## REPORT OF THE NEW HAMPTON PLANNING BOARD

The New Hampton Planning Board has held five meetings. There were no meetings in July and August and since the request for an Urban Planning Assistance Grant did not have federal approval, there were no meetings in October, November, December or January.

The April meeting was concerned with a further evaluation of the role of Planning Board members, with Mr. Klunder's suggestion that we get a firm commitment from The New Hampshire Planning and Development Commission as to the scope of services available through that agency, and with the drawing up of the Questionnaire to be used for the door to door survey. It was agreed to invite the town and precinct officers and a committee from the Fire Department to be present at the June meeting.

Both Mr. Klunder and Mr. Muglia, a Planning Associate from Mr. Klunder's office, were present at the May meeting. All three Selectmen were also present. This meeting was primarily concerned with the survey to be conducted in July by Klunder Associates. There was a discussion of a sample questionnaire and some suggestions made to adapt the survey to the town's best interest.

The June meeting of the Planning Board was attended by the Selectmen, the Precinct Commissioners, the Police Chief, and two representatives of the Fire Department. Considerable discussion was given to a new fire station and equipment shed for the town trucks. The possibility of converting the old firehouse to accommodate town offices was mentioned. The questionnaire to be presented to the townspeople in July was thoroughly reviewed by Mr. Muglia. Mr. Muglia pointed out that the Urban Planning Assistance Grant had not been approved and that it would not be possible for Klunder Associates to proceed further unless the project were approved

and the financial support received. Muglia suggested that we try to expedite the approval of the contract by applying pressure to the representatives to the legislature. The Federal government could not support the project until the State of New Hampshire has adequate staff to meet the federal requirements.

The September meeting was concerned with the obnoxious odor from the Pemigewasset and the fact that the federal government had not approved New Hampton's application for Urban Planning Assistance Grant. This made it impossible for Klunder Associates to proceed any further with the survey or with the Master Plan. It was decided at that meeting to apply pressure to United States Representatives and Senators to use all possible influence in getting the contract awarded to New Hampton.

Following the September meeting there was correspondence and telephone calls between various members of the Planning Board and United States Senators and Congressmen. There was also pressure put on the Commissioner in the Department of Resources and Economic Development to complete the staff organization of the planning section of that department so that New Hampshire could qualify for money. The personnel requirements were satisfied in late October and at this writing, New Hampton is the next town on the list to receive the grant.

The Planning Board was saddened by the death of one of its faithful members, Mrs. Mary Moody. Her interest in the betterment of New Hampton will be missed.

## FOREST FIRE WARDENS' REPORT

Most of us who live in New Hampshire and the thousands of vacationists that visit us every year love the State for the variegated woodlands that encircle our clean lakes and clothe the hills and mountains. Most of us appreciate these values, but still there were enough careless people among us to cause over 880 grass and woodland fires to start in 1965. True this was a much dryer than normal year but this should have meant the use of extra care. Fortunately the fire fighting forces have held the line against such careless acts. It is up to each one of us to be ever mindful that a spark or flame is a potential fire.

### *We Must All Be Careful:*

1. To teach our children the danger in lighting matches.
2. To never discard lighted smoking material from a car or while walking through fields or woods.
3. To safely dispose of rubbish or brush ;
  - a. Always get a permit to burn from the warden.
  - b. Start your fire late in the day after 5:00 p.m.
  - c. If burning a field or brush have equipment and adequate help on hand. The heat from your fire creates its own draft to spread fire.

Our carelessness with fire is costing our State and Towns thousands of wasted dollars in suppression and hundreds of acres of destroyed woodlands. Yours never to enjoy.

### *Fire Record For 1965:*

State	887 fires	1,255 acres
District	93 fires	23 acres
Town	9 fires	1½ acres
