W. P. MELVIN,		of
C. W. ADAMS,		Warner.

This certifies that we have examined the accounts of the selectmen, treasurer and collector of taxes for the year ending Feb. 15, 1912, and find them correctly cast and proper, vouchers for all money paid out, with a balance of \$2,125.02 in the treasury.

E. L. CARROLL,	} Auditors.
A. M. TUCKER,	

REPORT OF ALMONERS OF FOSTER FUND.

FOR THE YEAR ENDING FEB. 15, 1912.

We have had no special calls during the year in the nature of an epidemic, yet there have been calls to aid the feeble, infirm and sick to the limit of the income from this gift. We believe it was a wise and generous benefaction, and the past 14 years have confirmed the belief. Many touching acknowledgements by letter and word of mouth have been received. Bronze

and marble endure, but they do not speak like this. To those desiring to erect a lasting memorial let them emulate the example of Mr. Foster.

The following is a statement of receipts and disbursements:

Balance from last year,	236 12	
Received from selectmen, Jan. 27, 1912,	198 90	
		436 02
Disbursements,		211 41
Present balance,		224 61

Respectfully submitted,
 B. C. FLANDERS,
 JOHN B. RAND,
 MARY E. WADSWORTH, } Almoners
 of
 Foster Fund.

This is to certify that we have examined the accounts of the Almoners of the Foster Fund and find the same correctly cast and properly vouched, with a cash balance on hand of \$224.61.

FRED BEAN,
 W. P. MELVIN,
 C. W. ADAMS, } Selectmen
 of
 Warner.

STATE AID FOR HIGHWAYS.

Under Chapter 29 of the Laws of 1899, towns are required to raise one-fourth of one per cent. of their valuation for maintenance of roads, provided, however, that no town is required to raise an amount exceeding \$50 per mile of road. The valuation of the towns for 1912, and the actual mileage of roads in each town cannot be definitely stated at this date, hence the amounts opposite "A" and "C" below are approximate only. Subject to the above statement, the following amounts relate to Warner:

A. Amount required to be raised under the law of 1899, one-fourth of one per cent.	1795 46
B. Additional amount if town applies for state aid	359 00

C. Total minimum amount required to be raised for highway purposes if town applies for aid,	2154 46
---	---------

If no application for state aid is made in 1912, the town is required under Section 3 of Chapter 35, Laws of 1905, to set apart and expend for improvement the sum of \$718.

If the town does apply for state aid under the above-mentioned law of 1905, a joint fund for the town is formed, the items of which are as follows:

Set apart by town under Section 3,	718 00
Set apart by town under Section 4,	359 00
Apportioned by state under Section 5,	430 80

Total joint fund raised in 1912,	1507 80
Unexpended balance from funds of previous years,	531 45

Total available fund,	2039 25
-----------------------	---------

The unexpended balance from funds of previous years is divided between the town treasury and the state treasury, as follows:

Amount in town treasury,	379 61
Amount in state treasury,	151 84

H. C. HILL, State Engineer.

REPORT OF BOARD OF HEALTH.

During the year 1911 one case of scarlet fever, two of diphtheria, a small outbreak of measles, many mild attacks of chicken-pox, and innumerable infectious "common colds" have occupied the attention of the Board of Health. By promptly administered quarantine, timely disinfection and fumigation the spread of contagious disease has been prevented.

The public as a whole need much instruction concerning the "common cold." Easily obtained, troublesome while present and lasting in its effects a "cold in the head" assumes features which should lead us to become more enlightened as to its prevention. Taking cold varies in individuals. Some by means of overheated and poorly ventilated rooms acquire an abnormal perspiration, the sudden checking of which by going out of doors produces a congestion of the nasal mucous membrane accompanied by sneezing and increase of secretion. Others by lack of exercise or proper bathing depend on extra clothing to keep warm, but being unable to regulate their clothes to both indoor and outdoor temperatures obtain an uneven action of the skin, lessened resistance and as a result frequent colds.

Avoid and prevent colds by properly protecting the feet with thick soled shoes and the wearing of rubbers or overshoes as the conditions require; by not enveloping the neck with mufflers and wraps; by wearing medium weight wool or silk undergarments and relying for extra warmth on heavier overcoats, which always remove on entering a warm room; by frequent cold bathing or sponging; and best of all by proper ventilation of the living and sleeping rooms, keeping the temperature of the former as near 72 degrees as possible.

Silver Lake water has during the past year been of excellent quality and of sufficient quantity. The Board wishes to repeat its recommendation of last year that the further excavation of the upper part of the present reservoir be accomplished, thereby increasing the storing capacity at least one-third.

The Board has had occasion to suggest the abandonment of several surface drains and the connecting of the sewer and installation of closets in other cases where complaints were made much to the satisfaction of all parties concerned. Too much cannot be said in this particular as all inhabitants of the precinct should make use of the water and sewer system as far as possible.

REPORT OF SUPERINTENDENT OF SCHOOLS.

We respectfully submit this our second annual report to the school board and the citizens of the town of Warner.

We have endeavored through this year to continue the work along the lines we mapped out last year. A few changes in the teaching force has necessitated a beginning of the work with some, but with the experienced teachers much advance has been made. Special emphasis, as during last year, has been placed on reading. Because of the improvement in this subject, we have been able to do more with other subjects. The work in spelling has been systematized by placing graded spelling lists in the hands of the teachers. The work in writing has been generally improved by the use of better supplies and the introduction of the muscular movement, without change in letter formation or slant. In the lower grades large pencils and blackboards have been used to encourage the use of the larger muscles.

Several different text books in geography were in use and these were in poor condition. New texts have been introduced this year and better results secured. The text books in the village school are now in fairly good condition. A few of the old books are still in use in the rural schools where they did not suffer from the fire. It is here that we need a few changes and additions in text books to increase the interest and broaden the horizon of the pupils.

We were able to make more visits during the fall than during the same season last year by using an auto instead of a horse. About six visits were made to each school during the term, while ordinarily but three or four visits per term can be made. In the central school the greater part of our time has been given to the primary department. The work in the other two rooms has not demanded so close attention, because of the greater experience of the teachers.

Eight rural one room schools and the village school of three rooms at Warner has been maintained during the year. It has been necessary to shorten the winter term at Davisville and

Liberty Union on account of sickness. The spring term will be correspondingly longer in these or in other schools to give the required number of weeks to secure state aid. 157 pupils have been in regular attendance. (I use records of winter term 1911-12.) Of these 87 are girls and 70 boys; 75 are in grades one to three inclusive, 50 in grades four to six, and 32 in grades seven and eight. Retardation in the grades is not so marked as last year. In considering the length of time the pupils of the lower grades have been in school, their condition and the age of many of the pupils, we draw the conclusion that many children have been placed in school at too early an age. They are too young to keep up with the pace which must be maintained if the work is to be covered in thirty weeks. In many cases these are injured by the work before they are mature enough to keep up with the older pupils. With the average child six years of age is young enough to begin school.

The state program of studies has been followed quite closely and the text books have been chosen to meet the demands of the course given in this program, and the needs of the school. We find it difficult to cover the work prescribed by the state in thirty weeks. In the larger schools the work must be deficient in drill or we must omit the cultural and hold to the essential subjects alone. In the school at Burnt Hills some wood work and sewing has been done and at the Collins school some sewing has been given. These schools have been smaller than some others so that the teachers had time to do the work. We believe it would be no injustice to the smaller schools to have more weeks of school where the attendance is over twenty.

All the teachers have been graduates of high school, three have been graduates of normal school, and one has a state certificate. We appreciate the spirit of the teachers in the way they have taken up the new work. With but few exceptions the work has been willingly and well done. We have received the support of the school board in securing materials and equipment, and we hope we have the approval of those whose children are in school.

The records of the schools have been kept and reports made to the superintendent and parents from time to time. Supplies have been distributed at the time of our regular visits, and we have tried to give all schools the same materials and text books or those adapted to their needs.

We need for another year as always your loyal support, for with this will come cooperation and funds for greater work.

We need to enrich the work with more supplementary readers and more books of reference on the teacher's desk. We need repairs on the interiors of a few buildings, and something should be done to improve conditions at Davisville. We depend upon you to help us all you can, and with your aid will go the co-operation of the pupils, teachers and school officials to make the schools of Warner all that you can desire.

E. J. BEST, Superintendent.

CLARENCE FOSTER, } Auditors.

SIMONDS FREE HIGH SCHOOL.

The work of the year began under favorable conditions, and the school year has been one of continued prosperity. The committee was able to secure the services of Mrs. Florence T. Davis, whose former work in the Commercial department was known and valued. With an able corps of teachers, with bright and capable pupils, with an excellent school equipment and healthful and uplifting surroundings, there is no reason why we cannot have a successful school. The work along all lines has been most gratifying. The Simonds High School compares favorably with others in the state.

The graduating exercises of the class of 1911 were held in the Town hall on June 9. The class numbered five and consisted of Elsie Gove of Sunapee, Shirley Cummings of Bradford, and Vivian Andrew, Emma Shurtleff and Charles Harriman of Warner. The prizes for excellence in school studies of eight \$2.50 gold piece: that had been given for several years by Mrs. J. D. Bradley, were continued by Supt. F. M. Colby, and were awarded as follows: Elsie M. Gove, Shirley A. Cummings, Edith M. Smith, Jennie V. Whytock, Nellie G. Roby, Effie A. Merrill, Edwin E. Andrew and Marguerite A. Goodhue.

The annual reunion of the alumni association was held in the evening, and a fine entertainment was presented by the Weber male quartet, and Miss Catherine Cole, reader, of Boston.

The school attendance for the year has been somewhat larger than last year. In June and in September, by certificate and by examination 21 students were admitted to the school. The number of tuition students remains correspondingly the same.

The manual training department is in good working order and the boys are enthusiastically engaged in the work. A set of Keen Kutter tools has been procured with the fifty dollars given by the alumni. These are of excellent quality. A set of

thirty complete working blue-print plans of the work as done in the Morrill school in Concord has been received. The boys are reading and following these plans exactly. Boys are allowed and encouraged to work for themselves, having done one period of required work. The building has been renovated, the interior being sheathed and painted. Ten large windows give excellent light, and benches three ways give work room. Electric lights have been installed and a stove gives ample heat. Much has been done with comparatively small expense, and I feel that the continuance of this line of work should be encouraged and the cooperation of all interested should be secured. As there was not time in the regular school hours to give proper instruction in this branch the principal has devoted the recess, part of the noon hour and from three to five to this work, thereby getting in touch with all of the pupils. Recently the scope of this department has been widened so as to include the girl students who are being taught in both common and fine sewing by Mrs. Davis in the commercial room.

All the work of the school is progressing in a very satisfactory way.

Respectfully submitted,

FRED MYRON COLBY, Superintendent.

REPORT OF LIBRARIAN.

To the Trustees of Pillsbury Free Library:

The statistics for the year ending February 9, are as follows: Cards issued, 511; books loaned, 8942; magazines, 838; books purchased, 203, added by binding, 54; gifts from individuals, 20; the usual amount of public documents and miscellaneous matter has been received.

Class of books used—1st, fiction; 2nd, juvenile; 3d, travel; 4th, general literature and poetry; 5th, miscellaneous; 6th, science and education; 7th, biography; 8th, religion.

Donors of books:—Mrs. C. A. Bacheller, Mrs. L. A. Sherman, Mrs. Wm. E. Chandler, John W. Snow, Fred Myron Colby, Mrs. Alice Kinney, Mrs. M. T. Ela, Amanda B. Harris, Ray A. Corliss, Mrs. Eliza Moulton Perkins, Paul T. Page, Dr. George T. Page, Wilson B. Flanders, Secretary of State, Henry C. Morrison, N. H. Medical society, Dr. Robert P. Porter, David M. Tipton, Topeka, Kansas; Slason Thompson, Chicago; Rev. A. R. Grayes, Coronado, California; I. William Adams, New York.

Periodicals furnished by subscription:—Atlantic, Century, Colliers' Weekly, Cosmopolitan, Country Life, Granite Monthly, Harper's Bazar, Harper's Monthly, Harper's Weekly, Ladies' Home Journal, McClure's, New England, Outing, Review of Reviews, Saint Nicholas, Scientific American, Scribner's, World's Work.

From publishers:—N. H. Statesman, New England Farmer, Mirror and Farmer, Newport Argus and Spectator, Kearsarge Independent and Times.

From individuals:—Christian Science Journal, J. W. Clement; American Magazine, Mrs. Burke; Our Dumb Animals, A. B. Harris; New Hampshire Issue, Rev. J. H. Robbins; Brown

Alumni Monthly, Alfred Cloues; Our Paper, Lawrence G. Mitchell; Bulletin Tilton Seminary, Prof. Plimpton; Granite State Outlook, Anne W. Heath; Youth's Companion, Martha A. Oliver.

Mr. John Foster has given a handsomely framed copy of his poem, "A Tribute to the Warner Hills."

There is not much change as the years go by. Every year we lose patrons by death or removal from town, but new ones are added. This year we have had a larger number of cards issued, and our circulation of books has increased 214 since last year.

In several cases new residents have come for books on the day of their arrival. One had once noticed the library in passing through the town, and was astonished by it. Another, on looking for a permanent home in the country, asked if there was a library in Warner, before seeing the house that was recommended, saying she would not live in a town where they had none.

It is always gratifying to have strangers pleased to find books they have long wanted to read. "I can't get it at home," is a remark often made. One of our summer visitors asked on his way from the station for "The Long Roll." Another visitor hoped "Queed" would be in. Our regular patrons have the name abroad of being "up-to-date" with new books—more so than in most towns the size of ours. It is quite noticeable the number of people who keep themselves informed about forthcoming publications, and when asking for a new book speak of the reviews they have seen of it. No community can have a more appreciative set of readers.

The young people have often been mentioned. Many of them are always "on hand" on library days and are reading a fine class of books. Some quite young readers are getting much interested. During the year about 60 books have been purchased for those between the ages of eight and eighteen, and they are books worth having—school and college stories, camp life, books about Indians, boy scouts, mechanics, electricity, adventures by sea and land, books not only helpful but entertaining. An effort is made to provide clean, wholesome reading.

On account of some changes in the schools the committee on the Children's Branch service has made no report, but it will be furnished at some future time.

MARY BARTLETT HARRIS, Librarian.

LIBRARY TREASURER'S REPORT.
