PRICE 5 CENTS.

RHODE ISLAND TWICE VICTORIOUS Wins Relay and also at Basketball.

Rhode Island made it four straight victories in basketball in two years by winning again Saturday evening in the gymnasium from New Hampshire by the score of 26 to 19. For the first ten minutes of play, the teams were evenly matched. During the second and third periods, however, Rhode Island took the lead, and held it for the remainder of the game. The visitors were a fast five and their speed gave them a well earned victory.

Tully, one of the fastest forwards who has ever appeared on the local floor, caged six baskets for Rhode Island. Sullivan, the other forward and a football player whom New Hampshire has cause to remember, caged three and shot two fouls. Captain Holden was the only New Hampshire man who had his shooting eye with him and he made the majority of the team's score. Watson, playing was spectacular and he shot one long basket from the middle of the floor.

The first period opened with Rhode Island quickly scoring 2 baskets. New Hampshire went into the lead for a few minutes on two clever baskets and a foul by Holden. Jones increased the lead to 7 to 4 with another basket. Two more baskets by Tully and a foul by Sullivan gave Rhode Island the lead for the period, the tally being 9 to 7. The next period, when Sullivan and Doll made wonderful shots, gave Rhode Island a comfortable lead, 18 to 12.

In the second half, New Hampshire played a much better game, but was slightly outclassed. The team, on baskets by Jones, Watson, and fouls by Holden scored 7 points. Rhode Island obtained 8 points, however, on baskets by Sullivan, Tully and Doll. In the last period, both teams guarded closely and scoring was less frequent. New Hampshire for once, showed its real team work, and scored 3 points to the visitor's 0. The summary:

New Hampshire	Rhode Island
Jones lf	rg Newton
Holden, S. Sanborn, rf	lg Doll
H. Sanborn c	c Briden
Watson rg	lf Sullivan, Lennox
Lowd, Came lg	rf Tully

Score: R. I. 26; N. H. 19. Goals from floor: Holden 4, Jones 2, Watson, Tully 6, Sullivan 3, Doll, 3. Goals from fousls, Holden 5, Sullivan 2. Referee Killourhy. Time, two 20-minutes periods.

Relay Team Loses.

The relay team lost to Rhode Island last Saturday night in the second annual contest at the B. A. A. games. As a result of the able coaching of Dr. Reynolds the men were in good condition but when the opportunity came to run the men from the sister college were too much and won in the very slow time of 3 m. 25 1-5 sec. The New Hampshire men for some unaccountable reason ran much more poorly than in the trials. The exception to that was Smart '14, who ran an unusually fine race and

showed that he has great possibilities as a runner.

At the gun Tucker shot to the front and lead Hawkins, but with some over a lap to go was easily passed and handed over a bad handicap to Priest. Coleman, number two man for Rhode Island, ran well and increased his lead perceptibly. Blodgett ran third and could not gain over his man, so that when Smart started in pursuit of Captain Barlow, fight as he would and did, the lead was too great, and though the cordy little runner gained a good bit, Barlow finished an easy winner.

NEW HAMPSHIRE VS. MARYLAND.

The rifle team shot a total of 824 points in the match with Maryland last Saturday night. Maryland.

	Stand.	Prone.	Total
Sellers	80	94	174
Berry	85	81	166
Crosby	79	85	164
McCrislin	77	87	164
Knight	73	83	156
	394	430	824

A. I. E. E.

At the fourth regular meeting of the A. I. E. E. held Monday night Prof. Cordullo gave a lecture on "The Man with the Dinner Pail". He told many interesting stories of personal experiences in shops but all his talk tended to emphasize the fact that a "boss" in industry work must not only be a competent workmen but also a man who can handle men.

DR. EASTMAN LECTURES.

Fourth Number of Course Given Friday Evening.

Oyesha, Dr. Charles Eastman, a full blooded Sioux Indian, addressed a representative assemblage of the college in Thompson Hall Friday evening on the "Last Stand of the Sioux." Dr. Eastman was in the full costume of his tribe, and, dressed entirely in skins trimmed with rich embroidery of colored beads arranged in rare designs, presented a picturesquely unique appearance.

Briefly he told of the life of the Indian pre-lesion of the period of American colonization by the white man. In this he showed the entirely different but equally admirable conception of life that was the Indians, as compared to that of the white man. He showed the effect of colonization by Europeans on the Indians by their inter association during the one hundred and fifty years of what he termed the transition period, and justified many ostensibly barbarous acts of his people by explaining the Indian point of view.

In the course of his lecture, Dr. Eastman gave many graphical descriptions. In telling of battles especially he excelled, and he figuratively portrayed the wonderful work of Crazy Horse, when he defeated Custer so overwhelmingly. The lecture was well attended, and all went away with a better understanding of, and consequent greater admiration for, the original American.

Over two hundred are enrolled in agricultural reading courses.

FARMERS WEEK COURSE.

The Fourth Annual Farmers' Week Course at New Hampshire College, week before last was the most largely attended and in many respects the best which has yet been held. The attendance this year was 273 as against 238 last year. The day time lectures were given for the most part by members of the regular College faculty, while those in the evening were by speakers from adjoining states.

Forty-five lectures were given during the five days of the course. The Woman's Section was especially well attended this year and much interest was manifested in the lectures and demonstrations of Mrs. C. W. Foulk from the Domestic Science Department of Ohio State University. Mrs. Foulk's lectures covered the whole range of subjects from the cooking of vegetables, cereals and meats to bread making and household economy.

One of the special features this year was the Rural Progress Session held Wednesday afternoon. At this meeting Professor Rasmussen spoke upon the subject of Rural Cooperation. Superintendent E. J. Best of Contoocook, discussed some of the problems of the rural school in its relation to the needs and interests of the community. The function and privilege of the country church in the new movement for rural betterment was ably presented by Dr. Harold S. Davidson of Loudon.

The Monday evening lectures were given by President Gibbs and Director Kendall; the former speaking upon the changes and opportunities in agriculture in the state and the latter upon the Extension Work of the college as it is now being prosecuted.

Tuesday evening, Dr. Leon S. Merrill, Dean of the College of Agriculture, of the University of Maine, spoke very entertainingly and interestingly on the Extension Demonstration and Cooperative Work which the University is doing among the farmers of Maine.

Wednesday evening Dr. Thomas N. Carver of Harvard gave a lecture on "Rural Life and Work in Other Countries," illustrated with about 150 lantern slides. Dr. Carver, who is one of the foremost students of political economy in the country, drew from the pictures many lessons on economy and efficiency in agricultural work.

Dr. J. L. Hills, Director of the Vermont Experiment Station, was the speaker on Thursday evening and took for his text "The Farming of the Future." Dr. Hills presented a prophetic vision of the agricultural operations in New England in the years to come. He predicted the extensive use of motor implements and of greatly intensified methods of farming. He explained the importance of College Extension work and showed how this form of endeavor completed the triangle of agricultural truth.

The General Round Up meeting Friday evening was a success from start to finish. The members of the agricultural faculty were represented in the reception line by students. The program was opened with a selection by the celebrated Corn Tassel Quartet of Durham, consisting of Messrs. Jackson, Putnam, Grant and Taylor, followed by three minute speeches by Professors Pettee, Scott, Cardullo, Groves and Hewitt, and responses by Ira S. Littlefield, of New London, and

Mrs. Richard Pattee of Plymouth. These numbers were interspersed with a solo by Professor Putnam, and a reading by Miss Mary F. Murphy. The exercises of the evening were concluded with refreshments, graphophone selections and dancing.

Prizes for the exhibits were awarded as follows: 8-rowed corn, first, Mrs. C. M. Gibbs of Mason; second, Mrs. A. G. Swain of Newfields; 12-rowed corn, first, Mrs. A. G. Swain of Newfields; second, H. G. Vickery of Rochester Yellow-dent corn, first, Mrs. C. M. Gibbs; potatoes, first, W. B. Mack of Derry; second, George S. Ham of Barrington; Apples, first, R. E. Parmenter of Hudson; second, W. B. Mack.

The annual meeting of the New Hampshire Potato growers Association was also held in connection with the course.

PITTSBURGH ALUMNI ASSOCIATION.

The Pittsburgh Branch held its monthly meeting and dinner at Hotel Anderson on Friday evening Feb. 2nd. The following men were present: Randall '05, Cone '08, Wentworth '09, Pratt '09, Peaslee '09, Neal '10, Boynton '10.

After the dinner had been served, an informal discussion of the college and its progress was held. The announcement of the purchase of the land lying between Smith Hall and the Gymnasium was a source of much pleasure. We pictured the campus as we know it, divided by railroad tracks and blotted by numerous old buildings; an "eye sore" to every alumnus of the college. Then we pictured the campus of the very near future with all these objection stains removed. The contrast was indeed pleasing. It was the unanimous opinion of the meeting that the purchase of this land was the biggest move of recent years and that the college is in an excellent condition of prosperity.

Every member present showered the secretary-treasurer with annual dues to the Alumni Association. Let this be a good example to all New Hampshire men.

L. A. Pratt, Sec.

ALUMNI BANQUET.

The New Hampshire College Alumni will hold their banquet at Hotel Buckminster, 645 Beacon Ave., Boston, on Wednesday, Feb. 21st, 1912, at 8 o'clock. Members should take a Beacon street car at Park street station. The principle address of the evening will be given by E. R. Groves, professor of Psychology and sociology, on the subject, "The Significance of the Land Grant College." Every alumnus of New Hampshire College should hear this address. It is sure to give him a new line of thought and make him a better and more active member of the Alumni Association.

ATHLETIC ASSOCIATION MEETING.

At an athletic association meeting held Wednesday Gordon E. Fisher was formally elected Basketball Manager of and it was also voted to send a vote of thanks to Exeter for the use of that institution's board track by the relay team.

TWO LOSSES.

The results of the two contests last Saturday night gave ample opportunity for us to show the quality of our sporting blood. Both the relay race and the Rhode Island basket ball game were events that the college has looked forward to for some time with a good possibility of winning at least one of them. The god of "Win" was apparently looking the other way, and consequently both contests were lost. The relay team was in good condition, and had been doing time much better than that shown in the race last year, but something went wrong and the result was a reversal of form with a severe beating. The men with one exception, showed time much slower than in several trials. Why, we will not attempt to say.

As for the basket ball situation:—the Rhode Island team is one that is unusually strong and hard to defeat, is fast and has quantities of solid "beef." They are terrific at covering and fast in passing, so much so that in the game it was not possible for our men to get free. If they did and shot, the ball seemed always overbalanced on the outer rim for the goal. Captain Holden was the only player who seemed to keep his best form and his four field goals with five from fouls, registered a safe majority of the points won.

To win is pleasure, and to be defeated is hard, but in this case 'twere best to say the better team won and next time we will go even harder after the favorable result and turn the tables on our worthy opponent.

STATE CONVENTION NOMINATIONS.

On Feb. 6th, Prof. C. W. Scott was nominated by the Republicans of Durham for the office of Delegate to the State Constitutional Convention to be held next June in Concord. Prof. Scott has been head of the department of History and Political Science in New Hampshire College for over thirty years. It would be difficult, if not impossible to find in this state a man with a wider and sounder knowledge of public questions, more thoroughly grounded in the principles of constitutional law, or better fitted by education and experience to deal with the problems that will come before this convention. The Republican party and the town of Durham are both fortunate in having as a candidate for this office, a man of the training and ability of Prof. Scott.

On Feb. 7th, the Democrats of the town nominated Mr. Albert DeVerritt for the same office. Mr. Demerritt is one of the staunchest friends the college has ever had, and we all have

Saturday—3.00 p. m. Basket ball game with Alumni at the gym.

Monday.—7.00 p. m. Agricultural club meeting at Morrill Hall.

reason to remember the magnificent work which he did for us in the last legislature.

A COMMUNICATION.

Editor the New Hampshire.
Sir:

In connection with your recent editorial on the work of the Student Welfare Committee, I beg to call the attention of the student body to the fact that they can greatly assist the committee by cooperating with it in certain ways. For instance they may call their attention to such matters as dirty or unsanitary conditions in the college buildings or student quarters, wherever they may find them, to lack of hot or cold water at the gymnasium, or to any such matters which it is in the province of the committee to remedy. Any student who observes anything here which militates against the physical mental or moral welfare of the student body, will confer a favor on the committee by reporting the matter promptly to the chairman.

The chairman has a limited number of copies of "Notes on Sanitation" which are for general distribution, and may be had by application to him. Very truly yours, Forrest E. Cordullo.

Chairman of the committee.

LINEMAN ELECTROCUTED.

John Parks of Newmarket, a lineman in the employ of the electric light company, was electrocuted last Tuesday while working on the wires near the Gamma Theata house.

MRS. MAY GRANT.

Mrs. May Grant, wife of Dr. A. E. Grant and one of the best known and highly respected women of Durham passed away suddenly last Tuesday.

She was formerly May Nowell of No. Berwick, Me., where she was born and educated. Fifteen years ago she was married to Dr. Grant. Besides her husband she is survived by one daughter, Edith, five years old.

The funeral services were held Friday noon at the house, following which the body was taken to No. Berwick where services were also held and interment made.

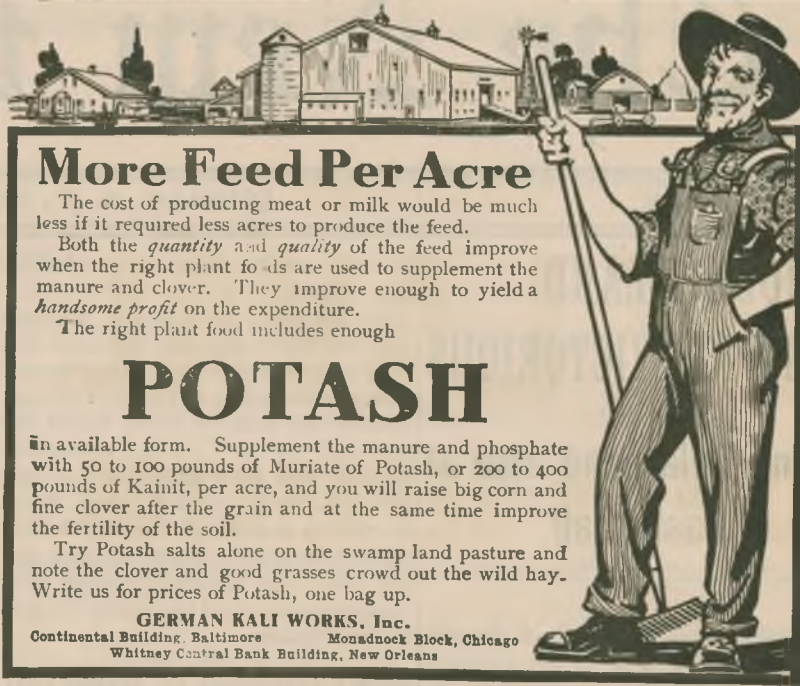

PROFESSOR WHORISKEY READS DICKENS.

A meeting in commemoration of the social service of Charles Dickens was held at the library Feb. 7, at 8 o'clock. Prof. Whoriskey read the following selections.

Fatal Consequences, Oliver Twist; Neglected Children, Bleak House; Charley and her little family; Jo, the Crossing Sweep; Facts, Hard Times; Imagination, A Child's Dream of a Star; Community, Domkey and Son. Prof. Groves introduced the readings.

AWARDED NICHOLS MEDAL.

Prof. Charles James has been awarded the Nichols medal on his paper "Some New Rare Earth Compounds," which will be presented to him at the next meeting of the society to be held March 8, next. At the meeting Prof. James will give an address on "Rare Earths."

More Feed Per Acre

The cost of producing meat or milk would be much less if it required less acres to produce the feed.

Both the *quantity* and *quality* of the feed improve when the right plant foods are used to supplement the manure and clover. They improve enough to yield a *handsome profit* on the expenditure.

The right plant food includes enough

POTASH

In available form. Supplement the manure and phosphate with 50 to 100 pounds of Muriate of Potash, or 200 to 400 pounds of Kainit, per acre, and you will raise big corn and fine clover after the grain and at the same time improve the fertility of the soil.

Try Potash salts alone on the swamp land pasture and note the clover and good grasses crowd out the wild hay. Write us for prices of Potash, one bag up.

WHY YOU SHOULD INSURE IN THE MASSACHUSETTS MUTUAL LIFE INSURANCE COMPANY OF SPRINGFIELD, MASSACHUSETTS.

Because it's a purely MUTUAL COMPANY—and pays dividends ANNUALLY to its policyholders, (Not to stockholders, because we have none.) It's premium rates are low—it's dividends are very large, and its surrender values are extremely liberal—in fact it's "Peerless." Paid up values, cash surrender values, and extended insurance guaranteed after two years premiums have been paid. It's assets are of the highest class, and it's surplus is ample for all contingencies.

Write us, giving date of birth and kind of policy desired, and we will forward a Specimen Policy for your inspection.

DEPUTATION TEAM MAKES SUCCESSFUL VISIT.

The Christian Association deputation team spent the great part of the mid-year vacation at Somersworth, doing evangelical work under the auspices of the Federation of Churches of that town. The trip occupied five days, was the longest and most successful ever undertaken, and included occupying the church pulpits on Sunday, informal talks to the pupils of both the grammar and high schools of Somersworth and Berwick, selections by the quartette before the employees of two of the manufacturing industries, and a 20 minute sketch in connection with a moving picture show at the Somersworth Theatre. The secretary of the association reports that the team reached 2,000 adults and 100 boys.

Wednesday evening, the deputation opened its program with an entertainment in the Methodist Episcopal church, consisting of quartettes and mandolin selections. Thursday and Friday, Tucker, Foster, Jones and Manter spoke before the grammar and high schools of Somersworth and Berwick on such topics as "Clean School Life," and "Clean Athletics." The speeches were interspersed by selections by the quartette. When C. A. Clark secretary of the Concord Railroad Y. M. C. A., addressed the employees of the Houghton and Warren Shoe Co., and the Great Falls Manufacturing Co., the quartette also entertained.

Saturday afternoon, accompanied by 75 boys the team took a five mile "hike" into the country. In the evening, men in connection with the moving picture show at the theatre, the college men gave a 20 minute sketch. The quartette sang four comic pieces, L. F. Brown played a mandolin solo and P. C. Jones spoke on "Roasting the Umpire." This first appearance of the team on the stage was vociferously applauded by an audience of 800 people. That same evening, at a "camp fire meeting," the members of the team related their camping experiences.

Sunday morning, H. R. Tucker occupied the pulpit of the Free Baptist Church; G. F. Lane, the pulpit of the Baptist; P. C. Jones, the pulpit of the Congregational and P. A. Foster, the pulpit of the Berwick Methodist.

The members of the deputation team were H. R. Tucker, J. A. Manter, G. F. Lane, P. A. Foster, P. C. Jones, L. F. Brown, and H. Lindquist. The quartette consisted of Tucker, Manter, Lane, and Lindquist; the mandolin trio, Brown, Foster and Lindquist; bass soloist, Manter.

PROF. JAMES HOST.

On Thursday evening Prof. James treated the chemical faculty and seniors to a most enjoyable sleighride and lobster supper. The party left at 7.30 p. m., and went to Dover via Five Corners and Madbury. At Dover the eleven members of the party consumed a like number of lobsters following which the home trip was made over the regular Dover-Durham road.

CHAPEL.

At the convocation exercises, Wednesday February 7th, Mr. Frank French of Manchester addressed the students on "Wood Engraving and Portrait Painting." He outlined his career, which began as a portrait painter, and also went somewhat into the details of wood engraving. The samples, which he had with him were of especial interest.

The Electrical department has made a number of improvements in the laboratories which not only improves their appearance but greatly facilitates the ease with which experiments may be carried on.

Miss Elizabeth Patee is visiting Dean and Mrs. C. H. Pettee at their home.

Would You Board a Dual Purpose Cow if you Could Get a Dairy Cow for the Same Money. . .

is not a cut rate dairy cleaner, but it does give you a double value at the same or often times a less price than you pay for the washing material you are now using.

How does it give you double value? Simply by doing all the cleaning that other washing materials do and all that others leave undone.

Most any washing material will clean milk utensils, separators, churns, pans bottles, etc., so that they look clean. But after using such materials if you give them the germ or bacteria test it will more often than not show that such containers contain sufficient bacteria to thoroughly seed with bacteria the whole of the new milk with which you subsequently fill them.

Apply the same test to these same containers after washing them with Wyandotte Dairyman's Cleaner and Cleanser, which has often been done, and the number of bacteria found is so small as to be an almost negligible quantity.

The fewer the bacteria, the cleaner and the better the milk, consequently, milk worth more as milk, as butter, as cheese and for and all food purposes.

That it pays to use Wyandotte Dairyman's Cleaner and Cleanser you have but to ask the Dairy Colleges or any one of the thousands of dairymen who use it, or better still—use it yourself.
