DURHAM, N. H., MARCH 6, 1912.

5 CENTS

WESLEYAN WINS DEAN LOSES.

Freshmen Win From the Manchester High

Wesleyan scored her eleventh consecutive victory in basketball last Thursday evening by defeating New Hampshire in a fast game by the score of 56 to 18. Although the home team was never in danger, the game was exciting and interesting throughout.

The game started with New Hampshire scoring two baskets, one by Jones and one by Sanborn, but the winners quickly obtained the lead which they retained for the rest of the game. The first half ended with the score 28 to 12. In the second period Wesleyan played a more consistent guarding game, holding the visitors to three baskets and doubling their score of the first half.

For New Hampshire Jones and Sanborn excelled in shooting, while "Noah", towering above the Wesleyan "white hope" who opposed him at center, furnished the comedy of the evening. Crane and Davidson played wonderful basketball for the home team. The summary:

Wesleyan	New Hampshire
Davidson, Pickles, lf	rg Watson
Eaton, Trevithick, rf	lg, Lowd, Came
Parkinson, c	c, Sanborn
Hayward, Allison, lg	rf Holden
Crane, Petigrue, rg	lf Jones

Score, Wesleyan 56, New Hampshire 18. Goals from floor, Crane 8, Parkinson 5, Davidson 4, Hayward 4, Eaton 4, Pickles, Jones 4. Sanborn 3, Holden, Lowd. Goals from fouls, Davidson 3, Parkinson. Referee, Lourette of Middletown. Time, 20-minute halves.

The New Hampshire College basketball team ended a successful season last night, defeating Dean Academy, 28 to 18. Holden and Jones were the stars for New Hampshire and J. Jones excelled for Dean. The summary:

New Hampshire	Dean Academy
Holden rf	lb Kelley
	lb Rice
Jones lf	rb J. Jones
Sanborn c	c Pomey
Thompson rb	lf Anderson
Watson rb	lf Welch
Came lb	rf Grant

Score, New Hampshire 28, Dean Academy 18. Goals from floor, Jones 5, Holden 4, J. Jones 3, Grant 2, Kelly 2, Sanborn, Watson. Goals from fouls, Holden 6, Kelley 3, Rice. Referee, Killourhy, Timer, Runnells. Scorer Warner. Attendance 500.

Freshmen Beat Manchester High.

Last Saturday night the freshmen basketball team defeated Manchester High School by the score 43-16. The game was one-sided throughout, with the visitors lost on the large gymnasium floor. Thompson for 1915 caged the ball 11 times while Fernald shot seven from the floor. The floor work of Came, however, excelled that of the other members of the team. For the visitors Farrell and Chandler starred, the latter

making a sensational shot from the center. The summary:

1915	M. H. S.
Reed, Watson lf	lf Chandler
Fernald rf	lf Shanahan
Elliott c	c H. Steele
Thompson rg	rg Farrell
Came (Capt.) lg	lg W. Steele

Score 1915 43; M. H. S., 16. Goals from floor, Thompson 11, Fernald 7, Elliott 2, Came 1, Farrell 3, H. Steele 2, Chandler 1, Shanahan 1. Goals from fouls: Farrell 2, Came 1. Referee, McPheters. Time 20-minute halves.

RIFLE CLUB.

New Hampshire was defeated last week by North Georgia.

The score:

Berry	87	86	173
Sellers	84	86	170
Knight	82	85	167
Robinson	76	88	164
McCrillis	66	95	161

TRACK MAN RETURNS.

Byron H. Clark, Dartmouth 1915, who was a freshman at New Hampshire College last year, holder of the New Hampshire records in the mile, half mile and 440 yards runs, has returned as a special student.

RURAL PROGRESS CONFERENCE.

President Gibbs is president of the New England Conference on Rural Progress which meets Friday in Boston. The Conference meets annually and the delegates representing all the agricultural organizations of New England will be given a complimentary dinner by the Boston Chamber of Commerce Thursday evening. Both President Gibbs and Professor Taylor will speak Friday.

COMMITTEE APPOINTMENTS.

The New Hampshire Christian Association has made the following committee appointments:

Nominating committee: R. H. Knight, chairman; P. E. Steel, Leon F. Brown, Report is due March 17.

Northfield Committee: Oscar E. Huse chairman; G. F. Lane, P. C. Gale, D. W. Ladd, Jr., A. F. Hall.

DAIRY TRIP.

Professors Eckman and Rasmussen will conduct the special dairy students and some of the regular four year Agricultural men on a trip to Boston and vicinity the latter part of this week. They will visit the plant of Whiting and Hood, Boston; the Lawson Farm at Egypt, the Ames' Farm at Easton and the Fired's Farm at Montello.

DR. BROOKS HAS OFFER.

Dr. Charles Brooks, professor of Botany has recently received a tempting offer to work for the Bureau of Plant Industry at Washington. Dr. Brooks has the matter under serious consideration.

Prof. Foster recently gave a talk on "Forestry" at Milford.

At the Christian Association meeting last Sunday afternoon P. C. Jones spoke on "Real Values."

FRAT BUYS NEW HOUSE.

Gamma Theta Secures New Residence.

Arrangements were completed Monday night by the Gamma Theta Fraternity for the purchase from Dr. C. L. Parsons of the residence now occupied by Dr. Parsons and family. It is expected that Dr. Parsons will move to Washington, D. C., this coming summer and that the house will be ready for occupancy next fall by the fraternity.

IMPORTANT LECTURE.

Prof. Wicker of Dartmouth College is to lecture in the library Thursday afternoon on Socialism. Everybody is invited.

NEW RULES.

The Faculty Committee on Athletics has taken the following action in regard to the annual Sophomore-Freshmen Basket Ball Game:

Voted: That the members of the contesting classes be not permitted to use bells, firearms, or other noisy instruments in the gymnasium.

Voted: That the display of class banners in or about the Gymnasium be not permitted upon this occasion.

Voted: To request the members of the contesting classes not to occupy seats or places in the gallery.

Signed, F. W. Taylor,
Secretary of the Committee.

DEAN HAS LEAVE OF ABSENCE.

Dean Pettee has been granted a leave of absence for April and May, and with Mrs. Pettee expects to take a trip as far west as Salt Lake City, Utah, and Helena, Montana.

ALUMNI NOTES.

H. E. Wilder, '09, is now a member of the firm of Phillips & Wilder, Mechanical and Structural Engineers of Spokane, Wash. At the present time, he is consulting engineer on the Latah Creek Bridge, which is being built by the city. It is a concrete structure of the arch type, and about 11,000 feet long and 150 feet high. E. G. Towne '10, is his assistant on the job.

W. F. Langelier, '09 is director of the mandolin and orchestra of the Musical Clubs of the University of Illinois for the season of 1911-12

PROF SANBORN SPEAKS.

Prof. J. W. Sanborn of Gilmanton, New Hampshire will deliver an address under the auspices of the Agricultural Club, Monday evening, in the Chem. Lecture room.

Prof. Sanborn was formerly connected with the New Hampshire Experiment Station, and is now one of the foremost agriculturists in the State. He talked about "Some Present Day Methods of New Hampshire Agriculture." The meeting was well attended.

LEAP YEAR IN FORMAL.

On Thursday evening Feb. 29, a leap year informal dance under the auspices of the Social Committee was held in the gymnasium. The attendance was the largest of the year on account of the fact that the men were all invited by the fair ones. A host of imported girls intensified the pleasure of those present.

The young ladies had complete charge of the affair, serving refreshments and affording one of the most enjoyable occasions of the year. The college orchestra furnished the music for a concert and dancing.

BOOK REVIEW.

"One Way Out" by William Carleton is the story of a New Englander who emigrated to America and found himself after having helplessly and aimlessly spent the first half of his life as a clerk and bookkeeper in the city. His earlier life well illustrates the career of many a young man who is not well prepared and who drifts through life handicapped in the quest for happiness and success, able bodied but without hope of surmounting the obstacles due to his lack of preparation and his false social surroundings. At length losing his position, with his youth behind him, and actual want threatening him and his family, the story tells how this man gives up his home and so called friends and begins life over again in the ranks of the emigrant laborers. He learns to save, to study, to fit himself substantially, and to make real friends. Finally he achieves success for there is no failure for one who enters the race as he did after his awakening.

Some one has said that this book does as much to stimulate effective thinking among the American people as "Looking Backward" has done. The story is a genuine inspiration to healthful, courageous living. It is in the college library and should be read by everyone.

J. H. Foster.

STEVENS CLUB ORGANIZED.

The graduates of Stevens High School have organized a "Stevens Club" with the object of advertising New Hampshire College in their "Prep" school. P. A. Foster is president of the organization, Gerald Perkins, secretary and Irving C. Story, treasurer.

A. Z.

At the regular meeting of the Alpha Zeta Monday evening, Feb. 26, it was decided to accept the opportunity offered by the High Scribe of publishing the Sept. number of the Alpha Zeta Quarterly. M. G. Eastman was chosen Editor and the work was apportioned among the other members.

AT CHAPEL.

Miss Mary Chase of Andover spoke at chapel last Wednesday on "Woman's Suffrage." She gave in a brief manner an outline of the good that could be gained from Equal Suffrage and in fact extolled the matter as only a woman can.

Miss Irene Weed, daughter of Prof. C. M. Weed, a former Professor of Zoology at this institution passed the week end with friends in town. Miss Weed is at present a Junior at Simmons College.

USE OF THE GYMNASIUM.

Never has the gymnasium been so much and so fully in use as now. Into whatever part of the building one goes during the afternoon hours, there is life and hustle. More students are making use of the building for more purposes than ever before. Basket ball, base ball and track men are using the floor and track, while in the basement the shooting gallery is generally occupied. This is in part due to the increase in the size of the student body, but is more due to the quiet but consistent endeavors of Dr. Reynolds. He has, in his work with the basket ball team, kept more men actively and pleasantly engaged than has ever been the case with other coaches. He has given time to bringing men into condition in a scientific way, and so has made them feel more like playing.

In the track work he has been gradually gaining impetus, and at present with prospects of the outdoor season in close perspective, has an excellent squad at work. The return of Byron Clark to college will materially strengthen the track team—his ability is well known to most of us.

The base ball men are also working out on the gymnasium floor each day. Battery men of known and of unknown calibre are warming up and gradually getting the unused muscles into shape for the playing season. The outlook for success in this line of sport never seemed brighter. With so many old players as a foundation upon which to build, with as lively and popular a captain as McPheters, and with as capable a coach as Mr. Bernier promises to be there is no reason why New Hampshire should not turn out a winning aggregation.

There is, however, one weak link in our system of athletics as applied to this branch. There are generally many men of ordinary ability who would like to play during the spring, but who if they came out at all, might soon be cut from the first squad, thus losing all chances. There is undoubtedly now and then a man in this class who would come to the fore if he had an opportunity to keep at the game for a longer time. Why is it not possible for us to arrange some sort of a fraternity schedule for men of this type? Varsity men should be made ineligible, and thus through these games a friendly spirit of clean rivalry would be kept up among the fraternities. At the same time any player showing to an unusually good advantage would soon be "spotted" by the coach and taken for a try-out with the first squad.

We believe this scheme of an inter-fraternity schedule to be feasible and

distinctly worth while. Put up some trophy to be fought for, promote an amiable feeling among the fraternities, and develop more men than just enough for a Varsity and second teams. This is an idea in school and college athletics that is rapidly gaining ground.

FOUNDERS NIGHT.

The celebration of Founder's Night, March 15th, at 8 o'clock, is another evidence of the great, practical interest that the Alumni Association is taking in the welfare of the college. Nothing can do more to deepen our college-spirit than the opportunity that this custom provides for the emphasis of college history and traditions. Probably some of us know more concerning the history of other institutions of learning than of our own college, and yet no New England college has a finer type of traditions or a more significant line of historic descent.

The alumni reason wisely that we first must understand the significance of our college ourselves before we can hope to be understood throughout the state. With this in mind the Association will provide each year an alumnus or prominent educator to speak on the character and purposes of the land-grant college. Hon. H. L. Boutwell '82, who will give the first Founder's Night address, is a very able speaker as well as an alumnus who is doing much for the college. Never again can we be present at the first Founder's Night. In a matter of such importance the interests of the institution command the attendance of every student and every member of the faculty.

J. W. Butterfield, '76, is superintendent of the Union School district for the Vermont towns of East Montpelier, Calais, and Woodbury.

POTASH

Grain Farming

Necessity or choice makes grain the main source of income on many farms. The increasing cost of labor and land demand higher yields per acre. After the manual resources of the farm, including clover, have been used, a further increase per acre, at small cost, can be made by using commercial plant foods as supplements. The principal mineral ingredient of grain is **Potash**.

A grain fertilizer should, therefore, contain enough Potash, never less than 6 per cent., better 10 per cent., to balance the other plant foods, produce heavy grain and prevent lodging. Ask your dealer to carry goods of this kind and Potash salts to add to brands low in Potash. **Potash Pays** when you use enough.

Write us for Potash prices and for grain formulas

Charles A. Hubbard, '77.

Charles Appleton Hubbard, son of Appleton Burnham Hubbard and Betsey Louisa Clark Hubbard, was born at Troy, New Hampshire, June 7, 1857.

When Mr. Hubbard was five years old his father died, leaving but a small means for his wife and two small sons. He attended public school and Troy High School, and graduated from New Hampshire College with the class of '77. Soon after graduation he entered the employ of E. P. Kimball and Sons, general merchants at Troy, remaining with them about two years, but being anxious for a larger field of work, went to Boston and fitted himself for accounting work. Soon afterward, he entered the employ of the Union Pacific Railway Company, in the accounting department, where he served in various grades, being promoted from time to time. On the segregation of the Union Pacific System in 1897, he was made Comptroller and later Secretary of the Oregon Short Line Railroad Company, in which positions he continued until the early part of 1899, when he resigned to become Treasurer and a member of the Board of Directors of the United Fruit Company then being formed. This Company was a consolidation of various interests engaged in the production and marketing of tropical products chiefly bananas, coconuts and citrus fruits. Starting with an investment of about \$10,000,000, its assets have grown to an amount exceeding \$50,000,000; its business has been extended to include English and European trade; the production of sugar on a large scale has been carried on; some thirty large steamships have been constructed specially for the traffic, involving a large freight and passenger business; nearly a thousand miles of railway are operated by the Company and about thirty-five thousand men are in its employ. Its work in tropical countries has involved the establishment and maintenance of hospitals and schools, hotels and other institutions for the welfare of its employees and the public. These factors and its international transportation interests give its activities a diversity and scope quite beyond those of the ordinary industrial corporation.

When the plans were being formed for the organization, it became evident that from an accounting standpoint the work presented many unique features and required solutions for which no precedents existed. The qualifications displayed by Mr. Hubbard in his railway work recommended him for the task of solving these problems, and he was placed in charge of the accounting and finances of the Company and continues to be prominently identified with its management.

Mr. Hubbard is interested in agriculture on a larger scale than any other graduate of New Hampshire College, the United Fruit Company alone having more than 75,000 acres of bananas and 50,000 acres of sugar cane under cultivation. At times a hundred steamers are required for its world wide business.

In addition to his duties as Treasurer of the United States Fruit Co., he is also identified with the following corporations:—Assistant Secretary, Fruit Dispatch Company; Director, Treasurer and Secretary, Fruit Wharf Co.; Director, Treasurer and Secretary, Nipe Bay Co.; Director, Treasurer and Secretary, Northern Railway Co.; Director, Treasurer, Secretary and member of Executive Committee, Santa Marta

Fruit Co.; Director, Tropical Fruit Steamship Co.; Director, Treasurer, Secretary and member of Executive Committee, Sevilla Banana Co.; Treasurer, Simmons Sugar Limited; Director, Treasurer and Assistant Secretary, United Fruit Co.

Besides his duties as Treasurer, he has been held responsible for much of the executive work of his Company.

He is a business man of large capacity. He is a self made man. To rise from the position of clerk in a country store to the position of Treasurer of the United Fruit Co. is an achievement which commands attention and admiration. When asked to divulge the secret of his success, he modestly said, "Unselfish, faithful, persistent and conscientious attention to duty."

His career ought to be an inspiration to every student at our College.

Mr. Hubbard is loyal to the state of his nativity and like man other Massachusetts business men has a beautiful summer home in New Hampshire. He is equally loyal to his Alma Mater and willing to labor for its success. He has for some years been a member of the Alumni Visiting Committee.

Mr. Hubbard is a member of Brae Burn Country Club, West Newton; Exchange Club, Boston; Dalhousie Lodge, F. and A. M., Newton Royal Arch Chapter, Adoriram Council, Gethsemane Commandery, Boston Consistory Scottish Rite (32).

He was married October 15, 1884, to Maryanna, daughter of Julius A. and Mary Ann Wood-Stearns of Rindge, New Hampshire, and has two children, Harry A. and Marion.

George F. Roberts, '11, has recently accepted an offer as superintendent of the farm and forest of Winston Churchill, the noted New Hampshire author, whose large estate is at Cornish, N. H.

A REAL SANITARY CLEANSER.

No imitation of a sanitary cleaner in a dairy can take the place of a real sanitary dairy cleaner. When it comes to protecting the milk from the dangerous enemy, bacteria, and toward warding off contamination by odors and germs, nothing can give the same assurance as a real sanitary dairy cleaner.

has created a place for itself in every dairy, whether large or small, for it is the only cleaner which is both sanitary in composition and sanitary in its cleaning.

Each particle of Wyandotte Dairyman's Cleaner and Cleanser is cleansing. You can depend upon it to clean thoroughly without a trace of injury to the surface to which it is applied. Nor will it leave a slight film of grease or caustic as do soaps, soap powders, sal soda and lye. It is sanitary in every respect.

You buy Wyandotte Dairyman's Cleaner and Cleanser knowing that it has no substitutes. No other cleaner will satisfy after you have once become used to the clean, wholesome conditions so easily attained with its use.

You take the initial step, ask your dealer for a sack or write your supply house for a barrel; we will do our part by guaranteeing complete satisfaction.
