LIBRARIAN'S REPORT — 1951

About 40 books have been added to the library. Some 35 books, out-dated and worn out, have been discarded.

The Bookmobile has been coming once in two or three months, and is well patronized by the schools, Wednesday being the school children's day to come for an exchange of books. I am told that this year we are to have more adult books. For the past year, owing

to lack of funds, they have been bringing only juvenile books.

John Dolliver did a good job building new shelves and we are enjoying the extra storage space.

We have turned in \$8.00 in fines.

REPORT OF SUPERINTENDENT

To the School Board and Citizens of Lyndeborough:

I respectfully submit my fifth annual report as your Superintendent of Schools:

Instruction:

Your teachers, Mrs. Adelaide Herrick and Mrs. Alice Smith are continuing to maintain high standards of instruction in your school. Methods of instruction are being kept up to date with emphasis being placed upon the individual learning abilities of each child.

The Guidance Program initiated last year, provides each child with a folder in which a record of his achievement test results, difficulties, etc., are kept. These records reveal the mental and physical growth of each child and direct the teaching activities in the path which will be most profitable to the child.

A complete testing program is given to all pupils in grades one through six. In grade one each child receives a Metropolitan Reading Readiness Test which measures the maturity of the individual and reveals to the teacher the probable groupings necessary to carry on efficient instruction. They also are given the S. R. A. Primary Mental Abilities Test which indicates the innate ability of the child to succeed in school work. These tests are given also to grades three and six. All grades are given a Metropolitan Achievement Test in May. An analysis of the results of these tests reveals to the teachers the strengths and weaknesses of individuals and also of the educational program. Throughout the year standardized tests in reading are given as the pupils complete various phases of the reading program. Of particular importance are the Weekly Reader Tests given in October, January, and May. These measure the growth in reading ability in these periods. All results are recorded on a Cumulative Record Card which accompanies the pupil as he moves from grade to grade.

We are continuing the use of audio-visual aids to stimulate learning. In addition to the sound-film projector that was obtained through the cooperative efforts of local organizations, parents, teachers and children, we have procured a film-strip projector and one film-strip library. Children are shown graphically how various principles and processes grow out of the needs of daily life. Their attention is captivated and their understanding ensured by experiences drawn from familiar situations.

All teachers in Supervisory Union No. 63 attended a two-day Workshop in Wilton, New Hampshire. The theme of the Workshop was "Improving the Techniques of Teaching with Audio-Visual Aids." These aids train the child to learn by seeing, listening, speaking and doing. Experience has shown that they are an invaluable aid to the child who has a reading difficulty.

Some consideration should be given to provide our children with a more adequate music program. This would necessitate employing a Music supervisor. The estimated cost for this service is approximately \$250. Our school children are the only ones in the Supervisory Union who do not have the benefit of such instruction. This shows up especially when our children move on to other schools and compete with those who have had the benefit of such instruction.

Health Supervision:

Details of the health program are revealed in the Report of the School Nurse. Each child receives each year, a vision test and an auditory test. No physical examinations are given. Lyndeborough is the only school in Supervisory Union No. 63 which does not provide this service. Article 9 calls your attention to this service.

Certain communicable diseases are difficult to control once they get started. Every effort is made to ob-

tain professional advice to guide the actions of the school officials.

School Lunch Program:

Mrs. Harry Holt, assisted by Mrs. William Shinn, continues to operate an excellent school lunch program. It has been especially difficult this year to finance our program on a "pay-as-you-go" basis since the Federal Reimbursement has been reduced from 9c to 6c and surplus government foods have been decidedly curtailed. However, due to efficient management and splendid material help from the many friends of the school, we have been able to finance a Class "A" Lunch Program.

Transportation:

The school transportation routes are operated by Mr. Guy Draper and Mr. Arthur Lord. Mr. Draper operates the town and Wilton routes and Mr. Lord transports the North Lyndeborough pupils to Frances-town.

A problem is developing relative to the town route. As our tuition pupils increase in Grades 7 and 8, it is becoming apparent that there may come a day when there will not be room enough on the school bus to permit those in grades 9 through 12 to ride. Thus, it will be necessary for them to obtain their own transportation to high school. However, this action will not be taken until every facet of the problem is studied.

No School Policy:

The "No School" policy as set forth by the Lyndeborough School Board is as follows. If the weather and road conditions are such that it is dangerous or impossible for the school bus to operate, the school will be closed. Every effort will be made by the School Board to contact the parents in the outlying areas and along the bus route by telephone. Also arrangements have been made with the radio station WOTW in Nash-

ua to broadcast the "No School" message. This information is usually available to the School Board between 7:00 and 7:15 a. m. On stormy days, parents are encouraged to use their own judgment and keep their children home if they feel that it is in the best interests of health and safety to do so.

Improvements to Building and Grounds:

Additional blackboard and bulletin board space has been added to the primary room. Similar additions are contemplated for the upper grades room this summer.

A hard top walk, cement or asphalt, is planned for the front of the building, with additional grading and seeding in this area. A sum has been reserved from the original fund for this purpose.

Finance:

The School Board's Budget for 1952-53 calls for an appropriation of \$23,064.46, an increase of \$1616.62 more than last year. This increase is due largely to a greater number of tuition pupils involving \$1265. The remainder is spread out over teachers' salaries, transportation and other expenses of operation.

Tuition costs for the year 1952-53, will be as follows: Milford High School \$225., Junior High \$200.; Wilton High School \$225., Junior High \$125. This latter figure is subject to change since it has not yet been set by the Wilton School Board.

Conclusion:

I wish to extend my sincere appreciation to the Lyndeborough School Board, parents and friends of the school who have given me and the teachers so much assistance in our endeavors to provide our children with a progressive educational program.

NEWELL J. PAIRE,
Superintendent of Schools.

REPORT OF SCHOOL NURSE

I made ten visits to the Lyndeborough Public School during 1951. I examined the children for evidence of communicable disease and found measles, chicken pox, sore throats, colds and pediculosis. Poison ivy was also evident on three children.

The teeth of ten pupils have need of dental attention, four children have need of treatment of diseased tonsils and two children have speech defects.

Cleanliness of body as a disease preventative was stressed throughout the year. There is a gratifying improvement in the general appearance of the group.

I weighed and measured the pupils twice during the year and most showed a satisfactory gain in both height and weight.

The Well Baby Pre-school Clinic in April gave an opportunity for the school children to receive Booster Shots.

Due to personal illness in March it was not possible to accomplish all that I hoped in testing the hearing and vision of the group. I am striving to accomplish this as soon as possible.

Arrangements were made for one boy to obtain glasses through the Sight Conservation Program, and plans are under way to obtain aid for a deafened older child.

Respectfully submitted,
SYBIL M. BEATHAM, R.N.,
School Nurse.
