### Repository Citation

RISK Editorial Board, *Index of Book Reviews & Essays by Title*, 5 RISK 372 (1994).

This Index is brought to you for free and open access by the University of New Hampshire – Franklin Pierce School of Law at University of New Hampshire Scholars' Repository. It has been accepted for inclusion in RISK: Health, Safety & Environment (1990-2002) by an authorized editor of University of New Hampshire Scholars' Repository. For more information, please contact [ellen.phillips@law.unh.edu](mailto:ellen.phillips@law.unh.edu).

**Branden B. Johnson, Peter M. Sandman & Paul Miller, *Testing the Role of Technical Information in Public Risk Perception***

Finds, e.g., that providing technical detail about health effects may be less useful than keeping citizens current on officials' strategies for dealing with problems.

3.341

**Francine Laden & George M. Gray, *Toxics Use Reduction: Pro and Con***

Focusing on Massachusetts and contrasting claimed benefits and shortcomings, examines the success of toxics use reduction and calls for more balanced analysis.

4.213

**James F. Short, Jr., *Trace Substances, Science and Law: Perspectives from the Social Sciences***

Reviews social science research about perceptions, decisionmaking processes and behaviors of organizations and individuals who try to cope with risk and uncertainty.

5.319

**Patrick D. Kelly, *Using Management Techniques to Solve Environmental Problems***

Urges science and engineering societies to attempt to prioritize social problems and focus public awareness (and calls to action) in a more systematic way.
