SOPHOMORE CLASS HOLDS HOP.

Annual Affair Was a Marked Success.

The seventh annual Sophomore Hop, given by the Class of 1915 was held in the gymnasium on Friday evening, Feb. 14. The affair was one of the largest and most successful social events in the history of the institution. The hall was decorated very attractively with blue and white bunting, college pennants, banners, and floral pieces. The corner back of the receiver's line was banked with palms, presenting a most effective background. Blue and white streamers reached from various points of the hall and were suspended in the center of the hall. Large quantities of evergreen, which were used to decorate the running track, encircling the hall, added greatly to the attractiveness of the scene.

A concert, given by the Municipal Orchestra of Lawrence, Mass., lasted from eight till nine o'clock. The following selections were rendered: March, "Guard of Honor," Leuhardt Selection, "Little Boy Blue," Bereny Song for Cornet, "I Hear You Calling Me," Marshall

Mr. Thomas Dalton.

Venetian Barcarolle, "The Enchanted Hour," Moulton
Hungarian Violin Solo, "Hejre Kati," Haley

Mr. Berhardt Meyer.

Selection, "Spring Maid," Reinhardt
At nine o'clock, the grand march, under supervision of Marshall W. S. Bartlett, was formed, led by Pres. R. E. Came and lady, followed by nearly two hundred couples. An order of twenty-six dances was then carried out.

The following aids assisted the marshal in ushering the guests to the receivers: L. L. Langley, H. H. Lindquist, R. A. Knight, J. H. Hobbs, G. F. Studd, and B. B. Fernald.

President E. T. Fairchild was the patron, while the matrons were Mrs. E. T. Fairchild, Mrs. Guy C. Smith, Mrs. Charles C. Steck, and Mrs. John C. Kendall.

The committees in charge of the affair were the following: Executive-Chairman, R. E. Came, J. F. Thompson, J. H. Hobbs, J. S. Elliott, A. W. Gamash, C. A. Reed, and Miss C. E. Hoitt.

Invitations and Orders: Chairman, C. A. Reed, B. B. Fernald, B. H. Clark, G. T. Studd, Miss E. G. McKone, and Miss M. F. Murphy.

Decorations: Chairman, J. S. Elliott, A. L. Murdock, G. H. Cobleigh, R. A. Knight, R. H. Kinder, J. F. Hobbs, C. W. Davis, S. M. Fogg, H. L. Farnham, A. E. Bartlett, Miss C. E. Hoitt, and Miss H. W. Plumer.

Music: Chairman, M. J. Brogini, S. B. Emerson, E. J. Wyman, W. S. Bartlett, and Miss A. J. Hoitt.

Floor: Chairman, R. C. Bowden, L. L. Langley, P. E. Corriveau, L. M. Crouch, C. E. Roberts, A. J. Grant, H. C. Hill, W. W. Swett, E. E. Watson, K. F. Rand, C. A. Sawyer, and R. E. Haines.

Refreshments: Chairman, P. S. Wil-

land, J. F. Thompson, H. H. Lindquist, and A. W. Gamash.

N. H. WINS

FAST GAME.

Rhode Island Beaten Before Large Crowd.

New Hampshire had little difficulty in showing its superiority over Rhode Island State college by defeating them in the college gymnasium Saturday night by the score of 40 to 28. In the first game of the season Rhode Island was successful in winning a close victory on their own floor by one point. The work of the entire New Hampshire team showed that they were superior to their opponents in all departments of the game and the result was never in doubt after the first few minutes of play; although Rhode Island tried hard to come back in the second half. The features of the game was the fast work of the New Hampshire forwards, Jones and Thompson, and the covering of the guards. Thompson played an exceptionally fine game securing ten baskets. Twelve of Rhode Island's points were on fouls while N. H. did not receive a point from this source. Out of fourteen tries on fouls Lennox only missed two.

New Hampshire had things its own way in the first period as the Rhode Islands backs were not able to stop Jones or Thompson. Thompson shone especially and succeeded in caging six baskets in this period. The Rhode Island forwards were well covered and all but four of the points they obtained in this period were obtained from fouls. The period ended with the score 20 to 9 in favor of N. H.

In the second period N. H. had little difficulty in maintaining its early lead and were well ahead of their opponents at all times.

Rhode Island came back upon the floor determined to win but all their efforts were in vain although they obtained more baskets in this half.

CHAPEL EXERCISES.

At the convocation exercises, Feb. 12, Pres. E. T. Fairchild addressed the student body. He spoke upon several phases of college life, which were of vital interest to the students. In his opening words, he touched upon the successes and failures of the past semester and stated that he hoped every man and woman in college would start the new term with the determination to give their best efforts to their work, emphasizing the fact that nothing truly great can be obtained without labor.

After a few preliminary remarks the president read a short extract entitled, "A Perfect Tribute," in commemoration of the birth of Abraham Lincoln.

DURHAM, N. H., FEB. 19, 1913.

At last New Hampshire has broken a long string of defeats at the hands of her old rival, Rhode Island. Such an overwhelming victory is conclusive proof of the superiority of our team. Those who contributed to our success are indeed to be commended and should feel well repaid for the hard, honest, and untiring energy which must have been the forerunner of such a victory.

Coach Eberle, to you we all extend our most heartfelt congratulations and gratitude for the work you have accomplished; to the second team whose share of the victory should not be underestimated, we tender our sincere appreciation; to the varsity men and substitutes who gave all they had for old New Hampshire, we pay our deepest respect.

Captain Jones, we have never seen you give a more clever exhibition than that of Saturday evening and we are no less proud of your team-mates. Thompson, the veritable scoring machine, proved an unsolved puzzle to the visitors; "Noah" Sanborn did Hereulean work on the defense; "Bo" Jenness performed his duty to perfection as did his partner Came. While Bissell and Lindquist were not long in action, we recognize their ability and the part they contributed to the success of the team.

But how was it possible for these men to play such a wonderful game? Was it not the outcome of self-sacrifice? How many of those present at the Hop realize the feeling of disappointment which must have taken possession of these men as the hour of eleven pealed forth from Thompson Hall and, true to the demand of the coach they retired unostentatiously to rest for the game of the morrow? Think for a moment what a sacrifice this was.

Let this spirit go on. Let us all emulate the example of these real heroes, who saw beyond the pleasures of an evening the glory of their alma mater. Then will New Hampshire College put forth teams of which we may all well be proud.

Signed H. C. Holden '12.

Does the man who persists in annoying chapel speakers by tinkling his brass watch fob on the back of his Ingersoll realize that he is not acting the part of a gentleman? Can a student be considered competent to voluntarily suggest the conclusion of a speaker's address?

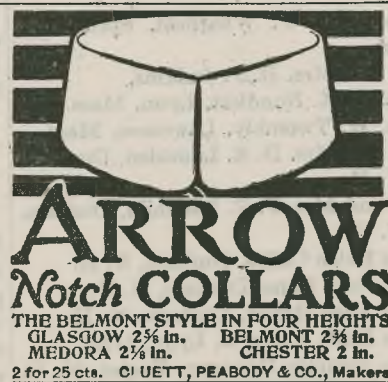

There are three kinds of men—those

without brains, those with brains unused brains, and those with brains which are useful. The brainless men never come to college; those with normal intelligence evoke no criticism. The college man who is not always a gentleman is in the pitiable class. He has brains but he does not use them.

The Hop was a decided success. In the conduct of this important college function the class of 1915 has proven itself worthy of commendation. The appearance of the gymnasium was extremely attractive, the music was excellent, the floor was in good condition, there was a large number of guests present, and the work of the marshal and aids was of high order. Everyone who was present pronounces the affair a success.

DE LAVAL CREAM SEPARATORS

Those who know buy the DE LAVAL

Creamerymen—Because they are experts in the handling of cream and know by long experience that the De Laval skims cleanest and wear longest. That is why 98 per cent of the World's creameries use the De Laval exclusively.

Experienced Dairymen—The De Laval is the universal favorite among big dairymen. They know that no other separator will give them such satisfactory service. **Old De Laval Users** Whenever a man who has used an old model De Laval decides to purchase a later style machine he invariably buys another De Laval.

Men Who Investigate—If any one takes the time to investigate the merits of the various cream separators, either by finding out from other users what kind of service their machines have given or by testing other machines out against the De Laval, the chances are a hundred to one that his choice will be the De Laval. More De

Laval machines are in use than any other make. There is a reason. The De Laval agent in your locality will be glad to tell you why.

The new 72 page De Laval Dairy Hand Book, in which important dairy questions are ably discussed by the best authorities, is a book that every cow owner should have. Mailed free upon request if you mention this paper. New 1913 De Laval catalog also mailed upon request Write to nearest office.

J. WARREN SMITH '88.

J. Warren Smith was born at Grafton, N. H., Sept. 21 1863. He is the son of John R. Smith farmer and Mary E. Smith. He attended the district schools and New London Academy. He worked on the farm in the woods in a saw mill and taught school. In 1885 he entered the sophomore class of New Hampshire College with a capital of just \$35. a strong constitution and willingness to work. He taught school worked in the library, dining hall, gas works, on a farm, in the creamery and even in the wood shed and in the ditch and completed the course in mechanical and civil engineering in three years, paying practically all expenses from his earnings.

Oct. 6. 1888, after graduation, he enlisted in the U. S. Signal Corps and entered the Weather Bureau office at Boston which was then under the Secretary of War. The Bureau was transferred to the Department of Agriculture in 1891. He served in Boston and Cambridge as assistant, first assistant, in charge, and in charge of New England service successively during the next ten years. In the mean time he took two years special work in meteorology and climatology in Lawrence Scientific School, Harvard University. In 1897 he went to Helena, Montana, as Section Director in charge of Montana Service. In 1898 he was transferred to Columbus, Ohio, as Section Director in charge of Ohio service. In 1900 Mr. Smith was given the degree of M. S. In the same year he was appointed to the position of special lecturer in meteorology at the Ohio State University. In 1905 he was placed in charge of river warning service in Ohio. In 1909 he was transferred to St. Louis, Mo., as District Forecaster, and District Editor of the Missouri Valley district. In 1910 he returned to Columbus, Ohio, as Section Director, and was appointed as Professor of Meteorological Science at the Ohio State University. July 1, 1911, he was promoted to the position of Professor of Meteorology in the United States Weather Bureau and holds this position and the professorship at the University at the present time. He was appointed as Climatologist in charge of the department of climatology at the Ohio Agricultural Experiment Station, Wooster, Ohio, in 1911.

Mr. Smith is a member of the National Geographic Society, National Forestry Association, Ohio Academy of Science, Ohio State Grange.

He is also a member of the following local activities:

- Ohio Union Club

Mr. Smith was married in 1890 to Florence A. Eaton of Grafton, N. H. They have two children, one, a son in High School, and a daughter in the Ohio State University. Mrs. Smith, who was a very great help and inspiration to her husband, passed away on July 4, 1911.

Governor Sulzer, of New York, is said always to carry with him on his travels a fine photograph of his wife, which is immediately placed on his dressing table when he arrived at a hotel. Pointing at this picture recently, he remarked, as reported: "The best day of my life from every standpoint was when that lady married me." "The Outlook."

When Drilling is Necessary You Never Stop to Dig.

When you begin to clean your dairy what do you do? Do you use a cleaning material corresponding to the pick and shovel or is it

the dairy cleaning agent which cleans clean quickly and is of the same efficiency as the modern drill which drives thru the ground in far less time and at less cost than the old tools used in hard digging?

Wyandotte Dairyman's Cleaner and Cleanser, like the drill, does its work in a clean cut manner. Bits of dirt, old butterfat, refuse and stale matter are first loosened, brot to the surface and then easily rinsed away in the wash water without the slightest injury to the surface cleaned or to the users hands. Only the natural clean surface of the utensil remains, free from all odors, germs and bacteria.

The greatness of Wyandotte Dairyman's Cleaner and Cleanser lies in its power to clean everything in the dairy or factory sanitarly clean, with little work, and at a cost any dairyman can well afford.

Why hesitate to give Wyandotte Dairyman's Cleaner and Cleanser a trial? Your dealer guarantees those claims or it costs you nothing. Ask him for a five pound sack, or write your supply man for a keg or barrel.
