DURHAM, NH – The race between President Barack Obama and Mitt Romney remains tight in New Hampshire, but the percentage of voters who remain undecided has tripled in the last month. A slim majority of voters predict that the Obama/Biden ticket will ultimately win the election.

These findings are based on the latest **WMUR Granite State Poll**,\* conducted by the University of New Hampshire Survey Center. Six hundred and thirty-five (635) randomly selected New Hampshire adults were interviewed by landline and cellular telephone between September 4 and September 10, 2012. The margin of sampling error for the survey is +/- 3.9 percent. Included is a subsample of 592 likely general election voters (margin of sampling error +/- 4.0%).

### 2012 Presidential Election

In the wake of the Democratic and Republican National Conventions, the race between President Barack Obama and Mitt Romney continues to be very close in the battleground state of New Hampshire. In the most recent Granite State Poll, 45% of likely New Hampshire voters plan to vote for Obama, 40% say they will support Romney, 3% prefer some other candidate, and 12% say they are undecided. The percentage of those who say they are undecided has tripled since August, when only 4% were undecided.

There is a gender gap that continues to favor Obama -- women prefer Obama over Romney by 14 percentage points, essentially unchanged from 16 percentage points in August. Men continue to favor Romney, but by a slim 5 percentage points, down from 11 percentage points in August. There is a large class difference among women -- Obama's strongest support comes from college educated women, where he holds a 25 percentage point lead, but this lead disappears among working class women who favor Romney by 1 percentage point.

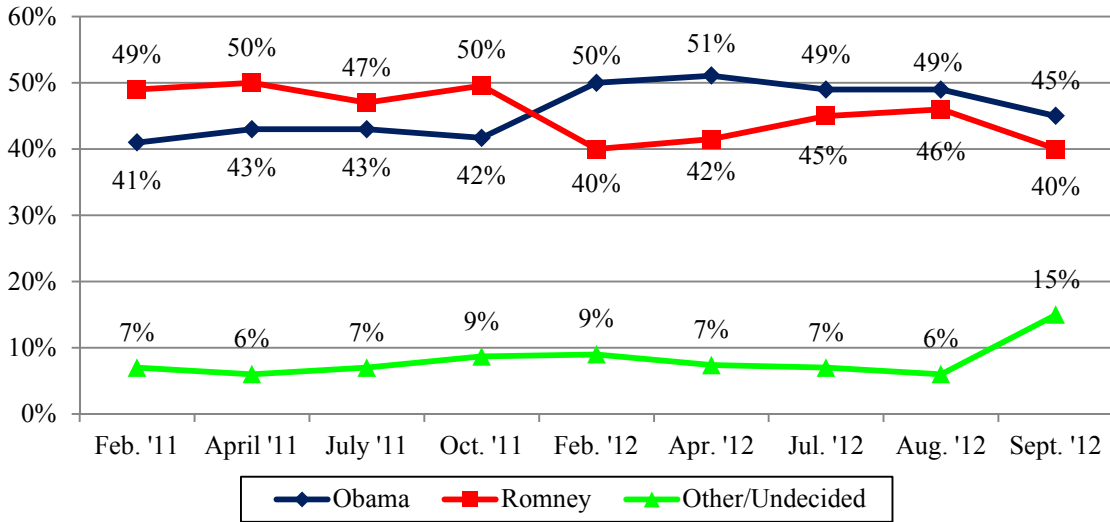

Republicans hold an edge in motivation with 62% of Republicans saying they are very interested in the election compared with 55% of Democrats. Similarly, 69% of Republicans say they often discuss the election with family and friends compared with 61% of Democrats, and among all New Hampshire adults, 90% of Republicans say they will definitely vote compared to 82% of Democrats.

However, most likely New Hampshire voters predict that Obama will ultimately win reelection. When asked who they think is more likely to win the 2012 presidential election, 51% think Obama will win reelection, 29% think Romney will win, 1% say some other candidate will, and 19% are unsure of the outcome. Most Democrats (85%) think Obama will win, while only 55% of Republicans predict Romney will win. Independents divided -- 43% think Obama will win, 32% believe Romney will win, and 25% are unsure.

These findings are based on the latest WMUR Granite State Poll, conducted by the University of New Hampshire Survey Center.
