PRICE 5 CENTS

## N. H. 34 SPRINGFIELD 27. The Best Game of the Season.

In one of the fastest games ever played on the gymnasium floor, New Hampshire trimmed Springfield Training School Friday evening by the score of 34 to 27. The victory seems remarkable, especially after the Blue and White had lost to Springfield a short while ago by the score of 51 to 19.

The improvement which the team has made in the last two games is due to the shift, which Coach Eberle has made in the line-up. Thompson, who has been playing guard in most of the games, has been changed to forward, and Jenness '13 has been given the latter's position at guard. The change has worked wonders with the five. Without doubt, Thompson is one of the best forwards New Hampshire has ever had. Jenness never played much basketball until this year, but under Coach Eberle's instruction, has developed into a good guard. Both men weigh about 175 pounds, are fast on their feet and rangy.

Friday evening, the team obtained the jump on Springfield, and obtained a comfortable lead. The score after five minutes of play was 10 to 2 in favor of the home team. At the end of the first period, it was 19 to 14. Thompson caged six of the baskets, Jones 2, and Sanborn one. Thompson shot from almost anywhere on the floor and the ball generally went into the basket.

The second period was somewhat closer. Springfield could not overcome the lead established in the first half.

Thompson ended the game with ten baskets, Jones four, and Sanborn two, besides shooting two fouls. The Springfield coach tried to win the game by strategy. He shifted the line-up of his team, playing his best shots against the men on the New Hampshire team, who did not seem to cover closely. The scheme failed to work.

The visitors were fast and their team work was excellent. Mann, Nelson and Herkm were the best of the players used.

There was a large crowd at the game, and as the game was closely contested, it was on its feet most of the time, shouting frantically for New Hampshire. Some amusement was had, when Came had his jersey ripped completely off of his back and he had to make a hurried retreat to the dressing room.

The summary:  
New Hampshire. S. T. S.  
Thompson rf, lg, (Bell) Smith Search  
Jones (Bissell) lf, rg, (Smith) Stone  
Sanborn c, c (Smith) Fountain Search  
Jenness, (Lindquist) (E. Watson) rg.  
If Mann Herkim  
Came lg, rf Nelson  
Score—New Hampshire 34, S. T. S.  
—27. Goals from the floor, Thompson,  
10; Jones 4, Mann, Herkm 3, Nelson  
3, Fountain, Smith, Sanborn 2, Stone  
2. Goals from fouls, Sanborn 2, Smith  
3. Referee—Killourhy. Time 2, 20  
min. periods. Timers, Willard and  
Mills. Scorers, Twomey and Schultze.

Miss C. C. Swanson '05 has been appointed superintendant of the Franklin Square House. Boston, Mass.

## ASSISTANT BASKET BALL MANAGERS.

At a meeting of the athletic Association, held immediately after chapel Wed. Feb., 26, Clarence J. Dresser, Fred C. Smith and John H. Annis were elected assistant baseball managers. It was also voted that a committee be appointed to draw up copies of the constitution with some changes to be submitted to the association for consideration.

## SUMMARY OF MOTH DEPARTMENT WORK.

A new bulletin has recently been published by the State Moth Department, containing a statement of the plan of the Gypsy Moth Work, its relations with the federal authorities in suppressing the pests, and a resume of the work being carried on by the state department. The bulletin concludes with a list of circulars, furnished and distributed to citizens by the department.

## PROF. G. C. SMITH DELIVERS LECTURE.

Prof. Guy C. Smith, Professor of Economics, gave a most interesting and helpful talk in Conant Hall, Wed. evening, Feb. 26, under the auspices of the "Life Problems Lecture Course."

He treated his subject, "Christain Ideals of Business and Professional Honor," in a manner which appealed to every student present, whether interested in engineering, agricultural, or professional lines. He stated that a religion which could not be applied to every day life was incomplete and worthless; and that, while he did not believe that the teachings of Christ could in any way directly assist modern civilization in solving the present industrial, economic and social questions, they did uphold those ideals which were absolutely necessary in solving any problem. He further stated that no individual nor organization can obtain the most efficient and satisfactory solution of such problems without inculcating Christ's ideals, as shown by his teachings, into their every day life.

## CLASS OF 1914 LOSES RESPECTED MEMBER.

On Thursday night, Feb. 28, the class of 1914 lost one of its most respected and versatile members in Thomas Albert Davis of Dover, N. H. For somewhat over a week, Mr. Davis had been critically ill with typhoid pneumonia at the Wentworth Hospital. His condition grew worse instead of better, and, after lingering for some days on the verge of death, he breathed his last at one o'clock Friday morning.

He was born in Dover on April 28, 1892, being just 20 yrs., 10 mos. of age. He graduated from Dover High School in the class of 1910 and entered New Hampshire College the following autumn with the class of 1914. Since entering college, he became very active in various activities and was one of the most popular members of the class. Besides being a member of the varsity track team, he was captain of his class team, played on his class football team, was 1st. Lieutenant in the military department, art editor of the 1914 "Granite," and a member of the Theta Chi Fraternity, besides being active in various social functions.

## BASEBALL SCHEDULE.

The baseball schedule for the coming season is now completed and ready for publication. Through the efficient work of Manager A. W. Jenness, six home games have been arranged. A game with Brown University, the first one for several years, has also been scheduled. There will be two games with Bates, our old rivals, one in Durham and one in Lewiston. Owing to a conflict with the faculty, it was impossible to arrange a game with the University of Maine. The faculty favor the playing of some of the larger "prep" schools of good standing, such as Exeter, Andover and Cushing. There will be three trips made, the first one including the first five games of the schedule, coming during the spring vacation. The second trip will be to Norwich and Middlebury, Vt., while the third one will be to Lewiston, where we "cross bats" with Bates. The schedule is as follows:

April 22 Dean Academy at Franklin, Mass.  
April 23 Brown University at Providence, R. I.  
April 24 Springfield College at Springfield Mass.  
April 25 Worcester Tech at Worcester, Mass.  
April 28 Cushing Academy at Ashburnham, Mass.  
April 30 Bates College at Durham, N. H.  
May 3 Phillips Andover at Andover, Mass.  
May 7 Norwich at Northfield, Vt.  
May 8 Middlebury at Middlebury, Vt.  
May 14 St. Anselms at Durham, N. H.  
May 16 Springfield College at Durham, N. H.  
May 21 Phillips Exeter at Exeter, N. H.  
May 24 Worcester Ins. of Tec. at Durham, N. H.  
May 27 Bates College at Lewiston, Me.  
May 30 Rhode Island at Durham, N. H.  
June 4 Norwich at Durham, N. H.  
June 10 Freshman vs Sophomores at Durham, N. H.

## PROF. RASMUSSEN ATTENDS CONFERENCES.

Last month Prof. Fred Rasmussen was in New York City, attending a conference on State Control of the Milk Supply and Bovine Tuberculosis, called by the New York Milk Committee. Three delegates from each of the New England states and New York and Pennsylvania were chosen by the governors of their respective states, Prof. Rasmussen having the distinction of being one of the three, chosen by Gov. Felker.

Prof. Fred Rasmussen also had the honor of speaking before the joint committees of "Agriculture" and "Public Health" of the Massachusetts state legislature on "Dairy Laws, Affecting the Dairy Industry."

Prof. Rasmussen recently organized the White Mountains Holstein Breeders' Association at Littleton, N. H.

## BILLS NOT YET REPORTED.

The appropriation committee has yet failed to report the college bills in the legislature at Concord. It was expected and the report was given out that they would be reported last Wednesday but the event failed to happen.

## PRES. E. T. FAIRCHILD ATTENDS MEETING.

President E. T. Fairchild was in Philadelphia, Pa., during the greater part of last week, attending the annual mid-winter session of the National Education Association.

President Fairchild has the distinction of being President of this Association, which holds an annual convention in July, in addition to the mid-winter session, recently held at Philadelphia. This association is one of the largest educational organizations in the United States, and New Hampshire College may justly boast in having for her head such a distinguished man as Dr. Fairchild.

## FOUNDERS NIGHT.

Last year the first annual Founder's night was observed in Thompson Hall, when Hon. H. L. Boutwell, '82 and also a trustee of New Hampshire College, delivered the main address upon "The Significance of the Land Grant College." The value which this night had on instilling the true spirit upon the student-body can hardly be overestimated. It served not only to make the students more loyal to their college, but also in binding the alumni, faculty, and undergraduates into a closer feeling of brotherhood in their united support of New Hampshire College. This year Founder's night will be celebrated in Thompson Hall on Friday evening, March 21.

President E. T. Fairchild will deliver the address of the evening and it is expected that the college glee club and orchestra will furnish music for the occasion.

## 1914 RESOLUTIONS.

Whereas: Death has removed from among us our friend and classmate, Thomas Albert Davis, and,

Whereas: The Class of 1914 of New Hampshire College has lost a worthy member, a loyal student and a beloved friend, be it

Resolved: that we, the class, extend to father and sisters our deepest sympathy in the loss which they have sustained, and be it further

Resolved: That we express to Mr. Davis our keen appreciation of the manly influence of his son, and of the friendly assistance which we and the whole college have always received from his example and personality.

For the Class:

Guy L. Ham,  
Clarence J. Dresser,  
Gerald N. Perkins.

## PHOTOGRAPH OF N. H. C. BUILDINGS IN STATE HOUSE.

The Publicity Committee has placed one of the group pictures of New Hampshire College in the State House at Concord, N. H. It is placed in the main corridor on the first floor in a very conspicuous position, where it can be seen by all those entering the building. It is hoped that this may result in good, as it will give those who have never visited Durham some idea of the several college buildings.

Webb Little '11 was a college visitor the later part of last week and the first part of the present week.

"Entered as second-class matter September 20, 1911, at the post office at Durham, N. H., under the act of March 3, 1879."

DURHAM, N. H., MAR. 5, 1913.

Although words are inadequate and although we feel entirely insufficient at a time of such wide-spread sorrow, to express the extent of our bereavement or to commemorate the life of our friend, may we not write a few lines in reverent appreciation of our fellow student who has recently been taken from us?

Would that his life, so auspiciously begun, had grown to its fullness. He was a lad who commanded the respect of every man, the love of those who knew him. He possessed a keen mind, with a ready wit; a soundness of body and limb which was admired by all; a wonderful power of expressing sympathy with those who needed its soothing touch; the genial quality of a good companion, a perfect sense of honor.

To his family, who will indeed feel his loss most deeply; to his intimate associates, who appreciated him to the fullest; to his fraternity brothers who will ever dearly cherish the fondest memories of his youth, we extend the sincerest sympathy which can come from the human heart.

## Reflectoscope for Agronomy Dept.

A rather expensive piece of apparatus, costing \$210 has just been ordered in shape of a reflectoscope by the Agronomy Department. This instrument is to be used for projecting lantern slides, tabular matter, post cards and other pictures, and opaque objects like seeds, grains, etc, upon the screen. Such an instrument will add materially to the interest and effectiveness of lecture and demonstration work.

## Y. W. C. A.

On Feb. 8, 1913, Miss Mary J. Corbett, student secretary for the Northeast, organized a Y. W. C. A., at New Hampshire College. The following officers were elected: Pres. Helen W. Plumer; Vice Pres., Alice V. Coffin; Secretary, Sadie B. Johnson; Treasurer, Rocina M. Diettrich; Chairman Membership Committee, A. V. Coffin; Chairman Finance Committee, A. M. Diettrich; Chairman Religious Committee, H. E. Loeke; Chairman Social Committee, W. Hodgdon; Chairman Mission and Bible Study, M. E. Lord; Advisory Member, Mabel E. Hodgkins.

## INTER-COMPANY MEET.

It has been definitely decided by the military department that an indoor inter-company meet will be held this year, somewhat similar to the one of last year. Although the date as not yet been officially announced, it will probably be during the latter part of March. While it will be similar to the one of last year, some changes will be made, by which it is hoped that the more undesirable features will be eliminated. The lutts manual will probably not be entered as an event this year, while it is likely that the number of relay races will also be diminished.

The following events have been proposed as entries, although they are subject to change.

	No of men from each Co.
Celesthenics and Bar bell	8 men.
25 Yard Dash	3
Apparatus Work	3
Shot Put	3
Running High Jump	3
Pole Vault	3
4-Lap Relay	3
1000 Yards Run	3
1 Mile Run	3

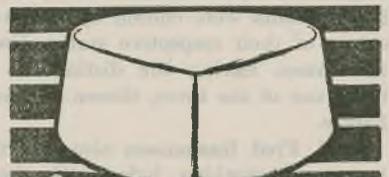

## PROF. CARDULLO TO SPEAK AT HARVARD.

Prof. Forrest E. Cardullo is to lecture before the graduate school of Business Administration at Harvard University on the evening of April 3rd. on "Some Aspects of Scientific Management." The work of the graduate school is largely given by authorities in the different subjects taught. Among other lecturers in the course on scientific management are Dr. Taylor, Mrs. Gilbreath, Thompson, Barth, and Hathaway. The course is similar to the one in "Economics of Engineering," given by Prof. Cardullo.

Prof. F. E. Cardullo's book on "Practical Thermodynamics" has been adopted as a text-book at Cornell University. Several other colleges have adopted it this year, including Michigan, Minnesota, and Pennsylvania State College.

Prof. W. C. O'Kane, Prof. J. H. Foster and C. H. Hadley Jr., recently attended a conference at Boston, Mass., on "The Gypsy Moth Question" in the office of F. W. Rane, State Forester of Massachusetts. Representatives from Maine, New Hampshire, Vermont, Massachusetts, Rhode Island, and the Bureaus of Entomology and Forestry in Washington were present.

Mr. Harold M. Smith of Rochester, N. H., was the chapel speaker on Wed., Feb. 26. He spoke upon the "Advisability of Supplying Strafford and Rockingham Counties with Water from Merry-meeting Pond, located in New Durham, N. H."

# DE LAVAL CREAM SEPARATORS

## Those who know buy the DE LAVAL

**Creamerymen**—Because they are experts in the handling of cream and know by long experience that the De Laval skims cleanest and wear longest. That is why 98 per cent of the World's creameries use the De Laval exclusively.

**Experienced Dairymen**—The De Laval is the universal favorite among big dairymen. They know that no other separator will give them such satisfactory service.

**Old De Laval Users** Whenever a man who has used an old model De Laval decides to purchase a later style machine he invariably buys another De Laval.

**Men Who Investigate**—If any one takes the time to investigate the merits of the various cream separators, either by finding out from other users what kind of service their machines have given or by testing other machines out against the De Laval, the chances are a hundred to one that his choice will be the De Laval. More De

Laval machines are in use than any other make. There is a reason. The De Laval agent in your locality will be glad to tell you why.

The new 72 page De Laval Dairy Hand Book, in which important dairy questions are ably discussed by the best authorities, is a book that every cow owner should have. Mailed free upon request if you mention this paper. New 1913 De Laval catalog also mailed upon request. Write to nearest office.

### RELATION OF THE STATE TO THE COLLEGE.

The following letter recently appeared in "The Manchester Leader"

"American patriotism means to perpetuate those principles which keep aloft the Standard of this nation. The present means for this end are unlike those of the past..."

The only efficacious agency for shaping the course of a nation is its schools. In fact in them was the culmination of the hopes of the founders of this great republic. Their foresightedness is abundantly justified by the army of worthy representatives of those institutions.

The New Hampshire College as one of those institutions has played its part within and without the state. It has encountered storms of financial limitations, yet always boyant with her high ideals, that of training "capable and successful" citizens. She has pressed onward till now she finds herself grown in a marvelous degree. But the need is still there. The state appropriations are very meager and the other sources seem to be limited. No desperate means is necessary to alleviate this condition. The pledge of the moral support of every citizen of this commonwealth is requisite, following by appeals to the legislature at Concord for larger appropriations for the New Hampshire College.

This will enable our institution to be a true representative of the state of New Hampshire and the paragon of patriotism by "performing its duty to the young women of New Hampshire" by establishing a course in Domestic Science and Household Arts.

Thus having exercised our privilege toward New Hampshire College let us be ever ready to bestow our praise upon her whenever she commands her rightful position, our assistance when she fails to reach her highest efficiency."

Yours Respectfully,  
B. K. B.

### COMMENCEMENT OFFICERS.

At a meeting of the Senior Class last Thursday noon the following Class Day speakers and Commencement committees were elected:

Address of Welcome, President P. C. Gale, Concord, N. H.

Address to Faculty and Undergraduates, H. E. Hayden, Durham.

**FRESHMEN 37—CONCORD INDEPENDENTS 22.**

The freshmen annexed another victory Saturday evening, by trimming a five, composed mostly of Concord High School students, the final score being 37 to 22. Torrey shot five baskets from the floor for the freshmen, while Burbee caged the ball 11 out of 14 times, on shots from fouls. Callahan excelled for the visitors.

The summary:  
 1916 Concord.  
 Burbee lf, rb Green  
 Steele, (P. Watson) rf. lb Reardon  
 Torrey, c, c Murphy  
 Price, (Brown) rh rf Hyde  
 Hooper lb, lf, Callahan  
 Score 1916, 37; Concord 22. Goals from the floor, Torrey 5, Callahan 4, Steele 2, Hooper 2, Green, Reardon 2. Goals from fouls, Burbee 11, Callahan 4. Time, 2 20 minute periods. Referee Eberle. Timer Burke.

**ODDS AND ENDS.**

The sporting editor received this last week a letter from W. H. Gildersleeve, who coached the New Hampshire football team in 1909. He is now physical director of Westminster College at New Wilmington, Pa. He coaches football and baseball and has charge of the gymnasium classes. Gildersleeve coached the only New Hampshire team, which has ever trimmed Massachusetts at Manchester, the score being that year, 17 to 0.

 PRINTER**

501 Central Ave., Dover, N. H.

**BRACKETT'S LUNCH ROOM,  
 AT THE BLOCK.**

**Cigars, Cigarettes and Tobacco of All Kinds.**

It is the only place in college where you can get the famous Finley Ice Cream, made in Dover

**Meals Served Up To Almost Midnight.**

**When Drilling is Necessary  
 You Never Stop to Dig.**

When you begin to clean your dairy what do you do? Do you use a cleaning material corresponding to the pick and shovel or is it

the dairy cleaning agent which cleans clean quickly and is of the same efficiency as the modern drill which drives thru the ground in far less time and at less cost than the old tools used in hard digging?

Wyandotte Dairyman's Cleaner and Cleanser, like the drill, does its work in a clean cut manner. Bits of dirt, old butterfat, refuse and stale matter are first loosened, brot to the surface and then easily rinsed away in the wash water without the slightest injury to the surface cleaned or to the users hands. Only the natural clean surface of the utensil remains, free from all odors, germs and bacteria.

The greatness of Wyandotte Dairyman's Cleaner and Cleanser lies in its power to clean everything in the dairy or factory sanitarly clean, with little work, and at a cost any dairyman can well afford

Why hesitate to give Wyandotte Dairyman's Cleaner and Cleanser a trial? Your dealer guarantees those claims or it costs you nothing. Ask him for a five pound sack, or write your supply man for a keg or barrel.
