July 13, 1928.
REPORT OF SUPERINTENDENT OF SCHOOLS.

To the School Board:

I present the annual report.

In a general way, the administration of the school affairs has progressed favorably.

Teachers.

I am quite strongly of the opinion that technically trained teachers do better work than those who lack this training. I am also well aware that experience counts as well. In order to obtain and retain the services of trained and experienced teachers, the salaries must be adequate. I hope that the policy along this line adopted by your Board may be continued.

Graduates.

It is notable that a considerable proportion of our graduates seek higher educational opportunities. I believe that we should not cease to encourage all our graduates to do this.

Health Supervision.

Your Board has taken a great step forward in employing a school nurse to care for this important part of our work. I anticipate that the results will be thoroughly beneficial to the children. I hope for generous co-operation from their parents.

School Attendance.

It is safe to say that several of our families are not thoroughly familiar with the Attendance Law. Hence they are inclined to detain at home rather frequently children to care for the home, help in farm work, etc. I have personally dealt with several such cases, with satisfactory results. The scholastic progress of the children depends directly upon regular attendance at school.

I appreciate cordial co-operation from members of your board.

Respectfully,

FRANK C. THOMPSON,
Supt. of Schools.
