ATHLETIC MEET.

Co C. Winning in the Finals.

The finals in the inter-company indoor athletic meet were held in the gymnasium last Thursday evening. Co. C won the meet with a total of 38 points; Co. A was second with 32; Co. D, third with 24; and Co. B, fourth with 23. The meet was a complete success.

Elliott '15 of Co. A was the winner of the gold medal for the highest number of points scored, his total being 16. Brackett '14 and Priest '27 were tied for second place, which carried the silver medal, their totals being 15 each. They will toss up for the medal, and will divide the total number of points toward the colors for second and third places.

A first place in the most contested five points colors, second, and third, two. In case of the individual prize, given to the individual who scored the highest number of points, a person was a member of the Butts Manual squad or the Caledonians squad, and his won a place in the event, he was given the same number of points, as was scored by his company.

The company which won the meet was awarded 25 points in the inter-company colors for the colors next year, while the other companies scoring second, third and fourth places, were given a proportional amount of this number, depending on the number of points they won in the meet. Winners of first, second and third places in the individual contest, brought eight, six and four points, respectively to their company score for the colors.

On this basis, as a result of the meet, Co. A won 34 points toward the colors, Co. C, 25; Co. D, 21; and Co. B, 11. Although not a winner of the meet, Co. A's extra points were due to the fact that it had two of the three individual prize winners.

One record was broken, although the meet was held indoors, being that of the 15 ft. pole vault, which was cleared by Batchelder '12, as manager of the track team, and received a perfect score. Since then, Stephen DeMeritt '12, has been appointed to succeed him, by the special committee on elections.

The constitution of the association was also amended so that three assistant managers instead of two will be elected for each branch of athletics. It was voted to elect three cheer leaders at the time of the meeting of the executive committee, one from the junior class and one from the sophomore, for the next year. In his duty. The college must not let the absence of three assistant baseball managers be elected, being as follows: Lawrence N. Barrett '13, A. W. Jenness '13, and H. Rogers '13.

DATE LEFT OUT.

Due to the error, the date of the baseball game with Norwich University, to be played in Durham May 25, was omitted from the baseball schedule earlier issued for the last edition of the New Hampshire.

PRES. BUTTERFIELD SPEAKS.

Last Sunday afternoon at the regular meeting of the Christian Association, Rev. Mr. Butterfield, of the Massachusetts Agricultural College, addressed the students on the subject of "Rural Leadership". Mr. Butterfield is a fluent speaker, and is well versed in the subject on which he spoke. His knowledge of the conditions of the rural districts in the whole country is probably unsurpassed, as these he has thoroughly investigated. He was appointed by ex-President Roosevelt to look into these conditions, and he is consequently thoroughly acquainted.

Mr. Butterfield emphasized the necessity for the agricultural college to be prepared with the rural districts. For the first time since the college, he has thoroughly investigated. He was appointed by ex-President Roosevelt to look into these conditions, and he is consequently thoroughly acquainted.

A large number of the students and faculty attended.

DECLARATION CONTEST.

On the afternoon and evening of May 10, 1912 the English Department is to hold a declaration contest to which students of all high schools and academies in New Hampshire and the bordering states are invited. The prizes to be awarded are 15, ten, and five dollars. The judges have not been announced.

THE CALL FOR SOCIAL WORKERS.  

In these days of regression in cities, of rapid immigration, of increase in criminality, of defeciveness, and of poverty, there has been a rapidly growing call for social workers, a call for college men and women to fit themselves for a life work on these problems. Opportunities are increasing faster than skilled workers can be obtained, and for such a variety of work this country would be well for every student to look well into the matter before choosing another calling. Our own department of Sociology has for its object also the fitting of New Hampshire College students for this social work, and so we as students of this college should be particularly interested in the subject.

What is meant by social work? The management of children of so-called "settlement houses" in dirty slum districts of large cities, of professional charity giving from house to house, perhaps, and giving alms of one sort or another. Ten, or even five years ago that picture might have been a tolerably good one, not so today. Today the man or woman looking forward to a line of social endeavor, need not be so comparative in opportunity to use his or her talents. He may, instead, do any one of many things. There are the playground workers in the large and the smaller cities, each requiring skilled men and women as supervisors; summer garden- ing for city children is growing apace and gives a particularly good opening for agricultural students who have also given some time to studying the social welfare of the race; there is industrial teaching in public and detention schools; there is a rapidly growing call for social work that it would be well for every college man or woman looking forward to a comfortable remuneration.

Do Fertilizers Pay?  

The annual alumni smoker will be held at Young's Hotel in Boston, Mass., Tuesday, April 16, 1912. On that day nearly 50 students on engineering trips will be in the city and will be present. The executive committee will not be satisfied unless there are 150 men in attendance. This is your chance to help put New Hampshire College on its feet. It is calling for mentally balanced men and women, who are filled with the desire of benefiting humanity, men and women who are not yet level headed men and women who are fitted by education as well as by personality for such a calling, one which will be from simple, but which will give many hours of happiness and satisfaction. It is for these things that our department of Sociology is instituted, and with the hope that many of New Hampshire's students may see fit to turn their endeavors in this direction, which, while it probably will never bring wealth, will bring satisfaction of work well done, and a comfortable remuneration.

ALUMNI NOTICE.

JAMES MARSHALL, Mgr.  
Dover, N. H.  

Why You Should Insure in the Massachusetts Mutual Life Insurance Company of Springfield, Massachusetts.  

Because it's a purely MUTUAL COMPANY, and pays dividends annually to its policyholders. Its dividends are very large, and its company is free from mortgages. In good years policyholders receive dividends, in bad years they receive none. It's premium rates are low—its reserves enormous. It's assets are of the very largest. It's policyholders are of the highest class, and it's surplus is ample for all contingencies.

DE LAVAL
CREAM SEPARATOR

THEIR GREAT SIMPLICITY.

De Laval Cream Separators excel other separators not only in thoroughness of separation, sanitary cleanliness, ease of running and durability—but as well in their great simplicity.

There is nothing about the operation, cleaning, adjustment or repair of a modern De Laval Cream Separator which requires expert knowledge or special tools.

Nor are there any parts of which adjustment is frequently necessary to maintain good running or to conform to varying conditions in the every-day use of a cream separator.

There is no need to fit and adjust parts to get them together right. They are so made that they cannot help go together right. All bearings and bushings are easy to replace. There are no complicated springs, keys, ball bearings or other fittings, that only an expert can properly adjust.

A person who has never touched a separator before, can, if need be, unassemble a modern De Laval machine down to the last part within a few minutes and then reassemble it again as this. This is something which cannot be done outside a shop with any other separator.

The only way to properly understand and appreciate De Laval superiority to other separators, is to look over, and better still to try, a 1912 De Laval machine. Every De Laval agent is glad to afford prospective buyers the opportunity to see and try a De Laval Separator.

THE BOSTON OCTETTE.

"They have come, we have seen them, they have conquered." That is perhaps as good a summary of the recital given by the Boston Octette on last Friday evening as could be given. We all knew the Schuberts, know what they could do, but combine them with the Eichhorns, Trios and Miss Holt, and it is little wonder that when the entertainment was over, everyone went away with the conviction that it was the best number of the lecture course.

The recital began with a few words of introduction by Prof. Whoriskev, in which he welcomed the visitors and spoke of their manifest pleasure in being present. Incidentally, he mentioned the enthusiastic way in which the various members of the octette had spoken of the playing of the College orchestra.

The first number on the program was a selection from the "Bohemian Girl" by Ballas. This was given by the entire company and gave the audience their first glimpse of Miss Holt's fine voice. A duet by Neers. Tripp and Walker was especially well rendered.

Next came the violin solo by Miss Eichhorn. To say it was excellent would be putting it mildly. Suffice it that it has been a long time since Durham had such a remarkable performer. Her shading and accenting, particularly in the "Beethoven Minuet" which was given as the first encore, were especially good.

For the second encore she rendered Schuman's "Träumerei." After she chose the number for which we had all been waiting—the number by the Schuberts. It was a charming little piece by Storch called "Reveries." In it, Mr. Steele gave a solo which was warmly applauded. Their encore was "Madigan's Musketeers," "Dried Apple Pies," and "Woodland Roses.

The next was perhaps the best of all, the tower scene from "II Trovatore." Miss Holt appeared at her best and gave us as fine a rendition as one could desire. Her work in the high notes was especially good. Mr. Tripp gave the uninitiated a chance to commend his remarkable tenor voice. The work of the trio and quartette goes without saying. For an encore, Miss Holt and the quartette gave "Sea Moon River." Miss Haliday's solo solo was warmly applauded as were her two encores, "Carry Me Back to Old Virginia" and "Believe Me If All Those Endearing Young Charms." She impressed everyone as being a complete master of the solo and the graceful way in which she responded with her encore appealed to everyone.

The Schubert's second number was as well rendered at the first. As encore, they gave "Irish Folk Song," "Roll of Fife," and "Old Oaken Bucket." As her encore Miss Holt gave Philosophy and "Will O'The Wisp." The Eichhorns gave Arensky's selection in B Minor, and as encore Packe's "Gavotte" and the Barcarolle from the Tales of Hoffmann. This was immediately followed by the Sextette from "Luisa de Lamarmoor," by the octette, a duet by Meehan, Tripp and Walker and a solo by Miss Holt stood out prominently. Instead of an encore the entire octette gave the college hymn. This came as a surprise to the audience, and their applause was long and hearty.

The entertainment closed with individual solos by the audience for Miss Holt, the Shubberts, the Eichhorns, and the octette.

After serving with the General Electric Co., at Lynn, Pittsfield and Schenecda, Charles F. Case '06, has been transferred to Pittsburg, Pa., where he has as territory in the sales department northeastern Pennsylvania, northwestern Ohio, southern West Virginia, and eastern Ohio.

ABLE TO DO WHAT NONE OF THE
OTHERS CAN DO.

Wyandotte

Dairyman's Cleaner

had a beginning no more illustrious
than hundreds of other cleaning
materials, but it had the necessary
qualities to be a success from the
very start. These necessary qual
qualities stand out distinctly when Wyandotte Dairyman's Cleaner and
Cleaner is used.

That is why every non-user of
Wyandotte Dairyman's Cleaner and
Cleaner is so thoroughly impressed
when he gives it a first trial. He has
been accustomed to a certain
degree of cleanliness, obtained with
some other cleaner, but when he is
brought face to face with perfect san
itary cleanliness such as Wyandotte Dairyman's Cleaner and
Cleaner always produces, it is then he
realizes that Wyandotte Dairyman's Cleaner and
Cleaner is able to do what none of the others can do.

Wyandotte Dairyman's Cleaner and
Cleaner has never been likened to
any other cleaner. It does not admit of
comparison. And no dairyman can
tradecially say he has secured as good
good results with some other material as
can be obtained with Wyandotte Dairy
man's Cleaner and Cleaner, because Wyandotte Dairyman's Cleaner and
Cleaner has ingredients wholly unlike
and vastly superior to any other dairy
cleaning agent now in use.

All we ask in for you to give Wyandotte Dairyman's Cleaner and Cleaner a trial. It will prove itself to be the most economical as well as the very best. Ask your dealer for a sack or
write your supply man for a bag or bbl.
