BROWN DEFEATS NEW HAMPSHIRE

Stronger Team Scores

ers, three of whom are veterans. New Hampshire was defeated by Brown on last Saturday in Providence by the overwhelming score of 56 to 0. Circumstances did not permit to guard, being more than seven hours down. Both Potencini and Jenkins, in the other end was fair as times. The playing of Perkins was the feature of the game. His hard and consistent tackling both at center and on the ends kept down the score. The tackling of the team as a whole was not up to the usual standards, the New Hampshire men would not dive for him. Brown was a strong team. Nine of last year's letter men are playing, in addition Sprackling, the All America quarterback. The latter one that you'll find in Brown's possession on her own 15 yard line. End runs by Sprackling and the halfbacks carried the ball to New Hampshire's 12 yard line, where Haine's recovered a fumble. Crosby punched out from his own 22 yard line. A few minutes later the next period ended. Score-Brown 41, New Hampshire 0.

Second Half.

The second period opened with a number of substitutions in the Brown line-up. Headon received the kickoff fumbled when tackled and against New Hampshire, however, recovered the ball on a fumble. Lowd made ten yard gain on the right end. Yardage of punts gave New Hampshire the ball on her 40 yard line. Crosby punted to his own 50 yard line and the ball was in New Hampshire's 25 yard line. Marble of Brown on the first series of plays took the ball to the New Hampshire goal line but was stopped just before the goal. A few minutes later the next period ended. Score-Brown 56, New Hampshire 0.

The last period, the original Brown team was again in the line-up. The ball was in Brown's possession on her own 15 yard line. End runs by Sprackling and the halfbacks carried the ball to New Hampshire's 12 yard line, where Haine's recovered a fumble. Crosby punched out from his own 22 yard line. A few minutes later the next period ended. Score-Brown 56, New Hampshire 0.

Summary.

Brown had a strong team. Nine of last year's letter men are playing, in addition Sprackling, the All America quarterback. The latter one that you'll find in Brown's possession on her own 15 yard line. End runs by Sprackling and the halfbacks carried the ball to New Hampshire's 12 yard line, where Haine's recovered a fumble. Crosby punched out from his own 22 yard line. A few minutes later the next period ended. Score-Brown 56, New Hampshire 0.

At the Rochester Fair.

New Hampshire College Makes Exhibit.

New Hampshire college had a splendid exhibit at the Rochester Fair last week.

The Mecanical Engineering depart- ment had numerous exhibits in the line of patterns from the wood shop. Among these were patterns of gears, shafts, hampers, chaps, pulleys, back rests for apple pitters, circular saws, spool and other articles embracing the underlying principles of the pattern maker's trade, some of them showing the uses of dry und line in foundry work.

Another case contained work from the machine and forge shops together with a generator capable of generating current sufficient for 5.32 candle power lamps. This generator was made and designed by a present member of the senior class.

Agronomy Department.

The Agronomy department had displays of forage grains and showed by the use of charts the result of fertilizers on hay yields. Continuous progress with all the improvements were shown, as was also a complete line of foreign seed.

Botany and Entomology Departments.

The Botany and Entomology de- partments were represented together. The former had a display illustrating the various diseases of orchard trees and plants, while the latter had a most inter- esting demonstration of the work of the apple maggot which is found so often in this state.

One of experiments on the exterminition of the root maggot re- ceived much attention. The design of the insect was shown to the boys and girls who desire to pursue the subject themselves. The latter one was used in the demonstration as they were more easily obtained and are better able to resist chemicals than the magot itself.

Horticultural Department.

This department had attractive displays of improved varieties of melons and cucumbers.

General.

Aside from these the college had ex- hibits of these pictures of its buildings scenes about the campus and cups won by the several judging teams of the agricultural department.

CONVOCATION.

At the convocation exercises, Wed. Sept. 27, the students and faculty of the college and the delegates of the Straf- ford Congregational churches had a the expecting. Mr. Ernst R. Butler, of Boston, gave the address on "The Men and Religion Forward Movement."

ROCHESTER FAIR.

Continued on page 3
THE NEW HAMPSHIRE, OCTOBER 4, 1911.

The Democrat welcomes another enterprise in New Hampshire journalism, the first number of "The New Hampshire" having left the press today. Editor Leighton is to be congratulated over the excellent appearance of this weekly, which will be a valuable institution at the state college. Foster's Daily Democrat.

New Hampshire state made a creditable beginning. McCaa, the old Lafayette kicker, was a splendid all-round man in college and the gridiron this year than it has ever experienced before. And this is saying and hard work make its existence possible.—Concord Evening Monitor.

"The New Hampshire," the weekly of the committee requests that the dividends are large, and they are paid annually on the anniversary of the policy. Paid Specimen Policy of the Massachusetts Mutual Life Insurance Company for your Inspection.

We are in receipt of an announcement from the United States Civil Service Commission calling attention to the regular fall examinations on October 1st and 2nd, 1911, for positions in the U. S. Department of Agriculture. Examinations will be given in the following subjects: Agronomy, Dairy Science, Entomology, Farm Management, Forest Crops, Horticulture, Library Science, Plant Pathology and Nutrition of Man, Plant Breeding, Plant Pathology, Physiology and Nutrition of Man, Soil Bacteriology, and Animal Husbandry. Persons interested are invited to communicate with the Civil Service Commission, Washington, D. C., and full information regarding the opportunities in the service, scope of examinations, salaries, etc., will be furnished.

We congratulate Editor-in-chief Alan Leighton, Business Manager Thomas Twomey, and their associates upon "The New Hampshire," the weekly newspaper which is in the new form of the official publication at the State college. It is handsome and hearty, a credit to the institution it represents and to the young men whose enterprise and hard work make its existence possible.—Concord Evening Monitor.

The state college eleven enjoyed excellent symptoms Saturday; some of them have left an unpleasant odor after careful inspection. McCaa, the one of the greatest field goal kickers the New Hampshire State college made a strike when she sounded McCaa, captain of the 1909 Lafayette eleven, and one of the greatest field goal kickers his game has ever known, to reach the Durham football team this fall.—Manchester Union.

De Laval
The Cream Separator by which all others are judged

For more than thirty years the DE LAVAL has been acknowledged as the World’s Standard.

You may hear it said of some separator that “It’s as good as a DE LAVAL!” or if some competing salesman wants to make his argument particularly strong he’ll say “It’s better than a DE LAVAL!” The concern with a cheaply and poorly constructed machine says “Just as good as a DE LAVAL and costs less.”

But everywhere the DE LAVAL is recognized by experienced creamerymen and dairymen and even by makers of would-be competing machines as the World’s Standard

The cream separator is more frequently used than any other machine on the farm, and for that reason, if for no other, only the very best should be purchased, and that’s the DE LAVAL.

The more you come to know about cream separators the more certain you will be to buy a DE LAVAL.

Concluded from page 1
A river never rises higher than its source. A state never rises higher than the people residing therein. Public education is not furnished solely for the benefit of the individual but also for the benefit of the state. A state whose people are honest, industrious, and intellectual is far more prosperous and takes a far higher rank than those states whose people do not possess those qualifications. If New Hampshire is to prosper in the future it must be because of its agriculture, its manufactures, and its industries along every line are carried on upon a higher scientific plane. In all these lines success can come only by the use of brains.

The New Hampshire College, if properly supported, will do more toward the development of brains along industrial lines than any other institution in New Hampshire. Properly supported its present rapid increase in numbers and efficiency will be continued. If the people of New Hampshire can fully realize the full relation and duty of the state to the college, we believe that the college will no longer lack proper financial and moral support. Let the Publicity Board continue its good work until every man and woman in New Hampshire appreciates the true relation and duty of the state to the college.

RIFLE CLUB.

Last year a rifle team was organized here at New Hampshire, which shot in the National Rifle Association of America’s inter-collegiate league and made a very creditable showing. This year the indoor range at the gymnasium has been improved and now eight targets may be mounted at a time. New light proof shades have been installed and it is expected the range will be used off from the rest of the basement and that mats will be provided for prone shooting.

Owing to the large number of college teams entering the league this year, the league will probably be divided into three or four divisions, the winners in each division completing together for the championship. This method will shorten the number of matches each team will shoot. It is also expected that an association medal will be given to the man on each team obtaining the highest total score of the season. The first meeting of the club is called for Thursday (tomorrow) night at 4 p.m., in the gymnasium. All men interested in indoor shooting are requested to attend as are all the members. With proper support and an early start New Hampshire should produce an especially good team this year.

RANGE UNDERGOING REPAIRS.

Repairs are being made on the outdoor range and it will probably be ready for use in a few days. A small storage shed is being erected in which to put the equipment and the students may then shoot the courses prescribed for the 200 and 300 yard ranges at any time convenient to them.

The Senior class has elected the following officers: President, H. R. Tucker; vice-president, M. S. Watson; secretary, Edith G. Donnelly; treasurer, J. B. Nesbit on Saturday, Sept. 23, a daughter, Ellen Louisa.
