The New Hampshire College football team was defeated at Springfield Saturday by the Springfield Training School. The score was 28 to 0. The game was characterized throughout by the elan fast playing of the home team and by the determined up-field fight of the New Hampshire men. Springfield scored three times in the first quarter, once in the second, and only once in the last half, and had New Hampshire playing as well at first as she did later, the score would have been much more even. Perkins and Crosby excelled for New Hampshire, while Captain Metzler and Kelley played the best for Springfield.

The First Quarter.

Captain Metzler won the toss and chose to receive the kick. Crosby kicked off to the 20 yard line but Springfield brought the ball back to the center of the field. After netting 32 yards on two end runs, Horne fumbled and New Hampshire recovered. After two attempts to gain, Crosby punted to Springfield's 40 yard line. Springfield then made four end runs and Kelley crossed the goal line for the first touchdown.

The Second Quarter.

Springfield kicked to Morgan who was downed on the 35 yard line. After holding for two downs, Lovel made a successful pass to Jenness for a gain of 18 yards. Swany, however, lost the ball on the next play, and Crosby punted to Springfield's 45 yard line. Here Mann was replaced by Beaver, Fradd, who advanced to the 40 yard line. The lineup:

**Springfield**

Mann, Bragg, Lowd, Lindsey, Morgan, Loomis, Haines, Blaisdell, N. H. Lose.

THE NEW HAMPSHIRE, OCTOBER 18, 1911.

THE COLLEGE AT SILVER BAY.

This past summer there was made at Silver Bay, the summer training school of the Young Men's Christian Association, an organization. During the last two weeks of August there was held, in connection with the County Agricultural Institute, the first "Volunteer County Work Institute," a body of four students all of whom were from our state. We are very proud that our college can claim three of the four men—Dartmouth claims the other in the person of Howard Ball, '13. The three from this place were: P. C. Jones and P. A. Foster, '13, and O. E. Huse '12, now of the Pennsylvania State College. This undertaking by us men of a type that our college is considering this form of effort as a life work.

Since its inception the Glee Club has been of a type that our college is making practically all things that serve to put it in the act of March 3, 1879.

98% OF THE WORLD'S CREAMERIES USE

De Laval

CREAM SEPARATORS

Ten years ago there were a dozen different makes of creamery or factory separators in use. Today over 98 per cent. of the world's creameries use DE LAVAL separators exclusively. It means a difference of several thousand dollars a year whether a DE LAVAL or some other make of separator is used in a creamery.

Exactly the same differences exist, on a smaller scale, in the use of farm separators. Owing to the fact, however, that most farm users do not keep as accurate records as the creameryman, they do not appreciate just what the difference between a good and a poor separator means to them in dollars and cents. Nine times out of ten the farmer can't tell whether or not he is wasting $50 to $100 a year in quantity and quality of product through the use of an inferior cream separator.

If you were in need of legal advice, you would go to a lawyer.

If you were sick you would consult a doctor. If you had the toothache you would see a dentist. Why? Because these men are all specialists in their line, and you rely upon their judgement and skill.

**Does Working Pay?**

An Ideal

By

Frank A. Davis, M. D., ’86.

I met a man of Labor’s clan

Upon the street one day;

I stopped him and inquired of him;

“My man, do working pay?”

He looked at me in blank amaze,

And stammered half confused;

And then a smile lit up his face;

Which showed he was amused.

“Does working pay? you ask of me,

Just give me time for thought!

Does Honor pay? Does Friendship pay?

Does Virtue count for naught?”

An earnest, sober look here came

Into his honest eyes;

He paused and then began to speak,

And seemed to grow in size.

“I’ve always had to work, he said,

And know I always must;

And think it best, for things not used

Are prone to rust and rust.

And then I have a wife at home,

And children with her there;

And all must have a roof above,

And eats to work and wear!

And comforts such as I can give

With means at my command!

You’re not a working man, yourself,

And do not understand!

But all these things must come through work

To anyone like me;

And if I stop, or ever shir,

’Tis plain where I would be.

"In yonder shop with chimney tall,

Where the sound of voices call

The smoke from which you see.

I stood before a king.

I listened and it seemed to me

Better Shoes were as easily seen

as gnats.

If bacteria were as easily seen

as gnats no one would need to tell you how much superior

**Wyandotte**

was to other washing materials.

But because bacteria cannot be seen by the unaided eye, and because you have always believed things to be clean that looked clean, you do not appreciate how Wyandotte Dairymen’s Cleaner and Cleanser does an immense amount of cleaning that you are apt to overlook.

To every Dairymen, be he the owner of one cow, or the owner of a dairy, a cleaner is a necessity and it should be one that will not only remove the dirt and objectionable matter that can be seen, but the invisible bacteria as well.
