PRICE 5 CENTS

A STRENUOUS BASKETBALL TRIP

Dean Defeated, Brown and R. I. Win.

A victory over Dean and defeats by small scores by Brown and Rhode Island are the results of the recent trip of the basketball team. Tuesday night at Franklin, Mass., New Hampshire was the victor, 21 to 16. Brown won an exceedingly close and fast game Wednesday night, 35 to 30 and on Thursday Rhode Island showed her customary invulnerability at home, winning, however by the closest score that New Hampshire has made on her floor for several years, 29 to 17. Watson was the star of the defense, Holden and Jones excelled in floor work and shooting, the former caging 8 and the latter 9, while Came loomed up as a wonder in shooting goals from fouls.

Coach Reynolds was in charge of the team on the trip and was indefatigable in keeping the men in good condition and in good humor. All reported a good trip with the exception of "Noah" Sanborn who remarked, after he had ravenously devoured six eggs on toast the night before the Rhode Island game, "No! I'm not hungry. I've gotten beyond that stage. I'm famished."

Dean Game.

A report of the first game of the trip appeared in the last issue of The New Hampshire, copied from the Boston Globe, but it is written from a Dean man's standpoint. The game was fast throughout with New Hampshire always on the aggressive. Sanborn at center completely outplayed his renowned opponent who shot 19 goals from the floor in the previous contest with Lowell Y. M. C. A. Tormey caged only one goal while Noah shot four. Dean is reported to have fouled 26 times, but the statement is an exaggeration. Referee Murphy proved to be nearly the equal of 'Joe' Killourhy.

Brown Game.

New Hampshire started the Brown game with a rush, but Brown quickly overcame the five point lead, and the score was close for the remainder of the contest. The first half ended 21 to 16 in favor of the home team, but the visitors came back strong in the second period. With five minutes more to play and the score 31 to 30 in favor of Brown, a hurry call for substitutes sounded and the home team was able to cage two more goals.

The Brown Herald reports:

For the "Granite State" lads the work of the two forwards and of Came was the best. Both Jones and Holden played a fast game. Came was a substitute, who went in at the beginning of the second half, and his work on the foul line was a rare exhibition of foul shooting. Out of nine chances he succeeded in caging eight free throws.

The game started off with a rush. New Hampshire had scored five points before the Brown players found themselves. Brown tied the score at once, however, and soon obtained a short lead,

which, although threatened many times, was never overcome. The game was very interesting and closely contested.

The teams took the floor as follows:
New Hampshire Brown
Holden (Capt.) rf lg Smith
Jones lf rg Miller, Adams (Capt.)
Sanborn c c Repko, Scholze
Watson rg lf Sullivan
Lowd, Came lg rf Von der Leith
Score, Brown 35, New Hampshire 30.
Goals from floor, Sullivan 6, Smith 4, Von der Leith 4, Miller 2, Repko, Jones 5, Holden 4, Sanborn. Goals from fouls, Came 8, Sullivan 3, Holden 2. Referee, Murphy. Umpire, Conzelman. Scorer, Nash. Timer, Hennessey. Time, 20 minute halves.

Rhode Island Game.

The Rhode Island team proved to be as strong as ever and New Hampshire could not get loose. The work of Doll and Newton was up to the usual standard and consequently the game was a roughhouse throughout with Rhode Island always in the lead. Tully was the individual star for the home team while Jones and Came played well.

The summary:
New Hampshire Rhode Island
Holden (Capt.) rf lg Doll
Jones, lf rg Newton
Sanborn c c Aspinwall
Watson rg lf Tully
Lowd, Came lg rf Sullivan
Score, Rhode Island 29, New Hampshire 17. Goals from floor, Tully 5, Sullivan 4, Newton 3, Jones 3, Holden 2, Lowd. Goals from fouls, Sullivan 7, Came 3, Holden 2. Referee, Hennessey. Scorer, Todd. Timer, Webster. Time, 20 minute halves.

New Hampshire 66, B. U. 13.

New Hampshire won her fourth game of the season when she defeated Boston University Law School 66 to 13 last Saturday night. The first team made 32 points in the first half and then the substitutes were given a chance to go into the game. The contest was slow throughout and uninteresting. Holden shot 11 baskets from the floor. The lineup:

New Hampshire Boston University
Holden, S. Sanborn rf lg Tierney
Jones, Thompson lf rg O'Connor
Came, H. Sanborn, Crosby c c Sullivan
Watson, Holden rg lf Clarken
Lowd, E. Sanborn lg rf Kerigan
Score, New Hampshire 66, B. U. 13.
Goals from floor, Holden 11, S. Sanborn 6, Jones 5, Lowd 4, H. Sanborn 2, Came, E. Sanborn, Thompson, Tierney 2, O'Connor, Kerigan. Goals from fouls, Came 4, Kerigan 4, Sullivan. Referee, Killourhy. Time, 20 minute halves.

"THE RIVALS."

The students of New Hampshire college should be interested in dramatics and support any movement along that line in the college. There is a movement on foot, to give "The Rivals," next semester. It is hoped that many will try out for the parts. The first meeting is to be held directly after the winter vacation.

LECTURE COURSE.

The Schuberts have changed the date of their concert to March 29.

Dr. Eastman will be with us Friday February 9. His subject is "Sitting Bull and the Last Stand of the Sioux."

LECTURE ON THE GYPSY AND BROWNTAIL MOTHS.

The State Moth Department is prepared to give public illustrated lectures on the Gypsy and the Brown tail Moths, so far as available time will allow. The addresses will be given by W. C. O'Kane, State Moth Agent, or his assistant.

These lectures will discuss in a plain, practical way, both the Brown Tail and the Gypsy Moths, but especially the latter. They will describe the characteristics and habits of these two pests, their manner of spread, the means of control that are feasible, especially in orchards and woodland, the work that communities or towns may profitably undertake, and the work that the State is doing. There will be a brief discussion of the parasites and other enemies of these insects, and the possible outcome in New Hampshire. The lecture will be illustrated with lantern slides.

FACULTY COMMITTEES.

At this time of year when so many of us are in "difficulties" and have petitions before the different faculty committees it may not be out of place to give the personnel of these committees. In each case the name first mentioned is the chairman of the committee.

Administration—Pres. Gibbs, Pettee, Groves, Hewitt, Taylor.

Agricultural—Taylor, Rasmussen, Pickett, Eckman, Foster.

Arts and Science—Scott, Groves, Brooks, Whoriskey, Pettee.

Engineering—Hewitt, Cardullo, Nesbit Putman, James.

Athletics—David, Whoriskey, Taylor.

Non Athletic Organizations—Putnam, Whoriskey, Jackson.

Electives—Scott, Moore, Eckman.

Entrance—Pettee, Taylor, Brooks.

Publicity—Groves, Hewitt, Rasmussen.

Rules and Schedules—Pettee, Scott, Student Welfare—Cardullo, Wolff, Miss Hodgkins.

Lecture Course—Whoriskey, Moore, O'Kane.

ALPHA CHI SIGMA.

At a regular meeting of the Alpha Chi Sigma fraternity held last Friday evening the following officers were elected for the ensuing semester M. A. Alan Leighton '12; V. M. A., J. E. Robinson '12; M. of C., J. C. Morgan '13; Treas., G. F. Lane '13; Rec; D. W. Bissell '13; Rep. D. B. Keyes '13.

AT NASHUA.

Four of the faculty of this college were prominent figures at the Granite State Dairyman's Association meeting held at Nashua the past week. Prof. Taylor acted as a judge at the corn contest and also spoke on corn growing. Prof. Rasmussen told of "The Year's Work of the South Lymeborough Cow Test Association," and Prof. Eckman spoke on "Judging a Dairy Cow." Director Kendall of the Experiment Station spoke on the "Extension Work of the College."

Prof. Groves spoke recently before the Portsmouth Teachers Club on "Psychology and Practical Problems of the school."

ALUMNI BANQUET.

Alumni Brethren:—

There will be an opportunity for New Hampshire College men to get together at a banquet at the Hotel Buckminster, Huntington Ave., Boston, Mass., at eight o'clock on the evening of February 21, 1912.

It is hoped that a large number of alumni will accept this opportunity to meet once more classmates, college chums, and men who are interested in the college and its graduates. An especially good program is being arranged. All suggestions that occur to you should be forwarded at once. They will be gratefully received.

Truly yours, Frank E. McKone,
Assistant Secretary.
January 20, 1912.

CASQUE AND CASKET.

The following officers have been chosen by the Casque and Casket for the next semester: U. H. C. Holden, '12 E. I. C. Perkins '12; T. P. D. Buckminster, '12; V. P. C. Jones, '13.

DEPUTATION TEAM.

The Christian Association Deputation Team spent the week-end in Epping, N. H., where an entertainment was given Saturday evening. Sunday H. R. Tucker, G. F. Lane, and H. H. Lindquist spoke to the boys and young men of the community. The following men were taken on the trip: H. R. Tucker, G. F. Lane, J. A. Manter, L. G. Brown, M. J. Broggin, and H. H. Lindquist.

PROF. GROVES SPEAKS.

At the Christian Association meeting last Sunday Professor E. R. Groves spoke on, "The Opportunity of a Social Worker." His discourse was extremely interesting and was particularly forceful in consideration of the speaker's great interest in the work of which he spoke. Forty men were in attendance.

Resolutions upon the Death of Reverend T. Taisne.

Whereas, Death has removed from among us one of our most worthy and esteemed colleagues, Reverend Telesphore Taisne, and

Whereas, The Faculty of New Hampshire College has thus lost a proficient instructor, an earnest teacher, a scholarly gentleman, and a beloved friend, be it

Resolved, That this Faculty extend to Mrs. Taisne and other bereaved relatives our deepest sympathy in the loss which she and they have sustained, and be it further

Resolved, That we express to Mrs. Taisne our keen appreciation of the work and services of the one who has been taken from us, of the inspiration which his presence afforded us, and of the loss which we and the whole community have suffered by his demise.

Resolved, That a copy of these resolutions be spread upon the minutes of this body, and a copy sent to the family of the deceased.

E. R. Groves,
F. W. Taylor,
G. C. Smith,

Committee.

DURHAM, N. H., JAN. 24, 1911.

STUDENT WELFARE COMMITTEE.

The fact that there was a Student Welfare Committee in the faculty was probably unknown to a great majority of the students until its recent excellent outbreak into life. This committee is one in whose hands there lie many opportunities for usefulness to the student body in ways that are hardly to be approached through other channels.

Especially in a college lacking in dormitories as is this there must be many students who cannot get accommodations that are thoroughly satisfactory; this committee can do much toward cleaning up any unfortunate conditions. A majority of the students live in fraternity house or clubs and are thus left to their own resources as to keeping the homes in proper sanitary order. In connection with this we would suggest that the Welfare Committee or the faculty at large, exercise some authority that will tend to at all times keep these very necessary conditions proper. Why would it not be possible and at the same time feasible, to have a faculty member (or one interested—in each of these groups, go to these college homes at any time and make a thorough examination of the place without notifying the members before hand that he was coming. Then, if he found that some changes or special cleanings should be made he might suggest them to the one in charge. If they are not carried out the committee or he can then resort to further measures. When left to themselves students cannot be relied upon to keep rooms and surroundings in order, but a kindly supervision with added suggestions, and commendation or censure where needed can do much to obviate anything but neatness and cleanliness. While studying, every man needs the best that is in him, and to an extent the college is responsible for seeing that his surroundings are such that he can get this best while in the institution. Until the time when we have regular dormitories with their employed caretakers the plan herein spoken of seems worth trying. No harm can come from it, and much good will be likely to follow its institution.

This week is the most trying time of the year for many of us—this and the similar one in June—for the examinations will find some of the students lacking in the required amount of knowledge. Following this period will come one of pleasure for some, one of a "don't care" spirit for others, and one of pain for still others, according to the degree of their success. This period is also one of temptation to many a one. It is so

easy to take in an extra sheet of paper, or to use other of the time-worn methods of cribbing, that many give it no other thought than that they are getting the better of the professor and are enabling themselves to receive a higher mark than otherwise they might. The thought that this is underhanded, cheating, and dishonest does not enter into the matter. Nevertheless it is so, and the man who practices it is but one step nearer future jailing than he might otherwise be. Think once more before taking a "crib" into the next examination and thus help yourself pass your subjects fairly or not at all. It is much more worth while to do it fairly or not at all.

Last week's issue spoke of the purchase of the land between Smith hall and the Gymnasium, the property that has been so long under consideration. This is one of the best steps taken in a long while, for aside from giving us the opportunity of having the unsightly buildings removed, that was the one strip that it was necessary to have in order to make the college a unit. It also gives ample room for two or three buildings. This is one other sign that the college is booming.

The Alumni are requested to send in to the editor any items of interest such as marriages, births, appointments to new positions, present positions, titles of articles published in current or scientific magazines, etc.

C. O. Brown '11 has been elected a member of the faculty at Cornell. This means that in connection with his regular work at that institution he will assist in one of the laboratories and in return receive a small salary with "lab. fees" and tuition.

O, well, of the 904 alumni of the Massachusetts Agricultural College 124 are farmers. Of the rest, 68 have died, 89 are teachers, 46 are in experiment stations, and there are 43 engineers, 27 chemists, 21 physicians, 16 landscape gardeners, 14 manufacturers, 7 merchants, 6 veterinary surgeons, 6 druggists, 6 foresters, 5 lawyers, 4 dentists, 4 architects and 3 clergymen.

ALUMNI.

The 1913 Granite, one of the snappiest and most humorous annuals ever published will soon be ready for the press. It will contain a record of the college life and events of the year ending with the basketball season, profusely illustrated with halftones and zinc etchings. The athletics, the non-athletic teams, the social life, the fraternities, the classes of the college are among the things which will be published. An artistic leather cover will replace the cloth one, which appeared on former editions.

Alumni, this is the fifth edition of the junior annual. Many of you have never seen a copy. Now is the time to obtain a book, which will give you an exact idea as to the growth of the college since you graduated. The Granite is an interesting and attractive publication which you would be pleased to exhibit to your friends as a present day picture of your Alma Mater. It is a difficult matter to make both ends meet in publishing such a book, and for this reason also, we would be pleased to receive your support. The price of book will not exceed \$2.25. It will appear the middle of April. If you desire a copy, will you kindly fill out the following order and send it to the business Manager of the 1913 Granite.

To the Business Manager of the 1913 Granite, Please send me one copy of the Granite, when issued, to cost \$2.25.

WHY YOU SHOULD INSURE IN
THE MASSACHUSETTS MUTUAL
LIFE INSURANCE COMPANY OF
SPRINGFIELD, MASSACHUSETTS.

Because it's a purely MUTUAL COMPANY—and pays dividends ANNUALLY to its policyholders, (Not to stockholders, because we have none.) It's premium rates are low—it's dividends are very large, and its surrender values are extremely liberal—in fact it's "Peerless." Paid up values, cash surrender values, and extended insurance guaranteed after two years premiums have been paid.

Its assets are of the highest class, and its surplus is ample for all contingencies. Write us, giving date of birth and kind of policy desired, and we will forward a Specimen Policy for your inspection.

DE LAVAL CREAM SEPARATOR

Now Is the Time to Buy and Start the New Year Right.

There is no good reason to defer the purchase of a DE LAVAL cream separator until Spring. On the contrary you may buy one now and save half its cost meanwhile. Moreover, if you can't conveniently pay cash you can buy a DE LAVAL machine on such liberal terms that it will actually pay for itself.

As to YOUR need of a centrifugal separator, if you have the milk of even a single cow to cream you are wasting quantity and quality of product every day you go without one. This waste is usually greatest with cold weather and cows old in lactation, and it counts most, of course, when butter prices are high. Then there is always the sweet skimmilk and saving of time and labor in addition.

When it comes to a choice of separators DE LAVAL superiority is now universally recognized. Those who "know" buy the DE LAVAL to begin with. Those who don't replace their other separator with a DE LAVAL later—thousands of users do that every year. If YOU already have some other machine the sooner YOU exchange it for a DE LAVAL the better.

Why not start 1912 right in dairying? TRY a DE LAVAL machine for your own satisfaction if nothing else. See the nearest DE LAVAL agent or write us direct and we'll do the rest.

ONE WEEK COURSE OPENS MONDAY.

The fourth one week course will open Monday and it is expected that the will be a record attendance since the program is better and more varied than ever before.

Among the prominent speakers will be Dr. Leon S. Merrill of Orono, Me., Dr. Thomas N. Carver, of Harvard, and Dr. J. S. Hills of Burlington, Vt., who speak on Tuesday, Wednesday and Thursday nights respectively. Mrs. C. W. Foulk of Columburs, O., will give a course of eight lectures in domestic science.

Wednesday afternoon there will be a session on rural progress work. The speakers that afternoon will be Supt. E. J. Bert of Contoocook, Dr. Harold S. Davison of Loudon and Prof. Rasmusen.

Friday night a general round up meeting will be held in the gymnasium. At this meeting there will be short speeches, refreshments and presentations of diplomas.

In connection with the course there will also be an exhibition and contest of corn, apples and farm butter.

A. I. E. E.

Edgar G. Scott of Boston a prominent electrical engineer addressed the local branch of the A. I. E. E. Monday evening, on "Some Power Problems in Electrical Engineering." First he outlined the requirements necessary to be a consulting engineer and in order to illustrate the variety and difficulty of the problems which such a man might encounter he gave several specific instances. From this subject he gradually worked up to the design of a power station and briefly showed the method in which such a problem should be approached. Mr. Scott also gave his personal opinion as to the relative value of an apprenticeship course with the large electrical companies.

N. J. Neall, a consulting electrical engineer of Pearl St., Boston, was also present and spoke a few words.

AT SCAMMEL GRANGE.

The installation of officers of Scammel Grange was held last Tuesday evening with State Master Richard Pattee and Mrs. Pattee as Installing officers. The officers installed were:

Master, David Lumsden; overseer, Wilbert S. Chesley; lecturer, William H. Wolff; chaplain, Albert E. Grant; steward, Albert D. Watson; assistant steward, Charles H. Hadley; gate keeper, Stephen B. Chesley; Ceres, Florence M. Lumsden; Pomona, Carrie E. Hoitt; Flora, Eliza Willey; lady assistant steward, Alice E. Hoitt; chorister, Mrs. A. E. Grant. Following the installation supper was served and speeches were made by State Master Pattee of Plymouth and others. The New Hampshire College orchestra furnished music for the occasion.

E. D. Sanborn '10 is instructor in animal husbandry and dairying at the North Carolina College of Agriculture and the Mechanics Arts. He is second to Prof. McNutt, the former New Hampshire professor, who is now at the head of the department of the southern college.

ALUMNI NOTES.
 Mrs. Mary W. Small of Roxbury, Mass., has announced the engagement of her daughter Eleanor Maud, to Bertram E. G. Silver, 2 yr. '10, both of Roxbury. Mr. Silver is now assistant Sanitarian with H. P. Hood and Sons, the large milk contractors in Boston.
 Mr. P. F. Goodrum, chief equipment man of the A. T. & T. Co., in Boston who lectured here before the A. I. E. E., recently spoke very highly of the work which "Kit" Leonard ex '10 is doing for the company.

Prof. Hewitt, Prof. Groves and Miss Margaret De Meritt attended the teachers' association meeting in Rochester last Friday.

A. M. Otis '03 is assistant to the Electrical and Mechanical Engineer on the Panama Canal.

John Wilfred Dawson, two year '13, is ill at the Exeter hospital with a severe case of appendicitis.

C. F. Cone '08 has been transferred to the Pittsburg office of the General Electric Company.

Channing M. J. Biekford 2 yr. '10, is now in Redbank, California where he is employed in the orange groves.

D. A. Watson '03 is acting as an agent in the employ of the State Brown Tail and Gypsy moth department.

A recent issue of The American Mathematical Monthly contains a treatise "On a Special Case of Equilibrium of a Flexible, Inextensible String," by Prof. Charles C. Steck of the Mathematics Department. The paper discusses the curve of equilibrium of a weightless, flexible, inextensible string, the end points of which are attached to two fixed points, each element of the string being acted upon by a force always normal to an axis which it meets, this force being any fraction of the distance r of the element from the given axis. A special discussion is made of the case where the force varies inversely as r squared

Would You Board a Dual Purpose Cow if you Could Get a Dairy Cow for the Same Money. . .

is not a cut rate dairy cleaner, but it does give you a double value at the same or often times a less price than you pay for the washing material you are now using.

How does it give you double value? Simply by doing all the cleaning that other washing materials do and all that others leave undone.

Most any washing material will clean milk utensils, separators, churns, pans bottles, etc., so that they look clean. But after using such materials if you give them the germ or bacteria test it will more often than not show that such containers contain sufficient bacteria to thoroughly seed with bacteria the whole of the new milk with which you subsequently fill them.

Apply the same test to these same containers after washing them with Wyandotte Dairyman's Cleaner and Cleanser, which has often been done, and the number of bacteria found is so small as to be an almost negligible quantity.

The fewer the bacteria, the cleaner and the better the milk, consequently, milk worth more as milk, as butter, as cheese and for and all food purposes.

That it pays to use Wyandotte Dairy man's Cleaner and Cleanser you have but to ask the Dairy Colleges or any one of the thousands of dairymen who use it, or better still—use it yourself.
