Volume 6 1995 Number 1

Linda-Jo Schierow, *Senator Johnston's Proposals for Regulatory Reform: New Cost-Benefit-Risk Analysis Requirements for EPA?*

Dr. Schierow compares provisions designed to improve the development of regulations and promulgated by Reagan and Clinton Executive Orders with those in the Johnston Amendments.

..... 1

March Sadowitz & John D. Graham, *A Survey of Residual Cancer Risks Permitted by Health, Safety and Environmental Policy*

The authors describe permitted U.S. residual cancer risks, focusing on numerical levels specifically and implicitly authorized by statute or regulation. They also discuss potential changes.

..... 17

Galen E. Cole, Chester L. Pogostin, Bonita J. Westover, Nilka M. Ríos & CeCelia B. Collier, *Addressing Problems in Evaluating Health-Relevant Programs through Systematic Planning and Evaluation*

The authors argue that inconsistent terminology is often a hindrance in assessing health program implementation, effectiveness and efficiency. Attending closely to this, they propose a model scheme for conducting such evaluations.

..... 37

Sharon F. DiPaolo, *Getting through the Door: Threshold Procedural Considerations in Right-to-Die Litigation*

Ms. DiPaolo explains how judges may use mootness, ripeness and standing to avoid getting involved in right-to-die cases. She argues that this may interfere with private decision making and be counterproductive.

..... 59

Linda J. Orel, *Perceived Risks of EMFs and Landowner Compensation*

Although public concerns about EMFs may eventually prove groundless, they can nevertheless depress the market value of residential property near powerlines. Ms. Orel

argues that the scientific truth, as courts increasingly recognize, should play no role in determining whether or how much landowners should recover.

. 79

William O. Hennessey, *The Greening of Technology Transfer: A Conference Summary*

Dr. Hennessey briefly reports on an international conference that explored the relationship between patent and other intellectual property laws and those designed to protect the environment and maintain biodiversity.
