in New England; until the last event contested interscholastic meets ever held for a track and field meet. The air was excellent illustrations of the art of debate and the track, which still soft in places, was warm, the wind was almost nil, well as nimble powers of oratory. All seemed to be very popular, especially so we feel unusually well pleased that itself what the fight must have been.

However, the result reached by them was a huge surprise to all—including ourselves. This team was as is so often the case. With so many of the greater Boston schools competing, it seemed there were no outside chances. Those were the first such events for us, and at the same time enjoy to their best. WHY SHOULD YOU INSURE IN THE MASSACHUSETTS MUTUAL LIFE INSURANCE COMPANY OF SPRINGFIELD, MASSACHUSETTS.

Because it's purely MUTUAL COMPANY— and pays dividends ANNUALLY to its policyholders. (Old to stockholders, because we are not one.) Its premiums paid are low—dividends are very large, and its surrender values are extraordinary.—In fact, it's one of the fairest deals ever made in this business. And it has extended insurance guaranteed after two years premiums and one third of the first.

It's assets are of the highest class, and it's surplus is ample for all emergencies, of birth and kind of policy desired, and we will forward a Specimen Policy for your inspection.

DE LAVAL CREAM SEPARATORS

Are In a Class By Themselves.

They cost but a little more than the cheapest, while they save twice as much and last five times as long as other separators.

They save their cost every six months over gravity setting systems and every year over other separators, while they may be bought for cash or on such liberal terms that they will actually pay for themselves.

Every assertion thus briefly made is subject to demonstration proof to your own satisfaction by the nearest DE LAVAL local agent, or by your writing to the Company direct.

Why then, in the name of simple common sense, shoud anyone who has use for a Cream Separator? shoud any one who has use for a Cream Separator?

This Is Not An Imitation of a Custom Made Suit

It is something that no custom tailor is equipped to give you, namely, a garment of True Anatomical Proportions, and you get fitted without the usual fussing, fuming, fretting finicking and folderol incidental to a made to order garment, to say nothing of the immense difference in cost.
