PRICE 5 CENTS

TUFTS 52 NEW HAMPSHIRE 0

Heavier Team Proves Our Undoing.

New Hampshire's football team was completely outelassed Saturday on the Tufts oval, losing by the score of 52 to 0.

Tufts heavy team, together with the slippery field, waded through New Hampshire's line almost at will. Tufts resorted to the line plunging game during the first three periods.

New Hampshire stuck entirely to the open game, using the forward pass throughout the entire game. Three of these passes were intercepted by Tufts men, who went straight down the field for a touchdown.

New Hampshire received the kickoff and started off with a rush. By a series of forward passes New Hampshire succeeded in carrying the ball to Tufts 25 yard line. Angell, however, intercepted a forward pass and carried the ball back to the middle of the field.

Tufts took up the line bucking game and Westcott carried the ball across for the first touchdown just as the period closed. Bingham missed the goal.

Tufts kicked off again in the second period but New Hampshire could not gain any ground and Brackett was forced to punt. Tufts carried the ball to New Hampshire's 15 yard line where they were held for downs. Angell intercepted a forward pass, however, and after line plunges by Angell and Westcott, Parks carried the ball over for a touch down.

After the next kick off New Hampshire, by a series of forward passes, carried the ball to the center of the field where Bennett intercepted another forward pass and ran 60 yards for a touch down. Parks kicked the goal. The half ended shortly after with Tufts in possession of the ball on New Hampshire State's 20-yard line.

Tufts scored again at the beginning of the third period by intercepting a forward pass intended for Davis and ran the field for a touchdown. On the kick-off Brackett ran the ball back to the downs. Tufts carried the ball to the 4 yard line as time was called. On the first play in the fourth period Angell went over for another touchdown. Cronin kicked the goal.

New Hampshire braced after this and the middle of the field where Proctor intercepted a pass and ran to the 35-yard line before he was downed. The blue and white held them for downs but Tufts regained the ball on a punt that went outside. A forward pass netted the seventh touchdown.

On the longest forward pass of the game, Stankard netted 40 yards, allowing Angell to score on the next play.

The summary:

New Hampshire	Tufts
Westover le	re Bennett
Huse (Thompson) lt	re Stankard
Dodge lg	re O'Gorman
Murdock c	rt Boothby
Reardon rg	rt Bingham
Haines (Bowden) rt	rg Dadmu

Corriveau re	rg Babcock

	fb, Turner

Score: Tufts 52, touchdowns, Angell 3, Westcott 2, Parks, Bennett, McIver. Goals from touchdowns, Parks 3, Curvin. Umpire, A. B. Farnum, Dartmouth. Referee, F. G. Hapgood, Brown, Linesman, F. McLaughlin, Harvard. Time, three 12 m. and one 10m. periods.

GIFT TO COLLEGE.

Through the generous donation of a friend of New Hampshire College, four excellent portfolios have been presented to the library. These volumes contain illustrations of the history of the art of writing, tracing from the earliest historical periods down to modern times. The volumes are bound, and are placed in the library, where they are used for various purposes. They are bound in beautiful brown and yellow covers, and present a very attractive appearance reflecting great praise and credit to the giver.

AN ANIMAL HUSBANDRY EXPERIMENT.

A very interesting experiment is about to be conducted by Professor Jones of the Animal Husbandry Department. Professor Jones has imported a Toucan breed with which he will cross some of the better varieties of sheep. It is hoped that a breed of sheep may thereby be developed having long bills and able to get the grass growing in the crevices of some of New Hampshire's rocky pastures. Professor Mitchell, who is an expert on the breeding of the Toucan, is greatly interested in the experiment, and has great faith that Prof. Jones will be able to bring about the desired result.

ALUMNI ASSOCIATION ELECTS OFFICERS.

At a recent meeting of the New Hampshire College Alumni Association, the new officers for the ensuing year were elected. President, Charles E. Hewitt, who had served so efficiently for several years, declined to be candidate for reelection. Wallace F. Furrington, '06, was chosen to succeed him, while Moses B. Mann, '84, was selected as vice president and Thoms J. Laton, '04, was chosen as secretary and treasurer. The Alumni Council consists of the following men: Frank A. Davis '87; Charles A. Hubbard '77; Charles H. Hood '80; Charles A. Hunt, '01; John C. Kendall, '02; Arthur L. Sullivan '02; and George A. Perley '08.

James H. Cahill's family arrived last Wednesday from Waterbury, Conn.

INTERFRATERNITY AGREEMENT

As Drawn Up By The Fraternities Represented in Casque And Casket.

We, the undersigned, acting for our fraternities, do promise and agree not to invite any student who has registered in the college for the first time after June 1st, 1913, to join our fraternity before 2 P. M., October 22nd, 1913.

The following rules will be observed:

1. No new student shall be rushed after 8 o'clock P. M. on evenings other than Saturday (with the exceptions as stated in the following section), except when new students are out of town and are not met by previous appointment.

2. No fraternity shall hold more than two freshman parties during the "chinning" season on evenings other than Saturday.

3. All bids shall be given in the form of a uniformly worded letter presented directly after chapel October 22d.

4. No engagements shall be made for "chinning" done before 7 P. M. October 22nd. "Chinning" shall cease at 11 P. M. on that date until 7 A. M. the next morning. No freshman shall be taken to any fraternity house, nor pledge pins be worn, before 7 A. M. October 23rd.

5. If, at 7 P. M. on the day of the bids, representatives of more than one fraternity wish to interview a man, they shall draw lots to determine the order in which the representatives of any one fraternity may interview the new student. This right of interview shall be limited to twenty minutes and shall be given up promptly to the next representatives in the order above mentioned. This length of interview and the above order shall be adhered to throughout the evening.

6. No student shall be invited after the regular "chinning" season to join our fraternity until thirty days after registration in college, and such student shall not be pledged until thirty-one days after his registration. Time of registration to be considered 12 M.

7. No student shall be considered pledged to a fraternity until he wears his pledge insignia publicly.

8. The wearing of the pledge insignia publicly binds a man to join the fraternity whose insignia he first wears, and by this he shall never be eligible to membership in the other fraternities of the college.

9. Furthermore, we promise and agree to allow no student, registered for the first time after June 1st, 1913, to room or board in our fraternity houses before he is pledged.

10. Engagements for week-day meals shall not be made for more than 48 hours in advance. Engagements for either Saturday nights or Sundays shall not be made for more than two weeks in advance.

11. Lastly, we hereby agree to obey these rules in spirit as well as in letter.

A printed copy of these rules shall be given to each new man.

NOTICE.

All persons desiring to "try out" for the editorial staff of "The New Hampshire" will report to A. E. Bartlett, '15 for instructions and work.

REORGANIZATION OF THE COLLEGE ORCHESTRA.

At the tryout for the college orchestra, held last Thursday evening, Sept. 25, a marked increase of interest was shown. Three violinists, three cornetists, and three drummers were among the new candidates.

Mr. Dresser hopes to have a first class orchestra, now that a drummer has been added. No arrangements have been made yet as to trips except to Exeter, but a five piece team expects to make trips to nearby towns, to play at dances.

At present the orchestra is composed of the following pieces:

C. J. Dresser '14, piano. (Leader.)

R. J. Bugbee '16, violin.

M. J. Brogini '15, 1st. cornet.

G. B. Arnold '15, 2nd cornet.

S. B. Emerson '15, bass viol.

F. S. Manter, '16, trombone.

C. A. Weigle '16, 1st violin.

H. M. Eastman '16, clarinet.

V. W. Batchelder, (new) '17, violin.

H. C. Robinson '17, (new) drummer.

E. S. Ross '17, (new) 2nd violin.

FROM E. W. SCOTT.

One of the illustrated articles in "Everybody's" for August is "Big Brothers and Little" by Henry Rood. Mr. Rood, between 1886 and 1888 was connected with New Hampshire College. He had previously had some connection with a Philadelphia paper and knew something about the work of a reporter. During his connection with the college there was a very serious accident upon the Central Vermont. Mr. Rood was one of the first reporters to get to the scene of the accident and he sent full reports to his Philadelphia paper. Since leaving college his work has been a journalist and he has held an important position in connection with one of the New York papers. Besides magazine articles he has written at least two novels.

FROM THE DAILY PATRIOT.

Carl D. Kennedy, the Concord boy who has had many exciting experiences in the beleaguered town of Montmorency, in Mexico, is on his way to his home in this city. His father, William Kennedy, received a telegram this forenoon from San Antonio, Texas, announcing the fact that he had gotten out of Mexico and was on his way to Concord.

Mr. Kennedy will go to St. Louis from San Antonio and will then go to Annapolis, Md., to see his brother, Robert Kennedy, who was at his home in this city recently on a furlough. Following a short visit with his brother at the naval academy, he will start for Concord arriving probably in about one week. "The Daily Patriot," Concord N. H.

P. L. Gowen '12, is engaged in experiment station work in Maryland.

J. C. Morgan '13 is taking graduate work at Cornell University.

P. C. Gale '13, is engaged with the Stone Webster Company in Florida.

Philip Gale goes to Florida in employ of Stone & Webster.

DURHAM, N. H., Oct. 9, 1913.

One of the greatest needs of the student life of New Hampshire College at the present time is a better and stronger organization of the undergraduate activities. The urgent need of a stronger affiliation with the college authorities is being felt in more than one department of the various organizations of the student body.

The laxity and carelessness, which has been handed down by custom and usage from past years, in the methods, used by the officers in charge of the different activities, is hardly recognized by the majority of the students, and alumni as well, until some glaring catastrophe or incredible set of facts reveals the weaknesses of the present system. The athletic association is perhaps the only student activity which is now being conducted with due prudence and safety both to its own existence and to all others who may be interested in its welfare. The strength of this organization lies in its affiliation and alliance with the college itself. Not until this union was brought about was the athletic association conducted in a manner which could be considered safe, financially or otherwise.

This system, which is being used so successfully by this organization, might be utilized in an ideal way by the other activities of the college. Not that the men in college today are in any degree less capable or efficient than formerly; the faults of the present activities are not with the men but with the methods employed. So long as these organizations are conducted along the present methods without being "backed" or allied in some way with the college itself, there will continue to be more or less trouble and inconsistency in the results attained. Then and not until then will the student activities of New Hampshire College be conducted along the most profitable and efficient lines.

COLUMBUS DAY.

As Columbus Day falls on Sunday, this year, next Monday, the 13th will be observed by the college, as the holiday, college exercises being suspended on that date.

ALUMNI NOTES.

Jesse R. Christie '13, is taking up work in the University of Kentucky.

Roy H. Knight '13, is taking graduate work at New Hampshire College.

Harold A. Robinson '13, has a teaching fellowship, leading to Master's degree, at the Massachusetts Agricultural College.

Harold F. Peavey '13 was a recent visitor in Durham.

PROF. RASMUSSEN MAKES EXTENSIVE TOUR.

Prof. Fred Rasmussen of the dairy department spent the greater part of last week in various places in northern New Hampshire. On Tuesday he spoke in Jefferson, where he has been making the final arrangements in the organization of a cow testing association. The subject of his talk was: "The Advantages of the Cow Test Association in New Hampshire." On Wednesday he spoke at the annual convention of the County Young Men's Christian Association of Sullivan County. The subject of his discourse was "Rural Co-operation."

On Wednesday evening he gave an address at the annual Grange Fair which was held in Canaan, N. H. Here he spoke on "New Hampshire College and the Advantages of the College Education."

WOMAN'S LEAGUE ORGANIZED.

A woman's league, designed to promote better fellowship and closer feeling between the women undergraduates of New Hampshire College has recently been organized. This plan has been tried out by many of the colleges and higher institutions of the West and has been found to bring about fruitful results. All alumnae, wives of alumni, women of the faculty and experiment station staff, and students are eligible to the membership of the organization. The league was organized last June at the close of the college year by Miss Mable Hodgkins and Miss C. A. Block. The growth of this league, in the short time that it has been in existence, has been remarkable, and with the increasing number of women students in the college, it is expected that the organization will grow rapidly in numbers and in the results desired. The executive committee includes the officers and two outside members, one of the latter being a student, while at least two of the officers must be students.

B 4 New Hampshire AGRICULTURAL CLUB MEETING.

Last Monday evening the first regular meeting of the Agricultural Club was held in Morrill Hall. Clifford Sawyer '15 was elected treasurer to fill the vacancy, caused by Charles E. Roberts, who has not returned to college. After the club was conducted, a short but very interesting program was carried off. Prof. O. L. Eckman spoke upon the work of the stock judging team and what he hoped to do in the future, emphasizing the need of keen competition among candidates for the teams.

Walter Swett then gave a few remarks on the work of the stock judging team this year at Brockton Fair.

Prof. J. H. Gourley was next called upon and he responded by reading a very interesting and helpful paper on the apple districts of Nova Scotia, explaining the methods employed in that section.

GRANGE MEETING.

Last Tuesday evening, Prof. O. L. Eckman addressed the Scammell Grange on "Povine Tuberculosis." This subject is one which is now being discussed in nearly every dairy section of the country, and Prof. Eckman's remarks proved to be of immense value and helpfulness.

C. O. Crown '11, has a Robert Kennedy Duncan fellowship, in industrial research in Chemistry at the Millan Institute, University of Pittsburg.

L. W. Bennett '11, Instructor in Drawing at Cornell University last year, is now at the University of Pennsylvania.

"SAVING THE COST" OF A DE LAVAL Cream Separator.

Almost invariably the man who goes without a separator or buys an inferior one does so to "save the cost" of a De Laval.

No reasoning could possibly be more deceptive. No greater mistake could possibly be made.

The only way to actually save the cost of a De Laval Cream Separator is through the purchase and use of one.

In that way you save the cost the first year, and the same saving goes into your pocket every year afterward for twenty years or more.

Without a separator you don't "save" anything—you waste the cost of a De Laval every year in quantity and quality of product and have nothing to show for it.

And so too with a poor separator, you waste the slight first cost saving over a De Laval half a dozen times over every year and still have only the poor machine in the end.

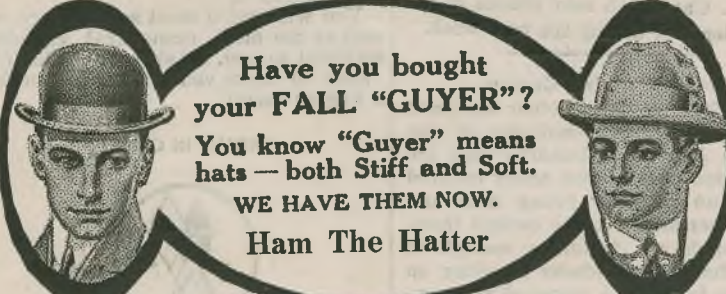

You "pay" for a De Laval separator every year whether you want to or not. With a De Laval it goes into your pocket every year after the first one. Without a De Laval the same amount goes to waste every year and benefits no one.

Will you pay for your De Laval and have it or go on paying for it every year and not have it?

A new De Laval catalog to be had for the asking may help you to decide.

NEWSY NOTES.

In the student stock judging contest held at Brockton Fair last week, New Hampshire College won second place.

Teams representing the six agricultural colleges in New England competed. It was possible for each team, represented by three members, to score 3,000 points.

The University of Maine scored 2667.5 points and took first place; New Hampshire was second with 2605 points; Rhode Island, third with 2590 points; Vermont, fourth with 2495 points; Massachusetts, fifth with 2387 points, and Connecticut, sixth with 2287.5 points.

New Hampshire's team was composed of A. O. McCartney, W. W. Sweet and S. D. Jessman.

In the individual contest J. R. Hudson of the University of Maine won first place.

Thursday, the 2nd. President Fairchild delivered an oration, at a meeting of the Woman's Club at Exeter, to the young women of the state.

Wednesday the 15th of next week, President Fairchild will address the Grange at North Conway.

Wednesday the 15th of next week, it is expected that the governor, and some of the trustees of New Hampshire College will address the students at chapel.

The total enrollment in New Hampshire College is now 382.

Oct. 2. Professor Richards entertained his sister.

Plans are being formulated for the erection of new poultry houses.

In this new poultry division under the animal husbandry department, there will be lectures, and a course taking up types and breeds, feeding fattening, dressing, laboratory work and house construction and location. The most important breeds will be secured.

As much extension work as possible will be carried on.

This will all be in the first semester's work.

Wednesday and Thursday of last week Mr. Mitchell went to Brockton fair and to Boston where he made a study of the markets.

President Fairchild has been engaged in working up a list of speakers for the chapel exercises. Special effort has been made to secure representative men from the great industries, as well as writers and scholars.

Clayton W. Work, '13, is with the Westinghouse Machine Co., Pittsburg, Penn.

The "block" was the scene, recently, of a Sophomore-Freshman scuffle. The disturbance was caused by the removal of a poster from Brackett's Emporium. The Freshmen robbers were severely spanked by their opponents and the poster was returned.

Margaret DeMerritt, '11, has returned home from the Wentworth Hospital, where a severe attack of pluerisy kept her for a month, preventing her return to St. Louis.

Maurice D. Merll, '09 has given up his school in Connecticut to enter commercial work in Epping.

Albert H. Brown '11, was obliged to resign his position as teacher of agriculture in High School, at Petersham, Mass., owing to the illness of his father in Strafford.

Oren L. Farwell, '08, has bought the old homestead in Chesham, N. H., and settled down to farming.

Arthur H. Colby, '11 has left Pinkerton Academy, Derry, and gone to (Cornell? Ask Gamma Theta.)

Stephen DeMeritt, '12, was obliged to cancel his engagement with an electric company in St. Albans, Vt., owing to the sudden death of his father, Albert DeMeritt, whose energetic work for N. H. C., has made possible a fine engineering building.

College Men's Shoes.

Here are the new shoes for Fall. The sort of shoes that nothing can prevent the young college man from having. Our lines of very smart shoes are touching a responsive chord in the hearts of young men who go the style limit.

We are never without oxfords at any season of the year, for some like to wear them the year round. Also pumps that are up-to-date for the social dance etc.

We also call attention to our large stock of shoes for women, and also hosiery for both men and women.

AUTO TRIP TO WHITE MOUNTAINS.

Last Saturday and Sunday, several members of the faculty enjoyed an extensive automobile trip to the White Mountains. The trip was started early Saturday morning, led by Prof. F. W. Taylor, the return trip being made on the following day.

BIBLE STUDY STARTED.

Bible study classes have already been organized by the New Hampshire Christian Association. Three classes have been formed, one for the upper classmen, led by Rev. Knight, one for the freshmen, led by Prof. Guy C. Smith, and one for the two-year men, led by Prof. Charles Steek. These classes meet in the church every Sunday at 12 o'clock, the meetings last one hour. Those, who have been to the meetings feel that the time spent is amply repaid, and recommend that as many as possible avail themselves of this opportunity.

R. E. Camc, '15 sold tickets at the Rochester Fair during the past week.

Peculiar Alpine Custom.

A curious eastern custom has been observed for many centuries in the western Alps. One hundred eggs are distributed over a level space covered with sand and the young men and women perform a dance around them. If a couple are fortunate enough to finish the dance without breaking an egg it is taken as a token of the compatibility of their temperaments and they are betrothed.

A Hint to the Wise.

A wise wife soon learns to manage her husband, while a wise husband never tries to manage his wife.

Hen Puts Sermon on Egg.

Arthur Moore, a farmer living near Shuqulak, Miss., found an egg on which appears the words "Watch and Pray," in raised letters as perfectly formed as if molded. The "W" and "P" are in capitals and the others letters in lower case. Moore says he found the egg in a nest with two others.

They Want Better Milk.

If you ask any Dairy Inspector what to use for cleaning dairy utensils he will say

His mind is set upon bettering milk quality and he knows the cleanliness produced by Wyandotte Dairyman's Cleaner and Cleanser is just the kind necessary to protect milk quality from germs, odors or dirt.

And for the creamery and cheese factory all inspectors advise Wyandotte Dairyman's Cleaner and Cleanser because the last step of the dairy producing business is quite as important as the first, and "Wyandotte" keeps the butter and cheese utensils thoroughly sweet and sanitary.

This "Wyandotte" cleanliness cannot be duplicated by any other cleaning agent, otherwise Dairy Inspectors and Agricultural College Authorities would not recommend it exclusively. "Wyandotte" is made purposely for dairy cleaning and that is why no greasy, soapy substances, or strong chemicals are found in it.

You will find it most satisfactory, as well as the most economical cleaning material to use. Ask your dealer for sack or write your supply house for a keg or barrel.
