## SORORITY

### PRESENTS PLAY

#### Pygmalion and Galatea Well Received.

As first announced in last week's issue of The New Hampshire, "Pygmalion and Galatea" was presented Saturday evening in Thompson Hall under the auspices of the Alpha Alpha Alpha sorority. A representative gathering of the College thespians, as well as many theatrical connoisseurs from neighboring cities were in attendance.

The play is a Grecian classic and was admirably presented by an all star cast. Many new stars of the foot-lights were introduced and our old friend Murdock was there with the fun-making as usual. Miss Gillespie, in the leading role, gave an excellent exhibition of acting. Great credit is due her for her non-pareil portrayal of the vivified statue, Galatea. P. A. Foster, as Pygmalion, also had a strong part and he played it well. Around him and his work the entire play is centered and Foster showed himself amply able to bear the responsibility of this role.

Also playing opposite Foster as his wife Cynisoe, appeared another talented emotional actress, Miss Helen Plummer. Everyone was pleased with her able interpretation of this important part.

A. L. Murdock and Miss Winifred Hodgdon introduced some clever bits of acting at opportune points to relieve the tension of the tragedy. They were always enthusiastically received; as also were R. I. McCartney and Miss Harriet Locke, each of whom showed marked talent. R. A. Knight and D. P. Crockett were also there with bells in giving the finishing touches to the atmosphere of ancient Greece.

Music was furnished by the Colby orchestra and the trio of stringed instruments introduced at tragic moments of the play added much to the impressiveness of the action portrayed. The electrical effects were under the personal supervision of electrician C. Edson Roberts of Nesmith Hall. The play was staged by Prof. A. E. Richards with Prof. W. G. Fisher as stage manager, as a benefit for the New Hampshire college song book.

#### BASEBALL PRACTICE.

The candidates for the baseball team, under the direction of Capt. Brackett, have been practicing daily on the Thompson Hall diamond. Coach "Jimmie" Bannon of Rochester reported last Monday.

From last season's team, there are left Capt. Brackett who played short stop; H. W. Sanborn, Paulson and Adams of the pitching staff; Welch and Gale of the catching department; Jones, third base and Reardon, left field. There are a number of new men out this year who will undoubtedly make the old players hustle for their positions. It is yet too early in the season to say much about the possible line-up of the team.

## FOUNDER'S NIGHT CELEBRATED.

### President Fairchild Addresses Students.

Last Friday night in Thompson Hall the students and faculty celebrated Founder's Night. The occasion was one largely attended and full of enthusiasm, especially for the address of the evening by President E. T. Fairchild. Among the other attractive numbers on the program was the representation of the Y. M. C. A., which has been recently established by Miss H. W. Plumer, '15.

The evening's program opened with a pleasing selection by the Glee Club which was vociferously encored. Following this, Professor C. E. Hewitt, who was the chairman of the evening introduced N. D. Paine '13 as the first speaker who spoke briefly of track athletics at New Hampshire, outliving the prospects for the interscholastic track meet which is to be held in Durham, May 10.

P. C. Jones was next introduced to represent the young Men's Christian Association. His remarks were brief and to the point, showing the type of work that organization is doing, especially emphasizing the deputation work and its influence upon the college. W. H. L. Brackett '14, varsity baseball captain, spoke of that branch of sport commending the coach Mr. Bannon, and expressing confidence in his ability to produce a winning team.

T. J. Twomey '13 briefly outlined the history of journalistic publications at New Hampshire, explaining the nature of the first monthly periodical that the students published. The Glee Club then rendered another encored selection after which L. N. Barrett '13 spoke of the work of the College Club as a student, exhorting more universal support among the students.

Miss Helen W. Plumer represented the young Women's Christian Association in a very creditable manner, stating the purpose of the organization and the work that it hoped to accomplish in the future. C. J. Dresser '14, then spoke in behalf of the college Orchestra, followed by R. M. Sanborn '13, of the Glee Club. Each expressed the assurance that these two organizations were ever ready to respond to the call of the student body. A selection was then given to the college orchestra, receiving a hearty encore.

Professor Hewitt then introduced the speaker of the evening, President E. T. Fairchild, who spoke interestingly and forcibly on "The Meaning of College Life." In his introductory remarks he paid a tribute to Benjamin Thompson emphasizing the debt we owe to him and to the man who made land grant colleges possible. He also briefly stated the advantages of a small college, saying that the helpfulness of an institution is not wholly dependent on its size, but that there comes was a compensation of our necessary poverty blessing a closer inter-relation, student with student, and student with faculty, and an economic example of incalculable value.

He then addressed the student body at considerable length on the characteristics that a successful man must possess, particularly emphasizing the part a college education plays in developing those qualities which are essential to a "manly man."

The evening's program was concluded by college cheers, led by Robin Beach '13, and Alma Mater sung by audience.

## INTER-COMPANY

### MEET TONIGHT.

#### Trials Held Monday at Drill Period.

The second annual inter-company meet of the cadet battalion will be held in the gymnasium this evening. The trials were held on Monday at drill period and at four o'clock in the afternoon. The competition, from the results, of the trials, is going to be very keen, and at the present writing, there is no telling which company will win the meet.

The band will furnish music for this evening's program. The events to be held and their probable order is as follows: semi-finals, 25 yard dash; calisthenic drill; finals, 25 yard dash; apparatus work; shot put; high jump; pole vault; finals 1000 yard run, finals 600 yard run; mile run, and finals, relay race.

Three medals will be awarded the three highest point winners: gold for first, silver for second and bronze for third. They have been on exhibition in the battalion bulletin board during this week. A new system of scoring has been adopted this year, for the individual work. The places in the calisthenic drill and the relay races will count five, three, and one on the individual score. In the other events, they will count ten, six and two.

Toward the company score, all events will count five, three and one. The company winning the meet will be awarded 50 points to its credit, in the competition for the color company.

George O'Connor, the famous Exeter trainer, and John Carney, who is now coaching at Exeter, and who had charge of the New Hampshire baseball team for two seasons will act as judges.

The results of the trials, held on Monday were as follows:

#### 25 Yard Dash.

1st, Ht—Won by Sellers, Co. A; second, Huse, Co. D. Time 3 sec. 2nd, Ht—Won by Reed, Co. C., second, Davis, Co. A. Time, 3.3-5 secs. 3rd, Ht.—Won by Woodman, Co. D; second, Hooper, Co. C. Time 3 3-5 sec.s

#### Shot Put.

The following qualified for the finals in the shot put Bugbee, Co. B, dist. 38 ft. 5 1/4 in; Woodman, Co. D, dist. 37 ft. 3 in; Thompson, Co. C., dist. 36 ft. in.

#### Pole Vault.

Smart, Co. B. Hurd, Co. C., Huse, Co. D., and Welch, Co. C. are left for the finals in the pole vault, the height being eight feet, six inches.

#### High Jump.

The following will compete in the high jump; Pattee, Co. B., Hooper, Co. C., Blodgett, Co. D., Steele, Co. A.

#### 100 Yard Run.

First Ht.—Won by Knight, Co. B; 2nd, Tufts, Co. C. Time 2 min, 46 3-5 sec.

Second Ht.—Won by Clark, Co. B., 2nd, E. Watson, Co. C. Time, 2 min., 40 3-5 sec.

Continued on page 4

## ARRANGEMENTS FOR INAUGURATION.

### Attractive Program Planned.

The committee of trustees and faculty five in number, appointed to arrange the program of the inaugural exercises of President E. T. Fairchild has begun to make plans for a gala occasion on the day on which the new executive head of the college is to officially assume his duties. Trustees Brigham and Boutwell, and Professors Pettee, Hewitt, and Groves are working upon the final arrangements of the program of speakers for the occasion and it is expected that within a few days the list of accepted speakers will be published.

The date for the inauguration has been set as May 21. The exercises themselves will take place in the gymnasium at eleven o'clock in the morning, after which lunch, will be served to the guests of the college. The post prandial addresses will be an attractive part of the program for many of the most prominent educators of New England will respond.

Those who are to be invited to attend the inaugural will number in the hundreds, consisting of representatives of all of the land grant colleges and universities in the country, prominent friends of the college outside of the state, the leading educators of New England and the most prominent men of New Hampshire. It will probably be impossible for all of those invited to attend but among those expected to be present are a few prominent Western men, friends of President Fairchild, and many of the leading men of New Hampshire and her neighboring states.

Just what part the students and alumni are to play in the program of the day is as yet unannounced but probably a part of the battalion will form an escort for the day, while undoubtedly many of the undergraduates will be requested to assist in arranging the details of the inaugural ceremonies. President Fairchild will, of course, deliver the inaugural address, although some of the other speakers are not yet decided upon.

The faculty has been divided into sub-committees to arrange the details of the occasion. The committees are: Invitations, Whoriskey, Cardullo, Kendall; Dinner, O'Kane, Butler; Program of Banquet, Smith, James; Music, Putnam; Decorations, Gourley, Miss Black, Fisher; Battalion Escort, Lieut. Hunt; Ushers, Jackson; Transportation, Steek; Entertainment, Moore, Eckman; Reception, Taylor, Richards, Foster; Honorary, Degrees, Scott, Rasmussen, Whoriskey.

#### TRACK.

Since Coach "Tod" Eberle announced the call for track candidates a few weeks ago, almost sixty men have reported. This last week most of the practice was held on the track out of doors. The coach is having the track put into shape. He has the oval resurveyed and when in condition, it will be just one-quarter of a mile. Before, it was about twelve feet over this distance. In order to hold the track in shape the inside of the track has been lined with boards which will prevent the track from giving away and will keep the cinders from working into the ground on the disc.

DURHAM, N. H., APRIL 2, 1913.

Extract from President Fairchild's Founder's Night address:

The reason for going to college is not for material advantages alone. This is important!—but secondary culture and character are everywhere more valuable than dollars. As we learn the great facts and laws of nature we are lifted up and out of ourselves—life takes on new meanings. We are inevitably raised to a higher plane of thought and action. When we look at the mighty secrets that men have wrested from the starry page above us, or from the earth beneath us, we say softly and reverently, "I think Thy thoughts after Thee, O God." We also feel that what man has done man can do. Thus are we inspired to nobler effort. And there remains yet so much to discover; terrestrial nature is one huge sphinx, she vomits enigmas on us in seas. Riddles too profound for the highest science yet in our possession lurk in every ray of light, in every blade of grass, in every rudest stone. From surface to center the earth is choked with mysteries. We, the heir of all the ages, are still upon the outer rim of part. It is the college bred man, apprenticed to the trade of study and research, who must carry forward this world-old search for truth.

College friendships are factors of profound importance. Among your classmates today are those who in after years will be numbered among the most useful citizens. Within the sound of my voice are those who are to rise to position of high honor, of trust, of influence for good. To know them, to feel the inspiration of their example, is itself a liberal education. This contact with the student body, this give and take with energetic, ambitious, confident youth, is a most effective spur and it makes for the purest democracy. Here no lesson is more thoroughly learned than that of respect for the other fellow and his opinions. One soon learns that his own abilities or his own particular views are not by any means of the highest order or of the most authoritative character.

The kind of man or woman who is really worth while is the individual, who has a high sense of honor, with whom duty is never to be sacrificed for pleasure or liesure. With such a person honor, duty, high purpose, clean thought clean living are always in evidence. The call of the twentieth century is for men and women who shall be what they have a right to be, kingly citizens and citizen kings, seeking only that which is right and eschewing that which is evil. In the face of whatever difficulty or trial that may present itself,

the true man continues steadfast and unwavering.

"It is defeat," says Henry Ward Beecher, "that turns bone to flint, gristle to muscle, and makes men invincible." You are never so near to victory as when defeated in a good cause. Failure is the final test of persistence and of an iron will; it either crushes life or solidifies it.

No one is a failure who is honest and true. No cause is a failure that is entrenched in right. There is but one failure and that is to be false to the best that is in us.

What matters it,  
"If what shone afar so grand  
Turns to ashes in the hand?  
On again—the virtue lies  
In the struggle, not the prize."  
Only one life to live. We all want to make the most of it. Shall we do it?

## APPROPRIATION BILLS STILL IN HANDS OF THE COMMITTEE.

The appropriation bills in the favor of the college before the legislature at Concord, are still in the hands of the appropriation committee and have not as yet been reported to the house.

For the last two weeks, it has been expected that they would be reported any time. Monday, the time when this item was written, Pres. Fairchild stated that he expected the bills would make their appearance this week.

The committee is using the college fair in this matter. There are other special appropriation bills in favor of other institutions of the state and they have not been reported. All special appropriation bills are being used alike.

## DEATH OF WIFE OF FORMER STUDENT.

Fleanor Maude Silver, wife of B. E. G. Silver, 2 yr, 1910, died at the Homeopathic Hospital in Boston, March 9th. Mr. Silver, who was confined in the same hospital at that time on account of an operation for a ruptured appendix, is now at his father's home in Roxbury and is convalescing rapidly.

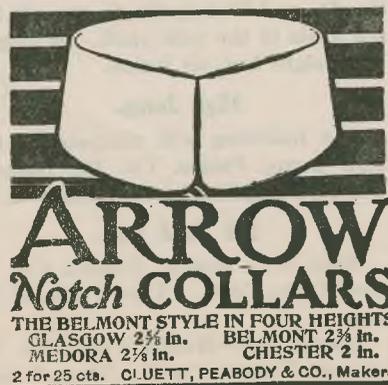

At a meeting of the Freshman Class held last Thursday noon, C. H. Eurbee was elected class track manager.

# DE LAVAL CREAM SEPARATORS

## Merit Confidence

CONFIDENCE is one of the most important and satisfactory considerations in every act and interest in life.

There is nothing the dairy farmer buys that is of as great importance to him as the cream separator, which SAVES or LOSES money in quantity and quality of product every time he puts milk through it, TWICE A DAY 365 DAYS IN THE YEAR and lasts from six months to twenty years according to the durability of the machine.

Hence the importance of only making so serious an investment with COMPLETE CONFIDENCE that you are buying THE BEST and that which will LAST LONG-EST.

Every man knows what a cream separator is knows that this is true of the DE LAVAL, the original and for thirty years the "WORLD'S STANDARD" cream separator.

Somebody may CLAIM as much for some other separator, but no buyer can possibly have equal CONFIDENCE in its being so.

The new 72 page De Laval Dairy Hand Book, in which important dairy questions are ably discussed by the best authorities, is a book that every cow owner should have. Mailed free upon request if you mention this paper. New 1913 De Laval catalog also mailed upon request Write to nearest office.

### ALUMNUS SPEAKS.

At a meeting of the Northern New Hampshire Pomona Grange held at Whitefield, March 21, C. H. Hazen, who was graduated in the class of 1881, presented a paper entitled "Good Cows vs Poor Cows." He also took part in a discussion on "Our Agricultural College, Its Advantages, Its Needs, Its Rank in the State and the Duty of the Grange to the College."

### AT CHAPEL.

At chapel last Wednesday, after speaking of the suitability of calling our institution "The College of Dean Pettee and Professor Scott", President Fairchild introduced as the speaker Professor C. W. Scott who chose as a subject "One of the Greatest Thinkers of the Eighteenth Century". Outlining briefly the life of Jonathan Edwards, he told of the scope of his literary work and of the power of his personality, concluding with appreciative remarks of his famous philosophy.

### SALLY'S MISTAKE.

It Cost Her a Rich Husband and Gave London Guy's Hospital.

That bequests to individuals and to public benevolences are frequently the result of a mere whim or of caprice has no better illustration perhaps than the case of Thomas Guy, who built and endowed the great Guy's hospital of London at a cost of £238,292 nearly 200 years ago.

Guy had a maid servant of strictly frugal habits, who made his wishes her careful study. He resolved to make her his wife. The necessary preparations were made for the wedding, and among others many little repairs were ordered by Mr. Guy in and about his house. The latter included the laying of a new pavement opposite the street door.

It so happened that Sally, the bride elect, observed a piece of pavement beyond her master's house that required mending, and of her own accord she gave orders to the workmen to do this.

This was done in the absence of Mr. Guy, who on seeing more work done than he had ordered was informed that the additional work had been done by the mistress' orders. Thereupon Guy told Sally she had forgotten her position and added: "If you take upon yourself to order matters contrary to my instructions before we are married what will you not do after? I renounce my matrimonial intentions toward you."

So Sally lost a rich and grouchy husband and London gained a noble institution for the poor.

### INTER-SCOLASTIC PRIZE READING CONTEST.

The second annual prize reading contest, under the auspices of the English Department of New Hampshire College, will be held in Thompson Hall on the afternoon and evening of May 9th. The contest will be somewhat similar to the one last year, only the contesting schools will this year be limited to New Hampshire. Preliminary trials will be held at three o'clock in the afternoon, Prof. A. E. Richards, of the English Department, acting as judge. The winners will contest in the finals at eight o'clock in the evening. The English Department will appoint three judges to decide the final winners. There will be three prizes: first, fifteen dollars; second, ten dollars, and third, five dollars.

Owing to the success of the contest last year, it is expected that a still greater number of readers will appear this year. Their entertainment will be in the hands of the student-body of the college. As this event will occur on the eve of the inter-scholastic track and field meet, a fine opportunity will be afforded for the students and faculty to "show up" the college to the best advantage.

### CHRISTIAN ASSOCIATION.

At the annual meeting of the Christian Association held in Thompson Hall last Thursday evening, the officers for the ensuing year were elected. The committee on appointments, consisting of R. H. Knight, C. R. Heath and C. E. Roberts, submitted the following nominations which report was unanimously accepted. The following men were then declared elected: President, H. V. Bent, '14; 1st Vice-President, C. R. Heath, '14; 2nd Vice-President, R. H. Holmes, 2 yr, '14; Secretary, H. H. Lindquist, '15; Treasurer, D. W. Ladd, '14; Assistant Treasurer, D. P. Crockett, '16. It was voted to pay the expenses of President Bent to the Eastern Presidents' Conference to be held at Harvard next week. The reports of the treasurer and of the standing committees were then read and accepted.

### DEPUTATION TRIP.

The Christian Association deputation team spent the week-end at Union, N. H., presenting an entertainment Friday evening and addressing the boys of the community on Saturday and Sunday. At the evening church service Sunday, P. C. Jones, H. H. Lindquist and G. N. Perkins spoke on "The Challenge to Service."

### The Bigness of Little Things.

The typhoid fever germ is microscopic in dimensions, but unless treated with the typhoid serum is mighty in the results it is able to accomplish.

With equally humble origin and unpretentious size the bacteria of unclean milk reduce its market value as well as the market value of the butter or cheese into which such milk is manufactured.

To insure against such injury by removing bacteria as well as all other objectional matter as far as is possible to be done physical and mechanical means is the work of

How well it does this work is not a matter of hedsray, but one upon which abundant proof of an authoritative, as well as a practical nature is easily obtainable. Or wear is better, ask your dairy supply man to send you a barrel or keg of Wyandotte. Try it for yourself, if not all we say the trial will cost you nothing.
