First Game or Season
Results in Tie.

In the first football game of the season, New Hampshire played Bates to a 6 to 0 tie score last Saturday. Although New Hampshire scored its touchdown in the first half, Bates was the more aggressive team, but the Blue and White came back strong in the last half and would have scored again, but for the interception of the whistle. Captain Lowell scored the first touchdown on a recovered fumble by Bates and a run of 75 yards, while Bates scored in the second period on a series of end runs and line plunges. New Hampshire's line, although outweighed, was most effective, and this was that of responsibilities, with the exception of the ends, who were weak on tackling and on breaking up interference. The backfield worked well for the first game of the season. At end, Reed and Jenkins were strong, breaking and evading tackle, and tackling, as were Jenness and Jones, who were substituted. Pettengill played without a mark and was especially cluse to the Bates tacklers. Jenkins, Jones, and Peabody made 27 yards around end, Dennis, after which he kicked a goal from the field. Jenkins here replaced Jones at center, while Jenkins and Pettengill were the smallest of the Bates tacklers. He would have made stronger gains had he not been given proper interference.

Captain Lowell was the star of the game, making repeated gains through tackle and proving the up interference. He was especially cluse to the Bates tacklers. He would have made stronger gains had he not been given proper interference.

The Game.

Bates kicked to New Hampshire at the start, and on two subsequent plays, Swasey ran the ball back to the forty yard line. Lowd was unable to gain around end, and Swasey punished Bates' 45 yard line. Bates gained seven yards, but was penalized five. Unable to make first down, he was forced to punt, which was blocked by New Hampshire and Bates gained for a loss in the field. Bates' ten yard line. Lowd was unable to gain through center. Swasey then punted fifty yards over the head of the Bates quarterback. New Hampshire forced Bates to punt, but on receiving the ball, Bates did a series of end runs, which resulted in a touchdown by Bates, who returned the ball ten yards. Bates held for two downs and Swasey kicked Bates rushed 18 yards and was again forced to punt to Brackett, who ran the ball 20 yards to the middle of the field. Jenness here replaced Jones and New Hampshire advanced the ball 24 yards before time was called. Score—New Hampshire, 6, Bates, 0.

Second Half.

The third quarter opened with Bates at right end and Bates kicking to New Hampshire's ten yard line. Lowd made ten yards through tackle and Swasey ran ten around the end, but Haines could not gain through center. Swasey then punted fifty yards over the head of the Bates quarterback. New Hampshire forced Bates to punt, but on receiving the ball, Bates did a series of end runs, which resulted in a touchdown by Bates, who returned the ball ten yards. Bates held for two downs and Swasey kicked Bates rushed 18 yards and was again forced to punt to Brackett, who ran the ball 20 yards to the middle of the field. Jenness here replaced Jones and New Hampshire advanced the ball 24 yards before time was called. Score—New Hampshire, 6, Bates, 0.

However, New Hampshire scored this time. Thompson Hall.

In Thompson hall the old seats in the chapel have been fitted with window boards to facilitate ventilation and the college has new paper

Merrill Hall.

Merrill hall has also come in to its share of changes for Prof. Taylor has moved to the office formerly occupied by Prof. Peckman. Prof. Peckman has moved to Mr. Stone's office and the latter now has an office at the close of the season end of the building. Prof. Consultant has moved to Prof. Taylor's old office. The gym room has been fitted for the animal husbandry room and view room. On the second floor Mr. Loomis has moved to the office in Mr. Loomis' former one.

Mechanical Engineering Course.

Some new machinery has recently been installed in the machine shops. On the iron room, a new 14 in. machine for augers, equipped with a double friction brake gear, which gives 16 speeds. It is also equipped with a quick change gear device that permits the cutting of forty-eight different threads without changing gears.

The wood shop has a new Oliver Universal saw bench, equipped with a cross-cut and ripping saws. The department has set up in the feature room a Bausch Lomh stereoscopic machine of latest type for the purpose of illustrating class room work.

Changes and Improvements.

Made in the Buildings and Offices.

Many changes and improvements have been made in the college buildings this year.

The Gymnasium.

In the gymnasium all the windows of the lower floor have been fitted with window boards to facilitate ventilation and the college has new paper on, "Some of the Unique Methods of Forcing Vegetables Under Floriculture, attended the exhibition of the American Association of Vegetable Gardeners in Boston last week.

Mr. David Lomnide, Assistant in Floriculture, attended the exhibition of the American Association of Vegetable Gardeners in Boston last week. He read a paper on, "Some of the Unique Methods of Forcing Vegetables Under Floriculture."

Glee Club Reorganization.

Last Thursday noon the members of last year's glee club met in the modern language class room and elected the following officers: H. H. Cullin, '12, president; G. W. Towle, '12, manager; J. E. Robinson, '12, secretary and treasurer; A. A. Mantor, '12, librarian.

BULLETIN FOR THE WEEK.

Wednesday—Football practice at 3:30 p.m.

Thursday—Football practice at 3:30 p.m.

Friday—Mass meeting at R. R. station to cheer team on. Orchestra rehearsal at college club at 7:00 p.m.

Saturday—New Hampshire plays Brown. Report of game at college club at 9:00 p.m.

Sunday—Christian Association meeting in Church-Chapel at 7:00 p.m.

Monday—Football practice at 3:30 p.m.

Tuesday—Football practice at 3:30 p.m.

Practical meetings in evening.

Wednesday—Chapel at 11:45 a.m. and "New Hampshire" out at 1:30 p.m.

BASEBALL CAPTAIN.

In June last George A. H. MePheters '13, was unanimously elected captain of the baseball team for 1912. MePheters made his letters in baseball, in Mr. Frobman year playing third base. Last year he played a fast and consistent game at short and second second.

Herbert R. Tucker was elected last spring as the track team manager for the season of 1912. In the year 1910 he explained the first track team at New Hampshire competing in the quarter mile.

Tucker has been president of his class for four years, and is president of the Christian Association, a member of the executive committee of the Athletic Association, and a member of the editorial staff of "The New Hampshire." He is a member of the Casque and Castlet and Kappa Sigma fraternity.

N. H. PROFESSOR PUBLISHES TEXT BOOK.

The class in Thermodynamics is now using Prof. Carlbro's new book, published by the McGraw Hill Book Co. It is a book of 421 pages, 7,000 in, profoundly illustrated and treats of the theory and designing of heat engines, refrigerating machinery and all kinds of Power plant apparatus.

'S 5 MAN VISITS COLLEGE.

Phillip G. Bickford '85, was a college visitor last week. He originally came from Lyme, N. H., but on graduation went West and this is his first visit to N. H. C since graduation. Mr. Bickford is at present in business at Pullman, Washington. The Washington state college is in his line of business. Mr. Bickford had considerable to say about the growth of the school and the interest taken in it. He stated that he was interested in the college and other things he states that the college has increased its registration in 21 years from 450 to 1,400. He adds that by recent enactment gives the college the income from a mill tax which at present amounts to $1,400 per year. This latter method of appropriation keeps politics out of the college affairs.

DURHAM, N. H., SEPT. 27, 1911.

WHAT'S THE MATTER, FRESHMEN?

On more than one occasion the freshman has been called upon by the coach to assist in the hanging up of the tackling dummy or to help in other work about the field. Thus far helpers have been scarce. In fact one man has been seen to hide behind a tree so that he would not have to help raise the dummy into position after each fall. This attitude will not do. We would have the freshmen know that, though we are very happy to have them here with us, we do not remember them as "new boys" and "greenhorns," but as college freshmen whose position is one that is not so important, but is one in which every man should lend the helping hand on bits of campus work. We of the upper classes have known through the same stages and know what we are talking about. Don't be afraid that you will appear ludicrous while engaged in such labors, but rather remember that you are doing it for the college and that you are honored by doing it and by accepting your position than you are by dodging your responsibility.

NOTE FROM MISS TOWNSEND.

The following note from our former registrar is self-explanatory. We are indeed sorry to have Miss Townsend leave us and hope that, as the years go along, she may still feel that we remember her with pleasure, and with the deepest respect. Here is what she says:

"I wish to express my deep appreciation of the beautiful gifts given me last June by the students of New Hampshire College and friends. I shall always have a warm interest in the future of the college and it is my wish that its success may be beyond all expectations.

Yours sincerely,

Mabel E. Townsend.

Rockport, Mass., July 2, 1911.

Have you noticed the change in the atmosphere of everything that surrounds us this fall? Many have spoken of it and have remarked upon "the difference of things." It is surely the beginning of a new era—this opening of the year 1911-1912. There is something in the air of the place that fills us with a different feeling; the faculty show it, the football squad shows it, the student body at large shows it. None of us can help but look forward to this year and remember it as the beginning of greater things.

A roster on the sidelines asked, "Why is the assistant coach's mustache like a picture of neatness and beauty?" Mr. H. M. Melnick, operator of the Colonial Salt Company, Dover, N. H., is a pure breed. He is the best place in town to buy your shoes at cut prices. Buying samples and surplus stock from the manufacturer enables us to undersell all competitors.

This is the only line that manufactures the most complete stock of High Grade Desks, in Roll Tops, Flat Tops and Drop Leaf patterns, also great variety of Office Chairs, Study Tables, Students' Couches, Bookcases, Reading Lamps, Couch Covers and Rugs. These goods are all fairly priced and delivered just when you want them.

De Laval
The Cream Separator by which all others are judged

For more than thirty years the DE LAVAL has been acknowledged as the World's Standard.

You may hear it said of some separator that "It's as good as a DE LAVAL," or if some competing salesman wants to make his argument particularly strong he'll say "It's better than a DE LAVAL." The concern with a cheaply and poorly constructed machine says "Just as good as a DE LAVAL and costs less."

But everywhere the DE LAVAL is recognized by experienced creamermen and dairymen and even by makers of would-be competing machines as the World's Standard

The cream separator is more frequently used than any other machine on the farm, and for that reason, if for no other, only the very best should be purchased, and that's the DE LAVAL.

The more you come to know about cream separators the more certain you will be to buy a DE LAVAL.

THE DE LAVAL SEPARATOR CO.

NEW RULES.
Rules Drawn Up by Faculty and Signed by "Ce-Eds."

1. Women students, unless living at home, are required to room in smirh hall, except by special permission from the President.
2. Women are expected to devote their evenings to study. Women may receive calls from gentlemen in the parlors of the houses where they live, and not elsewhere; and on Friday or Saturday evenings only; and not later than ten o'clock.
3. Carriage-driving, boat riding, and similar associations with gentlemen, unaccompanied by a chaperone, are forbidden.
4. Attending parties, dances, receptions, and other entertainments, that have not been formally approved, by college authority, is forbidden.
5. Women wishing to be away for over night must first obtain permission from the Dean.

The above rules will be applied to those women living at home in so far as the college deems wise.

COMPANY D.
Owing to the large number of two-year men it has become necessary to organize a new military company, Company D. This company will consist of two year men and will be captained by George W. Berry who is promoted from the position of adjutant, C. F. Jarlyn, who comes here from Norwich University has been appointed adjutant.

To fill the vacancy caused by the resignation of 1st Lt. J. A. Manter of Company A, 2nd Lt. N. D. Paine has been promoted to first lieutenant, and Color-Sergeant T. J. Tensey, to second lieutenant.

The 193 Granite.
This year's Granite will be of a slightly different type from last year's edition. The humorous side will be more prominent, while the old policy of making it a mere catalog of facts and an index of events will be done away with and in its place some material of more original character will be offered. A notice has been placed on the Thompson hall bulletin board requesting that all contribute jokes, cartoons and grinds to the volume and the editor-in-chief, D. B. Keys, hopes the students and faculty will be generous in their response to his request.

FIRST YEAR, TWO-YEAR RECEPTION.
An informal reception was given the class of two-year '13 by the class of two-year '12, Monday evening in Morrill hall. There were fifty-five present.

W. S. Blaisdell, acting as master of ceremonies, called upon the following speakers: W. P. Drew, H. V. Bent, Prof. Rasmussen took as his subject, "Class and College Spirit." Following the ceremonies, called upon the following speakers: W. S. Blaisdell, acting as master of ceremonies, called upon the following speakers: W. P. Drew, H. V. Bent, Prof. Rasmussen took as his subject, "Class and College Spirit."

The committee in charge consisted of the following: W. S. Blaisdell, W. P. Drew, H. V. Bent, and W. L. Douglass, and W. L. Douglass, and W. L. Douglass, and C. F. Jarlyn.

FRESHMAN PICTURE.

After the drill period on last Monday the class of 1915, unmolested by the sophomores, walked to Dover in a body, and had their picture taken in front of the city hall.

Mrs. Horace J. Pettee is visiting Dean and Mrs. Pettee.

THE EXHIBIT.

The New Hampshire College Experiment Station's exhibit at the Nashua Fair attracted considerable attention and much favorable comment from the people in attendance. The Dairy department exhibited the most approved apparatus used in handling, testing and shipping dairy products. The Agronomy department showed samples of forage crops, fertilizers, and grains. The Botany department's display of the different kinds of fungus diseases, and the Zoological department collection showing various stages in the life cycle of the more common insect pests were very interesting to many. The cup won by the different judging teams added not a little to the attractions of the exhibit.

In connection with the Experiment Station the Engineering department showed patterns and tools made by the students in the wood and machine shops. Bulletins were distributed and registry books for those who wished bulletins and catalogs were provided.

NEW CAR-LOAD OF CATTLE.

The Agricultural department has just received a car-load of sixteen grade Holsteins and grade Jerseys. These cattle came from New York, and some were prize winners at the Syracuse collection showing various stages in the diseases, and the Zoological department the work of the common fungous apparatus used in handling, testing and shipping dairy products. The Agronomy department showed samples of forage crops, fertilizers, and grains. The Botany department's display of the different kinds of fungus diseases, and the Zoological department collection showing various stages in the life cycle of the more common insect pests were very interesting to many.
