REPORT OF THE BOARD OF SELECTMEN

The year 1991 has again been an eventful year for the Town of New London. We are happy to report that most of the issues that we have been working on over the past several years are now coming to what we hope will be successful conclusions.

The biggest issue that appears to be near settlement is the closure of our Mountain Road landfill. As we have explained over the past few years, the cost estimates to complete this job were in the two million dollar range. Needless to say when the bids were opened this fall and the low bid was \$654,000, the Selectmen were extremely pleased and relieved. Even with this apparent good news, however, we are still approaching this issue with caution and are requesting that a substantial contingency be appropriated to ensure the successful completion of this project.

On the legal front we also seem to have made much progress. Two outstanding lawsuits that had the potential to cost the Town a great deal of money have been settled in our favor. Although there is always the chance that these decisions can be appealed, we can take some consolation that at this point in time they are behind us.

As we are all aware the economy of our country and state have seen much better times. The Town of New London has also felt this economic slow down. We have experienced a real decline in new construction and the assessed valuation of the Town has grown at a rate of only about 1%. However, most of our expenses have not shown a corresponding decline. All this means is that the Town is under extreme pressure to trim our budgets wherever possible to prevent any large jumps in our tax rate. We are quite pleased with the work our town departments have done toward this end. As you know our tax rate increased only a little over 1% last year and our projected goal for next year is for a level tax rate. The Selectmen cannot thank the town employees enough for their hard work and dedication to help us achieve these goals.

In conclusion the Selectmen would like to thank all the people of New London for the countless volunteer hours served on our various committees and boards. It is this kind of dedication and concern that make New London such a special place to live.

R. PETER BIANCHI

Chairman

HAROLD BUKER, JR.

SALLY K. FIFIELD

NOTICE TO PROPERTY OWNERS

Effective with the year 1987 the owners of real property will **not** be required to file an Inventory of Taxable Property per a vote of the Board of Selectmen to adopt the provisions of RSA 74:4a.

NOTICE TO CURRENT USE APPLICANTS

New applicants for Current Use must fully complete a current use application form with a map showing clearly the land to be considered for Current Use. All applications and maps must be on file with the Board of Selectmen by April 15, 1992.

TOWN HISTORY - MIRROR TO AMERICA

The office of the Town Clerk has available for sale, during regular business hours, copies of **Mirror to America, A History of New London, New Hampshire, 1900 - 1950**, at a cost of \$10.00 per copy.

TOWN MEETING — MARCH 12, 1991
BALLOTING — WHIPPLE MEMORIAL HALL

Moderator Hilary P. Cleveland called the meeting to order at 10:00 a.m. to consider Article 1:

- A. To choose all necessary Town Officers for the ensuing year.
- B. To vote by ballot on amendments to the New London Zoning Ordinance.

Polls were opened at that time.

At 12:00 noon a motion was made and seconded to recess the town meeting to Wednesday, March 13, 1991, at 7:00 p.m. in the Kearsarge Middle School Gymnasium, to act upon Articles 2 through 30. The polls would remain open until 7:00 p.m. Motion was passed.

Polls closed at 7:00 p.m. and counting of the ballots commenced at 8:00 p.m. At 10:30 p.m. Moderator Cleveland read the results of the balloting.

Attest:

Lois E. Marshall, Clerk

Results of Non-Partisan Balloting for Town Officers. Total registered voters — 2,459; 767 regular ballots cast, 116 absentee ballots cast for a total of 883 votes cast or 35.9% of total registered voters.

**BALLOT RESULTS ON AMENDMENTS
TO THE NEW LONDON ZONING ORDINANCE.**

Are you in favor of the adoption of Amendment No. 1 as proposed by the Planning Board for the New London Zoning Ordinance?

AMENDMENT NO. 1:

The Planning Board's Amendment No. 1 amends Article II General Provisions, Paragraph 5. Height Regulation to require a Special Exception instead of a Variance to permit certain structures (flagpoles, chimneys, public utility structures, water towers, church steeples or towers, silos, and windmills) to exceed the thirty-five foot height limitation and further limits the types of structures which may exceed the height limitation.

As Article II General Provisions, Paragraph 5. Height Regulation is presently written:

In all districts structures shall not exceed thirty-five (35) feet in height above average ground level unless approved by the Board of Adjustment. The Board may authorize a variance to the monuments, tanks, water and fire towers, stage and scenery lofts, silos, cooling towers, ornamental towers and spires, chimneys, elevator bulkheads, smokestacks and flagpoles.

YES - 633 NO- 190

RATIONALE:

The Planning Board's Amendment No. 1 will make it easier to exceed the height limitation for structures such as flagpoles, chimneys, public utility structures, water towers, church steeples or towers, silos and windmills by requiring a Special Exception instead of a Variance.

Are you in favor of the adoption of Amendment No. 2 as proposed by the Planning Board for the New London Zoning Ordinance?

AMENDMENT NO. 2:

The Planning Board's Amendment No. 2 amends Article II General Provision, Paragraph 10. Sign Regulation to amend sub-paragraph a. to further define and clarify the signs permitted for commercial businesses; to amend sub-paragraph b. to preclude lighting of signs which would endanger or confuse traffic on a street; and to delete sub-paragraph e. which would be incorporated into sub-paragraph a.

As Article II General Provisions, Paragraph 10. Sign Regulation, Paragraphs a., b. and e. are presently written:

- a. Property owners or tenants with business, professional, or other service enterprises shall be allowed two advertising signs, relating only to the use, or uses conducted in the building or on the immediate premises thereof; also two signs pertaining to the lease, sale or use of the lot or building on which placed.
- b. Signs shall be permitted no larger than four (4) square feet in the Residential Districts, the Conservation District, the Agricultural and Rural Residential Districts, and for residential uses in the Institutional Districts; and fifteen (15) square feet in the

Commercial Districts and the Institutional Districts as noted above. No signs shall be placed in such a position as to endanger traffic on a street by obscuring a clear view or by confusion with official street signs or signals. Every sign permitted hereunder shall be constructed of durable materials and shall be maintained in good condition and repair at all times.

- e. In cases where three (3) or more separate commercial businesses occupy a single premises, the size of the free standing signs for all such businesses shall not exceed twenty-five (25) square feet. It is required that a single sign listing all be placed according to the restrictions and provisions given in Article II, 10a. of this Ordinance.

YES - 668 NO - 145

RATIONALE:

The Planning Board's Amendment No. 2 will further define and clarify the signs permitted for commercial businesses and preclude lighting of signs which would endanger or confuse traffic on a street.

Are you in favor of the adoption of Amendment No. 3 as proposed by the Planning Board for the New London Zoning Ordinance?

AMENDMENT NO. 3:

The Planning Board's Amendment No. 3 amends Article V Residential District, Paragraph A. Uses Permitted by adding a sub-paragraph 7 which would permit an accessory building to be built on a lot with or without the main building on the lot.

YES - 539 NO - 270

RATIONALE:

The Planning Board's Amendment No. 3 will permit construction of an accessory building on a lot such as a garage or a storage building without the presence of the principal building on the lot. Currently the Ordinance requires the existence of the principal building before an accessory building can be constructed on a lot.

Are you in favor of the adoption of Amendment No. 4 as proposed by the Planning Board for the New London Zoning Ordinance?

AMENDMENT NO. 4:

The Planning Board's Amendment No. 4 amends Article VI Agricultural and Rural Residential District, Paragraph C. Yard Requirements by adding a new sub-paragraph 2. to require a fifty (50) foot setback from each abutting street on a corner lot.

YES - 600 NO - 207

RATIONALE:

The Planning Board's Amendment No. 4 will require a fifty (50) foot setback from each abutting street on a corner lot in the Agricultural and Rural Residential District. Currently the ordinance requires a fifty (50) foot setback from one abutting street and twenty-five (25) feet from the other abutting street for a corner lot. This amendment will add a corner lot provision like the one which currently exists in the Residential Districts.

Are you in favor of the adoption of Amendment No. 5 as proposed by the Planning Board for the New London Zoning Ordinance?

AMENDMENT NO. 5:

The Planning Board's Amendment No. 5 amends Article VII Commercial District,

Paragraph B. Land Requirements by adding a new sub-paragraph 3. to require a thirty (30) foot setback from each abutting street on a corner lot.

YES - 629 NO - 175

RATIONALE:

The Planning Board's Amendment No. 5 will require a thirty (30) foot setback from each abutting street on a corner lot in the Commercial District. Currently the ordinance requires a thirty (30) foot setback from one abutting street and ten (10) feet from the other abutting street for a corner lot. This amendment will add a corner lot provision like the one which currently exists in the Residential Districts.

Are you in favor of the adoption of Amendment No. 6 as proposed by the Planning Board for the New London Zoning Ordinance?

AMENDMENT NO. 6:

The Planning Board's Amendment No. 6 amends Article XX Wetland Conservation Overlay District, Paragraph B. Overlay District Boundaries, sub-paragraph ii. to require a minimum area of 2,000 square feet before an area of poorly drained or very poorly drained soils is considered to be defined as a wetland.

As Article XX Wetland Conservation Overlay District, Paragraph B. Overlay District Boundaries, sub-paragraph ii is presently written:

- ii. Poorly drained soils or very poorly drained soils as classified by the most recent Soil Conservation Service Soil Survey of Merrimack County or as mapped according to High Intensity Soil Maps for New Hampshire soils mapping technique defined in Society of Soil Scientists of Northern New England publication number 1.

YES - 659 NO - 144

RATIONALE:

The Planning Board's Amendment No. 6 will require a minimum area of 2,000 square feet of poorly drained or very poorly drained soils before they will be included in the Wetland Conservation Overlay District. This amendment will eliminate the very small pockets of poorly drained and very poorly drained soils from being considered as wetlands under this Ordinance.

Are you in favor of the adoption of Amendment No. 7 as proposed by the Planning Board for the New London Zoning Ordinance?

AMENDMENT NO. 7:

The Planning Board's Amendment No. 7 amends Article XV Board of Adjustment, Paragraph C. to require that any expansion of a Special Exception use shall be permitted only if approved after a public hearing before the Board of Adjustment.

As Article XV Board of Adjustment, Paragraph C. is presently written:

- C. All special exception uses shall be permitted only after a public hearing before the Board of Adjustment.

YES - 652 NO - 130

RATIONALE:

The Planning Board's Amendment No. 7 will clarify that the expansion of a special exception use requires approval by the Board of Adjustment following a public hearing. This amendment will preclude uncontrolled expansions of special exception uses and permit the expansion of a special exception use only if approved by the Board of Adjustment after abutting property owners have an opportunity to review and comment on the expansions plans at a public hearing held by the Board.

Are you in favor of the adoption of Amendment No. 8 as proposed by the Planning Board for the New London Zoning Ordinance?

AMENDMENT NO. 8:

The Planning Board's Amendment No. 8 would revise the Zoning Ordinance to incorporate floodplain development regulations that are in compliance with the minimum requirements of the Federal Emergency Management Agency which would allow the community to participate in the National Flood Insurance Program. These floodplain regulations are required in order for property owners in town to be eligible to purchase flood insurance for the protection of their properties. This amendment involves adding a new Article XXII Floodplain Overlay District, amending Article III Definitions to add a number of required definitions, and amending Article XX Wetlands Conservation Overlay District by adding a new sub-paragraph E. (5). The basic requirements of these floodplain regulations is that new or substantial improvement of residential structures be elevated to or above the 100 year flood level and new or substantial improvement of non-residential structures be either elevated or waterproofed to or above the 100 year level.

YES - 695 NO - 99

RATIONALE:

The Planning Board's Amendment No. 8 will allow the community to participate in the National Flood Insurance Program by incorporating into the Ordinance floodplain development regulations which comply with the minimum requirements of the Federal Emergency Management Agency. Adoption of these floodplain regulations will allow property owners to continue to be able to purchase flood insurance, will allow banks which are federally insured to continue to provide mortgages to property owners in floodplain areas, and will allow the community to receive federal disaster relief funds in case of a flood disaster. If this amendment is not adopted, then New London will be suspended from the National Flood Insurance Program and none of the above items will be available to property owners or the community.

Are you in favor of the adoption of Amendment No. 9 as proposed by the Planning Board for the New London Zoning Ordinance?

AMENDMENT NO. 9:

The Planning Board's Amendment No. 9 amends Article III Definitions, Paragraph 49. Structure to delete fences from the definition of a structure in order to permit fences to be erected up to the property line instead of being required to comply with setback requirement.

As Article III Definitions, Paragraph 49, Structure is presently written:

49. Structure. Anything constructed or erected with a fixed location on the ground, or attached to something having a fixed location on the ground. Among other things, structures include buildings, mobile homes, wall, fences, billboards, and poster panels, and accessory structures (including dish antennas or satellite earth stations of over three (3) feet in diameter).

YES - 689 NO - 110

RATIONALE:

The Planning Board's Amendment No. 9 will exclude fences from the definition of structure in order to allow fences to be erected up to a property line and not be subject to setback requirements.

**CONTINUATION OF TOWN MEETING — MARCH 13, 1991
KEARSARGE MIDDLE SCHOOL AT 7:00 P.M.**

Moderator Hilary Cleveland called the meeting to order at 7:05 p.m. and announced the voting results to the audience.

Selectman James W. Moreland was recognized and presented Sargent David Seastrand of the New London Police Department with Employee of the Year Award.

Mr. Moreland recognized Benjamin L. Bucklin's 17 years of service as Treasurer of the Town of New London. Also recognized were the following for their years of service to our town:

Prentice C. Home - Budget Committee
 Richard S. Biddle - Sullivan County Reg. Refuse Disposal District
 Charles A. Mortensen - Planning Board
 Harry Woodward Blunt - Business Advisory Committee
 Donald Eberly - Business Advisory Committee
 Richard E. Mann - Business Advisory Committee
 Brian J. Prescott - Business Advisory Committee
 Dr. Peggy Stock - Business Advisory Committee

ARTICLE 2: It was moved and seconded, "To see if the town will vote to suspend the reading of the individual Articles of the Warrant and to refer to them by number."

VOTE IN THE AFFIRMATIVE

ARTICLE 3: It was moved and seconded, "To see if the town will vote to raise and appropriate the following sums for the ensuing year to defray town charges."

	1990	1991
Town Officer's Salaries	\$ 9,500	\$ 9,500
Town Officer's Expenses	212,736	232,756
Town Buildings	49,830	46,680
Election & Registration	2,400	1,550
Social Security & Retirement	75,200	88,150
Insurance	235,454	272,462
Planning Board/Zoning Board	27,250	26,225
Local Welfare	2,100	10,000
Upper Valley/Lake Sunapee Council	2,618	2,618
Street Lighting	<u>17,500</u>	<u>18,375</u>
	\$634,588	\$708,316

(\$1.57 per thousand)

Moderator Cleveland recognized James Moreland who made a motion to amend Article 3, by decreasing the Social Security and Retirement figure in the 1991 column by \$13,850 making the figure \$74,300, and by increasing local welfare figure in the 1991 column by \$5,000 making the figure \$15,000 and making the column total \$699,466. The motion was seconded.

VOTE IN THE AFFIRMATIVE ON THE AMENDMENT

VOTE IN THE AFFIRMATIVE ON AMENDED ARTICLE

ARTICLE 4: It was moved and seconded, "To see if the town will vote to raise and appropriate the sum of \$6,000 for the maintenance and updating of tax maps."

(1 cent per thousand)

VOTE IN THE AFFIRMATIVE

ARTICLE 5: It was moved and seconded, "To see if the Town will vote to raise and appropriate the sum of \$5,000 for revaluation pick-up work on town assessments."

(1 cent per thousand)

VOTE IN THE AFFIRMATIVE

ARTICLE 6: It was moved and seconded, "To see if the town will vote to authorize the Selectmen to construct and re-erect a directional sign, at town expense, of the same size and height of the sign which was removed, on town property, at the four corners, on the southwesterly corner of the intersection of South Pleasant Street, and Main Street in close proximity to where the previous sign had stood for more than 20 years, and to grant Louise Todd a license for use of said sign."

BY PETITION

Moderator Cleveland recognized Mrs. Louise Todd who made a motion to amend Article 6 as written in the Warrant by striking it out in its entirety and inserting in place thereof, the following:

"To see if the Town will vote:

1. to raise and appropriate a sum not to exceed \$700 to construct and replace a free-standing signboard on the Southeast corner of the intersection of Main and South Pleasant Streets, where a signboard previously stood for 27 years, the replacement to be similar in design and dimension to the original, and to include, mounted directional signs, the same size as the originals, for the two enterprises who were both in business and on the original signboard when it was removed and destroyed, and
2. to authorize the Selectmen to negotiate a long-term lease, at a nominal annual fee, with the two enterprises listed on the signboard for the future use of the Town property where the replacement signboard will stand, and to include in such long-term lease, the terms requiring that the two enterprises maintain and repair the structure in accordance with the Zoning Ordinance, Article II Section 10 paragraph b." Motion was seconded.

VOTE IN THE AFFIRMATIVE ON THE AMENDMENT

VOTE IN THE AFFIRMATIVE ON AMENDED ARTICLE

Moderator Cleveland recognized Selectman Harold Buker who awarded James W. Moreland with a Certificate of Appreciation for his dedicated service to his fellow citizens as an elected member of the Board of Selectmen for six years (Chairman for two years), an elected member of the Budget Committee for eight years (Chairman for six years), an appointed member of the Planning Board, the long range Capital Expenditures Committee, and the Bandstand Committee. His dedication and high ideals, as well as his continuing contribution to us all, are in the highest standards of the people of New London. Mr. Buker then said, "I would like to add to this because that is just the beginning for Jim. He was one of the leaders in the new office building, transfer station, Kezar Lake problems, worked diligently with the Library Building Committee, landfill, the bandstand (already mentioned), and many many others. but, Jim, I would like to go back to 6 years and a month ago when I spent 4 solid hours talking you into running for Selectman, and I believe that is one of the greatest contributions I have made to this town so far. Jim, the people you have worked with, the selectmen and all the boards you have served on over the years, know, without question, you are in position to be one of the finest selectmen the town has ever had. Jim, I am proud to have served with you."

ARTICLE 7: It was moved and seconded, "To see if the town will vote to raise and appropriate the following amount for the maintenance and upkeep of the public cemeteries."

	1990	1991
Cemetery Commission	\$ 8,300	\$ 7,800
		(1 cent per thousand)

Moderator Cleveland recognized James Bewley who made a motion to amend Article 7 by increasing the 1991 appropriation \$500 for a new total of \$8,300. The motion was seconded.

There being no further business, Moderator Hilary P. Cleveland adjourned the meeting at 8:55 p.m.

LOIS E. MARSHALL, *Town Clerk*

A True Copy Attest: LOIS E. MARSHALL, *Town Clerk*

THE STATE OF NEW HAMPSHIRE

NEW LONDON, N.H.

TOWN WARRANT

To the inhabitants of the Town of New London in the County of Merrimack, in said State, qualified to vote in Town affairs:

(L.S.)

You are hereby notified to meet at the Whipple Memorial Hall in said New London on Tuesday, the tenth day of March at 10:00 o'clock to act upon the following subjects:

- ARTICLE 1:** A. To choose all necessary Town Officers for the ensuing year.
B. To vote by ballot on amendment to the New London Zoning Ordinance.

NOTE: By law, the meeting must open before the voting starts. Therefore, the meeting and polls will open at 10:00 o'clock for the consideration of Article 1, parts A and B.

At 12:00 noon the Meeting will recess, but the polls will remain open until 7:00 p.m. The meeting will reconvene at the Kearsarge Middle School Gymnasium on Wednesday, March 11, 1992, at 7:00 p.m., to act upon Articles 2 through 34.

ARTICLE 2: "To see if the Town will vote to raise and appropriate the sum of \$900,000; said sum to be off-set with the balance of funds released from the Capital Reserve Fund established for the purpose of sanitary landfill and stump dump closures at Town Meeting, March 1989, in the amount of \$141,250 plus any accrued interest; further off-set by authorization of release of Capital Reserve Landfill Closure fund as denoted in Article 4 in the amount of \$430,000 plus any accrued interest, and to authorize the issuance of serial bonds or notes to fund said appropriation in a sum not to exceed \$213,116 for a period not to exceed 5 years under and in compliance with the provisions of the Municipal Finance Act (New Hampshire RSA 33:1 etc., as amended); and to authorize the Board of Selectmen to issue and negotiate such bonds or notes and to determine the rate of interest thereon; and further to authorize the Board of Selectmen to apply for, accept, and expend any Federal, State or other available funds towards the project, according to the terms under which they are received and to borrow in anticipation of the receipt of such aid or the issuance of such bonds, notes, by the issuance of bonds, or notes in anticipation of such bonds, notes or aid as provided by the Municipal Finance Act, as amended; and further to authorize the Board of Selectmen to take all other actions necessary to carry out the project in the best interests of the Town of New London."

(2/3rds vote by Ballot)

ARTICLE 3: "To see if the Town will vote to suspend the reading of the individual Articles of the Warrant and to refer to them by number."

ARTICLE 4: "To see if the Town shall appoint the Board of Selectmen, as agents of the Town, as prescribed in RSA 35:15, to expend the Capital Reserve Fund established for sanitary landfill and stump dump closure, for closure of said landfill, in the amount of \$430,000 plus any accrued interest."

**INDEPENDENT AUDITOR'S REPORT
ON FINANCIAL PRESENTATION**

To the Members of the Board of Selectmen
Town of New London
New London, New Hampshire

We have audited the accompanying general purpose financial statements and the combining and individual fund financial statements of the Town of New London as of and for the year ended December 31, 1990, as listed in the table of contents. These financial statements are the responsibility of the Town's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with generally accepted auditing standards. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

As described in Note 1B, the general purpose financial statements referred to above do not include the General Fixed Asset Account Group, which should be included to conform with generally accepted accounting principles. The amount that should be recorded in the General Fixed Asset Account Group is not known.

In our opinion, except that omission of the General Fixed Asset Account Group results in an incomplete presentation, as explained in the above paragraph, the general purpose financial statements referred to above present fairly, in all material respects, the financial position of the Town of New London as of December 31, 1990, and the results of its operations (and cash flows of nonexpendable trust funds) for the year then ended in conformity with generally accepted accounting principles. Also, in our opinion, the combining and individual fund financial statements referred to above present fairly, in all material respects, the financial position of each of the individual funds of the Town as of December 31, 1990, and the results of operations of such funds for the year then ended in conformity with generally accepted accounting principles.

REPORT OF THE NEW LONDON DISPATCH CENTER

Activity in the New London Dispatch Center continues to grow. Over the last five years incoming phone calls have increased over 76%. Although 1991 has brought some changes in personnel to the dispatch center, there are many employees still with the department who have experienced this growth first hand.

The New London Dispatch Center remains a close knit group of individuals, dedicated to serving the area police departments, fire departments, ambulance and rescue squads, other municipal departments as well as it's community, the residents of New London. Our aids to the public have increased steadily over the years, as the public grows more aware of our accessibility.

The purchase of a new tape recording system for the department has proven it's worth numerous times this past year as we are now able to retain tape recorded incidents over a long period of time. Many departments have taken advantage of the system by using a tape to critique a specific call, or to answer questions that may arise after a certain incident. The dispatchers are also able to easily replay a phone call on the equipment should the need arise to do so.

The town had purchased a facsimile machine last year which is located in the dispatch center, where it is easily accessible twenty four hours a day by other town departments. It has also proven invaluable.

Below are some statistics showing the New London Dispatch activity for 1991. You will notice some new headings that have been added to encompass activities which may have been referred to as miscellaneous in the past years.

	1990	1991
Telephone Calls Received	36,393	41,826
Burning Permits Issued	235	204
Ambulance Calls	414	390
Fire Calls	75	73
Aids to the Public	490	571
Assist Other Departments	523	406
Animals Lost or Stray	105	100
Alarm Problems		590
Road Complaints		55
Lost & Found		69
House Checks Info Taken		212
Property Received		53
Wires Down Complaints		17
Miscellaneous		306

New London Dispatch Center

To: New London Chamber of Commerce and Town
of New London

From: Information Services Directors

Subject: Annual Report for 1991

The New London Area Chamber of Commerce Information Services performed essentially the same services to the Chamber as in previous years which included: management of the information booth, providing telephone information service continually throughout the year and reservation and ticket services for the Chamber and for area non-profit events, respectively.

The attached two sheets summarize the numerical aspects of services provided in 1991. Generally visits to the information booth in 1991 averaged very closely to the past two years but total visits in 1991 were greater due to the longer season which is a function of the opening date which has been on the last Saturday of June. Total telephone calls for information increased from 727 in 1990 to 869 in 1991. Total mailed responses increased from 161 to 238 not including mailings to tour operators generated by mailing lists supplied by the New Hampshire Office of Vacation Travel.

Among the most common telephone requests for information are those for places to stay, places to eat and for cottage rental information which receive Realtor references. Requests for "relocation packages" are still among the more frequently received inquiries. Most inquirers are sent a copy of New London, A Town For All Seasons. We receive a wide variety of requests for information, some of which require a bit of research or sleuthing to answer. (One of the most difficult was tracking down the name and owner of a silver recovery firm on Main Street in New London.) We still receive one or two calls per year asking for the ferry schedule to Long Island. Informational requests about surrounding towns are also received.

Visitors to the Information Booth most frequently are seeking directions or seek

information on events occurring in the area. Many visitors come into the Booth and browse, picking up brochures and asking questions as they occur. Rainy days generate many visits and calls requesting information on what to do with children on a rainy day. Many foreign visitors from the Gordon Research Conferences stop in at the Information Booth for information about the area.

As we expressed last year, a cost/benefit analysis of the New London Area Chamber of Commerce Information Services would be very difficult to generate on a statistical basis. However, the continuing positive feedback of appreciation for the services rendered makes us feel certain that the services contribute substantially to the economy and spirit of the Town of New London and the surrounding area.

Respectfully submitted,

Donald F. Bent

THE AUSBON SARGENT LAND PRESERVATION TRUST (ASLPT)

1991 provided ASLPT the opportunity to work with the Town and other organizations to help protect the rural character of New London. Putting all the pieces together to protect a property takes a great deal of time, in many cases, a year or more.

By working cooperatively with the New London Conservation Commission (NLCC), ASLPT was able to permanently protect 53 acres of Spring Ledge Farm through the state-funded Land Conservation Investment Program (LCIP). Project components included permanent protection of the abutting land of James Cleveland and William Kidder, 16 acres, the Murray and Rachel Sargent conservation easement, the ASLPT Main Street property and a contribution from the NLCC.

ASLPT joined forces with the NLCC, Knights Hill Nature Park and New London Outing Club to purchase 56 acres of open-space land on Knights Hill Road. The project is identified as the C.O.R.E. (Conservation, Open-Space, Recreation, Environment) Land Plan. The C.O.R.E. property along with adjacent protected properties, provides a 192 acre park for the Town.

June 11th was proclaimed "Ausbon Sargent Day". The country picnic with continuous entertainment was sponsored by ASLPT, the Bandstand Committee and the Town. The celebration began with the Town receiving the TREE CITY USA award for the fifth consecutive year. Over 450 people enjoyed this all-community event in honor of the man who gave New London our three acre town common.

Another cooperative effort involving ASLPT is the Greenway Coalition. The ambitious, long-term plan is to create a "forever green" circle of protected lands and a trail network around Lake Sunapee, connecting Sunapee, Kearsarge, and Ragged mountains.

New London properties permanently protected in 1991 with conservation easements include lands owned by: Mrs. Stephen Phillips (3.5, 61.4 & 43.6 acres), New England Forestry Foundation (130 acres), "Kentlands" family (1.4 acres) and the Denny Beach Realty Trust (4.45 acres). ASLPT also protected properties in Sutton and Springfield.

ASLPT has been successful in protecting New London's landscape and quality of life because of the widespread community support. We thank all the people who have given generously to the land trust.

Respectfully Submitted,
Charles V. Sebring
ASLPT Chairman

January 15, 1991

To: Citizens of New London

From: Donald F. Bent, Ph.D., Health Officer

Subject: Health Officer's Report for 1991

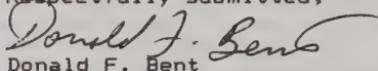

The part-time duties of Health Officer continued in 1991 much as in previous years with the environmental health aspects of the position taking most of the time and effort expended. Duties included inspection of child care facilities; following up on dog-bite reports to be sure that all dogs were rabies immunized or confined to preclude rabies infection; investigation of complaints; observation and recording of all test pit soil data for septic system plan review; consulting with residents on septic system and drinking water problems; attending appropriate training sessions and health officer meetings and reading appropriate public health literature.

During 1991 a total of 55 septic system plans were reviewed. Of these 23 were for new construction 13 for replacement systems one for a development and 14 were re-submissions for various reasons. This compares with 81 plans reviewed in 1990 and 68 in 1989. In 1991, 40 test pit sites were visited which compares with a five year average of 55.6 sites visited per year. These figures reflect the continuing depression in new construction starts in New London. Of the 40 sites in 1991, 20 were for new construction and 19 for replacement while only one was for a long term development project. It should be noted that regulations pertaining to septic system construction and the classification of soil types has become increasingly complex over the last few years.

I continue to be asked questions about the quality of the water supplied by the New London-Springfield Water Precinct. The dark color of the water is due to tannins (as in tea) which are released into the water from leaves which fall into Morgan Pond, into the reservoir and into the swamp through which the water passes going from the pond to the reservoir. The tannins, of themselves, are not of any health significance. However, before entering the distribution system, the water is chlorinated which gives rise to chemical reactions leading to the production of trichloromethane (chloroform) along with other related organics in the treated water. The amount of chloroform present in the water is considered acceptable for a community of less than 10,000 population. However, if New London had a population of greater than 10,000 the water would be considered unsafe. The standards are set with a consideration for the total risk involved, not just the risk to each individual. This is one of the important public health reasons that we should be supporting and urging officials of the Water Precinct to push

ahead with the mandated changes in the water system, i.e. either installation of a complete treatment system or development of groundwater sources (wells). One of the most promising areas being considered for a well field is close to Little Lake Sunapee where underground water from the Lake would provide constant recharge of the wells. This use would not impinge on use of the Lake for recreational purposes. However, there is a group, whose agenda is curtailing growth by limiting water supply, who have spread false information on such a proposed use. There are both public health and regulatory mandates for serious upgrading of our public water supply. Opposing such improvements should not be used as a method of controlling town growth nor should specious arguments be used to legitimize and mask the real reason for opposition to measures which must be taken to provide the town with a pure, clear and healthful public water supply.

Respectfully submitted,

Donald F. Bent

NEW LONDON CONSERVATION COMMISSION

In 1991 the New London Conservation Commission was sorry to see Sparky (Vernon H.) Adams and his wife Peg move to Hanover. Sparky has done so much for the town in his years on the commission and during his years as chairman. We will miss the Adams here in New London and wish them all the best for the future.

1991 was a very busy and productive year for the New London Conservation Commission. The LCIP Project, protecting Springledge Farm, was completed and with it 16 acres of land behind the elementary school was also protected. Our thanks to the Cloughs, the Kidders, the Clevelands and the Sargents for their help on this project.

Thanks to help from the Spurwink School and the New Hampshire Conservation Corps, we were able to fix up the old trail behind the Middle School and start on a new trail out behind Springledge Farm. We have a lot of work to go, but we are off to a great start.

The Conservation Commission continues to be involved in the Planning Board process, with a member of the Conservation Commission sitting as a non-voting member of the Planning Board. The Simone Subdivision was approved this year, which involves an easement protecting the Low Plain Natural area. We look forward to the signing of that easement in 1992.

We were pleased to be a part of the CORE Project, a combined effort of the Ausbon Sargent Land Preservation Trust, Knight's Hill Nature Park, The New London Conservation Commission and the New London Outing Club, to buy a 56 acre parcel of land on Knight's Hill that abuts Knight's Hill Park. A portion of this land will be added to Knight's Hill Park, allowing for some exciting trails and a beautiful piece of protected land.

As usual, we had a good turn out for both our winter walks and our Spring walks. With the help of some great volunteers, these hikes continue to be both fun and informative.

Our extensive easement monitoring program is getting off the ground. Many thanks to Steve Root who donated flying time so we could monitor our biggest tracts of land from the air. Monitoring our easements is probably one of our most important tasks for the future.

Our thanks to the ASLPT and Debbie Stanley for all the help she has given us through out the year. The cooperation that exists between the two organizations is vital to our accomplishments.

The New London Conservation Commission meets the 3rd Wednesday of the month in the Town Hall at 9:15 am. We would love to see you there.

Respectfully Submitted,

Sue Ellen Andrews
Chairman

UPPER VALLEY-LAKE SUNAPEE COUNCIL 1991 Report to Member Communities

Who We Are

There are nine Regional Planning Commissions in New Hampshire and 12 in Vermont. Like the others, the Upper Valley-Lake Sunapee Council is a private, non-profit corporation enabled by state legislation. Our organization consists of the following people:

Board of Directors: Each member town is entitled to at least two members on the Board of Directors. This Board is the Upper Valley-Lake Sunapee Council, and approves the annual work program and budget.

Executive Committee: Most of the authority for overseeing day-to-day operations of UVLSC has been delegated to this Committee, made up of members of the Board of Directors. The Executive Committee meets monthly.

Staff: There are seven full-time and three part-time staff members. The full-time staff include four planners, two community development specialists, and a secretary/receptionist. The part-time staff includes a bookkeeper, map/graphics person, and another planner.

Where The Money Goes

The following chart shows where our funds come from and where the money goes. Most of the money comes from five major sources: dues, federal community development funds ("CDBG"), the states of New Hampshire and Vermont, local technical assistance via contracts with member communities, and transportation planning. Overall, your dues support just over one-fifth of our operation. For each dollar of dues, we obtain nearly four dollars of additional funding which we use for services to the region.

Where the money goes is simple: people. We invest most of the money in our staff, buying brains, education, and experience. The rest pays for an office, telephones, small computers, and mapping equipment — the basics necessary for the people to do the job.

What We Do

Overall, our duties fall into two categories:

- Provide services to member towns
- Address regional issues.

Services to Towns

- **Questions:** We spend a lot of time on the telephone, at meetings, and in our office answering questions about planning issues, based on our cumulative experience and expertise.
- **Answers:** We provide detailed answers to detailed questions. Examples include: reviewing an ordinance, providing a linkage to a state or federal program, reviewing a proposed development project, explaining how a certain aspect of planning usually works, investigating what is appropriate in a given situation, exploring alternative solutions for a particular problem.
- **Information:** In addition to staff expertise, we maintain a library of pertinent planning information. We are a US Census data affiliate.
- **In-Depth Support:** We do transportation planning, master plans, ordinances, natural resource planning, capital improvement programs, impact fee studies, opinion surveys, impact studies for large projects, and other special studies of many sorts. A number of towns also take advantage of our circuit rider planning program. Usually, we must charge

in addition to dues for support in depth, to meet our expenses and break even. This type of support is available only to member communities. We do not do any work for private companies or individuals. These services are available at far less cost than comparable expertise from a private consulting firm.

Regional Issues

- We also provide a forum for regional issues. Currently we are working regionally on transportation planning, community development, economic development, solid waste, hazardous waste, and studies related to Lake Sunapee and the Connecticut River. We are almost always able to support these efforts with state funds and/or special grants. Some of the state funding does vary depending on how much local support we have via dues.

Additional Areas of Special Expertise

- **Transportation Planning** — Regional transportation planning is at the top of the list of regional concerns and priorities. We are working with member towns, the New Hampshire Department of Transportation, and the Vermont Agency of Transportation to assure that local and regional concerns are heard and addressed.
- **Community Development** — UVLSC administers Community Development Block Grant programs for member communities in New Hampshire. We also prepare grant applications to obtain funding under this program.
- **GIS — Geographic Information Systems** — We work with a number of member towns to provide maps and analyses for Master Plans, utilities, and special land evaluation studies.
- **Environmental Planning** — Includes solid waste and water quality planning.
- **Land Preservation** — Support and cooperation with area land preservation efforts.
- Provided consultation and help to over two-thirds of member communities. (Which two-thirds this is varies — not all communities request help every year.)
- Met repeatedly with state officials and agency representatives to influence policy and help keep the region an active participant in many ongoing programs. This included activity with transportation, solid waste, economic development, and environmental regulatory agencies in both New Hampshire and Vermont.
- Maintained a library of regional data, and answered numerous requests for information, including results of the 1990 US Census.
- Used the Geographical Information System (GIS) to perform mapping and analyses for a number of member towns. We now have several years of solid GIS experience and have worked on a wide variety of projects.
- Completed support for formation of the Greater Upper Valley Solid Waste Management District, for Vermont member towns, in cooperation with the Two Rivers Ottauquechee Regional Commission. The district now has its own staff and budget.
- Assisted the Upper Valley Solid Waste District (on the New Hampshire side) in completing an update of the District Solid Waste Plan. Provided general staff support for the District.
- Continued to make available the services of a recycling coordinator to New Hampshire towns. Assisted a number of towns with the most recent round of grant applications for recycling projects.
- Continued to administer the Upper Valley Household Hazardous Waste Collection program.
- Worked in cooperation with the Sullivan County Economic Development Commission.
- Testified in behalf of Impact Fee legislation in New Hampshire. A three-year effort culminated in successful passage of legislation.

- Sponsored local sessions of the NH Municipal Law Lecture series.
- Administered several Community Development Block Grants. These grants have brought several million dollars worth of rehabilitation and municipal improvement funds into the region during the past few years.
- Reactivated the Regional Transportation Coordinating Committee at the request of the New Hampshire Department of Transportation.
- Provided technical assistance to Advance Transit.
- Completed a study of public transportation for social service agencies in nearby towns in Vermont.
- Worked on our Regional Plan, as required by law.
- Complied with applicable Vermont Act 200 requirements at the local, regional, and state level, including participation in the Council of Regional Commissions.
- Participated in the Vermont Act 250 environmental review process for a number of regionally significant projects.
- Sponsored local planning board training sessions in both New Hampshire and Vermont.
- Began working with the communities around Lake Sunapee to develop a watershed management study.
- Worked closely with the Upper Valley Land Trust, society for the Protection of New Hampshire Forests, and the Trust for New Hampshire Lands to protect open space and conserve important parcels of land.
- Continued to participate in and work with the Connecticut River Valley Resource Commission. This commission allows New Hampshire towns in the Connecticut River Valley to join together in addressing issues such as growth, development, and preservation of the natural environment. We actively participated in the River Nomination process sponsored by the Commission.

The Upper Valley-Lake Sunapee Council also provides specific services to communities on a contract basis. During 1991, as requested by member communities, the Council:"

- conducted impact studies regarding proposed development,
- provided assistance with Master Plans,
- worked on amendments/updates to local ordinances and regulations,
- drafted new ordinances,
- supplied regularly scheduled "circuit rider" planning services, and
- provided general mapping, drafting, and other technical assistance.

The Upper Valley-Lake Sunapee Council looks forward to serving your community during the coming year. Please feel free to contact us for more information about specific activities in your community, or whenever we can be of assistance.

REPORT OF THE PLANNING BOARD

The New London Planning Board held twenty regular meetings during 1991. The Board also held four work sessions, conducted five public hearings and had one joint meeting with the Zoning Board of Adjustment.

As a result of the regularly scheduled meetings, the Board approved the following applications:

- One major subdivision and cluster development.
- One major subdivision and planned unit development.
- One major subdivision.
- Seven site plans.
- Fourteen annexations.
- Five home occupations.

Approval was also granted to the Kearsarge Telephone Company for removal of trees along the scenic road of Columbus Avenue.

After several work sessions and two public hearings, amendments to the New London Zoning Ordinance were approved by the Board and presented to the Voters at the Town Meeting.

Public hearings were also conducted concerning changes to the Land Subdivision Control Regulations and were adopted by the Board.

The Capital Improvements Program was reviewed by the Board along with representatives from the Board of Selectmen and the Budget Committee and updated for the period of 1992 through 2001.

The Board would like to thank the citizens of the Town of New London who have attended meetings during the past year and have offered input and expertise to the Board.

Respectfully submitted,
Laurie DiClerico
Chairman

REPORT OF THE NEW LONDON FIRE DEPARTMENT

In 1987, the fire department submitted a capital equipment replacement schedule (see Exhibit 1) that called for the replacement of major pieces of apparatus at evenly spaced intervals in an effort to smooth out the impact on the tax rate and take the surprise out of equipment acquisition. In addition, the capital reserve needed to fund these acquisitions was adjusted by the Budget Committee and the Board of Selectmen to fund all but the initial purchase. This plan became part of the Town of New London's Capital Improvements Plan (CIP) in 1988, as adopted by the New London Planning Board.

The plan calls for the acquisition of a combination ladder/pumper in 1992. The proposed ladder/pumper (see Exhibit 2) will combine the functions of two pieces of apparatus, replacing our 24 year old ladder truck (88-L1) and our small stand-by pumper (88-M2). Although the acquisition cost of the proposed ladder/pumper is \$320,000, it is substantially less expensive to own and operate over its 25 year estimated life, than either the equipment it is replacing, or any other replacement alternatives that are available to us. We will end up with the same pumping and water carrying capacity that we have today, and nearly the same ladder capacity, in one vehicle instead of two. In fact, there could be as much as \$100,000 in savings over the life of the proposed vehicle, when compared to purchasing another used ladder truck. This savings could be enough to pay for one of the smaller fire trucks scheduled to be replaced in the future.

By decreasing the number of fire trucks from 5 to 4, we gain badly needed space in an overcrowded fire station (we currently have 5 trucks in a 4-bay station, leaving no room for meetings and little room for training and working on equipment). Nearly 12 years ago plans for enlarging the fire station were proposed, but not warmly received by either the Selectmen or the Budget Committee. Indeed, a larger fire station would be of little use in putting out fires, assuming that our minimum housing needs are already met. In fact, acquisition of the proposed ladder/pumper will preclude any fire station expansion for the foreseeable future. In addition, insurance expenses and labor costs will be reduced, fuel consumption will be lower and incidental cleaning and maintenance costs will be less.

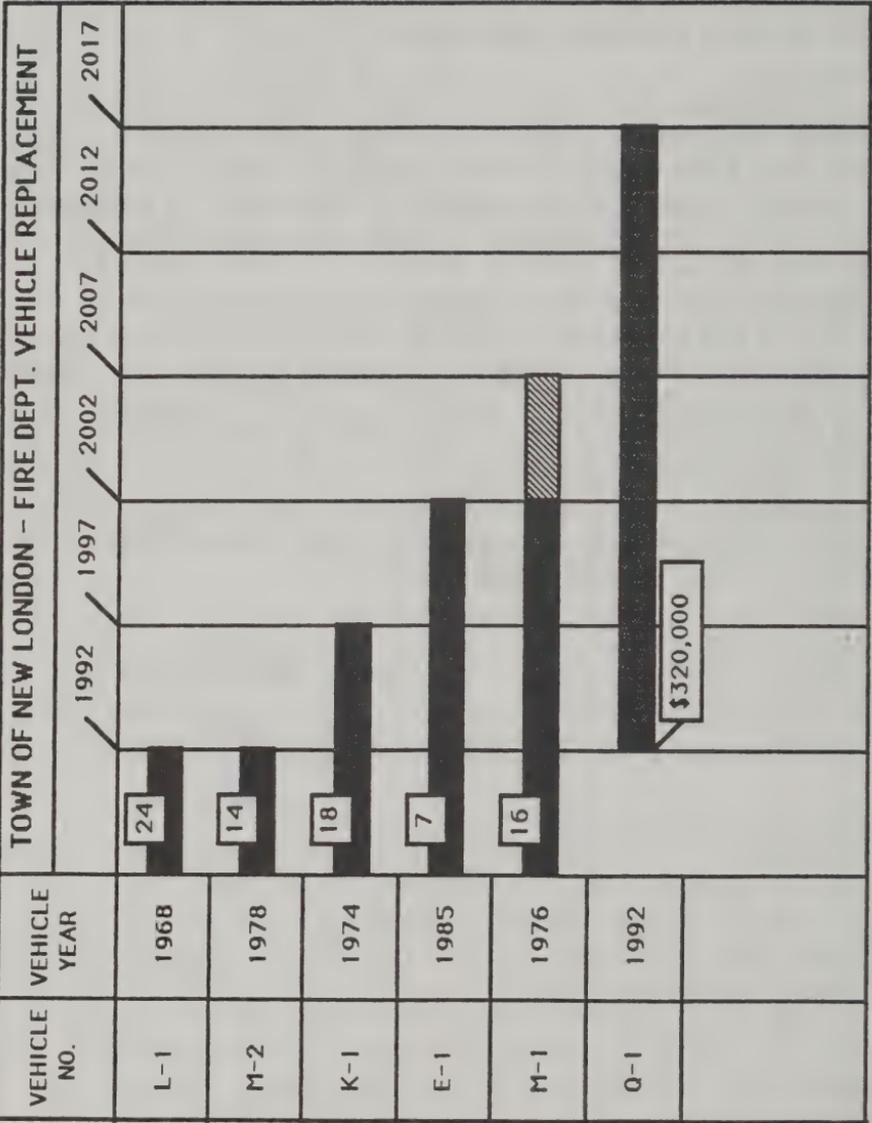

On the surface, a proposal to spend over \$300,000.00 for a fire truck for a rural fire department seems extravagant. But when you carefully consider all the facts and options, and their long term consequences, what seems on the surface to be the most expensive is, in fact, the least expensive in the long run.

There has been much controversy over whether or not this is a good year to make this acquisition. There is never a good year to spend large sums of the taxpayer's money. This year, however, bids for the landfill closure are less than half of what has been anticipated, and our solid waste disposal costs will have increased less than half of what was planned. In addition, nearly 2/3 of the money for this acquisition is currently available, between the capital reserve fund (\$172,000) and the trade-in value of the two trucks being retired (\$30,000). Also, because of age and extensive corrosion the existing ladder truck simply will not remain safely operable beyond the fall of 1992 without incurring a substantial amount of repair costs (none of which could be recouped in sale or trade in). We suggest that this is a very good year to make a sensible long term investment in the Town of New London and to save as much money as possible in the operation of the New London Fire Department.

Respectfully Submitted,

Peter S. Stanley
Fire Chief

REPORT OF TOWN FOREST FIRE WARDEN AND STATE FOREST RANGER

1991 was a very dry and busy year for the New Hampshire Forest Fire Service as well as local fire departments due to our increase in the number of fires. Our three major causes of fires in 1991 were non-permit, children and smoking materials. 450 wildland fires in New Hampshire burned approximately 150 acres for an average fire size of one-third acre.

Primarily, the local fire department is responsible for extinguishing these fires. Keeping the average fire size this small is a tribute to early detection by citizens, our fire tower lookout system and the quick response of our trained local fire departments.

In every municipality, there is a Forest Fire Warden and several Deputy Wardens that are responsible for directing suppression action on wildland fires, working with other fire department members under the direction of the N.H. Forest Fire Service to make sure that all fire department members are properly trained and equipped for suppressing wildland fires. Forest Fire Wardens and Deputy Wardens receive specialized training each year, presented by the N.H. Forest Fire Service, to keep their skill level and knowledge of forest fire laws up to date.

The local Warden and selected Deputy Wardens are also responsible for issuing burning permits for any open burning that is to be done in their community. In New Hampshire, any open burning, except when the ground is completely covered with snow, requires a written fire permit prior to lighting the fire. Before doing any open burning, it is recommended that you contact your local fire department to see if a permit is required and to save your community the cost of sending fire equipment on a false alarm. Any person violating the permit law (RSA 224:27) shall be guilty of a misdemeanor.

Please help your local Warden and fire department by requesting a fire permit before kindling a fire, be understanding if they tell you it is not a safe day to burn and help keep New Hampshire green! Thank you for being fire safe.

ROBERT D. NELSON

Chief, Forest Protection

BRYAN C. NOWELL

Local Forest Ranger

PETER S. STANLEY

Municipal Forest Fire Warden

1991 REPORT OF THE ROAD AGENT

The year 1991 was one that saw many changes in the Highway Department. I was appointed Acting Road Agent in February and Road Agent in September. As the Road Agent, I am responsible for several different divisions within the Town. Every division has different needs, wants and staff. The current staff in all divisions are very dedicated employees, and without them my job would be much more difficult. In an effort to be more cost effective, we will continue to implement ideas and changes that will allow us to provide the best possible services to the Town.

I would like to thank the Board of Selectmen and Citizens of New London for the opportunity to serve the Town in an official capacity. I also wish to thank everyone for their help and assistance during the year. A special thanks to the Ladies of the Town Office Building.

We welcome any questions, comments or concerns regarding the functions of the department, and welcome you to stop by to observe.

CEMETERY DIVISION

The Cemetery Division continued daily maintenance of the three Town cemeteries in conjunction with Town beaches and parks.

A program initiated to locate and identify veterans' graves continued, with many stones being installed during the year. The program will continue in 1992.

In the upper section of Elkins Cemetery, stumps and brush have been removed to the fence near Route

11. This area was loamed and seeded, and we hope to plant several scrubs along the fence to maintain a neat appearance in this new section.

HIGHWAY DIVISION

The Highway Department was busy during 1991. During the winter and spring months winter maintenance and brush removal was done. We also began some of the necessary inside repairs to our buildings. In late spring we finished the repair and site work at the Elkins Dam. The State inspection was passed with flying colors.

The Department spent many hours maintaining the ditches of paved roads this year. Many of the gravel roads received a top coarse of crushed gravel. We plan to gravel more next year.

The work of ditching, culvert repair, and rock removal began in preparation for paving of County Road, Knights Hill Road and Pleasant Street. Once this was completed the roads were paved and new gravel shoulders were placed where necessary.

Rocks were removed from Bog, Tracy, Page Roads, Soo-Nipi Park, Camp Sunapee, Burnt Hill, Jobs Seamans, and Shaker Street. We replaced and repaired many culverts in Town. The biggest were two pipe arches on Stoney Brook Road. These arches replaced four small pipes. Hopefully, this will stop the road flooding and slow the beavers down.

With the Tree Wardens assistance, our tree take down program continued in 1991. Trees on Seamans Road, County Road, Knights Hill Road and Old Main Street were taken down. This program will continue for the removal of dead and diseased trees on Town property or in Town right-of-ways.

RECYCLING AND DISPOSAL DIVISION

In 1991 recycling exceeded the 1990 tonnage amounts recycled. The Recycling Program continues to grow and change. We continue to recycle a premium product that even in the existing markets, we are able to dispose of for some revenue. This program continues to be successful because you, the citizens support it with enthusiasm and commitment.

This year at the Metal and Brush disposal site, we established a reusable section for people to deposit items that were still good and useable. This program was very successful and we hope to add to it in the future. Also, at the Metal and Brush site, we dug up some of the composted leaves that had been left in past years. The Garden Club was able to use this material in the spring planting of the Town flowers. As a result a Leaf Compost was established this fall. The leaf pile will be monitored for temperature and moisture content during the winter. It is expected that this summer there will be some excellent compost material available for the Garden Club and New London Citizens. Additionally, we stored some ditching material that will be mixed with the compost to produce loam for park and road bank work.

In closing, I would like to thank my staff, whose dedication has allowed us to move efficiently.

Respectfully submitted,

**Richard E. Lee
Road Agent**

NH/VT SOLID WASTE PROJECT 1991 ANNUAL REPORT OF ACTIVITIES

The waste-to-energy plant and the ash landfill contracted or operated by the New Hampshire/Vermont solid Waste Project for processing and final disposal of solid waste generated within Project towns performed their function successfully again this past year. Several issues, however, have consumed a considerable amount of time and been points of concern at times throughout the year. Among these have been the continuing shortage of district waste, the contract negotiation talks with Wheelabrator Claremont L.P., and the ongoing litigation between the Project and Kimball Chase, Pike Industries, and Caswell, Eichler and Hill.

The Project guaranteed to Wheelabrator Claremont L.P. 47,500 tons of solid waste in 1991. This is the minimum amount allowed under the present contract. We will deliver to the Wheelabrator facility just over 40,000 tons in 1991. The prime causes of this shortfall have been the deepening recession, increased commercial and residential recycling, and diversion of district trash to less expensive disposal sites.

In April the Project and Wheelabrator, by mutual consent, decided to sit down and talk about specific changes in the existing contract. These talks have continued throughout the year. The major issues covered by these negotiations were the maximum and minimum levels of the guaranteed annual tonnage, recycling credits and ash disposal. The negotiating committee and Wheelabrator now have principles of agreements of these issues that will be addressed by the Districts and Joint Committee early in 1992. The decision whether to alter the contract or not will come as a result of this examination.

The litigation between the Project and Kimball Chase, Pike Industries, and Caswell, Eichler and Hill is scheduled to go to trial on March 2, 1992. This case has been very complex and has lasted much longer than anticipated.

The planning and design of the second stage of the ash landfill is virtually complete. Final plans have been submitted to the N.H. Department of Environmental Services. During the design process it was determined that a Wetlands permit would be required from both the Army Corps of Engineers and the N.H. Wetlands Board. The Corps of Engineers permit has been issued and the N.H. permit is expected in January. Construction on the second stage is expected to begin in April of 1992.

During 1991, the operations of New Hampshire and Vermont municipal recycling facilities and Project operations have expanded. In Springfield and Windsor, Vermont, totally new drop-off facilities were brought on-line. Springfield built a pole barn and Windsor bought metal roll off containers. Cavendish and Ludlow closed the landfilling sections of their transfer station facilities and expanded and redesigned other areas. Weathersfield built a new recycling storage facility as well as a waste oil tank facility. Rockingham and Westminster have continued required testing prior to building their drop-off/processing center at the old Rockingham Town Dump. It should be built in early 1992.

In New Hampshire the major processing facilities of Claremont, Meredith and Sunapee have all expanded. Claremont has two vertical balers, and both Meredith and Sunapee built new storage buildings. The Town of Plainfield is studying whether to continue their curbside contract for trash and recyclables or establish a user fee based transfer/recycling facility.

During the Spring and Fall, Project programs included coordinating four tire pick ups for seven Project towns. Staff also helped to facilitate town marketing of used corrugated

cardboard and magazines into local paper mills. Third, the Project coordinated Christmas tree mulchings in five Vermont sites. Lastly, the Project's Household Battery Program shipped 26-55 gallon drums of dry cell batteries collected both from municipal and retail drop-offs.

In terms of 1991 Grants, New Hampshire municipalities received metals recycling collection containers. In Vermont, the Project assisted municipal facility expansions and the Harlow Farm Composting Grant. The latter is a unique grant for a private farm combining its own agricultural wastes, other food processing business wastes, and leaf and yard wastes from neighboring municipalities.

Solid Waste Planning has continued in the Project with several tasks. The first task was the Vermont required metals separation analysis. The three options analyzed were source separation at residences and work places, front-end and back-end separation at the waste-to-energy facility. This study was completed in December 1991. Second, committees were formed in order to give input into the District and Project as a whole. A Project MRF/Depot committee was formed. A new Vermont Recycling Planning Committee was formed. A New Hampshire Goals Committee was formed. These committees should complete their work in early 1992 so that a Vermont District plan for all waste and for all towns will be completed by Summer of 1992.

In conclusion, other events should be noted. In November 1991, BFI closed its landfill in Rockingham, VT. By establishing a new transfer station, non-combustible bypass waste is still able to be managed through BFI for disposal in Chicopee, MA. With Act 78's required closing of all other Vermont lined landfills by July 1992, the Project will be looking at all options for non-combustible waste. Besides BFI, the landfills Waste USA, Sanco Consumat, and Windham Solid Waste District have been contacted. These options will be investigated in 1992.

NEW LONDON GARDEN CLUB 1991 TOWN REPORT

The New London Garden Club was founded with the purpose to encourage and aid in civic beautification and to protect and perpetuate horticulture and wildlife; to promote and encourage a knowledge and love of gardening and horticulture and to interest all ages to work with nature and conservation.

The New London Garden Club presents each year to the University of New Hampshire a scholarship to the department of plant science and one to the Thompson School of Applied Science.

Our Civic Beautification Committee plants and maintains 17 areas in New London. We also make 35 wreaths at Christmas for public buildings, schools, churches, the library, hospital, town garage and transfer station.

Our yearly beautification contest, with prizes given in commercial and residential categories, has stimulated an enormous interest in making Main Street a fantastic display of flowers and color during our summer season.

The Garden Club has a yearly budget for books and magazines that are donated to Tracy Memorial Library. We also help with landscaping and floral displays.

At New London Hospital we care for patients, flowers and plants; help with the yearly birthday party at Extended Care, donate several large plants to Extended Care's Renovation and have a flower booth at Hospital Day in August, all proceeds going to New London Hospital. We also make Christmas decorations for Extended Care patients and other shut-ins.

All this costs a large sum of money. We have our yearly Antique Show the 4th Saturday in July on the Village Green with 50 dealers displaying their wares. This is the New London Garden Club's only money making project besides our nominal dues to fund all our activities. As far as we can remember, it has always been a fine, sunny, warm day. We pray alot!

There are 125 hard working, active members in the club. We meet on the second Tuesday of each month. Guests are welcome to come hear our fantastic speakers at all meetings except the annual meeting in January and board luncheon in February.

The Club is a member of the Monadnock District, New England Region, New Hampshire Federation of Garden Clubs, The National Council of State Garden Clubs, The Royal Horticulture Society, England and the Arnold Arboretum.

Respectfully Submitted
Mary Ann Rayno
President, 1991

HISTORY AND ARCHIVES COMMITTEE

Townpeople remembered their archives in 1991 with donations of old newspapers, deeds and old photographs. Surveyor maps of Chester Melendy were donated by his daughter, Barbara Parker, and a copy of a 1909 plot map of an area on Pleasant Lake was given by Terrance Dancy. These are all much appreciated.

There were requests (in person and via mail) for archival information, genealogical research and old photographs of various functions and items (a few appeared in The Highland Journal). There was one inquiry on the Stinson graveyard. Some research was done on town veterans at the State Archives in Concord. The graves of veterans are eligible, with proper information, for government stone markers. Fred Welch has been working on this project. Hope Howard has provided photographs of these stones in the West Part cemetery.

The Claude Goings violin and copies of his Civil War letters were used by Bud Lauridsen in a lecture as were photographs of the moving of the Scytheville house. The lecture of this reconstruction was recorded and the video is in the archives.

This is the second year that I have been copying New London vital records at the State Vital Records in Concord. This will give additional information to that which is found in the town report.

Two framed pictures of the Sargent-Spiller house were cleaned of mildew.

After negotiating with the State Grange, a portrait of Anthony Colby, which hung for many years in the Grange Hall, is now in the possession of the town. It is presently being refurbished by Nicholas Isaak.

Prints and negatives have been made from fifty lantern slides of Tracy Farm.

After negotiating with the State Highway District 2 chief, the state cut trees and brush which exposed the stone dam at Harvey's Mill

Site. The area was cleaned up by members of the State Shock program. Photographs document the before, during and after scenes.

The House Project was faithfully attended Monday evenings by five people. Progress is slow when so few are involved. If you might be interested in helping, please let me know maybe another time would suit you better.

Both Barbara Stearns and I attended a two day workshop on oral history in Newport. In August, I was at a two day genealogical conference in Andover, MA which was presented by the New England Historic Genealogical Society and in November, I was in Burlington, Vt. for the Fall Meeting of The New England Archivists.

A number of "Mirror To America" books and "Bicentennial booklets" were supplied to the Information Booth during the season. These may also be purchased at the Town Hall. In 1991 a very favorable book review of "Mirror To America" was published in a publication with nationwide coverage.

To all those who have volunteered time and energy to the archives, many, many thanks.

Respectively submitted,

Margaret Moreland
Town Archivist

RECREATION COMMISSION

The Recreation Commission oversees the operations and the waterfront programs at the Elkins Beach on Pleasant Lake and Bucklin Beach on Little Lake Sunapee.

The 1991 season saw particularly well run waterfronts under the leadership of Nancy Brook our beach director. Nancy oversaw the staffing of the beaches with six full time instructor/guards and three part time guards for a period of twelve weeks. Along with numerous duties she held mandatory training drills for all employees twice weekly and taught swimming lessons with the other instructors to a total of 115 children during two three week sessions.

The beaches were guarded weekends only beginning with Memorial Day and opened full time once schools closed in mid-June. Guards were on duty 9AM to 4 PM seven days a week. Lessons were conducted Monday through Thursday.

We have repaired or replaced guard stands, floats, picnic tables, and signage as needed. All safety equipment has been updated.

We are truly appreciative of the fine job Nancy Brook has done in keeping our waterfronts safe, well run and fun places to be during the summer. We are pleased that Nancy and many of our guards and instructors will be returning for the 1992 season.

One issue that will be considered for this year is the decreasing numbers of children taking lessons over the past couple of years. We understand the conflicts of so many varied programs being offered to the young people in our community. We will be looking into the feasibility of holding afternoon lessons. As always your continued support, comments and suggestions are always welcome.

1991 NEW LONDON SEWER COMMISSION REPORT

1991 was an active year for the Sewer Department. In June, after seventeen years of dedicated service, John Bickford retired. He not only was a long term employee but a very loyal and dependable individual who gave his services both willingly and generously.

The Sunapee Treatment Plant has completed their two year up-grading project. This included some metering devices for their flow. Towards the end of 1991 Sunapee informed the Commission that the State of New Hampshire had reclassified their plant from a minor treatment plant to a major. This will call for an increase in the amount of testing of their effluent.

With the New London to Sunapee sewer system now being eleven years old, this year extensive rehabilitation was done to the pumping equipment, electrical switching and emergency generators. Also, improvements were carried out to improve the design and operation of the Georges Mills Pump Station.

We are continuing to work cooperatively with the Sunapee Water/Wastewater Commission. This year saw the beginning of joint monthly meetings. New London's commissioners meet members with a subcommittee of three representing the Sunapee Commission. We feel this is creating better communication with each other for the sharing of both individual and joint problems of the system.

Respectfully submitted,

Ann S. Beardsley
John A. Cummings
Thomas A. Miller

TOWN OF NEW LONDON BANDSTAND COMMITTEE REPORT

This past year was once again a special one for the Bandstand Committee. 1991 saw the continued expansion of the summer concert series on Sargent Common, with one concert being added. Attendance was at an all time high and the weather proved cooperative for all six presentations in the series.

The summer began early for the Mary Haddad Memorial Bandstand with the inaugural Ausbon Sargent Day celebration in June on what would have been this venerable gentleman's 100th birthday. The committee formed by the Ausbon Sargent Land Trust, the New London Historical Society and the Bandstand Committee utilized the structure as the focal point for a community picnic with continuous local entertainment and the acceptance of the Tree City USA award for the tenth consecutive year. The event was such a success that there is a good likelihood that it will be repeated in 1992.

This past year saw a change in the way the summer series was funded with the introduction of a business underwriters program. Ten local firms participated by underwriting the expenses of a half concert each; thus we no longer "passed the hat" at the individual concerts, although donations from individuals are still most welcome.

This was the year that we were able to establish the beginnings of an endowment trust fund to insure future generations the pleasure afforded by concerts on Sargent Common. While this fund has a long ways to go yet, it represents the Committee's commitment to quality programming now and in the future.

Through the generosity of New London Hardware a summer raffle was held with all proceeds going towards this endowment fund. The Bandstand Committee sponsored a post-summer event at the Town Hall which also raised monies for this fund. In December, local artist Margaret Thornton donated a limited edition of note cards featuring her pen and ink sketch of the Haddad Bandstand. These were offered for sale through local retail outlets and quickly sold out. The proceeds from these note cards were also applied to the fund.

This has been an exciting month for us, beginning with the beautiful full-color photograph of the Bandstand decorated for the holiday season that graced the cover of the December holiday issue of *New Hampshire Profiles* magazine. This was closely followed by the New Hampshire chapter of the American Institute of Architects' unanimous selection of the Haddad Bandstand for its Design Award for Excellence. We congratulate the local design firm of Sheerr and McCrystal on the receipt of this honor.

Over the course of the year it has become apparent that the Haddad Bandstand has become a source of pride for the New London community as evidenced by the attractive landscaping done by members of the Garden Club's Civic Beautification Project and the annual holiday decorations provided by the New London Area Chamber of Commerce. We also note the absence of litter left behind by the many who attend concerts, or simply use the structure as a spot to relax and enjoy life in our Town.

Program plans for the summer of 1992 are already underway, with an exciting slate of concerts contracted for. Several groups not previously heard on Sargent Common will be a part of this season and once again an additional presentation will be added. The Committee would be unable to continue this growth without the loyal support from the citizens and friends of the Town and the enthusiastic response from the audience. For this we are most grateful.

Finally, I wish to welcome new committee members Laura MacKenna, April Whittaker

and Selectman representative Peter Bianchi. I also wish to thank the full committee for all its work both in the planning and the actual presentation of the concert series.

NEW LONDON CEMETERY COMMISSIONERS

There were 38 interments in the three New London Cemeteries this year; 23 in Old Main Street Cemetery, 8 in Elkins Cemetery and 7 in West Part Cemetery. We sold 60 graves in the three cemeteries.

We plan to line out new graves in Old Main Street Cemetery and Elkins Cemetery in 1992. We hope to have the fence repaired in Old Main Street Cemetery and perhaps start repairing old and broken monuments in the cemeteries.

Respectfully Submitted,

Marion C. Hafner
Charles M. Hafner
Walton W. Chadwick
Cemetery Commissioners

EMERGENCY MANAGEMENT REPORT

Updating the emergency lighting continued in 1991 with another phase being worked on.

New London was fortunate to sustain no major damage during 1991's Hurricane Bob.

As always, your questions, concerns, suggestions or participation in the Emergency Management Program are encouraged.

Respectfully Submitted,
Stuart F. Sidmore, Jr.
Director

REPORT OF THE NEW LONDON POLICE DEPARTMENT

This past year the New London Police Department welcomed new police officer Edward Kinzer to it's force. Mr. Kinzer replaced Officer Jordan who accepted employment with another local police department.

Juné of 1991 brought our first D.A.R.E. (Drug and Alcohol Resistance Education) Graduation. As had been expected, the D.A.R.E. Program, organized here in New London by Sergeant David Seastrand, has been a huge success and we have recieved nothing but positive feedback from parents, students and the Kearsarge Regional School System Faculty. Sergeant Seastrand also organized the first annual D.A.R.E. Golf Tournament which took place at the Country Club of New Hampshire. The golf tournament was held to raise money to help support the D.A.R.E. program for New London. As well as being a great success, a good time was had by all who attended.

In closing I wish to thank the community for their continued support and cooperation throughout 1991.

Below are comparison figures for activity for the New London Police Department for 1990 and 1991.

Criminal Activities

	1990	1991
Assaults	5	2
Burglaries	16	20
Criminal Mischief	36	29
Thefts	95	39
Miscellaneous	71	89
Total Arrests	141	119
Total Lock-ups	101	123

Motor Vehicle Activity

Summonses	892	583
Warnings	1,588	1,702
Accidents Reports	127	132
Total Injuries Resulting from Accidents	19	16
Fatalities	0	0
Accidents, non reportable		72
D.W.I. Arrests	55	26

Calls for Service to the New London Police Department

	1990	1991
Responses to Burglar Alarms	347	370
Responses to Fire Calls	50	78

REPORT OF TREE WARDEN

The year 1991 was the fifth consecutive year that the Town of New London received the Tree City, USA award for tree maintenance and planting program. On Ausbon Sargent Day a large Sugar Maple (*Acer saccharum*) was planted on the common as well as a Red Oak (*Quercus borealis (ruba)*) planted near the information booth to commemorate the event.

The Town spent \$4459.70 planting additional new trees and shrubs including several Flowering Crabapples near the transfer station and six Rhododendron in West Part Cemetery.

The Town also spent \$3295.00 pruning, fertilizing and cabling trees in both commons and along Main Street from Pleasant Street east to Seamans Road. The balance of \$245.30 was used in conjunction with the Road Agent's funds for removal of a large Maple in West Part Cemetery.

Respectfully submitted,
Robert Fraley

TRACY MEMORIAL LIBRARY
1991 ANNUAL REPORT

Our "certainty" is a reality: the addition and renovation of Tracy Memorial Library, completed in March of 1991, has made us one of the most attractive and efficient libraries in New England. Not only are we able to provide the usual library services in a more effective manner in surroundings most pleasing to the eye, but we are now capable of offering space that returns the Library to the original idea of a community building first conceived by Jane Tracy when she bought the building for the Town of New London over seventy years ago.

Our new meeting room has been used by 22 different groups for a total of 138 times since we opened it to the public in March. In addition, of course, many children's programs have taken place here, including a full house for a wonderful puppet show at Christmas time; and the Friends of Tracy Library presented a stunning four-lecture series on China. Our calendar is nearly full for 1992!

The staff and volunteers report that it is a great pleasure to work under such ideal circumstances, and we are pleased that the Library is being used by so many. Our circulation increased from 65,772 in 1990 to 72,447 in 1991. The Library registered 584 new borrowers, bringing the total registration to 4479. In addition, the Library issued 190 temporary cards to short-term borrowers, such as summer visitors and Colby-Sawyer students. New acquisitions numbered 1320 for books and 115 for non-print items such as audio-books, compact discs and videocassettes.

Our debt is large to all who have been generous in their support.

Zoning Board of Adjustment

New London, New Hampshire 03257

REPORT OF DECISIONS
ZONING BOARD OF ADJUSTMENT
1991

JANUARY 23

ST. ANDREW'S EPISCOPAL CHURCH for a SPECIAL EXCEPTION, as provided in ARTICLE XV (10) of the Zoning Ordinance, to BUILD AN ADDITION TO THE EXISTING STRUCTURE, on property located on GOULD ROAD. (Map 84, Lot 5) GRANTED

JANUARY 23

NEW LONDON MEDICAL CENTER ASSOCIATION, by T & M Associates, for a SPECIAL EXCEPTION, as provided in ARTICLE XX, SECTION E, under WETLANDS CONSERVATION OVERLAY DISTRICT, to PROVIDE PARKING AND MANEUVERING AREA FOR THE MEDICAL CENTER ADDITION on land designated as wet land, on property located on COUNTY ROAD (Map 59, Lot 4). GRANTED

JANUARY 23

NEW LONDON MEDICAL CENTER ASSOCIATION, by T & M Associates, for a SPECIAL EXCEPTION, as provided in ARTICLE XX, SECTION E, under WETLANDS CONSERVATION OVERLAY DISTRICT, to CONSTRUCT AN ACCESS ROADWAY FOR THE NEW LONDON HOSPITAL AND THE NEW LONDON MEDICAL CENTER PARKING AREAS, on land designated as wet land, on property located on COUNTY ROAD (Map 72, Lot 33-2). GRANTED

JANUARY 23,

LARRY DUFAULT for AN APPEAL FROM AN ADMINISTRATIVE ORDER in relation to ARTICLE II, SECTION 6 of the Zoning Ordinance regarding a decision of the New London Planning Board on August 7, 1990 regarding the parking situation for the Grange Hall property, located on MAIN STREET. (Map 85, Lot 6) DENIED

FEBRUARY 13

SUSAN R. SCHWEIZER for a VARIANCE to the terms of ARTICLE II, SECTION 8(a) of the Zoning Ordinance to construct a new septic system and leach bed that would have 35% of its area less than 75 feet from the high water mark of Lake Sunapee. Septic tank would be 53 feet from the high water mark of the lake, on property located on LITTLE SUNAPEE ROAD (Map 32, Lot 3A). GRANTED

MARCH 20

RAYMOND & CHRISTINE SIMONE to a SPECIAL EXCEPTION, as provided in ARTICLE XX, SECTION E of the Zoning Ordinance for approval of wet land crossings in WETLANDS CONSERVATION OVERLAY DISTRICT, by ROADS AND DRIVEWAYS TO SERVE PROPOSED LOTS IN SUBDIVISION, on property located BETWEEN ROUTE 11 and SHAKER ROAD (Map 88, Lot 1) GRANTED

APRIL 24

WALTER GRAF for a SPECIAL EXCEPTION, as provided in ARTICLE XV-C (A5) of the Zoning Ordinance to USE BUILDING ON PROPERTY FOR PERFORMING STATE INSPECTIONS ON FAMILY OWNED VEHICLES, AND THOSE OF INTERESTED OUTSIDE PARTIES, on property located at CROCKETT'S CORNER (Map 122, Lot 10). DENIED

On AUGUST 29 an open and advertised meeting between the Planning Board and the Zoning Board of Adjustment was held on questions concerning the proposed "Eagle's Nest" cluster developmnet as they relate to previous approvals granted the Lake Sunapee Country Club/The Seasons. Concensus was that the findings of the 1980 and 1984 decisions of the Zoning Board stand as presented.

ANNUAL REPORT OF
THE NEW LONDON HOSPITAL AUXILIARY

The New London Hospital Auxiliary's mission and purpose is to support and enhance the hospital environment in the fullest sense of the word. There are currently 440 active members who, through their work, wealth and wisdom, give generously of their time and energy to the any projects that are on-going throughout the year.

Committees were formed to coordinate the fund-raising activities, among which were a Geranium Sale, Tennis Tournament in June, an Easy Aces Bridge Tourney, and Barn Players Pillow Rental program. From these monies, over \$7,000. was given for medically related scholarships. Through the work tables at Hospital Day, two highly successful rummage sales, knitting sales, and TV rentals in the patients' rooms, contributions to the hospital covered the final payment on the sunporch in the Extended Care Center, an ice-machine for the Medical-Surgical wing, the redecoration of the main hospital lobby, and the erection of a new rummage building. All of the activities took many untold hours of volunteer help which were eagerly and selflessly given.

Elizabeth Jones, Director of Volunteers, orchestrates the in-hospital workers, who enjoy sharing their good-will and energy toward that aspect of the hospital environment. Garden Club auxilians, under the direction of Doris Stevens, keep the plants and flowers fresh and well-tended in all areas of the building.

Under the charmanship of Mary Wachter and Leni Gillespie, auxilians work with the Red Cross on at least one Bloodmobile a year.

Membership meetings are held October through June in the First Baptist Church on the first Wednesday of each month beginning at 9:30 a.m. Work sessions, short business meetings and educational programs are open to the public, and all are warmly invited. It is through everyone's interest and generosity from the community at large that we can keep New London Hospital the first rate institution it is.

**NEW LONDON-SPRINGFIELD
WATER SYSTEM PRECINCT**

**ANNUAL REPORT
for the year ending
31 DECEMBER 1991**

Founded 1925

Providing water service to customers in the
Towns of New London and Springfield

REPORT TO THE VOTERS - 1991

The Annual meeting of the New London-Springfield Water System Precinct in March of 1991 saw the election of James A. Cricenti and Richard L. Bott, Jr. as Water Commissioners. Cricenti for a two year term, and Bott for a three year term. Voters also approved \$170,000 to be added to the Water Storage Tank Capital Reserve Fund. (\$30,000 from the General Fund Surplus and \$140,000 raised by taxes)

The Knights Hill Road Grid Project and the Water Meter Installation Project have both been completed. The remaining balances in these Warrant Article accounts, approximately \$38,000, have been rolled into the General Fund Surplus. The greater portion of this surplus should be appropriated to the Capital Reserve Fund, as was done in the previous year.

With new construction continuing slowly, applications for new installations have been few, at best. The Commissioners have approved the final revision of the Rules, Regulations and Rates of the Precinct and are arranging to have them printed.

After two months of interviews, meetings and review sessions, the Commissioners chose, and contracted with, Dufresne-Henry, Inc. as the Engineers to represent our interests with respect to Article 7 in the 1991 Warrant. Their work began immediately with a Public Informational meeting in July 1991 to review and discuss the Federal guidelines of the Surface Water Treatment Rule for compliance with the Safe Drinking Water Act, as amended. Fewer than thirty concerned voters attended. The Engineer continued work on each item in the scope of services contracted by the Commissioners. His draft report was presented to the Commissioners in late December and made available to the public in early January of 1992. Another Public Informational Meeting was held on January 29, 1992 to hear the Engineer's report. An attendance of approximately 120 people were present at this meeting.

To date, the Engineers report has been accepted by the Commissioners. The report recommends that the Precinct take advantage of the Colby Point water source as the best option for compliance with the Safe Drinking Water Act, as amended. The deadline of June, 1993 remains on the compliance schedule.

The New London-Springfield Water System Precinct must now formulate a design and proceed towards the completion of the requirements before us.

**NEW LONDON-SPRINGFIELD
WATER SYSTEM PRECINCT**

PRECINCT WARRANT

Towns of New London and Springfield, N.H.

To the inhabitants of the New London-Springfield Water System Precinct in the counties of Merrimack and Sullivan, respectively, qualified to vote in Precinct affairs:

You are hereby notified to meet at the Town Hall in New London, New Hampshire, on **Tuesday, March 17, 1992, at 3:00 p.m.** to act on the following subjects:

(Note: By law the meeting must open before voting starts. Therefore, the meeting and polls will open at 3:00 p.m. At 3:15 p.m. the meeting will recess, but the polls will remain open until 8:00 p.m. The meeting will reconvene at 7:00 p.m. to act on Articles 1 through 11.)

ARTICLE 1: To choose all necessary officers for the coming year.

ARTICLE 2: To hear the reports of officers, committees and auditors and pass any vote relating thereto.

ARTICLE 3: To set the salaries of all officers for the coming year.

ARTICLE 4: To see if the Precinct will vote to raise and appropriate the following sums to defray Precinct charges for the ensuing year:

	Approved Budget 1991	Proposed Budget 1992
Salaries, benefits, taxes	\$ 92,500	\$ 99,500
Maintenance	8,000	8,000
Utilities	4,000	4,000
Supplies	15,000	15,000
Insurance	17,000	10,000
Administration	6,000	6,000
Audit Expense	2,400	2,400
Legal Expense	3,000	5,000
Election Expense	900	900
Engineering Review	2,000	2,000
Equipment (Capitalized)	3,000	3,000

Contingency	1,000	1,000
Customer Supplies	1,000	500
Interest (short term)	500	500
	<hr/>	<hr/>
	\$ 156,300	\$ 157,800

ARTICLE 5: To see if the Precinct will vote to change the purpose of the existing Water Storage Tank Capital Reserve Fund to the Safe Drinking Water Act Compliance Capital Reserve Fund. (2/3 vote required)

ARTICLE 6: To see if the Precinct will vote to raise and appropriate the sum of fifty-five thousand dollars (\$55,000.00) to be added to the Safe Drinking Water Act Compliance Capital Reserve Fund. This amount to be funded from the General Fund surplus of December 31, 1991.

ARTICLE 7: To see if the Precinct will vote to raise and appropriate the sum of one hundred thousand dollars (\$100,000) to be paid into the Safe Drinking Water Act Compliance Capital Reserve Fund, previously established.

ARTICLE 8: To see if the Precinct will vote to raise and appropriate the sum of one hundred thousand dollars (\$100,000) for engineering design and preparation of plans and specifications for bringing the Precinct into compliance with the Safe Drinking Water Act, as amended.

ARTICLE 9: "To see if the voters of the Precinct will vote to authorize and direct the Commissioners to use any and all means to secure, from the appropriate State and Federal Agencies, exemptions, variances and/or waivers from the new State mandate requiring investment in expensive alternatives to the present NL/S Water Supply System in order to limit present and future costs to Precinct users and taxpayers." (By Petition)

ARTICLE 10: "To see if the voters of the Precinct will vote to authorize and direct the Commissioners to take any necessary measures to ensure, in the event any costs to the Precinct result from new Federal and State regulations and mandate(s), that guaranteed total reimbursement is obtained from the State as required by the State Constitution, as amended, before any project is started or funds expended therefor." (By Petition)

ARTICLE 11: To see if the Precinct will vote to authorize the Commissioners to issue notes and incur debt in anticipation of taxes and revenues in order to pay current maintenance and operating expenses, as provided in RSA 33:7.

ACCOUNTANT'S REPORT

Commissioners
New London-Springfield Water System Precinct
New London, NH 03257

Gentlemen:

I have reviewed the accompanying balance sheet of the New London-Springfield Water System Precinct as of December 31, 1991 and 1990, and the related statements of revenue and expenditures and cash flows for the years then ended, in accordance with standards established by the American Institute of Certified Public Accountants. All information in these financial statements is the representation of the management of the New London-Springfield Water System Precinct.

A review consists principally of inquiries of Precinct personnel and analytical procedures applied to financial data. It is substantially less in scope than an audit in accordance with generally accepted auditing standards, the objective of which is the expression of an opinion regarding the financial statements taken as a whole. Accordingly, I do not express such an opinion.

As described in Note 1, the financial statements referred to above do not provide for depreciation of equipment and facility assets, which should be included to conform with generally accepted accounting principles. The amount that should be recorded is not known, and cannot be determined objectively.

Based on my review, except for the omission of depreciation as explained in the above paragraph, I am not aware of any material modifications that should be made to the accompanying financial statements in order for them to be in accordance with generally accepted accounting principles.

John F. Biewener, CPA

January 29, 1992

New London-Springfield Water System Precinct

NOTES TO FINANCIAL STATEMENTS

(For the Years Ended December 31, 1991 and 1990)

Note 1 - Summary of Significant Accounting Policies

The income accounts of the New London-Springfield Water System Precinct are maintained on a cash basis, recording income as it is collected. The income accounts are converted to an accrual basis at year-end, by recognizing and recording changes in accounts receivable.

Expense accounts record items only when cash is disbursed. The expense accounts are converted to an accrual basis at year-end, by recognizing and recording changes in accounts payable.

The inventory of supplies is priced at cost. Based on a physical inventory taken once a year at year-end, the increase (or decrease) in the inventory value decreases (or increases) the supplies expense. The policy of the Precinct is to maintain a uniform level of supplies inventory for Precinct use in its operations. In 1986, the Precinct required customers to install protective equipment to prevent possible contamination of the water system. As a convenience to these customers, the Precinct purchases supplies of protective equipment for re-sale to customers, to assure the most expeditious installation.

Purchased facilities and equipment are recorded at cost; gifts and contributions of water facilities are recorded at fair market value at the time received. The Precinct does not make provision for depreciation expense, as required by generally accepted accounting principles.

Assets disposed of or abandoned are written off at cost against the appropriate asset account, and the Plant and Equipment Fund balance is reduced accordingly.

The accounts of the Precinct are organized on the basis of funds or account groups, each of which is considered a separate accounting entity. The operations of each fund are presented with a separate set of self-balancing accounts that comprise its assets, liabilities, fund equity, revenues, and expenditures, as appropriate. The Precinct has three funds:

Operating Fund, the general operating fund of the Town. All receipts and tax revenues that are not allocated by law or contractual agreement to another fund are accounted for in this fund. From the fund are paid the general operating expenditures and capital improvement costs that are not paid by other funds.

Plant and Equipment Fund, in which additions and disposals of equipment and facilities are accounted for. As noted above, the Precinct does not record depreciation of these fixed assets as required by generally accepted accounting principles.

Capital Reserve Fund, a fiduciary-type fund, for which the Town of New London's Trustees of Trust Funds are the trustees. Additions to the Capital Reserve Fund are designated and authorized by Precinct voters at the Annual Meeting; similarly, withdrawal and use of the funds are authorized by Precinct voters at the Annual Meeting.

Total fund balances comprise two parts, appropriated and unappropriated. The appropriated balance represents the unexpended portion of current and prior-year appropriations which, in the judgment of Precinct Management, will be expended in future years. The unappropriated balance is the unencumbered balance of the fund.

The appropriated fund balances at December 31, 1991 and 1990 were:

	<u>12/31/91</u>	<u>12/31/90</u>
<u>Operating Fund</u>		
Art. 91-7, Safe Water Study	\$30,548	-0-
<u>Plant and Equipment Fund</u>		
Art. 89-5, Domestic Meters	-0-	\$ 7,940
Art. 90-5, Knights Hill Rd. Main	<u>-0-</u>	<u>39,551</u>
<u>Totals</u>	<u>\$30,548</u>	<u>\$47,491</u>

Note 2 - Capital Reserve Funds

A. Water Storage Tank

At December 31, 1991, the sole remaining Capital Reserve Fund for the Precinct was for a Water Storage Tank. The history of the Fund is as follows:

	<u>Appropriated Addition</u>	<u>Interest Earned</u>	<u>Fund Balances 12/31</u>
1988	\$ 50,000	\$ -0-	\$ 50,000
1989	50,000	4,731	104,731
1990	50,000	9,195	163,926
1991	<u>170,000</u>	<u>14,127</u>	<u>348,053</u>
<u>TOTALS</u>	<u>\$320,000</u>	<u>\$28,053</u>	<u>\$348,053</u>

At 12/31/91 the balance of \$348,053 was as follows:

New London Trust Co.

Passbook Savings Acct. #10003886	\$140,000
CD #135480, 5.95%, maturing 8/16/92	<u>54,511</u>
Total New London Trust Co.	194,511

Lake Sunapee Savings Bank

Everready Passbook Acct. #0290036800	58,001
CD #1-00-003183-0, 7.55%, maturing 1/3/93	<u>64,280</u>
Total Lake Sunapee Savings Bank	122,281

Sugar River Savings Bank

CD #6-70-610348, 5.6%, maturing 10/11/92	<u>31,261</u>
--	---------------

Total Balance at 12/31/91 \$348,053

B. Knights Hill Road Water Main Extension

The extension of the Knights Hill Road water main was completed in 1991. The history of the Capital Reserve Fund is as follows:

	<u>Appropriated Addition</u>	<u>Interest Earned</u>	<u>Transferred to P&E Fund for Project</u>	<u>Balance Transferred to Oper. Fund</u>	<u>Fund Balance 12/31</u>
1987	\$ 50,000	\$ 592	\$ -0-	\$ -0-	\$ 50,592
1988	50,000	4,087	-0-	-0-	104,679
1989	50,000	9,600	-0-	-0-	164,279
1990	-0-	8,285	(130,448)	-0-	42,116
1991	<u>-0-</u>	<u>2,772</u>	<u>(9,899)</u>	<u>(34,989)</u>	<u>-0-</u>
TOTALS	<u>\$150,000</u>	<u>\$25,336</u>	<u>\$(140,347)</u>	<u>\$(34,989)</u>	<u>\$ -0-</u>

Note 3 - Precinct Tax

The Precinct Tax has no restrictions. However, income from this tax is used primarily to pay principal and interest on outstanding debt, to pay for facilities and equipment, and to increase capital reserve funds. The tax is reported as Other Income to avoid distortion of gain or loss from water operations.

See accountant's report.

New London-Springfield Water System Precinct

SCHEDULE 1 - WATER PRECINCT EQUIPMENT

	<u>1991</u>	<u>1990</u>
<u>Balance, Beginning of Year</u>	\$ 107,994	\$ 105,941
