FIRST TRIP OF BASEBALL TEAM.

One Victory And Four Defeats.

Last Saturday noon the baseball team returned from an eight day trip to Massachusetts, Rhode Island, and Vermont, with a record of one victory and four defeats.

The first game with Dean was won by the home team, 8 to 4, by heavy hitting and New Hampshire's errors. Rhode Island was handily defeated 4 to 0. Sanborn's pitching was steady and his support by the rest of the team was phenomenal.

Vermont was easily a winner 18 to 2, batting Sanborn, Adams, Paulson, and McPheters at will and taking advantage of New Hampshire's multitudinous misplays. Hard luck and poor base-running lost the game with Middlebury by the score 6 to 5, while Norwich scored twice, on a wild throw by Gale and an error of judgment by Sanborn.

Dean Game.

Dean hit Paulson hard in the first two innings obtaining a lead of five runs which could not be overcome. Adams, who replaced him, held the game under control for the rest of the time, allowing only two scores which came on misplays by Swasey and Hill. Three of New Hampshire's runs came when O'Connor and Swasey hit safely and Jones doubled on a hit and run play after Brackett had singled. The other score resulted from a hit by Jones and errors by Dean. Hill was spiked in the leg in the fifth and was forced to retire from the game.

Rhode Island Game.

New Hampshire easily trimmed Rhode Island 4 to 0, by hard hitting and phenomenal fielding. The first score was made by Jones by a base on balls, and a smash by Reardon which was too hard to field. In the seventh inning, Myers walked Gale, Sanborn doubled, and Brackett and McPheters hit safely, scoring three runs. Reardon in left field made three good catches, while Brackett and Jones made sensational assists. Sanborn's hitting featured the game.

The Vermont Game.

Vermont completely routed New Hampshire, hitting four pitchers at will, and taking advantages of the latter's errors. The game was farcial throughout, and was called after four and a half innings.

Middlebury Game.

Adams twirled the Middlebury game and for the most part, was given good support, but poor back stopping and hits at the wrong time, left the home college the winner, 6 to 5. With two men out in the ninth and the score 6 to 4, McPheters, Swasey and O'Connor singled, but Jones failed to connect when a hit was needed in a pinch. The score by innings.

Middlebury 1 0 0 4 0 0 0 1—6
New Hampshire 0 0 0 2 0 2 0 1—5
Hits—Middlebury, 10; New Hampshire, 6. Errors—Middlebury, 5; New

Hampshire, 4. Batteries—Middlebury, Gilson and Williams; New Hampshire, Adams, Hill and Gale.

The Norwich Game.

A close game, with Sanborn for New Hampshire and Way for Norwich, in the box, resulted in a 2 to 0 score in favor of the latter team. The first score came when Gale threw over Jones' head, and the second when Sanborn intercepted Kiley's throw to the plate. In the last inning New Hampshire made a strong bid for a score, when Brackett and McPheters singled. The latter, however, was put out between first and second. In the field Brackett accepted nine chances without an error. The summary:

Norwich 0 0 1 0 1 0 0 0 —2
New Hampshire 0 0 0 0 0 0 0 0 —0

Two base hit—Burwell. Sacrifice hit—Burwell. Stolen base—Burwell. First base on balls—Off Sanborn 2. Struck out—By Way, 7; by Sanborn, 4. Umpire—Wilder. Attendance—300.

ALUMNI SMOKER.

Held in-Boston, April 16.

The annual Alumni Smoker was held at Young's Hotel in Boston, April 16. Approximately ninety men attended. Pres. W. D. Gibbs was unable to attend on account of the arrival of a daughter in the family.

The smoker was one of the most successful that has thus far been held and New Hampshire spirit was very prominent. The college orchestra consisting of Catlin, Broginni, Dresser, and Sanborn gave a well arranged selection of pieces. The repertoire of college songs were sung with enthusiasm, and the cheering was led by R. Beach '13.

A number of the engineering students who were in Boston that evening on their inspections trips, attended.

Prof. C. E. Hewitt '93, president of the alumni association, was the toastmaster of the evening's ceremonies. He also delivered an address on "The Work of New Hampshire College and Alumni." He was followed by Dr. Frank A. Davis '86, on the subject, "Work of the Visiting Committee." Moses B. Mann addressed the assemblage on "The Future Work of the Alumni Association." Prof. F. E. Cardullo spoke on "The Manual Arts Course in New Hampshire College," and J. C. Kendall '02, on "Extension Work."

Other speakers included G. A. Perley '08, A. M. Johnson '06, A. N. Batchelder, '09, J. A. Ford '98, and S. DeMeritt '12, manager of the track team.

A flash light picture was taken of the scene in the banquet room.

NEW NURSERY STARTED.

A new nursery, under direction of the forestry department, has been started on the land recently purchased from Charles Hoitt. Five thousand seedlings have been planted, consisting of White Pine, European Larch, Douglas Fir, and Norway Spruce.

From April 17 to 21 a deputation team was in Newport, N. H., working in conjunction with Wayne C. Jordan and L. W. Dunn. The following men were on the trip: J. A. Manter, H. H. Lindquist, O. E. Huse, H. R. Tucker, R. A. Knight, P. A. Foster.

TWO YEAR GRADUATION.

The commencement exercises of the two year course took place Wednesday, April 17, in Thompson Hall. The class numbering twenty-two, was the largest that has ever been graduated from the course.

The exercises consisted of a paper "The Man Who Hath Hands," by the class president, Wendell P. Davis; the class History, written by Fred H. Swasey and Azel S. Hall; and the address by Dr. H. J. Wheeler, Director of the Rhode Island Experiment Station, who spoke upon "Opportunity and Duty of the Agricultural Student." The certificates of the course were presented by President W. D. Gibbs. Music, before and after the exercises, was furnished by the college orchestra. The following men were graduated:

C. E. Bell, Hollis; W. S. Blaisdell, East Rochester; A. M. Chickering, Pembroke; H. H. Clark, Kingston; W. P. Davis, Durham; A. D. Eastman, South Weare; H. D. Elkins, Hampton Falls; K. S. Field, Ferrisburg, Vt; E. R. Gray, Durham; A. S. Hall, Durham; C. D. Henderson, Somerville, Mass; L. F. Huntoon, Danbury; K. P. Mitchell Epping; F. C. Ober, Ashland; R. B. Piper Durham; B. W. Sherburne, Pelham; L. B. Smith, Ashland; P. E. Steele, Hillsborough; F. H. Swasey, South Berwick, Me; R. R. Thomas, Lancaster; H. G. Trow, Plymouth; F. G. F. Wear, Gilmanton; M. H. Webster, West Canaan; I. H. White, Manchester; P. B. Wood, Dover.

HANDICAP MEET.

A handicap meet will be held on the oval next Saturday afternoon, in order to discover new material. Gold, silver, and bronze medals will be awarded to the first, second and third highest point winners in the meet. The following events will be on the afternoon's program; 100, 220 yard dashes; 440, 880, mile and 2 mile runs; 120 high and 220 low hurdles; high and broad jump, pole vault, and shot put. Dr. P. L. Reynolds, the track team coach, will referee the meet. The handicaps will be allotted by a committee. Entries should be handed at once to Dr. Reynolds, or to track team manager, S. DeMeritt, '12

CHEMICAL ENGINEERING TRIP.

During vacation, the junior and senior chemical engineering students, under the charge of Profs. James and Perley, visited the General Electric Co., at Lynn, the Merrimack Chemical Co., at So. Wilmington; The New England Gas and Coke Co. of Everett, Mass.; the Lever Bros.' Soap Works of Cambridge, the P. B. Brewing Co., of Cambridge, the United Steel Co., The Norton Emery Wheel Co., of Worcester, Mass. The following went on the trip; Prof. C. James, Prof. G. E. Perley, H. Holden, P. E. Gowen, A. Leighton, R. H. Tucker, J. E. Robinson, D. B. Keyes, J. C. Morgan, H. A. Robinson, T. J. Twomey and G. F. Lane.

C. A. MEETING.

At the Christian Association meeting last Sunday Mr. A. J. Rudman of North Adams, Mass., spoke on "Influence as a Character Builder."

Fourteen nursery beds with about 20 kinds of seed are about to be made.

SOPHOMORE BANQUET

By the boldest strategy which has been attempted by a class for several years, last Monday morning the sophomores completely outwitted the freshmen and succeeded in leaving town for the annual banquet which was held in the American House in Boston. At twenty minutes of ten in the forenoon, the bell in Thompson Hall pealed forth the fire alarm, and the sophomores, escorted by nearly the entire student body ran to Madbury to heroically extinguish a faked fire. Thence, with the freshmen eluded, the sophomores calmly walked to Dover and took the train for Boston.

GLEE CLUB.

The first trip of the federated glee club and orchestra was an unqualified success. In both cities in which they played—Concord Thursday night, and Manchester Friday night—the audience received the program with favor. The numbers meeting with particular commendation were Murdoch's Irish dialect anomaly and Holden's "Kid from de Bowery" as humorous selections, with Sanborn's "Neptune," Catlin's violin solo and the quartette as deeper offerings. The work of the orchestra and of the glee club was good in Concord but the very small audience could hardly bring out the best in the fellows; however, this was not true in Manchester where a large and congenial assemblage greeted the clubs. The rendering of the entire program would have been difficult to surpass under the stimulus of this. The dance that followed the program in this latter city was keenly enjoyed: the orchestra never gave better music.

Men on the trip: orchestra—H. B. Catlin, leader; C. J. Dresser, M. G. Broginni, W. S. Bartlett, S. B. Emerson, G. W. Towle, W. G. Wyatt, R. E. Lovell, R. M. Sanborn; glee club—H. B. Catlin, leader, C. J. Dresser, accompanist, R. A. Knight, J. M. Bodwell, R. E. Lovell, J. H. Annis, H. Lindquist, C. A. Reed, H. E. Hayden, A. L. Murdoch, H. C. Holden, A. G. Wood, H. R. Tucker, J. A. Manter, L. S. Drew, J. E. Roberson, A. J. Grant, R. M. Sanborn.

Particular credit should be given to the work of Mr. W. M. Dalglish whose services as director have made possible such success for the club.

GAME CANCELLED.

The game scheduled at home Saturday with the Harvard Graduate nine was cancelled by the latter team's manager.

BASEBALL TRIP.

Team Plays Fort McKinley, Bates and Maine This Week.

The base ball team will leave Durham Thursday morning on an extended four day trip in Maine. Thursday afternoon, it is scheduled to play Fort McKinley at Portland. Friday afternoon, the nine will cross bats with Bates at Lewiston; and Saturday, it will meet the strong University of Maine team at Orono. Twelve or thirteen men, besides the manager and coach, will be taken on the trip. The squad will return to Durham on Sunday. The squad will return to Durham on Sunday.

"Entered as second-class matter September 20, 1911, at the post office at Durham, N. H., under the act of March 3, 1879."

DURHAM, N. H., APRIL 17, 1912.

The concerts given last week by the Glee Club and Orchestra in Concord and in Manchester mark for the college another step in advance. It was the first such trip and was highly successful. Competent critics in both cities decreed that it was as good an entertainment of college music as they had ever heard; the people of Manchester were particularly kind in the manner in which they welcomed the clubs. The program was in fact well arranged, well varied and unusually well conducted. Credit for this is due to the genial and painstaking director, Mr. W. M. Dalglish who has worked vigorously to make the singing and action a success. The orchestra under the leadership of H. B. Catlin '12, once more scored a triumph that places it in no mean class among the concert and dance orchestras of New England.

Attention is called to the announcement in another column, concerning the handicap meet that is to be held next Saturday afternoon. It is hoped that many students will avail themselves of this opportunity, for a contestant of unknown ability with a liberal handicap is likely to prove a winner. Make the attempt and see what success you have. Such meets have in other colleges served to bring out many men of unknown quality.

The Interscholastic meet is one and one half weeks hence. It is time for everyone connected with the college to get the date, May 11, fixed in his mind. We shall need every bit of room that can be afforded, in order that these young fellows may be properly entertained. It is imperative that all fraternities, general boarding clubs and others who can keep open house at that time. This meet is not merely an athletic association affair, but is for the general good of the college, therefore it is no time for anyone to say he cannot; rather should he consider it a privilege to entertain some of these guests. Let us all "turn to" and give the best that is in us for this innovation in the athletic history of New Hampshire.

There is nothing any easier than to kick a man when he is down, there is nothing any easier than for a crowd

of students to kick at an athletic team that has been unsuccessful from the standpoint of victory in contests. The baseball team has been unfortunate in losing four of the five games thus far played and in having the sixth cancelled at the eleventh hour. So with this as a basis there has been the typical murmur "punk team," etc., floating around during the past few days. The chief issue in intercollegiate sport is not to win at any cost, but to do the best that one can—and the best team win. No student has any reason to believe that the men representing us have not been doing their best; they have been severely handicapped in several ways, by cold, by rain and by hard travelling. The coaching has been of the best, no one can gainsay that. With these things in mind the typical kicker will find that his ammunition has been spent and that he is playing the part of the poor sportsman—the one who can never take defeat gracefully. Forget those things. It is the duty of every student of New Hampshire to inspire the feeling in the men of the baseball team that the college is unanimously backing them separately and collectively. The season is yet in its early stages and there is every reason to believe that ere June comes, there will be a different result on the tally sheet. Get behind the team, support it to the best of your ability, and let that best be good.

BULLETIN.

Friday—7.30 p. m. Alpha Chi Sigma meeting at Conant Hall.

Tuesday—4:00 p. m. Lecture on "Rural Life" by A. E. Roberts of New York City in Prof. Groves' room. 7.45 meeting of old and new cabinets of the Christian Association in College Club. Tuesday evening in Library, readings from Browning by Prof. Whoriskey.

Feed Your Crops Available Potash

Insoluble plant foods are cheap in the beginning but may be dear in the end. We feel good when we hear that the soil contains enough Potash to raise 5000 crops, but we feel tired when we discover that it will take 1000 years or so to make it available. We will be converted into plant food ourselves long before that.

POTASH

The acids derived from green manure may make insoluble phosphate of lime more available. But the feldspathic Potash in the soil is less soluble in these acids than in the slightly alkaline waters of the best soils. A little soil Potash becomes available yearly, but not enough to provide for profitable crops. Crops have two periods of Potash hunger. One just after germination and the other when starch formation is most rapid—when the grain is filling. Rational fertilization requires ample available Potash at these periods and if you provide it you will find that Potash Pays. Send for our pamphlet on making fertilizers.

WHY YOU SHOULD INSURE IN THE MASSACHUSETTS MUTUAL LIFE INSURANCE COMPANY OF SPRINGFIELD, MASSACHUSETTS.

Because it's a purely MUTUAL COMPANY—and pays dividends ANNUALLY to its policyholders, (Not to stockholders, because we have none.) It's premium rates are low—it's dividends are very large, and its surrender values are extremely liberal—in fact it's "Peerless." Paid up values, cash surrender values, and extended insurance guaranteed after two years premiums have been paid. It's assets are of the highest class, and it's surplus is ample for all contingencies.

Write us, giving date of birth and kind of policy desired, and we will forward a Specimen Policy for your inspection.

DE LAVAL CREAM SEPARATOR

THEIR GREAT SIMPLICITY.

De Laval Cream Separators excel other separators not only in thoroughness of separation, sanitary cleanliness, ease of running and durability—but as well in their great simplicity.

There is nothing about the operation, cleaning, adjustment or repair of a modern De Laval Cream Separator which requires expert knowledge or special tools.

Nor are there any parts of which adjustment is frequently necessary to maintain good running or to conform to varying conditions in the every-day use of a cream separator.

There is no need to fit and adjust parts to get them together right. They are so made that they cannot help go together right. All bearings and bushings are easy to replace. There are no complicated springs, keys, ball bearings or other fittings, that only an expert can properly adjust.

A person who has never touched a separator before, can, if need be, unassemble a modern De Laval machine down to the last part within a few minutes and then reassemble it again as quickly. This is something which cannot be done outside a shop with any other separator.

The only way to properly understand and appreciate De Laval superiority to other separators, is to look over, and better still to try, a 1912 De Laval machine. Every De Laval agent is glad to afford prospective buyers the opportunity to see and try a De Laval Separator.

ELECTRICAL ENGINEERING TRIP.

The electrical engineering trip, taken during vacation proved to be very successful and instructive. Every man was greatly impressed with the hospitality shown by the old New Hampshire men, men, who were found in most every place, which was visited. Prof. C. E. Hewitt was in charge of the trip.

On Thursday afternoon, April 16, the E. E. men, accompanied by the chemical men, visited the General Electric Co. at Lynn, Mass., and inspected the lamp, the meter, and electric fan departments. Wednesday, the party inspected the General Electric Works at Pittsfield, Mass. Thursday, the men visited the General Electric Works at Schenectady, N. Y., and on Friday they were shown the private laboratory of Dr. C. P. Steinmetz, and American Locomotive works, all of Schenectady. In the afternoon, the party went to East Schaghticoke and Johnsville, N. Y., where the two hydro-electric developments which supply power to the General Electric Co. at Schenectady and neighboring mills were seen.

The following men took the trip: Prof. C. E. Hewitt, L. W. Hitchcock, J. B. Pettengill, E. B. Jennings, L. S. Drew, W. H. Quimby, S. DeMeritt, C. A. McLucas, R. C. Morgan, L. H. Bunker, G. A. Lang, R. Beach, W. E. Davis, and L. N. Barrett.

The old New Hampshire men, who were encountered were: Hoben '11, J. Twomey ex '13, Smalley '08, Payne '02, Priest '07, Fellows '09, Bennett '11, and Chase '09.

DEAN PETTEE ENTERTAINED.

Prof. C. H. Pettee was entertained by the New Hampshire Alumni in Urbana, Ill., at a luncheon held at the University club in Urbana on Monday, April 18. Dean Pettee stopped in Urbana on his trip to the West. The following New Hampshire Alumni were present. Prof. H. F. Moore, '98, Mrs. H. F. Moore '99, W. F. Lanelier, '09, Mrs. W. S. Abbott ex '08, O. A. Arozian, '11 and Prof. and Mrs. A. M. Buck formerly at New Hampshire.

An Aid To Do Better Work.

Accessories or supplies tending to promote the Dairy Industry are quickly appreciated by those interested. They may be either time savers, means of economy or aids to better work.

is just such an accessory. Its peculiar properties makes it such.

The cleansing ingredients of Wyandotte Dairyman's Vleaner and Cleanser do more than merely remove the common surface accumulations, it does the exceptional by removing the unseen bacteria which are the most dangerous enemies to pure clean milk. Furthermore, it adds the distinct, fresh odor of cleanliness wherever it is used.

No other dairy cleaning material approaches Wyandotte Dairyman's Cleaner and Cleanser either in quality of its cleaning or in the idealness of its composition. These facts are confirmed in the recommendations given Wyandotte Dairyman's Cleaner and Cleanser by men no less prominent than State Dairy Inspectors and Agricultural Authorities.

If you wish to spend less time cleaning your dairy and still do your work better, or if you want to keep milk in the freshest, cleanest condition just ask your dealer for a sack of Wyandotte Cleaner and Cleanser, or write your supply man for a keg or barrel.

Satisfaction is guaranteed.
