Medicaid Transition
Small Stakeholder Meeting

February 24, 2023
Agenda

• Welcome
• Overview of Transition Process and Timeline
  • Renewals and Pending Ineligible
  • Sample heads up letter, sample PIN letter
  • Posters and Publications (Key Messages and Take Aways)
  • Resources for finding other coverage
• Questions
• Congress has set a time for Medicaid to return to regular eligibility requirements: **April 1, 2023**.

• The Medicaid transition back to regular operations is now separate (decoupled) from the federal Public Health Emergency (PHE) timeline.

• Beneficiaries who have had continuous coverage due to the federal PHE will have to **demonstrate eligibility** to keep their coverage.

• **April 1** is the beginning of the time in which beneficiaries can lose coverage for failure to renew eligibility and/or have become ineligible due to a change in circumstance.
• Per CMS guidance, a state cannot initiate renewal for more than 1/9th of its entire caseload in any given month.

• CMS requires states to submit an Eligibility Renewal Distribution Plan to CMS in February.

• NH has developed an Eligibility Renewal Distribution Plan and is refining it in response to the newest requirements and ongoing discussions with CMS.

• CMS requires states to make monthly reports reflecting metrics that monitor state enrollment/eligibility activities and trends.

Medicaid ‘Protected Individuals’ during COVID PHE

Protected Individuals - Individuals who no longer meet eligibility requirements and/or have overdue administrative tasks to complete their redeterminations placing them at risk of losing coverage when the continuous coverage period ends.

- **Overdue Redetermination** – Individuals who have not completed their renewals will be provided an opportunity to renew based on our State Plan for prioritizing and distributing renewals.

- **Pending Ineligible** – Individuals who have completed a renewal within the past 12-month and subsequently had a change in circumstance (e.g., categorically ineligible) in their 12-month eligibility period.

To keep Medicaid coverage, it is **no longer optional** to complete redeterminations or respond to Department requests for information about eligibility status.

- **Failure to complete redeterminations or respond to any DHHS requests for information will result in termination of Medicaid coverage.**

- DHHS has begun to send renewal notices and will continue over the next several months to those who must complete a redetermination or provide information to keep their coverage.

- These notices are on **yellow paper** or posted to individuals’ NH EASY accounts **highlighted in yellow**.
• New Hampshire’s Draft Renewal Distribution Plan has been preliminarily approved by CMS.

• The Plan assigns a renewal month over the next 12 months to all of the households in the protected group that need a renewal, distributed across the 12-month period beginning March 2023. This allows the state to prepare the most vulnerable - people in active treatment or with chronic conditions, children, people who are elderly or living with disabilities – to mitigate interruptions in coverage wherever possible.

• The Plan also accounts for the standard renewals that will occur each month for those in Medicaid not in the protected group. The Plan’s distribution of renewals allows DHHS to avoid exceeding the 1/9th limit.

• Impacted beneficiaries will be notified of their assigned redetermination date through NH Easy, if they have an online account, or by mail if they do not. NH DHHS began notification of newly assigned redetermination dates on or about February 15.

• April 1 is the earliest date any NH Medicaid enrollee who has been protected during this period can be disenrolled.

• There are some in the “Pending Ineligible” protected population who will not be re-assigned a renewal date because they have redetermined within the last 12 months and then subsequently submitted a “change in circumstance” which CMS has determined means they do not require a full renewal. There are approximately ~21.7K individuals in this group.

• Although they will not be re-assigned a renewal date, these Pending Ineligible households will receive notices about their coverage and the opportunity to update their information in two ways:

  • **Failed to Verify** – Despite their redetermination and change in circumstances, these cases are still missing verifications. DHHS will send these households a new verification checklist w/a 10-day due date.

  • **Financially Ineligible Group** – These households will be run through a data matching program to verify their income, known as VCI (verify current income). After VCI data match has been sent - if no match is received or income is lower than previously reported, HEIGHTS will send a Request to Verify current income w/a 10-day due date.

If you have questions or need help with reading or understanding this letter, please contact the Customer Service Center toll-free at 1-844-ASK-DHHS (1-844-275-3447) and select option #3 or (603) 271-9700, (TDD: 1-800-735-2664), Monday-Friday, 9:00 a.m. to 4:00 p.m. ET.

Continuous Medicaid Coverage is Ending

You or a member of your household have been receiving continuous Medicaid coverage due to the COVID-16 federal public health emergency, even if you did not complete a redetermination when it was due or provide us with the required documents. This continuous coverage is ending on March 31, 2023. You must complete a redetermination or respond to Department requests for information to keep your Medicaid coverage.

What do I need to do?

DHHS will be sending requests for redeterminations to people who are currently covered by Medicaid. To keep your coverage, you must either complete a redetermination or provide information requested by DHHS. These requests will be on yellow paper or posted to your NH EASY account, highlighted in yellow.

When you get a yellow notice, please follow the instructions included in the notice and complete a redetermination and/or provide the requested verifications. We are asking you to do this so we can determine if you are still eligible for, and will be able to keep, your Medicaid coverage.

If you receive "Spendthrift" Medical Coverage, you will get a letter explaining when you will need to start sending us unpaid medical bills that you still owe to meet your deductible and open your Medicaid.

Ways to complete your redetermination or provide requested information:

1. Online: Through your NH EASY account https://nheasy.nh.gov if you do not have an NH EASY account, you can create one today using this same link.
2. By mail: Centralized Scanning Unit, PO Box 181, Concord, NH 03302.
3. In person: Visit one of our District Offices, locations can be found at https://www.dhhs.nh.gov/about-dhhs/locations-facilities/locations

Once you complete your redetermination and/or all requested information is provided, you will receive a notice of decision informing you of the status of your Medicaid eligibility.

What should I do if I no longer need Medicaid coverage?

If you no longer need Medicaid coverage, you can voluntarily request to end your coverage by using one of the three options above or by calling the Customer Service Center at one of the numbers listed at the top and bottom of this letter.

Options for those who are no longer eligible for Medicaid:

Your Medicaid Redetermination is due in April 2023.

A request to complete your redetermination will be sent to you at least 30 days before it is due. This request will be on YELLOW paper. Please read the entire form and follow the instructions. You must complete your redetermination and respond to the Department’s requests for information, by the 15th of your redetermination month to see if you are still eligible for Medicaid.

If you do not complete your redetermination or respond to the Department’s requests for information by the end of April 2023 your Medicaid will close and your benefits will end.

The unwind process has begun!

Individuals who are overdue will be assigned a new redetermination date and notified of the date either by mail or through NHEasy.

Over the next several months, DHHS will be sending requests for redeterminations to those who must complete a redetermination or provide information to keep their coverage.

These requests are on yellow paper or posted to individuals’ NH EASY accounts, highlighted in yellow.

Once an enrollee receives a notice, they need to follow the instructions.

If enrollees do not follow the instructions to complete a redetermination or provide requested documents, their Medicaid coverage will end.

Unwinding Special Enrollment Period (SEP)

HealthCare.gov recently announced it will allow people who lose Medicaid eligibility to claim a Special Enrollment Period for Marketplace coverage ("SEP") between March 31, 2023, and July 31, 2024, as the continuous coverage requirement ends.

- The “Unwinding SEP” will be available in most states including New Hampshire using healthcare.gov.
- To access the Unwinding SEP, a marketplace-eligible person must submit a new application or update an existing one between March 31, 2023, and July 31, 2024, and attest to loss of Medicaid coverage during that time period.
- Consumers who are aware that their Medicaid is ending may report loss of coverage and select a plan up to 60 days prior to the loss event and will have 60 days after they submit their application to select a plan.
- Coverage starts the first day of the month following plan selection.
- Consumers should seek health insurance coverage as soon as possible.
