New Hampshire Starts Game With a Rush

New Hampshire easily defeated the five representing M. I. T. last Saturday night by the score of 55-23. New Hampshire obtained an early lead and at no time was this threatened. The local team showed up strong on the offensive but their defensive playing was very poor and the visitors were able to pass all around them whenever they obtained the ball. Jones, Bissell, and Sanborn played a good game and Capt. Williams excelled for M. I. T.

New Hampshire started out with a rush at the beginning of the first period and soon piled up a comfortable lead. The visitors appeared lost on the large floor and it was several minutes before they got together. The period ended with N. H. leading 32-14.

During the second period many substitutes were put in for New Hampshire and M. I. T., with two new men in their lineup made a determined attempt to cut down the lead but were unsuccessful. By consistent team work N. H. was able to advance the ball for goal after goal and the period ended with the final score 55-23.

N. H. M. I. T. '14.
Bissell, Watson r. f. l. b. Bryant, Price
Jones, Lindquist l. f. r. b. Williams
Sanborn, Sellers, c. c. Fox, Rueff
C'ame, S. Sanborn r. b. Tirrell l. f.
Thompson, Hooper l. b. r. f. Comber

Summary:

N. H. C. C. A. MEETING.

One of the most helpful meetings of the year, thus far, was held in the church chapel Sunday, Jan. 5. Mr. Alton Roberts, Carroll County Secretary of Conway, N. H., addressed the students on, "A Faith that Calls for Service."

His talk was a straight "heart to heart" address, filled with helpful words and vivid illustrations. He showed the fellows why so many of our college men are going into social service work, and why it was that so many were willing to undergo sacrifices and hardships for the faith which they professed.

N. H. C. BRANCH A. I. E. E.

On Monday evening Jan. 6, Dr. Lowenstein, of the Turbine Department, General Electric Co., addressed the engineering students in Conant Hall. His subject was "Centrifugal Air Compressors," and those who attended were given a rare intellectual treat along those lines.

Prof. E. R. Groves has been invited to give a course in Rural Sociology at the summer session of the State College of Washington.

A FEW WORDS ABOUT THOMAS BROOKS FLETCHER,

Who lectures in Thompson hall on Saturday evening, Jan. 11, on the subject, "The Martyrdom of Fools."

He was Ohio born, well born, and college bred. He went out into the world at sixteen empty handed. Hard work has taught him to know what the man on the street thinks and feels. His life has become a protest against the iron heel. Perhaps his greatest power on the platform is speaking for those who cannot speak for themselves.

He has made a name for himself as an orator of the first grade.

PROF. F. C. MOORE ATTENDS MEETING.

Prof. F. C. Moore attended last month the annual meeting of the Association of Mathematical Teachers in New England, held at Boston.

TEN WEEK COURSE OPENS.

The eighteenth annual dairy course of New Hampshire College opened Thursday, Jan. 2 with four students. The names of the students are as follows: J. B. Yeaton of Hampton, A. J. Libby of Boston, Mass., F. W. Hawkes of Westbrook, Me., and C. E. White of Gilsum, N. H.

The course offers opportunities to receive instruction in some of the most practical lines of Animal Husbandry and Dairying. It will close this year on March 7.

PROF. APP RETURNS.

Prof. Frank App, Assistant in Agronomy, who was operated on for appendicitis shortly after Thanksgiving, returned to college last week and will resume his duties in a few days. His place has been filled, during his absence by Prof. F. W. Taylor.

HOP COMMITTEES.

Invitations and Orders.

Chairman, C. A. Reed, B. B. Fernald, Miss E. G. McKone, B. H. Clark, Miss M. F. Murphy, G. T. Studd.

Decorations.

Chairman J. S. Elliott, Miss C. E. Hoitt, A. L. Murdock, G. F. Cobleigh, R. A. Knight, R. H. Kinder, J. F. Hobbs, C. W. Davis, S. M. Fogg, Miss H. W. Plumer, H. L. Farnum, and A. E. Bartlett.

Music.

Chairman, M. J. Broggni, S. B. Emerson, E. J. Wyman, W. S. Bartlett, Miss A. J. Hoitt.

Floor.

Chairman P. E. Corriveau, L. L. Langley, R. C. Bowden, L. M. Crouch, C. E. Roberts, A. J. Grant, H. C. Hill, W. W. Swett, E. E. Watson, K. F. Rand, C. A. Sawyer, and R. E. Haines.

Refreshments.

Chairman P. S. Willand, J. F. Thompson, H. H. Lindquist, A. W. Gamash.

Executive Committee.

Chairman, R. E. Came, J. F. Thompson, Miss C. E. Hoitt, J. F. Hobbs, J. S. Elliott, A. W. Gamash, and C. A. Reed.

WHAT THE CONCORD EVENING MONITOR HAS TO SAY.

The State College.

The very favorable impression of President Fairchild, the new head of the State College, gained in a personal interview, is confirmed and increased by his first public utterance in New Hampshire, his address to the State Grange at Nashua.

Though he has been but a short time in New Hampshire he seems to have gained already a better idea of the agriculture, industrial and educational situation in this State and of our needs on these lines than is possessed by some in authority who have been lifelong residents.

In the first place he is right in his idea that the prime purpose in the foundation of the N. H. C. A. M. A. and in its subsequent support, both public and private, was and has been the benefit of our farms and their people. It was and is a college of agriculture and any attempts to minimize this feature of its programme have been, are and will be most unwise. It is evident that they will receive no aid from President Fairchild who sees a splendid future for our farms and intends that the college of which he is the head shall contribute much to the full development of New Hampshire's agricultural possibilities.

He is again right, however, in his belief that there is opportunity and need for progress and growth at Durham on those lines which would eventuate in the development there of a first class scientific school. It is to be hoped that the legislature of 1913, undisturbed by any "university" demands, with their accompanying specters of extravagance, will provide for an adequate engineering building at Durham. New Hampshire boys ought not to be obliged to go outside of New Hampshire for anything but post-graduate courses in those "mechanic arts" which are comprehended within the state college's official title.

Another great opportunity at Durham which President Fairchild sees at once more clearly than it ever has appeared to most of us in the useful education of the bright girls of New Hampshire. The trend of the times, following the necessities of the day, is all in that direction, and, as Doctor Fairchild says, New Hampshire must not lag behind.

Clear, comprehensive, progressive and sensible, President Fairchild's talk to the Grangers must have impressed them as it did us with the fact that a bright future is dawning at Durham.

NEW BULLETIN BOARDS.

Two new bulletin boards have been installed in Thompson Hall just beyond the old one. The new boards consist of a wooden case with glass doors. One of them is to be used by the Athletic Association, while the other will be devoted to the Publicity Committee.

Professors W. C. O'Kane, J. H. Gourley, O. R. Butler and Mr. C. H. Hadley Jr., attended the convention, "For the Advancement of Science," held in Columbus, O., during the Christmas recess.

PRESIDENT SPEAKS AT PORTS- MOUTH.

At a convention and banquet of the business and professional men of Rockingham County, held at Portsmouth last Monday, President Fairchild delivered an address on "The Rural School." The conference was assembled for the purpose of considering the organization of a County Young Men's Christian Association and was largely attended by the pastors and the school and business men of the district.

In the forenoon Oscar E. Huse, who was graduated from New Hampshire in the class of 1912, and who has since last September devoted his entire time to a minute study of the economic and social conditions of Rockingham County, gave an extensive statistical report of the survey which he has made during the last four months. The marked success of the program of the day was entirely due to the work of Mr. Huse. P. A. Foster '13, P. C. Jones '13, and H. V. Bent '14 also attended the convention.

President Fairchild's address which was the principle one of the entire program, proved that he is an enthusiastic believer in the college extension work and that the hope of the rural school is in co-operation with the higher educational institutions. Beginning with a brief discussion of the rural schools of the Middle West, he outlined the possibilities of a more universal scientific education in agriculture and concluded with a statement of the opportunities which are before New Hampshire College along the lines of rural community betterment.

MEMBERS OF FACULTY ATTEND CONFERENCE.

During the Christmas recess, Professors C. H. Scott, E. R. Groves and G. C. Smith attended the meetings of various cultural associations, held in Boston and Cambridge, Mass. The American Historical, Economic, Political Science, and Statistical Associations. The American Sociological Society and the American Association for Labor Legislation held their conferences at the same time, so that members of one society could attend also some of the other meetings.

Prof. C. F. Scott, who is a member of the American Historical Association, attended chiefly the meetings of that association. Prof. E. R. Groves spent the greater part of his time at the convention of the American Sociological Society, while Prof. G. C. Smith attended the meetings of the American Economic Association.

ALUMNI NOTES.

C. L. Perkins, class of 1910 has just accepted a fellowship in the Industrial Research Laboratory, University of Pittsburg, Pittsburg, Pa.

Roscoe Lovell Ex. '12 has just located at 4738 Broad St., Pittsburg, Pa. He is teaching manual training in the Liberty School.

Lester A. Pratt, '09, Secretary of the N. H. Alumni Association, was a visitor in Durham during the Christmas vacation, and held an interview with Prof. C. E. Hewitt, President of the Association.

DURHAM, N. H., JAN. 8, 1912.

At last our request has been granted. The library now has the opportunity to assume its deserved place in the institution. No longer shall our craving for literature, unrequested, in hoping for the unattainable. The student shall still grow in wisdom and understanding, taught by the master teachers and inspired by those who have inspired men in all the ages. No longer shall the eager youth, inclined to historical investigations, be forced to cease his inquiries on account of the inaccessibility of Gibbons who could formerly, on pleasant evenings, enjoy only the society of Guizot. Even the freshmen are becoming indefatigable students of "The Decline and Fall of the Roman Empire" and radicals predict that some one, in a careless mood, may soon scan a page of Roosevelt's "Winning of the West." No longer shall the amusement halls of our community detract from the popularity of "Life" and perhaps we shall peruse the complimentary columns of the "Evening News" of our sister metropolis. Withal we shall express our appreciation of the newly acquired accessibility of poetry, prose, and the newspapers by more extensive usage.

Did you subscribe for the New Hampshire Song Book? If not, why not? The Girls' Council, assisted by the publicity committee of the faculty, is working heroically to make this new publication a success. Thus far these organizations have not received the support of the student body, and if this is not obtained the project will be a complete failure. Three hundred student subscriptions were solicited. What was the result? One hundred and forty men signified their willingness to help on this undertaking to produce a song book worthy of our college.

If you are one of the two hundred who have not affixed their "John Hancock" to the subscription paper on the bulletin board, you are missing an opportunity to make this invocation a success, and to extend New Hampshire's popularity to the realms of music.

On December 7th, the Pittsburg branch of the N. H. Alumni Association held a theater party. The following men were present: Chas. F. Cone '08; C. L. Woods '09; S. N. M. Wentworth '09; L. A. Pratt '09; C. L. Perkins '10; H. P. Corliss '10; Alfred Blake '10; Dalton Boynton '10; R. A. Neal '10 and Roscoe Lovell '12.

Mr. L. L. H. Bumper, '12, was a visitor in college during the holidays. Miss Bessie A. Scott, '11, was the guest of Prof. and Mrs. C. W. Scott during the Christmas vacation.

WHAT GOVERNOR BASS SAID.

In his last message to the legislature delivered in Concord last week, Gov. Bass had the following to say about the college:

At the close of the last session of the legislature I vetoed two educational bills. Not because I was out of sympathy with the purpose of these bills, but for the reason that the estimates submitted to me by the State Auditor showed such an excess of current expenses over the revenue of the state that I believed further outlay of the state's money for any purpose other than an absolute necessity was unwise.

The second appropriation bill vetoed by me provided for the construction of an engineering building for the State College at Durham. This building is sorely needed, and should be one of the earliest calls on the state this year for special appropriations.

Benjamin F. Proud, '11, who holds the position of Physical Instructor in the Hill School of Pennsylvania, visited the college last week.

Educational Trains

now bring the facts from the Experiment Station direct to the Farmer.

The Experiment Station men are anxious to discuss the questions of most value to the people along the routes. Ask them to bring along an exhibit of fertilizer materials and to tell you how to get the most plant-food for your money.

Recently one train gave demonstrations of actual fertilizer mixing. Soon many will do so. Take your fertilizer dealer to these trains. Ask him to sell Potash Salts and brands containing six to ten per cent. Potash.

We shall be glad to send you, free, pamphlets prepared by the best practical authorities on fertilizers for various crops and soils. Write today, mentioning crops and soils that you wish to improve.

DE LAVAL CREAM SEPARATORS

There's no good reason why you should wait till spring before getting one

On the contrary you may buy a DE LAVAL NOW and save half its cost by spring. Moreover, if you can't conveniently pay cash you can buy a DE LAVAL machine on such liberal terms that it will actually pay for itself.

As to your NEED of a separator, if you have the milk of even a single cow to cream you are wasting quantity and quality of product every day you go without one. This waste is usually greatest in cold weather and with cows old in lactation, and it counts most, of course, when butter prices are high. Then with a separator there is always the sweet warm skimmilk, and saving of time and labor, in addition.

When it comes to a choice of separators DE LAVAL superiority is now universally recognized. Those who "know" buy the DE LAVAL to begin with. Those who don't "know" replace their other separator with a DE LAVAL later—thousands of users do that every year. If you already have some other machine the sooner you exchange for a DE LAVAL the better.

Why not start 1913 right in dairying? SEE and TRY a DE LAVAL NOW when you have plenty of time to investigate thoroughly. The nearest DE LAVAL agent will be glad to set up a machine for you and give you a free trial of it.

TRUE ALUMNI SPIRIT.

(A Communication.)

In the complex life of the modern world the educated man, or woman, is becoming of more and more value to society; while in our own country the special problem of incoming of foreign millions, ignorant and untrained, adds much to the need of highly trained and efficient native American leaders to hold the nation true to the old ideals while working out the new problems that have come up. The education of engineers, including agriculturists, is one of the most important divisions of our educational work, and it is said that engineering or the scientific "method" of using natural forces for the betterment of man kind, will dominate the future. Hence a college preparing for the profession of leadership in engineering has a vital and increasing claim on society, or the state, and a broad, public spirited citizen will have warm sympathy for such an institution.

As alumni we must consider the college course to be one of the greatest helps in life that an individual willing to study can have, while only health, home, and Christian character can be thought greater. Some of the finest qualities of character are shown by a real interest in the institution that has graduated us. In following years there should be a joy in contemplating the better athletic teams, more complete equipment for teaching, more thorough courses of study, and greater influence for good of the developing college over the population it serves. But the alumnus should try to exert an influence for good in the world, to be of help to society, or the state. That would indicate a sympathetic heart, and men—it is said—do not draw up their chairs around ability or a chunk of ice but around a great heart. And what should appeal more to the graduate than the chance to make the college more usefull to those who, in future years, will come to it for a start in life? So it is natural that a true alumni spirit should impel us to take an active part in work so near the heart and of so much benefit to the state.

There are various ways in which interest may be shown. The presence of a large number of alumni at athletic contests is a great inspiration to the undergraduates and, when the events are within a reasonable distance, earnest effort should be made to attend. Occasional visits to the college are always extremely pleasant and should be of great value to the institution. A large number of alumni on the paid up subscription list cannot but give encouragement to the editors of the college publications. Sometimes we may, by a friendly word, secure an engagement for the glee club, for instance, or refer an inquirer to a department of the college for some service or information. It may be that an employer is looking for a technical man in a line for which the college prepares, and a word from us will put in the vacant place a graduate of the old school.

Sometimes there is a request from the alumni association for a sum of money to help a branch of college activity—that is the time to reach instantly into the pocketbook in as generous a way as we can. Money is the medium of exchange by which sympathy and effort are at once transferred from a distance to the point where the effort is needed. He gives twice who gives quickly, either of money or influence, and often earnest help given without delay brings immediate advantage to the institution. It is true that few of us individually have much influence, yet collectively we must have considerable. Those who have left the old State

may no longer have a direct influence where it is needed, but everyone has friends there who would speak the word if they were requested to by letter. All of us must be able to induce at least several persons of influence and standing to be more in favor of the college at critical times. Let us, then, whenever the opportunity comes show a warm, generous, and active interest in the welfare and progress of our Alma Mater.

Modern History.

Modern History of the dairy world reveals these facts.

Sanitation is a constant watchword to those who produce the highest quality products.

Correct dairy sanitation cannot be produced by soap compounds, strong caustic or corrosive chemicals, or inefficient cleaning agents.

The height of dairy cleaning perfection is attained only by Wyandotte Dairyman's Cleaner and Cleanser, the one cleaning agent now used by eighty per cent of the Buttermakers, and by thousands of Dairymen, Milk Dealers, Farmers.

makes modern dairy history really and truly modern. In composition and in cleaning results it is as superior to old fashioned cleaning agents as is modern machinery to those types found in ancient history. And like modern machinery it does more work and better cleaning in less time and with less effort than other dairy cleaning materials.

Furthermore, it costs you no more to use Wyandotte Dairyman's Cleaner and Cleanser than what you now use. It is decidedly to your profit to phone or ask your dealer for a sack or to write your supply man for a keg or barrel.

Why not do it today?
