

# THE WMUR GRANITE STATE POLL

## THE UNIVERSITY OF NEW HAMPSHIRE

November 23, 2011

### ROMNEY INCREASES LEAD, GINGRICH DISTANT 2<sup>ND</sup> IN NH, ELECTORATE STILL FLUID

By: Andrew E. Smith, Ph.D.  
UNH Survey Center  
603-862-2226  
[www.unh.edu/survey-center](http://www.unh.edu/survey-center)

DURHAM, NH – Mitt Romney has increased his support among New Hampshire Republicans to 42% and Newt Gingrich is the latest Republican to pull into a distant second place. However, 6 in 10 voters remain undecided about who they will eventually support.

These findings are based on the latest **WMUR Granite State Poll**,\* conducted by the University of New Hampshire Survey Center. Six hundred and sixty-five (665) randomly selected New Hampshire adults were interviewed by telephone between November 15 and November 20, 2011. The margin of sampling error for the survey is +/- 3.8%. An oversample of 128 likely Republican primary voters were interviewed between November 21 and November 22, 2011. A total of 413 likely 2012 Republican Primary voters (margin of sampling error +/- 4.8%), 219 likely Democratic primary voters (margin of sampling error +/- 6.6%), and 606 likely 2012 General Election voters (margin of sampling error +/- 4.0%) were interviewed.

#### Republican Primary

Among likely New Hampshire Republican Primary voters, former Massachusetts governor Mitt Romney, the 2008 New Hampshire runner-up, continues to hold a commanding lead. In the most recent WMUR NH Primary Poll, 42% of likely Republican Primary voters said they would vote for Romney. Romney has consistently led the GOP field in New Hampshire by a three-to-one margin since 2009.

Newt Gingrich has rebounded after a disastrous summer and now is in second place with 15%, followed by Texas Congressman Ron Paul (12%), former Utah Governor John Huntsman (8%), businessman Herman Cain (4%), Texas Governor Rick Perry (4%), Minnesota Congresswoman Michele Bachmann (2%), and former Pennsylvania Senator Rick Santorum (1%).

Other long-time candidates have been unable to gain traction in New Hampshire. Former New Mexico governor Gary Johnson and former Louisiana governor Buddy Roemer are both below 1%, and businessman Fred Karger does not receive any support.

It is critical to point out that primary voters behave very differently than general election voters -- there are no party cues to rely on, and almost all primary voters will vote for their party's eventual presidential candidate, no matter who that might be. Most primary voters do not settle on a choice until the very end of the campaign, so early poll numbers are a better gauge of a candidate's popularity and visibility now than an indication of who voters will end up supporting. In the most recent poll, 59% of likely Republican primary voters say they are still trying to decide who they will eventually vote for in 2012, 24% are leaning toward a candidate, and only 16% say they have definitely decided who they will vote for.

### NH 2012 GOP Presidential Primary – Likely Republican Primary Voters

### Favorability Ratings

Support for Republican candidates is currently based primarily on name recognition and favorability. Mitt Romney has consistently had the highest favorability ratings among all Republican candidates. Currently, 67% of likely Republican primary voters say they have a favorable opinion of Romney, 22% have an unfavorable opinion of him, 10% are neutral, and 1% don't know enough about him to say. Romney's net favorability rating, the percentage who have a favorable opinion of him minus the percentage who have an unfavorable opinion, is a very high +45%.

Newt Gingrich is now the second most popular Republican with a net favorability rating of +13% followed by Huntsman (+9%) and Paul (+6%). The least popular Republicans are Perry (-34%), Bachmann (-25%), Cain (-22%), Johnson (-20%), Roemer (-20%), Karger (-12%), and Santorum (-7%).

Cain has seen the sharpest drop in his favorability ratings, from +30 in October to -22% in October, while Gingrich improved from -13% to +13%.

### NH 2012 GOP Presidential Primary – Candidate Favorability Ratings (% Favorable)

### Least Popular Republican

When asked which candidate they would not support under any circumstances, 17% of likely Republican primary voters say they would not vote for Cain, followed by Bachmann (16%), Perry (11%), Paul (10%), Gingrich (8%), and Romney (8%). Only 3% say they would not vote for Huntsman and 2% would not vote for Johnson.

NH 2012 GOP Presidential Primary – Least Likely To Vote For

### Expected To Win NH Primary

Romney has been doing his best to build a sense of inevitability in winning the nomination by focusing on President Obama and not his fellow Republicans, and voters seem to recognize this. Currently, three-quarters of likely Republican primary voters (75%) think Romney will win the New Hampshire Primary, 4% think Paul will win and 4% think Gingrich will win. Most Romney supporters (94%) think he will win, but so do 78% of Gingrich supporters, 69% of Huntsman supporters, 47% of Cain supporters, and 45% of Paul supporters.

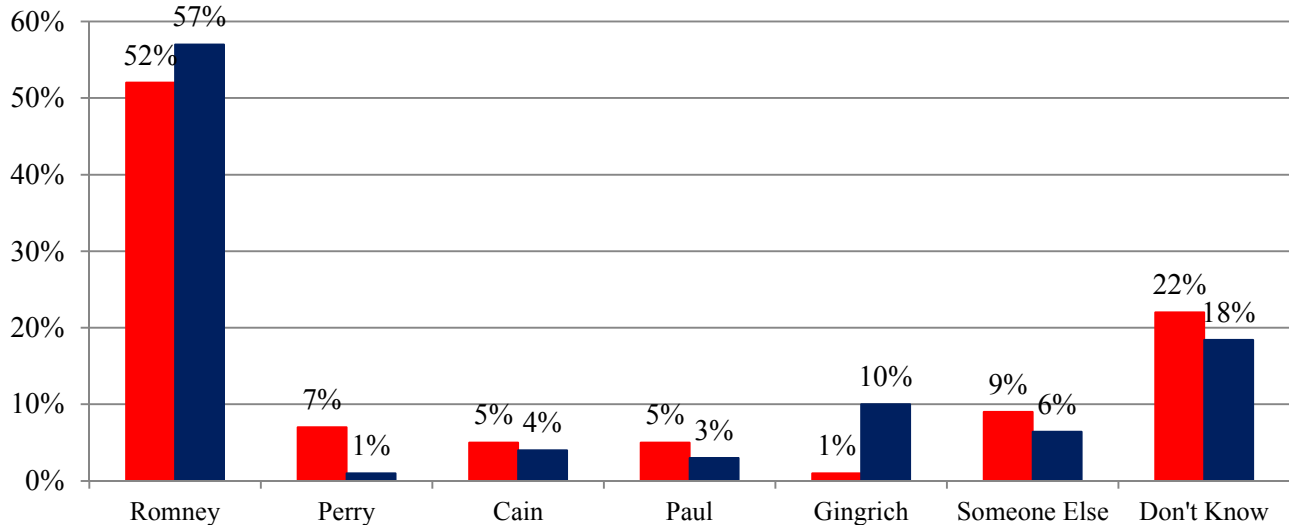

Who Do You Expect To Win the NH Primary?

## Best Chance To Beat Obama

Another indicator of a candidate's strength in a primary election is how well they are expected to do against the other party's nominee. When asked which candidate has the best chance of defeating President Obama in November, 57% of likely Republican Primary voters name Romney, followed by Gingrich (10%), Cain (4%), Huntsman (3%), and Paul (3%).

Who Has The Best Chance To Beat Barack Obama?

## Candidate Qualities

Likely Republican voters were asked several questions about the characteristics of the Republican candidates. Romney is seen as the strongest leader, named by 44% of likely Republican primary voters, followed by Gingrich (25%) and Paul (6%). Romney is also seen as the most believable (45%) and the most likeable (35%). However, when asked which candidate is seen as most willing to take an unpopular position on an issue if they think it is the right position, Ron Paul is named by 29%, followed by Gingrich (21%) and Romney (12%).

Likely Republican voters were also asked a number of questions about some specific issues involving some of the Republican candidates. When asked if Romney's Mormonism would make them more likely to vote for or against him, the vast majority (90%) said it would make no difference in their vote, 2% said they were more likely to vote for him, and 8% said they were more likely to vote against him.

Rick Perry's recent debate stumbles have done significant damage to his campaign. When asked how his poor debate performances impact their vote, 45% of likely Republican voters said they were more likely to vote against him, 1% were more likely to vote for him, 52% say it makes no difference, and 2% don't know.

The recent sexual harassment against Herman Cain has had a similar effect on his support. When asked if the allegations of sexual harassment against Cain when he was head of the National Restaurant Association in the 1990's would impact their vote, 45% of likely Republican voters said they were more likely to vote against him, 1% were more likely to vote for him, 53% say it makes no difference, and 1% don't know.

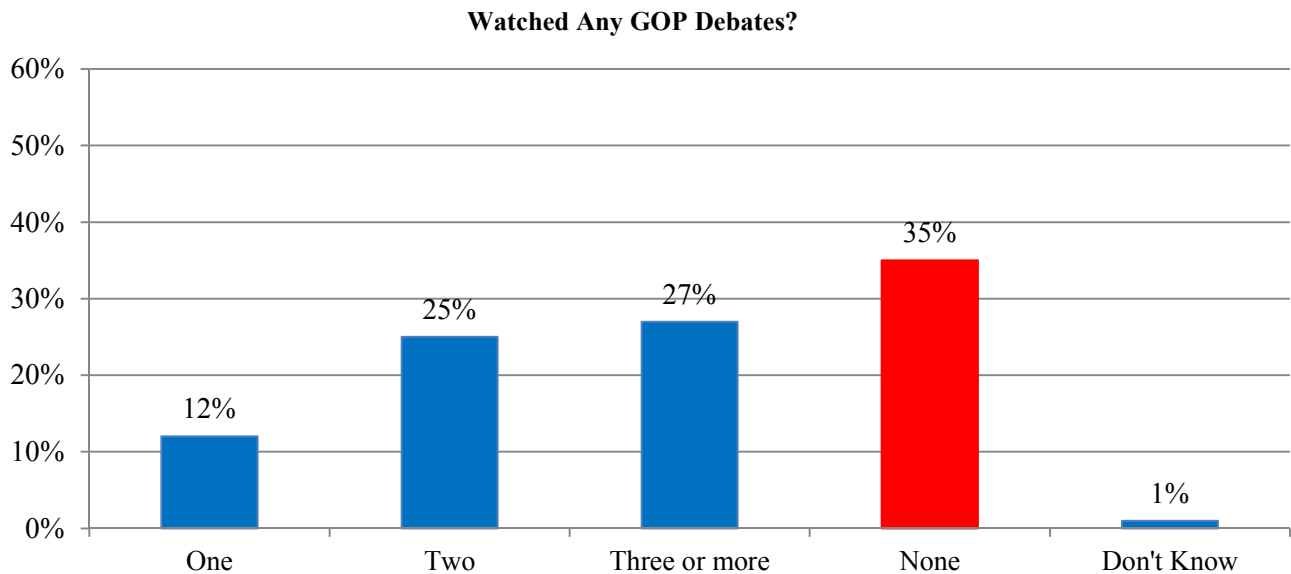

### Issue Most Important to Primary Vote

Jobs and the state of the economy continue to be the most important issues for likely Republican primary voters in deciding who to vote for. Currently, 62% of likely GOP Primary voters say jobs and the economy is the most important issue to their vote in the primary, followed by the issues surrounding the federal budget (10%), illegal immigration (4%), healthcare (4%), national security and foreign policy (4%), taxes (3%), and 13% cited some other issue.

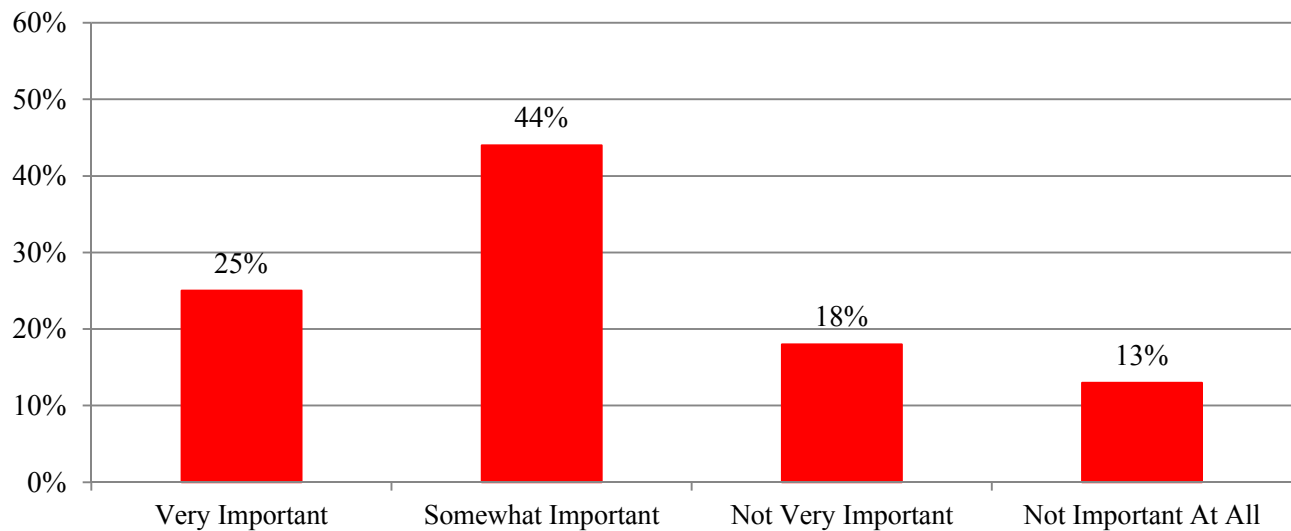

### Impact of the GOP Debates

A sizable majority of the New Hampshire Republican electorate (64%) has watched at least one of the televised GOP debates. When asked if they had watched any of the debates, 12% of likely Republican primary voters said they had watched one, 25% had watched two, and 27% had watched three or more, while 35% had not watched any of the debates and 1% could not recall.

More than two-thirds of Republican voters say that the debates play at least a somewhat important role in deciding who they plan to vote for. Currently, 25% of likely Republican Primary voters say the debates are very important in deciding their vote, 44% say they are somewhat important, 18% say they are not very important, and 13% think they are not important at all.

### Importance of GOP Debates

### Should the Democratic Party Renominate Obama?

While no Democrat decided to challenge President Obama for his party's nomination, likely Democratic primary voters were asked whether the Democrats should renominate Obama or nominate a different candidate. Currently, 74% of likely Democratic primary voters say the party should renominate Obama, 19% think it should nominate a different candidate, and 7% don't know.

### Should The Democratic Party Renominate Obama?

However, there is a sense among many Democrats that they would prefer another candidate when offered a specific choice. If they had a choice, 56% of likely Democratic primary voters say they would still like to see Obama as the Democratic presidential nominee, but 31% would rather see Hillary Clinton as the nominee, and 13% don't know. Moderate and Conservative democrats are most likely to say they prefer Clinton.

### Rather Nominate Obama or Hillary Clinton?

### 2012 Presidential Election

Looking ahead to the 2012 general election, the likelihood of President Obama winning again in New Hampshire depends heavily on the Republican candidate he would face. In a hypothetical race between Obama and Mitt Romney, the current GOP favorite in New Hampshire, Romney holds a slim lead with 47% to 44% for Obama, 3% for some other candidate, and 7% are undecided. Romney's lead over Obama narrowed slightly since October. Romney holds a narrow 40% to 38% lead among political independents, much closer than his 48% to 30% in October.

### November 2012 General Election - Obama vs. Romney (Likely 2012 General Election Voters)

Obama does better against former Speaker of the House Newt Gingrich. In this matchup, Obama holds a strong 52% to 40% lead with 2% favoring some other candidate and 6% undecided. Obama gets the support of 50% of political independents against 30% for Gingrich.

**November 2012 General Election - Obama vs. Gingrich**  
(Likely 2012 General Election Voters)

And when Obama is matched against Texas Governor Rick Perry, Obama holds a 54% to 35% lead with 3% favoring some other candidate and 7% undecided. Independents favor Obama over Perry by 53% to 26%.

**November 2012 General Election - Obama vs. Perry**  
(Likely 2012 General Election Voters)

## Granite State Poll Methodology

These findings are based on the latest WMUR Granite State Poll, conducted by the University of New Hampshire Survey Center. These findings are based on the latest **WMUR Granite State Poll**, conducted by the University of New Hampshire Survey Center. Six hundred and sixty-five (665) randomly selected New Hampshire adults were interviewed by telephone between November 15 and November 20, 2011. The margin of sampling error for the survey is +/- 3.8%. An additional oversample of 128 likely Republican primary voters were interviewed between November 20 and November 22, 2011. Included in the sample were 413 total likely 2012 Republican Primary voters (margin of sampling error +/- 4.8%), 219 likely Democratic primary voters (margin of sampling error +/- 6.6%), and 606 likely 2012 General Election voters (margin of sampling error +/- 4.0%).

The data have been weighted to adjust for numbers of adults and telephone lines within households, respondent sex, and region of the state. In addition to potential sampling error, all surveys have other potential sources of non-sampling error including question order effects, question wording effects, and non-response.
