RAOUL TURMELLE,
Clerk

CITY SOLICITOR

To the Mayor and City Council:

Gentlemen:

I herewith submit my report as City Solicitor for the year 1955.

This year has brought an increase of activity in the office of the City Solicitor in the matter of civil litigation, municipal court prosecution and investigations and referrals of legal questions by the various City departments.

The civil action brought by the City of Somersworth against the Estate of Sarah Rollins was concluded after six years of litigation with very favorable results. The suits by the County of Strafford against the City of Somersworth are still pending and should be heard in 1956. Action was instituted against the City of Somersworth by Charles Cutter and Stephen Cutter for damages allegedly arising from a falling chimney located at the Chandler Building.

Numerous ordinances were drafted and accepted by the City Council and the usual number of legal questions from the various departments were received and acted upon.

Respectfully submitted,

LEO H. CATER,
City Solicitor

FOREST GLADE CEMETERY

To His Honor, the Mayor, and Members of the City Council:

Gentlemen:

Herewith we submit a report of the affairs of Forest Glade Cemetery for the year ending December 31, 1955, as made up by the Clerk:

We certify that we have examined the books of the Trustees of the Trust Fund for the city of Somersworth, January 31, 1955, and found them correct.

HAYWARD C. LOGAN,
M. C. O'CONNELL,
Auditors,
City of Somersworth.

PUBLIC LIBRARY

January 1, 1956

To the Trustees of the Somersworth Public Library:

Gentlemen:

My report as Librarian for the past year is herewith presented.

The closing of 1955 terminated a successful year's work for this library, although there were no important innovations in the schedule.

The circulation of books is an essential feature of library work and it is satisfactory to state that records show 18,142 books were borrowed for home reading; considering that the same number were returned, it means over 36,000 volumes were taken care of at the charging desk.

Adult books loaned numbered 10,574 (4577 non-fiction and 5,997 fiction).

Juvenile books loaned numbered 7,568 (2946 non-fiction and 4,622 fiction).

The number of new books accessioned was 667. These books were carefully selected, from more than 9,000 published, to satisfy the diversified requests of our patrons.

Some of the most important reference books purchased were:

Compton's Pictured Encyclopedia, 15 volumes;

Grove's Dictionary of Music and Musicians, 9 volumes;

Childcraft, 15 volumes;

New Hampshire Revised Statutes, 1955, 6 volumes.

Forty-two magazines were received by subscription and many more were donated by publishers and friends of the library.

Number of volumes in library, January 1, 1955	22,577
Number of volumes added during the year	667
	<hr/>
	23,244
Number of volumes withdrawn from record	30
	<hr/>
Number of volumes in library, January 1, 1956	23,164

The shelves installed upstairs somewhat relieve the crowded condition of the stacks in the main room.

Ten years have elapsed since the library was renovated.

You will notice that the entire room and hall need attention in this regard.

I would like to take this opportunity to express appreciation of your cooperation throughout the year.

Respectfully submitted,

LEONA H. SAVITHES,
Librarian.

Students at work in the library of the new high school.

REPORT OF TRUSTEES OF THE SOMERSWORTH PUBLIC LIBRARY

April 3, 1956

To His Honor, the Mayor, and Members of the City Council:

Gentlemen:

In submitting our report for the year 1955, we wish to call your attention to the Librarian's report. We feel that working on a very limited budget, our librarian has done an excellent job both as to the selection and the number of books added during the year. We are also very grateful to her for the interest she has shown in attempting to improve the atmosphere of the reading rooms. However, there is a limit to the extent one may go to cover obvious defects.

According to the report of the Librarian, ten years have elapsed since the library was renovated. In our last report, we elaborated on the needs of the library and asked that some attention be given to the hallway, the walls and ceiling of the interior, and the lights. In this modern age there is no real reason why patrons should be asked to read under the obsolescent lamps now in use. The eyes are an important part of the body and since light, good light, is necessary for them to function properly, we feel that the only remedy for the existing unfavorable condition is the immediate installation of fluorescent lamps. With the ceiling, walls and book stalls newly painted and the new lamps installed, your trustees, patrons of the library, and the citizens of our city would have something to which we could point with pride. We must never lose sight of the fact that a library is just as essential to the progress of a city as are its schools. We sincerely hope that these most necessary improvements will be made this year.

We, the Trustees, express our deepest appreciation for the cooperation you have given us in the past and for whatever assistance you may give during the coming year.

HENRY P. MULLEN, Chairman,
MISS CELOPIE SEMITROS,
ROLAND JENKINS,
MAX ISACOFF,
GERARD GAUDREAU,
Trustees.

REPORT OF BOARD OF HEALTH

To His Honor, the Mayor and City Council:

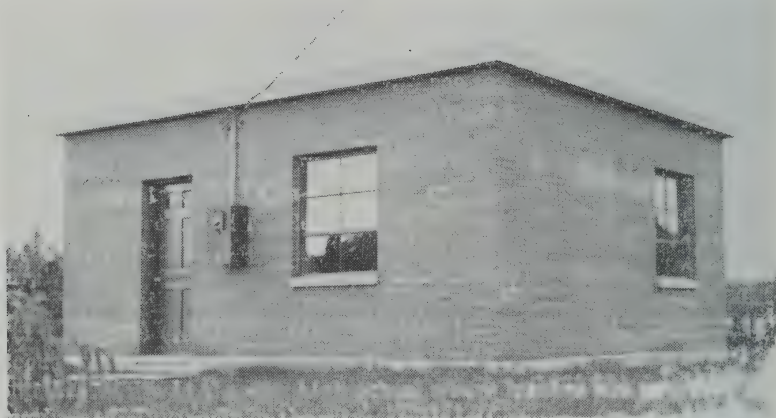

Gentlemen:

I hereby submit my annual report for the fiscal year ending December 31, 1955.

Still Alarms	35
Box Alarms	14
Mutual Aid Calls	17
Total Alarms	122

Respectively submitted,

ALBERT M. LESSARD
Chief

Students learn the art of homemaking or prepare for careers in Home Economics with facilities which are part of the new Somersworth High School.

STREET COMMISSIONER'S REPORT

To His Honor, the Mayor and City Council:

I herewith submit my report for the fiscal year ending December 31, 1955. A summary of the work completed the past year are as follows:

Oiling of Streets: The following streets that were graveled to final grade and treated with one coat of Tarvia and sealed with a coat of Asphalt are Wilson, Joyce, Drew, Laurier, Cote, Giroux, part of Davis, Alicia Ave., Wiggins Court, Sunset Drive and James Sts.

Streets that had been previously tarred and were retreated are Brick, Second, Third, Burke, Depot, Chesley Ave., Lee, Indigo Hill Rd., (Green to New Dam), Downs, Pine, School, Ford, Spring, Summer, Water, Union, Kings Lane, Central, Mt. Auburn, Tremont, Green, Orange, W. Green, Pleasant, Elm, Main (Franklin to Bennett), Lemelin Court, Edmund, Daniel, Bennett, Patricia, Washington, Fremont, Garden, Myrtle, Chandler School Yard, Green and Freight House Yard.

In addition to this the State under the T. R. A. program oiled part of Winter St., Indigo Hill Road, Blackwater Rd., and all of Buf-fumsville Road.

This report indicates that the oiling program for 1955 was quite extensive as we applied 31,000 gals. of Asphalt and 9,000 gals. of Tarvia.

Sidewalks: The Sidewalks Program consisted of Cement walk 58 ft. long front of Fire Station. Main St. from Indigo to Bennett St. 1,030 ft. long. Depot St. from Main St. to Second St. 1,160 ft. long. Hamilton St. both sides 915 ft. long.

We also topped the front of the Fire Station addition as well as many small patchings and repairing.

Playgrounds: As for the work done on Playgrounds, we made a new Little League Field to the rear of the Greek Cemetery on property owned by Councilman Fournier.

We also had to move the Football field from its former site to the Noble Pines Field. We kept all Ball Fields and Parks mowed at all times.

Rubbish Collections: This phase of our work has increased greatly due to the added homes and Streets that have been developed in the last few years. In 1954 the crew picked up 1,311 loads and in the year 1955, they picked 1,505 loads which is approximately 16% increase. This phase of our work now consumes a full 9-hour day.

New High School Project: We hauled thousands of yards of fill on the site of the new High School which in time will be the Athletic Field and also a great deal of loam from the Kelwyn Park area to the High school site which will also be used for the Athletic Field and the lawn of the new school.

As for the Winter Sand we screened and stock piled over 2,200 yards of Sand.

As for purchases of equipment we got: an Alemite Air Grease Unit; Electric Welding Unit; Motor (Walters Snow Fighter); Chevrolet (2-ton truck w/body).

The Cost of Operating Expense are as follows:

Freight	\$ 43.37	Hurricane Repairs	36.89
Gasoline	4,615.93	Salt	846.32
Motor Oil	303.98	Patching	79.60
Electricity	246.94	Tires & Tubes	1,722.32
Telephone	311.46	Equipment	296.50
Fuel Oil	1,151.05	Water	25.20
Repairs	290.99	Signs	152.94
Parts	4,133.57	Culvert	44.30
Supplies	2,550.92		
Sewer	112.40		\$ 18,310.76
Insurance	659.56	Tarring - Oiling	\$7,052.73
Misc. Paid Out	686.65	Sidewalks	2,533.88
		Bridge Repair	127.80

This is a brief resume of the work that was done in 1955 in addition to our many and varied duties such as graveling of roads, cleaning and maintaining Catch Basins and Sewers and Sweeping Sts. Plowing, Sanding and Salting Streets, Putting up Street Signs, Lining Streets, etc. .

In closing I wish to express my thanks to the Mayor, Members of the City Council and Citizens of Somersworth for their assistance

Respectively submitted,

OMER T. DeROY
Street Commissioner

PLAYGROUND REPORT

To the Honorable Mayor and Playground Commission:

My report for the 1955 playground season is as follows:

The members of the playground staff, Mrs. Lou Hamel, Miss Naomie Diamond, Mr. William Elwell, Mr. Raymond Plant, and I feel that the youth of Somersworth were well cared for this past summer. From the middle of June until the end of August supervised activities and play areas were open from nine in the morning until nine in the evening. All age groups were considered in our program with planned activity for any and all persons who wished to participate.

Youngsters from the ages of five to fourteen naturally received the greatest attention. Over six hundred children registered with the staff and we estimate that another two or three hundred availed themselves of the playground without registering. Insofar as numbers are concerned it was a banner year for the playground area.

Baseball for the boys continued to be the big attraction with six teams of fourteen boys each organized into a midget league. In addition a four team league was also organized of boys between the ages of ten and fourteen. Two and often three games a day were played throughout the summer. In addition the staff acted in an organizational capacity for the Bigger Little League here in Somersworth.

This year a special morning program for the girls was instituted which included puzzles, sewing, dolls, cutouts, lacing, knitting, coloring, drawing and hobbies. This phase was under the direction of Mrs. Hamel and Miss Diamond; it was a very satisfactory addition to our overall program.

Other daily activities included tennis, ping pong, horseshoe, bat ball, basketball, badminton, football, softball, checkers, shuffleboard and volleyball. Special weekly features were held such as pet shows, art contests, poster contests, talent shows, pie eating contests, hikes, picnics, tournaments in field and track, tournaments in three age groups in basketball, tennis, ping pong, badminton, horseshoe, baseball, and checkers.

This year the annual baseball trip to Fenway Park was cancelled due to the polio epidemic in Boston. In place of this trip every child was given the opportunity to go on an all day beach trip to Ogunquit Beach. Over one hundred and sixty boys and girls made this trip to the beach. Other outside trips were made to Durham, Berwick and Dover for sport competition with other playgrounds. Over-

night trips were made to Blue Jobe Mountain and the beach for the boys.

The climax to the summer came on August 26th when the closing day activities were held. This year cake, ice cream and soft drinks were served to over five hundred children. Field and track events as well as a championship midget league baseball game were witnessed by well over one hundred persons. The expense for this program was borne by the Park Commission budget and the City as it should be.

Following are several recommendations which I believe are necessary in order that we continue to expand and improve the caliber of our City Playground and recreational facilities.

1. A new comfort station is absolutely necessary — the present one is totally inadequate and has reached a point of almost complete deterioration.

2. A new office and supply storage building is also necessary — the present building is in sad state — the ideal solution to the above two recommendations would be one building in which staff, supply and comfort areas would all be concentrated under one roof. This would give the advantage of having one building to care for and a central location for all equipment.

3. New basketball backboards and stands or frames are needed as the present set is broken.

4. Additional swings and new chains are needed as well as two new swing supports which were broken in past hurricanes.

5. The fence enclosing the baseball field is in need of repair due to erosion of the fill around some fence posts.

6. New tennis court nets — the present steel ones are too heavy for the supporting posts and are damaging the courts. I feel that rope nets replaced every two years will be easier to handle and the cost will be the same as the present nets, which are replaced every five or six years.

7. Wire fence around the tennis courts will have to be replaced in spots and repaired in others; this should not be a big item. Additional work should be done to prevent further erosion at the edges of the tennis courts which will in time cause the courts to be eaten away.

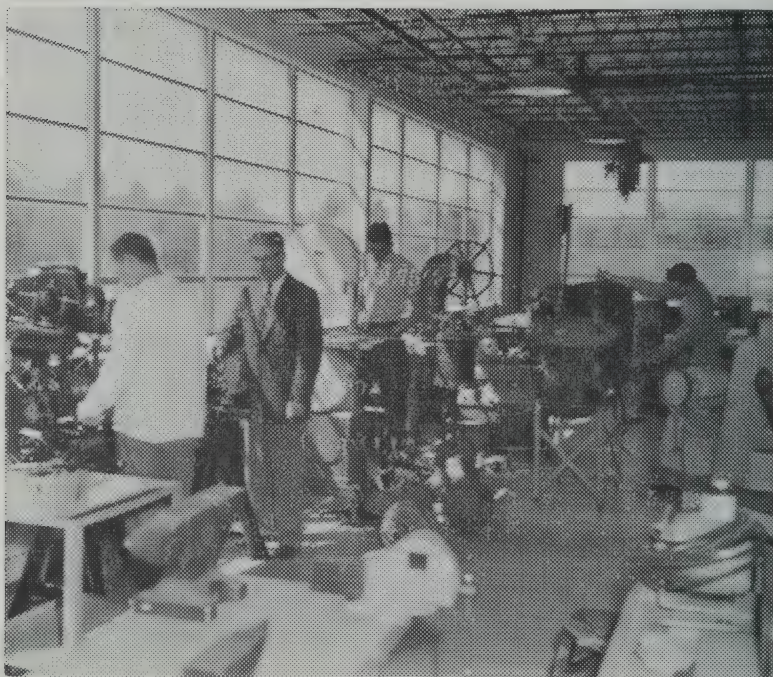

8. Last of all consideration should be given to the bleacher seats in back of the nets behind home plate. The planks are in need of replacement. In the future the wall behind home plate should be ex-

tended towards first and third base to cut down erosion that at present is not too serious.

I wish to take this opportunity to thank all those who made our program a success this past summer. I especially want to thank the staff, the merchants who provided uniforms for the midget league, your Honor, and members of the Park Commission.

Respectively submitted,

ROBERT L. BRUNELLE
Director

Students at work in the machine shop of the new high school.

CITY TREASURER'S REPORT

City Treasurer

Report of the Auditors for the Year Ending December 31, 1955

To the Honorable Mayor and City Council:

We herewith submit our report as auditors for the year ending December 31, 1955.

We certify that we have examined the books and vouchers of the City Clerk and City Treasurer. We find the accounts to agree with orders drawn on the Treasurer, and accounts correctly cast.

We have examined the books of the Tax Collector, Water Department, Superintendent of Forest Glade Cemetery, City Messenger, the Clerk of the Municipal Court, the Trustee of Trust Funds and find all accounts correctly cast and properly vouchered.

We thank the heads of all departments for their cooperation in assisting us in every way possible.

Report of Superintendent of Schools

SUPERINTENDENT'S ANNUAL REPORT SCHOOL YEAR 1954-55

To the Honorable Mayor and Members of the School Board:

I submit herewith my annual report as superintendent of your school system.

The past year will be remembered in the history of Somersworth as the year when positive action was taken by the School Board and the City Council in eliminating the extremely inadequate physical facilities which existed for so many years in our school system. An appropriation of \$450,000. was voted to construct and equip a new high school building. This sum of money will necessitate shrewd planning, budgeting, and careful selection of materials in order to construct a school building which will not lack in the necessary space and equipment. Communities throughout the state who are faced with the same building problems are watching us carefully to see if it can be done. The building committee feels sure that it can be done, and all contracts which have been awarded at the time of this report, have all been within the budget. The new building should be ready for occupancy about January 1, 1956. This should solve our housing problems for many years to come. When you figure that the average life of a school building is 60 years the cost to the city is \$7,500. annually. It is common knowledge that if construction had begun two years ago the total cost would have been considerably less.

The cost of education to the citizens of Somersworth remains extremely low as compared to the average cost in the state or to communities of equal size. We are about \$100 lower per pupil than the average of the state although we have one of the highest adjusted valuations per pupils. Our school tax rate per \$1000. of assessed valuation remains the lowest in south-eastern New Hampshire. Our net school budget has increased only by \$5,732. or 4.7% in the past three years. This has been held to a minimum in spite of major repairs to school buildings, the addition of three additional teachers due to increased enrollment, and increased services in transportation and in the Hot Lunch Program. A study of the budget for the present year as printed in succeeding pages will show where the money goes.

We continue to receive more than we pay for in the matter of teacher services. On the one hand, we have outstanding teachers with many years of successful experience; while on the other hand we lag behind in paying for their services. When we compare our aver-

age teacher salaries with those of the state or with schools of approximately equal enrollment we definitely are lower. If this continues it is the children who will lose out. Low salaries result in low morale, lack of incentive, loss of interest in professional improvement, and a constant turn-over of teachers. Teachers will come to Somersworth to gain one or two years of experience, and then move on to better paying positions. As your elementary principal points out—last year we had a turnover of over 50%. If industry experienced that much of a turn-over it would go bankrupt very quickly. As it stands now we cannot attract experienced teachers to our community. We have been fortunate in retaining a good core of teachers who have made their homes here. Because they have preferred living in our city they are being penalized financially. They are recognized as masters in their profession and have remained up to date in their teaching methods and materials. Nearly every year they spend additional money and time to take advanced educational courses so as to be able to offer the best to our children. A glance at the number of courses which our teachers completed during the past year will show that their professional self-improvement is of the best.

The school department again spent within its budget and finished the fiscal year with a balance of over \$1000. This was accomplished in spite of some unexpected expenditures. For example, when we submitted a budget we could not foresee the hurricane damage, some unexpected breakdowns of the heating and electrical systems, etc. We did plan on annual maintenance and repairs in order to keep our buildings in good working order. At the high school we completely renovated three classrooms, waterproofed certain outside walls, bought some maintenance equipment, and kept our instructional equipment up to date. In the grade schools we made some plumbing and electrical repairs, created and equipped an additional classroom, eliminated as many fire hazards as possible at the Burleigh School, and organized our classes so that we would need a minimum of classrooms and teachers.

A study of the census shows that the number of children between the ages of one and eighteen increased from 2547 to 2712 or a net gain of 163. The number of children attending parochial schools in our city and out of the city is actually larger than the number who attend the public schools. Needless to say, that if we were suddenly forced to house all of the city's children in our public schools, we could not do it. We enjoy very close cooperation with the administrators and teachers of the parochial schools at the present time. Some of the services we offer to the parochial schools include transportation, health, music, hot lunch, and recreational facilities.

The achievement of our pupils and of our graduates continues to be outstanding. An ever-increasing number go on to college and skilled professions and trades. They continue to win many academic and athletic honors in state and nation-wide competition. We enjoy excellent cooperation with local businesses and industries in placing our graduates. Our pupils and teachers participate in many civic projects for the betterment of our community. We are forever dedicated to giving our children an equal opportunity for a sound education and with your continued cooperation in solving our problems, we feel sure that we will continue to be successful.

Respectively submitted,

ARTHUR E. TOLL

Superintendent of Schools
