BOSTON COLLEGE DEFEATED 12-0.

New Hampshire Team Wins Easily.

Last Saturday, on a muddy gridiron and in a drizzling rain, New Hampshire handily defeated Boston College on the home field by a score of 12-0. It was essentially a kicking game with New Hampshire having decidedly the better of the argument, with good field work and sound defensive play.

The Game.

The first period opened with New Hampshire playing a kicking game. At the 12-yard line Brackett dropped the ball back to the 20-yard line and then made a punt. Swasey carried the ball back to the 12-yard line and then Brackett, who had charge of the game, skied a punt high over the head of Haines, Brackett, and himself. Brackett made the second touchdown on an end run after the backfield had rushed the opposition for a gain of 40 yards. Brackett was the individual star of the game, running back punts in a spectacular manner and showing good generalship. His play of a star at right end, tackling fearlessly and getting down the field under punts with good speed, showed that he was making four or five goals against tackles and kicking two or three points after touchdowns.

The second period.

New Hampshire quickly rushed to the opponent's three-yard line where a field goal was made. Swasey made the five-yard touchdown. The game was opened with New Hampshire's substitutes on the field. There was a chance to show their ability. Jones, Foster, Brackett, and himself. Brackett under punts with good speed. Haines, and Brackett, made two neat goals from touchdowns. Foster. Swasey kept up a punting game for the remainder of the time, mixing it up by a forward pass and a few place kicks. The game ended with the ball possession of New Hampshire on her own yard line.

Summary.

OUR RELIGIOUS INFLUENCES.

Not so very long ago a man in our state said that he would not send his son to New Hampshire College because of the lack of religious influence in the institution. Undoubtedly he based his statement upon the fact that we have no daily chapel and compulsory Sunday service, such as most colleges promote. To him weekly Convocation did not fill the need, and was not enough to counteract religious influence here, the gentleman’s statement would have considerable force. Such would be the type here had the New Hampshire college not been able to gather the best men who entered the college. We desire the false notion held by some of our citizens that there is no religious life here, to be disseminated; we wish to make it clear that this side of our life is not neglected, but rather fostered and directed into practical and needed channels. New Hampshire College is assuredly does not lack a strong religious atmosphere.

It develops that McCaa of Lafayette did not get his release from New Hampshire to go back to instruct his alma mater’s eleven. He just took it. The New Hampshire college is pretty sure over it and has taken it up with the New Hampshire in 1910. Since that time he has been engaged in horticulture on his father’s extensive farm at Hilton, N. H. This summer Mr. Hardy had made a fruit survey of Hilo County. While Mr. Hardy is rather young to be a trustee of the college, youth means energy, and since he knows the needs of our institution, this energy will not be misdirected. With this appointment, we now have three alumni trustees.

"THE COLLEGE SOCIAL COMMITTEE."

The College Social Committee has elected the following officers for this year: President, Edith Donnelly ’12; Secretary, J. W. Tucker, ’12; Treasurer, Andrew E. Meserve, ’13. The committee intends to have more “informals” than have been held in previous years. The number of students who attend the dances will therefore be more dancing or less. This work the representatives of the different classes will be around and collect twenty-five cents from each student. This is a small tax and should be gladly paid by every student for it is the only means of support to which the Social Committee has been able to contribute.
98% of the world's creameries use De Laval Cream Separators

Ten years ago there were a dozen different makes of creamery or factory separators in use. Today over 98 per cent of the world's creameries use DE LAVAL separators exclusively. It means a difference of several thousand dollars a year whether a De Laval or some other make of separator is used in a creamery.

Exactly the same differences exist, on a smaller scale, in the use of farm separators. Owing to the fact, however, that most farm men do not keep as accurate records as the creameryman, they do not appreciate just what the difference between a good and a poor separator means to them in dollars and cents. Nine times out of ten the farmer can't tell whether or not he is wasting $50 to $100 a year in quantity and quality of product through the use of an inferior cream separator.

If you were in need of legal advice, you would go to a lawyer.

If you were sick you would consult a doctor. If you had the toothache you would see a dentist. Why? Because these men are all specialists in their line, and you rely upon their judgment and skill. When it comes to buying a separator why not profit by the experience of the creameryman? His experience qualifies him to advise you correctly. He knows which separator will give you the best service and be the most economical for you to buy.

That's why 98 per cent. of the world's creameries use DE LAVAL exclusively.

There can be no better recommendation for the DE LAVAL cream separator than the fact that the men who make the separation of milk in a business use the DE LAVAL to the practical exclusion of all other makes.

GIRLS’ COUNCIL.

On October 13 a meeting of the young women of the college was held in Thompson hall for the purpose of re-organizing a girls’ council. The following are the officers who were elected: president, Bernice M. Hayes; vice-president, Harriet E. Beebe; secretary and treasurer, Frances A. Nudd. The members of the executive committee are Delta O. Worster, Mabel E. Lord, and Regina O’Connor.

ODDS AND ENDS.

The inscriptions on the new city post office in Washington, D. C., written by President Emeritus Elliot have been approved by the Secretary of the Treasury. The inscription on the east pavilion is: “Carrier of news and knowledge, instrument of trade and commerce, promoter of mutual acquaintance among men and nations, and hence of peace and good will.”

The inscription on the west pavilion is: “Carrier of love and sympathy, messenger of friendship, cossoiler of the besotted, bond of the scattered family, enlister of the common life.”

The driving rain storms of last Wednesday did not seem to dampen the cheerfulness of the 175 sailors of the U. S. S. North Carolina who came to Durham to cheer their hitherto unbeaten team. One of them said, “My, this is a fine field, my cleats stick all right. Down where I practice, the field has inches of mud.” They were effusive in their acknowledgement of the hospitality of the students who escorted them around, and gave them the use of the College Club.

“Hurry Up” Yost, the famous coach of the University of Michigan football team, becomes so absorbed in working out variations of the forward pass, that he sometimes turns to the training table, that the candidates for the team have difficulty in getting salt or pepper for their homemade chops and rare beefsteaks, for they do not dare to ask him to pass up his pepper ends or his salt shaker handles.

New Hampshire College is the first of the New England colleges to accept the new entrance requirements proposed by the National Educational Association. The colleges throughout the country are beginning to appreciate that a man does not need to study certain subjects and those alone for admission to college. There is going to be a greater choice allowed in the future.

The college spirit at Cornell is considered hard to beat. The chimes have had a big influence in building up a last- ing love for alma mater. Every morning and every evening popular songs and “Far Above Cayuga’s Waters” are played for fifteen minutes.

Rhode Island has the best football team in its history. The phenomenal little quarter back, Sullivan, is having even greater success than last year in scoring field goals.

According to the reports of the contests between freshmen and sophomores in the smaller colleges, a rope pull across a pond seems to have taken the place of the cane rush.

Senator Stevenson of Exeter, who has been in charge of the reports for so many years as referee for New Hampshire, has not lost any of his old time agility in following the ball.

Prof. E. R. Groves is to represent New Hampshire College on the Executive Council of New Hampshire during the year 1911 and 1912.

The work of tearing up the old railroad track has been commenced. The road track has been raised.

The work I have done for the different fraternities has always pleased me.

THE NEW HAMPSHIRE, OCTOBER 25, 1911.
FIGURES FROM BROCKTON FAIR.

The official report with the tabulated results of the recent student stock judging contest held at Brockton Fair has just been made public. It shows several facts of interest to New Hampshire men, for in spite of the fact that the team as a whole won only third place, it appears that two New Hampshire men led in the individual class work. Also one New Hampshire man was third in individual class in all classes combined. Of the four classes, Jerseys, Ayshires, Holsteins, and Guernseys, Eastman led in the Ayshires class and Smith in the Holsteins. Bachelor was third in high individual in all classes combined. The results were:

- Team Standing.
  - Connecticut State College: 2389
  - Mass. Agricultural College: 2392
  - New Hampshire College: 2289
  - Rhode Island State College: 2192
  - University of Maine: 2133

- Individual Standing.

- Jersey Class: Bachelor, Smith.
- Ayshire Class: Eastman.
- Holstein Class: Bachelor.
- Guernsey Class: Bachelor.
