Plodzick & Sanderson Concord, NH

## TOWN COUNSEL

Peter G. Hastings, Esq. Fryeburg, ME

CONWAY BOARD OF SELECTMEN

L to R: John A. Cuddy, Raymond E. Leavitt, Jr., Cynthia B. Briggs

## SELECTMEN'S REPORT

1992 has seen many changes in the Town Hall of Conway. We saw Curt Lunt leaving to go to Lisbon Falls, Maine, being replaced by James Somerville, coming on board in June. Scott Johnstone left us to take a position in Vermont. Paul DegliAngeli was hired to fill the position of Public Works Director, with David Chase serving as the Highway Foreman, filling Bud French's shoes. Nanci Allard stepped down and Jac Cuddy came forward to serve in her place.

We also saw the landfill coming on line early in the year after years of study and many hours of work, and we look forward to many years of service. The Environmental Protection Agency has been working at Kearsarge Metallurgical cleaning up the "superfund site," and now is the time to begin working to get that area back as a busy work place.

Town Meeting has shown a renewed interest in Town affairs, and many people have come forward to serve on a number of committees and should be thanked for their time and effort. Probably, the group that has given the most time over the last two years to serve the area has been the Highway Advisory Task Force, and deserves our gratitude.

Finally, I would like to thank all the Town employees - it has not been an easy year for them. With all the public scrutiny and pressure focused on them, these people have continued to serve in the best interest of the Town with all the professional dignity of the quality employees that they are, and I, for one, am proud of them.

The Board of Selectmen thanks you all, and it's been a pleasure to serve you.

Respectfully submitted,

Raymond E. Leavitt, Jr., Chairman  
Conway Board of Selectmen

## CONWAY TOWN WARRANT STATE OF NEW HAMPSHIRE

TO THE INHABITANTS OF THE TOWN OF CONWAY, County of Carroll, in the State of New Hampshire, qualified to vote in Town Affairs:

You are hereby notified to meet at the Karl Seidenstuecker Auditorium at Kennett High School, Conway, New Hampshire, on Tuesday, the ninth day of March, 1993, at eight o'clock in the forenoon to act upon the following subjects hereinafter set forth. Voting on Articles 1 through 17 will be by official ballot, and the polls shall open for balloting at eight o'clock in the forenoon or as soon thereafter as the Moderator calls the meeting to order and declares a quorum present. The remaining articles of the Warrant shall be acted upon at eight thirty o'clock in the morning on Saturday, March 20, 1993.

ARTICLE 1. To choose all necessary officers.

ARTICLE 2. To see whether or not the Town will vote to adopt Amendment No. 1 as proposed and recommended by the Planning Board for the Town Zoning Ordinance deleting Conway Code 147-19.G (3) to eliminate preferential treatment of certain businesses regarding the use of readerboard signs, thereby bringing this portion of the Code into compliance with the NH Supreme Court decision in the case of Mario's v. Conway.

ARTICLE 3. To see whether or not the Town will vote to adopt Amendment No. 2 as proposed and recommended by the Planning Board for the Town Zoning Ordinance amending provision of Conway Code 147-19.G (6) to permit larger sign bases and supports if constructed of brick, stone or wood.

ARTICLE 4. To see whether or not the Town will vote to adopt Amendment No. 3 as proposed and recommended by the Planning Board for the Town Zoning Ordinance amending provision of Conway Code 147-19.B (1) by adding a new section (L) to permit directional signs required for compliance with the Americans with Disabilities Act.

ARTICLE 5. To see whether or not the Town will vote to adopt Amendment No. 4 as proposed and recommended by the Planning Board for the Town Zoning Ordinance amending provisions of Conway Code 147-19.B (1)(f) to permit one A-frame sign per lot in the Business Districts.

ARTICLE 6. To see whether or not the Town will vote to adopt Amendment No. 5 as proposed and recommended by the Planning Board for the Town Zoning Ordinance amending provisions of Conway Code 147-19.E to permit pedestrian-oriented off-site commercial directional signs in the North Conway Village Commercial District.

ARTICLE 7. To see whether or not the Town will vote to adopt

Amendment No. 6 as proposed and recommended by the Planning Board for the Town Zoning Ordinance amending provisions of Conway Code 147-19.D (1)(b) and 147-19.L to permit larger wall signs for businesses, to permit a second wall sign for businesses with multiple public entrances, and to permit extra wall sign size where the free standing sign conforms to all requirements.

ARTICLE 8. To see whether or not the Town will vote to adopt Amendment No. 7 as proposed and recommended by the Planning Board for the Town Zoning Ordinance amending provisions of Conway Code 147-19.F (2) to permit subdivision signs to identify business tenants.

ARTICLE 9. To see whether or not the Town will vote to adopt Amendment No. 8 as proposed and recommended by the Planning Board for the Town Zoning Ordinance amending provisions of Conway Code 147-6 to amend the definition of "residential unit" and to add a new definition for "transient accommodations."

ARTICLE 10. To see whether or not the Town will vote to adopt Amendment No. 9 as proposed and recommended by the Planning Board for the Town Zoning Ordinance amending provisions of Conway Code 147-6, 147-12.B and 147-12.C to re-define "commercial amusement," to clarify the restrictions on indoor commercial amusements, and to prohibit outdoor commercial amusements.

ARTICLE 11. To see whether or not the Town will vote to adopt Amendment No. 10 as proposed and recommended by the Planning Board for the Town Zoning Ordinance deleting section of Conway Code 147-11.1(L) and amending Section 147-11.1(F) to eliminate septic controls which duplicate existing controls in the Septic Ordinance.

ARTICLE 12. To see whether or not the Town will vote to adopt Amendment No. 11 as proposed and recommended by the Planning Board for the Town Zoning Ordinance amending provisions of Conway Code 147-6, 147-17, 147-21.C, and 147-22.C to reduce the front setbacks from 25 feet to five feet in Conway Village and North Conway Village Commercial Districts, to define setbacks, and to move the southern boundary of the North Conway Village Commercial District north to the thread of Artist Falls Brook.

ARTICLE 13. To see whether or not the Town will vote to adopt Amendment No. 12 as proposed and recommended by the Planning Board for the Town Building Code amending provisions of Conway Code 88-3 to eliminate the requirement for a separate Zoning Permit in cases where a Planning Board approval is required.

ARTICLE 14. To see whether or not the Town will vote to adopt Amendment No. 13 as proposed and recommended by the Planning Board for the Town Septic Code amending provision of Conway Code 122-3 to reduce the septic tank setback from water bodies to 75 feet.

ARTICLE 15. To see whether or not the Town will vote to adopt Amendment No. 14 as petitioned by Bayard W. Kennett and others for the Town Zoning Ordinance amending provisions of Conway Code 147-22.B(1) to increase the depth of the Highway Commercial Zone along the western side of Route 302 in Redstone from 400 feet to 1,200 feet from the center line of the highway. Not recommended by the Planning Board.

ARTICLE 16. To see whether or not the Town will vote to adopt Amendment No. 15 as petitioned by Ethel T. Morrill and others for the Town Zoning Ordinance amending provisions of Conway Code 147-21.A to expand the Center Conway Village Commercial District by extending the district 700 feet west on the south side of Route 302, to a depth of 700 feet from the highway right-of-way. Recommended by the Planning Board.

ARTICLE 17. To see if the Town will vote to adopt the provisions of RSA 72-37 for the exemption for the blind from the assessed value of residential real estate for property tax purposes. This statute provides that every inhabitant who is legally blind shall be exempt each year, for property tax purposes, from the assessed value on a residence to the value of \$25,000.

ARTICLE 18. To see whether or not the Town will vote to repeal Article 42 as approved at the Town Meeting held March, 1992. Agreeable to a petition signed by Richard Neville and others. Budget Committee voted unanimously to pass over.

ARTICLE 19. To see if the Town will vote to authorize the Board of Selectmen to sell, by private sale, Town owned land located off of Greeley Road, Tax Map 3, Parcel 2, to Matthew Neville and Rosemary Bourquet for a dollar value to be determined by a Town selected certified appraiser, with the Selectmen to be authorized to make final terms of sale and execute release deed without title covenants in behalf of the Town. Buyer is to pay for the appraisal service in advance.

ARTICLE 20. To see if the Town will vote to accept a bill of sale, without compensation, from the Center Conway Fire Precinct, for the old fire station, as is, located on Town of Conway property at Center Conway, designated as Tax Map 8, Parcel 17, as approved by the Precinct and recommended by the Board of Selectmen.

ARTICLE 21. To see if the Town will vote to raise and appropriate the sum of Six Thousand Dollars (\$6,000) to assist in the funding of legal and other costs (but not salaries) incurred by the CONWAY COALITION FOR RESPONSIBLE GOVERNMENT. Agreeable to a petition signed by Helen P. Heath and others. Not Recommended by the Budget Committee (0-9-1).

ARTICLE 22. To see if the Town will vote to approve the cost items of a one year collective bargaining agreement for the calendar year 1993 between the Town of Conway and AFSCME #93, Local #859, Department of Public Works, having a total proposed contract cost for 1993 of \$437,866, and to see if the Town will authorize and appropriate a sum of \$14,434 for

three item increases not contained within the 1993 Town Budget Article, but included in the total contract cost: Clothing - \$5,100, Life Insurance - \$34, and Merit Performance Increase - \$9,300. For information and clarity of contract cost items, the following contract cost comparisons are provided:

Item	1992	1993	
Health Insurance	98,863	47,947	
Dental Insurance	6,300	1,050	
Clothing	3,000	8,100	*
Disability Insurance	4,560	4,560	
Life Insurance	682	726	**
Wages	532,364	366,133	
Merit Performance	0	9,300	***
<b>TOTAL IMPACT COMPARISON:</b>	<b>645,779</b>	<b>437,866</b>	<b>****</b>

(The net reduction of contract cost is \$207,913 or 32.2%)

\* \$3,000 of clothing item is included in Town Budget, Article 29.

\*\* \$682 of Life Insurance is included in Town Budget, Article 29.

\*\*\* \$2 of Merit Performance is included in Town Budget, Art. 29.

\*\*\*\* \$111,710 of contract costs is for the Solid Waste Operations of which Town of Conway's district share is 91%, which equals \$101,656.

NOTE: Contract costs are reflected in Town Budget Articles #4312 - Highway; #4324 - Solid Waste.

Recommended by the Budget Committee (6-3-1).

ARTICLE 23. To see if the Town will vote to authorize the Selectmen to enter into a five to seven year lease-purchase agreement for a combination bucket/backhoe piece of heavy equipment for the Highway Department, with the Town to raise and appropriate Nineteen Thousand Three Hundred Forty Dollars (\$19,340) for the lease-purchase agreement in 1993. (A simple majority vote is required with subsequent annual appropriations). Recommended by the Budget Committee (9-0-1).

ARTICLE 24. To see if the Town will vote to repeal NH Public & Private Laws of 1969, Ch. 570, abolishing the CONWAY POLICE COMMISSION and returning the administration of the Police Department to the Board of Selectmen, through the Town Manager, and direct our representatives to seek repeal of the Commission in the legislature. Agreeable to a petition signed by Helen P. Heath and others. Not recommended by the Budget Committee (2-6-2).

ARTICLE 25. To see if the Town will vote to abolish the position of TOWN PLANNER, and establish a new position, ASSISTANT TO THE SELECTMEN FOR PLANNING AND ECONOMIC DEVELOPMENT.

Agreeable to a petition signed by Ralph W. Wiggin and others. Not recommended by the Budget Committee (0-6-4).

ARTICLE 26. To see if the Town will vote to abolish the separate positions of BUILDING INSPECTOR and FIRE INSPECTOR/CHIEF and create a new position combining the duties of both to be called BUILDING CODE and FIRE INSPECTOR/CHIEF. Agreeable to a petition signed by Helen P. Heath and others. Recommended by the Budget Committee (5-3-2).

ARTICLE 27. To see if the Town will vote to abolish the position of ASSESSOR and authorize the Board of Selectmen, through the Town Manager, to retain part time contractual assessing services, as needed. Agreeable to a petition signed by Helen P. Heath and others. Recommended by the Budget Committee (6-0-4).

ARTICLE 28. To see if the Town will direct the Selectmen, Police Commissioners, and other labor bargaining agents, to limits of 50% of the cost of individual, and/or group premiums, for TOWN EMPLOYEE HEALTH CARE INSURANCE. This article requires any and all health care insurance recipients to match the Town's contribution to premium cost. Specifically, the Town desires that health care costs, for employees, be funded 50% by the Town and 50% by the employee. No dental care costs are to be funded by the Town. Agreeable to a petition signed by Ralph Wiggin and others. Recommended by the Budget Committee (6-1-3).

ARTICLE 29. To see what sums of money the Town will vote to raise and appropriate for the following purposes:

#### GENERAL GOVERNMENT

- Executive
- Election, Registration & Vital Statistics
- Financial Administration
- Revaluation of Property
- Legal Expenses
- Employee Benefits
- Planning & Zoning
- Government Buildings
- Cemeteries
- Insurance

#### PUBLIC SAFETY

Principal of Long-Term Bonds and Notes

Interest Expense - Long-Term Bonds and Notes

Interest Expense - Tax Anticipation Notes

New Highway Equipment

Capital Reserve Funds

See State Form MS-7, Budget of the Town of Conway, NH, attached hereto and incorporated under this article.

ARTICLE 30. To see if the Town will vote to authorize the Board of Selectmen to acquire land, approximately 5 acres, required as a buffer zone to wetlands on the perimeter of the Town's old landfill, with acquisition to be by negotiation or by eminent domain with funds to be expended from the Solid Waste appropriated operating budget. The land is required to satisfy requirements in the landfill closure plan with the State.

ARTICLE 31. To see if the Town will vote to authorize the Board of Selectmen to accept as Town Roads, Heather Hill Road, Holly Ridge Road and Grandview Road, being approximately 10,900 (ten thousand nine hundred) feet, running westerly from West Side Road to Passaconaway Road, subject to a deed being received from the Hale Highlands Development Corp., the right of way being 50 (fifty) feet in width, the road conforming to Town specifications, appropriate bounds being in place, required assessed valuation, and completion of shoulder work. Agreeable to a petition signed by Herbert E. Hall, Jr., and others. Not recommended by the Board of Selectmen or the Planning Board. Budget Committee voted unanimously to pass over this article.

ARTICLE 32. To see if the Town will vote to raise and appropriate the sum of Five Thousand Dollars (\$5,000) to defray the operating expenses of the services and programs as carried out by the MT. WASHINGTON VALLEY CHAPTER OF THE AMERICAN RED CROSS. Agreeable to a petition signed by Jeff Ohman and others. Recommended by the Budget Committee (8-0-2).

ARTICLE 33. To see if the Town will vote to raise and appropriate the sum of Seventeen Thousand Six Hundred Fifty Five Dollars (\$17,655) for the support of the CHILDREN AND YOUTH PROJECT OF MT. WASHINGTON VALLEY. Agreeable to a petition signed by Evelyn B. Dole and others. Recommended by the Budget Committee (8-2-1).

ARTICLE 34. To see if the Town will vote to raise and appropriate the sum of Three Thousand Nine Hundred Seventy Dollars (\$3,970) for the Early Intervention Program (birth to 3 years) of CHILDREN UNLIMITED, INC. Agreeable to a petition signed by Penny P. Merrill and others. Recommended by the Budget Committee (9-0-1).

ARTICLE 35. To see if the Town will vote to raise and appropriate the sum of Two Thousand Forty Three Dollars (\$2,043) in support of CARROLL COUNTY AGAINST DOMESTIC VIOLENCE AND RAPE'S SHELTER FOR BATTERED WOMEN AND CHILDREN. Agreeable to a petition signed by Lydia Miller and others. Recommended by the budget Committee (10-1-0).

ARTICLE 36. To see if the Town will vote to raise and appropriate the sum of Seven Thousand Two Hundred Sixty Dollars (\$7,260) to assist CARROLL COUNTY MENTAL HEALTH SERVICES. Agreeable to a petition signed by Mary-Anne Lane and others. Not Recommended by the Budget Committee (1-10-0).

ARTICLE 37. To see if the Town will vote to raise and appropriate the sum of One Thousand Dollars (\$1,000) to be used for insurance for the EASTMAN-LORD HOUSE MUSEUM. Agreeable to a petition signed by Suzanne C. Levesque and others. Recommended by the Budget Committee (7-3-0).

ARTICLE 38. To see if the Town will vote to raise and appropriate the sum of Three Thousand Dollars (\$3,000) for CONWAY VILLAGE CHAMBER OF COMMERCE to be utilized to operate and administer the Information Booth, as well as organize the Christmas Parade, the Conway Village Festival, and other activities which benefit the Conway Community. Agreeable to a petition signed by Steven P. Cote and others. Recommended by the Budget Committee (6-5-0).

ARTICLE 39. To see if the Town will vote to raise and appropriate the sum of Three Thousand Dollars (\$3,000) for the MT. WASHINGTON VALLEY CHAMBER OF COMMERCE, said funds to be dedicated to the Chamber's Visitor Information Services. Agreeable to a petition signed by Ron Crane and others. Recommended by the Budget Committee (6-4-0).

ARTICLE 40. To see if the Town will vote to raise and appropriate the sum of Seven Thousand Five Hundred Dollars (\$7,500) for OPERATING EXPENSES for the EASTERN SLOPE REGIONAL AIRPORT. Agreeable to a petition signed by John Phillips and others. Recommended by the Budget Committee (5-3-2).

ARTICLE 41. To see if the Town will vote to authorize the Board of Selectmen to negotiate a long term cost sharing maintenance agreement with the Eastern Slope Regional Airport Authority. The negotiated agreement to come before the voters at the 1994 Annual Town Meeting for its approval or disapproval.

ARTICLE 42. To see if the Town will vote to raise and appropriate the sum of Seven Thousand Four Hundred Fifty Four Dollars (\$7,454) to assist the FAMILY HEALTH CENTRE. Agreeable to a petition signed by Claire Chimick and others. Not Recommended by the Budget Committee (1-10-0).

ARTICLE 43. To see if the Town will vote to raise and appropriate the sum of Twenty Three Thousand Seven Hundred Nineteen Dollars (\$23,719) for support of the GIBSON CENTER FOR SENIOR SERVICES. Agreeable to a petition signed by Lucile H. Colcord and others. Recommended by the Budget Committee (7-4-0).

ARTICLE 44. To see if the Town will vote to raise and appropriate the sum of Seventy Seven Thousand Five Hundred Four Dollars (\$77,504), said sum to be allocated to the NORTH CONWAY COMMUNITY CENTER Board of Directors. Agreeable to a petition signed by John E. Henley and others. Recommended by the Budget Committee (7-3-0).

ARTICLE 45. To see if the Town will vote to raise and appropriate the sum of Three Thousand Dollars (\$3,000) to the NORTH CONWAY DAY CARE CENTER. Agreeable to a petition signed by Lynn G. Sketchley and others. Recommended by the Budget Committee (10-1-0).

ARTICLE 46. To see if the Town will vote to raise and appropriate the sum of Sixty Eight Hundred Dollars (\$6,800) for the support of the COMMUNITY ACTION OUTREACH PROGRAM. (Recommended by the Budget Committee - 8-1-1). Also to see if the Town will vote to raise and appropriate the sum of Two Hundred Dollars (\$200) for the support of the BIG BROTHERS/BIG SISTERS ORGANIZATION administered also by the Tri-County Community Action Program. Agreeable to a petition signed by Barbara S. Bryant and others. (Recommended by the Budget Committee - 9-1-0).

ARTICLE 47. To see if the Town will vote to raise and appropriate the sum of Ten Thousand Four Hundred Forty Dollars (\$10,440) for the VISITING NURSE SERVICES OF NORTHERN CARROLL COUNTY, INC. Agreeable to a petition signed by Robert B. Hamilton and others. Recommended by the Budget Committee (9-2-0).

ARTICLE 48. To see if the Town will vote to raise and appropriate the sum of One Thousand Eight Hundred Sixty Three Dollars (\$1,863) for the Family Support Program of the CENTER OF HOPE. Agreeable to a petition signed by Todd L. VanderSchaaff and others. Not Recommended by the Budget Committee (1-10-0).

ARTICLE 49. To see if the Town will vote to authorize the Conway Public Library Trustees to apply for, accept and expend, without further action by the Town of Conway, money from a state, federal or other governmental unit or from a private source, which becomes available during the fiscal year, in accordance with the provisions of NH RSA 202-A:4-c.

ARTICLE 50. To see if the Town will vote to authorize the Selectmen to hire upon the credit of the Town such sums of money as may be needed, such sums not to exceed the combined town, school and county tax budgets, in anticipation of town, school and county purposes.

ARTICLE 51. To see if the Town will vote to authorize the Selectmen, in behalf of the Town of Conway, NH to accept gifts and/or Federal or State aid in the name of the Town of Conway, NH applied for, and to receive and expend them in accordance with the purposes thereof.

ARTICLE 52. To see if the Town will vote to authorize the Selectmen to withdraw Capital Reserve Funds established by the Town from time to time, and disburse the same in accordance with the purposes for which such funds were created respectively.

ARTICLE 53. To see if the Town will vote to authorize the Selectmen to sell, at their discretion, at public auction, any real estate in the Town to which the Town has title by Collector's Deed; except when it is being sold back to the former owner, or to a party who has succeeded to the title of the former owner, in which case private sale may be utilized; any such real estate to be sold and conveyed on or before the next annual Town Meeting.

ARTICLE 54. To act upon any other business that may legally come before said meeting.

Given under our hands and seal at Center Conway, New Hampshire, this 19th day of February, 1993.

RAYMONDE. LEAVITT, JR., Chairman  
CYNTHIA B. BRIGGS  
JOHN A. CUDDY

A true copy Attest:

JOHN D. STEVENS, Justice of the Peace

We hereby certify that we posted a like copy of the within Warrant on February 22, 1993, at the post offices at Conway, North Conway and Center Conway, at the Town Hall at Center Conway, and at Karl Seidensteucker Auditorium at Kennett High School, the place of meeting, all public places within the said Town of Conway.

RAYMOND E. LEAVITT, JR., Chairman  
CYNTHIA B. BRIGGS  
JOHN A. CUDDY

State of New Hampshire  
Carroll ss.

Personally appeared Raymond E. Leavitt, Jr., Cynthia B. Briggs, and John A. Cuddy, Selectmen of the Town of Conway, New Hampshire, and made oath that the foregoing certificate by them is true, before me,

JOHN D. STEVENS  
Justice of the Peace

## TOWN MANAGER'S REPORT

*"By working together on common goals we can achieve  
mutual trust and accountability."  
Jim Somerville, 1993*

On June 1, 1992, I became Conway's new Town Manager, facing many challenges resulting from time, the economy, complacency and frustration.

Over the past seven months a change in management style and philosophy has taken hold, and with it, I would like to think that the trust of the people in how the Town is being operated has been reborn.

Organization - Ongoing restructuring has generated a downsized work force. Team building has begun, which will result in a positive work environment made up of players cross trained to diversified job skills. Expected to do more, these loyal, competent, hard working Town employees have "held in there" during this roller coaster emotional year. They have demonstrated unselfish service in their career endeavors and are fully deserving of your support and respect.

Finance - The first Annual Budget Narrative contained herein covers the Town's financial picture. The key is that spending is under control! Your tax dollars are being used wisely and accountably.

Operations - No services have been cut, but through better managed utilization of manpower and expenditure controls, the services we are obligated to provide the citizens, are now being accomplished more efficiently, with less manpower and less tax dollars.

As we move into 1993, I urge the citizens to be patient, support this year's budget, and let the new management put a winning team together. I will continue to strive toward greater degrees of accountability and a building of public trust. The Town, as a whole, must also work on team building and pull back together. Together, we have the ability and strength to be a leading community in the State of New Hampshire in accountable government, services provided and economic development, to name a few.

I want to sincerely thank the Board of Selectmen for giving me the opportunity to be Conway's Town Manager. Their guidance and support has made my orientation and transition to Conway much easier. The positive level of open communication we share has also made those "tough decisions" a team effort and more bearable.

To the public, thank you for your input and support. Let's work together to solve our problems, not make problems through factioned efforts. As a TEAM we can have mutual ACCOUNTABILITY.

Respectfully submitted,

James B. Somerville  
Town Manager

**ANNUAL NARRATIVE FINANCIAL/BUDGET REPORT  
TOWN REPORT SUPPLEMENT  
SUBMITTED BY: JAMES B. SOMERVILLE, TOWN MANAGER  
JANUARY 1, 1993**

**OPENING COMMENTS:**

I am pleased to present the first Annual Narrative Financial/Budget Report as a supplement to the Board of Selectmen's/Town Manager's requested budget for 1993. The purpose of this report is to provide the Town's residents, taxpayers and voters with a vehicle to better understand the annual budget which they are being asked to vote on. The report takes several million dollars of complex numbers and puts them into logical words, it discusses financial management philosophy, shows how the operations, services and manpower relates to the budget, highlights increases and decreases, and provides an overview of the Town's financial condition and posturing in today's economy.

An appendix to this report by the Budget Committee provides the people with a continuation of the process, different views of budget requirements, and an understanding of how and why the recommended dollars were arrived at.

Although I have been Town Manager for only seven months, it was clear from the outset that the unstable economy and previous operational and management methodology required change. Not a change for change sake approach, but a justifiable movement toward spending restraints, accountability of taxpayers' dollars, greater manpower performance for the dollar, and an expectation that we all must participate in establishing financial credibility and accountability. Further, that with this need I carried a responsibility that decisions should be made that reflect the best interest of the Town; humanistically, operationally, and financially.

I am confident that the Town of Conway will vote this year with a great deal of common sense, a better understanding of the operational budget and with compassion as we surface out of a long and difficult down economy that we have ALL been experiencing.

**GENERAL OVERVIEW:**

A. The financial profile I inherited consisted of a mid year 1992 deficit budget of \$250,000 as a result of several actions and circumstances:

1. Town Meeting action to cut \$158,000 from the budget, with direction that in the 1993 budget a 50% reduction in health insurance and a 100% reduction in dental insurance appropriation costs be reflected.
2. The increased needs in Welfare distribution in a down economy and not receiving an offsetting grant were not properly anticipated and projected.
3. The slow coordination and approval by the Department of Environmental Protection to allow recirculation of leachate at the landfill caused a major budget overrun problem.

4. For reasons I cannot identify specifically, other line items in the budget were clearly tracking beyond the appropriation level.

B. Through new purchasing policies, line item freezes, reevaluation of operational priorities, and manpower-reorganizational considerations the \$250,000 deficit has not only been recovered over the seven month period, but one \$100,000 project (Tasker Hill) is being paid off in lieu of borrowing and two previous year unpaid bills (Conway Village Fire District and Insurance Risk Pool) are being zeroed out. The 1992 year will still close out with a small surplus.

#### **BUDGET PHILOSOPHY:**

The budget philosophy for 1993 is very clear and direct. Earmarked by hard work and accountability, the goal is to carry forward the momentum of the 1992 progress, continue to evaluate each and every department, identify areas of excess, ways to consolidate and cross train/utilize manpower, find more effective ways to get the job done or to purchase services/supplies, continually ask questions such as: Can it wait? Do we need it? Can we do it for less cost? Can someone else do it? Where is it on a prioritized list? Is the service essential? etc.

I fully anticipate and understand the New Englander's resistance to change. However, to move forward and meet taxpayer concerns in our current economy, we must consider and evaluate change. We should also examine the ageless saying "If it is not broken, don't fix it." Perhaps the new ageless saying should be "If it is not efficient or needed, do something about it." If your furnace at home isn't broken, but is only operating at 50% fuel efficiency and you know a new furnace will operate at 95% fuel efficiency and you will recover your replacement costs in fuel savings in two years, shouldn't you do something about it?

The general public must also participate. To control budgets which in turn affect taxes, it is necessary for the people to give input on priorities and help identify necessary services. As government adjusts and responds to your demands, needs and requirements, you too must be willing to adjust in cooperation with our efforts. There is a fine line between an inconvenience and a cutback in service. During 1993, with the proposed budget, there will be degrees of inconvenience, but in no situation has the service been eliminated. You simply cannot have major cutbacks in operating budgets to preserve a tax rate without affecting the services provided. As the evaluation process continues into 1993, a more in-depth picture of the Town's services will evolve. We should look at a zero based budget where one starts from the beginning, evaluates every municipal function and service, determine the necessity and level of the function/service, and then rebuild a budget/cost to provide the functions and levels of service. Time was not on my side for the 1993 budget, but such an approach is planned in developing the 1994-95 budgets.

A basic philosophy for the 1993 budget was for the first time, to more directly involve employees who hold a budgetary-expenditure responsibility. They were asked to provide detailed input and dialogue into the process. In 1993 they will be expected to toe the mark on their budgets. The

recommended amounts do not always fall in line with department requests. It is my responsibility at this stage to determine and recommend what is needed to operate the Town and the departments. My experience helps dictate what we can operate with and to identify what I would term excess or cushion money. This budget philosophy has generated a 1993 budget which is workable and is accountable. In years to come it will be improved upon and further fine tuned. The Selectmen's final requested budget is a result of in-depth dialogue and workshops with me. The original draft budget recommendations were carefully scrutinized with changes made where they felt necessary.

### **BUDGET ANALYSIS:**

Only significant changes from the 1992 budget are discussed.

#### **Executive:**

##### **Salaries:**

A. The Board of Selectmen by Town Meeting vote will be expanding from three to five members. A recommended increase from \$9,000 to \$14,000 reflects this change at the same rate of pay. Because the Board is being expanded is no reason to give them less pay for their services. The meetings will no doubt be longer and Board members continue to carry the same responsibilities and a willingness to serve unselfishly.

B. The full-time Administrative Assistant's position is currently not filled and has been replaced with a part-time Welfare Officer. This action saves \$12,700 in wages, plus the potential of approximately \$6,000 in benefits. The position was deemed by me to be no longer necessary because of several reasons: My hands-on management style, the availability to absorb zoning duties in other positions, and a realization that many of the duties being performed by the position were low priority fill-in projects to retain the much needed welfare position at a full time status.

C. A new line item has been added. "Non-union Discretionary Merit Account" - This is a 100% turn around from the past. Performance Evaluations have been developed to be a constructive tool which will establish individual goals and objectives. This, in turn, allows management to measure productivity and other important employee traits. On a varying scale of performance a non-union employee will have the opportunity to achieve a Merit Raise on his/her employment or promotion anniversary based on performance. This new system does away with Cost of Living (COLA) and Step Raises. The account is discretionary as it can only be awarded by the Town Manager and any Merit Raise in excess of 3% requires endorsement by the Board of Selectmen. It is requested that the new concept be tested for a three year period, with an annual statistical report provided to the Budget Committee each year. At least on labor union has agreed to the same concept. This is a major progressive change from traditional union beliefs. The Selectmen and I urge support for the Merit Performance Pay System. The program has been carefully developed to protect against discriminatory actions and abusive use.

##### **Expenses:**

A. Mileage - All mileage accounts have been consolidated from various departments to this one line item. During the summer, 1992, I eliminated

transportation stipends. Employees must now turn in weekly logs which reflect time, actual mileage, destination and purpose. They are now reimbursed at \$.27 a mile which is the approximate IRS standard (\$.275). This decision and control measure based on three months of implementation figures will save \$14,000.

B. Dues - It is strongly recommended the Town retain its membership in the North Country Economic Council. They are the main conduit for EDA funds and other development and planning grant funds. I have been placed on the Board of Directors which will assist patching up past feelings and assuring activity support in the valley. The \$5,000 is well spent and justified.

C. Seminars and Professional Development - The increase is representative of my belief that a downsized professional staff must have the support and ability to develop their skills and interchange experiences with their professional peers. The line item also realistically includes approximately 50% of professional costs, that I, as a Town Manager, require to properly maintain my professional skills and knowledge.

D. Redemption Fees - Economic times cause this cost item to rise. However, the amount is a wash through revenue recovery fees.

E. Professional Services - The dollars have been shifted to specific departments which utilize contract services such as engineering to the highway and landfill budgets.

#### **Office:**

A. Salary line item increase is a result of transferring separate secretarial line items in Planning Board and Board of Adjustment along with the part-time secretarial support functions to the Town Planner, Code Enforcement and Public Works - all of which are performed by the same person. The position is also expanded 10 hours a week to a full-time position to allow more routine administrative functions now being accomplished by the above-named professionals to be done by the secretary. This will increase productivity - more time for the Planner to plan, the Public Works Director to be in the field, and Code Enforcement Officer to be inspecting and enforcing.

B. Telephone - The budget is less due to implementation of phone station telephone logs which has cut use.

C. Microfilming - a neglected function. The \$3,000, along with the \$2,000 from 1992, will allow a major impact into the project. In the past money has been appropriated but not used. It takes a planned effort to initiate and I've set it into motion for 1993. Many files require, by law, permanent or long-term storage, and at times document retrieval is necessary. The program we will be using does both. In addition it alleviates the need to purchase more file cabinets and conserves on space.

#### **Election Registration - Vital Statistics:**

No significant changes. The budget decrease primarily reflects the anticipation of fewer elections and Town Meetings in 1993.

#### **Financial Administration:**

Salaries - I am requesting a \$1,500 salary adjustment for the Finance Director. This request is part of a three year program to adjust professional staff wages to a statistical average wage for the position in communities with

5-15,000 populations. The average wage is based on the N.H. Municipal annual salary/benefits study. The Town's Finance Director salary of \$26,726 is grossly out of line with 1991 census study which shows an average salary of \$34,428. This year's request is only a portion of the \$7,700 difference. Her skills, knowledge, attitude, years of devoted loyal service, and her reputation in the audit community of her outstanding quality of work makes this action fully warranted and justified.

#### **Revaluation of Property:**

The Assessing Department's software is behind the times and the company we are with has zeroed in on Municipal Finance with little interest in pursuing assessing software enhancement. A new program is being chosen which will remain compatible to the remainder of the Town's software. It will take a good portion of 1993 to transfer the data and until we do the April tax billing we will be working with two systems. In 1994 it is planned to have two computer stations where the general public will be able to directly access property data and be able to print out the exact same assessment information retained by the Assessor. Initial costs are \$16,000 in 1993 for new software and hardware. 1994 will require some additional costs. This is all part of a program begun in October to overhaul the department which will bring the assessing tools up to state-of-the-art, and to generate the data necessary to adjust property values by next October closer in line with market values and acceptable margins of error.

#### **Legal/Negotiations:**

There is a need to request an increase. Labor contract efforts as they relate to employer/management direction has and will continue to generate longer negotiation periods and labor/management disputes. In time a balanced ground will be achieved and negotiation and legal costs in this area will stabilize.

#### **Employee Benefits:**

This budget section does not include Library, Solid Waste or Police Department which have benefits included in their respective departments.

The health insurance reflects numerous major changes after nine months of workout, dialogue, negotiations, employee meetings and riding the controversial road to reality. As of this date all personnel, except Police bargaining unit members, have their health insurance coverage modified to a degree which through different approaches meets the Town Meeting Body's requests. A combination of a new Non Union Personnel Manual, a ratified AFSCME (DPW) contract, and a Temporary Side Agreement, Teamsters (Town Staff), are the vehicles used to document the results.

A. Non Union - Changed from JY to Comp 300 with the employees paying 30% of the lower premium. This results in a mathematical reduction of 45+% of the JY premium. However, when employees pay it causes some to reflect on their benefit options and to make changes if economically appropriate. The 1993 result is that the 1993 appropriation for non union personnel is decreased by 55% compared to No Change in coverage.

B. AFSCME (DPW) - Retaining the JY plan but paying 50% of the premium. A small adjustment to carry benefit at 100% until April 1 as Town

Meeting must approve contract costs. However, with the recent reorganization (less manpower) the appropriation is still less than 50% of the appropriation if no change had been made. It is further anticipated, just as with the non union personnel, that some employees in this unit will also change their benefits on April 1 which will further affect the financial impact on the taxpayers.

C. Teamsters (Town Staff) - Normal negotiations for a First Contract are ongoing, but a Temporary Side Agreement was reached prior to January 1 which changes the members' plan from JY to Comp 300 with 30% contribution. It is important to highlight TEMPORARY as when the final contract is negotiated the health insurance package may be different. The change went into effect on January 1 subject to both parties signing an agreement.

Dental coverage has been dropped by A, above, on January 1, 1993, B, above, on April 1, 1993, and is not affected by the temporary agreement for C, above.

We have a unique POSITIVE opportunity before us. Some taxpayers feel employees should pay 50% of the premium regardless of the plan while Management feels that a formula based contribution with higher deductibles which achieves a 50% appropriation of cost is more economical for both taxpayer and employee. We now have both views on the table with Group A and Group B at this point. I urge the voters to support and approve both concepts. It is not a matter of who is right and who is wrong, as each approach will serve the purpose and the goal. In a few years we will now be able to compare and measure statistically the merits of the two programs. Your patience is needed to allow change to work.

### **Planning and Zoning/Board of Adjustment:**

A. The budgets of these two functions have been combined.

B. Secretary budget as previously stated has been placed in the OFFICE budget.

C. Legal costs are being carried in the LEGAL budget.

D. Dues/Reference Books and Seminars/Professional Development are being carried in EXPENSES budget. Individuals affected by this will be given an accounting of their dollar budget allocation.

E. Interns and Mapping - A crucial need area is the continued professional development of the town's transportation needs and mapping requirements. Interns shall be used for such things as traffic studies and data collection. Mapping will no doubt be a growing budget need as we strive for sophistication in the computer CAD area with laser printing and mapping capabilities.

### **Government Buildings:**

A. Town Hall Cleaning - We currently use a contracted cleaning service which, for very limited service and control, costs \$15 per hour. The library, however, has a part-time employee at \$7 an hour. Combining all anticipated hours generates a 40-hour per week position to service the Library, Police Station, Town Hall, Highway Garage, and the Conway Community Building. In addition, the service provided would be more controlled, detailed and

flexible to need. Even with benefits and purchase of cleaning supplies and equipment, a savings of \$7,000 or more will be realized between the various facilities/departments.

B. Garage Heat - Increase is based on 1992 actual usage. Reviewing previous years' data indicates the item was under appropriated in 1992.

C. Garage Repairs - Decrease to allow for general maintenance. No major repairs are anticipated that wouldn't fall under Capital Improvement.

D. Police Station - Police budget will be picking up more costs in 1993. They should assume the responsibility to maintain their own building within their operations.

#### **Insurance:**

Prior year insurance obligation paid off in 1992. Continued efforts to do comparative pricing and maximizing the N.H. Municipal Insurance Trust purchasing power has generated further savings and cost controls.

#### **Public Safety:**

Police: It is necessary to preface my remarks and budget analysis of the Police Department budget request. This is the first time, as a Town Manager and as an elected official, that I have not had the Police Department under my operational jurisdiction. It is also, I believe, the first time the Town Manager, and possibly the Selectmen, have actively and aggressively looked at the Police budget in such detail since the Police Commission was legislated. Early in the process backup data was very limited. I feel that their overall budget does not recognize the economic times, nor does it reflect a fair share of the burden to control costs. I feel that there is room for further downsizing and reorganization. Many changes are in process and I do recognize the concern and ongoing efforts to resolve department issues. At this stage I recommend patience and a year to respond. The responsibility, however, should fall on the Commissioners to justify their requests.

A. Regular Officer Overtime - Department's requested OT for training is recommended to be done on a quarterly frequency rather than monthly. Additional training requirements can be done on duty, smaller groups and/or one on one. Current contract language does not require O.T. for training.

B. Traffic control - I do not support full-time regular police officers on OT performing the traffic control duty. In fact, a smaller force and expanded reserve force to work at seasonal peaks should be seriously looked at and evaluated.

C. Dispatch OT - Same as B, above.

D. Secretarial - Concur with one position elimination and a \$19,000 budget savings.

E. Regular Officers' Holidays - Additional cut is a reflection of existing contract language.

F. Incentive Pay - Recommendation based on staffing level and historical payout history, and current contract language.

G. Health Insurance - Do not concur with Police Department approach. All other Town employees have cooperated with Town's request. During 1992 other department cuts subsidized their budget. Totally unfair to expect the same in 1993.

H. Retirement - Lower actuarial charges and less manpower.

- I. Workers' Comp Insurance - Lower rates and less manpower.
- J. Training - Substantial support documentation and information needed. Concur that increased training is necessary, but it has to be reasonable, necessary and justified. One cannot expect to make up for the lack of adequate training in the past all at one time.
- K. Cleaning - Discussed under GOVERNMENT BUILDINGS.
- L. Building Maintenance - Increased to allow for more direct maintenance responsibilities by police department.
- M. Telephone - decrease is adjustment to be closer to historical payout.
- N. Vehicles - The recommended appropriation is for the 2nd of three annual payments on the purchase of three vehicles.
- O. Vehicle Maintenance - With three new cruisers and fleet downsizing from 9 to 8, the vehicle maintenance costs should go down. Town Garage experimenting doing oil changes, tune ups.
- P. Gasoline - Current prices and historical payout data allow for a lower cost projection.
- Q. Vehicle Equipment - The three new vehicles should lessen the need for equipment replacement.
- R. Professional Services - Legal and Negotiations are tied up in Fact Finder which will be a slow process. There was considerable activity in 1992 and the expended amount was less than \$5,000.
- S. Computer Software/Hardware - Support need to update department system.

**Ambulance:** Conway Village level funded.  
North Conway Ambulance per contract.

**Fire:**

- A. Fire and Rescues - level funded by agreement.
- B. Fire Inspector - Expansion of duties and responsibilities.
- C. Mileage - Discussed previously under EXPENSES.
- D. Training - Special Townwide training programs

Building Inspector: Due to injury, duties now being done by others. When activity picks up will be contracting out services. Possibility exists that position could be a casualty of reorganization.

**Highways:**

- A. Highway Labor - Three positions were eliminated during 1992.
- B. The many line items that show a change are a result of several conditions:
  1. The recommended dollars are a more accurate projection of actual anticipated costs based on historical payout.
  2. The Highway Block Grant was always a separate appropriation used as a buffer against unplanned highway operations or to offset overruns. This approach has not been to the liking of the auditors, nor is it financially and operationally prudent. We simply have to plan, project better, and be realistic. Therefore, the grant is incorporated into the highway line item budget for 1993.
  3. With a new Public Works Director, plus the identified need to take a 2-

3 year break from major projects and to revert the operations and manpower into infrastructure maintenance, there is a priority shifting in the budget. I would further, at this time, discourage approval action on any highway project that may come forward via warrant article petition unless the funding stipulated in the article is further conditioned to being adequate for private contract bidding.

**Solid Waste Disposal:**

A. Wages - By January 1, 1993, the Transfer Station and Landfill operational staffing level will have been adjusted from eight full-time employees to five full-time and two part-time. A new schedule is being developed which provides for public use of the facility 6 days a week - year round, and a half day on Monday from May 1 through Labor Day for commercial users. The result is a substantial decrease in wages without any significant impact on the service.

B. As in the Highway budget, most of the line item changes are adjustments to historical payout data.

C. One potential problem area remains with disposal of excessive leachate when we have the spring thaw and runoff. What is recommended is a budget figure reliant on a negotiated agreement with Conway Village precinct. Should that not be in place or some other suitable arrangement not be made, the figure will have to be adjusted at Town Meeting to the \$40-50,000 range.

**Welfare:**

Assuming a continued slow economic recovery it is necessary to raise money accordingly. There was an under appropriation for 1992. A grant, not received in 1992, can no longer be relied upon.

**Culture and Recreation:**

A. A new subdepartment has been established for Parks and Grounds Maintenance which will be the supervisory responsibility of the DPW Director as he controls the manpower resources for the function. Prior to spring, private contracting will be looked at through a proposal process to determine the level of service and cost available through contract services. It will also be an opportunity to try a unique idea to have the DPW bid for the service against the private contractors. The budget, as presented, transfers related costs from the Recreation budget to Parks Maintenance.

B. Mileage - Discussed previously under EXPENSES.

C. Bancroft Property - A land use lease agreement as a result of last year's Town Meeting action.

**Library:**

A. Wages - I do not concur with their request for a 10% raise for the Library staff and custodian, nor that last year Town Meeting committed such an action. I am also not comfortable with the three positions at the Library being considered to be full time when they are 33, 30, and 30 hour a week positions with full benefits. I recognize certain degrees of past practice and grandfathering. However, I do feel a transitional move should take place by increasing wages and hours together for the three positions while at the same time partially offsetting the cost with a cutback in hours of other part-time

staff since the three would be working an additional 27 hours a week. Whether they work 30 hours or 40 hours, the health benefit costs do not change.

B. History Room Supplement - I am recommending that the operational coverage of the History Room be solely funded and supported by the appropriate Trust Fund if possible. The operations/hours should be adjusted to the anticipated investment income of the Trust. For 1993 a compromise of supplemental need is recommended.

C. Literacy Center - I recommend increased funding to support the program transition from the grant.

#### **Conservation:**

My recommendation is that appropriations should support such things as association dues, periodicals, seminars, administrative support and supplies, but special activities, projects and donations should be paid for from the investment income of their various savings and trust accounts.

#### **Debt Service:**

A. Principal - The principal on the Landfill Bond increased from \$100,000 to \$110,000. The Tasker Hill project which was to generate a new first year principal obligation of \$33,000 against the \$100,000 project has been entirely paid off in 1992.

B. Interest - The interest on the existing obligations goes down.

#### **Capital Equipment:**

The 1992 budget called for no Capital Equipment purchases. Although there is a need for \$143,000 of equipment at this time, I am recommending a new pull broom for \$8,000 and a Special Warrant Article for up to a 7 year lease purchase financing of a backhoe/bucket up to \$85,000. The reason not to go beyond this is there is a greater need to first see where we are and to develop a ten year equipment replacement spreadsheet which identifies equipment life expectancy, and replacement costs, identifies unfulfilled equipment needs and allows budget planning. Properly done through a combination of outright purchasing and equipment financing, a level funding of equipment needs can be accomplished.

#### **Capital Reserve Funds:**

Town Meeting Warrant Articles have established three funds:

A. Old Landfill Closure - There is adequate money in the fund to accomplish what needs to be done in 1993. The next major financial issue on the Old Landfill will be bonding for the actual closure which will probably take place in 1995. We will no doubt need a commitment for bonding in 1994.

B. Future Closure of the New Landfill - We are required to build a fund for this purpose. No set amount is specified. I recommend level funding.

C. Expansion of New Landfill. There is no requirement to have such a fund. However, it is strongly advised to do so. I recommend level funding.

#### **REVENUES:**

The Town's revenue source dollar flow stabilized during 1992 and a slow economic recovery is anticipated over the next few years. For financial security it is imperative that revenue projections be conservative.

Historically, economic up/down trends go on ten year cycles. As we move into a growth period accountable spending and conservative revenue projections will allow for a building of the uncommitted funds. The Department of Revenue has changed its philosophy and now, at the Town's discretion, recommends an amount equal to 5-10% of budget (to include School). Such an account provides a fund source for emergencies and to help control taxes when an economy cycles into the down years. Proper planning should see the account develop to the 5-7% level within 5-7 years. This concept further assures a good bond rating when borrowing is necessary.

#### CLOSING COMMENTS:

You have before you the Selectmen's/Town Manager's requested budget for 1993. As more background data and information evolves in the budget process and different views and opinions, as well as justification of need, comes to the surface, both the Board of Selectmen and the Budget Committee, within their responsibilities, will make appropriate adjustments and final recommendation to the Town Meeting body. To a large extent, the recommendations are an overview of the Town's financial position and how it can best posture itself in the future.

From a dollar viewpoint, you have an operational budget which is now rolled back to approximately a 1988 funding level. The Town has no apparent dollar flow problems, and as the economy recovers we should find ourselves well positioned to cautiously and constructively share in the growth, and to do our own recovery in areas where the down economy has forced levels of government neglect.

It is my hope that other governmental entities which affect what we pay in taxes will be in a position to reflect the same concern and response in their 1993 budgets.

I trust that this first narrative budget report provides a source of information to give better understanding of the Town's operating budget, and that it will allow improved communication and dialogue in the budget process. I welcome constructive criticism so that I may better serve and improve on the report so it is tailored to your needs.

Statistical and graphic overview sheets are attached for informational purposes.

Respectfully submitted,

James. B. Somerville  
Town Manager

January 1, 1993

## INDEPENDENT AUDITOR'S REPORT ON FINANCIAL PRESENTATION

To the Members of  
the Board of Selectmen  
Town of Conway  
Conway, New Hampshire

We have audited the accompanying general purpose financial statements and the combining and individual fund financial statements of the Town of Conway as of and for the year ended December 31, 1991, as listed in the table of contents. These financial statements are the responsibility of the Town's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with generally accepted auditing standards. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

As described in Note 1B, the general purpose financial statements referred to above do not include the General Fixed Assets Account Group, which should be included to conform with generally accepted accounting principles. The amount that should be recorded in the General Fixed Assets Account Group is not known.

In our opinion, except that omission of the General Fixed Assets Account Group results in an incomplete presentation, as explained in the above paragraph, the general purpose financial statements referred to above present fairly, in all material respects, the financial position of the Town of Conway as of December 31, 1991, and the results of its operations (and cash flows of nonexpendable trust funds) for the year then ended in conformity with generally accepted accounting principles. Also, in our opinion, the combining and individual fund financial statements referred to above present fairly, in all material respects, the financial position of each of the individual funds of the Town as of December 31, 1991, and the results of operations of such funds for the year then ended in conformity with generally accepted accounting principles.

## ASSESSOR'S REPORT

We recently received some encouraging news that real estate sales in the region were up in the last quarter of 1992. Although there are valid opinions pro and con, perhaps the report indicates that prices will not drop any lower in the future.

These are trying times for Selectmen, Assessors, other municipal officials and the taxpayer. Any town that revalued property in the late 80's forward is now faced with assessments which are above market value. At last count, New Hampshire had 120 towns or more in this situation. Everyone involved in attempting to correct the situation, made even more difficult by the reality that more often than not, the sales up to this point in time are of a distress nature.

The fact that sales may at least stabilize could help us in our effort to adjust values to more normal or realistic figures on today's market for the November bill of 1993. Tax bills will not change in every case, and properties will be affected in varying degrees.

The following graph shows the impact per \$1,000 of valuation segregated into the Municipal, County and School portions. As you can see that for various reasons, although the municipal portion has decreased since 1989, it does not necessarily mean a drop in the overall tax rate due to increases in other areas of the total budget. It does help to realize for instance, that on a \$100,000 value the breakdown is: Municipal \$381.00; County \$74.00; and School \$1,086.00 based on the 1992 rates.

Respectfully submitted,

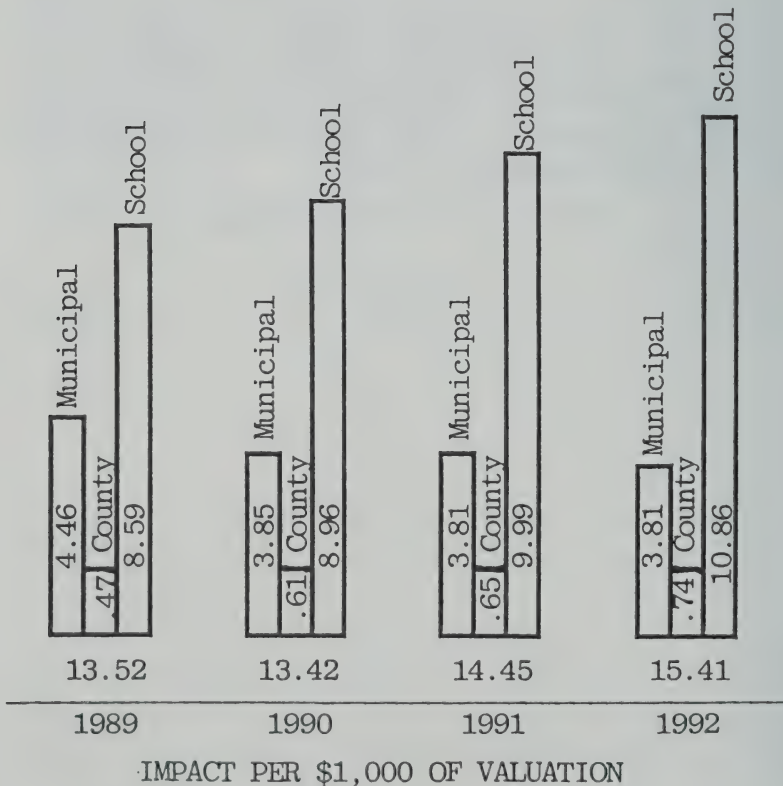

James Fennessy  
Assessor

**TAX RATE - 1992**

Municipal	3.81

## TOWN OF CONWAY PROPERTY TAX EXEMPTION AVAILABLE TO CONWAY TAXPAYERS

A PERMANENT APPLICATION for each exemption claimed below must have been filed with the assessing officials of this town prior to April 15th this year. RSA 72:33.

### Veteran Service Exemption: RSA 72:28-36

Amount=\$100 Regular Veteran, \$1400 Total & Permanent Service Connected Disability. Must be a resident of NH for at least one year prior to April 1st of year exemption is applied for. Must be separated or discharged under honorable conditions and have served during correct time periods covered in statute, or widow of same. Applies only to place of primary abode; does not apply to second homes or parcels of land.

### Optional Adjusted Elderly Exemption: RSA 72:43-h

Must be resident of NH for at least five years prior to April 1st of year exemption is applied for. Own real estate individually or jointly, if real estate owned by spouse, must have been married at least 5 years.

Have assets of \$45,000 or less, excluding the value of residence. Amount of exemption:

65 to 75 years of age, \$25,000

75 to 80 years of age, \$40,000

80 years or older, \$50,000

The applicable amount is deducted from assessed value of property before tax is figured.

### Physically Handicapped: RSA 72:37-a

“Physically handicapped person” means a person who by reason of a physical defect or infirmity permanently requires the use of special aids to enable him to propel himself. The cost of special aids which are built into the property are deducted from the valuation of the property.

### Blind Exemption: RSA 72:37

Must be legally blind as determined by The Blind Services Department of the Vocational Rehabilitation Division of the Education Department.

Amount of exemption is \$15,000 deducted from his or her residential real estate.

For information concerning the following categories, please contact the ASSESSOR'S OFFICE, TOWN HALL, CENTER CONWAY at 447-3811.

Solar Energy System: RSA 72:62

Wind Powered Energy System: RSA 72:65

**1992  
ADMINISTRATIVE ASSISTANT  
ANNUAL REPORT**

**GENERAL ASSISTANCE**

As one of the many indicators of our delicate economy in Conway, the 1992 general assistance expenditures have declined, giving us all some hope that "the light at the end of the tunnel" may not be as far away as we thought.

Historically, as the economy improves the general assistance needs of the community declines; the year 1992 has shown a MINOR decline. Actual dollars expended in 1991 was \$64,866; 1992 actual dollars expended was \$58,166, \$6,700 less than 1991. This amount may not be significant to the individual taxpayer, but it indicates a leveling of the economy and gives us all some hope towards tomorrow.

Many factors are contributing to this decrease: unemployment benefits have been extended; the Federal Fuel Assistant Program monies were not delayed this year as they were in 1991; and people have left the valley. Also, the close interaction of my office with the community's social service agencies has continued and become even stronger with the common goal of eliminating the "double dipping," thereby expending less tax dollars.

**ZONING**

The economy has reflected a slowdown in new business, therefore zoning applications have declined.

The productive amendments to the sign ordinance has reflected a more livable tool for merchants and I want to extend my gratitude to the Planner and the Planning Board for their logical and practical approach to the merchants' needs of attracting the consumer dollar while remaining aware of the beautiful gift that mother nature has given us in the valley.

Respectfully submitted,

Dale A. Frizzell  
Administrative Assistant

## TOWN PLANNER'S ANNUAL REPORT

This year the Streamlining Committee, created by the Planning Board and Selectmen, reviewed the Site Plan Review and Subdivision regulations and made suggestions to eliminate procedural inefficiencies. The Planning Board will work on implementation measures in 1993, primarily through the revision of procedures of the Site Plan Review and Subdivision regulations.

The Selectmen and Planning Board also teamed up and adopted a unified, comprehensive transportation policy for the Town. This is the Town's first truly comprehensive evaluation of its transportation situation, and it is important that both boards endorsed one set of policies to ensure that they work together rather than against each other. To compliment this effort, the *TModel2* computer traffic modelling system was updated and can now be readily used for traffic analysis. This is the computer system the Town purchased in 1989 to help with the Road and Traffic Committee's work. This model is an extremely powerful tool, and the Town should insist on its use to objectively evaluate proposals to reduce traffic congestion. Also, if it can now be linked to some sort of traffic impact standards, the Town should be able to prevent a significant worsening of the congestion problems caused by new development.

### TOTAL NUMBER OF APPLICATIONS PROCESSED

Respectfully submitted,  
Stephen H. Burns, Town Planner

## NORTH COUNTRY COUNCIL 1992 REPORT

North Country Council is the Regional Planning Commission and economic development district for 51 towns in northern New Hampshire. It is supported by local community and county dues which are used to match state and federal funding sources.

Local planning assistance provided to member towns this past year included: municipal planning, transportation planning, business and industrial planning, landscape architecture, solid waste planning, resource management, and GIS mapping. The Council provided professional assistance to Planning Boards, Boards of Selectmen, Zoning Boards of Adjustment, Conservation Commissions, Solid Waste Districts, Local Development Corporations, Non-Profit Community Organizations, Chambers of Commerce, Educational Institutions and Social Service Organizations and Agencies in all of our member towns.

During 1992 North Country Council also continued its commitment to regional planning as follows: completed the North Country's first ISTEA Transportation Plan and Transportation Improvement Program; completed a new regional economic development strategy; developed economic strategic plans with local development groups; expanded the Working Capital micro-lending program throughout the region; provided technical assistance to communities on major infrastructure projects; completed a regional wood products marketing plan; participated in the development of a statewide telecommunications network; conducted an impact assessment of new banking regulations on the businesses in the North Country; provided solid waste and recycling technical assistance to towns, schools and solid waste districts; and continued our public education initiative on forest lands issues in Coos County. All the above major activities occurred at the same time as the Council provided daily planning and development technical assistance to our members.

In the ensuing year the Council will continue its commitment to local membership services and regional problem resolution.

Persons from member towns interested in becoming involved with the Council are urged to contact their selectmen for appointment as Council representatives or committee members.

Sincerely,

Preston S. Gilbert  
Executive Director

## BUILDING DEPARTMENT REPORT

The total number of permits issued by this office in 1992 were 359. Included in these permits were 30 single-family units, 193 residential permits and 166 commercial permits.

Total building inspections performed for 10 months was 1026. There were 108 complaints received and 111 code violations found. Nine stop work orders were issued and four fines were levied and collected.

The Health Officer received over 100 complaints and he acted on the same. Also, 92 septic design plans were reviewed and approved before being sent to Concord for State approval.

Respectfully submitted,

Larry B. Wade  
Acting Building Inspector

*Lianne Boelzner - Administrative Secretary*

## CONWAY FIRE CHIEF / INSPECTOR'S REPORT

January 29, 1993

This year we have seen many changes within the Town. We have seen Don West retire from the Forest Fire Warden position, which he held for ten years. I have assumed that responsibility, along with the position of Fire Chief. The added responsibilities have shifted my time, which will make it challenging to meet the needs of all parties. Last year I completed over 600 inspections and 27 investigations. In addition, this spring and summer I was working on the street name and house numbering project. The Town roads have been completed with the private roads now being addressed.

This year I worked with groups like the Center of Hope, New England Telephone, and the Clipper Home on fire prevention programs.

This year we received a notice from B.R.K., who manufactures smoke detectors. A recall notice was issued and I worked with the local newspapers and radio to try to get the information to the public. It seemed to work, as over 850 detectors were replaced within the Town.

Again, as always, I look forward to another year of serving the people of the Town of Conway.

Respectfully submitted,

Larry B. Wade  
Conway Fire Chief / Inspector

## REPORT OF THE CHIEF OF POLICE

Another year has passed and the Police Department has been busier than ever. The U.C.R. crimes increased from 973 in 1991 to 1012 in 1992. The city of Dover, NH, which has a population of 25,042 and a 44 man Police Department, registered 1,077 U.C.R. crimes in 1991. I think this indicates how busy we are. Listed below are the 1992 U.C.R. crimes. These crimes are the top crimes that are used by the State and U.S. Government for statistics.

Criminal Homicide	1
Forcible Rape (Juv. Sexual Assaults, etc.)	34
Robbery	6
Assaults (Aggravated and Simple)	103
Burglaries	119
Larcenies	714
Car Thefts	28
Arsons	7

The New Hampshire Department of Transportation traffic recorder, which is located in the area of Duprey Road and Route 16, shows that 7,123,924 vehicles traveled the strip in the first 11 months of 1992. At the time of this report, I have not received the December count.

I am disappointed that there is a group of voters in town that has made a special effort to cut the size of the Police Department, take away benefits, and make paychecks smaller. This effort to cut the department is affecting the production and the quality of the work. We should be channeling all our energies to fight crime and protect the public; not arguing and trying to defend ourselves to a small group of voters.

In the past, I have found that if you treat the Conway Police Department employees fair, they will give 150% of themselves in return. I also know, if you publicly ridicule them, they will balk. After all, they are only human. It is easy to sit back and judge; you have to be in Law Enforcement to understand.

At this time, we have two more officers than we had in 1983 and our workload has doubled.

We have lost two patrol positions and a clerk position since January 1, 1992 due to attrition and reorganization, and any further reductions will greatly reduce the quality of Law Enforcement that we have provided in the past. It will also greatly affect the programs that we have been able to institute, such as seminars for local businesses and the D.A.R.E. Program. Our first priority is the protection of life and property.

I understand there is a move on to abolish the Police Commission. I urge the voters not to let this happen. The Police Department should not be a political pawn.

I would also like to thank the members of the Conway Police Department for their dedication and perseverance this past year.

I would also like to ask the voters of the Town of Conway to attend the Town Meeting on March 20, 1993 and show support for the Police Department. It is up to you, the voters of Conway, to show what you want for police protection. No matter what the decision is, we will still do the best we can to give you what you want.

Respectfully submitted,

William R. Scaletti  
Chief of Police

## REPORT OF THE CONWAY POLICE COMMISSION

This year has been a very trying year for the Conway Police Commission. With the budget restraints placed on all of the town, we are in the process of restructuring the Police Department in order to allow for improved operations without hindering services to the people of Conway or increasing property taxes.

We must commend the members of the Conway Police Department for their professionalism. We have a police department second to none and we all need to give them our support. They are continually putting their life on the line for us for little thanks.

The department is the 11th busiest department in the State of New Hampshire. Although we are a small town, we are more like a city of some 30 to 40 thousand people due to the fact that we are a destination tourist area. We need a department large enough to give the services required.

Even with the restraints, with our town manager's help, we were able to replace three of our cruisers. This was accomplished for less than the State bid for the vehicles. This also allowed us to reduce the fleet from nine to eight vehicles.

The Conway Police Commission was chartered in 1969 to remove the police department from the control of the selectmen. It was felt then, that the selectmen had too much control and some used it to their advantage. Without the commission this possibility could return. Today, law enforcement is very complex and I believe it to be in the best interest of the Town of Conway to retain a Police Commission and have it be able to concentrate on providing the best police department possible.

We thank you for your past support of the Police Department, and request that you vote this year, supporting the Police Department and the concept of a Police Commission.

Respectfully submitted

Conway Police Commission  
Robert F. Porter, Chairman  
Ralph L. Mead  
James L. Yeager

## PUBLIC WORKS DEPARTMENT REPORT

During the short time that I have been on the job, the two most frequently asked questions are "How do you like it" and "What does it entail." Thus far it has been a challenging and interesting blend of managerial, administrative and technical tasks, which are very much to my liking. Presently, Public Works covers the maintenance of roadways, parks, cemeteries, town vehicles and municipal buildings. The department also operates the solid waste and recycling facilities, provides engineering services, and conducts inspections.

The end of 1992 was a time of reorganization for the department. David Chase accepted the position of Highway Foreman. This promotion was well deserved and brought with it the additional responsibilities of park, cemetery and municipal building maintenance. The Town's mechanics, Mike Courville and Don Ferren, are expanding their duties to include a service program for the Police Department vehicles. Jack Sandberg was promoted to the position of Solid Waste Supervisor. Jack is now responsible for both the landfill and transfer station. In addition to reorganization, the department is also smaller this year. This is the combined result of a reduction in personnel and attrition. Both Paul Buswell and Warren James retired this year and we wish them all the best.

The milestones for 1992 include the completion of the Tasker Hill and Ledgewood Road reconstructions, the addition of composting to the recycling program, the first year of operation for the new landfill, and the adoption of Applecroft Ln, Barnes Way, Fairway Dr., Mtn. Valley Mall Blvd., Henry Cotton Rd., Hiram Philbrook Rd., and Dandi View Ext. as town roads.

In closing I would like to say that the people of Conway have been very supportive and a pleasure to work with. I look forward not only to serving the community in the coming years, but also to working with the crew. It is their dedication and hard work that makes our department operate successfully.

Respectfully submitted,  
Paul DegliAngeli, P E

*Paul A. DegliAngeli, P.E., Public Works Director/Town Engineer*

## CONWAY BOARD OF ADJUSTMENT

Activity for the Board of Adjustment in 1992 reflected the lack of development and building in the Town. Applications for appeal numbered 16 with 6 special exceptions granted, 2 with conditions imposed by the Board. Eight variances were requested with 2 withdrawn and 6 denied. There were 2 appeals from administrative decision and both were upheld.

The Board of Adjustment is responsible for the final administration of the Zoning Ordinance. The Board has three types of appeals on which it can act. Special Exceptions allow for the use of property to be altered providing that very specific conditions, as written in the ordinance, are followed. Variances are an appeal to the Board for relaxing the restrictions of the ordinance based on specific criteria that have been set forth by State Statute. An Appeal from Administrative Decision allows an applicant to challenge the decision as to building permits, zoning permits or other things that impact on their ability to obtain these permits. Appeals of decisions of the Board are then heard by the courts. All hearings are advertised in the newspaper and are open to the general public, and all abutters are notified by certified mail.

Activity for the Board is determined by the number of appeals made, and hearings must be held within certain time periods determined by State Statute; therefore, time spent by Board members is determined by the amount of activity within the community.

Respectfully submitted,

Phyllis Sherman, Chairman  
John Connolly  
John Colbath  
Donald Ekberg  
Susan Kuemmerle

## CONWAY PUBLIC LIBRARY

Our Librarian, Mrs. Margaret Marschner, and her staff of 3 full-time and 5 part-time Library Assistants, have done an outstanding job for the community. The library was open 54 hours weekly including 4 evenings and all day Saturday. We circulated books, magazines, videos, audio cassettes, and cameras through use of our computerized circulation and card catalogue systems. In 1992, we circulated more than 65,275 items and borrowed books for library patrons by using our on-line capability to access nearly one million volumes in other N.H. libraries. We added over 1000 new books which increased our total collection to over 26,250. Library staff conducted more than 100 children's programs during the year, answered over 8000 reference questions and issued 871 new library cards. The library meeting room was used by various organizations and groups for 82 non-library sponsored functions and also for 25 adult library sponsored functions. Our History room and Literacy Center served many residents both to research the past and to learn to read for the future. Memorial donations for Norman (Bud) Blake, Helen Bumstead, and Dorthea Thompson were given in 1992.

In 1993, we intend to continue to provide our library patrons with additional data-bases on CD-ROM disks and also have a word processing capability available. Library shelves will be repaired and the Literacy Center will be financed by the town to help fulfill the educational needs of adult learners.

The present Conway Public Library was built in 1900 and it is one of the architectural landmarks of our town. In 1982, the basement was renovated to expand our usable space to 4,687 square feet and helped temporarily solve some of our space problems. However, a consultant's report issued in 1989 to the Library Trustees stated a critical inadequacy in the current building and recommended that the Library Board of Trustees initiate planning for a new library. In 1990, the Library Trustees retained an architectural firm to study the need for either a new library or an addition to the current library building. The consultant's study, the architect's analysis, and the internal reviews and discussions of the Library Trustees, librarian, and staff, identified a number of problem areas within the present library. Some of the findings are listed briefly:

1. Insufficient stacks or shelves for books. Book stacks are so crowded that it's almost impossible to add any new books. Aisle spaces are narrow and general lighting is poor.
2. Books are stacked in the hallways and on the floor and being stored in the attic.
3. Work space is too small to permit cataloging and classification which require a high degree of concentration and protection from distraction.
4. Suitable study space is very limited. The large reading room has only

22 chairs to provide seating for the many junior high and high school students who use the library daily in addition to adults, as it's the only room available for study or adult reading.

5. Children's room is only 393 square feet yet the K-8 student population is booming. There is no space for parents to sit or browse with their children. The shelving is crowded and woefully inadequate for the wide range of required materials from picture books to nonfiction K-8 titles.

6. Lack of space for young adult activities.

7. Meeting room in the basement holds a maximum of 50 people only. It cannot adequately serve the range of activities that take place - film programs, adult education, discussion groups, lectures, book talks and town special events. The support columns in this room make it impossible to program many of these activities.

8. Literacy center currently uses the small employee lunch room for its training sessions.

9. Patrons entering the library must go down the stairs into the basement, cross the basement lobby area, go along a corridor, open doors, climb a set of stairs, or use the elevator to gain access to library materials.

10. Parking for library patrons is extremely inadequate with only 14 parking spaces for employees and patrons. Safety hazards are created within the crowded parking lot and on Greenwood Avenue.

11. The current usable space within the library is segmented and divided by bearing walls which make an inflexible structure to adapt to current and new needs for library services.

12. In general, the building is filled to capacity and falling short of providing the space required for its present programs.

The consultant's report recommended construction of a brand new library at another location that we would have to identify. The architectural firm, Tennant/Wallace of Manchester, N.H., recommended a 2-story 10,000 sq. ft. addition and renovation of the current library building. Based upon our review of both reports, the Library Trustees and library staff believed it would be more feasible to stay in the same location not only because of the cost effectiveness, but also the historical significance of the present location. Although the need for the increased space was critical, the Library Trustees have delayed action on the construction of the new library addition in 1992 and 1993 because of the state of the economy. However, we strongly believe we would be remiss in our responsibilities and duties if we allow these serious problem areas to continue. Thus, in the fall and winter of 1993, the Library Trustees will hold several open public meetings to inform the townspeople of more specific details on our building addition and to answer your questions.

In March 1994, we will ask the people of the Town of Conway to authorize the construction of a 1.5 million dollar addition and renovation to the present Conway Public Library. This library addition and renovation would be financed by a 20 year bond and the yearly cost would be less than 1% of the yearly school appropriation.

On the following pages, you will see a north facing view and an aerial view of the proposed addition. As you can see, the Library Trustees have kept the same architectural style of the current library.

In the past, the public library was not for everybody in town, but today it is a marketplace for our children, young adults, adults, senior citizens, and local groups. It is an educational service that is as important as any provided by the community. It is unthinkable not to provide a proper building for the educational services of the public library which serves the entire town. We ask for your support of our proposed library addition and welcome any suggestions you may have.

Bill Lehmann  
Chairman, Library Trustees

## CONWAY CONSERVATION COMMISSION ANNUAL REPORT 1992

This past year the seven members of the Conway Conservation Commission worked on a diversity of projects. The development of a Natural Resource Inventory and studying the environmental impacts of the proposed Bypass routes were the two big projects of the year. The Commission is very grateful to the many town officials and staff, in addition to the many townspeople, who helped us with the following projects:

**Natural Resource Inventory:** For the past two years the Commission has been working with a consultant to develop a natural resource inventory report for Conway's new Master Plan. The commissioners have been reviewing and making changes to better detail the Town's natural resources. This information includes a series of maps with overlays which correspond to the inventory text. The maps and the text were completed in June and the commissioners, with the assistance of Town Planner Steve Burns, have started work on establishing the goals and objectives for the inventory.

**Bypass Project:** Several of this past year's monthly meetings were devoted to the review, with the project's engineers and consultants, of the environmental impact of the various bypass options. The discussions centered around the environmental effect on several town properties, in addition to the potential impact on the town wetlands.

**Recycling:** The commission continues to work closely with the Lower Mt. Washington Valley Solid Waste District to promote and expand the recycling program in Conway. Locally-made compost bins with an excellent "how to" manual are available for sale at the Solid Waste Facility. This coming Spring, community composting for leaves and grass clippings will start at the new landfill. Conway's recycling program continues to grow thanks to the efforts and support of the community.

**Town Properties:** Each Spring and Summer the commissioners make site visits to the town conservation properties to assess and plan for future management, educational and recreational projects. The following outlines some of the activities that have taken place on town properties this past year.

**Whitaker Woods:** This past Fall, a local horse logger selectively thinned a 5-acre compartment of mixed hardwoods and conifers in Whitaker Woods. The work is being done in accordance with the Forest Management Plan developed three years ago. This plan includes complete mapping and recommendations for managing the property for recreation, wildlife and timber stand improvements. Several classes from the John Fuller School visited the site one afternoon to observe the techniques of horse logging. The Mt. Washington Valley Ski Touring Association continues to do an outstanding job grooming the cross-country ski trails and thanks also to the White Mt. Milers for the new signage for local runners.

**Puddin' Pond:** This property is being upgraded with new signs and trail clearing thanks to the efforts of a dedicated group of KHS students. The commissioners met with representatives from the Nature Conservancy on the possible collaboration on a trail system linking Puddin' Pond with the Conservancy's Green Hill property.

**Walker Pond:** There has been an increased use of this property by the Pine Tree School students and teachers. This property, located on Mill Street, has a self-guiding interpretive trail on the natural history of the land and the background of the mills on Walker Pond (now called Conway Lake). Due to the continued theft of the interpretive trail guidebooks from the storage box, the guides are now available at Town Hall.

**Common Lands:** The re-surveying of common lands is in progress.

**Dredge and Fill Permits:** Due to the continued economic slowdown, the Commission reviewed fewer Dredge and Fill Wetland Board applications than in past years. Several sites were visited to aid in making determinations of impact.

In 1992 the commission experienced some membership changes. Susan Nichols-Lucy resigned from the commission after 10 years, due to a job change. Her position was filled by Karen Franke, with Noreen Berthiaume serving as an alternate. Jac Cuddy is serving as the Selectmen's representative.

In the coming year, the Conservation Commission will continue to work on projects promoting the conservation, protection and enjoyment of our town's natural resources. We welcome your ideas and participation at our meetings held on the second Tuesday of the month at the Town Hall.

## REPORT OF PARKS & RECREATION DIRECTOR

### NEW RECREATION FACILITY

At the 1992 Town Meeting, Article 38 was approved by the voters "to see if the Town will vote to accept a gift of a deed from the Conway School District for the Old Pine Tree School property in Center Conway."

In June of this year, the Conway Recreation Department moved from the Conway Recreation Center, owned by the Conway Village Fire District, to our new home at the Conway Community Building formerly called Old Pine Tree School in Center Conway. Our new home has a multi-purpose gymnasium, which will give us more flexibility of offering the different programs to the youth and adults of the Town of Conway. In addition, there is a ball field that will be used for our various tee ball, baseball and softball teams during the spring and summer months. In the fall our flag football program utilizes this area and in the 1993-94 winter season, the skating rink will be moved to this location. The old playground equipment has been updated and moved to a new location behind the Conway Community Building.

### RECREATION PROGRAMS

The Recreation Department provides over 65 different programs and is responsible for providing programs to two-thirds of the children of Conway. Both Conway Elementary and Pine Tree students participate in our programs. This past summer the Conway Recreation Department had over 300 youngsters enrolled in our swim program at Echo Lake State Park and Conway Lake Beach.

Conway Lake Beach in Center Conway continues to receive heavy use from our swim program, public bathers and as a boat launch for the fishing and recreational user. Davis Park in Conway Village is very popular because it has the only public tennis courts in our Town. The outdoor basketball courts, playground, swimming and picnic area are heavily used during our spring-fall months. Smith-Eastman Recreation Area in Redstone and First River Bridge in North Conway are two other popular places during the summer months for swimming, canoe put-in and picnic use. Schouler Park and Hussey Park in North Conway are used for the various baseball, softball and youth leagues along with special events such as the annual Dog Show at Hussey's Park and the Arts Jubilee Event held at Schouler Park.

I would like to thank the people of the Town of Conway for their continued support of the Parks & Recreation Department.

Respectfully,

Kenneth M. Jones  
Parks & Recreation Director

## CONWAY PARKS AND RECREATION ADVISORY COMMITTEE REPORT

The highlight of 1992 for the recreation committee was the opening in October of a 3-1/2 mile trail system starting near the Smith-Eastman Bridge site in Redstone. This is Phase 1 of a town-wide trail network to be used by bicycles, cross country skiers and hikers. The committee would like to thank many volunteers, civic organizations, town highway crew and others for their work and financial help to complete this phase. The recreation committee has no budget and depends on volunteers and local contributions for projects such as this. We hope to continue this trail system network into North Conway in 1993.

The Recreation Committee continues to pursue a swimming site as identified and supported by the town voters back in 1986. During each of the 4 years following 1986, the town voted \$15,000.00 for the Recreation Swimming Area Acquisition and Development Capital Reserve Fund. There is now close to \$75,000.00 in that Reserve Fund.

One of the potential swim sites identified and recommended by the 1989 Andrews and Clark Consulting Firm study was for sale in 1992. The 17-acre Coleman property located on Pequawket Pond has approximately 1600 feet of water frontage near the widest and deepest area of the 143-acre pond. Water samples taken in 1981, 1988, and 1992 by the NH Department of Environmental Services found no abnormalities and it was classified as Class B, suitable for swimming and recreation activities. Kearsarge Metallurgical site located downstream posed no hazardous waste pollution to this swimming site. With little cost, a beach site could be swimmable by 1994.

The Committee meets the first Tuesday of the month at 7:00 PM in the Town Community Building in Center Conway. Ideas and suggestions are always welcome.

### Members of the Advisory Committee

## NORTH CONWAY COMMUNITY CENTER ANNUAL REPORT 1992

The past 12 months could be looked upon as in what direction the North Conway Community Center will be going in during the decade of the 90's.

In early January a small group of us put together the First Annual Easter Parade Program. Over 1000 were on hand and the response the business people of our valley gave was excellent. The "Bunny Express" and other events are already being planned for this 1993 event.

The Children's Theater Group got off the ground with 26 youngsters meeting regularly with our 2 directors and the production "The Inside Pitch" was offered to the community in August. There were 3 performances in our playground with large groups attending. Plans are underway for this summer already.

In the late Spring the local business firm of Tuckerman's Outfitters asked for the use of our land for a Tent Sale. We came to a financial agreement and after meeting with the Town Planning Board to get approval, the event took place in early August.

From the unanticipated income from Tuckerman's Outfitters we were able to proceed in the late fall with our plans to improve our programs aimed at the Junior and Senior High School students.

Our regular programs of Cub Scouts, hockey, soccer, basketball, softball, Playground activities, Special Events and many others are showing increased numbers of youngsters.

The Town is growing and the Community Center must continue to make every effort to go beyond the "status quo" to provide the types of activities that our youngsters want.

In closing I would like to thank all of you who helped in some way. Without your contribution all of the programs already mentioned would not have been possible.

Sincerely,

Kim Perkins, Director  
North Conway Community Center
