## BASE BALL GAMES PLAYED

### Team Splits Even on Trip.

The baseball team returned from their trip to Vermont Saturday with an even break to their credit. Norwich University was easily defeated May 7, 9 to 2, while Middlebury scored a shut out of 3 to 0, the following day.

#### Norwich Game.

The Norwich game only lasted five innings as our men had to catch a train. However five innings proved plenty for the Norwich team, as the New Hampshire men were fattening their batting averages to a considerable extent. Norwich scored her two runs in the first two innings and held the lead until the fourth when New Hampshire started things. In the second, Jones made a three bagger and scored on a single by Welsh. Welsh started the ball rolling in the fourth with a screeching three base hit, which Burbee followed with a neat single. Four bad errors and a hit by Cram brought in four more runs. In the fifth Jones singled, scoring on another three base hit by Welsh. Burbee and Reardon followed with singles bringing in two more runs. Welsh starred for New Hampshire with two three baggers and a single.

The game was called off in the sixth with two New Hampshire men on bases.

#### The summary:

New Hampshire	r	bh	po	a	e
Fernald cf	0	0	0	0	0
Brackett. ss	0	0	1	3	0

#### Totals

	r	bh	po	a	e
New Hampshire	0	1	0	5	3
Norwich	1	1	0	0	2

Three base hits—Welsh, 2; Jones. Two base hits, Reardon, McKane, Belyea, Base on balls, off Bissell 2; off Murray 4. Struck out, by Bissell 3; by Murray 5.

#### Middlebury Game.

McLaughlin kept New Hampshire's hits well scattered and Middlebury won 3 to 0. Middlebury scored two runs in the fourth on singles by Triggs, Wealer and Williams. In the sixth

Triggs smashed out a two bagger and scored on a hit by Aylward.

#### The summary:

	1	2	3	4	5	6	7	8	9
N. H.	0	0	0	0	0	0	0	0	0
Middlebury	0	0	0	2	0	1	0	0	x—3

Two base hits, McPheters, Triggs. Singles—Fernald, Burbee, Triggs, Aylward, Wealer, Williams. Bases on balls, off McLaughlin 2.

#### BASKET BALL MANAGER.

#### L. S. Riford Chosen For Next Year.

L. S. Riford, '14, has been elected basket ball manager for the season of 1913-14. Manager Riford has acted in a most efficient manner as assistant manager during the past season and his experience in that capacity should make him an able man to succeed C. S. Adams. Mr. Riford is a member of the 1914 "Granite" Board and a member of the Zeta Epsilon Zeta and Alpha Zeta Fraternities.

#### N. E. F. A. S.

The sixth annual meeting of the New England Federation of Agricultural Students was held, May 3rd at the University of Vermont. Each year the local "Aggie" Club sends a representative to take part in a discussion and formation of rules which govern the students judging contests. Teams from the several N. E. colleges compete for prizes in stock judging, corn judging, apple judging and packing. In past years, New Hampshire has won her share of the cups and ribbons, having several trophies to her credit in the case at Morrill Hall. Officers elected at the recent meeting are as follows: Pres., H. Reiner, R. I.; Vice Pres., C. Oliver, Conn.; Sec.—Treas., C. F. Rines, N. H. C. F. Rines of N. H. represented the college at the last session of the federation.

#### INITIATION AND BANQUET.

The annual initiation and banquet of the Granite Chapter of the Alpha Zeta Fraternity was held at Simpson's Durham Point, Thursday, May 8, '13. The second and third degrees were worked upon John S. Elliott '15 and Paul E. Corriveau '15.

The party, consisting of twenty members, left Durham in automobiles at six o'clock. After the working of the degrees, a symposium banquet was served followed by toasts from some of the more prominent members. After which the party returned to Durham, after one of the most successful and enjoyable banquets in the history of the Fraternity.

#### BILLS PASSED HOUSE.

Word was received last week that the remaining bills, introduced for the college, had successfully been passed by the House of Representatives. At that date, they had not been presented to the Senate, but it is expected that they will be acted upon by the latter body and by the governor within the next few days.

G. B. Huse, 2 yr. '13, has accepted a position as the head of the bottling department of certified milk at Prospect Hill Farm. This is one of the finest farms of its kind in Massachusetts.

## INTERSCHOLASTIC TRACK MEET.

### Successful Event Held Saturday.

By capturing four first places and one second English High School of Boston, Mass., easily won the second annual interscholastic track meet. Tilton Seminary was scored with a total of 14 points, while Concord High pulled third with 10 points.

Howe, of English High, was easily the star of the meet. He captured first place in the 100 yard and 220 yard dashes and the shot put.

One of the best races of the afternoon was the two mile run which was won by Eastman of Concord High.

The high wind kept the men from lowering any records although the time in most events was very fast.

The trials for the 100 yard, 220 yard dashes, the 440 yard run, the 220 yard hurdles and all the field events were run off in the morning.

In the preliminaries for the 100 yard dash, Smith of Newmarket, Howe of English High, Barry of English High, Litchfield of Newton, Stanley of Newton High, Schmidt of Worcester English High, Foster of Newton High, Barton of Portland, Herriek of Manchester and Libbey of Portland qualified. In the semi-finals for this event Howe, Smith, Foster and Stanley qualified. The final was won by Howe, with Smith second and Stanley third, in 10 1-5s.

The mile run was won by Preti of Portland High who is the all Maine interscholastic champion in this event. He was hard pushed however by Eastman of Concord High. Eastman won the two mile race earlier in the afternoon.

Reed of Manchester took an easy first in the pole vault clearing the bar at 11ft, 4½ inches. Evans of Nashua took first in the high jump, showing fine form. He jumped 5ft 6 inches.

In all there were nineteen schools entered, this being seven more than last year. English High was the only team entered in the special mile relay race. They ran an exhibition race in this event.

George B. Clark of the Boston Athletic Association acted as referee. All the officials were competent and the success of the meet is due to their efforts. The events were run in a snappy manner which kept the interest of the spectators keyed to a high pitch.

The scores of the schools are as follows 100 yd Dash—Won by Howe, Boston, English H. S.; Smith, Newmarket H. S., second; Stanley, Newton H. S., third. Time—10 1-5s.

Mile Run—Won by Preti, Portland H. S., Eastman, Concord H. S. second; Buck, Worcester English High, third. Time—5min 2s.

440yd Run—Won by Williams, English H. S., Oberg, Worcester English High, second; Raymond, Tilton, third. Time—57 2-5s.

220 Yd Hurdles—Won by Cook, Dover H. S., Oliver, Portland H. S., second; Murray, Concord H. S. third. Time—29s.

2 Mile Run—Won by Eastman, Con-

cord, H. S., Zwinge, Arlington H. S., second; Meller, Newton H. S., third. Time—10m, 51 3-5s.

220 Yd Dash—Won by Howe, Boston English High; Smith, Newmarket H. S., second; Collett, Dover H. S., third. Time—23s.

880 Yd. Run—Won by Nathan, Newton H. S., second, Ryan, Tilton; third, Brown, Medford H. S., Time—2m, 15s.

Pole Vault—Won by Reed, Manchester H. S., Foster, Newton H. S., second; Gordon, Wakefield H. S., third. Height—11ft, 4½ in.

12 Pound Shot Put—Won by Howe, Boston English High; Ignacio, Boston English High, second; Steele, Manchester H. S., third. Distance—42 ft 6 in

12 Pound Hammer Throw—Won by Fischer, Tilton, Peaslee, Tilton, second; Rolef, Concord H. S., third. Distance—142 ft, 6 in.

High Jump—Won by Evans, Nashua H. S., Schmidt, Worcester E. H., third; Height—5 ft 6 in.

Broad Jump—Won by Atkinson, Newton H. S., McDonough, Manchester H. S., second; Collett, Dover H. S., third. Distance—18 ft 7½ in.

The officials were as follows: Referee G. B. Clark, B. A. A.; clerk of course, Harold Taylor, U. of P.; assistant clerk, R. Beach, C. H. Rogers, R. W. Smart; judges at finish, Prof. Whoriskey, Prof. Rasmussen, P. C. Jones, Tod Eberle;

Field Judges—Prof. Taylor, J. Pinkham, R. Bugbee; timers, F. S. Kilburn, H. C. Holden, Prof. Perley, Prof. Hitchcock; starter—O. W. Pearson, P. E. A.; measurers, A. W. Jennes, H. F. Pearson, P. C. Gale; scorers, Prof. Steek, T. J. Twomey, G. T. Ham; announcer, P. E. Corriveau; marshal, D. P. A. Willard; chief inspector, N. D. Paine; inspectors, J. E. Ladd, C. R. Heath, C. W. Work, L. W. Hilliard, G. A. Lang, J. C. Morgan G. F. Lane.

The college dairy department has just recently manufactured a new food product, lacto, which resembles ice cream very much. It is made from skim milk that has been treated by a commercial pure lactic acid. Besides being cheaper, it is much more healthy than ordinary ice cream. If market conditions are advantageous in the future, lacto will be manufactured commercially by the dairy department.

Last Saturday evening the last informal of the year was held in the gymnasium. Nearly all the participants in the track meet that afternoon were present. At intermission, the winners of first, second and third places in each event were rewarded respectively with gold, silver and bronze medals, while the team winning the meet and the team winning the relay race were presented with handsome silver cups.

Music was furnished by the college orchestra and ice cream was served during the evening.

Mrs. Elmer Savage, who was formerly a student at New Hampshire College, died recently at her home in Utica, N. Y.

The journey by monoplane from Dover, England to Cologne, Germany, 241 miles, in four hours and five minutes shows that the process of eliminating distance is progressing. How long will it be at this rate, before a race can be arranged between an air ship and a thunder-bolt?

"Manchester Union."

DURHAM, N. H., MAY 14, 1913.

The second annual prize reading contest held on the eve of the track meet gratified the highest expectations of those in attendance. The ten speakers, who were chosen from the large number of contestants entered, were masters of the art of reading, affording excellent entertainment for the evening. The English Department, under the auspices of which the contest was held, and the Alumni Association, which furnished the prizes, should both be congratulated upon the success of the competition.

Notwithstanding the bitter cold of last Saturday, the interscholastic track meet held on that day proved a big success. The large number of preparatory school men entered in the different events, an increase over the number of last year, speaks well for the success of the meet of a year ago and for the interest in the college which must prevail in the schools represented. The work of the officials was of high order. The records made were good, Howe of Boston English High School especially distinguishing himself as a sprinter and Reed of Manchester High breaking the college record in the pole vault. The large crowd of spectators, on such a cold day bespoke the popularity of the event. Manager Paine, who was in charge of the meet, and those who assisted him in any way in making the day one long to be remembered by the visitors, should be commended. May similar events in the future be conducted under the same auspicious circumstances.

At a joint meeting of the State Dairyman's Association and the Cheshire County Holstein Breeder's Association, held at Walpole, N. H., Profs. Taylor and Rasmussen spoke on "The Corn and Dairy Industry" and "Granite State Dairyman's Association" respectively.

The agronomy department under the extension service is realizing the importance of proper crop rotation for the maintenance of soil fertility. Laying particular emphasis on this subject, they have sent out press bulletins to farmers throughout the state. These are being heard from in large numbers, as this is the most important and vital subject confronting N. H. agriculture.

The extension service has held fifteen orchard pruning and spraying demonstrations, throughout the state, and report considerable interest and enthusiasm. The effect of these efforts may be understood in part by the fact that from 1100 to 1200 people have been reached during the last two or three weeks.

## PRIZE READING CONTEST SUCCESSFUL.

Annual Event Held in Thompson Hall Last Friday Evening.

The second annual prize reading contest, under the auspices of the English Department of New Hampshire College, was held in Thompson Hall on May 9th, the eve of the interscholastic track and field meet. Trials were held in the afternoon, with Prof. A. E. Richards presiding as judge. From these contestants, ten speakers were chosen to compete in the finals, which were held at eight o'clock. Those who succeeded in getting into the finals were the following: Miss Millis Caverly of Tilton Seminary, David Crockett of Arlington High School, Miss Helen Guild of Pinkerton Academy, John J. Hagerty of St. John's High School, Worcester, Mass., Claude A. LaBelle of Concord High School, Miss Elsie C. Sanborn of Pembroke Academy, Samuel Stratton of Newburyport High School, Norman Francis Whippen of Sanborn Seminary, Miss Marian Elizabeth Woodman of Sanborn Seminary, and Emerson of Milton High School.

The decision of the judges was unanimous in awarding prizes to the following contestants: First prize, John J. Hagerty of St. John's High School, Worcester, Mass., second prize, Claude A. La Belle of Concord High School; third prize, Miss Willis Caverly of Tilton Seminary.

The judges in the finals were Prof. Richard Whoriskey of New Hampshire College, Prof. Clyde Swan of Amesbury High School, and Mr. George T. Hughes of Dover, N. H.

The contest was most successful in every way. Teams were entered from all parts of New Hampshire and various places in Massachusetts. The following schools were represented: Pembroke Academy, Sanborn Seminary, Austin-Cate Academy, Goffstown High School, Tilton Seminary, Arlington High School, Tuck High School of Exeter, Robinson Seminary, Pinkerton Academy, St. John's High School, Manchester High School, Newburyport High School, Concord High School, Medford High School, Colby Academy, Littleton High School, and Milton High School.

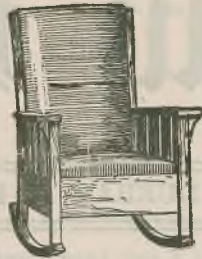

The prizes, which were offered by the Alumni Association, consisted of first prize fifteen dollars; second prize ten dollars, third prize, five dollars.

During the evening, the New Hampshire College Glee Club and Orchestra rendered several selections, which greatly added to the variety and attractiveness of the entertainment. The seats in the chapel were packed, there being several present from out of town. Great credit for the success of the contest is due Prof. A. E. Richards, whose untiring efforts made the event possible.

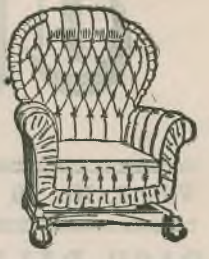

Prof. Gourley has recently returned from Greenland, N. H., where he carried on some demonstration work on "The Use of Cover Crops in Orchards." Prof. Gourley also visited Exeter, N. H., where he has installed for the season a demonstration of systematic spraying.

# DE LAVAL CREAM SEPARATORS

## TIME TESTED

If a member of your family were dangerously ill you wouldn't think of calling in an inexperienced doctor?

Certainly not! You would call a physician, who had built up a reputation, a man with experience and a successful practice.

Why not use the same care and common sense in your selection of a cream separator?

Every little while you hear of some new cream separator, claiming to be a "world beater," and just as good as the De Laval but a little cheaper.

These "mushroom" machines stay in the limelight only until they are "found wanting" by the users and in a short time drop out of sight.

It takes years of experience to build a "good" cream separator. More than 30 years of experiments and experience have made the De Laval pre-eminently the best machine on the market for the separation of cream from milk.

Even were other concerns not prevented by the De Laval patents from making a machine exactly like the De Laval they could not build as good a machine as the De Laval, because they all lack the De Laval manufacturing experience and organization.

If you buy a De Laval you run no risk of dissatisfaction or loss. It's time tested and time proven. Why experiment? Why take chances with an inferior machine when you KNOW that the De Laval is the BEST MACHINE FOR YOU TO BUY?

The new 72 page De Laval Dairy Hand Book, in which important dairy questions are ably discussed by the best authorities, is a book that every cow owner should have. Mailed free upon request if you mention this paper. New 1913 De Laval catalog also mailed upon request Write to nearest office.

## THE GENTLEMAN FARMER STORY.

James J. Hill, apropos of his wonderful phosphorous experiments in wheat growing in Minnesota said the other day

"The gentleman farmer is now teaching the other kind of farmer. The other kind of farmer can no longer say with a grin:

"A gentleman farmer is a man with science enough to run a farm as it should be run, and with money enough to stand the loss.' "

—Washington Star.

## CLIPPINGS.

There are some people not half as fast as the slowest funeral procession.

If you want to be popular, never argue.

Many a cheating man can write an essay to defend his conduct.

A pipe and a big wad in one's trousers' pocket do not make one a "college man."

Some men strive so to become broad that they become shallow.

Some people need more than an alarm clock to put them on their feet.

A man may be fresh and green at the same time. Something like paint.

One of the great troubles with some people is that they don't know how to conserve their time.

Don't let the grass grow under your feet for some enterprising man to follow along and make hay.

A gentleman is a man who never tells the secret of a woman. Therefore there are many men who are not gentlemen.

How good it is that Father Time brings a mist that obscures one's broken dreams and disappointments!

Getting up in the morning—what grab game are you thinking of first?

How many roses are you going to give away to some unfortunate today?

Remember there has been only twenty-eight presidents of the United States so don't worry if you have missed the honor.

Often what looks like bravery is simply a case of "know nothing, fear nothing."

A fellow may have cold feet and yet be able to cut ice.

If the heavens should fall, some people would be selling Paradise at auction.

Some people complain how tired their work makes them and never get to bed before midnight or 1 in the A. M.

Ability to waste time is not a mark of genius.

Kindness, says a newspaper essayist, has no better field for exercise than in conversation. The quality may be manifested: By not revealing the fact that you have heard the story before or by saying, "I heard it this way:" by leading a broken-off conversation back to the starting-point; by avoiding questions that will lead to argument; by avoiding the habit of gazing fixedly at any particular part of the speakers attire. To which may be added, the abstaining from constant nodding of the head to indicate comprehension. (The Outlook.)

## INQUISITIVE STUDENT IN ANATOMY CLASS ASKS:

When can a man buy a cap for his knee?  
Or a key for a lock of his hair?  
Can his eyes be called an academy,  
Because there are pupils there?

In the crown of his head what gems are [set?  
Who travels the bridge of his nose?  
Can he use when shingling the roof of his [mouth  
The nails on the end of his toes?

What does he gain from a slip of his [tongue?  
Who plays on the drums of his ears?  
And who can tell the cut and style  
Of the coat his stomach wears.

Can the crook of his elbow be sent to [jail?  
And if so what did it do?  
How does he sharpen his shoulder [blades  
I'll be hanged if I know—do you?

## A NEW USE FOR DOCTORS.

A farmer rushed up to the home of a country doctor in the village late one night and besought him to come at once to a distant farmhouse.

The medicine man hitched up his horse, and they drove furiously to the farmer's home. Upon their arrival the farmer said:

"How much is your fee, Doc?"  
"Three dollars," said the physician  
is sufficient.  
"Here you are," said the farmer,  
handing over the money, "the blamed  
liveryman wanted five dollars to drive  
me home."

"The Ladies Home Journal."

## THE REASON WHY.

The information editor received this letter from a fresh youth:  
Kindly tell me why a girl always  
closes her eyes when a fellow kisses her.  
The editor replied:

If you will send us your photograph  
we may be able to tell you the reason.  
(Ladies' Home Journal.)  
A FRIENDLY REQUEST.

He was a subject to fainting spells,  
and before starting out he wrote this  
note, which he pinned to his shirt:

To the Doctor: If I fall on the street  
and am taken to the hospital do not  
operate. My appendix have been moved  
twice already.  
(Ladies' Home Journal.)

The world is full of misfits—poor  
people in good jobs.

## BROKEN RECORDS.

All records of dairy sanitation were broken and are now held by

"Wyandotte" is a cleaner cleaner, it always shows a lower bacterial count, it cleans more utensil surface per quantity used, it gives the dairy a more sanitary tone and its cost of using is always less in the end—these are the facts always claimed and you find them true no matter with what cleaning agent you may wish to compare "Wyandotte."

After a thorough investigation all Dairy Colleges know these facts to be the truth, for they use and recommend only Wyandotte Dairyman's Cleaner and Cleanser. To prove these facts to your own satisfaction ask your supply dealer for a sack or write your supply dealer for a keg or barrel.
