

The New Hampshire.

Vol. 2, No. 20.

DURHAM, N. H., FEBRUARY 26, 1913

PRICE 5 CENTS

N. H. 47 CUSHING 13.

An Easy Victory for Our Team.

New Hampshire had a very easy time in defeating the five from Cushing Academy of Ashburnham, Mass., in the gymnasium Saturday evening by the score of 47 to 13.

The game was too slow and unevenly contested to be of particular interest. Due to the fact that a majority of the students went home over Washington's birthday, there was a very small attendance.

Jones and Sanborn were the star shots for New Hampshire, the former caging eight and the latter seven baskets. Stanton and Morton excelled for the visitors.

The first half ended 29 to 4 in favor of the home team. For a long time in the first half, Cushing was unable to score. In the second period, Coach Eberle made two substitutions.

George McPheters refereed the game in place of Joe Killourhy and his work gave satisfaction. The summary.

New Hampshire.	Cushing.
Bissell rf.	lb. Hart
Jones lf.	rb. W. Baumgartner
Sanborn c.	c. L. Baumgartner
Jenness rb.	lf. Stanton
Came lb.	rf. Morton.

Score—New Hampshire 47, Cushing 13, Substitutions—Lindquist for Bissell, Watson for Jenness, Vanderlick for L. Baumgartner. Goals from the floor: Jones 8, Sanborn 7, Bissell 4, Came 3, Stanton 3, Morton 2, Lindquist, L. Baumgartner. Goals from fouls, Sanborn, Stanton. Fouls called on New Hampshire 4; on Cushing, 2. Referee McPheters. Time 20 minute periods. Scorer, Twomey.

DURHAM INDEPENDENTS DEFEATED.

In a loosely played game, Phillips Exeter Academy defeated the Durham Independents at hockey by the score of 9 to 1. Percy and Haines starred for the Academy boys, while Welsh shone for the Independents. The game was played on the Academy rink at Exeter.

Goals for Durham: Welsh and Cram. Goals for Exeter: Kelley, Knox, Harris, Richardson, Percy 4, Winton. Periods: Two twenty minute halves. Referees: Hodgdon and Schatzhn. Attendance: 300.

The lineup:

Durham	Exeter.
Woodman R. W.	R. W. Winton
Cram L. W.,	L. W., Hodgdon,
	L. W. Schatzhn, Knox
Welsh, Rover	Harriss, Richardson,
Haines, coverpoint,	coverpoint, Kelley
Flanagan, Corriveau,	point, Coffin
Corriveau, Flanagan, goal,	
point, Gwandbury, Uhlenhalt	
Houston, center,	center, Percy

Prof. O. L. Eckman addressed a large audience at Lyndeboro Centre, N. H., on Feb. 15. He spoke upon the subject of "Better Live Stock" to the Cheshire County Holstein Breeders' Association.

INTER-SCHOLASTIC MEET.

The date of the second annual inter-scholastic track and field meet, under the auspices of New Hampshire College, has been set for May 10th. Manager N. D. Paine has already sent out one hundred and fifty invitations; of these, eight schools have entered teams and several have sent indefinite replies. The meet will consist of the same events as last year.

It is now thought that the team cup will be made a three year one; that is, the winning team will hold the cup for one year until the same team has won it three years, when it will hold it permanently.

MASS MEETING.

At a special meeting of the faculty and students, held in Thompson Hall, Monday, Feb. 24, Albert De Merritt, Durham's representative at Concord, addressed the student-body in a short speech, urging them to write to their respective representatives and explain to them the needs of the institution. Mr. De Merritt stated that he believed that this had more influence on the legislators at the session two years ago than any other one factor.

NEW HAMPSHIRE SONG BOOK.

It is now practically assured that a song book will be published this year. Professor A. E. Richards, who has already expended considerable time and energy in planning the publication, now feels that the project will be a success. Those who are interested are still working hard to raise the necessary funds and it is expected that this will be accomplished in a short time.

Prof. Richards is going to interview the publishers in Boston next Friday and it is expected at that time all plans will be consummated and that the contracts will be signed.

PYGMALION AND GALATEA.

There is an attempt being made to stage Gilbert's Pygmalion and Galatea. It is expected that the production will be in Thompson Hall in about six weeks. Under the coaching of Professor Richards the characters are rounding to perfection. There are four young ladies and several men in the play, the latter including such stars as A. L. Murdoch, '15, and G. A. McPheters, '13.

W. A. MEGRATH DECEASED.

W. A. Megrath, B. S. New Hampshire 1881; M. D. Dartmouth 1886, died at his home in Loudon, N. H. on February 8. His death was very sudden, terminating a long period of service as a successful practicing physician. His home was in Cavendish, Vt.

Mr. Henry Bailey of Newton, Mass., formerly assessor of taxes in that city, addressed the student-body in chapel, Wednesday, Feb. 19, on the subject of "Taxation."

The Forestry Department of the college has been cutting several trees in the college woods, and are now yarding the logs in the vicinity of the sheep-barn. A mill will be installed there eventually, and about two hundred thousand feet of lumber will be sawed.

BIG ALUMNI BANQUET.

Reception Tendered to President Fairchild.

The annual reception and banquet of the Alumni Association was held at the Thorndike Hotel, Boston, last Friday evening. The affair was one of the most successful ever held by the association, while the reception to President Fairchild was extremely cordial.

After the banquet, for which all arrangements were made by Professor Charles E. Hewitt, Pres. of the Association, many toasts were responded to, all receiving enthusiastic applause.

President Hewitt, acting as toastmaster introduced as the first speaker Hon. Albert De Merritt, the Durham representative in the state legislature, who spoke assumingly of the prospects of the college at the hands of the present session. His subject was "What is the Present Legislature Going to do for New Hampshire College?"

After a quartette of students, selected from the Glee Club, rendered a selection, Hon. H. L. Boutwell '82 was introduced to speak on "The True Relation of a Board of Trustees to an Institution." As both an alumnus and a trustee, Mr. Boutwell was able to deliver a most interesting address. He paid a tribute to the trustee, Mr. Caldwell, who had newly been elected, to President Fairchild and to Ex-President W. D. Gibbs. He also outlined the history of the land grant college, concluding with the assurance of perfect accord on the part of the trustees with the work of the president. His toast was enthusiastically applauded.

Dr. F. A. Davis '86, spoke briefly, as chairman of the alumni council, of the work which that council is attempting to accomplish in an advisory capacity.

Mr. Hewitt then introduced the speaker of the evening, President E. T. Fairchild, who was forced to pause for several minutes before beginning his address, for the enthusiasm of the alumni to subside. He then delivered a speech which won to his loyal support every alumnus who heard his words. Outlining the urgent needs of the college, he spoke very enthusiastically of the possibilities of the future. His final statement that a college should train equally men and women for a large and fruitful citizenship met with hearty approval.

H. R. Tucker '12, responded for the alumni to the address of the president, assuring him the unanimous support of the graduates, and expressing appreciation for the type of work which is to be emphasized in the policy of the college. The impromptu speakers were, J. C. Kendall '04, H. M. Lee '01, O. E. Huse 12, and P. C. Jones '13.

Prof. Fred Rasmussen was out of town nearly all of last week, delivering lectures at Farmers' Institutes. On Tuesday, Feb. 18, he spoke at Bethlehem, N. H.; on Wednesday, he lectured at Lebanon, N. H.; while he addressed an audience at Dunbarton, N. H. on Thursday.

N. H. C. ALUMNUS RECEIVES HONOR.

Although it is rather late, mention should be made of the fact that Mr. S. E. Emery, a graduate of New Hampshire College, delivered the main address at the 150th Anniversary Celebration of Cavendish, Vt. The celebration, which marked the 150th anniversary of the granting of the charter of Cavendish, was held in conjunction with Old Home Week. An elaborate program was carried out, and choice speakers were secured for the occasion.

At the exercises on the afternoon of the "big day," Mr. S. E. Emery, "the only real orator Cavendish possesses," says the "Vermont," delivered the main address upon, "Capt. Coffeen's Life and the Early History of Cavendish." In commenting on Mr. Emery's speech, the Vermont says: "Mr. Emery was a smart speaker, caught the fancy of his audience and closed to applause and cries of "Good!"

Such statements show the esteem which Mr. Emery holds among the citizens of Cavendish, and are fitting tributes both to himself and his Alma Mater.

Y. M. C. A. SECRETARY HAS HEAD-QUARTERS IN DURHAM.

Oscar E. Huse, '12, who is now Y. M. C. A. Secretary in Rockingham County, will have his headquarters in Durham, and will be here on Monday, Wednesday, and Friday of each week. He will have his office, for the present in Dean Pettie's office in Thompson hall.

COLLEGE AND ALUMNI NOTES.

On the afternoon of Feb. 19, Mr. H. F. Judkins, of the State Moth Department, lectured on "The Gypsy and Brown Tail Moth" at a meeting of the Belknap County Pomona Grange, held at Gilford Village, N. H. The audience, of about seventy-five persons, were very much interested in the brown tail moth, since this pest is much more plentiful in that locality than ever before. A set of photo enlargements were used to illustrate certain parts of the lecture.

On the evening of Feb. 20, Mr. H. F. Judkins delivered a lecture in the town hall at Kingston, N. H. on the subject of "Possible Measures of Control of the Gypsy and Brown Tail." This was also illustrated with lantern slides.

Prof. Wm. H. Wolff was out of town last week lecturing at Farmers' Institutes.

PRES. WILSON'S IDEA OF A COLLEGE EDUCATION.

The following statement, made by President-elect Woodrow Wilson, while President of Princeton University, may be made applicable to present day conditions and is worthy of the consideration of all college men and women.

Princeton University,
Princeton, N. J., Nov. 15, 1909.

In reply to your letter of Nov. 13, I would say that what seems to me of greatest advantage to college students is the discipline of the faculties derived from serious attention to their studies. Incidentally, the contacts of college life no doubt do a great deal to transform them from boys into men, but, they are benefitted by college in proportion as they take its duties seriously and subordinate its pleasures.

"Entered as second-class matter September 20, 1911, at the post office at Durham, N. H., under the act of March 3, 1879."

DURHAM, N. H., FEB. 26, 1913.

Too many men go about college wearing on their countenances an expression of unnecessary solemnity. We may see any day, in fact, we have to see every day,—the man who appears to be bearing the burdens of the universe. He excludes from his narrow gauge life anything like joy or happiness, dwelling upon the disagreeable and unfortunate things of his two by four existence. Probably if you should ask the cause of his perpetual despondency, he would immediately begin a tirade upon the impositions of the faculty, the unfriendly attitude of his fellow students, or even upon the inclemency of the weather, if no other topic presented itself to his morbid mind. If his stunted intellect pictured nothing more opportune, perchance he would choose himself as a subject for vilifying disparagement, magnifying, to his enjoyment, his assumed inferiority to those about him.

Did you ever see a successful doctor who did not mix with his chemicals a lavish amount of good cheer? There is no drug which can compete with this remedy. A laughing, jovial, and sunny physician is worth more than all the medicines ever discovered. Discouragement and fear are driven away by his confident manner and reassuring smile and often real physical pain is alleviated by his mental uplift and encouragement.

Mirth has always had a part in shaping civilization. Did not Lycurgus, who instituted a new social order in Sparta twenty eight centuries ago, set up a god of laughter in his dining hall because he appreciated the value of cheerfulness? Lincoln always kept on the corner of his desk a copy of the latest work of some contemporaneous humorist, to which he turned at times when his tremendous responsibilities weighed most heavily upon him. Has not the humorous play been demanded for many years by those who have needed relaxation and diversion after fatiguing mental and physical exertion.

Cheerfulness is one of Nature's greatest tonics; it is undoubtedly one of the great miracle workers of the world. "The man who does his best and carries a smiling face, keeping cheerful in the midst of discouragements, when things go wrong and the way is dark and doubtful, is sure to win."

"Laugh until I come back," was a noted clergyman's good-bye salutation. It is a good one for us all.

NOTICE.

LECTURE COURSE DATE CHANGED.

At a special request of the Boston Oeette Concert Company, the concert, announced for March 7th on the Lecture Course program, has been postponed to Friday evening March 14th. This number includes the famous Shubert Quartet, and should afford a fitting climax to the excellent numbers, which were arranged by the lecture course committee this season.

Y. M. C. A. LECTURES.

The following lectures will be given under the auspices of the College Y. M. C. A.

The lectures are held in the lecture room of Conant hall on Wednesday evenings at 7.00.

February 26. "Christain Ideals of Business and Professional Honor, Employer and Employee." Prof. Guy C. Smith.

March 5. "Friends and Clubs." Prof. C. E. Hewitt.

March 12. "Social Amusements and the City." Rev. F. T. Knight.

March 19. "The Family and The Church." Rev. F. T. Knight.

March 26. "Health, Stimulants and Narcotics." Prof. C. E. Hweitt.

April 2. "Sex and Life." "Sex and Manhood." Prof. E. R. Groves.

April 9. "Sex and Religion." "The Relation of the Physical and Spiritual Natures." Dr. F. A. Davis, '84.

April 16. "The Law of Service and Christain Citizenship." Dr. E. T. Fairchild.

CHRISTAIN ASSOCIATION.

G. F. Lane, chairman of the committee on deputation work of the Christain Association, is this week making plans for several trips to Carroll and Rockingham Counties for the last of February and for March and April. Arrangements are being made for trips to Tamworth and Chocura, Center Ossipee, Union, Newton, Epping, Newmarket, and Hampton. This year an entertainment of unusual interest has been prepared while especial emphasis is being laid on the religious work of the deputations.

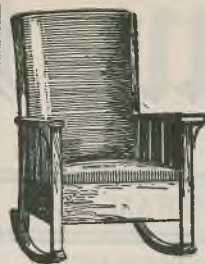

Director J. C. Kendal, Prof. F. W. Taylor, and Mrs. David Lumsden attended a Farmers' Institute meeting at Hudson, N. H., on Thursday, Feb. 13 under the auspices of the Hudson Grange. On the following day, Mr. Lumsden delivered a lecture in Dearborn Hall, East Manchester, under the auspices of the Union Pomona Grange, on "European and American Landscape Gardening."

DE LAVAL CREAM SEPARATORS

Those who know buy the DE LAVAL

Creamerymen—Because they are experts in the handling of cream and know by long experience that the De Laval skims cleanest and wear longest. That is why 98 per cent of the World's creameries use the De Laval exclusively.

Experienced Dairymen—The De Laval is the universal favorite among big dairymen. They know that no other separator will give them such satisfactory service.

Old De Laval Users Whenever a man who has used an old model De Laval decides to purchase a later style machine he invariably buys another De Laval.

Men Who Investigate—If any one takes the time to investigate the merits of the various cream separators, either by finding out from other users what kind of service their machines have given or by testing other machines out against the De Laval, the chances are a hundred to one that his choice will be the De Laval. More De Laval machines are in use than any other make. There is a reason. The De Laval agent in your locality will be glad to tell you why.

The new 72 page De Laval Dairy Hand Book, in which important dairy questions are ably discussed by the best authorities, is a book that every cow owner should have. Mailed free upon request if you mention this paper. New 1913 De Laval catalog also mailed upon request. Write to nearest office.

APPROPRIATION BILLS TO BE REPORTED TODAY AT CON- CORD.

The appropriations for the college are included among the budget bills which the appropriation committee of the house will report today. It is not known, however, whether or not the college bills will be reported favorably, as they now stand. From present indications, it is thought that the appropriation committee will report the bills favorably without cutting a single item. It has been rumored, although the truth of the rumor can not be ascertained, that there is a possibility of the appropriation for a new engineering building being cut from \$80,000 to \$60,000.

Pres. E. T. Fairchild appeared in Concord last Tuesday and Wednesday before the appropriation committee in the interests of the college.

It is conceded without a doubt that if the bills are once reported favorably by the appropriation committee, they will be passed both by the house and the senate, and then signed by the Governor.

The action which the appropriation committee takes is the big issue in determining whether or not the bills will be passed as they now stand.

The New Hampshire will try to have the report of the appropriation committee bulletined in Thompson Hall Wednesday, as soon as the news can be received from Concord.

LIFE PROBLEMS LECTURE COURSE.

Last Wednesday evening, the second number of the College Y. M. C. A. Lecture Course was given. Prof. W. J. Fisher was the speaker, and he treated his subject, "Preparation for, and Legitimate Rewards for a Life Work," in a very interesting and instructive manner. He put great stress upon the development of individual responsibility. He showed that it was an absolute essential to success and defended this point by numerous illustrations.

The next lecture will be held in Concert Hall, Wednesday evening, Feb. 26, at seven o'clock. At this time, Prof. G. C. Smith will lecture on, "Christain Ideals of Business and Professional Honor, Employer and Employee."

These lectures, the titles of which have been issued to each student are short, snappy, entertaining and instructive, and no New Hampshire man can afford to miss them.

PROFESSOR BLANPIED.

After suffering for several years from the effects of a paralytic stroke, Professor Benjamin T. Blanpied, former college professor and inventor of a telephone device, died on Feb. 12 at his residence in this city, aged 65 years.

For many years he was dean of the faculty of New Hampshire State College at Hanover, N. H. Later he went to Bethany College, where he became vice-president.

Professor Blanpied had the distinction of perfecting the telephone, in cooperation with a professor of Tufts College, at almost the same time Alexander Graham Bell perfected it. For some time there was a dispute as to who deserved the credit.

J. Warren Smith and H. V. Boutwell, graduates of New Hampshire State College last summer started plans to have made a large painting of him to be hung in Conant Hall of their alma mater. "Columbus Journal."

Mr. A. J. Leighton, '12, is now working with the Babcock and Wilcox Co., of New York, N. Y., in the experimental department.

**"BACTERIOLOGY LABORATORY"
 EQUIPPED.**

The two small rooms in the Dairy Building, planned for a Dairy Research laboratory, have just been furnished and equipped with the necessary apparatus for the study of Dairy Bacteriology. The walls of the rooms are painted with white enameled paint, so as to make them easy to clean and free from dust. The table and desk tops are of asbestos and streaked with white enameled paint, making them fire and acid proof. The equipping of this room fills the greatest need of the Dairy Department. That the opportunities, afforded by the equipping of this laboratory, is appreciated by the students, specializing in dairying, is shown by the fact that all of the senior students, interested in dairying, have elected their theses along bacteriological lines.

The dairy bacteriology work is conducted by instructor W. R. Wilson, who has had splendid training in bacteriology at Cornell University.

"Jimmie" Bannon should make an ideal coach at New Hampshire college, and under him the baseball players at Durham are sure to be well drilled in all departments of the game. Jimmie knows about all there is to know about the diamond pastime and he is also a stickler for inside baseball and team play. It goes without saying when the New Hampshire players get into the hard games of the schedule that the team will be a smooth working machine." The "Manchester Union."

**When Drilling is Necessary
 You Never Stop to Dig.**

When you begin to clean your dairy what do you do? Do you use a cleaning material corresponding to the pick and shovel or is it

the dairy cleaning agent which cleans clean quickly and is of the same efficiency as the modern drill which drives thru the ground in far less time and at less cost than the old tools used in hard digging?

Wyandotte Dairyman's Cleaner and Cleanser, like the drill, does its work in a clean cut manner. Bits of dirt, old butterfat, refuse and stale matter are first loosened, brot to the surface and then easily rinsed away in the wash water without the slightest injury to the surface cleaned or to the users hands. Only the natural clean surface of the utensil remains, free from all odors, germs and bacteria.

The greatness of Wyandotte Dairyman's Cleaner and Cleanser lies in its power to clean everything in the dairy or factory sanitarly clean, with little work, and at a cost any dairyman can well afford.

Why hesitate to give Wyandotte Dairyman's Cleaner and Cleanser a trial? Your dealer guarantees those claims or it costs you nothing. Ask him for a five pound sack, or write your supply man for a keg or barrel.
