First Trip of Baseball Team.

One Victory and Four Defeats.

Last Saturday noon the baseball team returned from an eight-day trip to Massachusetts, Rhode Island, and Vermont, with a record of one victory and four defeats.

The first game with Dean was won by the home team, 9 to 4, by heavy hitting and New Hampshire's errors. Rhode Island was handily defeated 4 to 0. Sanborn's pitching was strong and his support by the rest of the team was phenomenal.

Vermont was easily a winner 18 to 2, batting Sanborn, Adams, Paulson, and McPheters at will and taking advantages of the latter's errors. The game was farcical throughout, and was called after four innings.

A close game, with Sanborn for New Hampshire and Way for Norwich, in the box, resulted in a 2 to 0 score in favor of the Vermont team. The first score came when Gale drove over Jones' head, and the second when Sanborn intercepted Kiley's throw to the plate. In the last inning a hit by Hall brought over Berwick, 2 to 1. The following day, New Hampshire's runs came when O'Connor and Swasey hit safely and Jones doubled on a hit and run play by Bracken and had singled. The other score resulted from a hit by Jones and errors by Dean. Hill was spiked in the leg in the fifth and was forced to retire from the game.

The Vermont Game.

Vermont completely routed New Hampshire, hitting four pitchers at will, and taking advantages of the latter's errors. The game was farcical throughout, and was called after four and a half innings.

Middlebury Game.

Adams twirled the Middlebury game and for the most part, was given good support by his good fielding and good hitting. The first score was made by Jones by a base on balls, and a smash by Roseland which was well hit. In the seventh inning, Myers walked Gal, Sanborn doubled, and Bracken and McPheters hit safely, scoring three runs. Roseland in left field made three good catches, while Bracken and Jones made sensational assists. Sanborn's hitting featured the game.

Alumni Smoker.

The annual Alumni Smoker was held on Young's Hotel in Boston, April 16. Approximately ninety men attended. Pres. W. D. Gibbs was unable to attend owing to the arrival of a daughter in the family.

Dean Game.

Dean hit Paulson hard in the first two innings obtaining a lead of five runs which could not be overcome. Adams, who replaced him, held the game under control for the rest of the time, allowing only two scores which came on misplays by Swasey and Hill. Three of New Hampshire's runs came when O'Connor and Swasey hit safely and Jones doubled on a hit and run play before Bracken and had singled. The other score resulted from a hit by Jones and errors by Dean. Hill was spiked in the leg in the fifth and was forced to retire from the game.

Rhode Island Game.

New Hampshire easily trimmed Rhode Island 4 to 0, by hard hitting and phenomenal fielding. The first score was made by Jones by a base on balls, and a smash by Roseland which was well hit. In the seventh inning, Myers walked Gal, Sanborn doubled, and Bracken and McPheters hit safely, scoring three runs. Roseland in left field made three good catches, while Bracken and Jones made sensational assists. Sanborn's hitting featured the game.

TWO YEAR GRADUATION.

The commencement exercises of the two year course took place Wednesday, April 17, in Thompson Hall. The college orchestra consisting of Catlin, Broggini, Dresser, and Sanborn gave a well arranged selection of pieces. The repertory of college songs were sung with enthusiasm, and the singing was led by R. "Reach" 37.

A handicap meet will be held on the campus next Saturday afternoon, in order to discover new material. Gold, silver, and bronze medals will be awarded to the first, second and third highest point winners in the meet. The following events will be on the afternoon's program: 100, 100, 200, 200, 880, 880, 1 mile runs; 130, 130, 130, 130, 200, 200 low hurdles; high and broad jump, pole vault, and shot put. Dr. P. L. Rey, assistant track team coach, will referee the meet. The handicap will be allowed to the highest point winners. The numbers meeting with particular commendation were Murdoch's Irish dialect monologue and "Kid from de Bowery" as humorous selections, with Catlin's "Exit to the future." The work of the orchestra and the glee club was good in Concord but the very small audience could hardly bring out the best in the fellows; however, this was not true in Manchester where a largely and congenial assemblage greeted the club.

The rendezvous of the entire program would have been difficult to surpass under the stimulus of this. The second night was a gala event. The program of the all dances of the alumni association, was the toastmaster of the evening's ceremonies. He also delivered an address on "The Work of Alfred W. Bates at Lewiston; and Saturday, it will meet the strong University of Maine team at Orono. Twelve or thirteen men, besides the manager and coach, will be taken on the trip. The squad will return to Durham on Sunday.

SOPHOMORE BANQUET.

By the boldest strategy which had been attempted by a class for almost two years, last Monday morning the sophomore completely outwitted the freshmen and succeeded in leaving town for the annual banquet which was held in the American House in Boston. At twenty minutes of ten the bell in Thompson Hall pealed forth the fire alarm, and the sophomores, completely deceived the entire student body to run to Madison Avenue and there magnificently extinguish a faked fire. Then, with the fire alarm renewed, the sophomore calmly walked to Dover and took the train for Boston.

Glee Club.

The first trip of the federated glee club and orchestra was a unparalleled success. In both cities in which they played—Concord Thursday night, and Manchester Friday night—the audience received the program with favor. The numbers meeting with particular commendation were Murdoch's Irish dialect monologue and "Kid from de Bowery" as humorous selections, with Catlin's "Exit to the future." The work of the orchestra and the glee club was good in Concord but the very small audience could hardly bring out the best in the fellows; however, this was not true in Manchester where a largely and congenial assemblage greeted the club.

The rendezvous of the entire program would have been difficult to surpass under the stimulus of this. The second night was a gala event. The program of the all dances of the alumni association, was the toastmaster of the evening's ceremonies. He also delivered an address on "The Work of Alfred W. Bates at Lewiston; and Saturday, it will meet the strong University of Maine team at Orono. Twelve or thirteen men, besides the manager and coach, will be taken on the trip. The squad will return to Durham on Sunday.

The base ball team will leave Durham Thursday morning on an extended four day trip in Maine. Thursday afternoon, it is scheduled to play Fort McKinley at Portland. Friday afternoon, the nine will cross bats with Bates at Oxford and Saturday, it will meet the strong University of Maine team at Orono. Twelve or thirteen men, besides the manager and coach, will be taken on the trip. The squad will return to Durham on Sunday.
Feud Your Crops Available Potash

The artists derived from prime manure may make unavailable phosphates of lime now available. But the federalistic Potash in the soil is low while in these soils there is slight alkaline waters of the right soils. A little and Potash becomes available years, but not enough to provide for profitable crops, and the breakdown of potassium, when sketch formation is most rapid—when the coffee is foliar. Reasonable discrimination in these periods and if you provide it you shall find that Potash pays. Send for our pamphlet on making fertilizers.

You CAN HELP YOU

If you want employment and can afford to prepare for a paying position

If you are leaving College or High School with no other preparation for work than that given in purely academic advantages,

If you have to make your living and wish to be able to earn good pay with merchants and business men, bankers and financiers, railways and other great corporations,

EASTMAN CAN HELP YOU

A course in the widely known commercial school will give you a thorough training for business and qualify you to earn a HIGHER SALARY

than will ever be paid you until you are able to render the same efficiently.

A method of preparation based on more than half a century of practical experience acquired by training men from every state in the Union and made foreign countries. All commercial branches practically taught. Delightful, refreshing environment. No vacations. It will pay you to attend our

Summer Session.
Write for our prospectus—now while you are thinking about it. It will convince you that we can fit you for business and find business for you as more than 50,000 graduates testify. Address, CLEMENT C. GAINES, M. A., L. L.D.,

Box C. C., Poughkeepsie, N. Y.

Carpets

In furnishing a home nothing plays a more important part than the floor coverings. “A room well carpeted is half furnished,” is an old saying but a true one. No room, however, is well carpeted where quality is sacrificed. Timely buying has given us a splendid assortment for your choosing.

DE LAVAL 
CREAM SEPARATOR

THEIR GREAT SIMPLICITY.

De Laval Cream Separators excel other separators not only in thoroughness of separation, sanitary cleanliness, ease of running and durability—but as well in their great simplicity.

There is nothing about the operation, cleaning, adjustment or repair of a modern De Laval Separator which requires expert knowledge or special tools.

Nor are there any parts of which adjustment is frequently necessary to maintain good running or to conform to varying conditions in the every-day use of a cream separator.

There is no need to fit and adjust parts to get them together right. They are so made that they cannot help go together right. All bearings and bushings are easy to replace. There are no complicated springs, keys, ball bearings or other fittings, that only an expert can properly adjust.

A person who has never touched a separator before, can, if need be, unassemble a modern De Laval machine down to the last part within a few minutes and then reassemble it again as quickly. This is something which cannot be done outside a shop with any other separator.

The only way to properly understand and appreciate De Laval superiority to other separators, is to look over, and better yet, to try, a 1912 De Laval machine. Every De Laval agent is glad to afford prospective buyers the opportunity to see and try a De Laval Separator.

ELECTRICAL ENGINEERING TRIP.

The electrical engineering trip, taken during vacation proved to be very successful and instructive. Every man was greatly impressed with the hospitality shown by the old New Hampshire men, men who were found in most every place, which was visited. Prof. C. E. Hewitt was in charge of the trip.

On Thursday afternoon, April 16, the E. E. men, accompanied by the chemical men, visited the General Electric Co. at Lynn, Mass., and inspected the lamp, motor, and electric fan departments. Wednesday, the party inspected the General Electric Works at Pittsfield, Mass. Thursday, the men visited the General Electric Works at Schenectady, N. Y., and on Friday they were shown the private laboratory of Dr. C. P. Steinmetz, and American Locomotive works, all of Schenectady. In the afternoon, the party went to East Schenectady and Johnsville, N. Y., where the two hydroelectric developments which supply power to the General Electric Co. at Schenectady and neighboring mills, were shown.

The old New Hampshire men, who were encountered were: Hoben '11, J. Twomney ex '13, Small '09, Payne '92, Priest '05, Follaw '90, Bennewt '11, and Chase '09.

DEAN PETTEE ENTERTAINED.

Prof. C. H. Pettee was entertained by the New Hampshire Alumni, in rooms, III, at a luncheon held at the University club in Urbana on Monday, April 18. Dean Pettee stopped in Urbana on his trip to the West. The following New Hampshire Alumni were present: Prof. H. F. Moore '98, Mrs. H. F. Moore '99, W. F. Lelande, '09, Mrs. W. S. Abbott ex '96, O. A. Armstrong ex '11 and Prof. and Mrs. A. M. Buck formerly at New Hampshire.

JAMES W. WILSON,

An Aid To Do Better Work.

Accessories or supplies tending to promote the Dairy Industry are quickly appreciated by those interested. They may be either time savers, means of economy or aids to better work.

Wyandotte Cleaners and Binders
is just such an accessory. Its peculiar properties makes it such.

The cleansing ingredients of Wyandotte Dairyman's Cleaner and Cleanser do more than merely remove the common surface accumulations, it does the exceptional by removing the unseen bacteria which are the most dangerous enemies to pure clean milk. Furthermore, it adds the distinct, fresh odor of cleanliness wherever it is used.

No other dairy cleaning material approaches Wyandotte Dairyman's Cleaner and Cleanser either in quality of its cleansing or in the idealness of its composition. These facts are confirmed in the recommendations given Wyandotte Dairyman's Cleaner and Cleanser by men no less prominent than State Dairy Inspectors and Agricultural Authorities.

If you wish to spend less time cleaning your dairy and still do your work better, or if you want to keep milk in the freshness, cleanest condition just ask your dealer for a sack of Wyandotte Cleaner and Cleanser, or write your supply man for a keg or barrel. Satisfaction is guaranteed.
