DURHAM, N. H., OCTOBER 11, 1911.

PRICE 5 CENTS.

## TEAM MAKES BETTER SHOWING.

### But is Defeated by the Maine Team.

On Oct. 7, in a hard fought contest at Orono, Me., the New Hampshire football team lost to the University of Maine by the score of 12 to 0. The game was marked throughout by spirited fighting by the whole team and had it not been for the phenomenal ability of Maine's punter, the score would have been more even, for what the opponents gained by kicking, New Hampshire had to regain by rushing.

Swasey and Jones made long end runs and the running back of punts by the latter was remarkable. Perkins played his usual star game on the defense and was run a close second by Haines. The whole team played aggressive football and not less than four Maine men were removed from the game on account of injuries.

New Hampshire had all the better of the argument in the first period. At the start, Swasey on a criss cross made thirty yards around left end and Jones followed with twenty around right. Maine held for downs. She then punted to Jones, who ran the ball back 25 yards. Lowd and Haines made short plunges, while Swasey and Jones several times gained the required distance by long end runs. Maine punted on first down every time the ball came in her possession and New Hampshire rushed it back into her territory. In the last minute of play, Lowd missed a try at field goal from the 35 yard line.

Maine had the advantage in the second period, keeping the ball in New Hampshire's territory. New Hampshire held for downs several times, however, but finally Shephard of Maine succeeded in kicking a goal from the field. The first half ended with the score, Maine 3, New Hampshire 0.

In the third quarter, New Hampshire again had the stronger team and kept the ball well in her opponent's territory, but after a fumble by New Hampshire, which Maine recovered, the latter's quarterback ran 45 yards, when he was downed by Jones on the 20 yard line. Held for downs, Shephard kicked another goal from the field, making the score, Maine 6, New Hampshire 0.

The fourth period was a fierce struggle from beginning to end. Maine made two successful forward passes and then, within striking distance, slowly hammered the ball to the two yard line, where New Hampshire held for two downs. On an end run, Maine's half back crossed the line, knocking out Captain Lowd, who attempted to tackle him. Shephard kicked the goal. Jones replaced Lowd and Lamb took the quarterback's position. Maine kept the ball in New Hampshire's territory for the rest of the period, but was unable to cross the line again. The final score was, Maine 12, New Hampshire 0.

### Summary.

MAINE	NEW HAMPSHIRE.
Cook, Smith, le . . . . .	re, Reardon
Murray, lt . . . . .	rt, Jenness
Seavey, Kent, lg . . . . .	rg, Robinson
Baker, c . . . . .	c, Perkins
Crowell, Whitney, Burnette, rg . . . . .	lg, McLucas
	lg, Robinson

Shephard, Smiley, fb . . . . .	fb, Haines

Score, Maine 12. Touchdown, Carleton. Goal from touchdown, Shephard. Goals from field, Shephard 2. Umpire, Kelley, Portland. Referee, McReadie. Field Judge, Bragg. Linesman, Amidon. Time four 12m periods

### U. S. SHIP WISCONSIN 6; NEW HAMPSHIRE SECOND 5.

Last Saturday the football team representing the U. S. S. Wisconsin came to Durham and in a ragged and rather tame exhibition defeated our second eleven 6 to 5.

Webb was easily the best ground gainer that the Wisconsin boys had, while Foster and McCartney, did good work for the second team.

The line up:

U. S. S. Wisconsin	N. H. 2nd
Schroder,	re, McIntire
Kennedy le	Sellers, Adams
Beste, lt	rt Norton, Sanborn
Bergasse, lg	rg, Sellers,
	Vancore, Sanborn
Weniger, c	c Corriveau
Lutz, rg	lg, Leary, Sanborn
McInnis rt	lt, Webster
Beck, re	le McCartney
McGiff, qb	qb, Bissell
Bergman, lhb	rhb, Fisher
Hoover, rhb	lhb, Foster
Webb, fb,	fb, Willard
	Sanborn, Sellers

Score: U. S. S. Wisconsin 6, N. H. Second 5. Touchdowns; Hoover, McIntire. Referee: W. H. L. Brackett, '14. Umpire E. J. David, Headlinesman, P. R. Crosby, '12. Time 4 ten minute periods.

### COACH TO LEAVE.

Coach McCaa has handed in his resignation as football coach here at New Hampshire. He has been offered the position of assistant football coach and supervisor of athletics at Lafayette. Although we are sorry to have him leave us, both because of his personality and because the team must suffer to some extent, we wish him success. At the time of going to press no successor had been chosen.

### ELEMENTARY ENTOMOLOGY.

Ginn and Company, publishers, have in press an elementary entomology written by E. Dwight Sanderson, formerly of New Hampshire College, now dean of the College of Agriculture and Director of the Experiment Station at the University of West Virginia, and C. F. Jackson, professor of zoology here at New Hampshire. The book is designed particularly for use in agricultural high schools and colleges where a general course of one semester is required of all students.

### RIFLE CLUB.

The first meeting of the rifle club was held in the gymnasium last Thursday afternoon with a small number present. Plans for the winter were discussed. The annual election of officers will be held tomorrow, Thursday, at 4.00 p. m., in the gymnasium.

## RECEPTION AT CHURCH.

### Annual Reception to New Men held Friday.

In spite of the inclement weather a large number of college men and townspeople attended the annual freshman reception held in the vestry of the Durham Congregational church last Friday evening.

During the first hour Mr. and Mrs. Taisne, Mrs. Simpson and Deacon Meserve received. At the same time, the guests were busy trying to guess the names of New Hampshire towns, which were cleverly pictured and hung about the walls. Halves of picture post cards were also distributed, and everyone attempted to find his "other half."

After several pieces had been played by the college orchestra Mr. Taisne spoke a few words of welcome, H. B. Catlin gave a violin solo and H. R. Tucker read Rudyard Kipling's poem, "If." Following another selection by the orchestra the answers to the pictured towns, names were read and ice-cream and cake served. There followed an enjoyable social before the affair was brought to a close.

### U. OF V. HAS NEW PRESIDENT.

Guy Potter Benton, A. M., D. D., L. L. D., was inaugurated as the 12th president of the University of Vermont on Friday last. He succeeds the late Rev. Dr. Mathew H. Buckham, whose death ended a college administration extending over a period of more than a quarter of a century.

### PRESENTS MINERALS TO COLLEGE.

Mrs. G. L. Green of Concord, N. H., has presented the college with a collection of rare and valuable minerals. At present the minerals are in the mineralogy laboratory, but later some of the rarest specimens will be placed in the cases at Thompson Hall.

### A. X. E. MEETING.

A regular meeting of the A. X. E. Fraternity was held last Thursday evening in the college club. After the regular business was over, Mr. A. Perley the new assistant professor of chemistry was initiated as an honorary member. The meeting was then thrown open to all chemists and after refreshments had been served Mr. Katz gave a description of the recent American Chemical Society meeting, held in Minneapolis. This was followed by a short report on "My Summer's Work," by D. B. Keyes '13 and the meeting adjourned. The next meeting will be held Thursday evening Oct. 19.

In some unaccountable way the name of G. N. Perkins, '14, was omitted from the score of the cane-rush in the first issue of "The New Hampshire." He should be credited with two hands, making the score 19 to 26.

### BULLETIN FOR THE WEEK.

Wednesday—Stated meeting of trustees. Football practice at 3.30 p. m.

Thursday—Football practice at 3.30 p. m., Casque and Casket meeting at Beta Phi house at 8.00 p. m. Glee Club rehearsal at college club room at 8.00 p. m.

Friday—Football practice at 3.30 p. m.

Saturday—New Hampshire, Springfield T. S. game. Report of game at college club room at 8.00 p. m.

Sunday—Church services at 10.45 a. m. Christian Association meeting at 5.00 p. m.

Monday—Football practice at 3.30 p. m.

Tuesday.—Football practice at 3.30 p. m. Fraternity meetings in evening.

Wednesday—Chapel exercises at 11.45 a. m. "The New Hampshire" out at 1.30 p. m.

### IN EFFECT OCT. 2, 1911.

Trains stopping at Durham for passengers:

Eastbound—8.12, 9.23, 10.36, a. m.; 2.15, 6.05, 7.18 p. m.

Sunday 10.20 a. m.; 7.13, p. m.

Westbound—6.50, 8.51, 11.58 a. m.; 1.51, 3.10, 5.32 p. m.

Sunday 7.08 a. m.; 2.30, 7.47 p. m.

### TRUSTEE MEETING.

The trustees are in town today in attendance upon a regular quarterly meeting of the board. Last year at this time the trustees all brought apples in competition with the college crop, and Hon. J. G. Tallant took the award. President Gibbs has invited them to do the same this year, but it is expected that the college will take the award this time.

### AT GRANGE HALL.

The younger members of the faculty held a dance in Grange hall last Wednesday evening in honor of W. L. Slate, assistant in Agronomy who has accepted a position at the University of Maine.

### ALUMNI NOTES.

Lawrence D. Ackerman, '09 passed the Sabbath in town. Mr. Acherman has charge of the chemical laboratory of the Hood Rubber Company in Watertown, Mass.

Brent Proud, '10 who has been working in Boston with the American Telephone Company has been transferred to Pittsfield, Mass.

H. C. Read '10 has been transferred from Providence, R. I., to the Boston office of the American Telephone Company.

F. W. Randall '07 has been appointed manager of the Cornwall division of the Center Hudson Gas and Electric company.

A. H. Brown '11 was in town over Sunday.

Albert Brown '11 has accepted a position in Petersham, Mass., as instructor in agriculture in the high school. The Massachusetts State Board of Education has introduced agricultural courses into many of the secondary schools and it is at one of these institutions at which Mr. Brown is engaged.

### ARE YOU ONE OF THESE?

Every man has a selfish streak in him somewhere, but some show it more than others. This selfishness crops out in college life as often as elsewhere. One instance which was noticeable very lately was at the time when the football team went on the trip to Brown. The cheer leader posted a notice for all to be at the station and cheer the team off at seven in the morning. Not over fifty appeared! The hour was a little early for some of us perhaps. Those extra thirty minutes of sleep, however, should have been sacrificed in order to show the men of the varsity that every man was behind them and was depending upon them? You men who are sharp crying "college spirit," where were you? Talk less and do more. Go to other colleges and see the answer to such calls as our cheer leader posted. There the whole student body responds. You would have been only too glad to be on hand if you could thereby have gotten free from a recitation. If in such a matter as this, self is worth more than the college then you had better seek another alma mater. The summons of the cheer leader is not a personal matter, it is the call of the student body. Forget the selfish motive of only caring for self, and get brim full of the spirit that overcomes such smallness. Then you will feel happier, be a better college man, and prepare yourself for a greater power of overcoming the roughness of the business world later on.

We have one further suggestion to make, all of these are pointed in one direction; that of a bigger and better college, and that is regarding the occupation of the field during football practice. There has not been a night thus far this fall when many of the watchers of the practice have not straggled over the field and hampered the practice. The place for those watching practice is outside the field of play, and strenuous measures should be taken to see that this simple rule is not violated. If everyone takes this to himself no other move will become necessary.

We are glad to see that Dartmouth has followed the example of her younger sister and adopted the freshmen caps.

### NOTICE.

All sophomores who wish to try out for the position of assistant business manager on The New Hampshire must hand their names to the business manager within one week from the date of the present issue.

The Publicity Board this week issued an interesting article by Professor Hewitt on "New Hampshire's Undeveloped Water Power."

### COMMUNICATION.

The following communication by E. W. Butterfield appeared in Foster's Daily Democrat recently:

Mr. Editor:—

The fact that from the last class of the Dover High School 12 boys have gone to New Hampshire College and none to Dartmouth has caused some comment among the adherents to the older college. Dartmouth's entrance requirements are reasonable enough, she accepts our certificates as do other colleges and all the boys we have certified there in recent years have done good work, so the cause of the preference on the part of our boys is not in any difficulty of entrance.

It is due, rather, to the following causes: A different class of boys is going to college today from that of two decades ago. Then boys went to college because they were socially ambitious, desired a literary career or wished to enter a profession. To-day, besides these, there is a much larger class of boys who wish to prepare at college for some form of engineering or mechanical work. Dartmouth maintains a classical and literary curriculum and does not offer the mechanical courses and courses in engineering which attract the most of our boys. New Hampshire College is very strong in this part of its equipment and is, moreover, so near us that it is practically in Dover, while Dartmouth is in a remote part of the state.

As a graduate of Dartmouth I should like to see more of our graduates go to that college but so long as the state college is so near and is doing superior work in the lines which most of our boys want, I expect that as now, Dartmouth will attract from our section those who are interested in its social advantages or athletic renown and those who wish a literary course or one leading to the professions; while New Hampshire will continue to draw the boys who wish mechanical, agricultural and engineering courses. E. W. Butterfield.

### If YOU Have

a base ball, football or other trophy that should be in the trophy case give it to W. E. Rogers AT ONCE. This is not a personal duty, it is a COLLEGE duty. DO IT NOW.

The Tuft's Freshmen this year posted posters for the benefit of the Sophomores. Some of the rules laid down to the Sophs are of such a nature that a Soph must obey them or run the risk of being classed as a Freshman. Every one is wondering what the second-year men will do about it.

The New Hampshire stock judging team, under the leadership of Prof. O. L. Eckman, left on Wednesday, Oct. 4, for Brockton Fair. The team, composed of M. G. Eastman, R. E. Batchelder, L. B. Smith, and P. E. Steele, made a very creditable showing in the judging trials, securing third place. Connecticut and Massachusetts obtained first and second respectively.

### A PURELY MUTUAL COMPANY.

The policies issued by the Massachusetts Mutual Life Insurance Company, are purely mutual and much more liberal than those of other Companies. The premium rates are LOW the dividends are large, and they are paid annually on the anniversary of the policy. Paid up Insurance, Cash Surrender Values, and Extended Insurance are guaranteed after two years premiums have been paid. If you want THE BEST THERE IS IN LIFE INSURANCE, send us your name and address, date of birth, kind of policy desired, and we will mail you a Specimen Policy of the Massachusetts Mutual Life Insurance Company for your inspection. Compare it with policies issued by other Companies that do business on the Annual Dividend Plan, we feel confident that you will be convinced. THAT IT IS THE BEST.

# 98% OF THE WORLD'S CREAMERIES USE De Laval CREAM SEPARATORS

Ten years ago there were a dozen different makes of creamery or factory separators in use. Today over 98 per cent. of the world's creameries use DE LAVAL separators exclusively.

It means a difference of several thousand dollars a year whether a DE LAVAL or some other make of separator is used in a creamery.

Exactly the same differences exist, on a smaller scale, in the use of farm separators. Owing to the fact, however, that most farm users do not keep as accurate records as the creameryman, they do not appreciate just what the difference between a good and a poor separator means to them in dollars and cents. Nine times out of ten the farmer can't tell whether or not he is wasting \$50 to \$100 a year in quantity and quality of product through the use of an inferior cream separator.

If you were in need of legal advice, you would go to a lawyer.

If you were sick you would consult a doctor. If you had the toothache you would see a dentist. Why? Because these men are all specialists in their line, and you rely upon their judgement and skill. When it comes to buying a separator why not profit by the experience of the creamery man? His experience qualifies him to advise you correctly. He *knows* which separator will give you the best service and be the most economical for you to buy. That's why 98 per cent. of the world's creameries use DE LAVAL exclusively.

There can be no better recommendation for the DE LAVAL cream separator than the fact that the men who make the separation of milk a *business* use the DE LAVAL to the practical exclusion of all other makes.

## ODDS AND ENDS.

Mme. Curie, the famous woman scientist, began her career as a student in Paris in the humble capacity of an assistant in a chemical laboratory. She soon proved herself worthy of better things, and became one of the most brilliant and original of the laboratory's workers. Eventually she married a fellow-student, and together, through years of poverty and discouragement, they worked out the epoch making discovery of radium.

Nikola Tesla, the inventor, who lately announced the discovery of a new method for obtaining and transmitting mechanical power, from which he expects great results, was born in 1857, in Austria-Hungary. Since 1884 he has been a resident of the United States. His activities have been mainly in the field of electrical development, in which he occupies an eminent place among the world's inventors.

Columbia University is to have a political laboratory. This will provide students of politics with all kinds of documentary information as to political affairs. Sample ballots, legislative manuals, labor bulletins etc., will be among the material open to the investigator, as well as files of important newspapers and magazines having articles bearing on political subjects.

The benevolent bacteria of buttermilk recommended by M. Metchnikoff, a director of the Pasteur Institute, Paris, as a promotive of longevity, have received a strong reinforcement in the palatable bacteria of sour milk in the form of ice cream. This is not ordinary sour milk, however, and home experiments with these bacteria are not recommended.

Business engagements have compelled W. A. Larned to give up the idea of being a member of the American tennis team, which by defeating the English team, won the right to play against the Australian team for the Dwight Davis trophy. Last August Mr. Larned won for the 7th time, and for the 5th in succession, the lawn tennis championship of the United States. Mr. Larned is over 40 years old, and Mr. McLaughlin, the runner up in the tournament at Newport, is 20 years younger.

The new ocean liner Aquitania which is being built at Clydebank, Scotland, for the Cunard company, will be the largest in the world. She will be 900 feet long, 10 feet longer than the German liner Imperator, which will be ready for service in the spring of 1914, and will accommodate 4000 passengers. From the Thompson Hall to the new railroad station is about 900 feet.

The International Congress of Applied Chemistry will meet in Washington, September 4. Prof. James who is recognized as the authority in the United States on rare earths, has been invited to give a paper before the congress.

Three hundred students are now registered in New Hampshire College.

At a mass-meeting called directly after chapel, Wednesday Oct. 4, the following men were elected to the student council: Holden, Berry, and Rogers of the senior class; Beach and Adams of the junior class. Of these, Mr. Holden was chosen president of the council and Mr. Beach, secretary.

E. W. Butterfield, Supt. of Schools in Dover, addressed the student body at chapel Wednesday, Oct. 4th. The subject of his discourse was "The Burdens We Bear."

## COLLEGE NOTES.

Prof. Arkell acted as a judge at the Plymouth Fair last week.

I. Watson Pike, ex'14 of Haverhill was a college visitor this week.

Prof Richard Whoriskey Jr., has been elected faculty adviser of the College Club.

Prof. Charles James returned to Durham Sunday after a summer spent in England.

Prof. Guy C. Smith has rented the stone house across the Oyster river owned by Mrs. Wendell of Dover.

Pres. W. D. Gibbs attended the inauguration of Dr. Guy P. Benton at the University of Vermont, last Friday.

Mr. Charles C. Steek has taken up his residence at the old Gleason house which has been recently remodelled by Charles Smart.

The freshman class has elected Earle E. Watson, president; Armond L. Murdoed, vice president; Miss Alice J. Hoitt, secretary; and Lester S. Langley, treasurer.

The senior class in mechanical engineering is engaged in designing a new type of testing machine in which the complicated weighing mechanism is omitted.

Prof. B. S. Pickett is the author of a bulletin just issued by the government. The title is "Fruit Bud Formation, Progress, and Investigations in 1908, 1909, and 1910."

Mrs. Edward H. Adams has moved from the old Sullivan house, which has just come again into the possession of the Sullivan family, to the house owned by Mrs. Wendell of Dover.

The College Bull, Figgis's Flower Fox O' D. won a third prize at the Brockton Fair. The bull's dam, Fox's Flower O'Dreamwold took the champion sweepstakes in the Jersey line.

On September 23, Lieutenant G. W. Edgerly of the Military Department received his commission as first lieutenant. His assignment to the 5th U. S. Infantry was received three days later.

The publicity board has just had several pictures of the different buildings, taken by Mr. Lumsden These pictures are to be framed and sent to various high schools throughout the state

Bernard Woodward Sergeant Major, '13 and H. B. Catlin, First Sergeant of Company C, '12 have been appointed first and second lieutenants, respectively in Company D.

Mr. Jas. J. Gardner, of the horticultural department, has been judging at the grange fair at Plymouth during the last few days.

On Sept. 29-30, Mr. John Castner, a professional fruit grower of Hood River, Oregon, gave a demonstration on the box packing of apples.

The home of Albert Sullivan, on the Packers Falls road, was destroyed by fire Friday night. The cause of the conflagration is not known.

Mr. A. A. Stevens, a prominent fruit grower of Wenashatee Valley, Wash., visited the college Wednesday, Oct. 4th. During his visit, Mr. Stevens gave an instructive talk to the two year class on Western methods of apple growing.

Richard A. Knight of Concord has registered in the engineering course and Harold C. Hill of Laconia in the agricultural course. The former is staying at the Crescent and the latter rooms at Sawyer's.

The Military department has just received copies of the 1911 edition of the U. S. Infantry Drill Regulations will be put in effect next Monday and it is expected it will require much time and work to accomplish the change, as the movements in the new manual differ greatly from those in the 1904 edition.

Percy J. Burbeck has just completed a map of the college grounds. The map has required several months work and not only gives the locations of all buildings but the contours as well. Mr. Burbeck left Sunday morning for the West. After a short visit in Minnesota he will go to Oakland, California where he will be engaged in Hydraulic Engineering.

## ALUMNI NOTES.

Charles Cone '08 has completed his course with the General Electric Co., at Lynn and is at present fitting himself as a salesman.

Henry E. Batchelder '09, teacher of Physics and Manual Training at the Harvard School, Chicago, Ill., was a recent college visitor.

E. S. Savage '05, received his doctor's degree from Cornell last June. He is assistant professor of Animal Husbandry at Cornell.

Miss Mary A. Chesley '08, of Lee, spent the summer in Germany and has recently returned to her duties as teacher in Thetford, Vermont.

Charles Shannon Wright, '10, has received his master's degree at Cornell and while studying for his doctor's degree he will assist Professor Craig of the same institution in the courses of vegetable gardening.

B. R. Wells, '10, L. D. Aekerman, '09 and J. M. Leonard, ex '10, were Sunday visitors at the Kappa Sigma House.

On October 2, Miss Florence Trimmer, registrar, was initiated into the Pi Kappa sorority as an honorary member.

## IF BACTERIA WERE AS EASILY SEEN AS GNATS.

If bacteria were as easily seen as gnats no one would need to tell you how much superior

was to other washing materials. But because bacteria cannot be seen by the unaided eye, and because you have always believed things to be clean that looked clean, you do not appreciate how Wyandotte Dairyman's Cleaner and Cleanser does an immense amount of cleaning that you are apt to overlook.

To every Dairyman, be he the owner of one cow, or the owner of many, a dairy cleaner is a necessity and it should be one that will not only remove the dirt and objectionable matter that can be seen, but the invisible bacteria as well.

Ask your dealer for a small sack.
