REPORT OF THE Superintendent of Schools

To the School Board and Citizens of Weare:

This is my fourth annual report. It deals briefly with the following subjects:

- (1) Statistics of our schools.
- (2) Our school buildings.
- (3) Our high school.
- (4) Music supervision.
- (5) The George Washington Bicentennial.
- (6) Possible economies.

GENERAL STATISTICS FOR THE SCHOOL YEAR ENDING JUNE 30, 1931

SCHOOLS	Number half-days school in session	Average membership (number of pupils)	Per cent of attendance	Number half-days absence per pupil	Number tardinesses per pupil	Number of visits by superintendent	Number of visits by school nurse	Number of visits by school board and other citizens

State of N. H. . . .	357.1	95.5	1.08

Weare's attendance record still shows, as for the past two years, an average better than that of the state as a whole. I am glad to note also that the number of tardinesses per pupil are on the decrease. The high school has shown the most marked improvement, having brought the number of tardinesses down from 3.6 per pupil in 1929-1930 to 1.1 in 1930-1931. For the first third of the present year the tardiness record shows less than 0.3 per pupil, and I consider this a remarkable record when we take into consideration the long distances to be traveled daily by many of our pupils over all kinds of roads. Among the one-room schools, Sugar Hill has the best record of promptness, while North Weare, Friends, Clinton Grove and River Road schools have about twice as many tardinesses as the average of the state.

The school at East Weare opened with 36 pupils last September in eight grades. This seemed too many for one teacher, and it was deemed advisable to divide the school into primary and grammar rooms, with two teachers. The extra room was already there, having been built years ago, and needed only minor repairs, a new blackboard and a stove, in order to be made a comfortable schoolroom. The State Board was willing to increase our allowance of state money by the amount of one teacher's salary, in view of the large enrollment at East Weare.

OUR SCHOOL BUILDINGS

The past summer the high school building has been painted on the outside. The South Weare school, which had the poorest lighting of any of our schools last year, now has several new windows on the left side of the children, and the walls have been painted a light buff color. The interior of the Center school also received a coat of paint.

The River Road school is seriously in need of repairs, as the sills on two sides have rotted away, and in places around the room there is space wide enough for one's fingers to be thrust between the floor and the baseboard. These places

have been patched up with moulding, and during the unusually mild weather of December and January of this winter the room has been quite comfortable.

OUR HIGH SCHOOL

For several years Weare has had cause to be proud of the prizes brought home by pupils who have exhibited in various places the results of their work in agriculture and home economics courses. This year the girls won second place with their cooking and sewing exhibit at Hopkinton Fair. The boys in the agricultural department won the Sweepstake Cup in the State Judging Contest held at Durham. At the Baby Chick and Egg Show at Concord the boys won the Sweepstakes Cup, seven ribbons and \$6.25 in cash prizes.

This is the more spectacular side of the agricultural work, and there is much to be done in a more quiet way to improve the effectiveness of this department. Some of our boys need larger projects and greater opportunity to practice their ability as farm managers. The real laboratory of agriculture is at home on the farm, and the boy who is limited in his opportunity to practice and experiment under guidance at home has a limit set on his ability to derive benefit from agricultural study which cannot be removed by class work. There is also need for more and larger cooperative enterprises to be conducted by the class, such as building a farm shop, pruning and spraying an orchard, etc. This type of enterprise gives the boy a chance to assume leadership, work with others, and test his business ability which is difficult to provide otherwise. Parents and friends are encouraged to suggest practical opportunities of this nature in Weare, to the headmaster.

There are few opportunities for a high school to compare results of instruction with other schools in the state; but in those ways which are provided, Weare has made a good record during the past year. Two tests are given annually by the State Board to high school seniors. In 1931 the subjects chosen are geography and English. Out of 97 schools reported, only 12 did better than Weare in geography; and our

seniors did better than the average of the state on the English test. We sent a team of three students to Keene for the scholarship contests last May. Our team competed with fifteen other schools in the chemistry contest, winning eighth place.

It is a source of pleasure to us all to see that our pupils are deriving results from instruction which are more than equal to the average of the schools of the state. Maintaining a high standard of work in any high school, however, depends fully as much upon the willingness of the students to work, as upon the skill and industry of the teachers. An assignment designed to increase the pupil's knowledge or to improve his mental capacity is effective only in the proportion that the pupil accomplishes the work assigned. When boys and girls come to class day after day with lessons not prepared, there is need for greater cooperation between parents and teachers to encourage our young people to take advantage of their opportunities. Parents are urged to visit the school or talk with the teachers outside of school hours, see what is offered, and become better acquainted with the amount and kind of work their children are doing.

MUSIC SUPERVISION

Three districts, Weare, Henniker and Dunbarton, have combined to secure the services of a music supervisor for the present year. We have employed Lucile Thompson, a graduate of Keene Normal School. She spends two days each week in Weare, two in Henniker and one in Dunbarton. She has proved herself a very capable teacher, and her services are much appreciated by the teachers and pupils.
