NEW HAMPSHIRE 0 NORWICH 0.

Norwich Has the Better Team.

The first football game of the season against the Norwich eleven last Saturday resulted in a scoreless tie, 0 to 0. Norwich had the heavier and the more experienced team and New Hampshire was fortunate to escape a defeat. On three different occasions, Norwich carried the ball to within New Hampshire's ten yard line. Twice it lost it on downs, and once, due to the fact that the half ended.

The showing against Norwich was good, considering New Hampshire had a number of green men in the lineup. Gale '13 at end, Thompson '15 at right tackle, Corriveau '15 at right guard, Holton '16 at center, and Bissell 2 yr. '14 at left half back played their first varsity game. The old men of last year's team were Capt. Jones '13 at left halfback, Brackett '14 at quarterback, Haines '15, at full back, Foster '13 at right end, Jonness '13 at left tackle, and Williard '13 at left guard. The team is the lightest it has been for a number of years. It is, however, fast.

Of the new men, Holton at center was star on the defense, and Bissell slipped round the end once for a gain of 20 yards. Jones and Brackett of the old players made several spectacular gains and tackles.

Perhaps the greenness of the line was responsible for Norwich's repeated gains. Twice during the game the line, however staved off defeat by holding for downs. Almost at the close of the game, it strengthened, after being pounded for gains the entire length of the field, and held for downs on the one foot line. The escape was narrow, for Norwich had only a foot to go for the fourth down. Had the Vermont team made the required distance, it would have had the ball with a foot of New Hampshire's goal line on the first down.

The Game.

Norwich won the toss and kicked off to New Hampshire, Jones receiving and carrying the ball to the 35 yard line. A forward pass was unsuccessful and after two ineffectual attempts to gain, Jones punted, Norwich receiving the ball on New Hampshire's 40 yard line. That team, then, began a march to New Hampshire's goal line. It succeeded in carrying the ball to the eight yard line, where the pigskin went to New Hampshire on downs. Haines now gained two yards at tackle, Bissell, 20 yards at end, Brackett five more at end, and then a penalty of 35 yards for slugging, which caused the removal of Belyea, the Norwich end for the game, placed the ball in New Hampshire's possession on Norwich's 35 yard line. New Hampshire, here, lost the ball on downs. The first period ended a minute later.

Second Period.

At the beginning of the second period Norwich had the ball on its own 35 yard line. An exchange of punts followed,

the position of the ball remaining unchanged. Norwich subsequently began another rush toward New Hampshire goal line. With a series of line plunges, the Vermonters carried the ball to within five yards of the line, where the ending of the half prevented what seemed like a touchdown.

Second Half.

New Hampshire kicked off to Norwich, which carried the ball on three plays to New Hampshire's 40 yard line, where it was given to New Hampshire on downs. Jones punted and recovered the punt ball on Norwich's 40 yard line. Since neither Bissell, Jones or Haines could gain, Jones again punted, the ball going out of bounds on Norwich's 2 two yard line. Norwich plugged a distance of ten yards through the line, before the period ended.

Fourth Period.

In the fourth period, Norwich again rushed New Hampshire off its feet. Underhill, Murray and Brewster gained repeatedly. Their rushes through the line and one forward pass, netting 20 yards, placed the ball within a foot of New Hampshire's line. Here, it was lost on downs. Jones punted to the 20 yard line, and Norwich failed to kick a goal from placement. Brackett recovered the ball on the 15 yard line. The same player then skirted the end for 15 yards, Bissell lost three, Jones gained four, and a penalty of 15 yards for holding set the game back. Jones punted and Norwich recovered the ball in the middle of the field. The half ended with the ball in Norwich's possession on the next play.

The summary:

NEW HAMPSHIRE	NORWICH
Gale, l.e. r.e.	Belyea, Rich, Sleeper
Jenness, lt. r.t.	Alvord
Willard, Dodgd, Reardon, lg. r.g.	Marsh
Holton, c. c.	Burch
Corriveau, r.g. lg.	Cheney
Thompson, r.t. lt.	Kimball

Brackett, q.b. q.b.	Murray
Bissell, l.h.b. r.h.b.	Burwell
Jones, l.h.b. r.h.b.	Brewster
Haines, f.b. f.b.	Underhill

Score—New Hampshire 0, Norwich 0. Referee—Stevenson of Exeter. Umpire—Jones of New Hampshire. Head linesman—Holden of New Hampshire. Time—seven and eight minute periods

ATHLETIC ASSOCIATION MEETING.

At the close of the mass-meeting Sept. 18th., a short meeting of the Athletic Association was held. James Tufts Jr., '14 was elected secretary of the association, and Prof. Fred Rasmussen was chosen as faculty member of the executive committee to succeed Prof. David.

AN ASSISTANT COACH.

Prof. J. M. Jones, the new head of the Animal Husbandry department, is now acting as an assistant coach of the football team. Prof. Jones made his letters in football at the University of Wyoming, where he played end and center on the football teams of 1906, 1907, 1909 and 1910.

FIRST INJURY.

Woodman, first year two year man, and Center at Exeter last year, had his shoulder dislocated in the first scrimmage held last week, and doctors say it will be at least a week before he can be out with the squad again. This is the first injury of the season.

NEW MEMBERS OF FACULTY.

Several New Instructors Added.

New Hampshire College, opened Wednesday Sept. 11, with several new members on its teaching staff. The new head of the English Dept. is Dr. A. E. Richards, formerly of the University of Washington. Dr. Richards is a graduate of Yale, '98, receiving the degree of Master of Arts from that institution in 1900. He then went to Winsted, Conn. as teacher of English literature and history but after one year continued his studies at the University of Munich, where he received a degree of Doctor of Philosophy in 1904. The following year Dr. Richards was connected with the English Department of Lehigh University but left to take a similar position at Princeton where he remained six years. His next field of work was in the Washington State University from which place he comes to New Hampshire as head of the department of English.

Dr. O. Butler comes from the University of Wisconsin to take the position of Prof. of botany in New Hampshire College. Dr. Butler graduated from the Ecole Cantonale, Lausanne, Switzerland in 1895. In 1905 he graduated from the University of California, and one year later was given the degree of Master of Science and was made assistant in Viticulture in Pathological Laboratory at Whittier, Cal., Cornell University granted him the degree of Doctor of Philosophy in 1910 and since that time he has been research instructor in horticulture at the University of Wisconsin. Dr. Butler is the author of a large number of publications relating to disease of grapes, plums and citrus fruits.

Dr. Joseph H. Gourley who has accepted the position as head of the Department of Horticulture is a graduate of the Ohio State University. After leaving college he served as assistant horticulturist at the Ohio State Experiment Station at Webster, Ohio, having charge of the experimental work. Dr. Gourley then returned to the State University to teach horticulture and to take charge of the horticultural extension work, which has probably been more widely developed in Ohio than any other state. He has been identified with various orchard projects in Ohio and the Northwest and has served as foreman of market garden and greenhouse concerns before entering college work.

Associate Professor of Animal Husbandry, J. M. Jones, graduated from the University of Wyoming in 1911 with the degree B. S. Agr. The following year he received a research fellowship in the University of Missouri from which institution he received the degree of Master of Arts last June. Mr. Jones was raised in Wyoming and spent the early years of his life on a ranch in that state. He has studied under the well-known shepherd of the Wyoming State College, James McLay.

The new instructor in woodworking is Mr. J. H. Philpbrick, recently gradu-

Continued on page 3.

MASS MEETING

A mass-meeting of the student body was held immediately after chapel, Wednesday, Sept. 18th. Pres. P. C. Gale of the senior class and Pres. W. H. L. Brackett of the junior class gave short talks on the best ways for the freshmen to conduct themselves. Manager G. F. Lane of the football team was next called upon to explain the football situation, and in his discourse, he brought out the importance and absolute necessity of the right spirit among the students at large. Cheer leader R. Beach was the next man on the program. Beach also insisted that we maintain a strong, loyal spirit both towards the team and the college, and reminded the students what would follow if it was not maintained. Coach Tod Eberle was then greeted with an enthusiastic applause; and, in fitting words, he appealed to the students to stand by the team and the college through darkness and sunshine. The meeting was brought to a close by cheers for the coach, the team, and New Hampshire.

SENIOR CLASS OFFICERS.

At a meeting of the senior class, held this last week, the following officers were elected for the college year of 1912-13: President, P. C. Gale; vice-president, Robin Beach; secretary, Miss Vivian Hamel; treasurer, John E. Ladd.

AN HONOR FOR NEW HAMPSHIRE.

Beta Kapp chapter of Kappa Sigma was awarded a handsome silver cup for the highest scholastic standing for the past college year among the chapters of the first district, which are located at Dartmouth, Brown, Harvard, Maine, Vermont, Bowdoin, and Massachusetts Aggies.

MILITARY APPOINTMENTS.

In order to fill vacancies in the cadet battalion caused by failure of men appointed last June to take drill this year, Lieut. C. Hunt, the Commandant, has made the following appointments: 1st. Lieut. and Adjutant, T. J. Twomey, to be Captain of Co. B.; D. H. Andrew '13, to be 1st. Lieut. and Adjutant; S. Sanborn '13 to be 2nd. Lieut. and Quartermaster.

2nd TEAM VS TILTON.

It has been found impossible to arrange a battleship game for next Saturday as the ships are to leave soon and cannot obtain a sufficient shore leave. Mgr. Lane has arranged a second team game against Tilton Seminary, which will give an excellent opportunity to work out a large number of the squad.

Manager G. F. Lane is arranging games for the 2nd team to be played on the dates when the varsity is not scheduled.

TO THE ALUMNI.

About the middle of August, bills were sent to about 150 of the Alumni who have not paid last year's subscription. As yet, the business manager has not received returns from a very large number. Will you please make it a point to see that this bill is given immediate attention! We wish to close last year's account as soon as possible.

FACULTY RESIGNATIONS.

Among the resignations tendered by several members of last year's faculty, those of Professor A. F. Nesbit of the Physics Department and of Professor E. J. David of the English Department have been regarded with deep regret. Professor Nesbit, a profound scholar and a man with a sincerely altruistic purpose, will always be remembered as a true friend of every student. Professor David, an enthusiastic supporter of every undergraduate activity, ever strove to deepen our college spirit and to increase our love for old New Hampshire. May both men feel, as they enter new fields of activity, that the student body is better for having come in contact with them.

THE FIRST GAME.

The first game of the football season, similar to the corresponding one of a year ago, has resulted in a tie score. The almost universal concession that the new rules favor a heavy team and the line-bucking game has been at least temporarily exploded. New Hampshire outweighed several pounds per man, fought Norwich to a standstill. It should not be overlooked, however, that fortune favored the lighter team. Twice did the heavy backfield from Vermont plough a steady course down the field only to be halted on the verge of a touch down by the New Hampshire line.

To chance may also be attributed the failure of a Norwich man to signal for a fair catch when a poor kick by Jones afforded an opportunity for a goal from the field. This element of chance gives to the "Bromide" validity in the expected "surmise," its all in the game.

Discouraging as may have been the result of the contest, distinctively encouraging are certain aspects of the game. The work of the new men upon the team must be highly commended. Especially noticeable was the aggressive playing of Holton at center, whose defensive work was remarkable. The clean playing, fierce tackling, and agility in following the ball exhibited by the New Hamp. men gave promise of a successful season on the gridiron.

The 1st year, 2 year men wish to extend a vote of thanks to the 2d year, 2 year men for the interest shown in their class endeavors.

Geo. C. Bishop, Secretary.

A NEW OFFICE.

The New Hampshire has at last obtained an office in one of the college buildings. The new office is located in Morrill Hall on the second floor, facing the gymnasium. It was formerly occupied by Mr. David Lumsden, instructor in floriculture and landscape gardening. The business manager will be in the office probably every day except Saturday from four to six o'clock.

GIRL'S COUNCIL.

The Girl's Council has elected the following officers for this year; president Harriet Locke '13; vice president, Regina O'Connor '13; secretary and treasurer, Frances Nudd '14. The members of the executive committee are Marion Gillespie '13, Winifred Hodgdon '13; Helen Plummer '15.

SOPHOMORES ELUDED BY FRESHMEN.

On Tuesday Sept. 24th, the Freshmen successfully outwitted the Sophomores and walked to Dover, where their class picture was taken. On being dismissed from Military Science Recitation, they escaped through the basement of the gymnasium, and by devious paths and byways, escaped, some to Newmarket, some to Madbury and some to Dover, where they all assembled and posed for their first picture.

The sophomores were gathered in front of Thompson Hall in preparation for a class meeting. On perceiving that the freshmen had disappeared, all thoughts of the meeting were dispelled, while they immediately gave chase to their rivals. The freshmen, however, had by this time escaped without much difficulty, save five or six stragglers, who were captured.

This is only another example of the enthusiastic spirit, which the members of the class of 1916 are displaying.

More Feed Per Acre

The cost of producing meat or milk would be much less if it required less acres to produce the feed. Both the quantity and quality of the feed improve when the right plant foods are used to supplement the manure and clover. They improve enough to yield a handsome profit on the expenditure. The right plant food includes enough

POTASH

in available form. Supplement the manure and phosphate with 50 to 100 pounds of Muriate of Potash, or 200 to 400 pounds of Kainit, per acre, and you will raise big corn and fine clover after the grain and at the same time improve the fertility of the soil. Try Potash salts alone on the swamp land pasture and note the clover and good grasses crowd out the wild hay. Write us for prices of Potash, one bag up.

DE LAVAL CREAM SEPARATORS

Cheapest As Well As Best

Every sensible person wants the **best** of everything, but in many things the best is beyond their means and they must necessarily be content with something less.

In the case of the Cream Separator, however, the **best** is fortunately the **cheapest** as well, and it is of the greatest importance that every buyer of a separator should know this.

Moreover, the **best** is of more importance in the case of the Cream Separator than in anything else, since it means a saving or a waste **twice a day every day in the year** for many years.

It is true that the DE LAVAL Separators cost a little more in first price than some inferior separators, but that counts for nothing against the fact that they **save their cost every year over any other separator**, while they last an average twenty years as compared with an average two years in the case of other separators.

And if first cost is a serious consideration a DE LAVAL machine may be bought on such liberal terms that it will actually **save and pay for itself**.

These are all-important facts which every buyer of a Cream Separator should understand and which every local DE LAVAL agent is glad to explain and demonstrate to the satisfaction of the intending buyer.

If you don't know the nearest DE LAVAL agent please simply address the nearest of our main offices as below.

ated from the Evening Polytechnic School of the Boston Y. M. C. A. Previous to this work he served as an apprentice at wood pattern making with foundry and drafting room experience and later as pattern maker with the McIntosh, Seymour Engine Co., of Auburn, N. Y., the United Shoe Machine Co., at Beverly, Mass., and the Lynn General Electric, Co.

The other assistant in the Dept. of Mechanical Engineering is Mr. G. H. Donham. Mr. Donham has for the past two years been giving instruction in advanced manual training work in the Manchester Manual Training school. Previous to this time he was engaged in practical shop work and spent two years as a special student in the Mass. Inst. of Technology. He has had several years training as tool maker and designer.

Mr. W. P. Wilson the assistant in dairying is a graduate of Cornell University, receiving the degree of Bachelor of Science in June, 1912. During the past summer he has been engaged in the creamery and bacteriology department of Cornell.

The department of zoology has as its new assistant Mr. C. H. Hadley who graduated from New Hampshire College with honors in June 1912. During the summer he has been engaged as an assistant to the State Entomologist. Lieutenant Hunt, brother of Capt. Hunt formerly stationed at N. H. C., has been appointed to succeed Lieutenant Edgerly. Lieutenant Hunt comes from Fort Leavenworth, Kansas, and belongs to the 7th U. S. Infantry. During the past summer he has been having a leave of absence.

Faculty Vacations.

During the past summer several of the faculty members spent their vacations abroad or in various parts of the U. S., while others for the most part, had their headquarters in Durham.

Prof. Richard Whoriskey spent the larger part of the summer traveling in Germany and Denmark with the German-American Teachers' Association.

Prof. Charles James was with relatives in England.

Prof. Fred Rasmussen visited his parents in Denmark.

Prof. Charles E. Hewitt remained in Durham during the summer.

Prof. O. L. Eckman spent a month in Ohio and the remainder of the time in Durham.

Prof. F. W. Taylor went out to Ohio in his auto at the close of the college year, and returned in the fall with his family. He travelled in all over twenty six hundred miles in his car.

Prof. F. C. Moore spent his vacation in Goffstown, N. H.

Prof. W. C. O'Kane was travelling about the state.

Prof. J. H. Foster was at work in Washington, D. C.

Prof. Frederiek W. Putnam spent his vacation at Biddeford Pool, Me.

Profs. F. E. Cardullo, E. R. Groves, C. W. Scott, C. H. Pettee, C. F. Jackson, B. E. Carry, Director J. C. Kendall, G. A. Perley, C. C. Steck and Lieutenant Edgerly had their headquarters in Durham and were here during the greater part of the summer.

Prof. W. H. Wolff was in Durham during the early part of the summer. He was married to Miss Charlotte M. Tower on Aug. 14th and spent the remainder of the time out of town.

Prof. David Lumsden spent the summer in town.

Always ready to write at the first stroke without shaking.

That is a vital point which is lacking in ordinary fountain pens. You can readily understand how this is made possible in a Moore when we explain that the pen when not in use lies submerged in ink which keeps it moist and prepared for instant writing, positively eliminating the necessity of shaking.

But that is not all of its strong features. The Moore can be carried in any position without the least fear of leaking. Has a large ink capacity. Always writes freely and evenly, and is easily filled.

Every Moore Non-Leakable Fountain Pen carries with it the most unconditional guarantee.
