## ANNUAL REPORT OF THE WEARE VOLUNTEER FIRE DEPARTMENT

---

The Department answered thirty-five alarms during 1937, classified as follows:

- 16 Chimney
- 9 Building
- 5 Brush
- 2 Automobile Truck
- 1 Dump
- 2 Minor

Building fires increased in number over previous years, and were in several cases quite serious. Chimney fires continued to rank first in number and proves again the need for good construction in chimneys.

During 1937, the Department held twelve monthly meetings and four drills. The number of men responding to alarms averaged six. Response to alarms was very good, the men reporting quickly and in sufficient numbers to meet the needs.

Having our equipment at East and South Weare mounted on the trailers, proved of great value at several fires. This led to the purchase of two trucks to further build up our efficiency. Two pumps and equipment for them were installed on these trucks giving greater pumping capacity and better protection for these villages. Long extension roof ladders were added to the Center truck and 200 feet of 1½ inch hose was purchased.

At present, the number of water reservoirs is being increased by Federal funds provided for fire protection purposes. The Mill Dam at Riverdale is being restored and several water holes are being dug.

Only one brush fire of a serious nature occurred, and the loss from brush fires was very small.

We appreciate the splendid co-operation we have received. With the additions made in equipment and advances in training, we hope to be of greater service than before.

Respectfully submitted,

GERALD H. HIGHT, Chief,  
Weare Volunteer Fire Dept.

## WHITE PINE BLISTER RUST CONTROL

---

At the 1937 Town Meeting, the town of Weare appropriated the sum of \$400.00 for the purpose of co-operating with the State Forestry and Recreation Department in the control of the White Pine Blister Rust. To this sum the State added \$100.00. An experienced foreman was assigned to handle the local blister rust project. The personnel making up the crew proper were taken from our local unemployed and they were given steady employment for a period of one month.

In addition to this, a total of \$595.24 of Federal WPA funds was allotted for use in Weare by the District Blister Rust Agent, Mr. Thomas J. King of Concord. This money gave employment to another group of Weare unemployed for a period of three months. General supervision was given both these projects by Mr. King at no cost to the town. Blister rust accomplishments for 1937 are shown in the financial statement.

This is the second year in which Weare has been favored with grants of WPA funds by the Forestry Department. In 1936 a total of \$1,948.89 was spent and gave employment to a substantial group for a period of five months. These combined funds have permitted not only the completion of the initial control work in the town, but also the starting of the essential work of re-examining the town's land area. Thus is one of the town's basic and valuable assets being protected from the dreaded Blister Rust. The Forestry Department has recommended an appropriation at the coming town meeting.

## REPORT OF THE SUPERINTENDENT OF SCHOOLS

---

To the Citizens of Weare:

There is scarcely a year but what brings changes in the teaching force in your schools. This year has followed the rule.

It has been difficult to work out a teaching program in the high and junior high schools offering a unified but varied program which seems adapted to the needs here. Teachers have been required to teach a variety of subjects carrying a heavy load. Sometimes during the year English was taught by two or more teachers, which illustrates one of the problems. But at present, adjustments have been made so that some of the troubles have been eliminated.

For the first time the English is now taken care of by Miss Elizabeth Harris, who graduated from Keene last June. Her "major" subject was English, and this, Miss Harris teaches all the way through. The advantage is apparent. As an aid, some new reading materials have been provided, carefully selected, and consisting of varied types of literature. The intention is to complete this series of books while both the junior and the senior high have a carefully worked out correlated and unified plan. Also, for the first time we have been able to add a full time trained man, Mr. Edward Currier, a graduate from New Hampshire University, who majored in social science and mathematics. Mr. Barton took charge of the shop work for grades seven and eight. This made it possible to engage an instructor with regular University training. Mr. Currier, in addition to teaching, has developed outdoor sports and games for all pupils, in which nearly all pupils participated.

At the Christmas vacation Miss Helen Foss after more than three years of teaching was released to accept a position in the Peterborough schools. To take up the

work in history and French, Miss Eleanor Peabody of Westfield, Mass., a graduate of Brown University, was engaged. Miss Peabody has had teaching experience before coming here. Her training supplemented by experience fits her splendidly for the work.

For the first half year a cadet teacher from the State University worked under the direction of Mr. Barton in the agricultural program.

During the summer vacation Mr. Barton attended the summer session at the University of New Hampshire, Miss Foss studied at Bates College, Miss Schellenberg at Cornell University, and Francis Downing at Keene Normal School. Educational requirements for teachers are constantly being made more exacting, and summer study enables them to train while in service.

Dr. Fraser of New Boston has examined all basketball players, both boys and girls. While most young people are physically strong enough to engage in this rather strenuous business of basketball, yet, now and then there are those who should play with moderation, and in some cases, not at all. Such an examination is a safeguard for the pupils and a precaution on the part of the school authorities against the charge of carelessness.

### **Vocational Training**

Under this head the courses in Home Economics and Agriculture are classed.

There are thirty-five girls in the class in Home Economics, including girls of junior and senior high schools. Under the direction of Miss Schellenberg, this work is being put on a sound basis of thoughtful planning, and careful direction and is now recognized by the State Department as qualifying for certain federal money for vocational training.

The Home Economics exhibit won third place at the Hopkinton Fair.

Thirteen boys are enrolled in the classes in Agriculture.

The following items are of interest:

1. At the Hopkinton Fair, the "aggie" boys won the cup for the best agricultural exhibit with eight schools contesting. They also won the milk-judging cup against fourteen contesting schools.

2. At the University of New Hampshire, Weare boys took first place in fruit judging; second place in poultry judging; and second place in dairy cattle judging.

3. At the Egg Show in Concord "Weare" won the cup for the best high school exhibit of eggs, with eight schools contesting.

4. Woodrow Wilson was third high scorer in poultry judging, in the State.

5. Winburn Eaton was third in the State in dairy cattle judging.

Albert Reade went as a representative of the "Future Farmers" to their National gathering last fall in Kansas City, where 12,000 met to confer on "Future Farmers" concerns.

#### Attendance Records for 1936-37

(Given in order from highest to lowest)

High school	95.0%
Center	94.9%
THE STATE AVERAGE	94.7%
North Weare	94.5%
East Weare	94.5%
Friends	94.3%
Riverdale	94.0%
Junior High	92.6%
Clinton Grove	92.1%
Sugar Hill	90.7%

Of the nine schools only two attained the State average. It may be said that epidemics, "colds" and "scars" on the part of parents, are responsible for this unsatisfactory record. All schools are subject to these same interferences. There is always a certain amount of unpreventable absence due to sickness, accident, or weather. But outside of these, there are various cases of tardiness and absence that are entirely unnecessary. They result usually from carelessness and indifference. For instance cases like these:

1. Twenty-eight days absence, mostly unnecessary.
2. Forty-three days absence in 28 weeks.
3. Thirteen days out, scattered through, for no acceptable reason. There were only eleven weeks in 36 of perfect attendance.

Tardinesses, too, were and are still too many. Last year two families involving six pupils piled up 94 tardinesses. But while the absence or tardiness is bad enough in itself, yet the effect on the morale of a room or a school of the habitual stragglers or absentees, reacts seriously on the work of those who do make it a point to take their work as though it were worth doing well.

A substantial help to pupils, and to teachers, would be for all to take it upon themselves to put Weare Schools into the upper class according to the schools of the state, rather than below.

The record for the whole school reflects, too, upon those who are regular in attendance and conscientious in their work doing all they can. May we not have concerted and complete co-operation on the part of parents and pupils in this phase of our work.

Out of a total enrollment in the schools last year, of 264, there were only 21 with a perfect attendance record or about 8%.

The 21 were from these schools: South Weare 8, East Weare 6, Junior High 3, North Weare 2, Clinton Grove 1, Sugar Hill 1.

There are many in the town who by understanding school problems, by speaking favorably of teachers and their work, by "lending a hand", doing and saying many things which do not come to our attention — do help. To them we give the appreciation of the teachers and all who are responsible for the direction of the schools.

Respectfully submitted,

J. BYRON TARNEY,  
Superintendent of Schools.
