The Athletic Association is Constructing Rink.

At a meeting of the track team members held Thursday last in Thompson Hall, Beach '13 was elected to succeed C. M. Loud '12 as captain of the varsity track team.

Robin Beach comes from South Natick, Mass., and is a graduate of the Natick High School. His election as track captain was accepted and John Crogan '08 who was a recent graduate of the academy, Professor H. W. Lewis, is the student body of the College, to—

A regular Alpha Chi Sigma meeting was held Friday evening in Conant Hall. The regular business was discussed, and a new method for the determination of arsenic was adopted.

The lecture course given by the agricultural men of the faculty at Appleton Academy in New Ipswich was opened last March by two lectures by Professor Taylor and two by Professor Fleckett. Two lectures were given two weeks ago by Professor Ricketson.

The series of lectures has been highly commended and largely attended by the people of New Ipswich and surrounding towns, and the principal of the academy, Professor H. W. Lewis, is well satisfied with the results of this year's lectures, as judged by the large attendance at the lectures. The series is to be continued for the next two weeks, and the lectures will be on the subject of Agriculture and the duties of the farmer.

John Crogan '08 who was a recent graduate of the university, has been appointed supervisor of the new Webber Construction Co., which is building a powerhouse there.

CONCERNING WARNINGS.

The mid-season warnings have come. They generally do, and have left some of us happy, some of us reasonably well satisfied, and others of us feeling a heavy burden on our shoulders. Those who thought that no hours preparation per day would suffice as well as X hours, found to their dismay that he who would pass must study. But then—no one has "blanked out" yet, and the half semester before us is enough to help those who are willing to take the advice to get their work up and passed off at examination time.

Figures have been compiled at the Dean's office to show the relative standing of the classes for the past three semesters, and these show facts that are decidedly satisfactory in nearly all cases. These figures give the per cent of marks who have been warned that they are below passing in over seven credit hours. They show an increase in the senior class from 0% last year to 25% this year; in the junior class, a decrease from 32% to 8%; in the sophomore class, an increase from 21% to 24%; in the freshmen class a decrease from 20% to 17%; in the second year two-year class, an increase from 0% each year; in the first year two-year class, an increase from 9% to 14%. A most marked improvement is seen in the standing of the present junior class over their sophomore standing of last year, especially if this is to be commended when the difficulties of a heavy engineering year is taken into account. The freshmen class is showing the result of the high standard of admission that was applied this year, while the two year course seems to be showing a greater percent of men who are entitled to keep up with the work. Many of the men who enter this course are fitted for higher work; but those who are not are sufficient to bring down the average grade of the class.

Here is a comparison of the grades of the regular chapel exercises. It is confidentially reported that the Dean has received many letters from fond parents in regard to warnings sent to their offspring.

CONVOCATION EXERCISES.

November 22nd Dr. Z. W. Kemp, principal of Sanborn Seminary spoke at the regular chapel exercises. He stated the close connection that exists between that preparatory school and New Hampshire College and mentioned an optimistic prophecy that in twenty-five years, this college would have more influence on the development of the state than Dartmouth now has. In addition Dr. Kemp outlined those essentials of character necessary in every life, in order that life, should fulfill all requisites for the attainment of the highest ideals that might be striven for by the ideal citizen. He closed with the sentence: "Life upright, straight-forward, sober and godly lives and you will gain success for yourself and for your state."

AN ACKNOWLEDGMENT.

The New Hampshire wishes to thank Mr. Charles Hoitt for his kindness in allowing the college to find a portion of his land for skating purposes. The student body thoroughly appreciate this kind service of one of its public-minded citizens.

De Laval Cream Separator

Saves Its Cost Every Year

Occasionally the intending buyer of a cream separator has but a small amount of cash on hand which he is tempted to put into one of the so-called "cheap" machines which are being largely advertised.

Why pay your hard-earned money for a "cheap" trashy machine when you can buy a reliable DE LAVAL upon such liberal terms that

IT WILL MORE THAN EARN ITS COST WHILE YOU ARE PAYING FOR IT.

When you buy a DE LAVAL you have positive assurance that your machine will be good for at least twenty years of service, during which time it will save every possible dollar for you and earn its original cost over and over again.

If you purchase the so-called "cheap" separator you must pay more in advance and then take the chance of the machine becoming worthless after a year or two of use, to say nothing of the cream it will waste before you buy any cream separator.

Be sure and see the local DE LAVAL agent and try a DE LAVAL before you buy any cream separator.

The DE LAVAL separator pays for itself. It runs easier, skims cleaner and lasts longer than any other cream separator.

CHANGE OF NAME.

The W. H. A. society has been changed to the Greek letter sorority Alpha Alpha Alpha.

EXPERIMENT STATION BULLETIN.

The following bulletins have been recently published by the Experiment Station, under the supervision of J. C. Kendall, director of extension work:

Professor Rasmussen recently spoke before the Winnipaug Grange at Lookmore on, "How to Increase Profits in Dairying," and before the Olive Branch at Herbron on "FARM Butter Making".

Perry J. Burbeck, who was graduated from the electrical engineering department last June, has secured a very important position with a corporation in Oakland, California, formed to develop the water power in four counties east of San Francisco. Mr. Burbeck, having shown special proficiency in the课程 on hydro-electric development while in college is well fitted to fill the position. Mr. David Lumsden, instructor in horticulture and landscape gardening, has been appointed chairman of the standing committee on "Education" at the annual State Grange meeting to be held in Manchester, Dec. 19-22.

The Alpha Zeta fraternity held its second meeting of the month Wednesday evening November 22. C. H. Hadley was elected scribe in place of Fisher resigned because of numerous other duties. Several of the faculty members were present and plans were discussed for boosting the four year agricultural course. Changes in required subjects which would tend to improve the course were also talked over at considerable length.

Professor F. W. Taylor judged corn at the recent corn show, November 22. C. H. Hadley was elected scribe in place of Fisher resigned because of numerous other duties. Several of the faculty members were present and plans were discussed for boosting the four year agricultural course. Changes in required subjects which would tend to improve the course were also talked over at considerable length.

"How Much Better That Is!"

This is a remark made by one college man to another, when looking at our new Fall Suits. Our ready for service clothing has so much more style, so many more beautiful lines in the construction of the chest and shoulders of the coats that it is noticeable compared with those in made to order garments. There was a time when the majority of well dressed men had to go to a tailor to have their clothes made and made right. Today the best dressers are buying our kind of clothes. Look at the difference in men dressed in our suits of nice quality compared with a made to order suit that costs all the way from $5 to $10 made to order, unless you are willing to pay from $45.00 up, when you can buy our kind of nice fitting garments from $15.00 up. Let us show you and you will see the difference.

IF BACTERIA WERE AS EASILY SEEN AS GNATS.

If bacteria were as easily seen as gnats no one would need to tell you how much superior was to other washing materials. But because bacteria cannot be seen by the unaided eye, and because you have always believed things to be clean that looked clean, you do not appreciate how Wyandotte Drycleaner's Cleaner and Cleaner does an immense amount of cleaning that you are apt to overlook.

To every Dairyman, be he the owner of one cow, or the owner of many, a dairy cleaner is a necessity and it should be one that will not only remove the dirt and objectionable matter that can be seen, but the invisible bacteria as well.

Ask your dealer for a small sack.
