PRICE 5 CENTS.

BOSTON COLLEGE DEFEATED 12-0.

New Hampshire Team Wins Easily.

Last Saturday, on a muddy gridiron and in a drizzling rain, New Hampshire handily defeated Boston College on the home field by the score 12 to 0. The game was essentially a kicking game with New Hampshire having decidedly the better of the argument, while frequent fumbling by both teams marred the contest from the standpoint of the spectator. The first score was made by Lowd in the third period, after consistent ground gaining by Haines, Brackett, and himself. Brackett made the second touchdown on an end run after the backfield had rushed the opposing line for 40 yards. Brackett was the individual star of the game, running back punts in a spectacular manner and showing good generalship; Kiley played a star game at right end, tackling fiercely and getting down the field under punts with good speed. Lowd showed old time form, making long gains through tackle and kicking two neat goals from touchdowns.

The Game.

The first period opened with New Hampshire playing a kicking game. Brackett returned the first punt 20 yards and Swasey made 15 yards, but on the next play the latter was thrown for a loss of ten. An attempted place kick was a failure, the Boston College man receiving the ball eluding the whole New Hampshire team except Brackett. The rest of the period was a repetition of the first part, with Brackett playing the whole game for the home team.

Second Period.

New Hampshire quickly rushed to the opponent's three yard line where a fumble robbed her of a sure touchdown. Boston College, recovering the ball, put it in play on the 25 yard line. During an exchange of punts, Gallagher received a severe cut over the eye and was removed from the field. Fallon replaced him and a punting duel followed, with Swasey varying the play by shooting a forward pass to Haines for a gain of 15 yards. Another attempted forward pass was incomplete, so New Hampshire again started an exchange of punts which lasted until time was called.

Second Half.

At the start Reardon received a hard blow and was replaced by Foster. Leach blocked a punt and Kiley recovered for New Hampshire. Then, for the first time during the game, the team played real football. Brackett made 20 yards around right end, Swasey ripped off eight through tackle, Haines gained seven more, and Lowd carried the ball over for a touchdown. He then kicked the goal. On the next kickoff, Swasey ran the ball back 35 yards. In kick formation Crosby dropped a pass from Perkins, but he recovered the ball. Then followed an exchange of punts after which Swasey ran 20 yards

around right end. During the remainder of the period Kiley kept interest from lagging by showing speed in getting down under punts and by hard tackling.

Fourth Period.

Boston College could not gain around end, and once more punted to Brackett who again shone by running the ball back to the 24 yard line. Then came the second touchdown. Swasey made four yards around left end, and Lowd tore off 10 through tackle. Haines and Swasey gained eleven yards through the center of the line, and then Brackett skirted right end for a touchdown. Lowd again kicked the goal. New Hampshire's substitutes were then given a chance to show their ability. Jones replaced Brackett, Willard went in for Lowd, McCartney for Haines, Sawyer for Crosby, and Lambe and Jenkins for Foster. Swasey kept up a punting game for the remainder of the time, mixing it up by a forward pass to Jones and a few line plunges. The game ended with the ball in the possession of Boston College on her ten yard line.

Summary.

N. H. BOSTON COLLEGE
Kiley, re le, Gallagher, Fallon
Jenness, rt lt, O'Connor, O'Connor
Crosby, Sawyer, rg lg, Hickey, Murphy
Perkins, c c, Rogers
Leach, lg rg, O'Keefe
Morgan, lt rt, Brandon
Reardon, Foster, Lambe, Jenkins, le re, Gioiosa
Brackett, Jones, qb qb, Mullen
Lowd (Capt), Willard, lhb, rhb, Linehan, Fitzgerald
Swasey, rhb lhb, Hartigan
Haines, McCartney, fb fb, Donoghue
Score—N. H. 12, Boston College 0. Touch-
downs, Lowd, Brackett. Goals from touchdowns—
Lowd, 2. Referee—Stevenson of Exeter. Umpire,
Cassidy of Vermont. Field judge—Davison of N.
H. Head linesman—Holden of N. H. Time—
four twelve-minute periods.

RAY B. THOMAS RETURNS AS COACH.

Coaching Situation Settled.

The coaching situation is finally settled. Ray B. Thomas, star football player of the University of Vermont and Brown, who had charge of the New Hampshire team last season, will direct the coaching for the rest of the season, in preparation for the final games with Rhode Island and Massachusetts. The history of the coaches to date is expressed by, "left", "fired", "engaged."

McCaa broke his contract after being with the team until Oct. 9, when he went back to Lafayette to be assistant coach. Courtney of Villa Nova took charge of the team on Oct. 12. Owing to dissatisfaction with the success of his work, and to the fact that he was absent without leave on the day of the game with U. S. S. North Carolina on Oct. 17, the executive committee of the Athletic Association dismissed him. An advisory committee consisting of Captain Lowd, Perkins, Crosby, Brackett, and Reardon suggested that Thomas be engaged for the remainder of the season and the suggestion was adopted by the executive committee. Thomas receives \$200 and expenses for two week's work. He arrived in town Monday and took charge of the team that afternoon.

Arthur N. Talbot, Professor of Municipal and Sanitary Engineering, in charge of theoretical and applied mechanics at the University of Illinois and Herbert F. Moore, N. H. '98, assistant professor of mechanics at the same institution, have issued a pamphlet on "Tests of Nickel Steel Rivoted Joints."

THE FACULTY AND TRUSTEES

Take Part in N. H. Horti- cultural Society Meeting

Many men connected directly or indirectly with New Hampshire College spoke at the meeting of the New Hampshire Horticultural Society held at Winchester the past week.

Tuesday afternoon Director Kendall of the Experiment Station spoke on "The Relation of the Agricultural Experiment Station to the Horticultural Interests of the State." Prof. W. C. O'Kane also talked on "Orchard Care and Insect Pests."

The next forenoon Ex-Gov. N. J. Bachelder of East Andover, a trustee of this institution and a member of the board of control of the Experiment Station, addressed the meeting on "Good Crops for New Hampshire." In the afternoon J. J. Gardner spoke on "Irrigation in Market Gardens in the East", and Gov. Bass, ex-officio member of the board of trustees, followed with a talk on "Should Irrigation be Encouraged in New Hampshire?" Wednesday evening Prof. Pickett gave "The Story of an Apple" and Hon. F. E. Buffum of Winchester, a former trustee, discussed "Business Horticulture." Pres. W. D. Gibbs then gave a talk on "Agricultural Education."

Profs. Brooks and Wolff were on the program Thursday morning. The former had for a subject "General Methods of Preventing Diseases of Fruit Trees," the latter, "Buying Nursery Stock."

Prof. Wolff again spoke in the afternoon on "The Pea a Commercial Possibility." The newly appointed trustee, Harold E. Hardy, '10, concluded the program with "A Fruit Survey of Hillsboro County."

ELECTRICAL ENGINEERING DE- PARTMENT.

The Electrical Engineering department has recently added to its laboratory equipment, several important pieces of apparatus, among which are the following:

One General Electric Mercury Arc Rectifier for transforming an alternating into a direct current. It has a capacity of 30 amperes D. C. and transforms from 220 volt, 60 cycle A. C. to 120 volts D. C.

One Murphy Rectifier, manufactured by the Murphy Electric Rectifier Co., Rochester, N. Y. This rectifier has a capacity of 10 amperes. One Reliance 3½ H. P. 110 volts variable speed motor, manufactured by the Reliance Electric & Engineering Co., Cleveland, Ohio. This motor will give a variable speed from 300 to 1800 r. p. m. by an infinite number of steps.

One Crocker Wheeler 5 H. P. 115 volts D. C. series wound motor.

The New Hampshire men in Pittsburg and vicinity will meet for lunch at hotel Anderson on Oct. 25th, at 8 p. m., for the purpose of forming a branch of the Alumni Association.

BULLETIN FOR THE WEEK.

Wednesday—3.30 p. m. Football practice.

Thursday—3.30 p. m. Football practice. 4.05 p. m. meeting of rifle club. 7.00 p. m. Glee Club rehearsal in College Club room. 8.00 p. m. Alpha Chi Sigma meeting.

Friday—3.30 p. m. Football practice. 8.00 p. m. Orchestra rehearsal in College Club room.

Saturday—3.00 p. m. New Hampshire-Rhode Island game.

Sunday—10.45 a. m. Church services. 5.00 p. m. Christian Association meeting.

Monday—3.30 p. m. Football practice.

Tuesday—3.30 p. m. Football practice. Fraternity meetings in evening.

Wednesday—11.45 a. m. Convocation. 1.30 p. m. "The New Hampshire" out.

NOTICE ALUMNI!

New Hampshire night will be held Friday, Nov. 3, at the College Club room, and we wish as many of the alumni as may find it possible, to be with us. If you can possibly get away from your work to be present, the college will appreciate your efforts in making this enthusiasm meeting the most successful of any within the history of the college.

New Hampshire College, as you know, is trying hard to accomplish those things which the alumni desire, and it is the intention of the athletic association to make a special attempt to bring together at this time former athletes of the institution. One of the things that we alumni have a right to expect is a reasonable share of success on the gridiron. In spite of the poor showing to date of the football team, I firmly believe that it is the best team that the college ever had and that it will be rounded into a powerful eleven before the season closes. Lowd, Brackett, Jones, Perkins, Swasey, Morgan, Reardon, Haines, and a lot of new material with which I am not so well acquainted, will be in the game.

Please drop me a postal by first mail, letting me know that you will be present and wish me to secure accommodations for you. The fraternities have offered me their assistance in this part of the program.

Respectfully,

F. E. McKone,

Assistant Secretary of the Alumni Association.

TO IMPROVE SCHOLARSHIP.

The scholarship committee is trying out a new method for improving the standard of scholarship here at New Hampshire. The idea is to get at the root of all trouble and then to apply the remedy. Slips have been sent to the various professors and instructors by the committee chairman, Prof. Cardullo, with the request that the names of all students who will probably fail, be placed thereon and the slips returned to the committee. The committee will then call up their men, interview them and try to ascertain the cause of the probable failure, whether it be lack of interest, too noisy a study room, or too much outside work. They will then try to take the steps necessary to remove the cause of the trouble and thus improve the scholarship standard.

The New Hampshire.

OUR RELIGIOUS INFLUENCES.

Not so very long ago a man in our state said that he would not send his son to New Hampshire College because of the lack of religious influence in the institution. Undoubtedly he based his statement upon the fact that we have no daily chapel and compulsory Sunday service, such as most colleges promote. To him the weekly Convocation did not fill the need, and was not enough to supply the religious and moral impetus to carry a man along right.

If this Convocation were the only religious influence here, the gentleman's statement would have considerable weight, but the fact is that he neglected to inquire for, or had not heard of what is being done by the Student Christian Association. Three years ago this body was, in fact, not very well established nor did its influence extend over a great radius. It has been growing yearly, and today stands at the very front, doing work in every way that it can. Each year sees new lines of endeavor. Three years ago it was a body of about thirty of the students—today one of a good majority of them; three years ago holding a weekly meeting to which a baker's dozen would go, today in this field alone having an attendance of fifty or more each week; today branching into systematic Bible study with last season's enrollment of one half the student body; today having men in club work with boys in this and surrounding towns; having also those who go as religious deputation parties into the various towns of the state. These are some of the activities which the Christian Association undertakes; others are instituted as occasion demands. The work for new students is alone well worth the organization.

Perfunctory chapel exercises are very well, and undoubtedly should be held in every college, but at best their influence over the student body is little more than nil. The men go there because they have to; they slide into their seats at the last minute in many places, listen or not to what is being said, and then go out with less mental result than if they had spent as much time in a recitation room, or out of doors. Thus goes the usual Chapel service—hymn, prayer, notices, and dismissal. Now and then we find them better, but not often. Such would be the type here had we the daily Chapel. The people from outside might look on and say "fine" and such stuff, but the good derived would be almost negligible.

Contrast that with what we have written concerning the real religious life of the students here. In this Christian Association they all have an

opportunity of doing something positive in helping themselves or in helping the other fellows. Is not this more of a real benefit to every man in college than would be ten minutes of dreaming during a daily Chapel? The religious life of the students is not neglected, it is not a minus quantity, but rather one of the strong influences which surround every man who enters the college. We desire the false notion held by some of our citizens that there is no religious life here, to be disseminated; we wish them to know that this side of our life is not neglected, but rather fostered and directed into practical and needed channels. New Hampshire College most assuredly does not lack a strong religious atmosphere.

It develops that McCaa of Lafayette did not get his release from New Hampshire to go back to instruct his alma mater's eleven. He just took it. The New Hampshire college is pretty sore over it and has taken it up with Lafayette, contending that they should not encourage such flagrant contract breaking by allowing him to coach at Easton. It is dollars to doughnuts that nothing will be done about it though as Lafayette principally wants to win.—Manchester Union.

From a recent letter by L. A. Pratt, '10, secretary of the Alumni Association: "The weekly is excellent. You have no idea how 'we fellows' look forward to it. I was in Dormant on Sunday to dine with John Randall, '05. He had only praise for 'The New Hampshire', and while he has not subscribed to the 'Monthly' in the past years, he says he surely will for the weekly."

Harold E. Hardy, the newly appointed trustee of the college, was graduated from the agricultural course here at New Hampshire in 1910. Since that time he has been engaged in horticulture on his father's extensive farm at Hollis, N. H. This summer Mr. Hardy made a fruit survey of Hillsboro County. While Mr. Hardy is rather young to be a trustee of the college, youth means energy, and since he knows the needs of our institution, this energy will not be misdirected. With this appointment, we now have three alumni trustees.

"THE COLLEGE SOCIAL COMMITTEE."

The College Social Committee has elected the following officers for this year; President, Edith Donnelly '12; treasurer, Prof. Whoriskey; secretary, Harriet Locke '13. The committee intends to have more "informals" and better "informals" than have been held in previous years. The number of students who attend the dances will show whether we need more dancing or less.

This week the representatives of the different classes will be around to collect twenty-five cents from each student. This is a small tax and should be gladly paid by every student for it is the only means of support which the Social Committee has.

A PURELY MUTUAL COMPANY.

The policies issued by the Massachusetts Mutual Life Insurance Company, are purely mutual and much more liberal than those of other Companies. The premium rates are LOW the dividends are large, and they are paid annually on the anniversary of the policy. Paid up Insurance, Cash Surrender Values, and Extended Insurance are guaranteed after two years premiums have been paid. If you want THE BEST THERE IS IN LIFE INSURANCE, send us your name and address, date of birth, kind of policy desired, and we will mail you a Specimen Policy of the Massachusetts Mutual Life Insurance Company for your inspection. Compare it with policies issued by other Companies that do business on the Annual Dividend Plan, we feel confident that you will be convinced. THAT IT IS THE BEST.

98% OF THE WORLD'S CREAMERIES USE De Laval CREAM SEPARATORS

Ten years ago there were a dozen different makes of creamery or factory separators in use. Today over 98 per cent. of the world's creameries use DE LAVAL separators exclusively.

It means a difference of several thousand dollars a year whether a DE LAVAL or some other make of separator is used in a creamery.

Exactly the same differences exist, on a smaller scale, in the use of farm separators. Owing to the fact, however, that most farm users do not keep as accurate records as the creameryman, they do not appreciate just what the difference between a good and a poor separator means to them in dollars and cents. Nine times out of ten the farmer can't tell whether or not he is wasting \$50 to \$100 a year in quantity and quality of product through the use of an inferior cream separator.

If you were in need of legal advice, you would go to a lawyer.

If you were sick you would consult a doctor. If you had the toothache you would see a dentist. Why? Because these men are all specialists in their line, and you rely upon their judgement and skill. When it comes to buying a separator why not profit by the experience of the creamery man? His experience qualifies him to advise you correctly. He knows which separator will give you the best service and be the most economical for you to buy. That's why 98 per cent. of the world's creameries use DE LAVAL exclusively.

There can be no better recommendation for the DE LAVAL cream separator than the fact that the men who make the separation of milk a business use the DE LAVAL to the practical exclusion of all other makes.

GIRLS' COUNCIL.

On October 13 a meeting of the young women of the college was held in Thompson hall for the purpose of re-organizing a girls' council. The following are the officers who were elected: president, Bernice M. Hayes; vice-president, Harriet E. Locke; secretary and treasurer, Frances A. Nudd. The members of the executive committee are Della O. Worster, Mabel E. Lord, and Regina O'Connor.

ODDS AND ENDS.

The inscriptions on the new city post office in Washington, D. C., written by President Emeritus Elliot have been approved by the Secretary of the Treasury. The inscription on the east pavilion is: "Carrier of news and knowledge, instrument of trade and commerce, promoter of mutual acquaintance among men and nations, and hence of peace and good will." The inscription on the west pavilion is: "Carrier of love and sympathy, messenger of friendship, consoler of the lonely, bond of the scattered family, enlarger of the common life."

The driving rain storm of last Wednesday did not seem to dampen the cheerfulness of the 175 sailors of the U. S. S. North Carolina who came to Durham to cheer their hitherto unbeaten team. One of them said, "My, this is a fine field, my cleats stick all right. Down where we practice, the field has six inches of mud." They were effusive in their acknowledgement of the hospitality of the students who escorted them around, and gave them the use of the College Club.

"Hurry Up" Yost, the famous coach of the University of Michigan football team, becomes so absorbed in working out variations of the forward pass, during meal time at the training table, that the candidates for the team have difficulty in getting salt or pepper for their mutton chops and rare beefsteaks, for they do not dare to ask him to pass up his pepper ends or his salt shaker tackles.

New Hampshire College is the first of the New England colleges to accept the new entrance requirements proposed by the National Educational Association. The colleges throughout the country are beginning to appreciate that a man does not need to study certain subjects and those alone for admission to college. There is going to be a greater choice allowed in the future.

The college spirit at Cornell is considered hard to beat. The chimes have had a big influence in building up a lasting love for alma mater. Every morning and every evening popular songs and "Far Above Cayuga's Waters" are played for fifteen minutes.

Rhode Island has the best football team in its history. The phenomenal little quarter back, Sullivan, is having even greater success than last year in scoring field goals.

According to the reports of the contests between freshmen and sophomores in the smaller colleges, a rope pull across a pond seems to have taken the place of the cane rush.

Senator Stevenson of Exeter, who has officiated for so many years as referee for New Hampshire, has not lost any of his old time agility in following the ball.

Prof. E. R. Groves is to represent New Hampshire College on the Educational Council of New Hampshire during the year 1911 and 1912.

The work of tearing up the old railroad track has been commenced.

FIGURES FROM BROCKTON FAIR.

The official report with the tabulated results of the recent students' stock judging contest held at Brockton Fair has just been made public. It shows several facts of interest to New Hampshire men, for in spite of the fact that the team as a whole won only third place, it appears that two New Hampshire men led in the individual class work. Also one New Hampshire man was third in standing for all classes combined. Of the four classes, Jerseys, Ayshires, Holsteins, and Guernseys, Eastman led in the Ayshire class and Smith in the Holsteins. Bachelder was third high in individual man in all classes combined. The results were:

Team Standing.

COLLEGE NOTES.

Rev. Telephone Taisne addressed the students at chapel Wednesday, October 18th. Mr. Taisne gave some very helpful remarks upon the "Danger of College Students Abusing Their Newly Acquired Liberties." He spoke of the impatience of many young men to obtain freedom, and then of the manner in which many of them abuse their liberties after securing them.

Prof. Frederick W. Taylor delivered an address at the New England Industrial and Educational Exposition in Boston, Wednesday, October 17th., on the "Culture and Improvement of Corn." This was "Farmer's Week" at the exposition and a daily program was furnished by the agricultural colleges and experiment station men of New England.

The sand papering lathe attachment recently installed in the college wood shop for the use of the classes in pattern making, is filling a long felt want. The instructor says it is highly appreciated by the co-ed's class in manual training as it saves much time and energy. From his report, they think it a great improvement over the "Arm-strong" method previously in use.

Prof. Richard Whoriskey, Jr., spoke at the State Teachers' Association meeting held in Concord last Friday. The subject was: "Enthusiasm in Modern Language Teaching."

NEW HAMPSHIRE 11—U. S. S. CAROLINA 0.

On last Wednesday afternoon in a pouring rain the football team defeated a team representing the battleship North Carolina by the score 11 to 0. The score was made by a touchdown, a goal from the field, and a safety. The field was exceedingly heavy and it was with much difficulty that ground could be gained by rushing. At times, the New Hampshire backs made long gains around the ends, but the sailors held fast on attempts to plunge through the line. The lads from the battleship played a clean game throughout, and outweighing our team, made a very creditable showing.

New Hampshire's touchdown came in the first period on an end run by Brackett. The place kick was in the second, made by Lowd from the 25 yard line at a difficult angle. The safety was made in the last period when, after a blocked punt by Jenness, with the ball a sailor was tackled behind the line.

The New Hampshire men to excel were Swasey, who made several long gains around the ends; Kiley, who played a strong game on the defense; Brackett, who gained long distances around end; and Jones, who showed good ground-gaining ability. Captain Lowd's field goal was also a feature. Capt. Thompson was easily the star for the battleship team.

eree, Stevenson. Umpire, Bromlen.
Field judge, Sanborn. Time, four 9-
minute periods.

AGGIE CLUB MEETING.

A regular meeting of the Agricultural Club was held in Morrill Hall on October 16. The program consisted of a paper on "The Stock Judging Team at Brockton Fair" by M. G. Eastman; a debate by Tarbell and Knight opposed to Batchelder and Smith, on the resolution that "New Hampshire Conditions Are Better Adapted to Horticulture than to Animal Husbandry," which the latter won; a talk by Director Kendall on "What Is the Matter with New England Agriculture?"; and a discussion relative to the advisability of sending a stock judging team to Chicago.

Prof. Pickett, Russell Skinner '12, Miles Watson '12, and Arthur G. Davis '12 packed apples for the New England fruit show last week. They worked in the towns of Pittsfield, Contoocook, Penacook, Boscawen, and Peterborough

**IF BACTERIA WERE AS EASILY
SEEN AS GNATS.**

If bacteria were as easily seen as gnats no one would need to tell you how much superior

was to other washing materials. But because bacteria cannot be seen by the unaided eye, and because you have always believed things to be clean that looked clean, you do not appreciate how Wyandotte Dairyman's Cleaner and Cleanser does an immense amount of cleaning that you are apt to overlook.

To every Dairyman, be he the owner of one cow, or the owner of many, a dairy cleaner is a necessity and it should be one that will not only remove the dirt and objectionable matter that can be seen, but the invisible bacteria as well.

Ask your dealer for a small sack.
