SELECTMEN'S REPORT

The Conway Board of Selectmen gained two members after the election in March. With a Town our size we need the diversity of views and solutions now available for giving guidance to our Town Manager. The transition went smoothly and, we feel, has been a positive step for the Town.

The common theme of the year appears to have been a continuous effort to coordinate and work cooperatively with the different governmental bodies in the Town. The Selectmen met with the School Board, Police and Precinct Commissioners, as well as the Library Trustees. It is an effort to serve the best interests of all Conway's residents.

We have worked with the various fire departments to get the individual fire budgets funded on a Townwide basis, making the support for fire protection equitable.

Conway Village Fire District, along with the Town, is helping EPA move forward with the cleanup of the Kearsarge Metallurgical property on Hobbs Street. Cooperatively, we are disposing of the treated groundwater from the site. It is hoped that with the cleanup underway, the property will soon be available for productive use.

Yield House Industries, Inc. as represented by Claude Jeanloz, presented a different challenge. The Town was able to assist in the move from Rte. 16 to Hobbs Street and with financial support via the Conway Revolving Loan Fund; also acting as a conduit for a Community Development Block Grant for the State.

An outgrowth of this activity has been the creation at the Town Hall of a team whose responsibility is to encourage and support existing businesses in expansion and new businesses in establishment in Conway.

There is one other project which the Selectmen have supported, and which is now in progress; that is the replacement of the Mill Street Bridge in Center Conway. By this time next year we hope, with the help of the State, to be well on the way to completion of a new stone-faced bridge at the site.

Finally, we want to thank the Town Hall and Public Works staff for their acceptance of employee participation in health insurance costs. They stand as an example for all the public employees of Conway.

This has been a constructive year for the Board of Selectmen, made better by the enlargement of the Board. We hope you feel that we are responsive to Conway's needs.

Respectfully submitted,

CYNTHIA B. BRIGGS, Chairman
Board of Selectmen

CONWAY BOARD OF SELECTMEN

Raymond E. Leavitt, Jr. & Paul D. Whetton*

CONWAY TOWN WARRANT STATE OF NEW HAMPSHIRE

TO THE INHABITANTS OF THE TOWN OF CONWAY, County of Carroll, in the State of New Hampshire, qualified to vote in Town Affairs:

You are hereby notified to meet at the Karl Seidenstuecker Auditorium at Kennett High School, Conway, New Hampshire, on Tuesday, the eighth day of March, 1994, at eight o'clock in the forenoon to act upon the following subjects hereinafter set forth. Voting on Articles 1 through 18 will be by official ballot, and the polls shall open for balloting at eight o'clock in the forenoon or as soon thereafter as the Moderator calls the meeting to order and declares a quorum present. The remaining articles of the Warrant shall be acted upon at eight thirty o'clock in the forenoon on Saturday, the twelfth day of March, 1994.

ARTICLE 1. To choose all necessary officers.

ARTICLE 2. To see whether or not the Town will vote to adopt Amendment No. 1 as proposed and recommended by the Planning Board for the Town Zoning Ordinance deleting certain definitions and inserting several new definitions into the Zoning Ordinance.

ARTICLE 3. To see whether or not the Town will vote to adopt Amendment No. 2 as proposed and recommended by the Planning board for the Town Zoning Ordinance amending provisions of Conway Code 147-4.C(1) to authorize the Zoning Officer to approve expansion of the two-dimensional footprint of non-conforming structures.

ARTICLE 4. To see whether or not the Town will vote to adopt Amendment No. 3 as proposed and recommended by the Planning Board for the Town Zoning Ordinance amending provisions of Conway Code 147-4.C(2) to authorize the Zoning Officer to approve the expansion of the three-demensional envelope of non-conforming structures.

ARTICLE 5. To see whether or not the Town will vote to adopt Amendment No. 4 as proposed and recommended by the Planning Board for the Town Zoning Ordinance amending provisions of Conway Code 147-11.A(4) to define and permit farm and nursery stands.

ARTICLE 6. To see whether or not the Town will vote to adopt Amendment No. 5 as proposed and recommended by the

Planning Board for the Town Zoning Ordinance amending provisions of Conway Code 147-11.1 to delete the term “edge of water” and insert “normal high water elevation” throughout the entire Zoning Ordinance.

ARTICLE 7. To see whether or not the Town will vote to adopt Amendment No. 6 as proposed and recommended by the Planning Board for the Town Zoning Ordinance amending provisions of Conway Code 147-17.C to reduce the minimum setback of structures to 25 feet from seasonal streams.

ARTICLE 8. To see whether or not the Town will vote to adopt Amendment No. 7 as proposed and recommended by the Planning Board for the Town Zoning Ordinance amending provisions of Conway Code 147-19.B(1)(j) to change the size of the message areas of real estate signs to 16 square feet in all districts.

ARTICLE 9. To see whether or not the Town will vote to adopt Amendment No. 8 as proposed and recommended by the Planning Board for the Town Zoning Ordinance amending provisions of Conway Code 147-19.C to establish a \$35.00 fee for sign applications and require the Zoning Officer to perform final inspection of a sign once erected.

ARTICLE 10. To see whether or not the Town will vote to adopt Amendment No. 9 as proposed and recommended by the Planning Board for the Town Zoning Ordinance amending provisions of Conway Code 147-19.D(1)(a)[2] to delete the existing provisions on projecting signs in the Highway Commercial District and Village Commercial District and establish a new definition as to size and location of projecting signs in those Districts.

ARTICLE 11. To see whether or not the Town will vote to adopt Amendment No. 10 as proposed and recommended by the Planning Board for the Town Zoning Ordinance amending provisions of Conway Code 147-19.I(1) to permit buntings and County and Town flags to be displayed on a lot.

ARTICLE 12. To see whether or not the Town will vote to adopt Amendment No. 11 as proposed and recommended by the Planning Board for the Town Zoning Ordinance amending provisions of Conway Code 147-21.B(3) to increase the boundaries of the Conway Village Commercial District to include certain specific parcels of land along Hobbs Street within such District.

ARTICLE 13. To see whether or not the Town will vote to

adopt Amendment No. 12 as proposed and recommended by the Planning Board for the Town Zoning Ordinance amending provisions of Conway Code 147-21.C(2) to delete from the Residential/Agricultural District a certain specific parcel of land (thereby changing the District boundaries) which will now be included in the North Conway Village Commercial District.

ARTICLE 14. To see whether or not the Town will vote to adopt Amendment No. 13 as proposed and recommended by the Planning Board for the Town Building Construction Ordinance amending provisions of Conway Code 88 regarding building construction to conform to the building height requirements as provided under the Conway Zoning Ordinance in Conway Code Chapter 147-17.2.

ARTICLE 15. To see whether or not the Town will vote to adopt Amendment No. 14 as proposed and recommended by the Planning Board for the Town Life Safety Code amending provisions of Conway Code 90 to delete the adoption of the 1988 edition of the National Life Safety Code and adopting by incorporation into Conway Chapter 90 the most recent edition of the "Life Safety Code, NFPA Doc. No. 101" as enforced by the State of New Hampshire Fire Marshal's office.

ARTICLE 16. To see whether or not the Town will vote to adopt Amendment No. 15 as proposed and recommended by the Planning Board for the Town Code by adopting Conway Code 90A entitled "Fire Prevention Code" which establishes minimum regulations regarding hazardous substances and their use by incorporation into new Conway Code Chapter 90A "The BOCA National Fire Prevention Code, Ninth Edition, 1993" together with other amendment provisions all to become effective on passage of this amendment.

ARTICLE 17. To see whether or not the Town will vote to adopt Amendment No. 16 as proposed and recommended by the Planning Board for the Town Building Construction Code amending provisions of Conway Code 89 to adopt by incorporation in Chapter 89 the most recent edition of "The BOCA National Building Code" controlling certain buildings and structures in designated use groups and multiple dwelling units, together with other provisions to include fee schedules, violation penalties and other terms all to become effective on passage of this amendment.

ARTICLE 18. To see whether or not the Town will vote to

adopt Amendment 17 as petitioned by Robert C. Currier and others for the Town Zoning Ordinance amending provisions of Conway Code 147-19.E to add subsection (2) to allow for vehicle-oriented off-site commercial signs within the Highway Commercial District in North Conway. Not recommended by the Planning Board.

ARTICLE 19. To see if the Town will vote to raise and appropriate the sum of One Million Five Hundred Thousand Dollars (\$1,500,000) for the purpose of constructing an addition to the Conway Public Library, to include improvements to the existing structure; and to authorize the Selectmen to borrow up to said sum under the Municipal Finance Act, with the Selectmen authorized to arrange all terms and conditions of such borrowing and its repayment, to be acted on by separate ballot of the town. Agreeable to a petition signed by A. William Lehmann and others. Recommended by the Board of Selectmen (5-0-0). Recommended by the Budget Committee (12-0-0).

ARTICLE 20. To see if the Town will vote to establish West Side Road of North Conway to become a Town Scenic Road in accordance with the provisions of RSA 231:157 and 231:158 (NH Revised Statutes Annotated, 1993). Agreeable to a petition signed by Richard Davis and others. Not recommended by the Board of Selectmen (5-0-0).

ARTICLE 21. To see if the Town will vote to raise and appropriate up to the sum of Three Hundred Fifty Thousand Seven Hundred Sixty Four Dollars (\$350,764) to be paid to the following precincts/district for the services indicated:

PRECINCT/DISTRICT	SERVICES	AMOUNT NOT TO EXCEED
North Conway Water Precinct	Fire Rescue	\$187,764
Conway Village Fire District	Fire Rescue Ambulance	104,000
Center Conway Fire Precinct	Fire	<u>59,000</u>
	TOTAL	\$350,764

Adoption of this article will result in a more uniform and equitable assessment of the costs for emergency services. The exact amount to be raised will be adjusted based upon appro-

priations and other revenues reported by each precinct/district to the NH Department of Revenue Administration at the time the property tax rates are established. However, in no case shall the amount raised exceed the amounts indicated above for each precinct/district. Proposed and recommended by the Board of Selectmen (5-0-0). Recommended by the Budget Committee (9-2-0).

ARTICLE 22. To see if the Town will vote to raise and appropriate up to the sum of Thirty Two Thousand Three Hundred Eighty Five Dollars (\$32,385.00) to be paid to the following private volunteer fire departments for the services indicated:

VOLUNTEER FIRE DEPT.	SERVICES	AMOUNT TO TO EXCEED
Redstone	Fire	\$10,921
East Conway	Fire	<u>21,464</u>
	TOTAL	\$32,385

Adoption of this article will result in a more uniform and equitable assessment of the costs for emergency services. An agreement covering fire protection services shall be mutually approved by each department and the Board of Selectmen of Conway, with all terms and conditions thereof to be as finally accepted and executed by said Board of Selectmen (and which agreement shall require each department to meet all requirements of private Firefighting Units pursuant to RSA 154:1-c and the related controlling statutes on or before January 1, 1996, in order to continue to qualify for further funding support after said date.) Proposed and recommended by the Board of Selectmen (5-0-0). Recommended by the Budget Committee (11-0-0).

ARTICLE 23. To see if the Town will vote to approve an initial three (3) year contract between the Town of Conway and North Conway Ambulance, Inc. beginning April 1, 1994, with an indefinite one (1) year rollover clause which, if not executed by the Board of Selectmen at its discretion, shall then terminate the contract at the end of the next two year term. Proposed and recommended by the Board of Selectmen (4-0-1). Recommended by the Budget Committee (7-5-1).

ARTICLE 24. To see if the Town will vote to raise and appropriate the sum of Eighty Two Thousand Five Hundred Three Dollars (\$82,503.00) to fund the new ambulance contract from April 1, 1994 to December 31, 1994. Proposed and recommended by the Board of Selectmen (4-0-1). Recommended by the Budget Committee (10-0-1).

ARTICLE 25. To see what sums of money the Town will vote to raise and appropriate for the following purposes:

GENERAL GOVERNMENT

- Executive
- Election, Registration & Vital Statistics
- Financial Administration
- Revaluation of Property
- Legal Expenses
- Employee Benefits
- Planning & Zoning
- Government Buildings
- Cemeteries
- Insurance

- Patriotic Purposes

CONSERVATION

DEBT SERVICE

- Principal of Long-Term Bonds and Notes
- Interest Expense - Long-Term Bonds and Notes
- Interest Expense - Tax Anticipation Notes

NEW HIGHWAY EQUIPMENT

CAPITAL RESERVE FUNDS

See State Form MS-7, Budget of the Town of Conway, NH, attached hereto and incorporated under this article.

ARTICLE 26. To see if the Town will vote to raise and appro-

appropriate the sum of Thirty Eight Thousand Dollars (\$38,000) for the purpose of initiating a program to bring municipal facilities into compliance with the Federal ADA laws and building codes. The expenditures for 1994 are to be expended for the following:

- A. Community Building (Recreation): \$25,000 - Restroom access from gym level, ramp access to above grade level.
- B. Conway Library: \$6,000 - Staff and public restrooms, 2nd basement exit, emergency lighting. (Note: requested appropriation to be deleted by this amount if bond issue for Library addition is approved).
- C. Town Hall: \$7,000 - Handicap ramp and stairs to 2nd floor.

[Should amend to \$32,000, deleting item B, if Library bond issue is approved.] Proposed and recommended by the Board of Selectmen (5-0-0). Recommended by the Budget Committee (12-0-0).

ARTICLE 27. To see if the Town will vote to approve the cost items of a one year COLLECTIVE BARGAINING AGREEMENT for the calendar year 1994 between the Town of Conway and AFSCME #93, Local #859, Department of Public Works, having a total estimated contract cost for 1994 of \$487,640, and to see if the Town will authorize to raise and appropriate a sum of \$12,000 for one item increase not contained within the 1994 Town budget article, but included in the total contract cost: Merit Performance Account - \$12,000. The following contract cost comparisons are provided for information and clarity:

Item	1993 Actual	1994 Budgeted
Health Insurance	59,767	56,070
Dental Insurance	1,750	0
Clothing	8,006	10,703
Disability Insurance	2,847	3,076
Life Insurance	689	791
Wages	395,700	405,000
Merit Performance	9,300	12,000
	<u>478,059</u>	<u>487,640</u>

[The net increase cost of contract is \$9,581 or 1.8%] Proposed and recommended by the Board of Selectmen (5-0-0). Recommended by the Budget Committee (11-1-0).

ARTICLE 28. To see if the Town will vote to raise and appro-

appropriate the sum of Forty Thousand Dollars (\$40,000.00) for the purpose of a NEW COMPUTER SYSTEM, HARDWARE-SOFTWARE, FOR THE POLICE DEPARTMENT, as proposed by the Police Commission. Recommended by the Board of Selectmen (5-0-0). Recommended by the Budget Committee (9-1-1).

ARTICLE 29. To see if the the Town will vote to establish a CAPITAL RESERVE FUND FOR HIGHWAY EQUIPMENT, and to raise and appropriate Ninety Thousand Dollars (\$90,000.00) for 1994. Planned expenditures for 1994 are as follows:

- a. Rebuild 1984 Loader - \$10,000
- b. Replace 1984 International Dump Truck, to include wing plow package - \$60,000
- C. Replace 1982 one ton truck with new one ton truck - \$20,000.

Proposed and recommended by the Board of Selectmen (5-0-0). Recommended by the Budget committee (12-0-0).

ARTICLE 30. To see if the Town will vote to establish a CAPITAL RESERVE FUND FOR SOLID WASTE EQUIPMENT, and to raise and appropriate Sixty One Thousand Dollars (\$61,000.00) for 1994. Planned expenditures for 1994 are as follows:

- a. Replace 1978 Chevrolet Tractor with newer used tractor - \$21,000.
- b. Replace 1984 Trash Trailer with a new trailer - \$40,000.

Proposed and Recommended by the Board of Selectmen (5-0-0). Recommended by the Budget Committee (12-0-0).

ARTICLE 31. To see if the Town will vote to raise and appropriate the sum of Four Hundred Eighty Six Thousand One Hundred Forty Five Dollars (\$486,145.00) to RECONSTRUCT THE MILL STREET BRIDGE, provided the Town receives from the State project funding approval with 80% of the project cost to be reimbursed by the State. Proposed and recommended by the Board of Selectmen (5-0-0). Recommended by the Budget Committee (12-0-0).

ARTICLE 32. To see if the Town will vote to raise and appropriate the sum of Eighty Thousand Sixty Dollars (\$80,060.00), said sum to be allocated to the NORTH CONWAY COMMUNITY CENTER Board of Directors. Agreeable to a petition signed by Dennis J. Duprey and others. Recommended by the Board of Selectmen (4-1-0). Not Recommended by the Budget Committee (0-8-2).

ARTICLE 33. To see if the Town will vote to raise and appropriate the sum of Seven Thousand One Hundred Fifty Dollars (\$7,150.00) for the support of the COMMUNITY ACTION OUTREACH PROGRAM. Also to see if the Town will vote to raise and appropriate the sum of Two Hundred Dollars (\$200.00) for the support of the BIG BROTHERS/BIG SISTERS ORGANIZATION administered also by the Tri-County Community Action Program. Agreeable to a petition signed by Barbara S. Bryant and others. Recommended by Board of Selectmen (5-0-0) for Community Action Outreach Program and Big Brothers/Big Sisters Organization. Recommended by Budget Committee (8-0-2) for Community Action Outreach Program; 9-0-1 for Big Brothers/Big Sisters Organization.

ARTICLE 34. To see if the Town will vote to raise and appropriate the sum of Two Thousand Forty Three Dollars (\$2,043.00) in support of CARROLL COUNTY AGAINST DOMESTIC VIOLENCE & RAPE'S SHELTER FOR BATTERED WOMEN AND CHILDREN. Agreeable to a petition signed by Paula Smith and others. Recommended by the Board of Selectmen (5-0-0). Recommended by the Budget Committee (8-1-1).

ARTICLE 35. To see if the Town will vote to raise and appropriate the sum of Twenty Three Thousand Seven Hundred Nineteen Dollars (\$23,719.00) for support of the GIBSON CENTER FOR SENIOR SERVICES. Agreeable to a petition signed by Howard C. Dickinson and others. Recommended by the Board of Selectmen (5-0-0). Recommended by the Budget Committee (8-0-2).

ARTICLE 36. To see if the Town will vote to raise and appropriate the sum of Ten Thousand Four Hundred Forty Dollars (\$20,440.00) for the VISITING NURSE SERVICES OF NORTHERN CARROLL COUNTY, INC. Agreeable to a petition signed by Verland Ohlson and others. Recommended by the Board of Selectmen (5-0-0). Recommended by the Budget Committee (10-0-0).

ARTICLE 37. To see if the Town will vote to raise and appropriate the sum of Three Thousand Dollars (\$3,000) for the NORTH CONWAY DAY CARE CENTER. Agreeable to a petition signed by Deryl M. Fleming and others. Recommended by Board of Selectmen (5-0-0). Recommended by the Budget Committee (9-0-1).

ARTICLE 38. To see if the Town will vote to raise and appropriate the sum of Eighteen Thousand Forty Dollars

(\$18,040.00) for the support of the CHILDREN'S HEALTH CENTER (formerly named the Children and Youth Project of MWV). Agreeable to a petition signed by Evelyn B. Dole and others. Recommended by the Board of Selectmen (4-1-0). Recommended by the Budget Committee (8-2-1).

ARTICLE 39. To see if the Town will vote to raise and appropriate the sum of Three Thousand Dollars (\$3,000) for the CONWAY VILLAGE CHAMBER OF COMMERCE. These funds to be utilized to operate and administer the Information Booth, as well as to organize the Christmas Parade, the Conway Village Festival, and other activities which benefit the Conway Community. Agreeable to a petition signed by Steven P. Cote and others. Recommended by the Board of Selectmen (5-0-0). Recommended by the Budget Committee (9-0-1).

ARTICLE 40. To see if the Town will vote to raise and appropriate the sum of Four Thousand Dollars (\$4,000.00) for the Early Intervention Program (birth to 3 years) of CHILDREN UNLIMITED, INC. Agreeable to a petition signed by Maryellen LaRoche and others. Recommended by the Board of Selectmen (5-0-0). Recommended by the Budget Committee (7-3-0).

ARTICLE 41. To see if the Town will vote to raise and appropriate the sum of One Thousand Seven Hundred Seventy Six Dollars (\$1,776.00) for the FAMILY SUPPORT PROGRAM OF THE CENTER OF HOPE. Agreeable to a petition signed by Todd. L. VanderSchaaff and others. Recommended by the Board of Selectmen (5-0-0). Recommended by the Budget Committee (6-2-2).

ARTICLE 42. To see if the Town will vote to raise and appropriate the sum of Five Thousand Dollars (\$5,000.00) to defray the operating expenses of the services and programs as carried out by the MT. WASHINGTON VALLEY CHAPTER OF THE AMERICAN RED CROSS. Agreeable to a petition signed by Jeffrey Ohman and others. Recommended by the Board of Selectmen (5-0-0). Recommended by the Budget Committee (10-0-0).

ARTICLE 43. To see if the Town will vote to raise and appropriate the sum of Three Thousand dollars (\$3,000.00) for the MT. WASHINGTON VALLEY CHAMBER OF COMMERCE, said funds to be dedicated to the Chamber's Visitor Information Services. Agreeable to a petition signed by Helen

Garcia and others. Recommended by the Board of Selectmen (4-1-0). Recommended by the Budget Committee (5-4-1).

ARTICLE 44. To see if the Town will vote to raise and appropriate the sum of Seven Thousand Four Hundred Seventy Eight Dollars (\$7,478.00) to assist CARROLL COUNTY MENTAL HEALTH SERVICES. Agreeable to a petition signed by Claire Chimmick and others. Recommended by the Board of Selectmen (4-1-0). Recommended by the Budget Committee (5-3-2).

ARTICLE 45. To see if the Town will vote to raise and appropriate the sum of Seven Thousand Six Hundred Seventy Eight Dollars (\$7,678.00) to assist the FAMILY HEALTH CENTRE. Agreeable to a petition signed by Benita Silver and others. Recommended by the Board of Selectmen (4-1-0). Recommended by the Budget Committee (4-3-3).

ARTICLE 46. To see if the Town will vote to raise and appropriate the sum of Seven Thousand Five Hundred Dollars (\$7,500.00) for operating expenses for the EASTERN SLOPE REGIONAL AIRPORT. Agreeable to a petition signed by Ralph W. Wiggin and others. Recommended by the Board of Selectmen (4-1-0). Recommended by the Budget Committee (9-0-1).

ARTICLE 47. To see if the Town will vote to raise and appropriate the sum of One Thousand Three Hundred Dollars (41,300.00) to be used to make payment for renewing insurance coverage for the EASTMAN-LORD HOUSE MUSEUM. Agreeable to a petition signed by Susan K. Proctor and others. Recommended by the Board of Selectmen (5-0-0). Recommended by the Budget Committee (9-0-1).

ARTICLE 48. Shall the Town accept the provisions of RSA 202-A:4-c providing that any town at an annual meeting may adopt an article authorizing indefinitely, until specific rescission of such authority, the Public Library Trustees to apply for, accept and expend, without further action by the Town Meeting, unanticipated money from a State, Federal or other governmental unit or a private source which becomes available during the fiscal year? Proposed by the Library Trustees.

ARTICLE 49. To see if the Town will accept the provisions of RSA 80:42 and 80:80 to authorize indefinitely until rescinded, the Selectmen to sell at their discretion, at public auction, any real estate in the Town to which the Town has title by Collector's Deed; except when it is being sold back to the for-

mer owner, or to a party who has succeeded to the title of the former owner, in which case private sale may be utilized.

ARTICLE 50. Pursuant to the provisions of RSA 674:40-a, shall the Town vote to delegate to the Board of Selectmen of the Town the authority, indefinitely until specific rescission of such authority, to allow the Selectmen to accept dedicated streets. The Selectmen must hold a public hearing on the proposed acceptance prior to taking action. Once accepted, the street shall have the status of a public highway pursuant to the provisions of RSA 674:40-a.

ARTICLE 51. Shall the Town accept the provisions of RSA 31:95b providing that any town at an annual meeting may adopt an article authorizing indefinitely, until specific rescission of such authority, the Selectmen to apply for, accept and expend, without further action by the Town Meeting, unanticipated money from a state, federal, or other governmental unit or a private source which becomes available during the fiscal year? Proposed by the Board of Selectmen.

ARTICLE 52. To see if the Town will vote to authorize the Board of Selectmen to accept gifts of personal property which may be offered to the Town for any public purpose, pursuant to RSA 31:95-e. The Selectmen must hold a public hearing before accepting such gift, and the acceptance shall not bind the Town to raise, appropriate, or expend any public funds for the operation, maintenance, repair or replacement of any such personal property. Proposed by the Board of Selectmen.

ARTICLE 53. Shall the Town accept the provisions of RSA 33:7 providing that any Town at an annual meeting may adopt an article authorizing indefinitely, until specific rescission of such authority, the Selectmen to issue tax anticipation notes? Proposed by the Board of Selectmen.

ARTICLE 54. To see if the Town will vote to authorize the Board of Selectmen to accept, on behalf of the Town, gifts, legacies, and devises made to the Town in trust for any public purpose, as permitted by RSA 31:19. Proposed by the Board of Selectmen.

ARTICLE 55. To see if the Town will vote to authorize the Selectmen to withdraw Capital Reserve Funds established by the Town from time to time, and disburse the same in accordance with the purposes for which such funds were created

respectively. Proposed by the Board of Selectmen.

ARTICLE 56. To act upon any other business that may legally come before said meeting.

Given under our hands and seal at Center Conway, New Hampshire, this 17th day of February, 1994.

TOWN MANAGER'S REPORT

"Positive attitudes cure problems, allow team building, and help achieve efficiency and productivity in the work place."

Jim Somerville - 1994

If one reviews the goals set in last year's report, it is gratifying to be able to say that it has been a GOOD year.

The employees' transition to a new Town Manager and different management style carried over from 1992 to 1993, and by mid year the Winning Team was beginning to gel. Morale started back, production increased, problems were being resolved and the concepts of working together, mutual trust and positive attitude were self generating an accountable productive result and a more content environment in the workplace. The Town's people should be justly proud of the Town employees who serve them. As Town Manager, I can assure you, I am!

Support at Town Meeting for the budget was appreciated. It allowed management to move forward with a lean operating budget while at the same time it gave flexibility to resolve some major labor/benefit issues. Financially, I refer you to the Annual Budget Narrative contained herein. As a brief highlight, we operated at the same or lower funding level for the fourth year in a row, and maintained the same levels of service at increased productivity.

The organizational aspects did not undergo much change in 1993. Major restructuring had taken place in 1992. It was necessary in 1993 to be sure that the downsizing in conjunction with cross utilization of manpower and team building was going to work. Relocation of staff within Town Hall, along with improvements in computerization, did take place and resulted in a measurable increase in efficiency of operations. Opportunities for training and development of competency skills were made available to employees. Training also increases proficiency and productivity and encourages career orientation of employees.

Economic development had a positive upturn in 1993. I envision 1994 to continue that trend. Myself, staff, Board of Selectmen, Planning Board, Mt. Washington Valley Economic Council and Mt. Washington Valley Business Development Corporation, along with State agencies, are all making cooperative efforts to posture and present the Conway area as a viable place for businesses to locate and grow which, in turn,

will generate diversified jobs and a more balanced economy.

During 1993 the employees, under my jurisdiction, went to a merit/performance pay system. The identified problems encountered in implementing the program have been ironed out for 1994. It will probably take another two years to fine-tune the system. An all out effort has been made for the system to be fair, objective, and non discriminating, with rewards based on obtainable goals and expectations which are set together between the rater and ratee. I ask that you continue to support the program. People say "take a leadership role." We have done just that as this system breaks from the norm in municipal government. It is working, and as time will allow it to be refined, it will work even better.

I want to thank my staff for their patience, loyalty, and work ethics during 1993. I am also grateful to the Board of Selectmen for its continued support, our ability to dialogue, to disagree but understand, and the realization that myself and all Board members, regardless of belief or opinion, have a common goal in doing what is best for the citizens and trying to make Conway a better place to live.

To the public, I respect your trust in me to "get the job done" in an accountable manner. If you have concerns or problems with your Town government, please do not hesitate to give me a call or drop by and see me. Those who serve you will always do their best.

Respectfully submitted,

JAMES B. SOMERVILLE
Town Manager

Conway Town Hall

ANNUAL NARRATIVE FINANCIAL/ BUDGET REPORT TOWN REPORT SUPPLEMENT

Submitted by: James B. Somerville, Town Manager
January 1, 1994

OPENING COMMENTS:

The purpose of this report is to provide the Town's residents, taxpayers and voters with a vehicle to better understand the annual budget which they are being asked to vote on. The report attempts to take \$5 million of complex numbers and put them into logical words, with insight into management's financial philosophy, and how the operations, services and manpower relate to the budget. In addition, the report highlights increases and decreases, and provides an overview of the Town's financial condition and posturing in today's economy.

I carry forward my confidence from last year that the Town of Conway will vote with a better understanding of the operational budget, and will support the budget as accountable and responsible in the providing of municipal services in an efficient manner.

GENERAL OVERVIEW:

A. The Town's Financial profile greatly improved going from 1992 to 1993 as a result of varied circumstances.

1. 1992 saw management change in both personnel and philosophy. A deficit recovery through many efforts and checks/balances was successful, and 1993 started and finished with austerity and accountability.
2. Action from Town Meeting floor increased the requested/recommended budget by \$157,000 with its purpose intended for health benefits. This was not anticipated, but did enable myself and the Board of Selectmen to resolve some demoralizing labor disputes and put into place a 3-year transitional program to achieve 50% cost sharing of health insurance benefits. With the President's efforts in health reform, the issue is far from being permanently resolved (if that is possible) and it is difficult to say where we will be with insurance programs and costs three years from now.
3. In September the voters supported the funding for a property revaluation. The cost was reflected in the 1993 tax rate and is not a carry over to 1994. Even with the

\$285,000 appropriation and the \$157,000 in 2 above, the tax rate for the Town operating budget stayed at \$3.81.

4. Welfare remained a problem. I was wrong in projecting that a stabilized economy would reflect the same in welfare costs. The same was true throughout the State. A lesson learned is that it appears welfare needs bottom out a year or two after the economy does. If this is true, we should see some improvement in 1994.
5. The landfill leachate recycling program has met with frustration, primarily due to the unpredictable weather and the high cost of removing excess leachate. The North Conway sewer facility is the long range solution. The line item in the 1994 budget is reflective of historical costs.
6. A winter like the ones we used to have "caught us off guard" requiring some adjustments in prioritizing of other highway projects. For 1994 we have budgeted for another winter like 1993.

B. All the ups and downs of operations and dealing with the unanticipated, emphasizes the need for our existing Gross Budget Law. Management flexibility and decision making with the check and balance of approval by the Board of Selectmen allows adjustments to operations based on necessity and prioritizing, while at the same time staying within total budget. With that vested authority, obligations of municipal services were maintained and the year closed out with a surplus of \$150,000 (subject to audit).

BUDGET PHILOSOPHY:

The budget philosophy for 1994 continues the trend of 1992 and 1993 which was stated as "continuing to evaluate each and every department, identify areas of excess, ways to consolidate and cross train/utilize manpower, find more effective ways to get the job done or to purchase services/supplies, continually ask questions such as: Can it wait? Do we need it? Can we do it for less cost? Can someone else do it? Where is it on a prioritized list? Is the service essential? etc." this budget philosophy has generated a 1994 budget which is manageable and is accountable. Department heads, Budget Committee members, Selectmen, Commissioners, Trustees and others participated in a workshop this year to learn the Budget Law, discuss philosophy and goals, and to build budgets through a process based on historical data, identified needs, service/mis-sion obligations, prioritizing, impact dialogue and transposition to dollar costs onto budget forms. There is nothing arbi-

trary within the 1994 budget. It is a reflection of hard work by people who care and is another step in "running a five million dollar operation like a business."

BUDGET ANALYSIS:

Only significant changes from the 1993 budget are discussed:

Executive:

Salaries:

A. Selectmen - The expansion to five members began mid March 1993. The change in budget represents 5 Board Members for the entire year with no increase in annualized individual amount.

B. Town Manager & Public Works Director - Change is merit performance raise received during 1993 and annualized for 1994.

C. Non Union Merit - In 1993 \$14,664 was appropriated to implement a merit/performance pay system. At year's end \$12,381 was expended and distributed into the non union salary accounts. For example, \$4,000 was transferred to Police Labor and \$1,732 to the Library with the balance distributed as earned among 18 non union personnel (an average of \$369 in 1993 earnings). The initial appropriation represented 3% of the non union payroll. Following Town Meeting a newly formed Teamsters bargaining unit dissolved and we were able to absorb them into the system and still not exceed the line item budget dollars. For 1994 the amount shown for appropriation is also 3% of payroll, but the Library and Police non union are not included as the merit account is now funded within their budgets.

Expenses:

Seminar & Professional Development - All expenses, including travel for courses, conferences, seminars are contained in this line item. Professional development is important to retain proficiency, skills and current knowledge. Services can be more efficiently provided with a competent career oriented professional staff. At an average per employee cost of \$360 a year it is a good investment in those who serve you.

Office:

A. Salaries - 1993 merit raises are included, but the request-

ed amount is less because the position of Assessing Secretary/Clerk is now shown in the Revaluation of Property Department.

B. Town Reports - The size of the report has been expanded to provide more usable information for the Conway citizens.

C. Programming - In 1993 an additional amount was appropriated to do a payroll software enhancement. The figure has been readjusted downward for 1994.

Election, Registration & Vital Statistics: There is a State Primary and fall election this year. The increase reflects 3 versus one election.

Revaluation of Property:

A. Assessor - In April 1993 the Town no longer had an Assessor on board and a massive project was underway involving consultants from the State's Department of Revenue Administration, Appraisal Division, and two temporary project assistant employees and a new Assessing Secretary. By the end of the summer it was deemed to be of proper timing to begin a search for a new Assessor. Janis Carruth, an experienced professional with state-of-the-art knowledge, energy level, disciplines and personality necessary to turn the department around, joined the team in mid November. The budgeted salary, in comparison to what the previous Assessor was earning, is reflective that she is full time (5+ days) a week and that it is in the mid range with peer assessing professionals.

B. Professional Contract Services - The Town expended \$48,503 to identify and take major steps in solving the problems we were faced with prior to the new Assessor assuming the responsibilities. No professional contract services are planned for 1994.

C. Assessing Temps - Carry over projects will be basically completed in early February. Any unfinished projects plus normal work load of the department will be the responsibility of the Assessor and Assessing Secretary for the balance of 1994.

D. Assessing Secretary - Position was previously shown under Office Salaries.

E. Software - Not expended in 1993 as costs to resolve assessing problems had to be absorbed. Costs for a complete new hardware/software system are contained in the September

Special Article appropriation for the property revaluation.

Legal/Negotiations: Labor disputes appear to be under control with contract negotiations completed for the second year in a row without costly outside involvement. Lawsuits are unpredictable, but no major actions are ongoing. The budgeted amount has, therefore, been decreased to the lowest amount in years.

Employee Benefits:

A. The bottom line of this category is reduced significantly for several reasons. Town Meeting appropriated an additional \$157,157 for health insurance, but by the time the dust settled \$82,141 of that amount was not expended. The request of \$98,392 for 1994 is 24% less than that spent in 1992 even with a 25% increase in premium health costs during that time. Major strides have been taken to establish a cost-sharing program; however, we must remain creative, open to ideas and change, and continually seek a better way to provide not only cost effective health care, but also equitable ways to fund the benefit.

B. Other items in this category reflect up and down budget requests as a result of a general overhaul in benefits. For example, Life Insurance for some employees went to \$20,000 to be on par with others, and Long Term Disability was substituted in lieu of Short Term, while Dental Insurance was discontinued. The remaining line items are subject to payroll, audits, and actuarial calculations not within our control.

Planning & Zoning:

A. Interns/Part-time - we had good success with two interns this summer. It is intended to expand on using interns this year to include launching our own traffic count/study programs.

B. Mapping - Current up-to-date mapping was accomplished during 1993, therefore, this is deleted for 1994. The Assessing Department will be developing a phase-in program during 1994 for new tax maps as the current ones are grossly inadequate. Once these base maps are done, a long range plan for GIS computerized mapping which will serve all Conway government entities and departments will be developed for funding consideration.

Government Buildings:

A. Town Hall - The parking lot needs new perimeter barrier

ers/rails, gravel, grading and paving. Federal law requires extended testing of the well that Town Hall is on under the Clean Water Act.

B. Police Station - Well testing as in A, above.

C. Recreation Building - During 1993 the exterior block wall and roof over the old cafeteria were repaired. For 1994 \$14,000 is in the budget to re-side the building. Also, well testing as in A, above.

Insurance: All of our insurance is now through the New Hampshire Municipal Insurance Liability Trust. It continues to prove to be cost effective. The Town's insurance premiums would be much higher through another source.

Public Safety:

A. The Police budget was managed in a highly accountable manner during 1993 and the new Chief and I have established a good professional and cooperative working relationship. You will note that they have presented a level funded budget which is made possible through their reorganization of manpower and a shifting of dollars to areas of priority. To name a few changes, 1994 will see re-establishment of the Cadet Program, a doubling of the hours of manned traffic control, continued cost effective shifting of auto fleet maintenance to the Town Garage, the replacement of 3 cruisers that have over 150,000 miles of service, and microfilming of files.

B. Health Insurance - The Police union members are the only employees within the operating budget who are not on Comp 100 and paying 20% of the premium as they remain covered under an expired contract by labor law. There currently is a court case with the school which challenges the liability of the employer to have to continue covering increased premium costs of a benefit with an expired contract versus funding to the cost of the benefit during the last year of the contract. Although this may over simplify a complex issue, the voters should know that this budget does not fund the 1994 premium increase. If the court rules against the School Board/Administration, the Town will be obligated to pay the increase.

Ambulance & Fire:

A. North Conway Ambulance - Budget request is for January, February and March 1994, which are the remaining months on current contract. New contract figures are con-

tained within the Special Articles for the remaining nine calendar months.

B. Conway Village Ambulance - Contained within Special Articles.

C. Fire and Rescue - Contained within Special Articles.

Inspections: During 1993 the Town went until after Town Meeting before hiring a contracted building/zoning inspector as it was not known if and when the previous Building Inspector would be coming back to work. Between zoning enforcement, and more time consuming involvement in working with commercial entities, it has been sufficiently demonstrated that a full time employee of the Town is required to best serve the responsibilities in a professional manner. The change from contract to employee will take place on April 1, 1994.

Highways:

A. Labor - Up from 1993 to reflect more realistic projection with a 100+ inch snow winter operation.

B. Contract Services - Less engineering and consulting services anticipated in relation to projects in 1994.

C. Street Lights - Increase is a result of Selectmen's approval of assuming responsibility for 14 lights in Saco River Forest on Town roads.

D. Hired Equipment - Increase covers new snow removal contract costs and roadside mowing which hasn't been done in several years.

E. Asphalt - Decrease based on project identification. Work on West Side Road will come out of earmarked account, not this line item.

F. Salt - Increase relates to anticipated increase in contract costs.

G. Bridge Maintenance - A neglected area which is being properly activated for 1994 to provide for an ongoing maintenance program.

Solid Waste: (Three towns share in the cost of operations with Albany and Eaton paying a total of about 10%);

A. Labor and Benefits - Although up from 1993, the request is down 20% from 1992 expenditures. This is a direct result of reorganization.

B. Advertising/Education - It is felt that the Recycling Education program with students and adults is more effective if done every other year. The Town's doing well in recycling, but we can always improve. The School did a great job on the Recycling calendar - hope that you got one!

C. Lagoon Maintenance - North Conway Sewer Plant can't get built any too soon. It is getting increasingly expensive to maintain our lagoons.

D. Leachate - Second year in a row we have overspent. We simply can't predict the weather and should budget more realistically to historical spending.

E. Equipment Lease - This spring final payment on the lease/purchase agreement for the bailer will be made.

F. Hauling - We have been doing a lot of our own hauling. The used cab-trailer that was purchased will have paid for itself in 1-1/2 years.

Highway/Solid Waste - General Comment: Both departments are a labor union work force, yet the budgets reflect only a 2.8% increase which is the 1993 cost of living increase rate. This is a credit to both the union workers and management staff and is representative of a responsible employment base which serves the taxpayers and citizens at large. I would like to refer you to the Public Work's Director's Annual Report to get a more in-depth understanding of the year behind us, 1993, and the year ahead, 1994.

Welfare: As stated earlier, we calculated wrong. An aggressive program has been implemented to tighten up to be sure we are serving those in need and not letting the users of the system take advantage of us. Hopefully, combined with the economy, the numbers will blend.

Culture & Recreation: The increase in the budget represents potentially higher wages for lifeguards due to supply and demand along with merit performance raises of full time department employees. Also added to the budget is maintenance of recreational trails and funds for the Recreation Committee to use toward projects.

Library: Some shifting of where personnel are accounted for in the budget took place. The majority of the \$14,000 increase is as follows: Increased hours of employees, repair of roof, chimney and computers. 1993 showed that they managed their budget well, and I am pleased that a cooperative profes-

sional relationship exists between myself, the Librarian and the Trustees.

Patriotic Purposes: Town Meeting floor action in 1993 appropriated \$10,000 to complete the Veteran's Memorial. No appropriation for this line item is necessary this year.

New Highway Equipment: Requested money for 1994 is to purchase a new line painter for crosswalks, parking, stop lines and a new tire balancer and changer to allow for the cost effective transition to full maintenance of Police cruisers and Town cars.

CLOSING COMMENTS:

This year the narrative was not written until the budget process was complete. The budget you are being asked to act on is a result of that process where different opinions, views and justification of need have been allowed to come to the forefront. You have a responsible, accountable budget to act on.

From a revenue/economic viewpoint the Town retains a good cash flow position. In fact, with the slow economic turn around, management's very conservative expectations of revenues, and some recovery of back taxes, there has been a significant improvement in the Town's financial position. As the economy continues to improve, we need to remain frugal and build a "security fund." It postures the Town for better bond ratings when future needs require borrowing long term, and it importantly provides assets to tap into, if necessary, when the next economic downturn occurs so that the burden on the taxpayer can be offset during such times.

I trust that you have found this report helpful and informational. I welcome constructive criticism to enable me to better serve and improve on the report and to tailor it to meet your needs.

INDEPENDENT AUDITOR'S COMMUNICATION OF REPORTABLE CONDITIONS AND OTHER MATTERS

To the Members of
the Board of Selectmen
Town of Conway
Conway, New Hampshire

In planning and performing our audit of the Town of Conway for the year ended December 31, 1992, we considered the Town's internal control structure in order to determine the scope of our auditing procedures for the purpose of expressing our opinion on the financial statements. Our review of these systems was not intended to provide assurance on the internal control structure and should not be relied on for that purpose.

Under the standards established by the American Institute of Certified Public Accountants, reportable conditions involve matters coming to our attention relating to significant deficiencies in the design or operation of the internal control structure that, in our judgement, could adversely affect the Town's ability to record, process, summarize, and report financial data consistent with the assertions of management in the financial statements. A material weakness is a reportable condition in which the design or operation of one or more of the internal control structure elements does not reduce to a relatively low level the risk that errors or irregularities, in amounts that would be material in relation to the financial statements being audited, may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. Our consideration of the internal control structure would not necessarily disclose all matters in the internal control structure that might constitute reportable conditions and, accordingly, would not necessarily disclose all reportable conditions that are also considered to be material weaknesses as defined above.

We are pleased to report that, during the course of our review of internal controls, no material weaknesses in the Town's accounting systems and records were identified. Minor weaknesses or other considerations coming to our attention were generally procedural in nature and dealt with administrative or recordkeeping practices. In these instances, we made specific recommendations or provided instruction to

those individuals involved during the course of our audit field-work. areas discussed included:

- A. Calculation of Interest on Delinquent Taxes
- B. Collateralization of Bank Deposits
- C. General Fixed Asset Accounting

This report is intended solely for the information and use of management and others within the administration. This restriction is not intended to limit distribution of this report, which is a matter of public record.

INDEPENDENT AUDITOR'S REPORT ON FINANCIAL PRESENTATION

To the Members of
the Board of Selectmen
Town of Conway
Conway, New Hampshire

We have audited the accompanying general purpose financial statements of the Town of Conway as of and for the year ended December 31, 1992, as listed in the table of contents. These general purpose financial statements are the responsibility of the Town's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with generally accepted auditing standards. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the general purpose financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the general purpose financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

As described in Note 1B, the general purpose financial statements referred to above do not include the General Fixed Assets Account Group, which should be included to conform with generally accepted accounting principles. The amount that should be recorded in the General Fixed Assets Account Group is not known.

In our opinion, except for the effect on the financial statements of the omission described in the preceding paragraph, the general purpose financial statements referred to above present fairly, in all material respects, the financial position of the Town of Conway as of December 31, 1992, and the results of its operations (and cash flows of its nonexpendable trust funds) for the year then ended in conformity with generally accepted accounting principles.

Our audit was made for the purpose of forming an opinion on the general purpose financial statements taken as a whole. The combining and individual fund financial statements list-

ed in the table of contents are presented for purposes of additional analysis and are not a required part of the general purpose financial statements of the Town of Conway. Such information has been subjected to the auditing procedures applied in the audit of the general purpose financial statements and, in our opinion, is fairly presented in all material respects in relation to the general purpose financial statements taken as a whole.

ASSESSOR'S REPORT

I am pleased to present my first annual report as Assessor for the Town of Conway.

The past year has been a time of reorganization for the Assessing Department and I would like to express my gratitude for the patience and understanding the taxpayers of Conway have extended to the employees during this difficult period.

A complete revaluation is presently underway for the tax year 1994. The primary goal is to establish equitable assessments at current market value.

As you may imagine, this is a tremendous task and we appreciate the cooperation of each and every taxpayer. I cannot stress enough how important it is to allow access to your property. The revaluation firm cannot use the current records and will have to estimate all information if an inspection is not made. Estimates are typically higher if an actual inspection is not allowed.

All exemptions and credits will be reviewed and updated as part of the revaluation. Additional information may be required for the verification process. This will include current use, veteran credit, elderly exemptions, as well as charitable, educational and religious organizations that receive exempt status.

Please take the time to read the following page which indicates the credits and exemptions that are available to qualified property owners.

In closing, do not hesitate to call or stop into the office if you have any concerns or questions about the assessment process.

Respectfully Submitted,

JANIS M. CARRUTH
Assessor

Janis M. Carruth
Assessor

**TOWN OF CONWAY
PROPERTY TAX EXEMPTION
AVAILABLE TO CONWAY TAXPAYERS**

A PERMANENT APPLICATION for each exemption claimed below must have been filed with the assessing officials of this town prior to April 15th this year. RSA 72:33.

Veteran Service Exemption: RSA 72:28-36

Amount=\$100 Regular Veteran, \$1,400 Total & Permanent Service Connected Disability. Must be a resident of NH for at least one year prior to April 1st of year exemption is applied for. Must be separated or discharged under honorable conditions and have served during correct time periods covered in statute, or widow of same. Applies only to place of primary abode; does not apply to second homes or parcels of land.

Optional Adjusted Elderly Exemption: RSA 72:43-h

Must be resident of NH for at least five years prior to April 1st of year exemption is applied for. Own real estate individually or jointly, if real estate owned by spouse, must have been married at least 5 years.

Net income of \$10,000 or, if married, \$12,000. Have assets of \$45,000 or less, excluding the value of residence. Amount of exemption:

65 to 75 years of age, \$25,000

75 to 80 years of age, \$40,000

80 years or older, \$50,000

The applicable amount is deducted from assessed value of property before tax is figured.

Physically Handicapped: RSA 72:37-a

“Physically handicapped person” means a person who by reason of a physical defect or infirmity permanently requires the use of special aids to enable him to propel himself. The cost of special aids which are built into the property are deducted from the valuation of the property.

Blind Exemption: RSA 72:37

Must be legally blind as determined by The Blind Services Department of the Vocational Rehabilitation Division of the Education Department.

Amount of exemption is \$25,000 deducted from his or her

residential real estate.

For information concerning the following categories, please contact the ASSESSOR'S OFFICE, TOWN HALL, CENTER CONWAY at 447-3811.

Solar Energy System: RSA 72:62

Wind Powered Energy System: RSA 72:65

Woodheating Energy System: RSA 72:69

CURRENT USE ASSESSMENT: RSA 79-A

RESIDENTIAL USE ASSESSMENT: RSA 75:11 (for 1-family house in commercial zone) if used as primary residence.

TOWN PLANNER'S REPORT

When I accepted the position as Town Planner nine months ago, I did not know exactly what to expect. I knew that planning was important to the Town; protecting historical attributes while allowing for future expansion was critical. Unfortunately, these two notions are somewhat contradictory and making them both work was going to prove to be a formidable task. In my short time here, I have tried to identify the issues, problems, and future concerns of the Town.

My role as the Town Planner is a facilitator. While I may have my own ideas and opinions as to how to plan for Conway's future, the town elects representatives, the Planning Board, to perform this function. I try to help the Board operate more efficiently by providing information, research, guidance and recommendations in the review of development proposals. I feel strongly that an efficient review process with clear standards, equally applied to all applicants, creates the best types of development.

When I began work in May, I met with the Board to set priorities for the remainder of the year. These priorities included updating the Capital Improvements Plan; completing several chapters of the Conway Master Plan; keeping the Board abreast of the NHDOT 9A By-Pass proposal, and what its impact would be on our current Zoning Districts; and carefully examining the Zoning Ordinance for inconsistencies and other problems. To date, we have made considerable progress on many of these issues. Although the numbers of development reviews have decreased dramatically from the numbers in the late 1980s, the Board is still reviewing many projects, some of very large scale; the work on future planning issues is therefore commendable.

Working with the Conservation Commission, Parks and Recreation Advisory Committee, Board of Selectmen, the Mount Washington Valley Economic Council, and other organizations has been extremely interesting, and a rewarding part of my job. I hope that I am able to continue working with these organizations in the future.

I have truly enjoyed working with the citizens, developers, Planning Board and other Town officials since I began working for the Town nine months ago, and look forward to another enjoyable and productive year.

In closing, I would like to commend the Planning Board and all of the other Town officials and citizens involved in planning, for their time and dedication in dealing with many difficult issues. History is usually a reflection of the future. All Conway residents need to understand from where we have come, and decide where we want to go; only then can the Planning Board try to get us there the best way possible.

Respectfully submitted,

JOHN D. KREBS, Town Planner

*John D. Krebs
Conway Town Planner*

PLANNING BOARD REPORT

The Planning Board experienced a decrease in the number of applications it reviewed and processed in 1993. The three year comparison listed below indicates that subdivisions have remained relatively consistent while site plan exemptions, now categorized as staff reviews (applications reviewed by Town Planner John Krebs) have decreased. The change from site plan exemption to staff review is the result of the Planning Board's Streamlining Committee's recommendation in 1992 for facilitating the application process. This procedure has and will continue to provide the Planning Board opportunity to further commit to proactive planning measures.

TOTAL NUMBER OF APPLICATIONS PROCESSED

Year	Subdivisions	Site Plans	Exemptions	Totals
1991	24	13	67	104
1992	20	15	76	111
1993	24	15	40	79

TOTAL NUMBER OF NEW LOTS AND UNITS CREATED

Year	Lots	Units	Total
1991	14	17	31
1992	12	34	46
1993	27	32	59

Conway's transportation situation remains a subject of great debate and controversy. Believing that the Department of Transportation's selection of Option 9A (Conway Project) did not represent the least environmentally damaging alternative for Conway's traffic solution, the Planning Board elected to take an opposing position. However, the Planning Board does not dismiss its responsibility in the area of traffic demand resolution. The concerns are legitimate and Conway's increasing needs are recognized as a shared responsibility. It is the intent of the Planning Board to pursue positive measures for developing and maintaining an adequate and efficient road system. This requires working cooperatively through the planning process with Conway's residents, Town staff, Boards, Precincts and other relevant organizations.

In 1993, the Planning Board adopted two more chapters of the Master Plan: Conway Village and the Population Chapters. These reports are directives for long-term planning, supporting and accommodating ongoing change, and positive development while providing a historical perspective. Citizen input is a valued part of the Master Plan adoption process.

Improving Conway's infrastructure is a priority of the Planning Board. Municipal services provide a measurement for development and stability of the community. The Conway Village chapter of the Master Plan makes reference to infrastructure needs; and the Utilities Chapter, not yet written, will adequately address all related services available and required for future demands.

The Capital Improvements Program (CIP), adopted by the Planning Board in 1989, provides a six-year projected analysis of the Town's capital expenses. In updating this program, the Board of Selectmen and Planning Board engaged in several meetings during 1993 evaluating and prioritizing these expenditures. Additionally, other Boards participated in providing information for future proposals and demonstrated the importance of open dialogue, communication and the willingness to work together for Conway's well-being.

The year in retrospect has witnessed many changes in the planning department. Thank you and best wishes are extended to Stephen Burns, Conway's previous Town Planner, former board members Clarissa Holmes, Robert MacDonald and Joe Follayttar, and alternate member Norman Tregenza.

Town planning represents the commitment and efforts of many individuals dedicated to building and preserving a healthy and aesthetically pleasing environment. John Krebs, Conway's Town Planner, is one of those individuals who joined Town Government during a year of transition and has assumed an active and productive role.

A sincere thank you to John and Planning Board alternate and recording secretary, Lianne Boelzner, for their dedication, expertise and hard work. Also, thank you to the Planning Board for its commitment and contribution of time to the planning process, the dedicated and professional town staff, who have provided opportunities to enhance and ensure a safe community, other Town Boards, Precincts, concerned individuals, and especially the residents of the Town of Conway.

Regular weekly public meetings are held at Town Hall in Center Conway Thursday evenings at 7 p.m. The Planning Board encourages and welcomes citizen attendance and appreciates the opportunity to share and work collectively towards preserving and maintaining a solid future for the Town of Conway.

Respectfully submitted,
NANCY L. SIMARD, Chairman
Conway Planning Board

NORTH COUNTRY COUNCIL 1993 REPORT

1993 has been a busy year for North Country Council. Our membership stands at forty-four communities, representing 99 percent of the region's population.

The year has seen major successes under the Council's senior staff leadership: David Beauchesne, Regional Planning Coordinator; Cathy Conway, Civil Engineering Coordinator; Claire Douglass, Community Planning Coordinator; and Liz Ward, Small Business Development Coordinator. This team has supervised projects that run the gamut from master planning and sewer system designs to traffic corridor planning, GIS mapping, and micro-enterprise lending. Marghie Seymour, our Solid Waste Planner, continues to provide valuable assistance to the region's solid waste management districts and communities on issues of recycling and solid waste management. Sharon Penney, Transportation Planner, has been providing the support and guidance for the Council's ISTEA Transportation Planning Program. This new program will give NCC members a much greater say in how the New Hampshire Department of Transportation prioritizes transportation construction activities in the North Country in the future.

Other activities completed this year include the third annual business survey, the North Country Ingenuity Fair, household hazardous waste collections, wood products market development planning, business counseling, region wide computerized wetlands mapping, Northern Forest Lands representation, floodzone management, completion of an industrial environmental site assessment, completion of feasibility studies for industrial development, design of solid waste transfer stations, implementation of the rural plastics recycling program, and regional telecommunications system planning.

In October, the Council celebrated its 20th anniversary year of service to the region with a gathering of former board members, friends, community representatives and staffers in Franconia, our old home town.

The Council is here to serve you. If there is any service we can provide, please do not hesitate to call me or Berta Clark, our Executive Secretary, at our offices in Littleton, (444-6303).

Sincerely,

Preston S. Gilbert, Executive Director

REPORT OF THE CODE ENFORCEMENT DEPARTMENT

1993 was a year of change within this department with new staff and new ideas developing. For 1994 there are other ideas likely to come into being. This department is now responsible for all "Code Enforcement" covering all zoning and building code issues along with assisting the Zoning Board of Adjustment. Also, this department handles the 24-hour per day, 365 day per year, responsibilities of health inspections.

You'll note that the content of this report is different from years past. Each day accurate records are kept of all activities, travels and inspections. To publish a number of each is not realistic simply because many of the responsibilities of this department overlap. For instance, if a new restaurant opens in Conway, this office has to perform an inspection to meet State requirements. This inspection is to be performed by the Zoning Officer, Building Inspector, Fire Inspector and Health Department. When I respond to one of these requests I'm covering three areas of enforcement. Is this one inspection or three? Listing the number of inspections, violations found and Stop Work Orders issued, can't accurately or fairly describe what we've accomplished or how well.

Since my thirty-five hour per week schedule began in July, the Fire Inspector and I have tried to improve the processing of our work. Most new building projects which are coming in for permits are being required to submit more definitive information than has been required in the past. Prior to the issuance of permits, most projects are being put through a "plan review" process with a report being generated that is attached to each permit. This process is letting the builders know up front what is expected of them and we can pick up ninety percent of the Code problems before the work begins. We're finding that most of our customers, although dismayed at first, end up being very content with the handling of the permit process in this way.

In the zoning enforcement area, again, we've tried to improve. Because most zoning problems are not intentional we've made an extensive effort to meet with people before any problems are created or expanded. In zoning enforcement, this year we'll be trying to emphasize two areas: the Sign Ordinance and the consistent application of "conditions" as

attached to approvals by the Planning Board.

With the urging and assistance of the Town Manager, the Fire Inspector, Town Planner and I are working out the details of a "Technical Review Committee." When we're through, this Committee will greatly improve the process of moving a new business into Town and assist those who wish to move a business that already exists from one area of the Town to another. We've learned volumes working with Yield House's relocation, the changes at Memorial Hospital and the planning of Wal-Mart. Our intent is to be able to facilitate future projects more efficiently and accurately.

In closing, I have to say that it has been interesting and challenging making this work. I look forward to moving ahead into this new year.

Respectfully submitted,

SHAWN G. BERGERON
Code Enforcement Official

*Shawn G. Bergeron
Code Enforcement Official*

REPORT OF TOWN FOREST FIRE WARDEN AND STATE FOREST RANGER

During Calendar Year 1993, the State of New Hampshire experienced an average number of wildfires. The three leading causes of these wildfires were campfires left unattended, unsupervised children and debris fires that escaped control. All of these fires are preventable, but ONLY with your help!

Please help your town and state forest fire officials with forest fire prevention. New Hampshire State Law (RSA 224:27 II) requires that, "No person, firm or corporation shall kindle or cause to be kindled any fire or burn or cause to be burned any material in the open, except when the ground is covered with snow, without first obtaining a written fire permit from the Forest Fire Warden of the town where the burning is to be done."

Violations of RSA 224:27 II and other burning laws of the State of New Hampshire are misdemeanors punishable by fines of up to \$1,000 and/or a year in jail and you are also liable for all fire suppression costs.

The State of New Hampshire, Division of Forest and Lands assisted many towns in wildland fire suppression during 1993 and participated in many fire prevention programs. This year, the nation is celebrating Smokey Bear's 50th anniversary. The State of New Hampshire Forest Protection Bureau will be working with many communities to spread the fire prevention message - "Remember...Only YOU can prevent forest fires." Fire prevention is the most cost effective fire suppression tool. Please be careful around fires and help us and our communities have a fire safe year.

"REMEMBER...SMOKEY HAS FOR FIFTY YEARS!"

FOREST FIRE STATISTICS - 1993

	<u>State</u>	<u>District</u>	<u>Town of Conway</u>
Number of Fires	545	0	0
Acres Burned	224	0	0

ROBERT E. BOYD, Forest Ranger
LARRY B. WADE, Forest Fire Warden

REPORT OF THE TOWN OF CONWAY FIRE CHIEF/INSPECTOR

This year was one of many changes. It was the first year that the Town has appropriated monies on a townwide basis for fire training and we have budgeted again this year for the same purpose. We have reviewed projects that were not the typical retail store or outlet type of project. Some of these projects include: The Memorial Hospital, White Mountain Oil and the relocation of Yield House to Conway Village. All of these projects have taken a great deal of time to ensure the safety of building occupants, as well as the general public.

The Yield House project required a great deal of time to review, along with many meetings and phone conversations. This is a project that is still changing each week, which requires time and attention to keep it moving as quickly as possible. Within this project, Yield House proposed the use of a one-of-a-kind rotary concentrator which is the first of its kind in this country. This unit extracts volatile organic compounds in order to meet current environmental regulations. In order to approve this machinery, State Fire Marshal Don Bliss and I met with the National Fire Protection Agency in Quincy, Mass., and received their comments and suggestions. After these meetings, approval was obtained for use of the concentrator. The Yield House project received a great deal of media attention. However, I am confident the Town of Conway and the inspectors have worked very hard to make this relocation move as fast and as safely as possible.

As we all witnessed with the Fox Ridge fire, the amount of people affected is staggering. The reason and purpose of Codes is to ensure a minimum standard to reduce the potential of a fire and if a fire does occur, to alert the occupants of the incident and to direct them from the buildings.

Again, it is a pleasure to serve the people of the Town of Conway and I look forward to 1994.

Respectfully submitted,

LARRY B. WADE
Conway Fire Chief/Inspector

REPORT OF THE CHIEF OF POLICE

First, as a matter of brief introduction, my wife Barbara and I have lived in the Town of Conway since 1971 and, during that time, raised four children here. I have been with the Conway Police Department for twenty-two years. In April of 1993, I was appointed as Acting Chief and, shortly thereafter, the Police Commission officially promoted me to the Chief of the Department.

Since becoming Chief, one of my primary goals has been to promote education and training within the department. I feel strongly that a well trained Officer is much more effective in dealing with today's complex social and criminal problems. We have also instituted "Park and Walk" and Bike Patrol programs to get the Officers out of the cars and back on the street, putting them in closer and more frequent contact with the people they are bound to protect and serve. Two of our Sergeants attended a "Policing by Mountain Bike" school held at the Vermont Police Academy and learned advanced police techniques, policies and procedures for the effective use of Bike Patrols. Other successful community based programs this year have included a loss prevention and robbery seminar conducted with a local bank, and a shoplifting prevention seminar open to all businesses within the community. As a direct result of this and other such efforts, we were able to seize two vehicles this year used by two different groups of organized shoplifters. These vehicles were eventually auctioned, resulting in approximately \$1,259 in revenue for the Town's General Fund. In another recent drug case, we also seized a 4-wheel drive pick-up truck that is now fully equipped as the official D.A.R.E. vehicle and used to deter drug related crime through the education of our youth. Through D.A.R.E. and the Police Prevention Team, the department is working to develop a better relationship with children, in an effort to stop crime and substance abuse before it starts. Other related programs include the recent Bike Helmet Program and the Child Safety Seat Program sponsored by the department in conjunction with concerned members of the community.

With this renewed commitment to training and education, this year we were also able to send three Officers to the Command Training Program at Babson College, all of our Dispatchers to advanced dispatch training, and all administrators and first line supervisors were certified in CPR. The

department is already starting to reap benefits from these efforts and we have received numerous letters of thanks from the public at large. These letters refer to various situations, ranging from lengthy criminal investigations conducted by the department, to letters from children about their positive contact with Officers. We have also received several compliments concerning our traffic control efforts last summer and especially during the Fryeburg Fair Week.

We look forward to the new year and will continue to utilize new and innovative programs in an all-out effort to prevent and reduce criminal activity of all kinds in the Town of Conway. Thank you, and remember we are here to serve and to protect.

Respectfully submitted,
Robert J. Mullen

REPORT OF THE CONWAY POLICE COMMISSION

1993 could best be characterized as a year of positive transition at the Conway Police Department: We started off with the promotion of a new Chief from within the department. Bob Mullen's enthusiasm and progressive leadership have brought a new sense of purpose and cooperation both internally and with other branches of town government. He also played an important part in re-structuring the work load within the department and maintaining the highest level of quality service possible, when faced with a shrinking work force. Through his efforts and those of the Commission, Community Policing has become more than just a buzzword at the Police Department. With school-based programs such as D.A.R.E. and the Police Prevention Team, the Department continues to play an active role in the prevention of drug and alcohol abuse through education.

Other important changes within the department include a re-emphasis on training and, with the addition of L.E.T.N. (The Law Enforcement Training Network), programs dealing with today's law enforcement and social issues are available twenty-four hours a day. Numerous personnel also attended Law Enforcement schools and seminars this year and received training in diverse subject matter ranging from Advanced Supervision to the effective use of Bike Patrols. The proposed new computer system will also be a major step forward in improving both the overall efficiency and information flow within the department. It will provide a long overdue weapon in the ever-escalating battle against crime and violence in our streets.

In conclusion, the Commissioners would like to express their pride in the men and women of the Conway Police Department who have worked diligently, many times under adverse conditions, to protect and insure the safety and quality of life we have all come to expect in the Town of Conway. We would also like to challenge them to build on the progress that has been made this year and continue to be responsive to the needs of this community.

The Conway Police Commission:
Robert F. Porter, Commission Chairman
James L. Yeager, Commissioner
Armand O. Milot, Commissioner

PUBLIC WORKS DEPARTMENT REPORT

Where does the time go? I find it hard to believe that a whole season has already passed. However, the snow is on the ground again, the new budget has been submitted and we are making preparations for the upcoming season's projects.

At this time last year the primary issue concerning Public Works employees was health care costs. In order to meet the citizens' request for a fifty percent contribution, the employees agreed to a phased in approach starting with a ten percent contribution. Continuing with that agreement, the employee contribution has increased this year to twenty percent. I would like to recognize our employees not only for sharing in their health care costs, but also for taking the lead role in doing so.

Of equal significance was the introduction of the merit pay system. This is a system by which an employee's potential raise is based on their performance evaluation rather than receiving a step or an "across the board" increase. This is a milestone for management/employee relations and is testimony to the integrity of our personnel who are willing to base their earning potential on their performance.

Last winter's snow was late in coming, but Mother Nature made up for her delays in February and March. The combination of the increased snow fall at the end of the winter and the extended periods of freezing rain at the beginning proved to be too much for the snow removal portions of our budget. As a result, we paved fewer roads than planned in order to keep the department within the total budget. This winter's snow arrived at the end of December and delivered a healthy amount during the month of January. We'll have to wait and see what February and March have in store for us.

As the snows melted we turned our attention to our list of road projects. This was a good year for the Highway Department. The focus was on maintenance of our existing infrastructure. We generated two lists. The first list was for items that required repair or replacement and the second list was for items that required the alteration of terrain or the addition of structures. The crew did a great job of accomplishing all of the above items. In addition, a third list was started to track problems which were brought to our attention by the public. By the end of March we had received twenty-eight

items in this third category, all of which were resolved prior to the year's end. We continued to add to this list after March first and worked to resolve these problems on a first in first out basis as time permitted. Items which were unresolved last year will be addressed this year. I would like to thank all those folks who sent us cards and letters to express their appreciation for the department's assistance. In addition to these items, the department reconstructed the Dinsmore Road in conjunction with the North Conway Water Precinct and reconstructed the West Side Road at the train crossing in a cooperative effort with the Conway Scenic Railroad.

Last year the Town Garage introduced plans to implement a maintenance program for the Police Department (PD) vehicles. The program began by performing routine service only. The savings realized in this first year allowed us to purchase additional equipment in order to expand the service capabilities. In 1992, which was the year before the program \$16,851 was spent on PD vehicle maintenance. In 1993, which was the first year of the program, the cost for maintenance dropped to \$12,280. The budgeted amount for 1994 is \$11,000.

Good things happened this year in the Solid Waste Department. Thanks to the help from the Conway Village Fire District, we were able to secure permission from the State to dispose of the landfill leachate at their treatment plant. This resulted in a savings of \$18,994 compared to the previous year. Income from recycling went from \$18,357 in 1992 to \$29,445 for 1993, while the cost for transporting the recyclables was decreased by almost \$10,000. Rather than review each line item of the budget, let's skip down to a comparison of the bottom line. Total operating costs were \$468,050 for 1992 and only \$408,073 for 1993. While the operating costs were \$60,000 less this year, the revenues were \$38,000 more, for a net difference of \$98,000. This was the first year for the Recycler of the Month contest. The contest was created, implemented and maintained by our transfer station employees. All you have to do is fill out an entry blank at the recycling windows and pick up your prize if your name is drawn. Keep your eye on the local newspaper for a photo of the monthly winner and sponsor. I'd like to thank all the businesses who sponsored this contest by donating the prizes. Also, I'd like to thank all those folks who helped with Conway's Recycling Awareness Day (RAD). Congratulations to those students who were RAD contest winners or had their art work selected for

this year's Conway Cares Recycling Calendar which was produced by the Kennett High School Graphics Department. (See Eric Meador's recycling report.)

The following are additional projects from this past year: reconstruction of the Baird Hill Road, West Side Road bike path grant, design of the Mill Street Bridge, closure plans for the old landfill, negotiations with the EPA for the Kearsarge Metallurgical clean up, revision of the Conway Road Standards and last but not least, the Bypass.

We would like to welcome our two new Public Works employees: Ed Domina from the Highway crew and Merlin "Jr." Fallen from the transfer station. This year we lost two of our retired employees: Mr. Lewis "Bud" French and Mr. Fred McDonald. Both men gave the Town many years of service. They will be missed by all of us.

To conclude, it has been a challenging and fast paced year which I have enjoyed. I am sure that before I know it, it will be time for this report once again.

CONWAY BOARD OF ADJUSTMENT

The Board of Adjustment has had another quiet year with relatively few appeals being heard. 19 appeals were heard, 12 for Special Exceptions, 5 for Variances and 2 for Appeals from Administrative Decision. Special Exceptions can be granted only if their provisions in the Zoning Ordinance are specifically mentioned and conditions met. Of the 12 appeals 10 were granted, 1 was found to be unnecessary and was withdrawn, and 1 was denied. Variances to the Ordinance are sought when a particular feature of the Ordinance makes the proposed use of the property unavailable to the applicant. The Board has specific criteria that must be met in order to grant a Variance and this year, as in the past, the criteria are difficult to meet. 1 variance was granted, 3 denied and 1 was withdrawn. The Appeal from an Administrative Decision is much as it sounds. When a decision is reached by the Code Enforcement Officer or any other official that is not in agreement with the applicant's understanding of the Ordinance then these appeals are made to the Board. The applicant then must show evidence of why the official was incorrect in the interpretation of the ordinance and the decision by that official is either upheld or overturned. Of the 2 Administrative Decisions heard both were upheld by the Board.

The Board welcomed Shawn Bergeron as Code Enforcement Officer. One of Shawn's duties is to help with zoning questions, help with applications for zoning and assist the Board in the presentation of appeals. We would also like to welcome John Krebs as Town Planner. John is not directly involved with the Board, but is a valuable member of the team that is directly involved in the zoning process. I also would like to personally thank Lianne Boelzner whose help is invaluable and without whom the Board would not have ready access to the information necessary to conduct its business.

CONWAY PUBLIC LIBRARY

Our librarian, Mrs. Margaret Marschner and her staff of 4 full-time and 5 part-time library assistants have done an outstanding job for the community. The library was open 57 hours weekly including 4 evenings, Saturdays, and Sundays during the winter months. We circulated books, magazines, videos, audio cassettes, and cameras through use of our computerized circulation and card catalogue systems. In 1993, we circulated more than 64,465 items and borrowed books for library patrons by using our on-line capability to access nearly one million volumes in other N.H. libraries. We added over 1,000 new books which increased our total collection to over 29,335. Library staff conducted more than 100 children's programs during the year, answered over 9,500 reference questions and issued 525 new library cards. The library meeting room was used by various organizations and groups for 54 non-library sponsored functions and 31 adult library sponsored functions. The history room and literacy center served many residents both to research the past and to learn to read for the future. Donations in memory of Kenneth Dole, Persis Berry, Elizabeth Roper, Norman (Bud) Blake, and Pearl Dennison were given in 1993. Donations were also received from the White Birch Quilters, North Conway Rotary, Eastern Slope Emblem Club, and the Henny History Trust.

The present Conway Public Library was built in 1900 and is one of the architectural landmarks of our town. In 1982, the basement was renovated to expand our usable space to 4,687 square feet and helped temporarily to solve some of our space problems. However, a consultant report issued in 1989 to the Library Trustees stated a critical inadequacy in the current building and recommended that the Library Board of Trustees initiate planning for a new library. In 1990, the Library Trustees retained an architectural firm to study the need for either a new library or an addition to the current library building. The consultant's study, the architect's analysis, and the internal reviews and discussions of the Library Trustees, librarian, and staff identified a number of problem areas within the present library. Some of the findings are listed briefly:

1. Insufficient stacks or shelves for books. Book stacks are so crowded that it is almost impossible to add any new books. Aisle spaces are narrow and general lighting is poor.

2. Books are stacked in the hallways and on the floor and being stored in the attic.
3. Work space is too small to permit cataloging and classification which require a high degree of concentration and protection from distraction.
4. Suitable study space is very limited. The large reading room has only 22 chairs to provide seating for the many junior high and high school students who use the library daily in addition to adults as it is the only room available for study or adult reading.
5. Children's room is only 393 square feet yet the K-8 student population is booming. There is no space for parents to sit or browse with their children. The shelving is crowded and woefully inadequate for the wide range of required materials from picture books to non-fiction K-8 titles.
6. Lack of space for young adult activities.
7. Meeting room in the basement holds a maximum of 50 people only. It cannot adequately serve the range of activities that take place - film programs, adult education, discussion groups, lectures, book talks and town special events. The support columns in this room make it impossible to program many of these activities.
8. Literacy center currently uses the small employee lunch room for its training sessions.
9. Patrons entering the library must go down the stairs into the basement, cross the basement lobby area, go along a corridor, open doors, climb a set of stairs or use the elevator to gain access to library materials.
10. Parking for library patrons is extremely inadequate with only 14 parking spaces for employees and patrons. Safety hazards are created within the crowded parking lot and on Greenwood Avenue.
11. The current usable space within the library is segmented and divided by bearing walls which make an inflexible structure to adapt to current and new needs for library services.
12. In general, the building is filled to capacity and falling short of providing the space required for its present programs.

The consultant's report recommended construction of a brand new library at another location that we would have to

identify. The architectural firm, Tenant/Wallace of Manchester, N.H., recommended a 10,000 square foot addition and renovation of the current library building. Based upon our review of both reports, the Library Trustees and library staff believed it would be more feasible to stay in the same location not only because of the cost effectiveness, but also the historical significance of the present location. Although the need for the increased space was critical, the Library Trustees delayed action on the construction of a new library addition in 1992 and 1993 because of the state of the economy. However, we strongly believe we would be remiss in our responsibilities and duties if we allow these serious problem areas to continue.

On Saturday, March 12, 1994, we ask for your support and vote to authorize the construction of a 1.5 million dollar addition and renovation to the present Conway Public Library. This library addition and renovation would be financed by a 20 year bond and the yearly cost would be about 1% of the yearly school appropriation. The average homeowner with a \$100,000 assessed property would pay 15 cents per thousand or a total of \$15.

On the next page, you will see a north facing view and an aerial view of the proposed addition. As you can see, the Library Trustees have kept the same architectural style of the current library.

Our public library has to be able to meet the demands and challenges of our times to provide information, training, and books to those of all ages in our community. In order to fulfill those needs, we need a facility that can provide the necessary space and equipment for this year and into the 21st century. Help us to meet these challenges by voting **YES** on March 12th.

CONWAY CONSERVATION COMMISSION ANNUAL REPORT 1993

The Conway Conservation Commission is responsible for the oversight of actions affecting Town of Conway's natural resources and is, along with the Board of Selectmen, custodian of the Town's public lands. This past year, the seven members of the Commission worked on a diversity of projects. The final draft of the text of the Natural Resource Inventory; and evaluating the environmental impacts of the proposed Bypass routes were the two major projects of the year. The Commission is very grateful to the many town officials and staff members, in addition to the many townspeople, who helped us with the following projects:

Natural Resource Inventory: The final draft of the text of the Natural Inventory Report for Conway's new Master Plan is being edited by the commissioners to detail the Town's natural resources. The text will correspond to a series of maps with overlays produced in 1992. With the assistance of the Town Planner, John Krebs, the Commission will work on completing the goals and objectives for the inventory.

Bypass Project: The Conservation Commission was asked to research and evaluate the impacts to the environment and the Town lands by the various bypass options. Countless hours were spent meeting with the federal and state project engineers and consultants in discussion and in on-site evaluations. Supported by the federal and state environmental agencies; and by national conservation societies and consultants, and after extensive research, the Conway Conservation Commission is opposed to an Eastern bypass and specifically, Option 9A. The seven member commission is outraged that the Department of Transportation is taking Town of Conway Conservation Lands and impacting unique, irreplaceable, valuable wetlands. The effect of an Eastern bypass on the Puddin' Pond tract and Whitaker Woods is extremely detrimental. We are opposed to the concept of a highway through these public holdings. In addition we are opposed to any destruction of neighborhoods that will drastically change the unique character and atmosphere of our community. We feel that significant changes should be made to improve the traffic situation in the Conway area without detrimentally impacting and/or destroying the remaining natural resources, green

spaces, agricultural lands, and neighborhoods of the area. We will continue to encourage mass transportation, alternative route information, modest improvements to local road infrastructure, multi-use trail systems, etc. The commission has been working with the Town Planner, Parks and Recreation Department, and the Nature Conservancy to promote an integrated trail network. We are also represented on the NH Scenic Byways committee.

Recycling: The Commission continues to work closely with the Lower Mt. Washington Valley Solid Waste District to promote and expand the recycling program in Conway. Recycling awareness was fostered during the month of May in grades K-12 in the Conway School District in multi-disciplinary educational curriculum units with awards presented during GET RAD at the Transfer Station on May 15, 1993. Recycling calendars showcasing student environmental artwork produced by the Kennett High School graphic students are available at all the schools. This fall, office paper recycling was instituted at Kennett Junior and Senior High Schools by the KHS Biology students as a pilot program. This model will be brought to the elementary schools in the spring. Conway's recycling program continues to grow thanks to the efforts and support of the community.

Town Properties: Each season, the commissioners make site visits to the town conservation properties to assess and plan for future management, educational and recreational projects. The following outlines some of the activities that have taken place on town properties this past year.

- **Whitaker Woods:** In November, a local horse logger completed selectively thinning mixed hardwoods and conifers in a five acre compartment in Whitaker Woods. This work was done in accordance with the Forest Management Plan developed four years ago and is an ongoing process. This plan includes complete mapping and recommendations for managing the property for recreation, wildlife and timber stand improvements. Several classes from John Fuller School visited the site to observe the techniques of horse logging. The Kennett High School landscaping class and the ski team provided trail maintenance and improvements to the existing trail network for which the townspeople will be deeply appreciative. Historically, Whitaker Woods is the site of the largest highschool cross country ski race in the United States, hosting

over 500 skiers each season, and has been one of the training sites for Olympians Carl Swenson and Marcus Nach. The Mt. Washington Valley Ski Touring Association continues to do an outstanding job grooming the cross-country ski trails and thanks, also, to the White Mt. Milers for maintaining signage for local runners. Several meetings were held with representatives from the NH Electric Coop regarding the upgrading of the powerlines; the installation of more poles; the planting of fir trees under the poles; and the right of way agreement. The Commission will continue to monitor this process. Prohibition of hunting will be continued to be enforced due to high frequency of recreational use and proximity to school and population base.

- **Puddin' Pond:** This property is a unique wetland in the state of NH and as such has been utilized by the grades K-12, Girl & Boy Scouts; and The Nature Conservancy as an educational site. The commission has provided interpretive tours for these groups and welcomes inquiries as to our next tour. The trail network and tree swallow boxes are maintained by the Kennett High School students. Parking is now available at the Thompson Road entrance to the trail network. Working in conjunction with The Nature Conservancy's Green Hills Preserve manager, Peter Benson, an informational kiosk, new signage and a formal map depicting the integrated trail network will be dedicated in the spring in a joint ceremony including the Commission, Nature Conservancy and KHS students who have assisted in this project. The commission's long range goal is to create a Wetland Interpretive Trail as a part of a multi-disciplinary environmental education unit by KHS students.

- **Walker Pond:** This property has seen increasing use by the Pine Tree School students and teachers for environmental education. The fifth grade students have maintained the trails and built a needed bridge. This property, located on Mill Street, has a self-guiding interpretive trail on the natural history of the land and the background of the mills on Walker Pond (now called Conway Lake). Due to the continued theft of the guidebooks from the storage box, the guides are now available at the Town Hall.

- **Shedd Woods:** This property was surveyed because of encroachment and the abutters notified of infractions.

- **Hubbard Davis:** Work was begun on deed clarification and the boundaries will be resurveyed prior to a forest man-

agement plan being developed.

• **Common Lands:** The resurveying of common lands is in progress.

Dredge and Fill Permits: The Commission reviewed Dredge and Fill Wetland Board applications and made site visitations to aid in making determinations of impact.

Conservation Education: The Commission sponsored a Wetland Education Workshop for selectmen, planning board members, educators, and interested members of the public. The Audubon Society of NH and Amanda Stone, co-author of the "Method for the Comparative Evaluation of Non-Tidal Wetlands in NH" provided a multi-sensory presentation as an educational tool to increase awareness of the definition, types, functions, and values of wetlands. Due to the positive response, more educational workshops will be held in the future. The Commission welcomes specific workshop topic requests.

In the coming year, the Conservation Commission will continue to work on projects promoting the conservation, protection, and enjoyment of our town's natural resources. We welcome your ideas and participation at our meetings held on the second Tuesday of the month at the Children's Health Center.

REPORT OF TOWN OF CONWAY RECREATION DIRECTOR

The Conway Recreation Department provides a number of recreation programs to youth and adults of the Town of Conway. Our department offers the traditional recreation programs: basketball, baseball, T-ball, softball, football and soccer. In addition, we offer non-competitive games, game room activities, Halloween Party, Easter Egg Hunt, Turkey Trot Race, Bike Motor Cross, trips to the ocean, Museum of Science, Whale Watch, Harlem Globetrotters, swimming lessons at both Echo Lake State Park and Conway Lake Town Beach. These are just a few of the many programs and activities being offered.

New for our 1993 summer program was two three-week sessions in Childrens' Theater with the cooperation of Arts In Motion. Nancy Greenblatt and Glenn Noble did an outstanding job with the two plays that the children performed.

Volunteers are very important to the success of our programs. This past year, 94 adults volunteered their time as coaches or helpers in many of our programs. I thank all the volunteers for their interest in our youth and the Conway Recreation Department, for without their help we would not be able to offer the wide variety of programs and activities for the youth of our Town.

Respectfully submitted,
KENNETH M. JONES
Recreation Director

CONWAY PARKS AND RECREATION ADVISORY COMMITTEE REPORT

The major work of the committee continues to be involvement in multi use trails for walking, biking and cross-country skiing. In July the Mt. Washington Valley Economic Council, consisting of 12 towns from Ossipee to Bartlett, including Fryeburg and Brownfield, Maine, initiated an Alternative Transportation Trail Network project that would travel through these communities. The Conway Recreation Committee helped to identify bike routes and other user pathways to provide a means of travel to and from libraries, schools, playgrounds, community centers, scenic areas, etc. within the town. This information was developed on maps and incorporated into the Council's Alternative Transportation Network plan.

An outside grant was awarded to the Economic Council to initiate a design and cost analysis for developing an inter business connecting transportation pathway in the North Conway business area. The town may use this information in applying for grants to construct such a pathway to help reduce traffic congestion and air pollution, safer walking and biking, and to increase potential sales and the economic well-being of the community.

A second area of work was defining the role of the Town Advisory Committee and how it might become more helpful to Selectmen and the Town Recreation Department in meeting the recreational needs of the town. Since the committee is made up of Selectmen-appointed volunteers without a budget, the committee may become more task oriented. Examples of task advice might include: 1) Town pathways, 2) Town swimming facilities, 3) Conway Community Building recreation needs, 4) Recreational development of Whitaker Woods, 5) Study possible fee structure for providing services to other communities.

The committee will try to meet monthly on the first Tuesday at 7:00 PM in the Town Community Building in Center Conway.

Members of the 1993 Advisory Committee: David Sorensen, Chairman; Doug Fagone, Steve Swenson, John Cannell, David Weathers, Sally Weiss, Eric Chandler, Kim Perkins and Ken Jones.

NORTH CONWAY COMMUNITY CENTER 1993 ANNUAL REPORT

Oftentimes residents and tourists ask me what our budget is. After finding out that we receive \$77,000 from the Town, they're somewhat curious about how the money is spent and what activities or programs we offer.

I tell them that we have about 24 set programs that are basically seasonal and they cover everything from playground youngsters to our involvement with the Retired Senior Volunteer Program. We, like all recreation departments, have a lot of sports activities, including soccer, football, hockey, basketball, baseball teams and softball groups. We also sponsor Cub Scouts, operate the North Conway Outing Club Skating Rink, and have trips to various places of interest.

Thirty-three civic groups use our facility during the year. They might use it for a day, a weekend or once a month. These groups include, but are not limited to, the Kiwanis Club, D.A.V., Center of Hope, Stamp Club, John Fuller School, Masons, Nordic Club, and Eastern Slope Ski Club.

The Center is involved in 14 fund raisers that generate about \$27,000 annually. Some of them include working with Arts Jubilee on their 3 concerts, our 4 craft shows, our Kids Nite Out program, Tuckerman's Outfitters Ski Sale and, of course, World Mud Bowl.

We participate in or organize some special events which in 1993 included Halloween, Building the World's Biggest Ice Cream Cone, Burning of the Green in conjunction with the Mt. Washington Valley Chamber of Commerce, our own Pee Wee World Series, and our Annual Easter Parade.

We try to, in some way, serve as many different groups as possible so that all can benefit directly from our activities.

Speaking for the Board of Directors and myself, we thank you for your support of our programs.

KIM PERKINS, Director
North Conway Community Center
