services such as water and sewer, and investment income. In general, other revenues are recognized when cash is received.

When both restricted and unrestricted resources are available for use, it is the Town's policy to use restricted resources first, then unrestricted resources as needed. Restricted assets and liabilities payable from restricted assets current in nature are reported with current assets and current liabilities in the financial statements.

I.B.4. Fund Types and Major Funds

Governmental Funds

The Town reports the following major governmental funds:

General Fund – Reports as the primary fund of the Town. This fund is used to account for all financial resources not reported in other funds.

Permanent Fund – Used to account for the financial resources of the funds held by the trustees of trust funds, from which only income, and not principal, is used for supporting Town purposes.

The Town also reports four nonmajor governmental funds.

Fiduciary Funds

The Town reports the following fiduciary funds:

Private Purpose Trust Funds – Account for financial resources of the Town used only for the benefit of other entities or individuals.

Agency Funds – Account for fiduciary assets held by the Town in a custodial capacity as an agent on behalf of others. The Town's agency funds are used to account for the various capital reserve accounts held by the trustees of trust funds on behalf of the village districts and the local school district, and escrow accounts due to developers.

I.C. Assets, Liabilities, and Net Assets or Fund Equity

I.C.1. Cash and Investments

The laws of the State of New Hampshire require that the Town's treasurer have custody of all monies belonging to the Town, other than those held by the trustees of trust funds and library trustees, and pay out the same only upon orders of the Board of Selectmen. The treasurer shall deposit all monies in participation units in the public deposit investment pool established pursuant to N.H. RSA 383.22 or in solvent banks in the state. Funds may be deposited in banks outside the state if such banks pledge or deliver to a third party custodial bank or the Federal Reserve Bank, collateral security for such deposits, United States government or government agency obligations, or obligations of the State of New Hampshire in value at least equal to the amount of the deposit in each case.

Investments are stated at fair value based on quoted market prices.

New Hampshire law authorizes the Town to invest in obligations of the United States government; the public deposit investment pool established pursuant to RSA 383:22; savings bank deposits; prime bankers' acceptances; or certificates of deposit and repurchase agreements of banks incorporated under the laws of the State of New Hampshire or in banks recognized by the state treasurer.

Any person who directly or indirectly receives any such funds or monies for deposit or for investment in securities of any kind shall, prior to acceptance of such funds, make available at the time of such deposit or investment an option to have such funds secured by collateral having a value at least equal to the amount of such funds. Such collateral shall be segregated for the exclusive benefit of the Town. Only securities defined by the bank commissioner as provided by rules adopted pursuant to RSA 386:57 shall be eligible to be pledged as collateral.

I.C.2. Prepaids

Prepaids are payments to vendors that benefit future reporting periods and are reported on the consumption basis. In addition, in the governmental funds, payments of interest on long-term debt before it is due, is recorded as a prepaid item.

I.C.3. Capital Assets and Depreciation

Generally, the Town's property, plant and equipment with useful lives of more than one year are stated at historical cost and reported in the government-wide financial statements. Donated assets are stated at fair value on the date donated. The Town generally capitalizes assets with cost of \$5,000 or more as purchase and construction outlays occur. The costs of normal maintenance and repairs that do not add to the asset value or materially extend useful lives are not capitalized. Capital assets are depreciated using the straight-line method. When capital assets are disposed of, the cost and applicable accumulated depreciation are removed from the respective accounts, and the resulting gain or loss is recorded in operations. Estimated useful lives, in years, for depreciable assets are as follow:

	Years
Land improvements	20
Buildings and building improvements	25-39
Machinery, vehicles and equipment	5-20
Infrastructure	25-50

1.C.4. Fund Equity

The government-wide statement of net assets reports net assets in the following components:

- Invested in capital assets, net of related debt, which is computed as the total capital assets
 less accumulated depreciation, normally reduced by outstanding debt used to acquire those
 assets.
- Restricted for perpetual care, which consists of the balance of the permanent funds where
 the principal must be permanently invested and the income is allowed to be used only for
 cemetery care.
- Restricted for other purposes, which consists of the balance of the permanent funds where
 the principal must be permanently invested and the income is allowed to be used for other
 Town purposes.
- Unrestricted, which consists of the remaining balance of net assets.

The governmental funds report the following components of fund balance:

- Nonspendable, which consists of endowments in the permanent funds, and the balance of tax deeded property in the General Fund.
- Restricted, which represents the expendable income from permanent funds and the library fund, whose use is limited by law.
- Committed, which consists of balances for which the intended use has been established by Town Meeting vote, or by the Board of Selectmen, and would require an equally formal action to remove those commitments.
- Unassigned, which represents the remaining fund balance in the General Fund in excess of the nonspendable, restricted and committed balances.

I.D. Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles, requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

II. Stewardship, Compliance and Accountability

Budgetary Information

Annual budgets are adopted on a basis consistent with generally accepted accounting principles for the General Fund, as well as the nonmajor Water Department and Sewer Department Funds. Unless encumbered, all appropriations lapse at year-end. The Town is allowed to use beginning fund balance to balance the budget. In 2011, \$164,000 of the General Fund unreserved fund balance from 2010 was used.

Encumbrance accounting is employed by the governmental funds. Encumbrances (e.g., purchase orders, contracts) outstanding at year-end are reported as reservations of fund balances and do not constitute expenditures or liabilities because the commitments will be added to the appropriations voted in the subsequent year.

Revenues are budgeted by source. Expenditures are budgeted by functions as follow: general government, public safety, highways and streets, sanitation, water distribution and treatment, health, welfare, culture and recreation, conservation, debt service and capital outlay. Management can transfer appropriations among budget line items as necessary, but the total expenditures cannot legally exceed the total appropriations unless permission is received from the Commissioner of Revenue Administration.

III. Detailed Notes on Funds and Government-Wide Statements

III.A. Assets

III.A.1. Cash and Investments

Custodial Credit Risk for Deposits

Custodial credit risk is the risk that in the event of a bank failure, a government's deposits may not be returned to it. The Town does not have a deposit policy for custodial credit risk. As of December 31, 2011, \$3,015,986 of the Town of Walpole's bank balances of \$3,622,824 was exposed to custodial credit risk as uninsured and uncollateralized.

As of December 31, 2011, the Town's reporting entity had the following investments:

Certificates of Deposit	\$ 715,578
Mutual Funds	1,359,116
Common Stock	2,306,598
New Hampshire Public Deposit Investment Pool	54,174
	\$ 4,435,466
The investments appear in the financial statements as follow:	
Fund reporting level:	
Governmental funds - balance sheet (Exhibit 3)	\$ 3,643,249
Fiduciary funds - statement of fiduciary net assets (Exhibit 7)	792,217
Total	\$ 4,435,466

Investment Risks

Credit Risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. New Hampshire law limits investments to those described in Note I.C.1. The Town does not have an investment policy that places any further restrictions on its investment choices.

Interest Rate Risk is the risk that changes in interest rates will adversely affect the fair value of an investment. Investments held for longer periods are subject to increased risk of adverse interest rate changes. The Town does not have an investment policy that addresses limiting interest rate risk.

Concentration of Credit Risk is the risk of loss attributed to the magnitude of the Town's investment in a single issuer. The Town does not have an investment policy that addresses concentration of credit risk. As of December 31, 2011, excluding the investments in the New Hampshire Public Deposit Investment Pool, the Town has \$901,719 invested in the Columbia Select Large Cap Growth Fund, \$602,867 in the Pimco Total Return Fund, \$280,738 in the Eaton Vance Large Cap Value Fund, and \$269,003 in the Columbia Value and Restructuring Fund. These amounts are 20.33%, 13.59%, 6.33%, and 6.06%, respectively, of the total investments.

Custodial Credit Risk is the risk that, in the event of the failure of the counterparty, the Town will not be able to recover the value of its investments or collateral securities in the possession of an outside party. Of the Town's \$4,435,466 of investments, \$2,306,598 has exposure to custodial credit risk because the related securities are uninsured and uncollateralized and are held by the counter party's trust department or agent, not in the Town's name.

III.A.2. Receivables, Uncollectible Accounts and Deferred Revenue

Property Taxes Receivable and Property Tax Calendar

Property taxes are levied and collected by the Town on a semi-annual basis. Tax bills are due on or around July 1 and December 1, with interest of 12% per annum on all taxes not received by the due date. The first billing is an estimate only based on half of the previous year's billing. The final billing is levied based on an inventory taken in April of each year (the tax year runs from April 1 to March 31), and is assessed after the tax rate has been calculated and set by the New Hampshire Department of Revenue Administration. A lien is executed on any unpaid property taxes in the following year and this lien takes priority over any others. Interest of 18% per annum is charged upon redemption of liened taxes. Properties not redeemed within two years of the date of the tax lien are deeded to the Town. During the current year, the Walpole tax collector executed a lien for uncollected 2010 property taxes on August 7.

The property taxes levied and collected by the Town include amounts for the State of New Hampshire, the Fall Mountain Regional School District, North Walpole Village Precinct, Walpole Fire District and Cheshire County. The Town is responsible for the collection of all these taxes. During the annual tax rate setting process, the Town sets an amount for potential abatements and tax deedings, known as overlay. Overlay is raised through taxation and is reported as a reduction in tax revenue.

The net assessed valuation as of April 1, 2011, upon which the 2011 property tax levy was based was:

For the New Hampshire education tax	\$ 427,163,121
For all other taxes	\$ 445,731,321

The tax rates and amounts assessed for the year ended December 31, 2011 were as follow:

	Per \$1,000 of Assessed Valuation	
Municipal portion	\$4.03	\$ 1,800,701
School portion:		
State of New Hampshire	\$2.32	990,267
Local	\$9.59	4,272,410
County portion	\$3.03	1,349,066
Precinct portion:		
North Walpole Village	\$4.62	305,306
Walpole Fire	\$0.66	249,189
Total property taxes assessed		\$ 8,966,939

The following details the taxes receivable at year-end:

Property:	
Levy of 2011	\$ 640,611
Levy of 2009	42
Unredeemed (under tax lien):	
Levy of 2010	99,067
Levy of 2009	42,421
Timber	651
Total	\$ 782,792

Other Receivables and Uncollectible Accounts

Significant receivables include amounts due from customers primarily for water and sewer services, police details, and reimbursements. These funds report accounts receivable net of any allowance for uncollectible accounts, and revenues net of uncollectibles. The allowance amounts consist of sewer charges and a police detail for which collection is in doubt. Related amounts are as follow:

Accounts	\$ 125,384
Intergovernmental	10,333
Less: allowance for uncollectible amounts	 (46,000)
Net total receivables	\$ 89,717

(The notes are continued on the next page.)

III.A.3. Capital Assets

Changes in Capital Assets

The following table provides a summary of changes in capital assets:

	Balance, beginning	Additions	Deletions	Balance, ending
Governmental activities:				
At cost:				
Not being depreciated:				
Land	\$ 997,954	\$ -	\$ -	\$ 997,954
Being depreciated:				
Land improvements	52,880	-	-	52,880
Buildings and building improvements	1,403,330	51,065	-	1,454,395
Machinery, vehicles and equipment	1,180,884	249,788	(98,385)	1,332,287
Infrastructure	1,392,438			1,392,438
Total capital assets being depreciated	4,029,532	300,853	(98,385)	4,232,000
Total all capital assets	5,027,486	300,853	(98,385)	5,229,954
Less accumulated depreciation:				
Land improvements	(52,880)	-	-	(52,880)
Buildings and building improvements	(704,095)	(47,241)	-	(751,336)
Machinery, vehicles and equipment	(535,596)	(114,129)	98,385	(551,340)
Infrastructure	(81,364)	(32,333)		(113,697)
Total accumulated depreciation	(1,373,935)	(193,703)	98,385	(1,469,253)
Net book value, capital assets being depreciated	2,655,597	107,150	-	2,762,747
Net book value, all capital assets	\$ 3,653,551	\$ 107,150	\$ -	\$ 3,760,701

Depreciation Expense

Depreciation expense was charged to functions of the Town as follows:

J	O	٧	e	1	1	π	16	ì	1	lα	Ш	a	C	τı	VΙ	τı	e	S	:

General government	\$ 28,613
Public safety	14,157
Highways and streets	135,429
Sanitation	7,602
Culture and recreation	 7,902
Total depreciation expense	\$ 193,703

III.A.4. Restricted Net Assets

The government-wide statement of net assets includes restricted net assets of \$3,594,836 for public trusts reported as restricted to reflect purpose restrictions contained in trust indentures.

III.B. Liabilities

III.B.1. Intergovernmental Payable

The amount due to other governments at December 31, 2011 consists of \$2,529,306 due to the Fall Mountain Regional School District for the balance of the 2011-2012 district assessment, and \$23,694 due to the Walpole Fire District for the balance of the 2010 district assessment.

III.B.2. Long-Term Debt

Long-term debt currently outstanding is as follows:

	Outstanding			
	at	Current		
	12/31/2011	Portion		
Compensated absences payable:				
Accrued vacation leave	\$ 27,108	\$ 1,708		
Accrued landfill postclosure care costs	298,100_	13,550		
	\$ 325,208	\$ 15,258		

Changes in Long-Term Liabilities

The following is a summary of changes in long-term liabilities for the year ended December 31, 2011:

	Al	pensated osences ayable	Po	ued Landfill ostclosure are Costs	Total		
Balance, beginning	\$	16,776	\$	311,650	\$	328,426	
Additions		10,332		-		10,332	
Reductions		-		(13,550)		(13,550)	
Balance, ending	\$	27,108	\$	298,100	\$	325,208	

Accrued Landfill Postclosure Care Costs

Federal and State laws and regulations require that the Town continue to perform certain maintenance and monitoring functions at the landfill site. A liability is being recognized based on the postclosure care costs that will be incurred. The estimated liability for landfill postclosure care costs has a balance of \$298,100 as of December 31, 2011. The estimated total current cost of the landfill postclosure care is based on the amount that would be paid if all equipment, facilities, and services required to monitor and maintain the landfill were acquired as of December 31, 2011. However, the actual cost of

postclosure care may be higher or lower due to inflation, changes in technology, or changes in landfill laws and regulations. The Town annually appropriates an amount for postclosure care costs.

III.C. Balances and Transfers – Payments Within the Reporting Entity

III.C.1. Receivables and Payables

Generally, outstanding balances between funds reported as "interfund receivables/payables" include outstanding charges by one fund to another for goods or services, subsidy commitments outstanding at year-end, or other miscellaneous amounts. Activity between funds that is representative of lending/borrowing arrangements outstanding at the end of the fiscal year is also reported as "interfund receivables/payables."

The following schedule reports receivables and payables within the reporting entity at fiscal year-end:

Receivable fund	Payable fund	A	mount
General	Permanent	\$	20,037
Nonmajor	General		30,283
Nonmajor	Nonmajor		16,854
		\$	67,174

The amount due to the General Fund from the Permanent Fund represents reimbursement of maintenance expenditures. The amount receivable in the nonmajor funds from the General Fund represents land use change taxes due to the Conservation Commission from this and prior years. The amount payable from the nonmajor funds to other nonmajor funds represents a reimbursement owed to the Water Department Fund from the Sewer Department Fund.

III.C.2. Transfers

Transfers within the reporting entity are substantially for distributing taxes to the fund for which the appropriation was made, cemetery lot sales, reimbursements, and distributing trust income to the applicable fund. The government-wide statement of activities eliminates transfers reported within the governmental activities columns.

The following schedule reports transfers within the reporting entity:

	Transfers In:								
	G	General		Permanent		onmajor			
		Fund		Fund		Funds		Total	
Transfers out:									
General fund	\$	-	\$	3,375	\$	21,873	\$	25,248	
Permanent fund		5,955		-		5,653		11,608	
	\$	5,955	\$	3,375	\$	27,526	\$	36,856	

III.D. Restatement of Beginning Equity

Net assets and fund balances at January 1, 2011 were restated to reflect the following adjustments:

	Govermental Activities	General Fund	Nonmajor Funds
Consolidate Expendable Trust Funds with			
General Fund per GASB Statement No. 54.	\$ -	\$ 453,156	\$ (453,156)
To record deferred revenue	-	(271,362)	-
To remove capital assets disposed of in a prior year	(154,467)	-	-
Net assets/fund balances, as previously reported	8,996,550	692,828	716,063
Net assets/fund balances, as restated	\$ 8,842,083	\$ 874,622	\$ 262,907

(The notes are continued on the next page.)

III.E. Fund Equity

The components of fund balance, as described in note I.C.4, are classified for the following purposes:

			Permanent Fund	Nonmajor Funds		
Nonspendable:						
Endowments	\$	-	\$	3,397,851	\$	-
Tax deeded property		16,275		.		-
Total nonspendable		16,275		3,397,851		_
Restricted:						
Culture and recreation		-		196,985		60,616
Committed:						
Public safety		15,287		-		-
Highways and streets		22,638		-		-
Sanitation		14,141		-		14,239
Water distribution and treatment						66,622
Culture and recreation		364,346		-		-
Conservation		-		-		128,101
Total committed		416,412		-		208,962
Unassigned		533,518		-		-
Total fund balances	\$	966,205	\$	3,594,836	\$	269,578

IV. Other Information

IV.A. Risk Management

The Town's risk management activities are reported with governmental activities and recorded in the general fund. During the fiscal year, the Town was a member of the Local Government Center Property-Liability Trust, Inc., which is considered a public entity risk pool, currently operating as a common risk management and insurance program for member governmental entities.

Local Government Center Property-Liability Trust, Inc. (the Trust) – This Trust is organized to provide certain property and liability protection to member towns, cities, and other qualified political subdivisions of New Hampshire. As a member of the Trust, the Town shares in contributing to the cost of, and receiving benefits from, a self-insured pooled risk management program. The membership and coverage run from July 1 to June 30.

Contributions paid in 2011 for fiscal year 2012 ending June 30, 2012 to be recorded as an insurance expenditure/expense totaled \$37,339. There were no unpaid contributions for the year ending June 30, 2012 and due in 2011. The Town also paid \$37,978 for workers' compensation for the year ended December 31, 2011. The trust agreement permits the Trust to make additional assessments to

members should there be a deficiency in trust assets to meet its liabilities. At this time, the Trust foresees no likelihood of any additional assessments for past years.

IV.B. Retirement Pensions

The New Hampshire Retirement System (NHRS) is a multiple-employer, cost-sharing, contributory public employee defined benefit plan qualified under section 401(a) of the Internal Revenue Code, and funded through a trust which is exempt from tax under Internal Revenue Code section 501(a). The Town's police officers and other employees are members of the NHRS. The NHRS provides service, disability, death and vested retirement benefits for the members and their beneficiaries. The New Hampshire Legislature establishes the provisions for benefits and contributions. The NHRS issues a separate financial report that is available by contacting the NHRS at 54 Regional Drive, Concord, NH 03301.

Both the members and the Town make contributions to the NHRS. Member rates of contribution are set by the Legislature. Employer rates are determined by the NHRS trustees based on an actuarial valuation. The employee rate of contribution for police officers for the period of January 1 to June 30 was 9.3% of gross earnings, and for the period of July 1 to December 31 was 11.55%. The employee rate of contribution for other employees for the period of January 1 to June 30 was 5% of gross earnings, and for the period of July 1 to December 31 was 7%.

For the period of January 1 to June 30, the rate of contribution for pension and the medical subsidy from the Town were 14.63% for police, which consisted of 75% of the total employer cost, and 9.16% for other employees. In July, the rates of contribution for pension and the medical subsidy were 25.57% for police and 11.09% for other employees, for the period of August 1 to December 31, the rates of contribution for pension and the medical subsidy were 19.95% for police and 8.80% for other employees, which were 100% of the total employer cost. The balance of the employer cost for the period of January 1 to June 30 was paid by the State of New Hampshire. Employer contributions from the Town during the years 2009, 2010 and 2011 were \$65,339, \$68,080 and \$76,464, respectively. The amounts are paid on a monthly basis as due. The amount paid by the State for 2011 was \$3,469. This amount has been reported as an expenditure/expense and revenue on the government-wide statement of activities and on the governmental funds statement of revenues, expenditures and changes in fund balances.

IV.C. Contingent Liabilities

The Town has received federal and state grants for specific purposes that are subject to review and possible audit by the grantor or pass-through agencies. Any such audit may result in a requirement to reimburse the grantor agency for costs disallowed. The Town does not feel the chance of disallowance is likely, and if it should occur, the amount would not be material.

COMMUNICATION OF CERTAIN MATTERS

To the Members of the Board of Selectmen Town of Walpole, New Hampshire

In planning and performing our audit of the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Town of Walpole as of and for the year ended December 31, 2011, in accordance with auditing standards generally accepted in the United States of America, we considered the Town of Walpole's internal control over financial reporting (internal control) as a basis for designing our auditing procedures for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Town's internal control. Accordingly, we do not express an opinion on the effectiveness of the Town of Walpole's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or combination of deficiencies in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis.

Our consideration of internal control was for the limited purpose described in the first paragraph and was not designed to identify all deficiencies in internal control that we consider to be material weaknesses. Given these limitations during our audit, we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

We would like to note the following matter that we feel is an area for improvement in internal controls.

Collateralization of Accounts (Repeat Finding)

We recommend that the Town work with its banking institutions to obtain collateralization for its account balances.

This communication is intended solely for the information and use of management, the board of selectmen, and others within the organization, and is not intended to be and should not be used by anyone other than these specified parties.
