THE CLASS OF

Registration and Events of the Week

On Wednesday, Sept. 13, the class of 1916 received Durham. After registering, they were called together by Pres. Alton Bay, Edgerley's; Edmunds, Concord, Crescent; Davis Charles W., Tompkin's; Swett, W. W., Gossville, Small, Fred W., Steep Falls, Me., Perry, Ralph M., Berlin, Rand's; Jenkins, E. K., Loudon, Dean Pettee's; Grant, Arnold J., Dover, Edgerley's; Berry, James A., Greenland, Crescent; Bartlett, W. S., Manchester, Pettee Block; Sawyer, Clifford A., Atkinson, Robinson, Lewis B., Pembroke, Rand's; Wyman, Eugene S., Durham; Joslyn rooms at Pettee Block.

The Minstrel Show

On Wednesday evening the minstrel show was given in Burnham's barn. The Freshmen actors showed much talent and the evening was an enjoyable one to the spectators if not to the Freshmen.

Posters

In the early morning the Sophomores put up the Freshmen Posters. The President did his best to tear them down before 7 o'clock but, although they gave 1914 much trouble, they succeeded in destroying only half of them.

The President's Address

Thursday afternoon President Gibbs addressed the new students in the Chemical lecture room. He reminded them that they are now entering upon a life entirely different from what they have been accustomed to experience in one that will be one of the most critical of their lives. He showed that college is different from "prep" school, for, in "prep" school they had been accustomed to have people watch and guide them, but now they must longer considered as boys and girls, but rather as young men and women. The President assumes that they are now going to take care of the freshers.

Another important point, emphasized was the fact that a great many students fail to take college life as seriously as they should. While it is well that everyone should enjoy himself during his college course, college should be regarded as a place simply for amusement, but as a place primarily for personal development and self to solve life's problems. College should enable one to learn easily, cheaply, and quickly what it would take a many years to learn by experience.

The president next showed how the future of students largely depends on their way of life. He said perhaps a fair who has "flunked" out of his course and is likely to fail in future years. He may perhaps get a fairly good position at first, but it very seldom happens that he ever rises higher. Not until then does he regret having spent his college days so foolishly.

Gibbs spoke of the habit, which a great many students are liable to form of wasting their time. Thousands of precious moments are often allowed to slip by without accomplishing anything worth while, and then when they are gone we are none the better for having spent them. While we study we should concentrate our minds entirely upon our books, and, when we play, we should be prepared to concentrate our minds upon our play. "Work while you work, and play while you play" is the motto of every student. He added that college life should be enjoyable.

Guy C. Smith

Guy C. Smith was born in Michigan and lived for a number of years on a farm near Adrian. After leaving high school he taught for a year in a rural school and then entered the State Normal College at Ypsilanti. He graduated from this institution in 1905. During the year following Mr. Smith's work at Chicago was chiefly in re-search work as a Forest Assistant in the United States Forest Service. Mr. Foster was transferred to the office of State and Private Cooperation and in 1910 became assistant chief of this bureau. He will remain in the Forestry service without pay while he is here at New Hampshire State College when actually employed in the service of that department.

F. E. McKone

F. E. McKone, assistant in Mechanical Engineering was born in Newmarket in 1885 and at an early age removed to Brookfield where he received his education and graduated from the high school in '04. The following year he entered Dartmouth College, but was unable to return in '05 because of ill health and he entered New Hampshire in '06, graduating in '09. Since graduation he has been the general electrie company at Lynn, where he took the Alexander course of practical engineering.

PROF. PARSONS RESIGNS.

The college very much regrets the resignation of Prof. Charles L. Parsons from the head of the chemical department. Prof. Parsons assumed his position in 1893 when the college was still in its new quarters and he has been instrumental in developing and expanding the course in chemistry. He has continued to fulfill a position that did not cause his resignation, but because of the Governor's veto of the bill creating the State University of Mines as chief institution for the development of mineralogical and metallurgical science. Although the position is much more lucrative than the present one, he has not been able to continue the work that he is engaged in for the past two years.

The "College Monthly" is dead, bound over and passed into the great beyond where it can never come back. Its last years were ones of strife and difficulty, but the end came in quietness with all bills paid. The final year of its existence was one that will forever be remembered by those in touch with it as one that showed its possibilities with good business methods. Its success, remembered by those in touch with it, is bound to make the college better known to the world and more loved by all who have lived here.

De Laval
The Cream Separator by which all others are judged

For more than thirty years the DE LAVAL has been acknowledged as the World's Standard.

You may hear it said of some separator that "It's as good as a DE LAVAL," or if some competing salesman wants to make his argument particularly strong he'll say "It's better than a DE LAVAL." The concern with a cheaply and poorly constructed machine says "Just as good as a DE LAVAL and costs less."

But everywhere the DE LAVAL is recognized by experienced creamerymen and dairymen and even by makers of would-be competing machines as the World's Standard.

The cream separator is more frequently used than any other machine on the farm, and for that reason, if for no other, only the very best should be purchased, and that's the DE LAVAL.

The more you come to know about cream separators the more certain you will be to buy a DE LAVAL.

upon his own part. For it is the effort which he needs, to train himself to meet the problems of life.

Cane Rush.

Friday afternoon, for the first time since 1908 a freshman class won the annual cane rush from the sophomores. From the shot of the starter's pistol, the freshman appeared to be winners. Obtaining an advantages by superior weight at the start, the freshmen seized the cane first, and, at the final count, they were ahead, 20 to 17. The freshmen were led by Earl Watson of Durham while the sophomores followed Guy Ham of Wolfeboro, N. H., in the absence of President W. H. L. Brackett of their class.

The work of Murdock of the freshman class was noticeable. The official score is as follows:

1915:—Robinson, 2; Bartlett, 2; Fernald, 2; Kiley, 2; Watson, 2; Vancore, 2; Hobbs, 2; Correveau, 2; Reed, 2; Parker, 1; Murdock, 1; Grant, 1; Bowden, 1; Oxside, 1; Davis, 1; Lindquist, 1; Roberts, 1.

Freshman Reception.

The annual Freshman Reception given under the auspices of the Y. M. C. A. was held at the gymnasium Saturday evening, after a reception in which, Pres. Tucker, Mrs. Gibbs, Mrs. Scott, Miss Donnelly and P. C. Jones received, Gilbert P. Lane, as chairman of the social committee, introduced the speakers as representing the various activities of college life.

President Gibbs spoke on keeping step. He said that many fellows fall in life because they fail to fall in line with the various conditions of life and he urged the new men to fall in step in their college course and to keep in step regardless of hindering circumstances.

Captain Lowd, and Coach David then spoke on football, W. E. Rogers for the college club, Prof. Jones for the Publicity Board, Catlin for the orchestra, Prof. Whorisky for the glee club, Captain Holden for the Athletic Association, P. C. Jones for "The New Hampshire."
