## HEALTH DEPARTMENT.

---

### STATE REPORT ON MATERNITY AND INFANCY WORK IN AUBURN.

A child health conference was held in Auburn on July 7, 1927. Thirty-two children were weighed, measured and given a complete physical examination by Dr. Crowell of Suncook. A committee of townspeople assisted with the conference. The chairman of the committee was Mrs. Myrtie Preston. Twenty-four children were found defective. There have been twelve corrections made since 1926 and three defects placed under treatment.

## REPORT OF THE SUPERINTENDENT OF SCHOOLS.

---

### *The School Board of Auburn:*

I have attended to the various administrative duties of my office during the year.

It is a source of satisfaction and congratulation that a class of seventeen graduated from our schools in June and that a majority of them entered a secondary school in September.

As I did last year, I still believe that the School Board should join with the other towns of this union in employing a school nurse. This arrangement will insure a real health supervision of the children of the district. The cost of such employment is not necessarily any more than to employ a physician merely to examine the children. The State Board of Education will liberally help to finance the arrangement. The employment of a nurse for this purpose is in line with the practice of the best school systems. Under a competent nurse, the results are apparent almost from the start of the work.

When employing teachers, we do well to insist on approved professional training or the equivalent and to insist that teachers retained in service keep themselves familiar with modern teaching practice through regular means of self-improvement, year by year. Only in this way can we assure ourselves of a constantly efficient teaching staff.

I thank the members of the Board for help and courtesies rendered to me by them.

Very respectfully,

FRANK C. THOMPSON.

February 1, 1928.
