City of Dover, New Hampshire

OFFICE OF THE CITY MANAGER

October 4, 2009

To the Honorable Mayor and members of the City Council

City Charter Section 26-12, Independent Audit, requires an annual independent audit of all City accounts at the end of each fiscal year, including the opinion of the independent auditor. It provides the following information for the fiscal year ending June 30, 2009:

INTRODUCTORY SECTION

The report consists of the management's representation concerning the financial affairs of the City of Dover. Consequently, management assumes full responsibility for the completeness and reliability of all of the information presented in this report. To provide a reasonable basis for making the representations, management has established comprehensive internal control framework that is designed to both protect the government's assets from loss, theft, or misuse and to ensure sufficient reliable information for the preparation of the financial statements in conformity with generally accepted accounting principles. Because the cost of internal controls should not outweigh their benefits, the framework of internal controls has been designed to provide reasonable rather than absolute assurance that the financial statements will be free from material misstatement. As management, we assure that, to the best of our knowledge and belief, this financial report is complete and reliable in all material aspects.

The City's financial statements have been audited by McGovern Smith & Company, a firm of licensed certified public accountants. The goal of the independent audit was to provide reasonable assurance that the financial statements for fiscal year ending 6/30/2009, are free of material misstatement. The independent audit involved examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements; assessing the accounting principles used and significant estimates made by management; and evaluating the overall financial statement presentation. The independent auditors concluded, based on their audit, that there was reasonable basis for rendering an unqualified opinion that the financial statements for the fiscal year ended June 30, 2009, are fairly presented in conformity with generally accepted accounting principles (GAAP). The independent auditor's report is presented as the first component of the financial section of this report.

City of Dover, New Hampshire
OFFICE OF THE CITY MANAGER

October 4, 2005

To the Honorable Mayor and members of the City Council:

City Charter Section C6-12, Independent Audit, requires an annual independent audit of all City accounts at least annually. This report, including the opinion of the independent auditor, is published to fulfill that requirement for the fiscal year ending June 30, 2005.

This report consists of the management's representations concerning the finances of the City of Dover. Consequently, management assumes full responsibility for the completeness and reliability of all of the information presented in this report. To provide a reasonable basis for making the representations, management has established comprehensive internal control framework that is designed to both protect the government's assets from loss, theft, or misuse and to compile sufficient reliable information for the preparation of the financial statements in conformity with generally accepted accounting principles. Because the cost of internal controls should not outweigh their benefits, the framework of internal controls has been designed to provide reasonable rather than absolute assurance that the financial statements will be free from material misstatement. As management, we assert that, to the best of our knowledge and belief, this financial report is complete and reliable in all material aspects.

The City's financial statements have been audited by Melanson Heath & Company, a firm of licensed certified public accountants. The goal of the independent audit was to provide reasonable assurance that the financial statements for fiscal year ending June 30, 2005, are free of material misstatement. The independent audit involved examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements; assessing the accounting principles used and significant estimates made by management; and evaluating the overall financial statement presentation. The independent auditors concluded, based on their audit, that there was reasonable basis for rendering an unqualified opinion that the financial statements for the fiscal year ended June 30, 2005, are fairly presented in conformity with generally accepted accounting principles (GAAP). The independent auditor's report is presented as the first component of the financial section of this report.

The independent audit of the financial statements of the City was part of a broader, federally mandated "Single Audit" designed to meet the special needs of the federal grantor agencies. The standards governing Single Audit engagements require the independent auditors to report not only on the fair presentation of the financial statements, but also on the audited government's internal controls and compliance with legal requirements, with special emphasis on internal controls and legal requirements involving the administration of federal awards. These reports are available in a separately issued Single Audit Report.

GAAP requires that management provide a narrative introduction, overview, and analysis to accompany the basic financial statements in the form of Management's Discussion and Analysis (MD&A). This letter of transmittal is designed to complement MD&A and should be read in conjunction with it. The City's MD&A can be found immediately following the report of the independent auditors.

Profile of Government

Geography. Dover, New Hampshire is located ten miles from the Atlantic Ocean in southern New Hampshire and is 48 miles south of Portland, Maine and 68 miles north of Boston, Massachusetts. Situated at the confluence of the Cochecho, Salmon Falls and Bellamy Rivers, Dover is a major New Hampshire industrial, employment, and distribution center for the seacoast. Dover provides a gateway to both the Maine coast and the White Mountains of New Hampshire. The City of Dover occupies an area of 29 square miles and serves a population of 26,884, based on the 2000 Census.

The City of Dover, settled in 1623, is the oldest continuous settlement in New Hampshire and the seventh oldest in the United States. It was incorporated on June 29, 1855 and the City Charter in effect during fiscal year 2005 was adopted on March 9, 1977. A new charter was passed on November 8, 2005. Only minor changes were made versus the old charter. Dover operates under the council-manager form of government. Dover is the seat of Strafford County.

Services. The City of Dover provides a full range of services, including police and fire protection, the construction and maintenance of streets and other infrastructure, sanitation services such as solid waste disposal and recycling, water distribution, wastewater collection and treatment, recreational and cultural events and education from kindergarten through grade 12 with a regional vocational center and alternative high school opportunities.

Governing Boards. The nine member City Council is the legislative body elected in non-partisan elections every two years, with one representative from each of six wards, two elected at-large and a Mayor. The City Council is responsible, among other things, for passing ordinances, adopting the annual budget, adopting a six year capital program, adopting bond authorizations, appointing committees and boards, and hiring of the City Manager. The City of Dover is empowered by state statute to levy property taxes on real property located within its boundaries to fund operations.

The Dover School Department is a dependent school district. The City Council has bottom line appropriation authority for the School Department budget. The seven member Dover School Board is elected in non-partisan elections every two years and has authority to allocate and move appropriations within its budget.

Administration. Administrative functions are carried out by the City Manager. The City Manager is responsible for carrying out the policies and ordinances of the City Council, compliance with State and Federal laws, for overseeing the day-to-day operations of the government, for appointing the heads of the various departments, for negotiating with the various bargaining units of the City and making recommendations to the City Council on various issues.

Administrative functions of the dependent School district are carried out by the School Board. The Board is responsible for carrying out policies and procedures, compliance with State and Federal laws, overseeing the day to day operations of the dependent School district, negotiating with the various bargaining units, making appointments of school personnel, establishing curriculum and addressing various issues.

Fiscal Year and Budget. The City's fiscal year begins on July 1st of each year and ends the following June 30th. The City's budget process commences in the fall of each year with the Capital Improvements Program budget. All capital spending of \$10,000 or more for items with useful lives of 3 years or longer are included in this budget. Based on City Council financing policy, items are identified for bonding, annual operating budget or other type of financing.

Items identified for the annual operating budget are included in the next City Manager's recommended annual budget. Departments are responsible for submitting their annual budget request to the City Manager. After reviews with the departments, the City Manager makes any final adjustments to his recommended budget. The City Manager's recommended annual budget for the next fiscal year, which includes the School Board request, is due to the City Council by April 15th of each year.

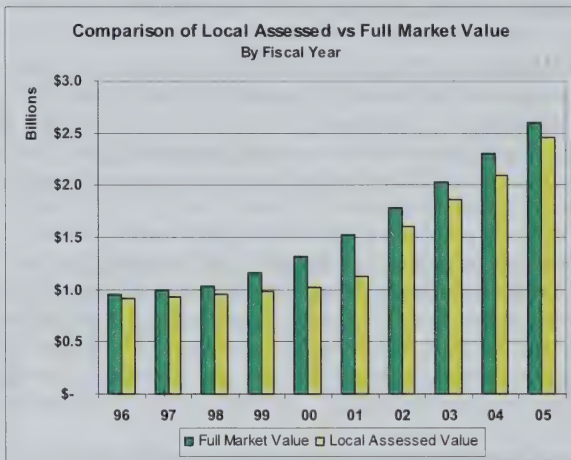

The City Council may add to, or cut from, the Manager's recommended annual budget by majority vote; however, the City Council must pass the budget by June 15th after separate public hearings for the City and School budgets and the budget becomes effective July 1. If the City Council does not adopt the budget by June 15th, the City Manager's recommended budget takes effect July 1.

After the original budget is adopted, the City Manager may make appropriation transfers within a non-school department or transfer between non-school departments with City Council approval. After initial adoption, the City Council may amend the budget by two-thirds vote.

Factors Affecting Financial Condition

Local Economy. The local economic environment over the past year continued to be strong and although local indicators point to continued stability, some indicate a leveling off of activity. There may be an added effect on the local economy from the nation wide increases in fuel costs. Other economic development projects in the City bode well for continued growth.

Full market value of properties, as determined by the NH Department of Revenue Administration, increased 12.9% during the fiscal year. Assessed value as a ratio of full market value was 94.6%.

The number of real estate transfers declined slightly from 1,194 in FY04 to 1,170 in FY05. This still represents a very strong market with transfers of 12.9% of taxable parcels for FY05. The ongoing double digit transfer rate continues to have an appreciative effect on market values. Full market value per capita increased from \$80,292 for FY04 to \$90,047 for FY05, up 12.1%.

The City's full value property tax rate remained stable in comparison to the NH State median. The median reflects the mid point of all rates in the State. Because Dover remains approximately at the median, this means that about half of the tax rates in the State are higher than Dover's and about half are lower. This is a good measure of tax burden as all municipal assessed values are brought to full market value and tax rates equalized.

The percentage of uncollected taxes for the current tax levy at the end of fiscal year dropped from 3.8% in FY04 to 3.7% in FY05. The dollar amount increased slightly from \$1.56 million to \$1.62 million. There were 249 parcels from the current tax levy with outstanding taxes that had a lien placed, down from 262 last year. The dollar amount of the liens increased slightly from 1.5% of the levy to 1.6%.

The annual average for unemployment for 2005 was 3.1%. This was a decrease slightly over 2004 of 3.5% and was well below both the State and U.S. averages of 3.8% and 5.5% respectively. This level is about on par with the levels from 1995 through 1997. This being said, there may be a certain number of persons that are no longer eligible for benefits and are no longer counted.

The number of motor vehicle permits increased only .5% from 30,622 to 30,775. This represents a 10-year increase of 2.1% annually and a 5 year annual increase of 2.0%. This indicates a slow down in the number of vehicles being registered. The number of building permits decreased from 772 in FY04 to 719 in FY05. Average permit value decreased from \$72,472 to \$63,814. Included in the overall decrease in FY05, the residential market had 67 housing starts in FY05, down from 119 in FY04, 122 in FY03 and 150 in FY02.

The previous 3 years saw large increase in the City's General Assistance expenditures. FY05 increased at 6.7% over the prior year. General Assistance payments increased from \$371,185 in FY04 to \$395,902 in FY05. The number of cases assisted increased 479 in FY04 to 487 in FY05.

The City continued to experience economic growth however during FY05. During FY05, a scholastic testing firm completed two buildings totaling 140,000 square feet. Full occupation is expected by the end of October 2005 with upward of 800 employees. Additionally, two office buildings near the Weeks Crossing in the north end of the City are now complete and available for tenants. One building is 40,000 square feet and the other is 12,000 square feet.

After being vacant for a couple of years, there are now 2 new tenants in the space previously occupied by a large retail company. One of these tenants is a national chain for linens and bath products. Also an equine hospital recently opened a facility

in Dover. There are only 17 facilities of this type in the United States. Clients are expected to come from the eastern US and Canada.

In Enterprise Park, there is a 30,000 square foot building currently under construction for a company relocating here from Exeter, NH. In addition, another firm has completed a 15,000 square foot expansion to their building.

Liberty Mutual has announced plans to construct a major addition to its Dover facilities. A 350,000 square foot building will be built on its campus employing 1,400 additional workers within Dover. Construction is scheduled to begin within the next fiscal year. There still remain several other building pads on their property.

The Dover Business and Industrial Development Authority (DBIDA) began the process of selling land at Enterprise Park to a company expanding out of their location at a downtown mill facility. They will be erecting a 20,000 square foot building that will be expandable to 30,000 square feet.

Financial Position. The City's General Fund ended Fiscal Year 2005 with an increase to its Undesignated Fund Balance of \$274,599 to \$3.9 million. The General Fund has been in the black since the deficits of the early 1990s. The General Fund undesignated fund balance at June 30, 2004 was 6.1% of the FY05 budget (6% is the minimum requirement of the City Financial Policies). The Water and Sewer Funds also increased their unrestricted net assets by \$288,091 and \$597,934 to \$1.6 million and \$3.7 million, respectively. The Arena Fund decreased its unrestricted net deficit by \$28,150 to \$1.68 million. The City continues efforts to balance the fund, including scheduled fee increases.

Unreserved Net Assets		
Fund	FY04	FY05
General	3,593,043	3,867,587
Water	1,302,883	1,590,974
Sewer	3,134,540	3,732,473
Arena	(1,706,681)	(1,678,631)
Total	6,323,785	7,512,403

The liquidity of the General, Water and Sewer Funds is good. This is based on the quick ratio which is a measure of current asset (excluding inventories) divided by current liabilities. A ratio of 1 is considered satisfactory. The General Fund had a ratio of 1.25 and the Water and Sewer Funds had quick ratios of 1.09 and 1.46, respectively, exclusive of assets and liabilities related to construction.

The amount of debt remains within the policy limits established by the City Council. At June 30, 2005 the percent of the City's debt policy used was 59.0%, the School was 60.4%. General Fund net debt per capita is at \$1,652, a reasonable amount for a municipality the size of Dover. The General Fund's net debt to equalized value is 1.8%, a decrease from FY01's 2.5%. General Fund's net debt service as a percent of budget is 8.8%, down for the third consecutive year, and is considered average; however, it is higher than the 8% required by policy. This is partially due to the high rate of debt pay down. Pay down of General Fund debt over the next 10 years is at 75.5%, considered aggressive by credit agencies.

The Water and Sewer funds also remained within the debt policy limit with 59.1% and 22.8% used respectively. Water and Sewer debt represents 39.6% and 21.7% of the capital assets. Net debt service to budget in the Water Fund is 31.3% and 21.5% within the Sewer Fund, within the 40% set by policy.

In August of 1999 the City received a bond rating upgrade from Moody's Investor Services to a Baa1. The City received a second upgrade to A3 in May 2001 and a third in June 2003 to A2. The City also received an upgrade to A2 from Moody's and a rating from Standard & Poor's of A+ in June 2003. Both ratings were sustained in June 2004. In June 2005 the City received dual rating upgrades to A1 from Moody's and AA- from Standard & Poor's.

Condition Summary. The local economy continues to be stable. The City continues to see growth in the business community expanding the job base and diversification. There is a well diversified business and job base also in the surrounding area. It is uncertain whether the nationwide increases in energy costs will have any long term impact to the local economy or growth. The financial position of the major funds of the City is considered healthy; however, reserves should be increased.

Long-term financial planning. The City Council will be determining the City's capital improvements program needs, which include the facility improvements of the School system in the amount of \$11.4 million, streets and sidewalk improvements of \$16.2 million, a new Police facility for \$6.75 million and the mitigation of the Tolend Road Landfill for \$13.2 million. The School and landfill mitigation projects are expected to receive state aid towards the debt service costs of the financing bonds.

In addition, the City is in the planning stages for development of a sizable City parcel of land along the Cochecho River. Responsibility for the development of the waterfront was turned over by the City Council to the Dover Housing Authority. It is anticipated that request for proposals will be sent to developers. Planned improvements along the waterfront are included within the Capital Improvements Program.

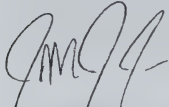

Acknowledgements

This report continues to refine the financial reporting of the City. It is the third year the City has produced a comprehensive annual financial report (CAFR). The City received the Certificate of Achievement for Excellence in Financial Reporting for the Fiscal Year 2004 CAFR. This recognizes the City's Finance Department's efforts for full disclosure of the financial information of the City. A CAFR is a much more detailed reporting of the City's finances, as well as providing historical information in the statistical section of this report.

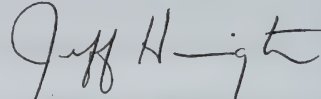

The Certificate of Achievement is valid for a period of one year only. The City believes that the current CAFR continues to meet the Certificate of Achievement Programs' requirement and it will be submitted to the Government Finance Officer's Association to determine its eligibility for another certificate.

The publication of the CAFR requires many staff hours to accomplish and would not have been possible without the dedication of the entire staff of the Finance Department. Credit must also be given to the Mayor and City Council for their continued support of the highest standards of professionalism in the management of the City's finances.

Respectfully submitted,

INDEPENDENT AUDITORS' REPORT

To the Mayor and City Council
City of Dover, New Hampshire

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Dover, New Hampshire, as of and for the year ended June 30, 2005, which collectively comprise the City's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the City of Dover's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Dover, as of June 30, 2005, and the respective changes in financial position and cash flows, where applicable, thereof and the respective budgetary comparison for the General Fund for the year then ended in conformity with accounting principles generally accepted in the United States of America.

The management's discussion and analysis, appearing on the following pages, is not a required part of the basic financial statements but is required by the *Governmental Accounting Standards Board*. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods

of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

Our audit was made for the purpose of forming opinions on the financial statements that collectively comprise the City of Dover, New Hampshire's basic financial statements. The introductory section, supplementary statements and schedules, and statistical tables are presented for purposes of additional analysis and are not a required part of the basic financial statements. The supplementary statements

and schedules have been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, are fairly stated in all material respects in relation to the basic financial statements taken as a whole. The introductory section and statistical tables have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we express no opinion on them.

In accordance with *Government Auditing Standards*, we have also issued our report dated October 4, 2005 on our consideration of the City of Dover's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

MANAGEMENT'S DISCUSSION AND ANALYSIS

As management of the City of Dover, we offer readers this narrative overview and analysis of the financial activities of the City of Dover for the fiscal year ended June 30, 2005. We encourage readers to consider the information here in conjunction with additional information that we have furnished in our letter of transmittal.

A. FINANCIAL HIGHLIGHTS

- As of the close of the current fiscal year, the total of assets exceeded liabilities by \$104,669,090 (i.e., net assets), an increase of \$3,029,447 in comparison to the prior year, as restated.
- As of the close of the current fiscal year, total of assets of governmental activities exceeded liabilities by \$49,079,028 (i.e., net assets), an increase of \$2,725,918 in comparison to the prior year (prior year restated, please refer to the Notes to the Financial Statements for additional information).
- As of the close of the current fiscal year, governmental funds reported combined ending fund balances of \$22,565,180, an increase of \$4,723,383 in comparison with the prior year.
- At the end of the current fiscal year, unreserved fund balance for the general fund was \$3,867,587, an increase of \$274,543 in comparison with the prior year.
- At the end of the current year, total assets of business-type activities exceeded their liabilities by \$55,590,062, an increase of \$303,529 in comparison to the prior year.
- Total long-term debt (i.e., bonds payable) at the close of the current fiscal year was \$77,957,366, an increase of \$4,051,175 in comparison to the prior year.

B. OVERVIEW OF THE FINANCIAL STATEMENTS

This discussion and analysis is intended to serve as an introduction to the City of Dover's basic financial statements. The basic financial statements are comprised of three components: (1) government-wide financial statements, (2) fund financial statements, and (3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

Government-Wide Financial Statements. The government-wide financial statements are designed to provide readers with a broad overview of our finances in a manner similar to a private-sector business.

The statement of net assets presents information on all assets and liabilities, with the difference between the two reported as net assets. Over time, increases or decreases in net assets may serve as a useful indicator of whether the financial position is improving or deteriorating.

The statement of activities presents information showing how the government's net assets changed during the most recent fiscal year. All changes in net assets are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation leave).

Both of the government-wide financial statements distinguish functions that are principally supported by taxes and intergovernmental revenues (governmental activities) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (business-type activities). The governmental activities include general government, public safety, highways and streets, sanitation, economic development, and culture and recreation. The business-type activities include water, sewer, arena, and Dover Business and Industrial Development Authority (DBIDA) activities.

Fund financial statements. A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. Fund accounting is used to ensure and demonstrate compliance with finance-related legal requirements. All of the funds can be divided into three categories: governmental funds, proprietary funds and fiduciary funds.

Governmental funds. Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

Annual appropriated budgets are adopted for the general fund and certain nonmajor governmental funds. Budgetary comparison statements have been provided for both funds to demonstrate compliance with these budgets.

Proprietary funds. Proprietary funds are maintained as follows:

Enterprise funds are used to report the same functions presented as business-type activities in the government-wide financial statements. Specifically, enterprise funds are used to account for water, sewer, arena and DBIDA operations.

Internal service funds are an accounting device used to accumulate and allocate costs internally among various functions. Because these services predominantly benefit governmental rather than business-type functions, they have been included within governmental activities in the government-wide financial statements.

Proprietary funds provide the same type of information as the business-type activities reported in the government-wide financial statements, only in more detail. The proprietary fund financial statements provide separate information for the water, sewer, arena, and DBIDA operations, all of which are considered to be major funds.

Fiduciary funds. Fiduciary funds are used to account for resources held for the benefit of parties outside the government. Fiduciary funds are not reflected in the government-wide financial statements because the resources of those funds are not available to support the City's own programs. The accounting used for fiduciary funds is much like that used for proprietary funds.

Notes to the financial statements. The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

Other information. In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information, which is required to be disclosed by the *Governmental Accounting Standards Board*.

C. GOVERNMENT-WIDE FINANCIAL ANALYSIS

As noted earlier, net assets may serve over time as a useful indicator of a government's financial position. At the close of the most recent fiscal year, total net assets were \$104,669,090, an increase of \$3,029,447 from the prior year.

Financial Position. The following is a summary of condensed government-wide financial data of net assets for the current and the prior fiscal years.

NET ASSETS

Amounts presented in 000s

	Governmental Activities		Business-Type Activities		Total	
	2004	2005	2004	2005	2004	2005
	Current and Other Assets	\$ 35,109	\$ 38,959	\$ 9,524	\$ 8,799	\$ 44,634
Capital Assets (1)	89,127	93,546	64,119	65,257	153,246	158,803
Total Assets	\$ 124,236	\$ 132,505	\$ 73,643	\$ 74,056	\$ 197,879	\$ 206,561
Long-term Liabilities	\$ 57,770	\$ 64,422	\$ 23,811	\$ 24,435	\$ 81,582	\$ 88,857
Other Liabilities	20,112	19,004	(5,455)	(5,969)	14,658	13,035
Total Liabilities	\$ 77,883	\$ 83,426	\$ 18,357	\$ 18,466	\$ 96,240	\$ 101,892
Net Assets:						
Invested in Capital Assets (1)	\$ 50,842	\$ 53,992	\$ 49,961	\$ 49,130	\$ 100,802	\$ 103,122
Restricted	468	135	1,549	2,961	2,016	3,096
Unrestricted	(4,956)	(5,048)	3,777	3,499	(1,179)	(1,549)
Total Net Assets	\$ 46,353	\$ 49,079	\$ 55,287	\$ 55,590	\$ 101,640	\$ 104,669

(1) Governmental Activities restated for FY04

By far the largest portion of net assets \$103,122,066, at 98.5 percent, reflects our investment in capital assets (e.g., land, buildings, machinery and equipment), less any related debt used to acquire those assets that is still outstanding. These capital assets are used to provide services to citizens; consequently, these assets are not available for future spending. Although the investment in capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

An additional portion of net assets \$3,096,175 represents resources that are subject to external restrictions on how they may be used. The remaining net balance represents unrestricted net assets and at the end of the fiscal year is a negative of \$1,549,151. It is the balance of unrestricted funds that may be used to meet the government's ongoing obligations to citizens and creditors.

It should be noted that the unrestricted net asset balance consists of a negative balance in the governmental activities of \$5,048,192 and a positive balance in the business-type activities of \$3,499,041. The main reason for the negative position of the governmental activities is the inclusion of unfunded long-term liabilities for Tolend Road Landfill mitigation of \$13,809,960 and unfunded compensated absences of \$2,907,890.

The \$13,809,960 for Tolend Road Landfill mitigation represents the mitigation costs and the post mitigation maintenance and monitoring costs. The City anticipates the mitigation costs to be financed with long-term debt and it is included in the City's six year Capital Improvements Program. The maintenance and monitoring costs are expected to be financed within the annual operating budget, as needed.

The \$2,907,890 for compensated absences represents the unfunded portion of accrued employee leave benefits, payable as taken or at termination. The City has also funded an additional liability of \$159,275. The unfunded portion is to be financed in the annual budget as needed. The total compensated absences liability decreased \$446,835 in FY05.

Financial Results. The following is a summary of condensed government-wide financial data of changes in net assets for the current fiscal and prior fiscal years.

Amounts presented in 000s

	Governmental Activities		Business-Type Activities		Total	
	2004	2005	2004	2005	2004	2005
Revenues:

Change in Net Assets	1,438	2,726	225	304	1,663	3,029
Net Assets - beginning of year (2)	44,915	46,353	55,062	55,287	99,977	101,640
Net Assets - end of year	\$ 46,353	\$ 49,079	\$ 55,287	\$ 55,590	\$ 101,640	\$ 104,669

(1) Excludes interest on long-term debt reflected separately.

(2) As restated for 2004.

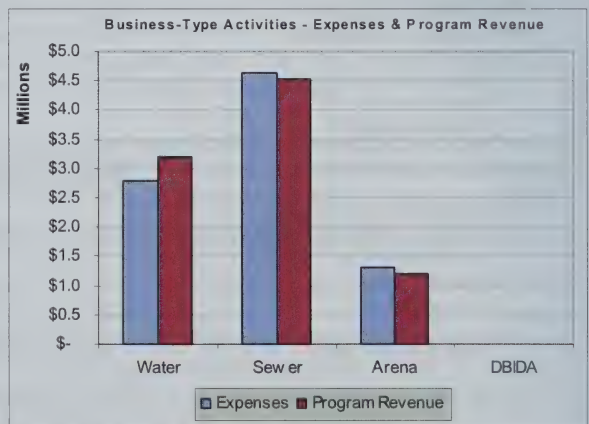

Governmental activities. Governmental activities for the year resulted in an increase in net assets of \$2,725,918. Key elements of this increase are as follows:

- The \$2,725,918 change in net assets consists mainly of a net increase in invested in capital assets, net of depreciation of \$3,150,358, a decrease of \$332,420 in restricted net assets and a net decrease in unrestricted net assets of \$92,020.

Business-Type Activities. Business-type activities for the year resulted in an increase in net assets of \$303,529 or .5%. Key elements of this change are as follows:

- The Water Fund's net assets increased by \$435,645 or 2.9%. This consists mainly of charges for services being higher than budgeted by \$124,001 and a net increase in the reserve for capital projects of \$88,161.
- The Sewer Fund had a decrease in net assets of \$15,304 or .04%. The change consists of a net operating loss of \$97,083 offset by non-operating net revenue of \$84,878.
- The Arena Fund had a decrease in net assets of \$111,183 due mainly to a shortage of \$115,685 in revenue.

D. FINANCIAL ANALYSIS OF THE GOVERNMENT'S FUNDS

As noted earlier, fund accounting is used to ensure and demonstrate compliance with finance-related legal requirements.

Governmental funds. The focus of governmental funds is to provide information on near-term inflows, outflows and balances of spendable resources. Such information is useful in assessing financing requirements. In particular, unreserved fund balance may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

As of the end of the current fiscal year, governmental funds reported combined ending fund balances of \$22,565,180, an increase of \$4,723,383 in comparison with the prior year (prior year restated, please refer to the Notes to the Financial Statements for more information). Most of this increase was attributable to realizing of \$8,520,000 in bond proceeds for capital improvements in the non-major governmental funds.

The general fund is the chief operating fund. At the end of the current fiscal year, unreserved fund balance of the general fund was \$3,867,587, while total fund balance was \$6,565,885. As a measure of the general fund's liquidity, it may be useful to compare both unreserved fund balance and total fund balance to total fund expenditures. Unreserved fund balance represents 6.1 percent of total general fund expenditures, while total fund balance represents 10.4 percent of that same amount.

The fund balance of the general fund increased by \$641,411, or 10.8%, during the current fiscal year. Key factors in this change are as follows:

- A net increase to fund balance of \$485,464 from net financing sources exceeding budget estimates, consisting of \$565,464 in revenues in excess of budget estimates less \$80,000 of budgetary use of fund balance. The \$565,464 consisted mainly of \$189,338 in excess Ambulance revenue and \$196,881 in excess proceeds from a New Hampshire Municipal Bond Bank bond refunding.

- A net increase to fund balance of \$42,530 from remaining departmental appropriations.
- A decrease to fund balance of \$51,958, consisting of an increase of \$57,115 in deferred property tax revenue, \$26,407 of lapsed prior year encumbrances and a decrease of \$21,250 of debt service reserve.
- A net increase of \$165,373 in reserve for encumbrances, consisting mainly of a \$226,597 increase in the School Department reserve.

Proprietary funds. Proprietary funds provide the same type of information found in the business-type activities reported in the government-wide financial statements, but in more detail.

Unrestricted net assets of the enterprise funds at the end of the year amounted to \$3,499,041. This amount consists of the Water Fund of \$1,590,974, the Sewer Fund of \$3,732,475, the Arena Fund deficit of \$1,678,632 and the Dover Business and Industrial Development Fund (DBIDA) deficit of \$145,776.

Other factors concerning the finances of proprietary funds have already been addressed in the entity-wide discussion of business-type activities.

E. GENERAL FUND BUDGETARY HIGHLIGHTS

Differences between the original budget and the final amended budget resulted in an overall increase in appropriations of \$362,500. Major reasons for these amendments include:

- \$285,000 for snow removal.
- \$75,000 for general welfare assistance.
- \$2,500 grant for a crusher for used motor vehicle oil filters.

Of this increase, \$280,000 was funded from unanticipated revenue, \$80,000 was funded from use of fund balance and \$2,500 was received from a State grant.

F. CAPITAL ASSET AND DEBT ADMINISTRATION

Capital assets. Total investment in capital assets for governmental and business-type activities at year-end amounted to \$158,802,515 (net of accumulated depreciation), an increase of approximately \$5,556,828 from the prior year (as restated, see Note to Financial Statements for more detail). This investment in capital assets includes land, buildings and system, improvements, and machinery and equipment. The following yearly comparison shows net fixed assets by category:

Capital Assets (000s)
(net of depreciation)

	Governmental Activities		Business-Type Activities		Totals	
	2004	2005	2004	2005	2004	2005
Land	\$ 10,334	\$ 10,961	\$ 2,037	\$ 2,037	\$ 12,371	\$ 12,997
Buildings and improvements	38,476	41,985	25,792	25,035	64,268	67,020
Machinery and equipment	10,970	10,995	2,179	3,123	13,149	14,118
Infrastructure	16,600	18,780	26,943	32,869	43,543	51,649
Construction in Progress	12,747	10,826	7,168	2,192	19,914	13,018
Total Assets	\$ 89,127	\$ 93,546	\$ 64,119	\$ 65,257	\$ 153,246	\$ 158,803

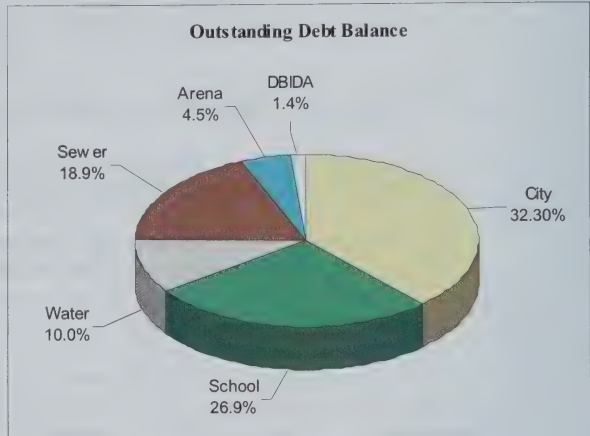

Major capital asset events during the current fiscal year included the following:

- The increase to land relates to the City's purchase of open space of \$366,192 and \$255,000 for athletic fields.
- The increase to building and improvements of the governmental activities relates mainly to School improvements of \$2,089,371, sidewalk improvements of \$551,333, athletic field development of \$493,354 and Indoor Pool renovations of \$422,281.
- The governmental activities infrastructure change includes an addition of \$3,079,003 in street improvement projects and \$388,572 in drainage projects.
- The net change in governmental activity construction in progress relates to additions of \$6,952,064 and capitalizations of \$8,872,522. Additions include \$1,449,722 for the Cochecho Dredging project, \$1,968,727 for School improvements and \$706,779 of recreation improvements. Capitalizations include \$5,100,092 of public works projects, \$1,761,296 of School improvements and \$1,587,989 of recreation projects.
- The increase to business-type activity machinery and equipment is mainly related to additions of \$486,309 and \$487,992 for water and sewer's share, respectively, of the Supervisory Control and Data Acquisition (SCADA) equipment to assist in monitoring and controlling water well and sewer pump station equipment activity. In addition, \$114,879 of water meters and \$276,496 in wastewater treatment plant (WWTP) blower equipment.
- The increase in business-type activity infrastructure improvements is mainly related to the additions of water and sewer mains. Major water mains consisted of \$2,889,787 for Dover Point Road replacement, \$589,912 for Broadway area and \$253,888 for Sixth Street. Major sewer mains consisted of \$1,065,386 for Berry Brook upgrade and \$399,482 for Glenwood Avenue.

- Year end business-type activity construction in progress is related to \$152,866 in minor water projects, \$1,868,433 in sewer projects and \$170,985 in DBIDA economic development projects. The sewer balance mainly relates to \$1,014,822 for the WWTP ultra violet unit upgrade and \$427,090 for the WWTP blower building.

Additional information on the capital assets can be found in the Note 8 to the Financial Statements.

Long-term debt. At the end of the current fiscal year, total long-term debt outstanding was \$77,957,366, a net increase of \$4,051,175 over the previous fiscal year end, all of which was backed by the full faith and credit of the government.

Long-term Debt (000s)

	Governmental Activities		Business-Type Activities		Totals	
	2004	2005	2004	2005	2004	2005
General Obligation Bonds	\$ 46,779	\$ 51,163	\$ 26,280	\$ 26,031	\$ 73,059	\$ 77,195
State Revolving Loans	848	763	-	-	848	763
Total Long-term Debt	\$ 47,626	\$ 51,926	\$ 26,280	\$ 26,031	\$ 73,906	\$ 77,957

- During the fiscal year, the City issued \$10,740,000 in general obligation serial bonds; \$8,520,000 related to governmental activities and \$2,220,000 related to business-type activities. The City bonds were insured by XL Capital Assurance and were rated Aaa by Moody's Investors Service and AAA by Standard & Poor's. The underlying credit rating of the City was an A1 rating from Moody's Investor Service and an AA- from Standard & Poor's. Competitive bids were solicited and the City received 5 bids on June 9, 2005. Citigroup Global Markets, Inc. was awarded the bid at a true interest cost of 3.822 percent. The bonds were dated June 15, 2005 and mature June 15, 2026. Bonds dated on or after June 15, 2016 may be redeemed prior to the maturity date at the option of the City.

Additional information on long-term debt can be found in the Note 13 to the Financial Statements.

G. NEXT YEAR'S BUDGETS AND RATES

The budget, tax levies and tax rates of the General Fund for the subsequent fiscal year have been formalized. The following table reflects the budget amounts, at the time of tax rate setting, for each year for the General Fund.

General Fund Budget		Increase		
	FY05	FY06	(Decrease)	% Change
City	24,848,550	26,497,793	1,649,243	6.6%
School	34,513,623	36,961,962	2,448,339	7.1%
County	4,336,892	5,454,815	1,117,923	25.8%
Total Budget	63,699,065	68,914,570	5,215,505	8.2%

The following table reflects the property tax levy amounts for each year.

Property Tax Levies		Increase		
	FY05	FY06	(Decrease)	% Change
City	16,444,337	17,472,361	1,028,024	6.3%
School - Local	16,302,137	19,413,741	3,111,604	19.1%
School - State	6,701,724	6,477,735	(223,989)	-3.3%
Total School	23,003,861	25,891,476	2,887,615	12.6%
County	4,286,840	5,404,763	1,117,923	26.1%
Total Tax Levy	43,735,038	48,768,600	5,033,562	11.5%

- Approximately \$1.6 million of the increase in the local School tax levy results from a decrease in State aid.

The following table reflects the property tax rates for each year. The tax rate is stated per \$1,000 of assessed value.

Property Tax Rates		Increase		
	FY05	FY06	(Decrease)	% Change
City	6.91	7.04	0.13	1.9%
School - Local	6.71	7.66	0.95	14.2%
School - State	2.80	2.59	(0.21)	-7.5%
Total School	9.51	10.25	0.74	7.8%
County	1.76	2.13	0.37	21.0%
Total Tax Rate	18.18	19.42	1.24	6.8%

The budget and user fees of the utility funds for the subsequent fiscal year have been formalized. The following table reflects the original adopted budget amounts for each year for the Water and Sewer Funds.

Utility Funds	FY05	FY06	Increase (Decrease)	% Change
Water Fund	2,940,790	3,089,090	148,300	5.0%
Sewer Fund	5,069,078	5,106,196	37,118	0.7%
Total Utility Funds	8,009,868	8,195,286	185,418	2.3%

The following table reflects the utility rates per one hundred cubic feet (HCF) of water consumption for each year. (1 HCF = 748 gallons)

Utility Rates	FY05	FY06	Increase (Decrease)	% Change
Water Fund	2.68	2.96	0.28	10.4%
Sewer Fund	4.01	4.13	0.12	3.0%
Combined Rates	6.69	7.09	0.40	6.0%

Discussions of other financial and economic factors are included in the Transmittal Letter.

REQUESTS FOR INFORMATION

This financial report is designed to provide a general overview of the City of Dover's finances for all those with an interest in the government's finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to:

Finance Director, City of Dover
Municipal Building
288 Central Avenue
Dover, New Hampshire 03820

RECONCILIATION OF TOTAL GOVERNMENTAL FUND
BALANCES TO NET ASSETS OF GOVERNMENTAL
ACTIVITIES IN THE STATEMENT OF NET ASSETS

JUNE 30, 2005

Total governmental fund balances	\$ 22,565,180
• Capital assets used in governmental activities are not financial resources and, therefore, are not reported in the funds.	93,545,997
• Revenues are reported on the accrual basis of accounting and are not deferred until collection.	1,456,457
• Internal service funds are used by management to account for Dover Net, Central Stores, fleet maintenance and workers' compensation activities. The assets and liabilities of the internal service funds are included in the governmental activities in the Statement of Net Assets.	475,747
• In the statement of activities, interest is accrued on outstanding long-term debt, whereas in governmental funds interest is not reported until due.	(320,567)
• Long-term liabilities are not due and payable in the current period and, therefore, are not reported in the governmental funds:	
Bonds payable	(51,925,936)
Compensated absences	(2,907,890)
Liability for hazardous waste-site cleanup	(13,809,960)
Net assets of governmental activities	\$ <u>49,079,028</u>

See notes to financial statements.

See notes to financial statements.

CITY OF DOVER, NEW HAMPSHIRE
 RECONCILIATION OF THE STATEMENT OF REVENUES,
 EXPENDITURES, AND CHANGES IN FUND BALANCES OF
 GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES
 FOR THE YEAR ENDED JUNE 30, 2005

NET CHANGE IN FUND BALANCES - TOTAL GOVERNMENTAL FUNDS \$ 4,723,383

- Governmental funds report capital outlays as expenditures. However, in the Statement of Activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense:

Capital outlay purchases, net	8,871,210
Depreciation	(4,411,670)
Loss on sale of capital assets	(40,109)

 - Revenues in the Statement of Activities that do not provide current financial resources are fully deferred in the Statement of Revenues, Expenditures and Changes in Fund Balances. Therefore, the recognition of revenue for various types of accounts receivable (i.e., property taxes) differ between the two statements. This amount represents the net change in deferred revenue.

	132,530
--	---------

 - The issuance of long-term debt provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the financial resources of governmental funds. Neither transaction, however, has any effect on net assets:

Issuance of debt	(8,520,000)
Repayments of debt	4,220,335

 - In the statement of activities, interest is accrued on outstanding long-term debt, whereas in governmental funds interest is not reported until due.

	14,320
--	--------

 - Some expenses reported in the Statement of Activities do not require the use of current financial resources and, therefore, are not reported as expenditures in the governmental funds:

Decrease in liability for compensated absences	538,971
Increase in liability for hazardous waste-site cleanup	(2,793,947)

 - Internal service funds are used by management to account for Dover Net, Central Stores, fleet maintenance and workers' compensation activities. The net activity of internal service funds is reported with Governmental Activities.

	(9,105)
--	----------
- CHANGE IN NET ASSETS OF GOVERNMENTAL ACTIVITIES** \$ 2,725,918

See notes to financial statements.

CITY OF DOVER, NEW HAMPSHIRE

Notes to Financial Statements

1. Summary of Significant Accounting Policies

The accounting policies of the City of Dover, New Hampshire (the City) conform to generally accepted accounting principles (GAAP) as applicable to governmental units. The following is a summary of the more significant policies:

A. Reporting Entity

The government is a municipal corporation governed by an elected mayor, eight-member council and an appointed City Manager. As required by generally accepted accounting principles, these financial statements present the government and applicable component units for which the government is considered to be financially accountable. In fiscal year 2005, it was determined that no entities met the required GASB-39 criteria of component units.

B. Government-Wide and Fund Financial Statements

Government-Wide Financial Statements

The government-wide financial statements (i.e., the statement of net assets and the statement of changes in net assets) report information on all of the nonfiduciary activities of the primary government. For the most part, the effect of interfund activity has been removed from these statements. *Governmental activities*, which normally are supported by taxes and intergovernmental revenues, are reported separately from *business-type activities*, which rely to a significant extent on fees and charges for support.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. *Direct expenses* are those that are clearly identifiable with a specific function or segment. Program revenues include (1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and (2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as *general revenues*.

Fund Financial Statements

Separate financial statements are provided for governmental funds, proprietary funds and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual govern-

mental funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

C. Measurement Focus, Basis of Accounting, and Financial Statement Presentation

Government-Wide Financial Statements

The government-wide financial statements are reported using the *economic resources measurement focus* and the *accrual basis of accounting*, as are the proprietary fund and fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met. As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements.

Amounts reported as *program revenues* include (1) charges to customers or applicants for goods, services, or privileges provided, (2) operating grants and contributions, and (3) capital grants and contributions, including special assessments. Internally dedicated resources are reported as *general revenues* rather than as program revenues. Likewise, general revenues include all taxes and excises.

Fund Financial Statements

Governmental fund financial statements are reported using the *current financial resources measurement focus* and the *modified accrual basis of accounting*. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers property tax revenues to be available if they are collected within 60 days of the end of the current fiscal period. All other revenue items are considered to be measurable and available only when cash is received by the government. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

The government reports the following major governmental fund:

- The *general fund* is the government's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

Proprietary funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the enterprise fund are charges to customers for sales and services. Operating expenses for enterprise funds include the cost of sales and services, administrative expenses and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

Private-sector standards of accounting and financial reporting issued prior to December 1, 1989 generally are followed in both the government-wide and proprietary fund financial statements to the extent that those standards do not conflict with or contradict guidance of the Governmental Accounting Standards Board. Governments also have the *option* of following subsequent private-sector guidance for their business-type activities and enterprise funds, subject to this same limitation. The government has elected not to follow subsequent private-sector guidance.

The government reports the following major proprietary funds:

- The *Water Fund* accounts for the operation of a water treatment plant, City wells and water system.
- The *Sewer Fund* accounts for the operation of a sewer treatment plant, pumping station and sewer lines.
- The *Arena Fund* accounts for the operations of the Dover Ice Arena.
- The *Dover Business and Industrial Development Authority Fund* (DBIDA) accounts for the economic development projects of the DBIDA, which operates under RSA 162-G.

Additionally, the government reports the following fund types:

- Internal service funds account for data processing, fleet management services, and workers compensation administration and claims, provided to other departments on the cost reimbursement basis.
- The private-purpose trust fund is used to account for trust arrangements, under which principal and investment income exclusively benefit individuals, private organizations, or other governments.
- The agency funds are used for funds received from outside agencies and are administered by the City.

D. Cash and Investments

The government's cash is considered to be cash on hand, demand deposits, and short-term investments with original maturities of three months or less from the date of acquisition. The New Hampshire Public Deposit Investment Pool (NHPDIP) operates in accordance with appropriate state laws and regulations and is under the control of the New Hampshire Banking Commission. The reported value of the pool is the same as the fair value of the pool shares. Participation units of the NHPDIP are considered short-term for financial presentation purposes.

Investments are considered holdings of greater than three months and are reported at fair value.

City Funds

Under New Hampshire RSA 48:16, the City Treasurer may invest excess funds which are not immediately needed for the purpose of expenditure, in obligations of the United States government, in participation units in the public deposit investment pool established pursuant to RSA 383:22, in savings bank deposits of banks incorporated under the laws of the state of New Hampshire or in certificates of deposits and repurchase agreements of banks incorporated under the laws of the state of New Hampshire or in banks recognized by the state treasurer. At least yearly, the City Council shall review and adopt an investment policy for the investment of public funds in conformance with the provisions of applicable statutes. The significant sections of that policy are disclosed in Note 3.

Trust Funds

Under New Hampshire RSA 34:5, capital reserve funds of the City shall be invested only by deposit in some savings bank or in the savings department of a national bank or trust company, or in the shares of a cooperative bank, building and loan association, or federal savings and loan association, in this state or in bonds, notes or other obligations of the United States government, in bonds or notes of this state, in such stocks and bonds as are legal for investment by New Hampshire savings banks, or in participation units in the public deposit investment pool established pursuant to RSA 383:22 by the trustees of the trust funds.

Under New Hampshire RSA 31:27, the city trustees of trust funds may establish, maintain and operate one or more common trust funds, in which may be combined money and property belonging to the various trusts in their care, for the purpose of facilitating investments, providing diversification and obtaining reasonable income; provided however, that said common trust funds shall be limited to the investments authorized in RSA 31:25; provided further, that not more than \$10,000, or more than 10 percent of the fund whichever is greater of any town or city common trust funds shall be invested under RSA 31:25 in the obligations of any

one corporation or organization, excepting deposits in any federally or state-chartered bank or association authorized to engage in a banking business in this state, in credit unions in this state, or in obligations of the United States and of the state of New Hampshire and its subdivisions; or in participation units in the public deposit investment pool established pursuant to RSA 383:22, or in shares of open-ended mutual funds selected by the trustees for investment under RSA 31:25.

Under New Hampshire RSA 31:25, at least yearly, the trustees of trust funds shall review and adopt an investment policy for the investment of public funds in conformance with the provisions of applicable statutes. The significant sections of that policy are disclosed in Note 3.

E. Interfund Receivables and Payables

Transactions between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as either "due from/to other funds" (i.e., the current portion of interfund loans) or "advances to/from other funds" (i.e., the non-current portion of interfund loans).

Advances between funds are offset by a fund balance reserve account in applicable governmental funds to indicate the portion not available for appropriation and not available as expendable financial resources.

Any residual balances between the governmental activities and business-type activities are reported in the government-wide financial statements as "internal balances".

F. Inventories

Inventories are valued at cost using the first-in/first-out (FIFO) method. The costs of governmental fund-type inventories are recorded as expenditures when purchased rather than when consumed. No significant inventory balances were on hand in governmental funds.

G. Capital Assets

Capital assets, which include property, plant, equipment, and infrastructure assets are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets are defined by the government as assets with an initial individual cost of more than \$10,000 and an estimated useful life in excess of two years. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized.

Major outlays for capital assets and improvements are capitalized as projects are constructed. Interest incurred during the construction phase of capital assets is included as part of the capitalized value of the assets constructed.

Property, plant and equipment of the primary government is depreciated using the straight-line method over the following estimated useful lives:

<u>Assets</u>	<u>Years</u>
Buildings	20 - 40
Building improvements	40
Building systems	15 - 24
Infrastructure	20 - 60
Water/sewer infrastructure	24 - 50
Vehicles	8 - 15
Office equipment	7 - 20
Computer equipment	5 - 10
Land improvements	15 - 20
Machinery and equipment	5 - 15
Books and collections	5

H. Compensated Absences

Depending on the union, employees may be compensated for unused amounts of sick leave earned prior to June 30, 1993, ranging from 25% to 75% of accumulated time. Effective June 30, 1993, all non-education employees are awarded sick leave at a rate of 10 days per year, which lapses at year end. Employees earn vacation leave as they provide services. Employees may carry over earned vacation days with some limitations (usually sixty days) and use compensatory time for unused balances upon termination with some limitations, usually 30 days.

All vested sick and vacation pay is accrued when incurred in the government-wide, proprietary and fiduciary fund financial statements. A liability for these amounts is reported in governmental funds only if they have matured, for example, as a result of employee resignations and retirements.

During fiscal year 2002, the City began funding the current vested portion of vacation and sick time for non-enterprise fund employees by establishing a capital reserve fund. The balance in the fund as of June 30, 2005 was \$504,792. The vested portion attributable to enterprise fund employees has been recorded in the respective fund.

I. Long-Term Obligations

In the government-wide financial statements, and proprietary fund types in the fund financial statements, long-term debt and other long-term obli-

gations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statement of net assets.

J. Fund Equity

In the fund financial statements, governmental funds report reservations of fund balance for amounts that are not available for appropriation or are legally restricted by outside parties for use for a specific purpose. Designations of fund balance represent tentative management plans that are subject to change.

K. Use of Estimates

The preparation of basic financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure for contingent assets and liabilities at the date of the basic financial statements, and the reported amounts of the revenues and expenditures/expenses during the fiscal year. Actual results could vary from estimates that were used.

L. Material Reclassifications

Certain investments were reclassified in the current year as cash and short-term investments due to their high liquidity.

2. Stewardship, Compliance and Accountability

A. Budgetary Information

The City Manager submits his proposed operating budget to the City Council on or before April 1. The operating budget includes proposed expenditures and the means of financing them. Annual budgets are adopted for the general fund, various special revenue funds, and proprietary funds. Public hearings are conducted to obtain comments on the proposed budget. The final budget must be adopted by June 15, but not earlier than seven days after a public hearing. A separate public hearing is held on the portion of the budget submitted by the School Committee.

The City Manager, with Council approval, may transfer budgeted amounts between non-school departments, and the head of the School Department may transfer budget amounts within the department. The City Council may, after public hearings, appropriate additional amounts. The City Council must designate the source of such funds except for emergency situations. All unencumbered appropriations, except those for capital expenditures or dedicated funds, lapse at the end of the fiscal year. Appropriation for capital expenditures remains in force for three years or until their purpose has been accomplished or abandoned.

B. Budgetary Basis

The General Fund final appropriation appearing on Budget and Actual page of the fund financial statements represents the final amended budget after all transfers and supplemental appropriations.

C. Budget/GAAP Reconciliation

The budgetary data for the general and special revenue funds is based upon accounting principles that differ from generally accepted accounting principles (GAAP). Therefore, in addition to the GAAP basis financial statements, the results of operations of the general fund and various special revenue funds are presented in accordance with budgetary accounting principles to provide a meaningful comparison with budgetary data.

The following is a summary of adjustments made to the actual revenues and other sources, and expenditures and other uses, to conform to the budgetary basis of accounting.

<u>General Fund</u>	<u>Revenues and other financing sources</u>	<u>Expenditures and other financing uses</u>	<u>Excess (deficiency) of revenues and other financing sources over (under) expenditures and other financing uses</u>
Revenues/Expenditures (GAAP basis)	\$ 64,457,915	\$ 63,150,018	\$ 1,307,897
Other financing sources/ uses (GAAP basis)	<u>9,599</u>	<u>676,085</u>	<u>(666,486)</u>
Subtotal (GAAP basis)	64,467,514	63,826,103	641,411
Adjust property tax revenue to accrual basis	57,115	-	57,115
Reverse beginning of year appropriation carryforwards from expenditures	-	(368,716)	368,716
Add end of year appro- priation carryforwards to expenditures	-	560,498	(560,498)
Net transfers	22,400	22,400	-
Reverse amortized debt	<u>-</u>	<u>(21,250)</u>	<u>21,250</u>
Budgetary Basis	<u>\$ 64,547,029</u>	<u>\$ 64,019,035</u>	<u>\$ 527,994</u>

D. Excess of Expenditures Over Appropriations

Expenditures exceeded appropriations in the following areas:

Nonmajor Governmental Funds:

Special Revenue Funds:

School Alternative Education	\$ (10,993)
School Cafeteria	\$ (74,405)

Proprietary Funds:

Enterprise Funds:

Water Fund	\$ (32,407) (1)
------------	------------------

(1) Results mainly from actual depreciation exceeding the budgeted amount due to newly-capitalized assets.

Internal Service Funds:

Fleet Management	\$ (37,340)
Workers' Compensation	\$ (68,328)

E. Deficit Fund Equity

The individual projects within the following funds had deficits as of June 30, 2005:

Nonmajor Governmental Funds:

Special Revenue Funds:

2005 CDBG - Entitlement	\$ (86,827) (A)
2003 Willand Pond	\$ (20,782) (A)
2000 Fire and Rescue Emergency Management	\$ (8,471) (A)
2005 Drug Task Force	\$ (3,528) (A)
2004 Police Youth Liaison	\$ (3,129) (A)
2002 Planning Illicit Discharge	\$ (2,506) (A)
2005 Wellness and Fitness Program	\$ (1,877) (A)

Capital Projects Funds:

CIP FY00	\$ (13,712) (B)
Cochecho River Dredge	\$ (330,772) (C)

The following fund had a deficit as of June 30, 2005:

Proprietary Fund:

Arena Fund	\$ (1,099,173) (B)
------------	--------------------

(A) The deficits in these funds will be eliminated through the future grant reimbursements.

(B) The deficits in these funds will be eliminated through future departmental revenues and transfers from other funds.

(C) The deficit will be funded by fees charged for placement of dredge spoils, temporarily financed by a bond anticipation note.

3. Cash and Investments

A. Custodial Credit Risk

Custodial credit risk for deposits is the risk that in the event of a bank failure, the deposits may not be returned. The custodial credit risk for investments is the risk that, in the event of the failure of the counterparty (e.g. broker-dealer) to a transaction, a government will not be able to recover the value of its investment or collateral securities that are in the possession of another party.

City Funds

The City's Investment Policy requires the use of security broker/dealers be based on creditworthiness (a minimum capital requirement of \$100,000,000 and at least five years of operation). Permitted investment per state law and the City's policy are US Government Obligations, New Hampshire Public Deposit Investment Pool (NHPDIP), Certificates of Deposits in New Hampshire banks and overnight Repurchase Agreements whose underlying securities consist of US Government Obligations, US Government Agency Obligations or State of NH Obligations. Financial institutions where funds are kept on deposit, in CDs or Repurchase Agreements must meet the following criteria:

- Minimum total assets of \$100 million.
- Minimum of an average rating by a bank rating service
- Minimum ratio of equity capital to total assets of 5%.
- Maximum ratio of non-performing assets to equity of 20%.

Full collateralization is required on non-negotiable CDs or overnight Repurchase Agreements. Repurchase Agreement collateral must consist of US Government Obligations, US Government Agency Obligations or State of NH Obligations.

Maximum maturity for an investment of City funds is six months.

As of June 30, 2005, the City's bank balance of \$34,980,635 was fully insured and collateralized, including \$10,195,841 in repurchase agreements held in underlying securities by the investment's counterparty, and in the name of the City.

Trust Funds

The Investment Policy of the City's Board of Trustees of the Trust Funds permits deposits and investments in:

- Deposits in savings banks or the savings department of a national bank or trust company in the state of New Hampshire or in the NHPDIP.

- Shares of a building and loan association or cooperative bank, incorporated and doing business under New Hampshire law.
- Shares of any federal savings and loan association, located and doing business in New Hampshire
- Certificates of deposits in New Hampshire
- Bonds, notes or other obligations of the US Government or the state, county, town, city, school district or water and sewer district.
- Stocks and bonds as are legal for investment by NH savings banks
- Shares of mutual funds or money market mutual funds.

Investment depositories must meet the following criteria:

- Minimum total assets of \$100 million.
- Minimum ratio of equity capital to total assets of 6%.
- Maximum ratio of non-performing assets to equity of 35%.
- Minimum of an average rating by a bank rating service.

The \$2,218,612 investments of the Trust Funds are all mutual funds, which are exempt from the rating and duration of time disclosure requirements.

B. Credit Risk

The City's Investment Policy and the Board of Trustees Investment Policy minimize credit risk by limiting investments to the safest types of securities as listed above, pre-qualifying institutions and diversifying the portfolio. In addition, they do not permit investments made with leveraging techniques, margin purchases or trading involving short selling.

The Board of Trustees' Investment Policy also addresses specific ratio analysis and financial parameters for investments in stocks, bonds and mutual funds. During fiscal year 2005 the trust investments were held in mutual funds. The mutual fund investment criteria are listed below:

- The fund is a no load, open-ended fund, and does not charge 12b-1 expenses.
- The fund is qualified for sale in the State of New Hampshire with the Securities Regulations Bureau of the NH Secretary of State.
- The fund is registered with the SEC.
- A prospectus is available to the trustees outlining the investment philosophy of the fund and the major holdings in the fund.
- The fund has a Morningstar rating of four stars or better.
- The fund can invest in equities or bonds or both.
- Price/Earnings & Price/Book ratios should be reasonable within the given market conditions and sectors.
- If the fund invests mainly in fixed income securities or is mixed with equities, the average credit quality of the fixed income securities should be A or higher.
- No investment shall be made into high yield bond funds.

C. Concentration of Credit Risk

City Funds

The City's Investment Policy limits its exposure to concentration credit risk by limiting the types of investment securities that it holds to US Government Obligations and by splitting its short term deposits between financial institutions that fully collateralize them and the NHPDIP that also collateralizes the deposits and fully insures them.

Trust Funds

It is the policy of the Trustees that common investments shall be diversified to eliminate the risk of loss resulting from over-concentration of assets in a specific maturity, industry or specific issuer. The Trustees' concentration of credit risk policy is as follows:

- No more than 10% of the portfolio (cost basis including cash and investments) shall be invested in the obligations of any one entity, corporation or organization exclusive of U.S. government or agency obligations. A mutual fund will be considered one entity.
- No more than 20% (cost basis) shall be invested in any one sector.
- About 10% of the portfolio should be kept in more liquid money market accounts.

D. Interest Rate Risk

Interest rate risk is the risk that changes in market interest rates will adversely affect the fair value of an investment. Generally, the longer the maturity of an investment, the greater the sensitivity of its fair value to changes in market interest rates.

City Funds

The City minimizes the risk that the market value of securities will fall due to changes in general interest rates by structuring the portfolio so securities mature to meet the cash requirements for on-going operations thus avoiding the need to sell securities on the open market prior to maturity. The policy also provides for investing primarily in shorter-term securities, including the local government investment pool.

Trust Funds

The Trust recognizes that investment risks can result from issuer defaults, market price changes or various technical complications leading to temporary loss of liquidity. Portfolio diversification is to be employed as a way to control risk. The Treasurer is expected to use prudence in the selection of securities as a way to minimize default risk. No individual investment transaction shall be undertaken that jeopardizes the total capital position of the specific issuer. The Treasurer shall review and, if appropriate, proceed to liquidate any securities having comparable credit risks.

Information about the sensitivity of the fair values of the Trust's investments to market interest rate fluctuations is not provided, since all investments are held in mutual funds.

E. Foreign Currency Risk

Specific investment in foreign securities is not permitted by either the City or Board of Trustees Investment Policies. Mutual Funds held by the Board of Trustees may have insignificant holdings in foreign securities.

The City and Board's policies also outline other specific investment criteria and are available for review at www.ci.dover.nh.us.

4. Taxes Receivable

The City bills property taxes semi-annually, in October and April of the following year. Property tax revenues are recognized in the fiscal year for which taxes have been levied to the extent that they become available, i.e., due or receivable within the current fiscal year and collected within the current period or within 60 days of year-end.

Property taxes are due no earlier than December 1 and June 1, of the following year and must be due at least 30 days after bills are mailed. At the time of the tax lien, which the City usually places within 60 to 90 days after the second due date, a lien is recorded on the property at the Registry of Deeds. If the property taxes are not paid (redeemed) within two years and one day of the tax lien date, the property could be conveyed to the City by deed and subsequently sold at public auction or sealed bid.

The City annually budgets an amount (overlay for abatements) for property tax abatements and refunds. All abatements and refunds are charged to overlay. Prior to fiscal year 1996, the City was funding all abatement out of the current year appropriation regardless of the levy of the tax. During fiscal year 1996, the City began matching property tax abatements for individual levy years, with the tax revenue earned by the individual levy years.

Taxes receivable at June 30, 2005 are comprised of (in thousands):

Unredeemed taxes:	
Levy of 2005	\$ 1,624
Levy of 2004	218
Levy of 2003	96
Allowance for abatements	(27)
Subtotal	1,911
Other taxes:	
Other miscellaneous taxes	24
Total	\$ <u>1,935</u>

5. Intergovernmental Receivables

Intergovernmental receivables of \$300,758 reported in the general fund represents tuition revenue received from area school districts in July and August 2005. The balance of \$1,462,960 reported in the nonmajor governmental funds represents amounts to be received on various expenditure driven grants.

The New Hampshire Department of Environmental Services annually reimburses the City for a portion of the principal and interest payments on Sanitary Sewer Fund bonds. The reimbursement is based upon the amount of the State's participation in the original sewer project. The amount due from the State in future years is as follows:

Fiscal Year Ended June 30	Reimbursement For		
	Principal	Interest	Total
2006	\$ 829,603	\$ 375,210	\$ 1,204,813
2007	829,602	320,070	1,149,672
2008	829,602	264,352	1,093,954
2009	<u>829,602</u>	<u>208,340</u>	<u>1,037,942</u>
Subtotal	3,318,409	1,167,972	4,486,381
2010-2012	<u>2,481,867</u>	<u>287,256</u>	<u>2,769,123</u>
Total	\$ <u>5,800,276</u>	\$ <u>1,455,228</u>	\$ <u>7,255,504</u>

In the Sewer Enterprise fund the City has accrued \$180,358 of interest due in fiscal year 2006, along with all principal as Intergovernmental Receivables at June 30, 2005.

6. Loans Receivable

Loans receivable of \$576,220 in nonmajor governmental funds represent the uncollected balance of community development loans.

7. Interfund Fund Receivables, Payables, and Transfers

The City maintains self-balancing funds; however, most cash transactions flow through the general fund. In order to obtain accountability for each fund, interfund receivable and payable accounts must be utilized. The amount payable to the general fund from Arena relates to cash flow hardship, and is not scheduled to be collected in the subsequent year. The following is an analysis of the June 30, 2005 balances in interfund receivable and payable accounts:

<u>Fund</u>	<u>Due From Other Funds</u>	<u>Due To Other Funds</u>	<u>Advance To Other Funds</u>	<u>Advance From Other Funds</u>
General Fund	\$ -	\$ 23,092,860	\$ 1,897,034	\$ -
Nonmajor Gov't'l Funds	14,218,132	1,856,572	-	-
Major Proprietary Funds:				
Enterprise Funds:				
Water	2,295,180	-	-	-
Sewer	6,219,240	-	-	-
Arena	16,275	-	-	1,897,034
DBIDA	-	63,031	-	-
Nonmajor Proprietary Funds:				
Internal Service Funds	885,319	-	-	-
Fiduciary Funds:				
Agency Funds	823,616	-	-	-
Private Purpose Funds	<u>554,701</u>	<u>-</u>	<u>-</u>	<u>-</u>
Total	\$ <u>25,012,463</u>	\$ <u>25,012,463</u>	\$ <u>1,897,034</u>	\$ <u>1,897,034</u>

Interfund transfers are used to move unrestricted general fund revenues to finance various programs that the City must account for in other funds in accordance with budgetary authorizations, including amounts provided as subsidies or matching funds for various grant programs.

The following is an analysis of interfund transfers:

<u>Transfer out</u>	<u>Transfer In</u>		
	<u>General Fund</u>	<u>Nonmajor Governmental Funds</u>	<u>Total</u>
General Fund	\$ -	\$ 676,085	\$ 676,085
Water Fund	6,500	-	6,500
Sewer Fund	<u>3,099</u>	<u>-</u>	<u>3,099</u>
Total	\$ <u>9,599</u>	\$ <u>676,085</u>	\$ <u>685,684</u>

8. Capital Assets

Capital asset activity for the year ended June 30, 2005 was as follows (in thousands):

	<u>Beginning Balance</u>	<u>Increases</u>	<u>Decreases</u>	<u>Ending Balance</u>
Governmental Activities:				
Capital assets, being depreciated:				
Buildings and improvements	\$ 58,356	\$ 4,907	\$ (123)	\$ 63,140

9. Accounts Payable

Accounts payable represents fiscal year 2005 invoices paid in the subsequent fiscal year.

10. Accrued Liabilities

Accrued liabilities in the general fund represents salaries earned but unpaid to City and School employees at year-end.

11. Deferred Revenue

Governmental funds report *deferred revenue* in connection with receivables for revenues that are not considered to be available to liquidate liabilities of the current period.

The balance of the General Fund deferred revenues account is equal to the sum of all delinquent taxes at June 30, 2005 less property and unredeemed tax collections for the subsequent 60 days.

12. Note Payable

The City had a \$400,000 bond anticipation note for the Dredge Spoils Cell outstanding at June 30, 2005, which was issued on June 15, 2005 with interest rate of 2.934% and maturity date of June 15, 2006. The following summarized activity in notes payable in fiscal year 2005:

	Balance Beginning of Year	New Issues	Maturities	Balance End of Year
Bond anticipation note	\$ <u>1,470,000</u>	\$ <u>400,000</u>	\$ <u>(1,470,000)</u>	\$ <u>400,000</u>

13. Long-Term Debt

A. Long-Term Debt Supporting Governmental Activities

General obligation bonds, issued by the City for various municipal projects, are approved by City Council and repaid with property taxes recorded in the General Fund. Compensated absences are repaid from the funds that the costs relate to, mostly general fund, and also water, sewer, arena, internal service, and other special revenue funds.

B. General Obligation Bonds

The City issues general obligation bonds to provide funds for the acquisition and construction of major capital facilities. General obligation bonds have been issued for both governmental and business-type activities.

The City has not issued any revenue bonds. The bonds reported in the business-type activities are repaid from business-type activities' revenues. General obligation bonds currently outstanding are as follows:

<u>Description</u>	<u>Original Issue Amount</u>	<u>Rate</u>	<u>Maturity Date</u>	<u>Balance</u>
Bonds Payable:				
Public improvements 1990	\$ 4,414,280	6.9325% (1)	01/15/06	\$ 270,000
Public improvements 1991	2,722,500	6.6354% (1)	08/15/06	290,000
WWTP-State guaranteed 1991	10,500,000	6.6983% (1)	07/15/11	3,675,000
WWTP-State guaranteed 1991	7,300,000	6.5746% (1)	01/15/12	2,555,000
WWTP-State guaranteed 1992	450,000	5.5966% (1)	01/15/12	150,000
Public improvements 1993	1,188,338	5.4153%	08/15/08	320,000
Public improvements 1994	3,043,000	5.6100% (1)	08/15/09	875,000
Public improvements 1995	3,356,711	5.3259% (1)	08/15/10	1,250,000
Public improvements 1996	3,885,092	5.6554% (1)	08/15/11	1,510,000
Energy conservation 1996	875,055	5.4059% (1)	01/15/12	267,430
Public improvements 1997	1,002,327	4.8400%	08/15/12	425,000
Public improvements 1999	4,137,500	4.1900%	01/15/13	2,205,000
Public improvements 1999	2,179,901	5.5100%	01/15/15	1,430,000
New Middle School 1999	15,741,027	5.5800%	01/15/20	10,037,122
Public improvements 2001	22,991,400	4.4506%	06/15/21	16,995,000
Public improvements 2002	2,240,600	4.2300%	06/15/22	1,810,000
Public improvements 2003	14,280,000	3.1668%	06/15/24	12,645,000
Public improvements 2004	9,816,000	4,1148%	06/15/25	9,745,000
Public improvements 2005	10,740,000	3.8405%	06/15/26	<u>10,740,000</u>
Total bonds payable				77,194,552
Other Long-Term Debt:				
State revolving loan - Tolend landfill	1,271,357	3.5625%	09/01/13	<u>762,814</u>
Total Long-Term Debt				<u>\$ 77,957,366</u>

(1) Refinanced, original NIC reflected.

C. Future Debt Service

The annual principal and interest payments to retire all general obligation long-term debt outstanding as of June 30, 2005 are as follows:

<u>Governmental</u>	<u>Principal</u>	<u>Interest</u>	<u>Total</u>
2006	\$ 4,486,607	\$ 2,045,848	\$ 6,532,455
2007	4,622,087	1,952,113	6,574,200
2008	4,383,838	1,850,133	6,233,971
2009	4,278,954	1,750,734	6,029,688
2010	4,101,359	1,656,711	5,758,070
2011 - 2015	17,324,257	7,123,854	24,448,111
2016 - 2020	9,808,834	5,660,425	15,469,259
2021 - 2025	2,700,000	355,450	3,055,450
2026 - 2030	<u>220,000</u>	<u>9,240</u>	<u>229,240</u>
Total	<u>\$ 51,925,936</u>	<u>\$ 22,404,508</u>	<u>\$ 74,330,444</u>

<u>Business-Type</u>	<u>Principal</u>	<u>Interest</u>	<u>Total</u>
2006	\$ 2,596,490	\$ 1,191,952	\$ 3,788,442
2007	2,476,490	1,063,705	3,540,195
2008	2,449,490	944,029	3,393,519
2009	2,424,490	824,137	3,248,627
2010	2,419,490	705,434	3,124,924
2011 - 2015	8,280,980	2,056,145	10,337,125
2016 - 2020	4,544,000	726,985	5,270,985
2021 - 2025	805,000	74,008	879,008
2026 - 2030	<u>35,000</u>	<u>1,470</u>	<u>36,470</u>
Total	\$ <u>26,031,430</u>	\$ <u>7,587,865</u>	\$ <u>33,619,295</u>

The City's proprietary fund future debt service is partially funded by the state, as described in Note 5. The governmental future debt service relating to school construction is partially funded by the New Hampshire Department of Education School Building Aid, which is annually appropriated by the state.

D. Bond Authorizations

Long-term debt authorizations which have not been issued or rescinded as of June 30, 2005 are as follows:

<u>Purpose</u>	<u>Date Authorized</u>	<u>Amount</u>
DBIDA road project	2002/2003	\$ 400,000
Public improvements 2004	2002/2003	2,500,000
City Hall heating system	2002/2003	129,000
Dredge waste well	2002/2003	400,000
Public improvements 2005	2003/2004	1,000,000
Public improvements 2006	2004/2005	4,093,000
Enterprise park buildings	2004/2005	<u>4,000,000</u>
Total		\$ <u>12,522,000</u>

E. Maximum Debt Limit

The City is subject to state law which limits debt outstanding to a percentage (depending on how funds will be used) of its last full state valuation. Debt incurred for state required sewerage systems is not subject to the limit. The following is a summary, by purpose, of the outstanding debt of the City at June 30, 2005 and related limitations. These limits are based on the tax year 2004 base valuations for debt limits of \$2,634,930,749 provided by the State Department of Revenue Administration.

<u>Purpose</u>	<u>Percent of State Assessed Value</u>	<u>Maximum Debt Limit</u>	<u>Applicable Bonds Outstanding at June 30, 2005</u>
Municipal	3%	\$ 79,047,922	\$ 30,306,430
School	7%	184,445,152	20,943,122
Water	10%	263,493,075	7,788,000
DBIDA	-	4,000,000 *	1,115,000
Not subject to limitation	-	-	<u>17,804,814</u>
Total			\$ <u>77,957,366</u>

* Debt limit is set by special legislation.

F. Changes in General Long-Term Liabilities

During the year ended June 30, 2005, the following changes occurred in long-term liabilities (in thousands):

	<u>Total Balance 7/1/04</u>	<u>Additions</u>	<u>Reductions</u>	<u>Total Balance 6/30/05</u>	<u>Current Portion</u>	<u>Equals Long-Term Portion 6/30/05</u>
<u>Governmental Activities</u>						
Claims liability	\$ 481	\$ 203	\$ (180)	\$ 504	\$ (240)	\$ 264
Bonds payable	47,626	8,520	(4,220)	51,926	(4,487)	47,439

14. Landfill Closure and Postclosure Care Costs

The City owned and operated a 55-acre landfill on Tolend Road from 1960 to 1979. On September 10, 1991, the Environmental Protection Agency issued a Record of Decision (ROD) on the closure of the site, including the City as a Potentially Responsible Party (PRP). The estimated cost of the original ROD for closure and post closure maintenance was \$34,612,296. The City's was responsible for 42.68% of the costs. The City negotiated its preliminary share at \$8,166,666 of the first \$20 million. Thirty-two PRPs made final settlement

on all costs related to the closure with EPA. Based on this information, the City established an estimated \$11,016,013 liability for its share of the capping and management of mitigation costs.

The City funded and paid its share of the capping design of \$1,257,357. The City also funded the ongoing project costs over the years with \$2,213,142 in transfers from operational funds, \$2,900,000 from bond authorizations (including \$500,000 from this bond) and \$1,237,229 from various sources including state aid, insurance proceeds and a payment from the Town of Madbury.

The City entered negotiations with the EPA and the State of New Hampshire Department of Environmental Services to implement an alternative to the closure capping. The new technique involves an air sparging trench along the down gradient edge of the landfill which will treat contaminated ground water. This alternative carries significant savings versus conventional capping. The City received approval for a pilot program to determine the effectiveness of this method. As a result, the City received a four-year deferral of the capping requirement from EPA.

An Amended Record of Decision (AROD) from EPA was issued on September 30, 2004 to accept the alternative closure method with an estimated cost of \$19,393,859, including post closure maintenance. The City's new liability is \$8,277,298 for the alternative closure method using the same cost sharing percentage. Of this total, \$6,773,688 relates to the closure and \$1,503,610 relates to post closure maintenance. The City has not signed the AROD.

The liability reflected at June 30, 2005 of \$13,809,960 relates to the original ROD for the capping and maintenance costs of the landfill. This is an increase of \$2,793,947 over the previous estimate and is reported as an extraordinary item. It is made up of the City's share of capping expenses and post-closure maintenance costs of \$14,809,960 less an estimated \$1,000,000 in in-kind gravel contribution.

15. Restricted Net Assets

The accompanying entity-wide financial statements report restricted net assets when external constraints from grantors or contributors are placed on net assets.

16. Reserves of Fund Equity

"Reserves" of fund equity are established to segregate fund balances which are either not available for expenditure in the future or are legally set aside for a specific future use.

The following types of reserves are reported at June 30, 2005:

Reserved for Encumbrances - An account used to segregate that portion of fund balance committed for expenditure of financial resources upon vendor performance.

Reserved for Advances - An account used to segregate a portion of fund balance to indicate that advances to other funds, although a component of assets, do not represent available spendable resources.

Reserved for Specific Purposes - Represents the amount of fund balance committed for debt service in subsequent years.

17. Commitments and Contingencies

Outstanding Lawsuits - There are several pending lawsuits in which the City is involved. The City's management is of the opinion that the potential future settlement of such claims would not materially affect its financial statements taken as a whole.

Grants - Amounts received or receivable from grantor agencies are subject to audit and adjustment by grantor agencies, principally the federal government. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. The amount of expenditures which may be disallowed by the grantor cannot be determined at this time, although the City expects such amounts, if any, to be immaterial.

18. Post-Employment Health Care

The City pays toward the cost of health care benefits for certain qualified retirees enrolled at the time of retirement and their eligible dependents (Retiree Group). The City will also pay toward the cost of health care benefits for certain current employees and eligible dependents upon retirement. Normal retirement age for Group I (City employees) is age 60 and for Group II (Police & Fire) is age 45 per the provisions of the New Hampshire Retirement System (NHRS).

Current retirees have their health care benefit cost paid by the City if they retired while enrolled in the City's Group Health Insurance Program and had a minimum of 20 years of continuous creditable service with the City. Current employees are eligible for City cost participation when they retire only if they meet the same enrollment and service criteria and were hired on or before May 30, 2000, depending on the bargaining unit.

Employees who retire from the City under the NHRS and participated in the City's Group Health Insurance Program at the time of retirement, but who are not eligible for any city retiree health care benefit cost coverage may also join

the Retiree Group. Coverage will continue for themselves and their eligible dependents at their own expense in accordance with state statute (NH RSA 100-A:50).

The retiree health care benefit cost to the City is lessened by subsidies received by retirees from the NHRS. Health care benefit costs are reduced significantly upon a retiree or their dependents attaining the age of 65, at which time they become eligible for Medicare and are changed to a Medicare supplement plan.

During fiscal years 2005 and 2004, the total Retiree Group health care benefit costs were as follows:

	<u>2005</u>	<u>2004</u>
Total Retiree health care costs	\$ 846,600	\$ 752,962
Less: NHRS subsidies and retiree health withholding	476,552	438,898
Less: Self pay by retirees	<u>35,801</u>	<u>37,521</u>
Net Retiree Health Cost to City	<u>\$ 334,247</u>	<u>\$ 276,543</u>

As of June 30, 2005 and 2004, there were 49 retirees in the Retiree Group that the net health care benefit costs are paid by the City and 9 retirees that paid their own health care benefit costs through the City.

19. Self-Insurance

The City is a self-insurer of workers' compensation for all City employees, contracting with an insurance carrier for excess liability coverage. Under the terms of its insurance coverage, the City is liable for \$400,000 per incident. The insurer's limit of liability is \$3,000,000. The City does not carry any aggregate insurance. Funding of the workers' compensation internal service fund is through charges levied to the general, special revenue and enterprise funds.

Claims Liability

The following represents changes in the Workers' Compensation Claims Liability:

	<u>Year Ended June 30, 2005</u>	<u>Year Ended June 30, 2004</u>
Unpaid claims, beginning of fiscal year	\$ 480,580	\$ 390,372
Claims incurred (including IBNRs)	203,664	413,433
Claims paid	<u>(179,902)</u>	<u>(323,225)</u>
Unpaid claims, end of fiscal year	<u>\$ 504,342</u>	<u>\$ 480,580</u>

The City adopted a policy to maintain 100% funding for an actuarially determined claims liability based on a 65% confidence level. Out of \$504,342 claims liability as of June 30, 2005, \$240,000 is due within one year.

20. Risk Management

The government is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; errors and omissions; and natural disasters for which the government carries commercial insurance. There were no significant reductions in insurance coverage from the previous year and have been no material settlements in excess of coverage in any of the past three fiscal years.

21. Pension Plan

The City follows the provisions of GASB Statement No. 27, *Accounting for Pensions for State and Local Government Employees*, with respect to the employees' retirement funds.

A. Plan Description

The City contributes to the New Hampshire Retirement System (the "System"), a cost-sharing, multiple-employer defined benefit pension plan administered by the state retirement board. The System provides retirement, disability and death benefits to plan members and beneficiaries. Revised Statutes Annotated 100-A41-a of New Hampshire Law assigns the system the authority to establish and amend benefit provisions of the plan and grant cost-of-living increases. The System issues a publicly available financial report which can be obtained through the New Hampshire Retirement System at 4 Chenell Drive, Concord, New Hampshire 03301-8509.

B. Funding Policy

Plan members are required to contribute between 5% and 9.30% of annual covered compensation to the pension plan which is statutory-determined. The City makes annual contributions to the pension plan equal to the amount required by Revised Statutes Annotated 100-A: 16, and range from 2.64% to 13.44% of covered compensation. The System establishes the employers' contributory rate every two years.

Contributions to the System were as follows:

<u>Year Ended</u>	<u>The City</u>	<u>Plan Members</u>	<u>Total</u>
2005	\$ 1,713,819	\$ 1,919,101	\$ 3,632,920
2004	1,655,035	1,865,872	3,520,907
2003	1,133,880	1,786,910	2,920,790
2002	1,020,217	1,609,822	2,630,039
2001	972,117	1,502,795	2,474,912

22. Beginning Net Assets Restatement

The beginning (July 1, 2004) net assets on government-wide financial statements have been restated as follows:

	<u>Governmental Activities</u>
As previously reported	\$ 50,461,413
School capital assets adjustment	<u>(4,108,303)</u>
As restated	<u>\$ 46,353,110</u>

Combining Financial Statements

Nonmajor Governmental Funds

SPECIAL REVENUE FUNDS

Special Revenue Funds are established to account for resources obtained and expended for specified purposes and restricted by law or local action.

Special Revenue Funds are established for the following purposes:

- Community Development Fund - To account for grant proceeds received from the U.S. Dept. of Housing and Urban Development under the Community Development Block Grant (CDBG) program and the related program and sub-grant expenditures.
- Housing Rehabilitation Loan Fund - To account for loans given to low and moderate income individuals for the purpose of improving their private dwellings.
- Economic Development Loan Fund - To account for loans given to small business for the purpose of business establishment or expansion.
- Police DOJ Fund - To account for grant proceeds from the U.S. Dept. of Justice for various drug and alcohol awareness and prevention programs.
- Homeland Security Fund - To account for grant proceeds from the U.S. Dept. of Homeland Security for equipment purchases.
- Police DHA Fund - To account for funds received from the Dover Housing Authority for payment toward funding a Police Office presence at their housing area.
- Police DOT Fund - To account for grant proceeds from the U.S. Dept. of Transportation for various driving safety programs.
- Police Tobacco Fund - To account for grant proceeds for various tobacco awareness and prevention programs.
- Emergency Management Fund - To account for grant proceeds from the U.S. Federal Emergency Management Agency for preparation for major disasters.
- DOI Fund - To account for grant proceeds from the U.S. Dept. of Interior for various programs.
- EPA Fund - To account for grant proceeds from the U.S. Environmental Protection Agency for various programs.

- Youth Training Fund - To account for grant proceeds for various youth job training programs.
- School Cafeteria Fund - To account for cafeteria operations of the Dover School system, including reimbursement from the U.S. Dept. of Education and receipt of U.S. Dept. of Agriculture food commodities.
- School Federal Aid Fund - To account for grants received from the U.S. Dept. of Education for various programs supporting School operations.
- School Special Programs Fund - To account for Healthy Universal Beginnings program and ancillary education programs supported by the Dover School system and funded mainly by non-federal grants.
- Dover Main Street Fund - To account for the expenditures related to the Main Street Program, reimbursed by Dover Main Street, Inc.
- Planning Improvements Fund - To account for the funds received pursuant to Planning Board conditions for approval and held for related offsite improvements or other expenditures.
- Parking Activity Fund - To account for revenues of all parking lots, leased parking spaces and metered parking and expenditures of enforcement, lighting and snow removal.
- Police Special Fund - To account for forfeiture proceeds and special investigative expenditures.
- Conservation Fund - To account for the proceeds of current use (land change) penalties and the purchase of land or easements for conservation purposes.
- Residential Solid Waste Fund - To account for revenue from the sale of garbage bags and waste tags to local outlets for resale to the public and the expenditures of residential solid waste pickup and disposal.
- McConnell Center Fund - To account for the operations and maintenance of the McConnell Center facility and revenues from the leasing of space to 501(c)3 organization and City and State organizations.
- Recreation Programs Fund - To account for the revenue and expenditures of self-supporting recreational programs.
- Recreation Field Maintenance Fund - To account for 10% of the proceeds of the sale of the City gravel for use to maintain recreation fields.
- Library Fines Fund - To account for revenue assessed on late return of books for use to purchase books, periodicals, etc. for the Public Library.

- Tuition Programs Fund - To account for the revenue and expenditures for Dover School supported Dover Adult Learning Center and Summer Sessions.
- Vocational Center Fund - To account for revenues and expenditures of minor programs of the Dover High School's Regional Vocational Education Center.
- School Alternative Education Fund - To account for the revenues and expenditures of the Alternative Education Center of the Dover High School.
- School Facilities Fund - To account for gate receipts used toward the cost of facility maintenance and upgrades.
- Other Special Revenue Funds - To account for revenues and expenditures associated with various special revenue funds, formally classified as trusts under the "Pre-GASB 34" reporting model.

CAPITAL PROJECT FUNDS

- CIP FY06 - To account for the revenue from bond and loan proceeds, capital reserve transfers and federal and state grant funding and the related expenditures for authorized projects contained within Fiscal Year 2006 of the Capital Improvements Program.
- CIP FY05 - To account for the revenue from bond and loan proceeds, capital reserve transfers and federal and state grant funding and the related expenditures for authorized projects contained within Fiscal Year 2005 of the Capital Improvements Program.
- CIP FY04 - To account for the revenue from bond and loan proceeds, capital reserve transfers and federal and state grant funding and the related expenditures for authorized projects contained within Fiscal Year 2004 of the Capital Improvements Program.
- CIP FY03 - To account for the revenue from bond and loan proceeds, capital reserve transfers and federal and state grant funding and the related expenditures for authorized projects contained within Fiscal Year 2003 of the Capital Improvements Program.
- CIP FY02 - To account for the revenue from bond and loan proceeds, capital reserve transfers and federal and state grant funding and the related expenditures for authorized projects contained within Fiscal Year 2002 of the Capital Improvements Program.

- CIP FY01 - To account for the revenue from bond and loan proceeds, capital reserve transfers and federal and state grant funding and the related expenditures for authorized projects contained within Fiscal Year 2001 of the Capital Improvements Program.
- CIP FY00 - To account for the revenue from bond and loan proceeds, capital reserve transfers and federal and state grant funding and the related expenditures for authorized projects contained within Fiscal Year 2000 of the Capital Improvements Program.
- Tolend Road Landfill Closure - To account for the revenue from bond and loan proceeds, insurance proceeds, and federal and state grant funding and the related expenditures for the design and construction costs of the closure of a landfill containing hazardous waste.
- Cocheco River Dredge - To account for the revenue from bond anticipation note proceeds and revenue from the placement of dredge spoils and the related expenditures for the design, construction and closure costs of a dredge spoils cell for the Cocheco River.
- Recreation Field Construction - To account for the revenue from the sale of gravel and the related expenditures for authorized recreation or other qualified projects.

**Detail and Combining Budget
and Actual Schedules**

General Fund

The general fund is established to account for all resources obtained and used for those services commonly provided by the City which are not accounted for in any other fund. These services include, among other items: General government, public safety, public works, culture and recreation, education, human services, inter-governmental and debt service. The primary sources of revenue of the general fund are property taxes, unrestricted state revenue sharing grants, certain restricted grants, and fees for services rendered.

Enterprise Funds

Enterprise Funds were established to account for activities that are financed and operated in a manner similar to private business enterprises, where the intent of the governing body is that the activity be self-supporting based on user charges.

The City of Dover has the following Enterprise Funds:

Water Fund: To account for the operation of a water treatment plant, City wells and water system.

Sewer Fund: To account for the operation of a sewer treatment plant, pumping station and sewer lines.

Arena Fund: To account for the operations of the Dover Ice Arena.

DBIDA Fund: To account for the economic development projects of the Dover Industrial Development Authority (DBIDA), which operates under RSA 162-G. No annual budget is adopted for the DBIDA Fund.

Fiduciary Funds

Fiduciary Funds account for assets held by the City in a trustee capacity or as an agent for individuals, private organizations, other governments, and other funds.

Agency Funds:

- **Performance Bonds:** To account for funds received from contractors doing work for the City to insure the City against the contractor's failure to complete the required.
- **Chamber of Commerce:** To account for funds received from Chamber of Commerce for its Riverwalk Project.
- **Department Agency:** To account for funds received from other organizations for activities administered by various City departments.
- **School Agency:** To account for funds received from other organizations for activities administered by the Dover School Department.

Private Purpose Funds:

- **Cemetery** - To account for private donations left in trust to maintain graves and provide flowers.
- **Parks and Recreation** - To account for private donations left in trust to assist individuals attending various recreational programs.
- **Welfare** - To account for private donations left in trust for the benefit of low or moderate income individuals.
- **School** - To account for private donations left in trust mainly for the benefit of providing scholarships to high school graduates.

Audited Financial Statements

Beginning in Fiscal Year 2003 Special Revenue Funds include funds which were previously considered Trust Funds under the Pre GASB 34 reporting model.

Notes:

- (1) This reserve is for the cash advance to the Arena Fund.
- (2) Appropriations for capital assets financed through the General Fund have a 3 year life or until the purpose is met.

Data Source:

NH State Department of Revenue Administration

Notes:

- (1) Reflects the decrease to the City rate as a result of the City Council voting to use a portion of Fund Balance to finance the budget. This is calculated by the City of Dover for informational purposes.
- (2) Debt service is included in the City and Local School rates.
- (3) The NH State Legislature revised Education funding in Fiscal Year 2000, establishing a State Education Property Tax. Although warranted by the state, the taxes are collected by the City and spent for local school purposes. This rate does not apply to utility assessments. Utilities are billed directly by the State of NH.

City of Dover, New Hampshire

Data Source:

City of Dover Budget and Budget Resolutions

Notes:

- (1) Amount to be raised by rate equals the net budget, i.e., appropriations less other revenue sources.
- (2) Billable Volume is the estimated billable water consumption in hundred cubic feet units (HCF).
- (3) Sewer charges are based on the amount of water consumed.
- (4) One hundred cubic feet (HCF) equals 748 gallons.
