PREVENTING FOREST FIRES IS OUR RESPONSIBILITY

Costs of suppressing carelessly set outdoor fires in New Hampshire in 1962 cost the persons responsible \$5,545. In the same period, the cost to the cities and towns for control of such fires for which no responsibility could be placed cost another \$24,634. What utter waste of tax money and what shameful and needless loss of timber and esthetic values in the 2200 acres burned. Residences, farms, and other business places were threatened with possible total destruction.

Carelessly set man caused fires can be prevented if every citizen remembers his responsibility in regard to any sources of fires in the open. We can help to keep our fire loss low by remembering these simple rules.

1. Dispose of burnable waste at the town dump.
2. If waste or brush is to be burned on the premises, obtain a permit from the forest fire warden. Seasonal permits may be issued for approved incinerators and sites.
3. Burn safely by picking a clean site, avoiding dry windy weather and preferably burning late in the day.
4. Have something to keep the fire under control — pails of water, garden hose, sprinkling can, broom for grass fires or shovel will help.
5. Be sure your fire is dead out before you leave it.

6. If the fire gets out of control or if you see a fire out of control, report promptly to your warden or fire department. Continue to fight it until help arrives.

There is potential danger when matches fall into the hands of children. It is never too early for parents to install in the child's mind a respect for fire.

Keep our town safe from fire.

In 1962 we had one fire.

We burned $\frac{1}{2}$ acre.

Permits issued—23.

REPORT OF FIRE CHIEF

Having been appointed the new fire chief of the Hy-Mar Fire Company, I would like to thank the Selectmen and members of the Fire Company for having the confidence in me to elect me their chief. I would also like to thank our former Chief who did such an outstanding job during his time serving as Chief and also for helping me at times when I needed his assistance, and for suggestions at different times.

At the present writing we have been very lucky this year for having so few fires, which makes it much easier on our men and equipment.

This year we have bought several lengths of new hose, part of which was paid for with money earned from our Hy-Mar chicken shoot, and the balance from the appropriation from the town.

We hope to continue the chicken shoots, as it is one way for us to help maintain our fire company.

We, the members of the Hy-Mar Fire Company wish to thank the Daniel Webster Grange for the letter of thanks for our service at the Grange Hall fire. It makes us feel better to save a building than to lose one.

Our mutual aid system is one of the greatest set-ups we have at the present time. It gives us more courage to know we have plenty of men and equipment when needed.

I regret to say at this time we have not seen Mr. Hyde this year, but we wish to remember him on his birthday.

I hope in the future I will be able to serve the Hy-Mar Fire Company as well as our former chief.

KENNETH F. HOAR
Chief

SUPERINTENDENT'S REPORT

We have only one change in staff for the school year 1962-1963. Mrs. Vernice Dwinnells replaced Mrs. Rebecca Makin as teacher of the middle grades. Mrs. Mabel Anderson is Principal and primary grades teacher and Mrs. Ethel Colby remains as teacher of the upper grades. Miss Blanche Bailey provides a fine music program and Ruth Whitcomb, as school nurse, takes care of our health needs. Dorohty Morrill, our janitor, is doing a fine job of keeping our building clean.

The enrollment of the school continues to rise as was expected and will necessitate some shifting around of grades and the possible addition of another teacher next year. The following chart shows the possible room arrangements with three teachers and with four teachers.

1962-1963 Enrollment			1963-1964 Probable Enrollment		
Grade	Number of Pupils	Enrollment	Grade	Number of Pupils	Enrollment
	3 Teachers			3 Teachers	4 Teachers
1		17	1		20
2	34	17	2	34	14
3		11	3		17
4		11	4	28	11
5	29	7	5		11
6		8	6		7
7		4	7		8
8	17	5	8	30	4

The critical area is in the lower grades where Mrs. Anderson has 34 pupils in grades 1 and 2 which is a very heavy schedule. Many schools are saying that twenty-five pupils in grade one is a full load. Mabel has almost that number in grade one and also has seventeen in grade 2 which means that none of the children are getting the attention that they should have. First and second graders particularly need a lot of individual attention.

The outlook for Webster indicates the school is going to cost more money as our enrollment increases. This increase will be not only for the Elementary School, but our tuition costs will likewise increase.

The state is making it more difficult for small high schools with their Minimum Standards. Each time a new set of standards are created it costs the town more money. The state department admits that their purpose is to force the small high schools to close. I am wondering when they are going to start firing at the small elementary schools!

The 1961 Legislature set up an Interim Commission to study Education in the State of New Hampshire and they have just issued their preliminary report with a final report to be published some time in January. It is difficult to give a final summary of the report because it is incomplete at the present time.

However the basic plan is to divide the state eventually into 24 districts which will, over a period of time, become 24 Cooperative School Districts. New elementary and secondary schools will be built in some areas; some buildings will be converted to central schools and some will be discarded. Just what schools will be closed and what schools will be used has not been made known at this time. It appears that part of the plan is to build a new high school in Henniker to replace the present Henniker, Antrim, Hopkinton, Hillsboro and Simonds High Schools.

Just what the Legislature will do with this program, only time will tell, but I'm sure that it won't all be accomplished in two years, and it is going to cost the state considerable money to carry out the program. Let us wait and see what the developments are and in the meantime do the best we can for our young people of Webster.

I might add that in carrying on a survey of our Webster people in high school I found that the Webster young people were competing successfully with Hopkinton and Warner pupils. Recently three Webster high school pupils were inducted into the Hopkinton High School Honor Society. This is a very good showing, I think you will agree.

I enjoy working with the young people of Webster, their teachers and their parents, an increasing number of whom are former pupils. This unfortunately is a sign of age on my part, but very challenging to me just the same.
