5 CENTS

## BASKETBALL AND RELAY RACE.

### New Hampshire Lost Three Contests.

New Hampshire was not very successful in athletics last week. The basketball team lost to Wesleyan and Williams, while the relay team was trimmed by Rhode Island at the B. A. A. games in Boston, Saturday evening, by a scant five yards.

#### WESLEYAN GAME.

Wesleyan played New Hampshire at Middletown, Conn., Friday evening, and won, 55 to 22. New Hampshire was outplayed by a better team. For Wesleyan, Hayward starred; for New Hampshire, Jones and Thompson caged the majority of the baskets. The summary:

Wesleyan.	
Davidson (Allison) lf.	
Eaton (Trevithick) Stillman rf.	
Parkinson c.	
Hayward lg.	
Pettigru (Crane) rg.	
New Hampshire.	
rb. Came, ) Jennees	
lb. Thompson	
c. Sanborn	
rf. Bissell (Lindquist.)	
lf. Jones	

Score—Wesleyan 55, New Hampshire 22. Goals from the floor, Hayward 7, Davidson 4, Crane 4, Pettigru 3, Allison 3, Eato 2, Parkinson, Trevithick, Stillman, Jones 5, Thompson, 4, Linquist and Sanborn. Goals from fouls, Hayward 3. Referee Ahern of Middletown. Time 20 minute periods.

#### WILLIAMS GAME.

Saturday night, the basketball five lined up against Williams at Williams-town and finished on the small end of the score, 41 to 19. It was New Hampshire's first game with the down country team.

Freeman and Hodge had their eyes on the basket for Williams and tallied 13 baskets between them. Thompson and Sanborn netted the majority of points for the Blue and White.

The summary:

Williams	New Hampshire
Freeman rf	lb Thompson
Hodge lf	rb Came, Jenness
Victor c	c Sanborn
Norton rb	lf Jones
Hay rb	
Langford rb	rf Lindquist
Page lb	rf Bissell

Score, Williams 41, New Hampshire 19. Goals from floor, Hodge 6, Freeman 7, Victor 3, Page 4, Came 2, Thompson 3, Sanborn 3, Lindquit, Goals from fouls, Freeman, Sanborn. Referee, Hehir. Time, 20 m periods.

#### THE RELAY RACE.

New Hampshire and Rhode Island were pitted against each other for the first relay race of the evening. The first two men on each side, Hawkins and Dodge of Rhode Island, and Priest

and Bent of New Hampshire, split terms about even. Dodge, however, handed over a slight lead to the next runner, Reiner, who ran against Health. Health ran a heady race, but could not quite overcome the handicap handed to him by the other sprinters. Cole and Smart were the last pair. Coleman held the lead all the way, and finished a winner for Rhode Island by a scant five yards. The time was 3 m. 25 3-5 s.

Rhode Island—M. A. Hawkins, W. E. Dodge, H. Reiner, C. Coleman. New Hampshire—R. A. Priest, H. V. Bent, C. H. Health, and R. S. Smart.

#### FRESHMEN 46 BERWICK ACADEMY 9

The 1916 basketball team won its second game Saturday evening by defeating Berwick Academy by the score of 46 to 9 in the gymnasium.

Steele and Barber excelled for the freshmen, the former caging six and the latter seven baskets. They both played one period each.

As indicated by the score the contest was very much one sided. The summary:

1916	Berwick
Watson rf	lb McGowen
Burbee lf	rb Miller
Steele lf	c Mathews
Torrey c	
Sanborn rb	lf Tooker
Brown rb	
Hooper lb	rf Brosnan

Score 1916 46; Berwick Academy 9. Goals from the floor, Steele 6, Burbee 7, Torrey 4, Hooper 3, Mathews 2, Watson, Sanborn, Brown. Goals from fouls, Tooker 3. Referee, S. Sanborn. Time 20, 15 minute periods.

#### BASKET BALL RHODE ISLAND SATURDAY.

New Hampshire plays Rhode Island in the gymnasium, Saturday afternoon. Rhode Island has won closely one victory from New Hampshire to her credit and New Hampshire will do her best to even the score.

Both teams have played Williams and New Hampshire score, 41-19 somewhat better than Rhode Islands on Williams floor.

It is to be regretted that the game follows the night of the Hop, as there is a possible chance that the members of the team may not be in the best of physical condition.

C. O. Brown '11 successfully passed his examination for the degree of Master of Arts at Cornell University on Feb. 5. In all probability he will remain in the university, pursuing studies which will ultimately lead to the degree of Ph. D.

#### ALUMNI LETTER.

The President of the Alumni Association, Prof. C. E. Hewitt, has just issued a circular letter giving a resume of the past academic year, and emphasizing the bright outlook ahead. Two of the most profitable and successful features of the past year, the Interscholastic Prize Speaking Contest and the Interscholastic Athletic Meet, will be held again this year, some time in May. Among the Alumni there are now listed 443 four-year men, 105 two year graduates and 99 ex-men.

#### THE SOPHOMORE HOP TO BE HELD FRIDAY EVENING.

The Sophomore Hop, the largest college social function of the year, will be held in the gymnasium Friday evening. A concert will be given from eight to nine o'clock and dancing will follow until two o'clock Saturday morning. From present indications, a larger number than ever before will attend this gala New Hampshire affair.

The Myers Orchestra of Lawrence, Mass., which furnished the music for the Hop last year, has been engaged for Friday evening.

In connection with the Hop, the different fraternities are planning to hold House Parties and to give their fair visitors a splendid time. For attractions, there will be the Hop Friday evening, a varsity basketball game Saturday afternoon against Rhode Island, and in the evening private dancing parties. Sunday, numerous sleigh rides have been planned.

#### COURSE IN LIFE PROBLEMS.

In connection with the Bible Study Courses, which will be carried on by the students this semester, for a period of eight or ten weeks, especial attention to the course in The Problems has been called and the following announcement has been made.

"This course will consist of a series of talks by prominent speakers on some of the more important problems of student life."

"The work will be under the direct supervision of Prof. C. E. Hewitt, who will deliver some of the talks himself. He has spent considerable time and care in his choice of speakers, in an effort to make the course particularly attractive to college men." "The class will meet Wednesday evening at seven o'clock in Prof. Grove's class room in the Library. The first meeting will be held Wednesday, Feb. 12."

"The talks will be short and to the point. Every student is particularly invited to attend."

"Remember the time and the place."

#### NEW COURSE STARTED.

A course in General Evolution, to be held Tuesdays 4-5, will be offered to juniors and seniors in the Arts and Science Divisions this semester. One hour credit is to be given.

Below is given the list of speakers for the semester.

Feb. 11, Prof. W. J. Fisher, "Evolution of Physical Science"; Feb. 18, Prof. Charles James, "Evolution of Chemical Science"; Feb. 25, Prof. C. F. Jackson, "Evolution of the Earth" March 4, Prof. C. H. Pettee, "Evolution and Astronomy"; March 11, Prof. O. R. Butler, "Evolution and Plants"; March 18, Prof. J. H. Gourley, "Evolution and Economic Plants"; March 25, Prof. C. F. Jackson, "Evolution of Animal Life"; April 1, Prof. Richard Whoriskey Jr., "Evolution of Language"; April 8, Prof. A. E. Richards, "Evolution of Literature"; April 15, Prof. G. C. Smith, "Evolution of Economics"; May 6, Prof. E. R. Groves, "Evolution and Society"; May 13, Prof. C. W. Scott, "Evolution and Constitutional Law"; May 20, Prof. C. E. Hewitt, "Evolution of Modern Industry"; May 27, Prof. Fred Rasmussen, "Evolution of Social Co-operation"; June 3, Pres. E. T. Fairchild, "Evolution and Education."

#### BILLS IN THE LEGISLATURE ARE ALREADY APPROVED BY COMMITTEE ON COLLEGE.

There are now three bills in favor of the college, before the Legislature at Concord: one, appropriating \$80,000 for a new engineering building; second, appropriating \$55,500 for tuition of New Hampshire students, maintenance and extension of Forestry Department, extension work, running expenses of the college, and replacing and adding equipment; third, appropriating \$20,000 for rewiring buildings, fire escapes, finishing attic in Morrill Hall, completion of sewer, equipping room for instruction relating to milk, establishing and equipment of course in Domestic Science, purchase of power sprayer, constructing cement walks, and repairs of college buildings.

The first bill is known as House Joint Resolution, No. 17, which was introduced by Hon. Albert DeMeritt of Durham; the second, as Joint Resolution No. 14, introduced by Mr. Wilkins of Milford; and the third as Joint Resolution, No. 15, introduced by Hon. Albert DeMeritt of Durham.

After their introduction into the house, they were all referred to the committee on the agricultural college. A hearing on these bills was held in Concord, a week ago Wednesday, at which time, Pres. Fairchild appeared in the interests of the college. After he had spoken, that committee voted unanimously to report these bills back to the house favorably.

The bills will now be reported back to the house favorably, and then referred to the appropriation committee for consideration. After they have been discussed in this committee, they will again be reported back to the house, either favorably, favorably with amendments, or otherwise, and then the house will take action on them. The bills will next proceed to the Senate, where practically the same action will be taken.

In case, they are passed by both the House and the Senate, they will go to the Governor for his signature. In case he vetoes them, or parts of them, a power which he was given by the adoption of an amendment to the constitution at the last November election, they will go back again to the Legislature, where it requires a two thirds vote to pass them over his veto.

#### PRES. FAIRCHILD ATTENDED MEETING IN WORCESTER, MASS.

Pres. E. T. Fairchild spent last Monday in Worcester, Mass., where he attended a "Conference on Rural Education," held at the Massachusetts Stat Normal School. He presided at the afternoon session, and delivered the introductory address.

The meeting was for the purpose of bringing together the school superintendents of the state of Massachusetts, and had for its general theme, "Education in Rural Communities." Several prominent educators, besides Pres. Fairchild delivered addresses, including Frederick P. Fish, chairman of the Massachusetts Board of Education; Mayor George Wright of Worcester; Wilfred Wheeler, secretary of the Massachusetts Board of Agriculture; Rufus W. Stimson, former President of the Connecticut State College; and Philander P. Claxton, United States Commissioner of Education.

## "THINK IT OVER".

A peculiar spirit seems prevalent in New Hampshire. The ability to fool the professor in more or less legitimate ways as well as through wholly illegitimate means is considered as a praise worthy accomplishment. The following methods are countenanced by representative men of the student body; first, the studying and making use of the personal characteristics of a professor, as, his susceptibility to judicial flattery, showing intense interest in his hobby, and the playing to his particular weaknesses; second, taking advantage of a fellow classmate's lack of ability to make by contrast one's own standing appear higher; third, attempting to learn, previously, questions to be used in examinations; by lengthy conference with the instructor as to the important features of a course; by keeping on file a collection of former examinations; and by searching the waste baskets for mislaid carbon copies. With the above may be considered the taking into examinations cribs, note books and texts, unknown to the professor, backed by the excuse that all must cheat in order to equalize the professors' unjust system of marking, also, the "team work" between friends during examinations.

Whereas opinions may differ as to the extent of wrong in the practice of any one of these methods, the fact remains, their influence as a whole upon the character of the student body is demoralizing. That these things should be allowed here seems all the more surprising, when one recalls that in many institutions a man would be ostracised

immediately by his fellow classmates for any of the above practices.

If one stops to consider the immense importance of these apparently trivial matters upon the building of a man's character, and is ambitious to do the "square thing," he will give them more thought. We do not consider that the probable cause of this condition is due to the lack of manhood or ability in New Hampshire men, but rather due to lack of strong personal example of right and honor, and to the lack of co-operation upon the part of the student body to form a better college spirit.

## SOCIETY COLUMN.

### Doings of the Ultra-Ultra.

P. C. Jones '13, captain of the basketball team, ex-captain of the football team, President of the Athletic association, President of the Christian Association (etc, etc) was the host at a very select ball given in the honor of Miss L. May Fairchild last Thursday evening. The hall was very artistically decorated with colored bunting; in the center hung a massive Japanese lantern. The music was furnished by the "Ward Orchestra" of Nashua, a new and very popular organization. Mrs. Saunders and Mr. Charles Algernon Eberle acted as chaperones. The party closed shortly before four.

Those present were Misses Louise M. Fairchild, Dorothy Ridley, Vivian Hamel, Gladys McKone, Nellie White, A. Louise Cole, Regina O'Connor, F. Trimmer; P. C. Jones, E. C. Williams, I. R. Garland, A. W. Jenness, C. S. Adams, E. H. Holden, P. C. Gale, and D. B. Keyes.

## Copy of a Page from Father's Letter

no rain in October and the wheat is small and does not look like it would stand the winter well.

We finished husking yesterday. From the acre where we tried your theory about bone-meal and clover making the Potash available, we harvested 50 bushels of rather chaffy corn, and from the rest of the field, where we used bone, clover and 50 lbs. Muriate of Potash per acre, we husked out 70 bushels per acre of tip-top corn that is nearly all fit to sell on the ear for seed corn.

I figure that a ton of Muriate of Potash on 40 acres of corn will pay for a year's post graduate study for you and leave you a little spare change to chip in for athletics.

# DE LAVAL CREAM SEPARATORS

## Those who know buy the DE LAVAL

**Creamerymen**—Because they are experts in the handling of cream and know by long experience that the De Laval skims cleanest and wear longest. That is why 98 per cent of the World's creameries use the De Laval exclusively.

**Experienced Dairymen**—The De Laval is the universal favorite among big dairymen. They know that no other separator will give them such satisfactory service. **Old De Laval Users** Whenever a man who has used an old model De Laval decides to purchase a later style machine he invariably buys another De Laval.

**Men Who Investigate**—If any one takes the time to investigate the merits of the various cream separators, either by finding out from other users what kind of service their machines have given or by testing other machines out against the De Laval, the chances are a hundred to one that his choice will be the De Laval. More De

Laval machines are in use than any other make. There is a reason. The De Laval agent in your locality will be glad to tell you why.

The new 72 page De Laval Dairy Hand Book, in which important dairy questions are ably discussed by the best authorities, is a book that every cow owner should have. Mailed free upon request if you mention this paper. New 1913 De Laval catalog also mailed upon request. Write to nearest office.

## ADVERTISING NEW HAMPSHIRE COLLEGE.

In order to help advertise New Hampshire College more thoroughly, there has been published recently a large number of four page folders in which the advantages and the ideals of the institution are set forth. The purpose, the equipment, and description of the numerous courses of the college are briefly but clearly treated. Included within the last is one division that a great many overlook. This is the Extension Service, that was started in 1911. The work as already organized includes; cooperative experiments in hay lands, fertilizers, variety tests of corn; orchard management; organization of the breeders' associations; demonstrations of pruning and spraying; agriculture reading courses; circulars of information and press bulletins; exhibits at fairs; and popular lectures throughout the state.

That New Hampshire College is steadily and rapidly growing in every way is seen from a few statistics taken during the last twenty years. In 1893 the enrollment was thirty and seven members on the faculty. At present the enrollment is three hundred and fifty four, and forty-two members on the faculty. The total enrollment to date is forty-one hundred and seventy-seven. The college offers two hundred and seventy-six courses of study and the library contains thirty thousand volumes.

In the expenditures for the current two-year period, sixteen per-cent was provided by the state, forty-four per-cent by the United States and forty per-cent from other sources. It was about the small percentage which the state provided that Pres. Fairchild spoke in chapel just before the last recess. From a table of statistics showing what the New England States have appropriated for agriculture both to the State Boards of Agriculture and to the State Colleges, it is shown that in each case the New Hampshire appropriations have been very much less in every way than for any of the other five states.

In regard to the future of the college, the folder has to say: "Increase service to the state requires increase facilities. The enrollment has doubled in eight years. This means a larger teaching force and better laboratory facilities. The Engineering Division is crowded to the point where it cannot properly care for the men now enrolled. Capable students cannot get work that they desire. The laboratories are full. This is true in other departments. The number of men seeking the advice and help of the College in home and farm is constantly increasing. Shall the College meet these needs?"

### LOSE SCHOLARSHIPS.

Six lost their scholarships because they had a general average below 60% for the last semester.

### NINETEEN "FLUNK OUT."

Under the college rule which states that any student who is deficient in 15 or more hours shall be dropped from the college, nineteen students received notice from the Dean's office that they could no longer affiliate themselves with the college. This number is 5.6% of the enrollment of four and two year students.

This does not mean necessarily that this number will be forced to leave college, because there is a possibility that some will petition the faculty to change their courses or be reinstated in a lower class. If their petitions are granted, they may remain with conditions.

## Committee Visit College.

On Friday, Jan. 31, the committee on the agricultural college of the legislature and six members of the appropriation committee visited the college and made a thorough inspection of the entire plant. Luncheon was served to the visitors at Smith Hall, after which a short speech of welcome was given by President E. T. Fairchild, and responded to by the chairman of the visiting committee. Other speakers contributed a few words of appreciation, among them Representatives Fairbanks and Scarr.

## When Drilling is Necessary You Never Stop to Dig.

When you begin to clean your dairy what do you do? Do you use a cleaning material corresponding to the pick and shovel or is it

the dairy cleaning agent which cleans clean quickly and is of the same efficiency as the modern drill which drives thru the ground in far less time and at less cost than the old tools used in hard digging?

Wyandotte Dairyman's Cleaner and Cleanser, like the drill, does its work in a clean cut manner. Bits of dirt, old butterfat, refuse and stale matter are first loosened, brot to the surface and then easily rinsed away in the wash water without the slightest injury to the surface cleaned or to the users hands. Only the natural clean surface of the utensil remains, free from all odors, germs and bacteria.

The greatness of Wyandotte Dairyman's Cleaner and Cleanser lies in its power to clean everything in the dairy or factory sanitarly clean, with little work, and at a cost any dairyman can well afford.

Why hesitate to give Wyandotte Dairyman's Cleaner and Cleanser a trial? Your dealer guarantees those claims or it costs you nothing. Ask him for a five pound sack, or write your supply man for a keg or barrel.
