WESLEYAN WINS

DEAN LOSES.

Freshmen Win From the Manchester High

Wesleyan scored her eleventh consecutive victory in basketball last Thursday evening by defeating New Hampshire in a fast game by the score of 56 to 18. Although the home team was never in danger, the game was exciting and interesting throughout.

The game started with New Hampshire scoring two baskets, one by Jones and one by Sanborn, but the visitors quickly overtook the lead which they retained for the rest of the game. The first half ended with the score 28 to 12. In the second period Wesleyan played a defense winning game, holding the visitors to three baskets and doubling their score of the first half.

For New Hampshire Jones and Sanborn excelled in shooting, while "Noah" of 56 to 18. Although the home team was never in danger, the game was exciting and interesting throughout.

In the second period Wesleyan played a defense winning game, holding the visitors to three baskets and doubling their score of the first half. For New Hampshire Jones and Sanborn excelled in shooting, while "Noah" of the Visitors excelled in shooting, while "Noah" of the Visitors excelled in shooting.

NEW HAMPSHIRE.

Wesleyan outscored New Hampshire Davidson, Pickles, c e, Allison, ig rt Holden Sanborn c E. Steele Thompson rg Thompson rg Feralld rt Sheehy, Thompson rt Sanborn c Sanborn c Cambridge Bolton rt Holden rt

score of the first half. For New Hampshire Jones and Sanborn excelled in shooting, while "Noah" of the Visitors excelled in shooting.

For New Hampshire Jones and Sanborn excelled in shooting, while "Noah" of the Visitors excelled in shooting.

New Hampshire was defeated last night, defeating Dean Academy, 28 to 12, for New Hampshire records in the mile, half, mile and three yards runs, has returned as a special student.

RURAL PROGRESS CONFERENCE.

President Gibbs is president of the New England Conference on Rural Progress which meets Friday in Boston. The Conference meets annually and the delegates representing all the agrarian organisations of New England will be given a complimentary dinner by the Boston Chamber of Commerce Thursday evening. Both President Gibbs and Professor Taylor will speak Friday.

COMMITTEE APPOINTMENTS.

The New Hampshire Christian Association has made the following committee appointments:

Nominating committee: B. H. Knight, chairman; F. E. Steel, Leon F. Brown.

REPORT.

Professor Eckman and Rasmussen will conduct the special dairy studies and some of the regular four year Agricultural men on a trip to Boston and vicinity the latter part of this week. They will visit the plant of Whiting and Hood, Boston; the Lawson Farm at Exeter, the Ames Farm at Easton and the Fried's Farm at Montello.

BRICKS OFFERED.

Dr. Charles Brooks, professor of Botany has recently received a tempting offer from the Illinois Agricultural Plant Industry at Washington. Dr. Brooks has the matter under serious consideration.

At the Christian Association meeting last Sunday afternoon E. C. Jones spoke on "Real Values."
USE OF THE GYMNASIUM.

Never has the gymnasium been so much in use as now. Into whatever part of the building one goes during the afternoon hours, there is life and bustle. More students are making use of the building for more purposes than ever before. Basket ball, baseball and track men are using the floor and track, while in the basement the shooting gallery is generally occupied. This is in part due to the increase in the size of the student body, but is more due to the quiet but consistent endeavors of Dr. Reynolds. He has, in his work with the basketball team, kept more men actively and pleasantly engaged than has ever been the case with other coaches. He has given time to bringing men into condition in a scientific way, and so has made them feel more like playing.

In the track work he has been gradually gaining impetus, and at present with great results. One of the chief reasons why the gymnasium is so popular is the excellent basketball team that is rapidly gaining ground. The return of Byron Clark to the college will materially strengthen the team. The principal mineral ingredient of grain is Potash.

POTASH

Grain Farming

Necessity or choice makes grain the main source of income on many farms. The increasing cost of labor and land demand higher yields per acre.

After the manifold resources of the farm, including corn, have been used, a further increase per acre, at small cost, can be made by using commercial plant foods as supplements. The principal mineral ingredient of grain is Potash.

A grain fertilizer should, therefore, contain enough Potash, never less than 0 per cent, better to, per cent, to balance the other plant foods, produce heavy grain and prevent lodging. Ask your dealer to carry goods of this kind and “Potsmal” salts to add to bread low in Potash.

Potsmal Plays when you use enough.

Write us for Potsmal prices and for grain formulas.

—"MEN WHO KNOW"—

Prominent Alumni.

Charles A. Hubbard, ’77.
Charles Appleton Hubbard, son of Appleton Burnham Hubbard and Betsey Louisa Clark Hubbard, was born at Troy, New Hampshire, June 7, 1857.

When Mr. Hubbard was five years old his father died, leaving but a small means for his wife and two small sons. He attended public school and Troy High School, and graduated from New Hampshire College with the class of ’77.

Soon after graduation he entered the employ of the Union Pacific Railway Company, in the accounting department, where he served in various grades, being promoted from time to time. On the segregation of the Union Pacific System in 1897, he was made Comptroller and later Secretary of the Oregon Short Line Railroad Company, in which positions he continued until the early part of 1899, when he resigned to become Treasurer and a member of the Board of Directors of the United Fruit Company then being formed.

This Company was a consolidation of various interests engaged in the production and marketing of tropical products chiefly bananas, cocomose and citrus fruits. Starting with an investment of about $10,000,000, its assets have grown to an amount exceeding $50,000,000; its business has been extended to include English and European trade; the production of sugar on a large scale has been carried on; some thirty large steamships have been constructed specially for the traffic, involving a large freight and passenger business; nearly a thousand miles of railway are operated by the Company and about thirty-five thousand men are in its employment. Its work in tropical countries has involved the establishment and maintenance of hospitals and schools, hotels and other institutions for the welfare of its employees and the public. These factors and its international transportation interests give its activities a diversity and scope quite beyond those of the ordinary industrial corporation.

When the plans were being formed for the organization, it became evident that from an accounting standpoint the work presented many unique features and required solutions for which no precedents existed. The qualifications displayed by Mr. Hubbard in his railway work recommended him for the task of solving these problems, and he was placed in charge of the accounting and finances of the Company and continues to be prominently identified with its management.

Mr. Hubbard is interested in agriculture on a larger scale than any other graduate of New Hampshire College, the United Fruit Company alone having more than 75,000 acres of bananas and 50,000 acres of sugar cane under cultivation. At times a hundred steamers are required for its world wide business.

In addition to his duties as Treasurer of the United Fruit Company, he is also identified with the following corporations:—Assistant Secretary, Fruit Dispatch Company; Director, Treasurer and Secretary, Fruit Wharf Co.; Director, Treasurer and Secretary, Napa Bay Co.; Director, Treasurer and Secretary, Northern Railway Co.; Director, Treasurer and Secretary, and member of Executive Committee, Santa Maria.

Jacob Reed's & Sons

Makers of "GOLD MEDAL UNIFORMS"

24-26 Chestnut St., Philadelphia, Pa.

Fruit Co.; Director, Tropical Fruit Steamship Co.; Director, Treasurer, Secretary and member of Executive Committee, Nevis' Banana Co.; Treasurer, Simmons Sugar Limited; Director, Treasurer and Assistant Secretary, United Fruit Co.

Besides his duties as Treasurer, he has been held responsible for much of the executive work of his Company.

He is a business man of large capacity. He is a self made man. To rise from the position of clerk in a country store to the position of Treasurer of the United Fruit Co. is an achievement which commands attention and admiration.

When asked to divulge the secret of his success, he modestly said, "Unselfish, faithful, persistent and conscientious attention to duty."

His career ought to be an inspiration to every student at our College.

Mr. Hubbard is loyal to the state of his nativity and like man other Massachusetts business men has a beautiful summer home in New Hampshire. He is equally loyal to his Alma Mater and willing to labor for its success. He has for some years been a member of the Alumni Visiting Committee.

Mr. Hubbard is a member of Brate Burn Country Club, West Newton; Exchange Club, Boston; Duxbury Lodge, P. and A. M., Newton Royal Arch Chapter, Adoriram Council,Gatesman Commandery, Boston Consistory Scot­tish Rite (32).

He was married October 15, 1884, to Maryanna, daughter of Julius A. and Mary Ann Wood-Sources of Ringde, New Hampshire, and has two children, Maryanna, daughter of Julius A. and Marion.

George F. Roberts, '11, has recently accepted an offer as superintendent of the farm and forest of Winston Church­ill, the noted New Hampshire author, whose large estate is at Cornish, N. H.
